EUROPEAN PARLIAMENT

DECLARATION OF FINAL ADOPTION OF AMENDING AND SUPPLEMENTARY
BUDGET No 3 OF THE EUROPEAN COMMUNITIES FOR THE FINANCIAL
YEAR 1975

(76/199/ECSC, EEC, Euratom)

THE PRESIDENT OF THE EUROPEAN PARLIAMENT,

- Having regard to the Treaty establishing the European Coal and Steel Community, and in particular Article 78 (7) thereof;
- Having regard to the Treaty establishing the European Economic Community, and in particular Article 203 (7) thereof;
- Having regard to the Treaty establishing the European Atomic Energy Community, and in particular Article 177 (7) thereof;
- Having regard to preliminary draft amending and supplementary budget No 3 of the European Communities for the financial year 1975 as submitted by the Commission;
- Having regard to draft amending and supplementary budget No 3 of the European Communities for the financial year 1975 as established by the Council;
- Having regard to the deliberations of the European Parliament on 13 November 1975;
- Having regard to the resolution adopted by the European Parliament on 13 November 1975;
- Having regard to the fact that the Council has not modified the amendment adopted by the European Parliament at its sitting of 13 November 1975;
- The procedure laid down in Articles 78 of the Treaty establishing the European Coal and Steel Community, 203 of the Treaty establishing the European Economic Community and 177 of the Treaty establishing the European Atomic Energy Community having thus been completed,

DECLARES THAT:

Sole Article

Amending and supplementary budget No 3 of the European Communities for the financial year 1975, as shown in the Annex hereto, is finally adopted.

Done at Brussels, 3 December 1975.

The President
of the European Parliament
Georges SPENALE

Article	Item	Remarks
510		Revenue representing the contributions from complementary programmes is allocated to this Chapter. A detailed breakdown of these contributions is given in Annex A to the statement of revenue for research and investment activities. The scale governing Member State contributions to the complementary programmes (1973-76), 'Plutonium and Transplutonic Elements' and 'Supervision and Management of Fissile Material', shown in Annex A to that statement of revenue, was calculated on the basis of the relative shares included in supplementary budget No 3 for 1975. As regards the complementary programmes, 'HFR reactor' (Chap. 4.13) and 'Biology — adaptation of nuclear techniques to agricultural and medical research' (Chap. 5.20), the Council has fixed the scale governing contributions on an <i>ad hoc</i> basis (see Annex A to the statement of revenue for research and investment activities).

⁽¹⁾ Including fiscal duties levied by the customs. Fiscal duties represent some 89% of Ireland's customs duties and 87% of those of the United Kingdom.

Total own resources to be remitted = Tables 2 A and 2 B.

3 930 833 611

Note on Table 2 B

The own resources for Ireland and the United Kingdom (point 4) are considerably in excess of the sums actually due from these two countries, despite the application of the coefficient of abatement (cf. Article 130 of the Treaty of Accession).

In these circumstances, the amount of own resources to be remitted (point 5) was established in terms of the maximum permissible relative share for these two countries (Articles 3 and 4 of the Decision of 21 April 1970 and Article 130 of the Treaty of Accession) applied to the total expenditure figure.

Example: Ireland

— Relative share for Ireland in 1974	0.3484 %
— Conversion of the coefficient of abatement for 1974 (56 %) into that for 1975 (67.5 %)	
	$\frac{67.5}{56} \times 0.3484 = 0.419946 \%$
— Upper limit of the range of Articles 3 and 4 of the Decision of 21 April 1970 (+ 2 %) ⁽¹⁾	0.4283 %
— Own resources to be remitted	$\frac{0.4283}{100} \times 6\,198\,033\,996 = 26\,546\,180 \text{ u.a.}$

(The hypothesis that the contribution of Ireland and the United Kingdom would be at the upper limit of the range is checked in the following tables).

The breakdown given in points 5 (a), (b) and (c) is obtained by applying the coefficient of abatement (67.5 %) to the sugar levies (point 1) and the agricultural levies (point 2). Hence the customs duties represent the difference between the total sum to be remitted and the total of the latter two amounts.

⁽¹⁾ From 1 January 1975 the maximum possible variation in the relative share from one financial year to the next is 2 %.

⁽¹⁾ The figures concerning the establishment of the GNP scale are given in Annexes C and D.

As in Table 2 B (point 4), the contributions have been distributed first of all without applying the coefficient of abatement (column 1).

In the second column they have been distributed on the basis of the scale obtained from the following operations:

- (a) for the new Member States, the GNP scale is reduced to 67.5 % (Article 130);
- (b) for the original Member States, the difference between 100 % and the part covered by the new Member States is distributed in proportion to the GNP scale.

The appropriations of Table 1 are covered in the first place by own resources, and then by the contributions. The total for each Member State so obtained gives the relative share shown in column 4; this is subsequently adjusted in accordance with the provisions of Articles 3 and 4 of the Decision of 21 April 1970.

⁽¹⁾ For the new Member States: $\frac{67.5}{56}$ of the relative share for 1974 (see Annex A).

For the original Member States: the remainder proportional to the relative share for 1974 (see Annex B).

The reduction envisaged in Article 130 of the Treaty of Accession brings the share of the new Member States to a percentage of the figure which would be obtained by applying the provisions of the Decision of 21 April 1970; this percentage is 56 % for 1974 and 67.5 % for 1975. The relative share in the first column of Annex A is raised from 56 hundredths to 67.5 hundredths.

⁽²⁾ Cf. Table 4, column 1.

COMMISSION
Annex I
(Economic and Social Committee)

Estimated revenue of the Commission for the financial year 1975 (*cont'd*)

Title	Chapter	Article	Remarks
5	51		The revenue assigned to this chapter is that representing contributions under the complementary programmes. Details of the calculations concerning these contributions can be seen in this statement of revenue. The scale governing Member State contributions to the complementary programmes (1973 — 1976), 'Plutonium and Transplutonic Elements' and 'Supervision and Management of Fissile Material', shown in this statement of revenue, was calculated following the selective shares included in supplementary and amending budget No 3 for 1975. As regards the 'HFR Reactor' (Chap. 4.13) and 'Biology — Adaptation of nuclear techniques to agricultural and medical research' (Chap. 5.20) complementary programmes, the scales have been determined by the Council on an <i>ad hoc</i> basis.

Estimated revenue of the Commission for the financial year 1975 (*cont'd*)

Title	Chapter	Article	Remarks
9	92		
		928	Revenue accruing under the contract of 12 October 1972 based on the Resolution concerning the implementation of non-nuclear projects adopted on 25 April 1972 by the representatives of the Member States meeting in the Council (see OJ No C 44 of 4 May 1972, p.1).
		929	Revenue due in 1975 from performance of 1975 programmes The monies received in 1975 from services to be provided under the 1975 programmes constitute resources in the 1975 appropriation accounts and, in conformity with the structure of the Functional Budget, do not necessitate an entry in the statement of revenue. To this revenue are added the repayments by the Italian and Belgian Governments and those by certain national agencies for having had made available to them, on the basis of Article 6 (c) of the Euratom Treaty, the Essor reactor (appropriation account 1.43), the BR-2 reactor (appropriation account 1.48) and staff seconded under former 'Advanced Reactors' Associations (appropriation account 1.49).

2.28	2.28.0					This objective includes: — public service activities using in particular system analysis techniques: collection and analysis of data, preparation of models, development of methods of calculation and codes for computers, studies of the results; — forward studies of the foreseeable development of electronic components required for building computers and their peripheral equipment. In accordance with the insertion made in the minutes of the Council meeting at the time of the adoption of the programme decisions relating to direct action covered by List 'B' it has been agreed that, from the beginning of the financial year 1974, these activities will be financed from the General Budget. In order to comply with this requirement of the Council budgetary authorities on the one hand, and the Council's programme decision on the other, a special appropriation account has been created (1.91) recording the expenditure under this objective and making provision for resources derived from Chapter 26 (item 2652) of Section III — Commission — of the Budget of the European Communities. Any balance of appropriation account 1.91 'Technical assessments in support of Commission activities' will fall under this category.

Title	Chap.	Art.	Cat.	Heading	
1	1.20	1.20.2	92	USE OF INFRASTRUCTURE	On the whole, the uses and resources in respect of appropriation account 1.20 as shown in the 1975 budget are not affected by this draft amending supplementary budget for expenditure relating to research and investment activities. However, as a result of the transfer of 19 Category A and B posts from Chapters 3.20 and 3.30 and from appropriation accounts 1.48 and 1.49 to new Chapters, 3.61 and 3.66, an amendment of the breakdown of the resources in respect of appropriation account 1.20.2 has proved necessary. In this connection, attention is drawn to the fact that contributions to the infrastructure expenses are calculated on the basis of the relevant payroll.

Remarks

This appropriation account records the technical expenditure involved in activities to be carried out under contract.

This appropriation is intended to cover expenditure on the organization of exhibitions.

This appropriation is intended to cover the technical expenditure involved in preparations for activities to be carried out under contract and the assistance arising out of licensing contracts, as well as the technical operating expenditure involved in the 'Blowdown' contract.

This amount corresponds to the assignment of a share in the cost of the medium-activity laboratory — 1.45.0.

This amount corresponds to the expenditure on 5 men/year assigned to research.

NOTES

- (¹) All staff employed in scientific or technical departments and performing either scientific, technical or general work (including managerial staff) are considered as occupying scientific or technical posts.
- (²) The following are considered in principle as occupying administrative posts: all staff assigned to administrative, financial and supply departments of the Establishments; all secretaries, whatever the departments to which they have been assigned; and the small number of staff assigned to scientific and technical departments who are made available to the supply departments of the Establishments.
- (³) Of the staff covered by the budget, the following may be included, as shown, under either of the heads 'scientific/technical' or 'administrative':
- (a) Category B staff in scientific/technical posts A 5/A 8 and administrative posts A 7/A 6 provided for in the budget, up to 5 % of these posts,
 - (b) Category C staff in B posts provided for in the budget, up to 5 % of these posts,
 - (c) Establishment staff in Category C and D posts provided for in the budget, up to 10 % of these posts.
- (⁴) Including 170 posts occupied by staff placed at the disposal of the Italian Government in accordance with the provisions of Article 6 (c) of the EAEC Treaty (see appropriation account 1.43 — ESSOR/ADECO).
- (⁵) Including 1 temporary post.
- (⁶) In all, there should be added 4 members of staff, to be placed at the disposal of the JRC for the purpose of the objective 'Direction and coordination by the general budget of the Communities'.
