(80/1317/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to Council Regulation (EEC) No 355/77 of 15 February 1977 on common measures to improve the conditions under which agricultural products are processed and marketed ⁽¹⁾, and in particular Article 5 thereof,

Whereas, on 29 August 1980, the Belgian Government forwarded a programme for the livestock, meat and meat products sector and on 25 September 1980 provided additional details;

Whereas this programme relates to the restructuring and modernization as well as in certain cases the development of facilities for:

- the marketing and export of live pigs and cattle,
- the slaughter of pigs, fat cattle and calves,
- cutting, cold stores and freezing either ancillary to or independent of slaughter houses,
- meat processing,

in order to increase profitability in the sector and increase producers' incomes; whereas it is therefore a programme within the meaning of Article 2 of Regulation (EEC) No 355/77;

Whereas approval of the programme does not affect decisions to be taken under Article 14 of Regulation (EEC) No 355/77 in the matter of Community financing of projects, in particular as regards projects involving an increase in slaughtering capacity, particularly in view of the low utilization rate of a large number of existing slaughterhouses;

COMMISSION DECISION

of 17 December 1980

approving a programme for fruit and vegetable processing in the Land
North Rhine-Westphalia pursuant to Council Regulation (EEC) No 355/77

(Only the German text is authentic)

(80/1318/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No 355/77
of 15 February 1977 on common measures to improve
the conditions under which agricultural products are
processed and marketed ⁽¹⁾, and in particular Article 5
thereof,

Whereas, on 6 June 1980, the Government of the Federal
Republic of Germany forwarded a programme for fruit
and vegetable processing in the Land North
Rhine-Westphalia and on 10 November 1980 provided
additional details;

Whereas this programme relates to the whole fruit and
vegetable sector, the modernization, rationalization,
development as well as the improved siting of
processing facilities and ancillary facilities (especially
storage facilities) in order to improve the
competitiveness of the sector, to increase the value of
fruit and vegetable production and to guarantee outlets
to growers as well as to improve their income; whereas
it is therefore a programme within the meaning of
Article 2 of Regulation (EEC) No 355/77;

Whereas the approval of the programme does not
prejudice the decisions to be taken under Article 14 of
Regulation (EEC) No 355/77 in the matter of
Community financing of projects for the development
of processing capacity in view notably of confirming if,
especially for the traditional conserved products, the
new capacity corresponds closely to the market outlets;

Whereas the programme contains the details required
under Article 3 of Regulation (EEC) No 355/77,
showing that the objectives laid down in Article 1 of
that Regulation can be achieved in respect of the sector
concerned; whereas the schedule for implementation of
the programme does not exceed the time limit laid
down in Article 3 (1) (g) of the said Regulation;

Whereas the measures provided for in this Decision are

approving a programme for the fruit and vegetable sector in the Land Bavaria pursuant to
Council Regulation (EEC) No 355/77

(Only the German text is authentic)

(80/1319/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No 355/77
of 15 February 1977 on common measures to improve
the conditions under which agricultural products are
processed and marketed ⁽¹⁾, and in particular Article 5
thereof,

Whereas, on 16 May 1979, the Government of the
Federal Republic of Germany forwarded a programme
for the fruit and vegetable sector and on 11 January,
5 June and 6 October 1980 provided additional details;

Whereas this programme relates to the development,
modernization and rationalization of treatment and
marketing facilities for fresh fruit and vegetables as well
as processing facilities with a view to an increase in the
quantities treated, an improvement in quality, a better
market balance and an increase in profitability in the
sector concerned; whereas it is therefore a programme
within the meaning of Article 2 of Regulation (EEC)
No 355/77;

Whereas approval of the programme does not affect the
decisions to be taken under Article 14 of Regulation
(EEC) No 355/77 in the matter of Community
financing of projects relating to the development of

especially for traditional conserved products, the new

COMMISSION DECISION

of 17 December 1980

approving a programme for fruit processing in Belgium pursuant to Council Regulation (EEC) No 355/77

(Only the French and Dutch texts are authentic)

(80/1320/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 355/77 of 15 February 1977 on common measures to improve the conditions under which agricultural products are processed and marketed ⁽¹⁾, and in particular Article 5 thereof,

Whereas, on 5 August 1980, the Belgian Government forwarded a programme for fruit processing;

Whereas this programme relates to the rationalization and modernization of the processing industry (especially by increased automation of production processes, diversification of products and their packaging, and elimination of bottlenecks existing at present) as well as the development of the industry for those products which show good market prospects; whereas, therefore, the programme has the objectives of improving the situation and competitiveness of the sector and increasing the value of fruit production and is therefore a programme within the meaning of Article 2 of Regulation (EEC) No 355/77;

Whereas approval of the programme does not affect the decisions to be taken under Article 14 of Regulation (EEC) No 355/77 in the matter of Community financing of projects relating to the development of processing capacities in order notably to verify if, especially for the traditional conserved products, the new capacity corresponds closely to the market outlets;

Whereas the programme contains the details required under Article 3 of Regulation (EEC) No 355/77, showing that the objectives laid down in Article 1 of that Regulation can be achieved in respect of the processed fruit production sector; whereas the schedule for implementation of the programme does not exceed the time limit laid down in Article 3 (1) (g) of the said Regulation;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Agricultural Structure,

HAS ADOPTED THIS DECISION:

COMMISSION DECISION

of 17 December 1980

approving a programme for the processing and marketing of milk products in France
pursuant to Council Regulation (EEC) No 355/77

(Only the French text is authentic)

(80/1321/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No 355/77
of 15 February 1977 on common measures to improve
the conditions under which agricultural products are
processed and marketed ⁽¹⁾, and in particular Article 5
thereof,

Whereas on 24 July 1979 the French Government
forwarded the programme for the milk sector and on
25 September 1980 provided additional details;

Whereas the said programme for the cow, sheep and
goat milk sector relates to:

- the adaptation of processing facilities to the global
and regional revolution of milk production,
- the rationalization by modernization and
concentration of milk processing and marketing
facilities,
- the extension of facilities for the production of
certain milk products (in particular cow's milk
cheese notably soft cheese and blue cheese, sheep or
goat's cheese) or an increase in the degree of
processing of milk products (notably high value
dried products),
- the improvement of distribution conditions by an
appropriate development of the cold chain (notably
for liquid milk and fresh products), in order to
increase the value of milk production, to widen the
market outlets and thus maintain the incomes of
milk producers; whereas it is therefore a programme
within the meaning of Article 2 of Regulation (EEC)
No 355/77;

Whereas approval of the programme can be given only
subject to future Community policy for rectifying the

structural surpluses in the milk sector and can under no
circumstances extend to those parts of the programme
which relate to the manufacture of milk powder and
butter except for the rationalization of businesses with a
capacity less than 50 tonnes of butter per year;

Whereas approval of the programme does not extend to
projects for the production of condensed milk and whey
powder, the increase in capacity for U.H.T. milk
production or the increase in capacity of cows' milk
cheese which would lead to an increase in the present
milk processing capacity or which concerned the types
of cheese where there is already over-capacity and
whose market outlets are not guaranteed;

Whereas the programme contains the details required
under Article 3 of Regulation (EEC) No 355/77,
showing that the objectives laid down in Article 1 of
that Regulation can be achieved in respect of the milk
sector in France; whereas the schedule for
implementation of the programme does not exceed the
time limit laid down in Article 3 (1) (g) of the said
Regulation;

Whereas the measures provided for in this Decision are
in accordance with the opinion of the Standing
Committee on Agricultural Structure,

HAS ADOPTED THIS DECISION:

Article 1

1. The programme for the milk sector submitted by the
French Government pursuant to Regulation (EEC)
No 355/77 on 24 July 1979 and supplemented on
25 September 1980 is hereby approved.

2. Approval of the programme does not extend to
those parts of the programme which relate to condensed

milk, whey powder or the increase of capacity for the production of U.H.T. milk as well as the increase in cows' milk cheese manufacturing capacity which would lead to an increase in the present milk processing capacity or which concerned the types of cheese for which there is already over-capacity and whose market outlets are not guaranteed.

Whereas, on 19 May 1980, the Government of the Federal Republic of Germany forwarded a programme for the livestock and meat sector;

Whereas this programme deals essentially with the restructuring and modernization of slaughtering facilities and cold stores as well as the restructuring, modernization or development of cutting facilities to give a better regional distribution of the slaughtering facilities, in order to balance supply and demand and to improve producers' incomes; whereas it is therefore a programme within the meaning of Article 2 of Regulation (EEC) No 355/77;

Whereas the programme contains the details required under Article 3 of Regulation (EEC) No 355/77, showing that the objectives laid down in Article 1 of that Regulation can be achieved in respect of the abovementioned sector; whereas the schedule for implementation of the programme does not exceed the
