## COMMISSION REGULATION (EEC) No 321/79

of 20 February 1979

fixing the export refunds on fruit and vegetables

THE COMMISSION OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community,

Having regard to Council Regulation (EEC) No  
1035/72 of 18 May 1972 on the common organiza-  
tion of the market in fruit and vegetables<sup>(1)</sup>, as last  
amended by Regulation (EEC) No 1766/78<sup>(2)</sup>, and in  
particular Article 30 (4) thereof,

Having regard to the opinion of the Monetary  
Committee,

Whereas Article 30 of Regulation (EEC) No 1035/72  
provides that, to the extent necessary to allow econom-  
ically significant quantities to be exported, the differ-  
ence between prices on the world market and prices  
in the Community for the products referred to in that  
Article may be covered by an export refund ;

Whereas Article 2 of Council Regulation (EEC) No  
2518/69 of 9 December 1969 laying down general  
rules for the granting of refunds on exports of fruit  
and vegetables and criteria for fixing their amounts<sup>(3)</sup>,  
as amended by Regulation (EEC) No 2455/72<sup>(4)</sup>,  
provides that the refunds are to be fixed in the light of  
the current situation or foreseeable developments with  
regard to both prices and availabilities of fruit and  
vegetables on the Community market and to prices  
on the world markets ; whereas account must also be  
taken of the costs referred to in (b) of the said Article  
and of the economic aspects of the intended exports ;

Whereas Article 3 of Regulation (EEC) No 2518/69  
provides that prices on the Community market shall  
be fixed in the light of the ruling prices most favou-  
rable for exports ; whereas prices on world markets  
shall be determined in the light of the prices and  
quotations referred to in paragraph 2 of the said  
Article ;

Whereas the situation on world markets or the  
specific requirements of certain markets may make it

necessary to vary the refund for a given product  
according to the destination of that product ;

Whereas sweet fresh oranges, fresh mandarins, fresh  
lemons and apples of the common quality standards  
'Extra' Class, Class I and Class II, 'Extra' Class and  
Class I hothouse grapes, shelled almonds and hazel-  
nuts, and walnuts in shell may at present be exported  
in economically significant quantities ;

Whereas, if the refund system is to operate normally,  
refunds should be calculated on the following basis :

- in the case of currencies which are maintained in  
relation to each other at any given moment within  
a band of 2.25 %, a rate of exchange based on  
their effective parity ;
- for other currencies, an exchange rate based on the  
arithmetic mean of the spot market rates of each  
of these currencies recorded for a given period in  
relation to the Community currencies referred to  
in the previous subparagraph ;

Whereas it follows from applying these rules and  
criteria to the present situation on the market of the  
prospective development of this situation, and in parti-  
cular to quotations and prices for fruit and vegetables  
within the Community and on the world market, that  
the refund should be fixed as set out below ;

Whereas the obligations under Article 6 (1) (b) of  
Commission Regulation (EEC) No 192/75 of 17  
January 1975 laying down detailed rules for the appli-  
cation of export refunds in respect of agricultural  
products<sup>(5)</sup>, as last amended by Regulation (EEC) No

## COMMISSION REGULATION (EEC) No 322/79

of 16 February 1979

imposing a provisional anti-dumping duty on a certain herbicide originating in Romania

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 459/68 of 5 April 1968 on protection against dumping or the granting of bounties or subsidies by countries which are not members of the European Economic Community<sup>(1)</sup>, as last amended by Regulation (EEC) No 1411/77<sup>(2)</sup>, and in particular Article 15 thereof,

After hearing the opinions expressed in the Advisory Committee set up under the said Regulation,

Whereas the Commission has received a complaint submitted in the name of the Community industry producing DNBP technical (Dinoseb) setting out evidence as to the existence of dumping of the like product originating in Romania as well as material injury resulting therefrom;

Whereas, since the information received indicated that the complaint was admissible and that defensive measures against dumping might be necessary, the Commission officially notified the importers and exporters known to be concerned, published in the *Official Journal of the European Communities* of 29 December 1978 a notice of the initiation of an anti-dumping procedure concerning imports of a certain herbicide originating in Romania<sup>(3)</sup> and commenced an examination of the facts;

Whereas the Commission gave interested parties the opportunity to make known their views in writing;

Whereas the Commission gave to parties directly concerned the opportunity orally to develop their views and to meet and to present opposing views and rebuttal arguments;

Whereas when determining dumping on the above-mentioned imports, the Commission had to take account of the fact that in Romania trade is on a basis of near or total monopoly and that prices are fixed by the State and that, therefore, a comparison between the export price of the product to the Community and its domestic price is not appropriate;

Whereas, for these reasons, the Commission has decided to base its dumping calculations on the prices at which, according to information at present avail-

able, a like product of a market economy country, in this instance the United States of America, is sold for consumption on the domestic market of that country;

Whereas these calculations were made at ex-factory level, and in respect of sales made as nearly as possible at the same time, due allowance having been made, on their merits, for transport and ancillary costs, packaging, duties and taxation and for other factors affecting price comparability;

Whereas this preliminary examination of the matter shows that dumping has taken place, the margin of which exceeds 40 % in markets principally concerned;

Whereas, with regard to injury to the industry concerned, the evidence available to the Commission shows that imports into the Community of DNBP technical originating in Romania began in 1978 only and by the end of that year had reached a level of approximately 350 to 400 tonnes;

Whereas the imports concerned represent a market share in the Community of approximately 40 % and in the two main countries of importation 49 % and 68 % respectively;

Whereas the prices of these imports on the Community markets have been extremely low, thus exercising a depressive effect on the Community producers' prices;

Whereas this development has taken place to the detriment of the Community industry and therefore placed it in an extremely difficult situation, characterized by sales at prices far below the European costs of production, by a decline in production of approximately 60 %, by a significant loss of sales and market share, by almost complete absence of new orders for 1979, and by the imminent loss of jobs;

Whereas there is, therefore, sufficient evidence to show that, due consideration having been given to the other factors having a bearing on the situation of this industry, as, for example, the decline of exports to countries outside the Community, the dumped imports are causing and threatening to cause material injury to the Community industry;

Whereas, for these reasons and given the seasonal nature of sales of the product concerned, a Member State requested the Commission, on 9 February 1979,

<sup>(1)</sup> OJ No L 93, 17. 4. 1968, p. 1.

<sup>(2)</sup> OJ No L 160, 30. 6. 1977, p. 4.

<sup>(3)</sup> OJ No C 311, 29. 12. 1978, p. 2.

to take provisional measures immediately in accordance with Article 15 (1) (c) of Regulation (EEC) No 459/68 ;

Whereas, in these circumstances, the interests of the Community call for immediate intervention against imports of DNBП technical originating in Romania, consisting in the imposition of a provisional anti-dumping duty the rate of which, having regard to the extent of injury caused, should approximate to the dumping margins provisionally established,

HAS ADOPTED THIS REGULATION :

*Article 1*

1. A provisional anti-dumping duty is hereby imposed on DNBП technical (Dinoseb) falling within Common Customs Tariff subheading ex 29.07 C III or ex 38.11 D and corresponding to NIMEXE codes ex 29.07-59 or ex 38.11-50, 70, originating in Romania and exported by Chimimportexport, Bucharest. The provisions in force for the application of customs duties shall apply for the application of this duty.

2. The said duty shall be at a rate of 40 % on the basis of the value declared in conformity with Commission Regulation (EEC) No 375/69 of 27 February 1969<sup>(1)</sup> on the declaration of particulars relating to the value of goods for customs purposes.

*Article 2*

The entry of the products described in Article 1 into free circulation shall be conditional upon the deposit of security for the amount of the provisional duty.

*Article 3*

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

Without prejudice to the provisions of Articles 16 and 18 of Regulation (EEC) No 459/68, it shall apply until the entry into force of an Act of the Council either adopting definitive measures or extending the provisional duty, and in any event for a maximum period of three months.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

## COMMISSION REGULATION (EEC) No 323/79

of 20 February 1979

fixing, for certain products processed from fruit and vegetables, the export refunds provided for in Article 6 of Regulation (EEC) No 516/77

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 516/77 of 14 March 1977 on the common organization of the market in products processed from fruit and vegetables<sup>(1)</sup>, as amended by Regulation (EEC) No 1152/78<sup>(2)</sup>, and in particular the third subparagraph of Article 6 (2) thereof,

Whereas Article 6 of Regulation (EEC) No 516/77 provides that, where required in order to permit the exportation on the basis of prices ruling in international trade of economically important products not containing added sugar being products listed in Article 1, the difference between the aforesaid prices and Community prices may be covered by an export refund;

Whereas Article 2 of Council Regulation (EEC) No 519/77 of 14 March 1977 laying down general rules for granting export refunds on products processed from fruit and vegetables and criteria for fixing the amount of such refunds<sup>(3)</sup> provides that refunds are to be fixed taking into account the existing situation and future trends with regard, on the one hand, to prices and availabilities on the Community market of products processed from fruit and vegetables and, on the other hand, to prices ruling in international trade; whereas account also has to be taken of the costs referred to in (b) of the said Article and of the economic aspect of the proposed exports;

Whereas Article 3 of Regulation (EEC) No 519/77 provides that when prices on the Community market are being determined account shall be taken of the ruling prices which are most favourable from the point of view of exportation; whereas when prices in

international trade are being determined account is to be taken of the prices referred to in paragraph 2 of the said Article;

Whereas orange juice and stalked and stoned cherries preserved in a sulphurous solution are economically important products to which no sugar has been added;

Whereas since the refund fixed in accordance with Article 5 of Regulation (EEC) No 516/77 is insufficient to enable the export of cherries preserved by sugar, the refund provided for in Article 6 of Regulation (EEC) No 516/77 should be applied to this product;

Whereas it follows from applying these rules and criteria to the present situation on the market, and in particular to prices within the Community and on the world market for products processed from fruit and vegetables, that the refund should be fixed as indicated below;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Products Processed from Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

*Article 1*

The export refunds provided for in Article 6 of Regulation (EEC) No 516/77 shall be as specified in the Annex hereto.

*Article 2*

This Regulation shall enter into force on 21 February 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

## COMMISSION DECISION

of 2 February 1979

authorizing the French Republic to apply protective measures to imports of live sheep falling within subheading 01.04 A I b) of the Common Customs Tariff and sheepmeat falling within subheading 02.01 A ex IV thereof, originating in third countries and in free circulation in the other Member States

(Only the French text is authentic)

(79/203/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

Having regard to the request made by the French Republic to the Commission on 10 January 1979 by telex from its Permanent Representative to the European Communities for authorization to apply protective measures to imports of live sheep falling within subheading 01.04 A I b) of the Common Customs Tariff and sheepmeat falling within subheading 02.01 A ex IV thereof, originating in third countries and in free circulation in the other Member States,

Whereas differences between the measures of commercial policy concerning these products applied by France and those applied by the other Member States *vis-à-vis* third countries are causing deflection of trade ;

Whereas this deflection trade is preventing the measures of commercial policy *vis-à-vis* third countries taken by France by reason of the economic difficulties faced by the agricultural sector in question from being carried out ;

Whereas methods for obtaining the necessary cooperation from the other Member States cannot be introduced at the present time ;

Whereas, in these circumstances, protective measures under the first paragraph of Article 115 of the Treaty should be authorized for a limited period;

HAS ADOPTED THIS DECISION :

*Article 1*

The French Republic is authorized not to apply Community treatment to live sheep falling within subheading 01.04 A I b) of the Common Customs Tariff and sheepmeat falling within subheading 02.01 A ex IV thereof, originating in third countries and in free circulation in the other Member States.

*Article 2*

This Decision shall apply until the application of a Council Regulation on the common organization of the markets in the products in question and, in any event, not later than 31 December 1979.

*Article 3*

This Decision is addressed to the French Republic.

## COMMISSION DECISION

of 2 February 1979

authorizing the Kingdom of Belgium, the Grand Duchy of Luxembourg and the Kingdom of the Netherlands not to apply Community treatment to men's and boys' woven breeches, shorts and trousers (including slacks); women's, girls' and infants' woven trousers and slacks, of wool, of cotton or of man-made textile fibres, falling within heading No ex 61.01 or subheading ex 61.02 B of the Common Customs Tariff (NIMEXE codes 61.01-62, 64, 66, 72, 74, 76; 61.02-66, 68, 72) (category 6), originating in Albania and in free circulation in the other Member States

(Only the Dutch and French texts are authentic)

(79/204/EEC)

## THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

Having regard to the application under the first paragraph of Article 115 of the Treaty, made on 25 January 1979 by the Governments of the Benelux countries to the Commission of the European Communities, for authorization not to apply Community treatment to men's and boys' woven breeches, shorts and trousers (including slacks); women's, girls' and infants' woven trousers and slacks, of wool, of cotton or of man-made textile fibres, falling within heading No ex 61.01 or subheading ex 61.02 B of the Common Customs Tariff (NIMEXE codes 61.01-62, 64, 66, 72, 74, 76; 61.02-66, 68, 72) (category 6), originating in Albania and in free circulation in the other Member States,

Whereas in the Benelux countries the importation of the products in question originating in Albania is, in accordance with the Council Decision of 21 December 1978, subject to a quantitative restriction;

Whereas the disparities which exist in the commercial policy measures applied in connection with these products by the Member States are causing deflection of trade, thereby preventing the execution of those commercial policy measures which are in force because of the difficult economic situation in the sector concerned;

Whereas it appears that there are serious difficulties in the industrial sector concerned, involving a considerable drop in production and employment and a progressive decline in its market share;

Whereas, although the imports which gave rise to the application submitted would appear to be an isolated operation, they are nevertheless likely, in view of the substantial volume of the imports, to jeopardize the abovementioned commercial policy measures;

Whereas it is not possible to set in motion rapidly the machinery for bringing about the necessary cooperation from the other Member States;

Whereas authorization should accordingly be given for the application of protective measures under the first paragraph of Article 115, subject to the conditions laid down in Commission Decision 71/202/EEC of 12 May 1971 <sup>(1)</sup>, and in particular Article 1 thereof,

HAS ADOPTED THIS DECISION:

*Article 1*

The Kingdom of Belgium, the Grand Duchy of Luxembourg and the Kingdom of the Netherlands are hereby authorized not to apply Community treatment to the products indicated below, where they originate in Albania and are in free circulation in the other Member States, and in respect of which applications for import licences were lodged after 15 January 1979 and are, at the date of this Decision, pending with the Benelux authorities:

## COMMISSION DECISION

of 2 February 1979

authorizing the Kingdom of Belgium, the Grand Duchy of Luxembourg and the Kingdom of the Netherlands not to apply Community treatment to drawn or blown glass, falling within heading No ex 70.05 of the Common Customs Tariff, originating in Bulgaria and in free circulation in the other Member States

(Only the Dutch and French texts are authentic)

(79/205/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

Having regard to the application under the first paragraph of Article 115 of the Treaty, made on 26 January 1979 by the Governments of the Benelux countries to the Commission of the European Communities, for authorization not to apply Community treatment to drawn or blown glass, falling within heading No ex 70.05 of the Common Customs Tariff, originating in Bulgaria and in free circulation in the other Member States,

Whereas in the Benelux countries the importation of the products in question originating in Bulgaria is, in accordance with Council Decision 77/806/EEC of 21 December 1978, subject to an annual quota ;

Whereas the disparities which exist in the commercial policy measures applied in connection with these products by the Member States are causing deflection of trade, thereby preventing the execution of those commercial policy measures which are in force because of the difficult economic situation in the sector concerned ;

Whereas it appears from the application submitted that there are serious difficulties in the industrial sector concerned, which is in the process of being restructured and that these difficulties are made worse by low-priced imports from third countries ;

Whereas further indirect imports, in addition to those already proposed, would be likely to aggravate these difficulties ;

Whereas it is not possible to set in motion rapidly the machinery for bringing about the necessary cooperation from the other Member States ;

Whereas authorization should accordingly be given for the application of protective measures under the first paragraph of Article 115, subject to the conditions laid down in Commission Decision 71/202/EEC of 12 May 1971 <sup>(1)</sup>, and in particular Article 1 thereof ;

Whereas, however, the application for a licence which gave rise to the application in question does not need

to be covered by such an authorization in view of the small amount involved, compared with predictable imports of similar products from third countries in 1979 as seen in the information given for the preceding years,

HAS ADOPTED THIS DECISION :

*Article 1*

The Kingdom of Belgium, the Grand Duchy of Luxembourg and the Kingdom of the Netherlands are hereby authorized not to apply Community treatment to the products indicated below, where they originate in Bulgaria and are in free circulation in the other Member States, and in respect of which applications for import licences were lodged after 25 January 1979 :

*Article 2*

This Decision shall apply until new opportunities arise in the Benelux countries for the importation of these products from Bulgaria or until 31 December 1979, whichever is the earlier.

*Article 3*

**COMMISSION DECISION**

of 2 February 1979

**allowing admission free of Common Customs Tariff duties of the scientific apparatus described as 'LAB-80 data acquisition and processing system'**

(79/207/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials <sup>(1)</sup>,

Having regard to Commission Regulation (EEC) No 3195/75 of 2 December 1975 laying down provisions for the implementation of Regulation (EEC) No 1798/75 <sup>(2)</sup>, and in particular Articles 4 and 5 thereof,

Whereas by letter dated 4 August 1978, the United Kingdom Government requested the Commission to invoke the procedure laid down in Articles 4 and 5 of Regulation (EEC) No 3195/75 in order to determine whether or not the apparatus described as 'LAB-80 data acquisition and processing system' should be considered as scientific apparatus and, if the reply is in the affirmative, whether apparatus of equivalent scientific value is currently manufactured in the Community;

Whereas in accordance with the provisions of Article 4 (5) of Regulation (EEC) No 3195/75, a group of experts composed of representatives of all the Member States met on 13 December 1978 within the Committee on Duty-Free Arrangements to examine this particular case;

Whereas this examination shows that the apparatus in question is a microcomputer system for the acquisition and processing of data used more especially for fundamental chemistry physical research in quantum resolved dynamics electronically excited molecular states;

Whereas its characteristics and its intended use render it particularly suitable for pure scientific research; whereas it must therefore be considered to be a scientific apparatus;

Whereas on the basis of information received from Member States, apparatus of equivalent scientific value capable of use for the same purpose is not currently manufactured in the Community; whereas, therefore, duty-free admission of this apparatus is justified,

HAS ADOPTED THIS DECISION:

*Article 1*

1. The apparatus described as 'LAB-80 data acquisition and processing system' must be considered to be a scientific apparatus.
2. The conditions referred to in Article 3 (1) (b) of Council Regulation (EEC) No 1798/75 of 10 July 1975 for admission free of Common Customs Tariff duties of the apparatus described in paragraph 1 are fulfilled.

**COMMISSION DECISION**

of 2 February 1979

**allowing admission free of Common Customs Tariff duties of the scientific apparatus described as 'Tektronix spectrum analyzer, type 491'**

(79/208/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials<sup>(1)</sup>,

Having regard to Commission Regulation (EEC) No 3195/75 of 2 December 1975 laying down provisions for the implementation of Regulation (EEC) No 1798/75<sup>(2)</sup>, and in particular Articles 4 and 5 thereof,

Whereas, by letter dated 18 August 1978, the United Kingdom Government requested the Commission to invoke the procedure laid down in Articles 4 and 5 of Regulation (EEC) No 3195/75 in order to determine whether or not the apparatus described as 'Tektronix spectrum analyzer, type 491' should be regarded as scientific apparatus, and where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently manufactured in the Community;

Whereas, in accordance with the provisions of Article 4 (5) of Regulation (EEC) No 3195/75, a group of experts composed of representatives of all the Member States met on 13 December 1978 within the Committee on Duty-Free Arrangements to examine this particular case;

Whereas this examination shows that the apparatus in question is an analyzer used in the study of molecular structure and of simple complexes by microwave spectroscopy; whereas its characteristics allow in particular the development of double-resonance amplifiers used in the measurement of vibrationally excited molecular states;

Whereas its characteristics and intended use render it particularly suitable for research; whereas it must therefore be considered to be a scientific apparatus;

Whereas, on the basis of information received from Member States, apparatus of equivalent scientific value capable of use for the same purpose is not currently manufactured in the Community; whereas, therefore, duty-free admission of this apparatus is justified,

HAS ADOPTED THIS DECISION:

*Article 1*

1. The apparatus described as 'Tektronix spectrum analyzer, type 491' must be considered to be a scientific apparatus.

## COMMISSION DECISION

of 2 February 1979

supplementing the Commission Decision of 29 June 1977 excluding from admission free of Common Customs Tariff duties the scientific apparatus described as 'Digital oscilloscope NIC-1090 A with plug-in NIC-93 AD'

(79/209/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials <sup>(1)</sup>,

Having regard to Commission Regulation (EEC) No 3195/75 of 2 December 1975 laying down provisions for the implementation of Regulation (EEC) No 1798/75 <sup>(2)</sup>, and in particular Articles 4 and 5 thereof,

Whereas, in its Decision of 29 June 1977 <sup>(3)</sup>, the Commission excluded from admission free of Common Customs Tariff duties the scientific apparatus described as 'Digital oscilloscope NIC-1090 A with plug-in NIC-93 AD' on the grounds that apparatus of equivalent scientific value to the said apparatus and capable of being used for the same purposes was manufactured in the Community;

Whereas, as requested by the German Government on 9 February 1978, the Commission has carried out a new examination in order to determine whether, when the abovementioned Decision of 29 June 1977 was adopted, apparatus of equivalent scientific value to the apparatus described as 'Digital oscilloscope NIC-1090 A with plug-in NIC-93 AD' was manufactured in the Community in view of the special uses to which the said apparatus can be put, including in addition to those referred to in the abovementioned Decision, the photolysis of lightning, the study of the variation in the kinetics of chemical reactions and the study of the behaviour of tensed and relaxed muscles when at rest or in motion;

Whereas, in accordance with Article 4 (5) of Regulation (EEC) No 3195/75, a group of experts composed of representatives of all the Member States has met a number of times, within the framework of the Committee on Duty-Free Arrangements, in order to examine this particular case, the last occasion being on 13 December 1978;

Whereas information obtained from the Member States has revealed that, when the Decision of 29 June 1977 was adopted, no apparatus of equivalent scientific value to the apparatus described as 'Digital oscilloscope NIC-1090 A with plug-in NIC-93 AD' and capable of being used for the same purposes was manufactured in the Community; whereas, moreover, apparatus of equivalent scientific value to the abovementioned apparatus and capable of being used for the same purposes is still not manufactured in the Community;

Whereas the abovementioned Decision of 29 June 1977 must therefore be amended in order to take account of the facts that have come to light since it was adopted,

HAS ADOPTED THIS DECISION:

*Article 1*

Article 1 (2) of the Commission Decision of 29 June 1977 excluding from admission free of Common Customs Tariff duties the scientific apparatus described as 'Digital oscilloscope NIC-1090 A with plug-in NIC-93 AD' shall be replaced by the following text:

'2. The conditions referred to in Article 3 (1) (b) of Council Regulation (EEC) No 1798/75 of 10 July 1975 for admission free of Common Customs Tariff duties of the scientific apparatus described in paragraph 1 are fulfilled.'

## COMMISSION DECISION

of 2 February 1979

denying the appellation of 'scientific character' to an apparatus described as 'Revco freezer, type ULT 1785' including a thermometer, a liquid nitrogen expansion valve and various attachments

(79/210/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials<sup>(1)</sup>,

Having regard to Commission Regulation (EEC) No 3195/75 of 2 December 1975 laying down provisions for the implementation of Regulation (EEC) No 1798/75<sup>(2)</sup>, and in particular Articles 4 and 5 thereof,

Whereas, by letter dated 19 August 1978, the Belgian Government requested the Commission to invoke the procedure laid down in Articles 4 and 5 of Regulation (EEC) No 3195/75 in order to determine whether the apparatus described as 'Revco freezer, type ULT 1785' including a thermometer, a liquid nitrogen expansion valve and various attachments should be considered as a scientific apparatus, and if the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community;

Whereas in accordance with the provisions of Article 4 (5) of Regulation (EEC) No 3195/75 a group of experts composed of representatives of all the Member States met on 13 December 1978 within the Committee on Duty-Free Arrangements to examine this particular case;

Whereas this examination shows that the apparatus in question is a freezer capable of obtaining ultra low temperatures and used more especially to store mutant strains of yeast;

Whereas it is an apparatus which as well as being used for research purposes may also be used to freeze and store the most varied types of product; whereas it is therefore a multi-purpose apparatus which in itself does not possess particular features that make it specially suitable for pure scientific research; whereas it cannot therefore be regarded as a scientific apparatus,

HAS ADOPTED THIS DECISION:

*Article 1*

The apparatus described as 'Revco freezer, type ULT 1785' is not considered to be a scientific apparatus.
