COMMISSION REGULATION (EEC) No 1393/80**of 2 June 1980**

re-establishing the levying of customs duties on iron or steel wire, whether or not coated, but not insulated, falling within heading No 73.14 and originating in Romania, to which the preferential tariff arrangements set out in Council Regulation (EEC) No 2789/79 apply

THE COMMISSION OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
2789/79 of 10 December 1979 establishing preferen-
tial tariffs in respect of certain products originating in
developing countries ⁽¹⁾, and in particular Article 4 (2)
thereof,

Whereas Article 1 (3) and (4) of that Regulation
provides that customs duties may, for each category of
products, be suspended up to a Community ceiling,
expressed in European units of account, which will be
equal — with the exception of certain products the
value of the ceilings for which is given in Annex A
thereto — to the sum arrived at by adding together
the value of the products in question imported cif
into the Community in 1977 and coming from coun-
tries and territories covered by those arrangements,
but not including products coming from countries
and territories already covered by various preferential
tariff arrangements established by the Community,
and 5 % of the value of 1977 cif imports coming
from other countries and from countries and territo-
ries already covered by such arrangements; whereas,
however, the ceiling resulting from the sum of this
addition may in no case exceed 110 or 115 % of the
preferential ceiling opened for 1979;

Whereas, having regard to that ceiling, the amounts
for products originating in any one of the countries or
territories listed in Annex B to that Regulation should
be within a maximum Community amount repre-
senting 50 % of that ceiling, with the exception of
certain products for which the maximum amount is to
be reduced to the percentage indicated in Annex A
thereto;

Whereas Article 2 (2) and (3) of that Regulation
provides that the levying of customs duties may be
re-established at any time in respect of imports of the
products in question originating in any of the said

countries or territories — with the exception of those
listed in Annex C thereto — once the relevant
Community amount has been reached;

Whereas, in respect of iron or steel wire, whether or
not coated, but not insulated, the ceiling, calculated as
indicated above, should be 2 953 000 European units
of account, and therefore the maximum amount is
1 477 000 European units of account; whereas, on 19
May 1980, the amounts of imports into the Commu-
nity of iron or steel wire, whether or not coated, but
not insulated, originating in Romania, a country
covered by preferential tariff arrangements, reached
that maximum amount; whereas, bearing in mind the
objectives of Regulation (EEC) No 2789/79 which
provides that maximum amounts should not be
exceeded, customs duties should be re-established in
respect of the products in question in relation to
Romania,

HAS ADOPTED THIS REGULATION:

Article 1

As from 6 June 1980, the levying of customs duties,
suspended in pursuance of Council Regulation (EEC)
No 2789/79, shall be re-established in respect of the
following products, imported into the Community
and originating in Romania:

Article 2

This Regulation shall enter into force on the third day
following its publication in the *Official Journal of
