ANNEX III

referred to in Article 2

ORIGIN ⁽¹⁾

Article 2

Article 1

1. Products listed in Annex I, originating in one of the supplying countries listed in Annex II, may be imported into the Community in accordance with the arrangements established by this Regulation on production of a certificate of origin conforming to the specimen attached to Annex VI.

Products listed in Annex I, originating in Hong Kong, shall be accompanied by a certificate of origin conforming to the special specimen marked 'Hong Kong', attached to Annex VI.

2. The certificate of origin shall be issued by the competent governmental authorities of the supplying country if the products in question can be considered products originating in that country within the meaning of the relevant rules in force in the Community.

3. However, products listed in Annex I other than those falling within Group I or II may be imported into the Community in accordance with the arrangements established by the Regulation on production of a declaration by the exporter or supplier on the invoice, or, where there is no invoice, on another commercial document relating to the products in question, to the effect that the said products originate in the supplying country where the declaration is made within the meaning of the relevant rules in force within the Community.

4. Paragraph 3 shall not apply to products originating in Egypt, Hong Kong, Macao, Sri Lanka or Thailand.

5. Where different criteria for determining origin are fixed in respect of products falling within a single category and a single tariff heading, the certificate or declaration must include a description of the goods which is sufficiently detailed to allow assessment of the criterion on the basis of which the certificate was issued or the declaration made.

(¹) These provisions shall apply only to products exported after the dates stipulated in footnote (²) to Article 1 of Annex V for the countries referred to in that footnote provided the conditions established therein have been fulfilled.

The discovery of slight discrepancies between the entries made in the certificate of origin and those made in the documents produced to the customs office for the purpose of carrying out the formalities for importing the product shall not *ipso facto* cast doubt upon the statements in the certificate.

Article 3

1. Subsequent verification of certificates of origin shall be carried out at random, or whenever the competent Community authorities have reasonable doubt as to the authenticity of the certificate or as to the accuracy of the information regarding the true origin of the products in question.

In such cases the competent authorities in the Community shall return the certificate of origin or a copy thereof to the competent governmental authority in the supplying country concerned, giving, where appropriate, the reasons of form or substance for an enquiry. If the invoice has been submitted, such invoice or a copy thereof shall be attached to the certificate or its copy. The authorities shall also forward any information that has been obtained suggesting that the particulars given on the said certificate are inaccurate.

2. The provisions of paragraph 1 above shall also be applicable to subsequent verifications of the declarations of origin referred to in Article 1 (3) of this Annex.

3. The results of the subsequent verifications carried out in accordance with paragraphs 1 and 2 shall be communicated to the competent authorities of the Community within three months at the latest.

4. Should such verifications reveal abuse or major irregularities in the use of declarations of origin, the Member State concerned shall inform the Commission of this fact. The Commission shall pass the information on to the other Member States.

At the request of a Member State or at the initiative of the Commission, the Committee on Origin shall, as soon as possible and in accordance with the procedure specified in Article 13 of Regulation (EEC)

No 802/68 ⁽¹⁾, examine whether it is desirable to require the production of a certificate of origin, in accordance with Article 1 (1) and (2), in respect of the products and the supplying country concerned.

The decision shall be taken in accordance with the procedure specified in Article 14 of Regulation (EEC) No 802/68.

5. For the purpose of subsequent verification of certificates of origin, copies of the certificates as well as any export documents referring to them shall be kept for at least two years by the competent governmental authority in each supplying country.

6. Random recourse to the procedure specified in this Article must not constitute an obstacle to the release for home use of the products in question.

Article 4

1. The movement certificates and forms EUR.1 and EUR.2 and the certificates of origin Form A and forms APR presented at the time of importation into the Community in order to obtain a tariff preference shall be accepted in place of the proof of origin stipulated in Article 1.

2. The proof of origin referred to in Article 1 shall not be required where goods are accompanied by a certificate conforming to the specimen and complying with the conditions set out in Regulation (EEC) No 2635/77 ⁽²⁾ or (EEC) No 2636/77 ⁽³⁾ or in the corresponding provisions which are to replace the said Regulations.

3. Paragraph 2 shall also apply to goods accompanied by a certificate conforming to the specimen and complying with the conditions set out in Annex VII to this Regulation.

4. Non-commercial imports exempt from production of the documents referred to in paragraph 1 in accordance with the provisions of the preferential arrangements concerned shall not be subject to the provisions of this Annex.

5. The conditions upon which this Annex shall apply to non-commercial imports other than those covered by paragraph 4 shall be adopted before 1 April 1979 in accordance with the procedure specified in Article 14 of Regulation (EEC) No 802/68.

Pending the implementation of these rules, the Member States may continue to apply the national rules in force in this field.

- (a) Textile fabrics woven on looms operated solely by hand or foot, being fabrics of a kind traditionally made in the cottage industry.
- (b) Garments or other textile articles of a kind traditionally made in the cottage industry, obtained manually from the fabrics described above and sewn by hand without the aid of any machine. In the case of India, the exemption shall apply to cottage industry products made by hand from the products described in paragraph (a).

- (d) In the case of Indonesia, Malaysia and Sri Lanka, traditional handicraft batik fabrics and textile articles made from such batik fabrics without the aid of any machine⁽¹⁾. Batik fabrics shall be defined as follows:

— handicraft batik fabrics are made according to a traditional process whereby colours and shades are applied to white or unbleached fabric. This process is carried out by hand in three stages:

- (a) application of wax to the fabric by hand;
- (b) dyeing or painting (colour is applied either by the traditional craft method of dyeing, or by hand painting);
- (c) removal of wax by boiling the fabric.

Each colour or shade in the pattern involves the application of these three treatments.

2. Exemption shall be granted only in respect of products covered by a certificate conforming to the

specimen attached to this Annex and issued by the competent authorities in the supplying country.

In the case of Indonesia and Malaysia, the following shall be entered in box No 11 of the certificate:

In the case of India, the title of the certificate is as follows:

'Certificate in regard to handloom fabrics, products of the cottage industry and traditional folklore products, issued in conformity with and under the conditions regulating trade in textile products with the European Economic Community.'

'Certificat relatif aux tissus tissés sur métier à main et aux produits faits avec ces tissus de fabrication artisanale et aux produits relevant du folklore traditionnel délivré en conformité avec et sous les conditions régissant les échanges de produits textiles avec la Communauté économique européenne.'

and paragraph (b) in box 11 shall read as follows:

- '(b) hand-made cottage industry products made of the fabrics described under (a) ⁽²⁾,' and

The certificates shall specify the grounds on which exemption is granted.

3. Should imports of any product covered by this Annex reach proportions liable to cause problems within the Community, consultations with the supplying countries shall be initiated as soon as possible, with a view to resolving the situation by the adoption of a quantitative limit, in accordance with Article 11 of this Regulation.

⁽¹⁾ In the case of Sri Lanka, textile articles made from batik fabrics may also be sewn with the aid of a hand- or foot-operated machine.

ANNEX X

referred to in Article 6 (4)

Article 1

Romania

1. Should a Member State find that one of the textile products in Annex I, originating in and coming from Romania, is imported into the Community at an abnormally low price, falling short of the normal competitive amount, so as to cause or threaten to cause serious harm to the Community producers of products which are similar or in direct competition, the Commission may request consultations with Romania.

2. Should agreement not be reached during the aforementioned consultations within a period of 30 days from the date on which consultations are requested, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question.

3. In quite exceptional and grave circumstances, when imports into the Community of a Romanian textile product at abnormally low prices would be likely to cause damage which it would be difficult to repair, the parties will embark on emergency consultations which must be held within a maximum period of five working days from the day on which the Commission gives notification of its request for consultation.

If within this period of five working days the parties should not reach a mutually acceptable agreement making it possible to deal with the situation, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned to suspend the issuing of documents permitting the import of the product in question.

4. In order to determine whether the price of a textile product is abnormally low, falling short of the normal competitive amount, the price will be compared:

- with the prices of similar national products at a comparable stage in the marketing process on the market of the importing country;
- with the prices which are general for similar products sold under normal conditions by other exporting countries on the market of the importing country; and

- with the lowest prices applied by a third country to the same product in the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Commission.

Article 2

Hungary

1. Should a Member State note that one of the textile products in Annex I is imported from Hungary into the Community at prices falling below the price range usual under conditions of normal competition, and therefore causes or threatens to cause serious harm to the Community producers of the same products, similar products or products in direct competition, the Commission may request consultations with Hungary.

2. If during the aforementioned consultations agreement is not reached within a period of 30 days from the date of the Commission request, and if shipments of the product in question continue to be made at prices lower than the price range usual under conditions of normal competition, and therefore cause or threaten to cause serious harm to the Community producers referred to in paragraph 1, the Commission may, while continuing consultations with a view to reaching a mutually acceptable solution, authorize in accordance with the procedure provided for in Article 15, the Member State concerned to suspend imports of the shipments in question.

3. In critical situations, when imports of specific textile products at prices lower than the price range usual under conditions of normal competition threaten to cause damage which it would be difficult to repair, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question. In that case, consultations will be embarked on without delay, and in any case within a period of five days from the date of the Commission's request, with a view to reaching a mutually acceptable solution.

4. For the purposes of applying the provisions of this Article and determining whether the price of a textile product is 'lower than the price range usual

under conditions of normal competition', these prices may be compared:

- with the prices of similar products at a comparable stage in the marketing process on the market of the importing country, and
- with the prices which are general for such products sold under normal commercial conditions by other exporting countries on the market of the importing country, and
- with the lowest prices applied for such products sold under normal commercial conditions by any other exporting country during the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Commission.

Article 3

Poland

1. Should a Member State consider that one of the textile products listed in Annex I is being imported into the Community from Poland at a price abnormally lower than the normal competitive amount, thus causing or threatening to cause serious harm to the Community producers of products which are similar or in direct competition, the Commission may request consultations with Poland.

2. In order to determine whether the price of a textile product is abnormally lower than the normal competitive amount, the price may be compared:

- with the prices of similar national products at a comparable stage in the marketing process on the market of the importing country;
- with the prices which are general for similar products sold under normal conditions by other exporting countries on the market of the importing country;
- with the lowest prices applied by a third country to the same product in the course of normal commercial transactions in the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Community.

3. Should agreement not be reached during the consultations referred to in paragraph 1 above within a period of 30 days from the date on which consultations are requested by the Commission and pending a mutually satisfactory outcome of the consultations, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the products in question.

4. In quite exceptional and grave circumstances, when deliveries of products imported from Poland are being effected in the Community at prices abnormally lower than the normal competitive level, and would be likely to cause damage which it would be difficult to repair, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question pending a solution to be agreed in the course of consultations. The said consultations will be embarked on without delay, and in any case within a period of five days from the date of the Commission's request.
