COUNCIL REGULATION (EEC) No 2749/78**of 23 November 1978****on trade in oils and fats between the Community and Greece**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Whereas Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats ⁽³⁾, as last amended by Regulation (EEC) No 1562/78 ⁽⁴⁾, instituted common arrangements for trade in oils and fats with third countries; whereas these arrangements provide for import levies on olive oil, olives intended for the production of oil, certain olive oil cakes and other residues and for the application of the Common Customs Tariff to other products;

Whereas the customs duties which the Member States apply with regard to Greece are fixed by the Agreement establishing an association between the European Economic Community and Greece;

Whereas Protocol 12 annexed to that Agreement stipulates that, if levies are imposed on olive oil and olives, Greece shall enjoy the same treatment as that applied by the Member States to each other pending the harmonization of the agricultural policies of the Community and Greece;

Whereas the price arrangements introduced under Regulation No 136/66/EEC do not extend to Greece; whereas differences may therefore occur between the

price on the Greek market and the price on the Community market; whereas these differences should be made good, in accordance with the principles of the levy system, by a levy calculated pursuant to the rules generally applied under the common agricultural policy to trade between the Member States prior to the fixing of common prices;

Whereas, since Greece is not obliged to apply the levy system introduced by the Community to olive oil and olives from third countries, the application of the special levy in question to exports from Greece to the Community of products not produced entirely in Greece could lead to considerable distortions in trade; whereas the application of the special levy should therefore be limited to products produced entirely in Greece;

Whereas Council Regulation (EEC) No 2844/76 of 23 November 1976 laying down special measures in particular for the determination of offers of olive oil on the Greek market ⁽⁵⁾, as amended by Regulation (EEC) No 2361/77 ⁽⁶⁾, derogated from the arrangements for fixing the special import levy for Greece by providing for the levy to be fixed by tendering procedure;

Whereas there is a risk that the difficulties in assessing the real situation on the Greek market which led to the adoption of these special arrangements will reoccur in the future; whereas it should accordingly be possible for recourse to be had to these arrangements for fixing the levy;

Whereas trade with Greece in olives and olive oil cakes and other residues is only small compared with trade in olive oil; whereas, to simplify administrative procedures, application of the system of tendering for

the import levy should be limited to olive oil; whereas, to the same end, provision should be made to exempt from this system olive oil imports which have no effect on the development of trade in that product;

Whereas the arrangements provided for in this Regulation for imports and exports of olive oil and olives could in some circumstances lead to disturbances on the Community market; whereas, therefore, measures should be provided to enable such a situation to be remedied;

Whereas the introduction of the arrangements referred to above should enable all other obstacles to trade between the Community and Greece to be removed;

Whereas subject to the obligations resulting from the Association Agreement, certain provisions of Regulation No 136/66/EEC may be applied to trade between the Community and Greece;

Whereas Council Regulation No 162/66/EEC of 27 October 1966 on trade in oils and fats between the Community and Greece⁽¹⁾ should be repealed,

HAS ADOPTED THIS REGULATION:

Article 1

Trade between the Community and Greece in the products referred to in Article 1 (2) of Regulation No 136/66/EEC, hereinafter referred to as 'the basic Regulation', shall be governed by the following provisions.

Article 2

In trade between the Community and Greece in the products referred to in Article 1 (2) (a), (b) and (d) of the basic Regulation, with the exception of those falling within subheadings 07.01 N II and 07.03 A II of the Common Customs Tariff, and products falling within subheading 23.04 A I, the Member States shall apply the customs duties resulting from the application of the Agreement establishing an association between the European Economic Community and Greece, hereinafter referred to as 'the Agreement'.

Article 3

1. Imports of untreated olive oil falling within subheading 15.07 A I of the Common Customs Tariff, entirely produced in Greece and transported directly from that country to the Community, shall be subject to a levy, the amount of which shall be equal to the difference between the threshold price fixed in accordance with Articles 4, 9 and 10 of the basic Regulation and a free-at-frontier price, minus a fixed amount.

2. The free-at-frontier price calculated for the Community frontier crossing point in accordance with Article 9 of the basic Regulation shall be determined on the basis of the most favourable purchasing opportunities on the Greek market; such prices shall be adjusted in accordance with any differences in the description or quality in relation to those for which the threshold price has been fixed.

3. The fixed amount shall be determined for each marketing year by the Council, acting by a qualified majority on a proposal from the Commission, and Greece shall be consulted in advance on the level of this amount.

4. The levy shall be fixed by the Commission.

Detailed rules for the application of this Article shall be adopted according to the procedure provided for in Article 38 of the basic Regulation.

Article 4

1. Imports of olive oil falling within subheading 15.07 A II of the Common Customs Tariff, entirely produced in Greece and transported directly from that country to the Community, shall be subject to a levy corresponding to that applicable to the quantity, which may be fixed on a flat-rate basis, of olive oil required for the production of the olive oil in question.

2. Detailed rules for the application of this Article shall be adopted in accordance with the procedure provided for in Article 38 of the basic Regulation.

Article 5

1. Where the offers on the Greek market for untreated olive oil do not enable the real price trend of the market to be determined, the import levy for the products referred to in Articles 3 and 4 shall be fixed by tender.

2. At regular intervals the Commission shall fix the minimum rate of the levy taking into account in particular the rates of levy indicated by the tenderers. Any tenderer who has indicated a levy equal to or above the minimum rate shall be declared successful and shall be obliged to import the quantity given in his application at the rate of levy which he has indicated.

3. However, imports of quantities which have no influence on the market situation shall not be subject

⁽¹⁾ OJ No 197, 29. 10. 1966, p. 3393/66.

to this tendering procedure. In such cases the levy charged shall be the last minimum levy fixed before importation.

4. If trends on the Greek market vary according to the presentation of untreated olive oil, different minimum levies may be fixed for the various presentations in question.

5. The Council, acting by a majority on a proposal from the Commission, shall adopt general rules for the application for this Article.

6. Detailed rules for the application of this Article shall be adopted according to the procedure provided for in Article 38 of the basic Regulation.

Article 6

1. Imports of olives falling within subheadings 07.01 N II and 07.03 A II of the Common Customs Tariff, harvested in Greece and transported directly from that country to the Community, shall be subject to a levy calculated on the basis of the levy applicable to olive oil under Article 3, according to the oil content of the product imported.

2. Imports of products falling within subheadings 23.04 A II and 15.17 B I of the Common Customs Tariff, entirely produced in Greece and transported directly from that country to the Community, shall be subject to a levy calculated, on the basis of the levy applicable to olive oil under Article 3, according to the oil content of the product imported.

3. Where Article 5 is applied, imports of the products referred to in paragraphs 1 and 2 shall be subject to a levy which takes account of the minimum levy applicable to the quantity of olive oil contained in those products.

4. The levies referred to in this Article shall be fixed by the Commission at regular intervals.

5. Detailed rules for the application of this Article, and in particular those concerning the determination of the oil content which may be fixed on a flat-rate basis, shall be adopted in accordance with the procedure laid down in Article 38 of the basic Regulation.

Article 7

1. Where the Community market in olive oil is seriously disturbed or in danger of being seriously disturbed by:

- imports of the products referred to in Article 1 (2) (c), (d), and (e) of the basic Regulation, entirely produced in Greece and transported directly from

that country to the Community, and in particular where these imports would cause the intervention agencies to buy in substantial amounts of olive oil in application of Article 12 (1) of the basic Regulation, or

- exports of olive oil to Greece, and in particular where such exports might cause the market price of olive oil to show signs of exceeding or considerably exceeding the level of the representative market price, or might cause a decision to be taken to sell the buffer stock,

appropriate measures may be applied until the disturbance or danger thereof has disappeared.

2. Greece shall be informed of any decision taken in accordance with paragraph 1.

3. The nature of the measures which may be adopted and the conditions for application of this Article shall be determined, after consultation with Greece, by the Council acting by a qualified majority on a proposal from the Commission.

Article 8

Subject to the provisions of Articles 7, 9 and 10, the following shall be incompatible, in trade with Greece, with the application of the provisions of this Regulation:

- the levying of any customs duty or charge having similar effect other than those provided for in this Regulation,
- the application of any quantitative restriction or measure having equivalent effect,
- recourse to Article 41 of the Agreement in respect of the products referred to in Article 1 (2) (c), (d) and (e) of the basic Regulation, with the exception of those falling within subheadings 07.02 A and ex 07.04 B of the Common Customs Tariff.

Article 9

Subject to the provisions of the Agreement, the following Articles of the basic Regulation and the measures taken in implementation thereof shall apply: Articles 18, 19, 20, 20a, 27 (3) (c) and (5), 28, 35 and 41 (1).

Article 10

Where the products imported into the Community have not been entirely produced in Greece or not transported directly from Greece into the Community, Articles 14, 15, 16, 17 and 20b of the basic Regulation shall apply to products coming within their terms, subject to the provisions of the Agreement.

Article 11

The Council, acting by a qualified majority on a proposal from the Commission, may, after consultation with Greece, amend the list of products to which this Regulation shall apply or may take any exceptional measures in order to take account of special conditions which may occur in respect of these products.

Article 12

Regulation No 162/66/EEC is hereby repealed.

Article 13

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall apply from 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COUNCIL REGULATION (EEC) No 2750/78**of 23 November 1978****on the standard amount for unprocessed olive oil produced entirely in Greece
and transported direct from that country into the Community**

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
2749/78 of 23 November 1978 on trade in oils and
fats between the Community and Greece⁽¹⁾, and in
particular Article 3 (3) thereof,

Having regard to the proposal from the Commission,

Whereas, in anticipation of the harmonization of agri-
cultural policies, trade in olive oil between the
Community and Greece should be developed, taking
account of the availability of olive oil on the Greek
market and on the Community market and of
marketing possibilities for this product;

Whereas the standard amount must be based both on
the present volume of trade between the Community
and Greece and on the future prospects of both
markets;

Whereas the standard amount must be fixed at a suffi-
ciently high level to ensure a preferential position for
Greek oils on the Community market compared with
those from third countries; whereas, however, this
amount must be set at such a level that it does not
prejudice the realization of the representative market
price for Community production;

Whereas the standard amount, as established for the
years during which prices on the Greek market have
made it possible to export oil from Greece to the
Community, has ensured that this preference exists
without creating difficulties for the marketing of
Community production; whereas the level of this
amount should consequently remain unchanged for
the 1978/79 marketing year;

Whereas Greece has been consulted pursuant to
Article 3 (3) of Regulation (EEC) No 2749/78,

HAS ADOPTED THIS REGULATION:

Article 1

For the 1978/79 marketing year, the standard amount
referred to in Article 3 (1) of Regulation (EEC) No
2749/78 shall be 0.5 unit of account per 100 kilo-
grams of imported product.

Article 2

This Regulation shall enter into force on the third day
following its publication in the *Official Journal of
the European Communities*.

It shall apply from 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member
States.

COUNCIL REGULATION (EEC) No 2751/78

of 23 November 1978

laying down general rules for fixing the import levy on olive oil by tender

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation No 136/66/EEC
of 22 September 1966 on the establishment of a
common organization of the market in oils and
fats⁽¹⁾, as last amended by Regulation (EEC) No
1562/78⁽²⁾, and in particular Article 16 (5) thereof,

Having regard to Council Regulation (EEC) No
2749/78 of 23 November 1978 on trade in oils and
fats between the Community and Greece⁽³⁾, and in
particular Article 5 (5) thereof,

Having regard to the proposal from the Commission,

Whereas Article 16 of Regulation No 136/66/EEC
and Article 5 of Regulation (EEC) No 2749/78
provide, under certain circumstances, for the fixing of
import levies on olive oil by tender;

Whereas, so that such a system can be applied,
tenderers should submit an application for an import
licence, indicating, among other things, the levy
which they undertake to pay upon importation;
whereas, to guarantee that the obligations arising from
the submission of applications are observed, a special
security should be introduced;

Whereas, to ensure that the minimum levy is fixed at
a level which is as close as possible to that resulting
from actual market trends, the factors to be taken into
consideration when fixing the levy should be listed,

HAS ADOPTED THIS REGULATION:

Article 1

1. As soon as the conditions laid down in Article 16
(1) of Regulation No 136/66/EEC or in Article 5 (1) of
Regulation (EEC) No 2749/78 are met, the Commis-
sion shall decide to resort to the tendering procedure
referred to in the relevant Article in connection with
olive oil falling within subheadings 15.07 A I and
15.07 A II of the Common Customs Tariff.

Article 1 (2), the presentation covered by the appli-
cation;
- (b) the gross rate of levy per 100 kilograms of the
product which the applicant undertakes to pay
upon importation.

Article 3

The Commission shall fix the gross minimum levy in
units of account per 100 kilograms for each of the
products concerned, having regard to the situation

- on the world market or the Greek market as appro-
priate, and
- on the Community market

and to the gross levy rates indicated by tenderers.

COUNCIL REGULATION (EEC) No 2752/78

of 23 November 1978

laying down special measures in respect of olive oil producer organizations for the 1978/79 marketing year

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS REGULATION :

Having regard to the Treaty establishing the European Economic Community,

Article 1

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats⁽¹⁾, as last amended by Regulation (EEC) No 1562/78⁽²⁾, and in particular Article 36 thereof,

Having regard to the proposal from the Commission,

Whereas Article 5 of Regulation No 136/66/EEC introduced a system of aid for the production of olive oil; whereas in accordance with paragraph 2 of that Article such aid is granted to olive growers who are members of a producer group recognized under Council Regulation (EEC) No 1360/78 of 19 June 1978 on producer groups and associations thereof⁽³⁾, on the basis of the quantity of oil produced by them, whereas to other growers it is granted at a flat rate;

Whereas, on account of the time needed for implementing the system provided for by Regulation (EEC) No 1360/78, recognition of groups of olive growers cannot take place within the next few months;

Whereas, in order to prevent this delay from prejudicing producers who have made an effort to form groups, appropriate derogations should be laid down for the 1978/79 marketing year;

Whereas the possibility should be provided for of setting up for this year olive oil producer organizations which provide adequate guarantees that certain operations linked to the application of the abovementioned system of aid are carried out; whereas, in addition, certain provisions of Regulation No 136/66/EEC on producer groups should be extended to these organizations;

Whereas, in order to enable the organizations in question to carry out the tasks entrusted to them, provision should be made to allow them to retain a certain percentage of the aid to be granted to their members,

1. Notwithstanding the first subparagraph of Article 5 (2) of Regulation No 136/66/EEC, during the 1978/79 marketing year production aid shall also be granted in accordance with the quantity of olive oil produced to growers who are members of an olive and olive oil producer organization set up before 31 December 1978 and fulfilling the conditions listed in paragraph 2.

2. The organizations referred to in paragraph 1 must fulfil the following conditions:

- their composition must comply with Article 5 (1) and (2) of Regulation (EEC) No 1360/78,
- they must be capable of verifying the olive and olive oil production of a percentage, to be determined, of their members; where they have an olive oil mill, they must be capable of verifying the entire production of that mill,
- they must be empowered to submit an application for production aid for all their member growers,
- they must be empowered to receive the aid and allocate to each member the share due to him,
- they must have a minimum number of members or obtain a minimum volume of oil production,
- they must exclude, as regards the whole range of their activities, any discrimination between potential member producers based in particular on nationality or place of establishment.

3. By 10 January 1979 interested parties shall submit an application to the competent authorities of the Member State concerned with a view to checking that the conditions listed in paragraph 2 are complied with.

The Member State shall:

- give a decision on applications within one month of their submission,
- notify the Commission and the interested parties of its decision within 15 days.

⁽³⁾ OJ No L 166, 23. 6. 1978, p. 1.

4. Detailed rules for the application of this Article shall be adopted in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC.

Article 2

1. The producer organizations referred to in Article 1 may retain a percentage, to be determined, of the amount of the production aid paid to them. This percentage is to cover the costs of checking their members' production.

2. Detailed rules for the application of paragraph 1 shall be adopted in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC.

Article 3

The provisions of Articles 5 (3) and 12 (1) of Regulation No 136/66/EEC shall apply also to the producer organizations referred to in Article 1 of this Regulation.

Article 4

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

COUNCIL REGULATION (EEC) No 2753/78

of 23 November 1978

laying down general rules in respect of production aid for olive oil for the 1978/79 marketing year

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats⁽¹⁾, as last amended by Regulation (EEC) No 1562/78⁽²⁾, and in particular the first sentence of Article 5 (4) and Article 36 thereof,

Having regard to the proposal from the Commission,

Whereas Article 5 of Regulation No 136/66/EEC introduced aid for the production of olive oil; whereas, during the 1978/79 marketing year this aid is granted, on the basis of the quantity of oil actually produced, to growers who are members of a producer organization provided for under Council Regulation (EEC) No 2752/78 of 23 November 1978 laying down special measures in respect of olive oil producer organizations for the 1978/79 marketing year⁽³⁾ and to other growers on the basis of the number and production potential of the olive trees and of the yields of those trees as determined according to a standard method, and provided that the olives produced have actually been harvested;

Whereas, since there is no register of olive cultivation, the production potential of olive trees cannot be defined; whereas, therefore, until such a register is established, aid to growers who are not members of a producer organization should be calculated on the basis of the average yields of olive trees;

Whereas, to ensure the proper functioning of the aid system, the types of olive oil for which aid is granted should be determined;

Whereas the aid in question is of considerable advantage to oil producers and a financial charge on the Community; whereas, in order to guarantee that the aid is granted only in respect of oil which may qualify therefor, provision should be made for appropriate administrative checks;

Whereas the carrying out of these checks should initially be based on a system of crop declarations;

Whereas, in order to facilitate checks on the entitlement to aid of members of producer organizations, provision should be made for such organizations to submit a single crop declaration for all their members after having verified the data relating to the individual holdings; whereas, for the same reason, provision should be made for the organizations to verify also the harvesting and pressing of the olives produced by at least a percentage of their members, and, as a general rule, to submit a single application for aid in respect of those of their members who have produced oil during a given period;

Whereas, in order that the entitlement to aid of members of producer organizations may be checked, the stock records of the mills should also be used as a basis;

Whereas, in order to simplify the application of the aid system with regard to oil from olive residues, the quantities of this oil qualifying for aid should as a general rule be determined on the basis of the production of pressed oil;

Whereas, since producer organizations are to verify the production of at least a percentage of their members, provision should be made for advances to be paid to such organizations as soon as the application for aid is submitted,

HAS ADOPTED THIS REGULATION:

Article 1

The general rules set out in the following Articles shall apply to the granting of the aid for the production of olive oil referred to in Article 5 of Regulation No 136/66/EEC in respect of the 1978/79 marketing year.

Article 2

Production aid shall be granted for olive oil corresponding to the definitions given in point 1 of the Annex to Regulation No 136/66/EEC and also for oil corresponding to the definition given in point 4 of that Annex.

⁽¹⁾ OJ No 172, 30. 9. 1966, p. 3025/66.

⁽²⁾ OJ No L 185, 7. 7. 1978, p. 1.

⁽³⁾ See page 8 of this Official Journal.

Article 3

1. Before a date to be fixed, each grower shall submit a crop declaration containing:

- particulars of the olive trees grown and their location,
- a declaration affirming that he has harvested the olives in the current marketing year, and
- details of the purpose for which the olives are intended.

If the growers are members of a producer organization as referred to in Article 1 of Regulation (EEC) No 2752/78, that organization shall submit a single crop declaration for all its members, after checking the information supplied by each member, at the same time as the application for aid referred to in Article 4.

2. For the purposes of this Regulation, 'grower' shall mean any producer of olives intended for the production of oil.

Article 4

The production aid shall be granted on application by each party concerned in the Member State in which the oil has been produced.

Where growers are not members of a producer organization, the crop declaration submitted by each of them shall be equivalent to an application for aid.

Where growers are members of a producer organization, that organization shall submit a single aid application each month for all members who completed their production of oil in the course of the previous month. However, if an organization referred to in the first paragraph, second indent, second sub-indent of Article 5 (1) of Council Regulation (EEC) No 1360/78 of 19 June 1978 on producer groups and associations thereof⁽¹⁾ belongs to a producer organization, the aid application relating to the production of the member organization may be submitted in a single operation.

Article 5

1. Each producer organization shall check:

- the harvesting of the olives produced by its members,
- the delivery of these olives to the mill, and their pressing.

2. If pressing takes place in a mill of the producer organization, the check referred to in paragraph 1 shall cover all the oil produced by that mill.

If pressing takes place in another mill, the check referred to in paragraph 1 shall cover the actual production of a percentage, to be determined, of the members of the producer organization. The members selected shall be representative of the growers, taken as a whole, who are members of the organization.

2. The purpose of checks on the olive oil referred to in point 1 of the Annex to Regulation No 136/66/EEC and produced by growers who are members of a producer organization shall be to establish that:

- (a) the quantity of oil in respect of which each producer organization has applied for aid corresponds to
- (b) the quantity of olives harvested by its members and used for the production of that oil, and the quantity of oil actually produced.

3. The purpose of checks on the olive oil referred to in paragraph 2 and produced by growers who are not members of a producer organization shall be to establish that:

- the crop declarations are accurate,
- the olive harvest has been completed,
- the harvested olives are to be used for the production of oil and, if possible, that these olives have actually been processed into oil.

4. As regards the olive oil referred to in point 4 of the Annex to Regulation No 136/66/EEC, the quantity of such oil which is eligible to benefit from aid shall be determined on the basis of the oil production referred to in point 1 of that Annex.

Article 7

Producer Member States shall oblige mills to keep stock records for the purpose of the checks provided for in Article 6.

Article 8

Article 9

In the case of growers who are not members of a producer organization, producer Member States shall carry out random on-the-spot checks to establish the points referred to in Article 6 (3).

COUNCIL REGULATION (EEC) No 2754/78
of 23 November 1978
on intervention in the olive oil sector

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation No 136/66/EEC
of 22 September 1966 on the establishment of a
common organization of the market in oils and
fats⁽¹⁾, as last amended by Regulation (EEC) No
1562/78⁽²⁾, and in particular Article 12 (3) thereof,

Having regard to the proposal from the Commission,

Whereas, in accordance with commercial practice,
olive oil is generally marketed during the first 11
months of the marketing year; whereas, to avoid
speculative transactions, it should be provided that for
the last month of the marketing year the intervention
agencies are to buy in oil at the price applying at the
beginning of that marketing year;

Whereas olive oil held by the intervention agencies
must be put up for sale without any discrimination
between Community purchasers and on the most
favourable economic terms; whereas the sale by
tender appears to be the most appropriate system for
this purpose;

Whereas, however, in certain special situations it may
be advisable to use procedures other than tendering;

Whereas, with a view to organizing the intervention
system on a rational basis, intervention centres should
be established by reference both to the volume of
production of the various olive oil producing areas
and also to the storage facilities available in places
which may be designated as intervention centres;

Whereas Council Regulation No 164/66/EEC of 27
October 1966 determining the main intervention
centres for olive oil and laying down the criteria to be
applied when other intervention centres are being
determined⁽³⁾ should be repealed,

HAS ADOPTED THIS REGULATION:

Article 1

The intervention agencies appointed by the producer
Member States shall buy in olive oil:

- during the months of August and September, at
the intervention price applying during July,
- during the month of October, at the intervention
price applying during the first month of the
current marketing year.

Article 2

1. Olive oil held by the intervention agencies shall
be put up for sale by tender.

However, where special conditions so warrant, another
selling procedure may be used.

2. The conditions of sale by tender or of any other
selling procedure must ensure equal access and treat-
ment to all parties, whatever their place of establish-
ment in the Community.

Article 3

The intervention centres must be situated in an area
with an average annual olive oil production of not less
than 1 000 tonnes. They may be set up only in places
where adequate facilities exist for storing the oil
offered for intervention.

Article 4

Regulation No 164/66/EEC is hereby repealed.

Article 5

This Regulation shall enter into force on the third day
following its publication in the *Official Journal of
the European Communities*.

It shall apply from 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member
States.

Done at Brussels, 23 November 1978.

COMMISSION REGULATION (EEC) No 2757/78
of 27 November 1978
fixing the import levies on products processed from cereals and rice

THE COMMISSION OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
2727/75 of 29 October 1975 on the common organi-
zation of the market in cereals⁽¹⁾, as last amended by
Regulation (EEC) No 1254/78⁽²⁾, and in particular
Article 14 (4) thereof,

Having regard to Council Regulation (EEC) No
1418/76 of 21 June 1976 on the common organiza-
tion of the market in rice⁽³⁾, as last amended by Regu-
lation (EEC) No 1260/78⁽⁴⁾, and in particular Article
12 (4) thereof,

Having regard to the opinion of the Monetary
Committee,

Whereas the rules to be applied to calculating the vari-
able component of the import levy on products
processed from cereals and rice are laid down in
Article 14 (1) (A) of Regulation (EEC) No 2727/75 and
Article 12 (1) (a) of Regulation (EEC) No 1418/76;
whereas Article 2 of Council Regulation (EEC) No
2744/75 of 29 October 1975 on the import and
export system for products processed from cereals and
rice⁽⁵⁾, as last amended by Regulation (EEC) No
2245/78⁽⁶⁾, provides that the incidence on the prime
costs of these products of the levies applicable to their
basic products should be calculated on the basis of the
average of the levies applicable to these basic products
for the first 25 days of the month preceding that of
importation; whereas this average, adjusted on the
basis of the threshold price valid for the basic
products in question during the month of importa-
tion, is calculated on the basis of the quantities of
basic products considered to have been used in the
manufacture of the processed product or the
competing product which serves as a reference for
processed products not containing cereals;

Whereas Commission Regulation (EEC) No 1579/74
of 24 June 1974 on the procedure for calculating the
import levy on products processed from cereals and
from rice and for the advance fixing of this levy for
these products and for compound feedingstuffs manu-

factured from cereals⁽⁷⁾, as last amended by Regula-
tion (EEC) No 1740/78⁽⁸⁾, provides that the levy thus
determined, increased by the fixed component, is
valid in general for one month but is altered where
the levy applicable to the basic product concerned
differs by not less than 2.5 units of account per tonne
from the average of the levies calculated as described
above;

Whereas in accordance with Article 5 of Regulation
(EEC) No 2744/75 and Article 2 of Regulation (EEC)
No 1579/74, the levy on certain processed products
must be reduced by an amount equal to the produc-
tion refund granted in respect of basic products for
processing; whereas Regulation (EEC) No 1921/75⁽⁹⁾,
as amended by Regulation (EEC) No 2415/75⁽¹⁰⁾, laid
down certain transitional measures in respect of
starches;

Whereas the fixed component of the levy is specified
in Regulation (EEC) No 2744/75; whereas, in accor-
dance with Regulation (EEC) No 2742/75⁽¹¹⁾, as last
amended by Regulation (EEC) No 1127/78⁽¹²⁾, the
variable component of the levy on certain processed
products must be reduced by the incidence of the
production refund granted in respect of basic products
intended for processing;

Whereas, in order that account may be taken of the
interests of the African, Caribbean and Pacific States
or in the 'overseas countries and territories', the levy
relating to them in respect of certain products
processed from cereals must be reduced by the
amount of the fixed component and, in respect of
some of these products, by part of the variable compo-
nent; whereas this reduction must be made in accor-
dance with Article 12 of Council Regulation (EEC)
No 706/76 of 30 March 1976 on the arrangements
applicable to agricultural products and certain goods
resulting from the processing of agricultural products
originating in the African, Caribbean and Pacific
States or in the 'overseas countries and territories'⁽¹³⁾,
as last amended by Regulation (EEC) No 1198/78⁽¹⁴⁾;

Whereas Article 4 (2) of Regulation (EEC) No 2744/75
provides that the levy to be charged on the products
listed in the Annex to that Regulation under
subheading 07.06 A is limited, with effect from the
date of entry into force of the Geneva Protocol (1967)

(1) OJ No L 281, 1. 11. 1975, p. 1.

(4) OJ No L 156, 14. 6. 1978, p. 11.

(11) OJ No L 281, 1. 11. 1975, p. 57.

annexed to the General Agreement on tariffs and trade, to the amount resulting from application of the rate of duty bound within GATT;

Whereas, if the levy system is to operate normally, levies should be calculated on the following basis:

- in the case of currencies which are maintained in relation to each other at any given moment within a band of 2.25 %, a rate of exchange based on their effective parity;
- for other currencies, an exchange rate based on the arithmetic mean of the spot market rates of each of these currencies recorded for a given period in relation to the Community currencies referred to in the previous subparagraph;

Whereas, in accordance with Article 18 (1) of Regulation (EEC) No 2727/75, the nomenclature provided

for in this Regulation is incorporated in the Common Customs Tariff,

HAS ADOPTED THIS REGULATION:

Article 1

The import levies to be charged on the products listed in Article 1 (d) of Regulation (EEC) No 2727/75 and in Article 1 (1) (c) of Regulation (EEC) No 1418/76 and subject to Regulation (EEC) No 2744/75 are hereby fixed as shown in the Annex to this Regulation.

Article 2

COMMISSION REGULATION (EEC) No 2758/78
of 27 November 1978
fixing the import levies on compound feedingstuffs

THE COMMISSION OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
2727/75 of 29 October 1975 on the common organi-
zation of the market in cereals⁽¹⁾, as last amended by
Regulation (EEC) No 1254/78⁽²⁾, and in particular
Article 14 (4) thereof,

Having regard to the opinion of the Monetary
Committee,

Whereas the rules to be applied in calculating the vari-
able component of the import levy on compound
feedingstuffs are laid down in Article 14 (1) (A) of
Regulation (EEC) No 2727/75; whereas the incidence
of the levies applicable to the basic products of
compound feedingstuffs on their prime costs should
be determined, in pursuance of Article 4 of Council
Regulation (EEC) No 2743/75 of 29 October 1975 on
the system to be applied to cereal-based compound
feedingstuffs⁽³⁾, on the basis of the average of the
levies applicable during the first 25 days of the month
preceding the month of importation to the quantities
of basic products considered to have been used in the
manufacture of such compound feedingstuffs, this
average being adjusted on the basis of the threshold
price for the basic products in question ruling during
the month of importation;

Whereas the levy thus determined, increased by the
fixed component, is valid for one month; whereas the
amount of the fixed component of the levy is speci-
fied in Article 6 of Regulation (EEC) No 2743/75, as
amended by Regulation (EEC) No 2560/77⁽⁴⁾;

Whereas, in order that account may be taken of the
interests of the African, Caribbean and Pacific States
or in the 'overseas countries and territories', the levy
relating to them in respect of certain products
processed from cereals must be reduced by the

amount of the fixed component and, in respect of
some of these products, by part of the variable compo-
nent; whereas this reduction must be made in accor-
dance with Article 12 of Council Regulation (EEC)
No 706/76 of 30 March 1976 on the arrangements
applicable to agricultural products and certain goods
resulting from the processing of agricultural products
originating in the African, Caribbean and Pacific
States or in the 'overseas countries and territories'⁽⁵⁾;
as last amended by Regulation (EEC) No 1198/78⁽⁶⁾;

Whereas, if the levy system is to operate normally,
levies should be calculated on the following basis:

- in the case of currencies which are maintained in
relation to each other at any given moment within
a band of 2.25 %, a rate of exchange based on
their effective parity;
- for other currencies, an exchange rate based on the
arithmetic mean of the spot market rates of each
of these currencies recorded for a given period in
relation to the Community currencies referred to
in the previous subparagraph;

Whereas, in accordance with Article 18 (1) of Regula-
tion (EEC) No 2727/75, the nomenclature provided
for in this Regulation is incorporated in the Common
Customs Tariff,

HAS ADOPTED THIS REGULATION:

Article 1

The import levies to be charged on the compound
feedingstuffs covered by Regulation (EEC) No
2727/75 and subject to Regulation (EEC) No 2743/75
are fixed hereby as shown in the Annex to this Regula-
tion.

COUNCIL

COUNCIL DECISION

of 20 November 1978

on the provisional application to Dominica after its independence of the arrangements provided for in Decision 76/568/EEC on the association of the overseas countries and territories with the European Economic Community

(78/976/EEC)

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Decision 76/568/EEC of 29
June 1976 on the association of the overseas countries
and territories with the European Economic Commu-
nity ⁽¹⁾, as last amended by Decision 78/465/EEC ⁽²⁾,
and in particular the second subparagraph of Article
55 (2) thereof,

Whereas, pursuant to the second subparagraph of
Article 55 (2) of Decision 76/568/EEC, the arrange-
ments provided for therein may continue to apply
provisionally, under conditions laid down by the
Council, to countries and territories which achieve
independence ;

Whereas Dominica, which appears in Annex I
relating to the list of countries and territories referred
to by that Decision, achieved independence on 3
November 1978 ;

Whereas it should be decided to continue to apply
provisionally the arrangements provided for in the
abovementioned Decision to that State and to lay
down the conditions for such application, without pre-
judice to subsequent recourse to the first subparagraph
of Article 55 (2) and to Article 56 thereof ;

Whereas the ACP-EEC Convention of Lomé is open,
in accordance with the procedure laid down in Article
89 thereof, to the accession of a country or territory to
which part four of the Treaty applies and which has
become independent ; whereas such accession can
take place only following a request by the State
concerned and with the approval of the ACP-EEC
Council of Ministers ;

Whereas Dominica has submitted a request for acces-
sion to the ACP-EEC Convention of Lomé ;

Whereas the period of provisional application of Deci-
sion 76/568/EEC to that State should be limited ;

Whereas, in order to avoid any break in continuity in
the financing of decisions in favour of Dominica
between its accession to the ACP-EEC Convention of
Lomé and the entry into force of the decision
adjusting the amounts made available to the European
Development Fund which the Council is to take
pursuant to Article 1 (4) of the Internal Agreement on
the financing and administration of Community aid
signed on 11 July 1975, Dominica should be
permitted to continue to benefit until the date of the
entry into force of that Decision from the provisions
of Decision 76/568/EEC relating to financial and tech-
nical cooperation,

⁽¹⁾ OJ No L 176, 1. 7. 1976, p. 8.

⁽²⁾ OJ No L 147, 3. 6. 1978, p. 39.

HAS DECIDED AS FOLLOWS:

Article 1

The arrangements laid down by Decision 76/568/EEC shall remain provisionally applicable to Dominica until the latter accedes to the ACP-EEC Convention of Lomé but until 2 November 1979 at the latest.

Dominica shall, moreover, continue to benefit from the provisions of the said Decision relating to financial and technical cooperation until the date of entry into force of the decision adjusting the amounts made available to the European Development Fund which the Council is to take pursuant to Article 1 (4) of the Internal Agreement on the financing and administration of Community aid signed on 11 July 1975.

Article 2

Questions relating to the application of Decision 76/568/EEC to Dominica after it has achieved in-

dependence shall be dealt with as necessary by direct contact between the competent authorities of that State and of the Community.

Article 3

This Decision shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply from 3 November 1978.
