Whereas Article 40 (1) of Regulation (EEC) No 337/79 permits an increase in the maximum alcohol content of products delivered for compulsory distillation pursuant to Article 39 thereof; whereas any such increase depends on data contained in a forward estimate;

Whereas the forward estimate shows that the quantities available exceed normal requirements for the current wine-growing year; whereas the said Article 40 (1) should therefore be applied;

Whereas the amount of the increase must depend on the amount of the quantities available surplus to requirements; whereas, with respect to the table wines, the present situation of the wine market requires that the increase be adjusted in accordance with the third subparagraph of Article 40 (1) so that distillation operations apply mainly to wines of lower quality; whereas, given the present lack of definite information, it is necessary to postpone making such adjustments;

Whereas Article 3 of Commission Regulation (EEC) No 1715/79 of 3 August 1979 laying down, for the wine-growing year 1979/80, detailed rules for the distillation of the by-products of wine-making⁽³⁾, has already fixed the alcoholic strengths to be taken into consideration for the 1979/80 wine-growing year for the purpose of determining the volume of alcohol contained in products to be delivered for distillation pursuant to Article 39 (2) of Regulation (EEC) No 337/79;

Whereas the distillation of wines subject to the increased alcohol content should be carried out in accordance with Council Regulation (EEC) No 343/79 of 5 February 1979 laying down general rules governing certain distillation operations in the wine sector⁽⁴⁾, as amended by Regulation (EEC) No 1709/79⁽⁵⁾; whereas Articles 1 (1) and 5 thereof require time limits to be fixed for the submission of applications for approval of distillation contracts, for the approval by the intervention agencies and for the distillation operations; whereas under Article 2 thereof the aid should be fixed at a level such as will enable the products obtained to be disposed of;

Whereas certain additional particulars to be contained in distillation contracts need to be specified;

Whereas the method of payment of aid set out in Article 4 of Regulation (EEC) No 343/79 provides that the aid is to be paid to the producer in two instalments; whereas a time limit should be fixed for the payment of the second instalment, so as to enable the producer to receive the total amount of the aid within a reasonable period; whereas, therefore, it should be provided that payment must be made not more than 30 days after distillation;

Whereas technical conditions must be laid down for the approval of distillers; whereas provision should be made for withdrawing approval from distillers if they do not fulfil their obligations, except in cases of *force majeure* or unavoidable accident;

Whereas both the intervention agencies referred to in Article 8 of Regulation (EEC) No 343/79 and the Commission should be informed of the progress of distillation operations and should in particular be informed of the quantities of table wine distilled and the quantities of alcohol obtained;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,

5. Where Article 4 (6) of Regulation (EEC) No 343/79 applies, payment of the minimum buying-in price shall be made not later than 30 days after the total quantity of wine specified in the contract has been distilled. amending for the third time Regulation (EEC) No 1569/77 fixing the procedure and conditions for the taking over of cereals by intervention agencies

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2727/75 of 29 October 1975 on the common organization of the market in cereals⁽¹⁾, as last amended by Regulation (EEC) No 1547/79⁽²⁾, and in particular Article 7 (5) thereof,

Whereas Commission Regulation (EEC) No 1569/77⁽³⁾, as last amended by Regulation (EEC) No 3017/78⁽⁴⁾, fixes in its Annex referred to in Article 2 (2) the minimum specific weight for barley at 63 kilograms per hectolitre; whereas, however, it allows the intervention agencies of Member States to fix this minimum specific weight for winter barley at 59 kilograms per hectolitre; whereas, however, winter barley with a specific weight of less than 63 kilograms per hectolitre does not comply with the technical and economic requirements laid down for its normal use in trade; whereas, consequently, for application as from the 1982 harvest, the minimum specific weight of winter barley should be increased gradually to 63 kilograms per hectolitre;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

Article 1

Footnote 2 of the Annex to Regulation (EEC) No 1569/77 is hereby replaced by the following:

re-establishing the levying of customs duties on filament lamps for lighting, falling within subheading 85.20 A and originating in South Korea, to which the preferential tariff arrangements set out in Council Regulation (EEC) No 3156/78 apply

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3156/78 of 29 December 1978 establishing preferential tariffs in respect of certain products originating in developing countries ⁽¹⁾, and in particular Article 4 (2) thereof,

Whereas Article 1 (3) and (4) of that Regulation provides that customs duties may, for each category of products, be suspended up to a Community ceiling, expressed in European units of account, which will be equal — with the exception of certain products the value of the ceilings for which is given in Annex A thereto — to the sum arrived at by adding together the value of the products in question imported cif into the Community in 1974 and coming from countries and territories covered by those arrangements, but not including products coming from countries and territories already covered by various preferential tariff arrangements established by the Community, and 5 % of the value of 1976 cif imports coming from other countries and from countries and territories already covered by such arrangements; whereas, however, the ceiling resulting from the sum of this addition may in no case exceed 150 % of the preferential ceiling opened for 1978;

Whereas, having regard to that ceiling, the amounts for products originating in any one of the countries or territories listed in Annex B to that Regulation should be within a maximum Community amount representing 50 % of that ceiling, with the exception of certain products for which the maximum amount is to be reduced to the percentage indicated in Annex A thereto; whereas, for these products, this reduction will be 20 %;

Whereas Article 2 (2) and (3) of that Regulation provides that the levying of customs duties may be re-established at any time in respect of imports of the products in question originating in any of the said

countries or territories, with the exception of those listed in Annex C thereto, once the relevant Community amount has been reached;

Whereas, in respect of filament lamps for lighting, falling within subheading 85.20 A, the ceiling, calculated as indicated above, should be 4 027 000 European units of account, and therefore the maximum amount is 805 400 European units of account; whereas, on 11 December 1979, the amounts of imports into the Community of filament lamps for lighting, falling within subheading 85.20 A and originating in South Korea, a country covered by preferential tariff arrangements, reached that maximum amount; whereas, bearing in mind the objectives of Regulation (EEC) No 3156/78 which provides that maximum amounts should not be exceeded, customs duties should be re-established in respect of the products in question in relation to South Korea,

HAS ADOPTED THIS REGULATION:

Article 1

As from 23 December 1979, the levying of customs duties, suspended in pursuance of Council Regulation (EEC) No 3156/78, shall be re-established in respect of the following products, imported into the Community and originating in South Korea:

provides that customs duties may, for each category of
products, be suspended up to a Community ceiling,
