COUNCIL REGULATION (EEC) No 2894/79

of 10 December 1979

opening, allocating and providing for the administration of Community tariff preferences
for textile products originating in developing countries and territories

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas, within the context of the United Nations Conference on Trade and Development (Unctad), the European Economic Community offered to grant tariff preferences on finished and semi-finished products from developing countries; whereas the preferential treatment proposed in that offer covers, generally speaking, all finished and semi-finished industrial products covered by Chapters 25 to 99 of the Common Customs Tariff which originate in developing countries; whereas the preference consists in the granting of exemption from customs duties; whereas preferential imports are effected up to the level of ceilings calculated by value in respect of each product on the basis of factors which are uniform for all products; whereas, in order that the preferences granted to the most competitive developing country or countries should be restricted and a substantial share reserved for the least competitive, preferential imports from any one developing country in respect of a given product should not, as a general rule, exceed 50 % of the ceiling fixed for that product;

Whereas, in the offer made by the Community, the annual ceilings should normally be calculated on the

basis of the total value for 1968 of cif imports from the countries benefiting from this scheme excluding those already enjoying various preferential tariff arrangements granted by the Community (basic amount), plus 5 % of the value of cif imports from other countries and from the countries already enjoying such arrangements (additional amount);

Whereas, however, in respect of cotton textile products formerly covered by the long-term arrangement regarding international trade in cotton textiles, the offer made by the Community laid down that the preferences in the form of duty-free ceilings normally calculated according to the formula set out in the preceding recital, would be granted to the countries enjoying generalized preferences which were signatories to the long-term arrangement or possibly to those countries which undertook *vis-à-vis* the Community commitments similar to those existing under that arrangement and that they would be accorded for the duration of the said arrangement; whereas the arrangement was due to expire on 30 September 1973 and was extended to 31 December 1973; whereas provisionally for the years 1974 to 1976 it was considered that the countries concerned would adopt measures with equivalent aims, for both cotton textile and like products, pending the implementation of the arrangement regarding international trade in textiles (MFA) ⁽⁴⁾; whereas, in addition, eligibility under the system was prudently extended from 1977 to 1979; whereas the MFA was due to expire on 31 December 1977; whereas the Community participated in the negotiations for the renewal of the arrangement and accepted its prolongation on the conditions and understandings set out in a Protocol to which were annexed the conclusions of the Textiles Committee adopted by the latter on 14 December 1977; whereas, within the framework of the arrangement, bilateral Agreements on trade in textile products for the period 1 January 1978

⁽¹⁾ OJ No C 108, 30. 4. 1979, p. 1.

⁽²⁾ OJ No C 309, 10. 12. 1979, p. 57.

⁽³⁾ OJ No C 297, 28. 11. 1979, p. 14.

⁽⁴⁾ OJ No L 118, 30. 4. 1974, p. 1.

to 31 December 1982 were negotiated between the Community and certain supplier countries and territories which were beneficiaries under the generalized preferences scheme; whereas, under the Agreements, the countries and territories in question agreed to quantitative limitation of their exports of certain textile products to the Community during the said period;

Whereas, in these circumstances, for products covered by the MFA, the preferences in the textile sector should be reserved for products originating in the said countries and territories or in those countries undertaking similar commitments *vis-à-vis* the Community; whereas, in view of the special nature which trade in the products concerned may have, it would appear that the volumes of preferential imports should be determined in terms of tonnes, pieces or pairs, as appropriate, by reference to the categories into which products are divided and to a percentage, varying for each of the categories, of total imports into the Community in 1977; whereas, in order to ensure that each of the countries and territories referred to above has access to the preferential volumes, separate tariff ceilings for each beneficiary according to the case, whether or not allocated among the Member States, should be specified for each category of products; whereas for products not covered by the MFA it would appear possible to grant the preferences to the countries and territories which are normally beneficiaries in the other industrial sectors;

Whereas the offer made by the Community includes a clause stating that the Community drew up the offer on the assumption that all the main industrialized countries which are members of the OECD would participate in granting preferences and would make similar efforts in this direction; whereas, moreover, it is evident from the conclusions worked out in Unctad that this offer, while being of a temporary nature, does not constitute a binding commitment and, in particular, may be withdrawn wholly or in part at a later date; whereas this possibility may be adopted *inter alia* with a view to remedying any unfavourable situations which might arise in the ACP States as a result of implementation of the generalized preferences scheme;

Whereas, moreover, the Conference of Heads of State or of Government of the Member States and the States acceding to the European Communities held in Paris from 19 to 21 October 1972 invited the Community institutions and the Member States progressively to adopt an overall policy of development cooperation on a world-wide scale comprising in particular the improvement of generalized preferences with the aim of achieving a steady increase in imports of manufacturers from the developing countries;

Whereas tariff preferences have been applied from the second half of 1971 under the conditions set out above; whereas these preferences should continue to be applied during 1980 with adjustments to take account in particular of the renewal of the MFA and the conditions and understandings on which the Community accepted its renewal, and of the results of the bilateral Agreements negotiated between the Community and certain supplier countries and territories within the framework of the said arrangement;

Whereas, in accordance with Protocol 23 to the Act of Accession ⁽¹⁾, the generalized tariff preferences scheme has been applicable in the new Member States since 1 January 1974;

Whereas, in respect of textile products, the complexity of the measure to be implemented, combined with the abovementioned aim of improving the generalized preferences, could from 1974 to 1977 be overcome only by means of successive flat-rate increases of around 50 % and — on three occasions — 5 % in the ceilings fixed for 1973; whereas, in view of the situation in the sector concerned, no further improvement in the arrangements could be considered for the first or second half of 1978, with the result that the ceilings for each of the half years in question were set at 50 % of the 1977 ceilings; whereas, from 1980 onwards, as a result of the acceptance by the Community *inter alia* of the renewal of the MFA on the terms referred to above and the conclusion of bilateral Agreements with certain supplier countries and territories, a substantial improvement in the arrangements can be undertaken; whereas such substantial improvement may only be made — particularly in view of experience gained in recent years — by ensuring that the improvement continues to be compatible with the degree of sensitivity of the Community sector concerned and that a better and more equitable balance is achieved in the distribution of the advantages granted to the beneficiary countries and territories;

Whereas, in view of these factors:

- I. For the products covered by the MFA, it would seem appropriate to apply a certain uniform percentage to the data concerning total imports by the beneficiaries into the Community in 1977, per category of products, in order that the zero-duty preferential volume to which they are entitled may be determined.

⁽¹⁾ OJ No L 73, 27. 3. 1972, p. 14.

This percentage is obtained by applying a formula combining, in the case of each beneficiary, the following three factors:

- degree of world-wide competitiveness (where the exports by the particular beneficiary world-wide are expressed as a percentage of the total volume of exports by all beneficiaries),
- degree of competitiveness at the Community level (where the imports by the particular beneficiary into the EEC are expressed as a percentage of the total volume of imports by all beneficiaries),
- degree of development (expressed in terms of *per capita* gross national product — *per capita*/GNP).

For classification purposes, two series of results are used which are obtained by multiplying the degree of development by either the degree of world-wide competitiveness or the degree of competitiveness at the Community level.

The volume allocated to each beneficiary, expressed as a percentage of the total volume of imports into the Community in 1977 per category of products, is as follows, on the basis of the two respective classifications:

- in the first case (*per capita*/GNP by percentage of world-wide exports) :
 - over 20 000: 2 %,
 - from 3 000 inclusive to 20 000 inclusive: 9 %,
 - from 500 inclusive to 3 000 exclusive: 35 %,
 - less than 500: 65 %;
- in the second case (*per capita*/GNP by imports into the Community):
 - over 20 000: 2 %,
 - from 10 000 inclusive to 20 000 inclusive: 9 %,
 - from 5 000 inclusive to 10 000 exclusive: 15 %,
 - from 1 000 inclusive to 5 000 exclusive: 35 %,
 - less than 1 000: 65 %.

The classification method adopted will be that of the two which is more favourable to each beneficiary concerned.

In order to take account of the likely future potential of beneficiaries whose imports into the Community for a given category of products are zero or inconsequential, a volume is allocated to such beneficiaries which is equal to the following percentages of the total volume of non-Community imports in 1977 of the category of products concerned:

- 0.01 % for the categories of products in Group I,
- 0.06 % for the categories of products in Group II,
- 0.15 % for the categories of products in Groups III to V;

Whereas, on the basis of the above criteria, Hong Kong should be accorded a preferential volume equal to 2 % of the total volume of imports into the Community in 1977 for each category of products; whereas equivalent treatment should also be provided in respect of China and Romania, which have not hitherto received preferential treatment in the textiles' sector and in respect of which it was understood that admission as a beneficiary under the system would have to be examined on a case-by-case basis by reference to the merits of each case;

- II. For the products not covered by the MFA, the objectives referred to above may be achieved by providing, in respect of each category of products, for tariff ceilings, whether or not allocated among the Member States (but not broken down into separate ceilings for each beneficiary), set at a level corresponding in general to 55 % of the total volume of imports into the Community in 1977 of the category of products in question from all the beneficiaries;

Whereas, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least developed developing countries appearing on the list drawn up under United Nations resolution 3487 (XXX) of 12 December 1975;

Whereas for 1980, therefore, the Community should open:

- in respect of each of the categories of products by the MFA which are listed in Annexes A and B, separate Community tariff ceilings for each beneficiary, whether or not allocated among the Member States, at a zero rate of duty within the limits of the quantities specified for each of the countries or territories of origin in column 6 of the said Annexes,
- in respect of each of the categories of products not covered by the MFA, originating in the countries and territories listed in Annex E, Community tariff ceilings at a zero rate of duty, whether or not allocated among the Member States but not broken down into separate ceilings for each beneficiary, within the limits of the quantities specified in column 5 of Annex C or, as regards each category of products listed in Annex D, set at a level corresponding in general to 55 % of the total volume of imports into the Community in 1977 of

the category of products in question from all the beneficiaries; charges against each of the ceilings relating to products listed in Annexes C and D must, as a general rule, remain within Community maximum amounts of 30 and 50 % respectively, as regards the products originating in any of the abovementioned countries and territories;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods ⁽¹⁾;

Whereas, as regards the Community tariff ceilings relating to products listed in Annexes A and C:

- it is necessary to guarantee to all importers equal and continuous access to the abovementioned ceilings and uninterrupted application of the rates laid down for those ceilings to all imports of the products concerned into all Member States until the ceilings have been used up,
- having regard to the abovementioned principles, it would appear that the Community nature of the ceilings can best be respected by allocating them among the Member States,
- the actual charges against the ceilings may relate only to goods which are entered for free circulation and are accompanied by a certificate of origin,
- it would be advisable at this stage to adopt a fixed scale for allocating the ceilings concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade in textiles, and in particular to the trend of textile imports into the Community in recent years, the percentages for the Member States' initial shares of the Community ceilings are as follows for the year under consideration:

Germany	28.5 %
Benelux	10.5 %
France	18.5 %
Italy	15 %
Denmark	3 %
Ireland	1 %
United Kingdom	23.5 %

— without affecting the Community nature of the ceilings, it appears possible to provide at this stage for a utilization scheme based on a single allocation among the Member States; whereas, at the present juncture, it appears feasible that such allocation could, in general, be made according to the percentages set out in the table above; whereas, within the framework of the national shares, the levying of normal customs duties is reintroduced as soon as the level of each share is reached,

— the method of administration of the ceilings must make provision for the immediate reintroduction of the levying of customs duties as soon as the said ceilings, and also the Community maximum amounts in the case of the products listed in Annex C, are reached at Community level;

Whereas, as regards the Community tariff ceilings relating to the products listed in Annexes B and D, the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, against the ceilings and also against the abovementioned maximum amounts in the case of the products listed in Annex D, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings or maximum amounts are reached at Community level;

Whereas, however, one of the new Member States, the Kingdom of Denmark, has for a number of years been importing relatively large quantities of certain cotton yarns and woven fabrics falling within heading Nos ex 55.05 and ex 55.09 of the Common Customs Tariff and certain yarn and woven fabrics of synthetic textile fibres and sisal twine falling within heading Nos 51.04 and ex 59.04, and subheadings 56.05 A and 56.07 A of the Common Customs Tariff from a number of developing countries and had therefore ceased to produce the articles in question; whereas this special situation should temporarily continue to be taken into account and this Member State should be granted an increased share without restricting the access thereto of countries benefiting from generalized preferences;

Whereas the methods of administration for the products listed in Annexes A, B, C and D call for very close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation:

— the extent to which charges are made against the ceilings and maximum amounts and inform Member States thereof; whereas such cooperation

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce customs duties either generally or in a particular respect when any of the ceilings or maximum amounts is reached,

- the extent to which the allocated ceilings are used up, and inform the Member States thereof; whereas, for these purposes, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1980, the Common Customs Tariff duties applicable to the products listed in Annexes A, B, C and D shall be totally suspended within the framework of Community tariff ceilings, whether or not allocated among the Member States.

2. The arrangements laid down in paragraph 1 shall apply only in respect of products originating in the countries and territories:

- specified individually in column 5 of Annexes A and B or listed in Annex F,
- listed in Annex E, as regards the products listed in Annexes C and D.

However, those imports which already enjoy exemption from customs duties under other preferential tariff arrangements granted by the Community shall not be charged against the tariff ceilings referred to in paragraph 1. For the purposes of this Regulation, the concept of 'originating products' shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

With regard to carpets, carpeting and rugs of wool or fine animal hair falling with heading No 58.01 of the Common Customs Tariff, the certificates of origin for these products must state the number of knots per metre of warp.

3. The ceilings shall be administered in accordance with the following provisions.

Article 2

In the case of products falling within heading Nos 51.04, ex 55.05, ex 55.09 and ex 59.04 and subheadings 56.05 A and 56.07 A, duty-free imports

into Denmark shall be allowed in excess of the volumes laid down, in respect of the beneficiaries, in Annexes A, B and C to this Regulation, within the limits of the quantities determined by a footnote reference in Annex A to Regulation (EEC) No 1195/79 ⁽¹⁾.

SECTION I

Provisions relating to the administration of the Community tariff ceilings relating to the products listed in Annexes B and D

Article 3

1. Subject to Articles 4 and 5, the preferential tariff treatment shall be accorded for each category of products listed in Annexes B and D, within the limits of a Community ceiling equal:

- to the quantity specified in column 6 of Annex B for each of the countries or territories of origin listed in column 5 of that Annex,
- as regards the products listed in Annex D, to 55 % of total imports into the Community in 1977 of the category of products in question from all the beneficiaries. However, the ceiling resulting from this calculation may in no case exceed 125 % in general of the preferential amount fixed for 1978.

2. Subject to Articles 4 and 5, within each ceiling relating to the products listed in Annex D, charges of products originating in any one of the countries and territories listed in Annex E must not exceed a Community maximum amount equivalent to 50 % of this ceiling.

Article 4

1. As soon as the ceilings determined or calculated in accordance with Article 3 (1), which are laid down for imports into the Community of products originating in a given country or territory which is a beneficiary under the preferences, in the case of products listed in Annex B, or in all the beneficiary countries or territories in the case of products listed in Annex D, are reached at Community level, the levying of customs duties on imports of the products in question from any or all of the countries and territories concerned, except those listed in Annex F, may at any time be reintroduced until the end of the period referred to in Article 1 (1).

2. As soon as the maximum amounts calculated in accordance with Article 3 (2), which are laid down for imports into the Community of products originating, as regards the products listed in Annex D, in any of the countries or territories which are beneficiaries under the preferences, are reached for any one of these countries

⁽¹⁾ OJ No L 154, 21. 6. 1979, p. 1.

or territories at Community level, the levying of customs duties on imports of the products in question from the country or territory concerned, excluding those listed in Annex F, may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 5

The Commission shall reintroduce, by means of a Regulation, the levying of customs duties in respect of all or any one of the countries and territories referred to in Article 1 (2), under the conditions laid down in Article 4 (1) and (2).

SECTION II

Provisions relating to the allocation and administration of the Community tariff ceilings relating to the products listed in Annexes A and C

Article 6

1. The total suspension of customs duties within the framework of the Community tariff ceilings allocated among the Member States, referred to in Article 1 (1), concerns the categories of products in Annexes A and C, for each of which the volume of the ceiling is specified:

- individually in column 6 of Annex A for each of the beneficiary countries or territories of origin listed in column 5 of the said Annex,
- collectively in column 5 of Annex C for all the beneficiary countries and territories listed in Annex E.

2. The amount to be charged in respect of each of the beneficiary countries and territories listed in Annex E against each of the tariff ceiling amounts relating to the products listed in Annex C shall be limited to the maximum amount given in column 6 of the said Annex C against each category of products.

Article 7

1. The shares of the Community tariff ceilings relating to products in Annexes A and C shall be allocated in accordance with the following key:

Germany	28.5 %
Benelux	10.5 %
France	18.5 %
Italy	15 %
Denmark	3 %
Ireland	1 %
United Kingdom	23.5 %

2. Each Member State shall determine its own share by applying the appropriate percentage to the volumes indicated in column 6 of Annex A and column 5 of Annex C, rounding up the result to the next higher unit (kilogram, piece or pair) if necessary.

3. Without prejudice to the provisions of Article 9, within the framework of the national shares, the levying of normal customs duties shall be reintroduced as soon as the level of each share is reached.

Article 8

Member States shall take all measures necessary to ensure that importers of the products concerned established in their territory have free access to the shares allocated to them.

Article 9

The Commission shall take all necessary measures to ensure that the Community tariff ceilings relating to the products in Annexes A and C and the maximum amount referred to in Article 6 (2) are observed. When the charges, at Community level, of products originating:

- in any or all of the countries and territories listed in Annex E, or
- as regards the products in Annex A, in any of the countries or territories listed in column 5 of that Annex,

against any of the Community tariff ceilings reach:

- the ceiling specified in column 6 of Annex A,
- the ceiling specified in column 5 of Annex C, or
- the maximum amount specified in column 6 of Annex C,

the Commission shall immediately notify the Member States of the date on which, as a result of this fact, the normal tariff is to be reintroduced in respect of the country or territory or the countries or territories in question. This notification shall be published in the *Official Journal of the European Communities*.

SECTION III

General provisions

Article 10

The provisions set out in Sections I and II concerning reintroduction of the levying of normal customs duties shall not apply to the countries listed in Annex F.

Article 11

1. Imports of the products in question shall be actually charged against the national shares and the Community ceilings and maximum amounts as and when the products are entered for free circulation and are accompanied by a certificate of origin pursuant to the rules referred to in Article 1 (2).

2. Goods may be charged against a ceiling or a maximum amount or admitted under a national share only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. The extent to which the ceilings, national shares and maximum amounts have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

4. Any amendment to the list of beneficiaries, in particular by the addition of new countries or

territories, may entail a corresponding adjustment to the volume of the ceilings or the Community maximum amounts.

Article 12

Where the Commission so requests, and in any case at least monthly, Member States shall inform it of imports of the products concerned actually charged against their shares, the ceilings and the Community maximum amounts.

Article 13

Member States and the Commission shall cooperate closely to ensure that the preceding provisions are observed.

Article 14

This Regulation shall enter into force on 1 January 1980.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 10 December 1979.

COUNCIL REGULATION (EEC) No 2895/79

of 10 December 1979

opening tariff preferences in the form of a suspension of customs duties for jute manufactures originating in India, Thailand and Bangladesh and for coir manufactures originating in India and Sri Lanka

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas, within the context of Unctad, the European Economic Community offered to grant tariff preferences on finished and semi-finished products coming from developing countries; whereas the preferential treatment proposed in that offer covers, generally speaking, all finished and semi-finished industrial products covered by Chapters 25 to 99 of the Common Customs Tariff which originate in developing countries;

Whereas the offer made by the Community includes a clause stating that the Community drew up the offer on the assumption that all the main industrialized countries which are members of the OECD would participate in granting preferences and would make similar efforts in this direction; whereas, moreover, it is evident from the conclusions worked out in Unctad that this offer, while being of a temporary nature, does not constitute a binding commitment and, in particular, may be withdrawn wholly or in part at a later date; whereas this possibility may be adopted *inter alia* with a view to remedying any unfavourable situations which might arise in the ACP States following the implementation of the generalized preference scheme;

Whereas, however, as regards jute and coir products, the said offer includes the elimination of customs duties only where special arrangements have been made with the developing exporting countries;

Whereas the Agreements concluded between the Community and India on jute and coir manufactures expire on 31 December 1979; whereas negotiations must therefore be started in good time for the implementation of special arrangements proposed in the abovementioned offer made to Unctad; whereas the terms involved are those which the Community intends to renegotiate with the country in question and there is now reason to believe that it might be useful to consider extending the preferential tariff scheme in force at least for 1980; whereas it also seems advisable to apply the same scheme in respect of Bangladesh whose situation is substantially the same as that described above, but exclusively for jute products; whereas in view of the *ad hoc* measures agreed between the Community and Sri Lanka in respect of coir manufactures and between the Community and Thailand in respect of jute manufactures, the present preferential tariff scheme may also be applied in respect of these two countries;

Whereas, in accordance with Protocol 23 to the Act of Accession ⁽⁴⁾, the generalized tariff preference scheme became fully applicable in the new Member States on 1 January 1974;

Whereas the benefit of these suspensions should be restricted to the said products originating in India, Bangladesh, Thailand and Sri Lanka, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods ⁽⁵⁾

HAS ADOPTED THIS REGULATION:
