COMMISSION REGULATION (EEC) No 991/79

of 17 May 1979

setting out a schedule of tables and laying down the definitions relating to basic statistical surveys of areas under vines and repealing Regulations No 143 and No 26/64/EEC

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 357/79 of 5 February 1979 on statistical surveys of areas under vines ⁽¹⁾, and in particular Article 4 (2) thereof,

Having regard to Regulation No 24 on the progressive establishment of a common organization of the market in wine ⁽²⁾, and in particular Article 5 thereof,

Whereas pursuant to Article 4 (2) of Council Regulation (EEC) No 357/79 the Member States are to submit the results of the basic surveys in the form of a schedule of tables to be adopted in accordance with the procedure laid down in Article 8 of the said Regulation;

Whereas, in order to ensure the comparability of data shown in these tables, it is necessary to provide for certain definitions relating to the basic surveys;

Whereas the system of statistical surveys of areas under vines provided for by Regulation (EEC) No 357/79 replaces the viticultural land register provided for by Article 1 of Regulation No 24;

Whereas, in consequence of this, it is necessary to repeal Commission Regulation No 143 containing preliminary arrangements for the preparation of the viticultural land register ⁽³⁾ and Commission Regulation No 26/64/EEC of 28 February 1964 laying down additional provisions for the preparation of the viticultural land register, for

its management and for keeping it up to date ⁽⁴⁾, which have now lapsed;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Standing Committee for Agricultural Statistics and the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:

Article 1

The form of the schedule of tables for the basic surveys of the areas under vines shall be as set out in Annex I hereto.

Article 2

1. The definitions relating to the basic surveys are given in Annex II hereto.

2. Given that the basic statistical surveys cover the situation at the end of the wine-growing year, the area under vines planted, replanted or grafted during the wine-growing year preceding the survey shall be considered to be under one year old.

Article 3

Regulations No 143 and No 26/64/EEC are repealed with effect from 20 May 1978.

ANNEX II

Within the meaning of this Regulation, the following definitions apply:

- (a) holding:
a technico-economic unit under a single management and producing agricultural products;
- (b) agricultural area in use (AAU):
the total area of arable land, permanent pasture and meadows, land under permanent crops and family gardens;
- (c) area under vines cultivated:
the total area of land under vines, in production or not yet in production, intended for the production of grapes and/or vegetative propagation material for vines which was subjected to regular cultivation to obtain from it a marketable product;
- (d) area under wine grape varieties for quality wines psr:
area under wine grape varieties suitable for the production of quality wines produced in specified regions (psr) conforming to the provisions of Council Regulation (EEC) No 338/79 of 5 February 1979 ⁽¹⁾ and to the provisions laid down to implement this Regulation, as well as to the national provisions laid down in Article 19 of this same Regulation;
- (e) area under wine grape varieties for other wines:
area under wine grape varieties cultivated for the production of wines other than quality wines psr;
- (f) wine-growing year:
the wine-growing year begins on 1 September and ends on 31 August;
- (g) vegetative propagation material for vines; nurseries; parent vines for root-stock:
as defined in Council Directive 68/193/EEC of 9 April 1968 on the marketing of vegetative propagation material for vines ⁽²⁾;
- (h) wine grape varieties; table grape varieties:
as defined in Council Regulation (EEC) No 347/79 of 5 February 1979 on general rules applying to the classification of vine varieties ⁽³⁾.

COMMISSION

COMMISSION DECISION

of 17 May 1979

laying down a code and standard rules for the transcription into a machine-readable form of
the data of the basic surveys of areas under vines

(79/491/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 357/79 of 5 February 1979 on statistical surveys of areas under vines ⁽¹⁾, and in particular Article 4 (4) thereof,

Whereas Article 4 (4) of Regulation (EEC) No 357/79 provides that Member States which process the results of their basic surveys electronically shall submit the results in a machine-readable form;

Whereas the equipment which the Commission has available for analyzing the results of the statistical surveys of the areas under vines and the need for its rational use require that a standard format be prescribed for the transcription of the data into a machine-readable form to be determined in accordance with the procedure laid down in Article 8 of the said Regulation;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Committee for Agricultural Statistics,

Article 1

The machine-readable form for submission of the data provided for in Articles 2 and 5 of Regulation (EEC) No 357/79 by those Member States which process their survey results electronically shall be magnetic tape.

Article 2

The codes and rules governing the transcription on to magnetic tape of the data provided for in Article 2 of Regulation (EEC) No 357/79 shall be as set out in the Annexes hereto.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 17 May 1979.

ANNEX I

MAGNETIC TAPE SPECIFICATION FOR THE DELIVERY TO EUROSTAT OF THE DATA OF THE BASIC SURVEYS OF THE AREAS UNDER VINES**(Council Regulation (EEC) No 357/79)****GENERAL PROVISIONS**

- I. The information recorded in accordance with the characteristics referred to in Article 2 of Regulation (EEC) No 357/79 is to be delivered to Eurostat in the following form by those Member States which process their survey information electronically:
1. The information shall refer to summaries of holdings if the survey is exhaustive (or to raised summaries of holdings if the survey is based on random sampling) and not to individual holdings.
 2. The information shall be delivered on nine-track magnetic tape / 1 600 BPI (630 bytes/cm) standard label.
 3. The information shall be of fixed record length consisting of 308 positions, and shall be recorded in EBCDIC.
 4. The first two fields of each record shall contain information to permit identification. The first field (three positions) identifies the geographical unit, the codification of which is given in the detailed provisions and in Annex II.
 5. The second field (two positions) identifies the table in the schedule of tables provided for in Council Regulation (EEC) No 357/79. The codification of these tables is given in the detailed provisions.
 6. The number and size of the fields in each record vary according to the table. If all the 308 positions are not filled in the case of certain tables, the record shall be completed by blanks.
 7. The information shall be entered right justified in each field.
 8. Surface area data shall be given in ha to two decimal places with a virtual point.
 9. Member States shall have a choice as to blocking factor and Eurostat must be informed as to what blocking factor has been used.
 10. The records shall be sorted according to geographical unit, table, and size classes or variety, in that order.
 11. Standard administrative procedures governing the transmission of the magnetic tape files to Eurostat shall be established jointly by Eurostat and the Member States.
- II. The following pages give for each table and for the various items of a record:
- (a) the codes which are to be used;
 - (b) the maximum number of digits required for the item in question;
 - (c) the consecutive numbering of the positions for the various items.

DETAILED PROVISIONS

The first two fields of each record contain the following information:

	Code	Number of digits	Byte number on tape
1. Geographical unit	See Annex II	3	1 — 3
2. Tables		2	4 — 5

5(*)	50		

(*) For these tables, it would be desirable for Member States which process their basic survey information electronically to send the information provided for in Article 6 (2) of Council Regulation (EEC) No 357/79 to Eurostat on magnetic tape.

The following list gives the record specifications by tables:
