TITLE I

Provisions on the definition of the concept of 'originating products'

Article 1

For the purpose of the Agreement between the European Economic Community and the Lebanese Republic, the following shall be considered as:

1. Products originating in the Community, subject to their having been, within the meaning of Article 5, transported direct to the Lebanon:

- (a) products wholly obtained or produced in the Member States;
- (b) products obtained or produced in the Member States in the manufacture of which products other than those referred to in (a) have been used, if those products have been sufficiently worked or processed within the meaning of Article 3. This condition does not apply to products originating in the Lebanon, with the meaning of this Protocol.

2. Products originating in the Lebanon, subject to their having been, within the meaning of Article 5, transported direct to the importing Member State:

- (a) products wholly obtained or produced in the Lebanon;
- (b) products obtained or produced in the Lebanon in the manufacture of which products other than those referred to in (a) have been used, if those products have been sufficiently worked or processed within the meaning of Article 3. This condition does not apply to products originating in the Community, within the meaning of this Protocol.

This Protocol shall for the time being not apply to the products specified in List C.

Article 2

For the purpose of Article 1 (1) (a) and (2) (a) the following shall be considered as 'wholly obtained or produced', either in the Member States or in the Lebanon:

- (a) mineral products extracted from the ground or from the seabed thereof;
- (b) vegetable products harvested therein;
- (c) live animals born and raised therein;
- (d) products derived from live animals;

Article 3

For the purposes of Article 1 (1) (b) and (2) (b) 'sufficiently worked or processed' means:

- (a) subjected to working or processing as a result of which the goods so manufactured are classified under a different tariff heading from that of any of the constituents, with the exception, however, of those goods specified in List A, to which the special provisions of that list apply;
- (b) subjected to the working or processing specified in List B.

'Tariff heading' means a heading of the Brussels Nomenclature for the Classification of Goods in Customs Tariffs.

Article 4

Where Lists A and B, referred to in Article 3, provide that goods manufactured in a Member

State or in the Lebanon may be considered as originating therein only if the value of the products used in their manufacture does not exceed a given percentage of the value of the goods so manufactured, the values for determining this percentage shall be as follows:

— on the one hand:

for products the importation of which can be proved: their value for customs purposes at the time of importation;

for products of undetermined origin: the first verifiable price paid for those products in the territory of the State where manufacture takes place;

— on the other hand:

the ex-factory price of the goods manufactured, less internal charges refunded or to be refunded on exportation.

Article 5

The following shall be considered as transported direct from the exporting Member State to the Lebanon or from the Lebanon to the importing Member State:

- (a) products transported without passing through territories other than those of the Contracting Parties;
- (b) products transported through territories other than those of the Contracting Parties or with transshipment in such territories provided that passage through or transshipment in such territories is covered by a single transport document made out in a Member State or in the Lebanese Republic.

Transshipment in ports situated in territories other than those of the Contracting Parties, when this transshipment is attributable to *force majeure* or events at sea, shall not be considered as interruptions of direct transport.

TITLE II

Provisions on the organization of methods of administrative cooperation

Article 6

'Originating products' within the meaning of this Protocol shall be accepted in the importing Member

State or in the Lebanon as coming under the Agreement, on production of a movement certificate A.RL.1 endorsed by the customs authorities of the Lebanese Republic or the Member State.

However, products sent by post (including parcel post) shall, on production of form A.RL.2 be accepted in the Member State or in the Lebanon as coming under the Agreement if the packets contain only originating products and if the value does not exceed 1 000 units of account per packet, and if each packet bears the label shown in part 2 of the form.

Article 7

Movement certificate A.RL.1 shall be endorsed only upon written application by the exporter made out on the form prescribed for this purpose.

Article 8

Movement certificate A.RL.1 shall be endorsed by the customs authorities of the exporting State at the time of exportation of the goods to which it relates. It shall be made available to the exporter as soon as exportation has been actually effected or ensured.

Exceptionally, movement certificate A.RL.1 may be endorsed after exportation of the goods to which it relates if, through error or inadvertent omission in special circumstances, it was not produced at the time of exportation. In that case a special note shall be added explaining the circumstances in which it was endorsed.

Movement certificate A.RL.1 may be endorsed only where it can serve as documentary evidence for the application of the preferential treatment provided for by the Agreement.

Article 9

Movement certificate A.RL.1 must be submitted within four months of the date of endorsement by the customs authorities of the exporting State to the customs office of the importing State where the goods are presented.

Article 10

Movement certificate A.RL.1 shall be made out in the form shown in Annex V. It shall be in one of the official languages of the European Economic Community and shall comply with the internal laws of the exporting State. It shall be typed or handwritten; if the latter, it shall be in ink in block letters.

The size of the certificate shall be 210×297 mm. The paper used shall be white sized writing paper not containing mechanical pulp, and weighing not less than 64 g/m^2 or between 25 and 30 g/m^2 if airmail paper is used. It shall have a printed green guilloche-pattern background such as to reveal any falsification by mechanical or chemical means.

A band consisting of three blue stripes, each 3 mm wide, shall be printed diagonally across the front of each certificate from the lower left to the top right corner.

Each certificate shall bear a serial number to assist in identification.

The Member States and the Lebanese Republic may either themselves print the certificate forms or entrust the work to printers authorized by them. In the latter case reference to that authorization must appear on each form. Each certificate must bear the name and address or a distinguishing mark of the printers.

Article 11

The movement certificate A.R.L.1 shall be submitted to the customs authorities of the importing State in accordance with its procedural requirements. Those authorities shall have the right to require a translation of it. They may require the import declaration to be supplemented by a statement by the importer that the goods satisfy the conditions required by the Agreement.

Article 12

Form A.R.L.2, a specimen of which is shown in Annex 6, shall be completed by the exporter. It shall be in one of the official languages of the European Economic Community and shall comply with the internal laws of the exporting State. It shall be typed or handwritten; if the latter, it shall be in ink in block letters.

Form A.R.L.2 shall consist of two parts, each measuring 210×148 mm. The paper used shall be white sized writing paper not containing mechanical pulp, weighing not less than 64 g/m^2 . A band consisting of three blue stripes, each 3 mm wide, shall be printed diagonally across the front of part I and the label in part II from the lower left to the top right corner.

Form A.R.L.2 may be perforated by machine so that the two parts may be detached, as also the label in part II. The reverse of the label may be gummed.

The Member States and the Lebanese Republic may either themselves print the forms or entrust the work

to printers authorized by them. In the latter case, reference to that authorization must appear on each form. Each form shall bear the name and address of the printer or their distinguishing mark. Each panel of the form shall bear an identifying serial number.

Article 13

A form A.R.L.2 shall be made out for each postal packet. After completing and signing both parts the exporter shall place his declaration (part I) inside the packet and affix the label from part II to the outer wrapping.

These provisions shall not exempt exporters from compliance with the other formalities laid down by customs or postal regulations.

Article 14

Unless improper use is suspected, the customs authorities of the Member State or of the Lebanese Republic shall apply the provisions of the Agreement to the goods contained in a packet bearing a label A.R.L.2.

In order to make a random check or where an irregularity is suspected, the customs authorities of the Member State or of the Lebanese Republic may request verification by the customs authorities of the Lebanese Republic or of the Member State, sending them for that purpose part I of form A.R.L.2 which was enclosed in the packet, and they may await the results of that verification before applying the provisions of the Agreement. In such cases the goods may be released to the importer subject to such safeguards as may be considered necessary.

Article 15

1. The Member States and the Lebanese Republic shall, without requiring the production of a movement certificate A.R.L.1 or the completion of form A.R.L.2, apply the provisions of the Agreement to goods imported in small packets addressed to individuals or contained in the personal luggage of travellers, if these goods serve no commercial purpose and they are declared to comply with the conditions required for the application of these provisions and the accuracy of this declaration is not in doubt.

2. Imports shall be considered as serving no commercial purpose if they are occasional and consist exclusively of goods for the personal or family use of the addressees or travellers; the nature or quantity of such goods must not be such as might indicate that

they are being imported for commercial reasons. Furthermore, the total value of these goods must not exceed 60 units of account for small packets or 200 units of account for the contents of the personal luggage of travellers.

Article 16

1. The provisions of the Agreement shall be applied to the importation into the Lebanon or into a Member State of goods sent from a Member State or from the Lebanon for exhibition in another country and sold after the exhibition, on condition that the goods meet the requirements of this Protocol qualifying them as originating in the exporting country and provided that it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these goods from the Member State or from the Lebanon to the country in which the exhibition is held and has exhibited them there;
- (b) the goods have been sold or otherwise disposed of by that exporter to someone in the Lebanon or in a Member State;
- (c) the goods have been consigned during the exhibition or immediately thereafter to the Lebanon or to a Member State in the same conditions as that in which they were sent for exhibition;
- (d) the goods have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A movement certificate A.RL.1 must be produced to the customs authorizing the importing State in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the goods and the conditions under which they have been exhibited may be required from the country where the exhibition took place.

REGULATION (EEC) No 155/74 OF THE COUNCIL

of 17 December 1973

on imports of citrus fruits originating in the Lebanon

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Article 2

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof;

Having regard to the proposal from the Commission;

Having regard to the Opinion of the European Parliament;

Whereas the Agreement between the European Economic Community and the Lebanese Republic provides in Article 5 of Annex I thereto for tariff reductions on imports into the Community of certain citrus fruits originating in the Lebanon; whereas, during the period in which the reference price applies, the reduction is subject to observance of a price fixed on the internal market of the Community; whereas detailed rules of application must be adopted to implement the system in question;

Whereas the system proposed should form part of the common organization of the market in fruit and vegetables; whereas, therefore, account should be taken of the provisions of Council Regulation (EEC) No 1035/72 ⁽¹⁾ of 18 May 1972 on the common organization of the market in fruit and vegetables, as last amended by Regulation (EEC) No 2745/72 ⁽²⁾ and of the provisions adopted in application of that Regulation,

HAS ADOPTED THIS REGULATION:

Article 1

This Regulation prescribes the detailed rules for applying the system of preferences provided for in Article 5 of Annex I to the Agreement between the European Economic Community and the Lebanese Republic for the following products originating in the Lebanon.

ex 08.02 A: Fresh oranges

ex 08.02 B: Mandarins and satsumas fresh;
clementines, tangerines, and other
similar citrus hybrids, fresh

ex 08.02 C: Fresh lemons

⁽¹⁾ OJ No L 118, 20. 5. 1972, p. 1.

⁽²⁾ OJ No L 291, 28. 12. 1972, p. 147.

1. In order that the conditions referred to in Article 5 (2) of Annex I to the abovementioned Agreement be met, the prices on representative Community markets recorded at, or converted to, the import/wholesale stage taking into account conversion factors and deducting import charges other than customs duties — the factors, and charges aforesaid being those used in calculating the entry price referred to in Regulation (EEC) No 1035/72 — must, for a given product, be those calculated in due course for Class I pursuant to the first indent, second subparagraph, of Article 24 (2) of Regulation (EEC) No 1035/72 and be equal to or higher than the price defined in Article 3.

2. The Commission shall calculate the amount to be deducted in respect of import charges other than customs duties, in so far as prices notified to the Commission by Member States include these charges, so as to avoid any difficulties arising from the effect of these charges on entry prices which may vary according to origin. Accordingly, an average mean corresponding to the arithmetical mean between the lowest and the highest charges shall be taken into account for the calculation.

The detailed rules for applying this paragraph shall be determined, as may be necessary, in accordance with the procedure laid down in Article 33 of Regulation (EEC) No 1035/72.

3. The representative Community markets within the meaning of paragraph 1 are those used for recording the prices on the basis of which the entry price referred to in Regulation (EEC) No 1035/72 is calculated.

Article 3

The price referred to in Article 2 (1) shall be equal to the reference price in force for that period plus the Common Customs Tariff charge thereon and a fixed charge of 1.20 units of account per 100 kilogrammes.

Article 4

Where the prices referred to in Article 2 (1) in respect of one of the products listed in Article 1, after taking into account the conversion factors and deducting import charges other than customs duties, remain

lower on the lowest priced representative Community markets than the price laid down in Article 3 for three consecutive market days, the Common Customs Tariff duty in force at the date of importation shall apply to that product.

This arrangement shall continue to apply until these prices on the lowest priced representative Community markets are found to be for three consecutive market days equal to or higher than the price laid down in Article 3.

Article 5

The Commission on the basis of prices recorded on representative Community markets and notified by Member States, shall follow price trends regularly and record them in accordance with Article 4.

The measures required for this purpose shall be adopted in accordance with the procedure laid down in Regulation (EEC) No 1035/72 for applying compensatory charges to fruit and vegetables.

Article 6

Articles 23, 24, 25, 26, 27 and 28 of Regulation (EEC) No 1035/72 shall remain in force.

Article 7

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall apply from the date of the entry into force of the abovementioned Agreement until such time as the Agreement shall cease to have effect.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 December 1973.

For the Council

The President

I. NØRGAARD

REGULATION (EEC) No 156/74 OF THE COUNCIL

of 17 December 1973

on imports of olive oil from the Lebanon

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof;

Having regard to the proposal from the Commission;

Having regard to the Opinion of the European Parliament;

Whereas Article 8 of Annex I to the Agreement between the European Economic Community and the Lebanese Republic (hereinafter called 'the Agreement') makes provision for special treatment to be accorded to imports of olive oil falling within subheading No 15.07 A II of the Common Customs Tariff, obtained entirely in the Lebanon and transported direct from that country to the Community; whereas, before that treatment can be accorded, rules for its application must be adopted;

Whereas provided that the Lebanese Republic imposes a special charge on exports, this special treatment involves a standard rebate of 0.50 units of account per 100 kilogrammes on the levy charged on such oil and also a reduction of that same levy corresponding to the amount of the special charge, up to a maximum of 4 units of account per 100 kilogrammes;

Whereas it is necessary to lay down that, in accordance with the Agreement, the special export charge should have the effect of increasing the price of the oil on importation into the Community,

HAS ADOPTED THIS REGULATION:

Article 1

Where the Lebanese Republic imposes the special charge on exports of olive oil other than refined olive oil falling within subheading No 15.07 A II of the Common Customs Tariff, obtained entirely in the Lebanon and transported direct from that country to the Community, the levy on imports upon the importation of such oil into the Community shall be

the levy calculated in accordance with Article 13 of Council Regulation No 136/66/EEC ⁽¹⁾ of 25 October 1966 on the establishment of a common market in oils and fats, less:

- 0.50 units of account per 100 kilogrammes, and
- an amount equal to the special charge imposed by the Lebanese Republic on exports of that oil, up to a maximum of 4 units of account per 100 kilogrammes.

Article 2

The treatment provided for in Article 1 shall be applied to all imports in respect of which the importer provides proof that the special export charge referred to in the said Article is reflected in the import price.

Article 3

Where the Lebanese Republic does not impose the special export charge, the levy on imports into the Community of the oil referred to in Article 1 shall be the levy calculated in accordance with Article 13 of Regulation No 136/66/EEC, less 0.50 units of account per 100 kilogrammes.

Article 4

Detailed rules for the implementation of this Regulation, and of Article 2 in particular, shall be adopted in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC.

Article 5

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall apply as from the entry into force of the Agreement, and during the subsistence of the latter.

⁽¹⁾ OJ No L 172, 30. 9. 1966, p. 3025/66.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 December 1972.
