(81/914/EEC)

THE EUROPEAN PARLIAMENT,

- Having regard to the Treaty establishing the European Economic Community, and in particular Article 206b thereof,

- Having regard to the report of the Court of Auditors on the 1979 accounts (Doc. 1-449/80),
- Having regard to the report of the Committee on Budgetary Control (Doc. 1-350/81),
- Recalling that the Treaty of 22 July 1975, duly ratified by all the Member States, conferred on the European Parliament final responsibility in relation to the grant of discharge in respect of the general budget of the European Communities;
- Aware of the importance which attaches to the prompt consideration of the granting of discharge to the various satellite bodies of the European Community;
- Anxious to ensure closer political control over the activities of the Centre and to enhance the value of its work,

RESOLUTION

embodying the comments accompanying the Decision granting a discharge to the Management Board of the European Centre for the Development of Vocational Training in respect of its revenue and expenditure accounts for the 1979 financial year

THE EUROPEAN PARLIAMENT.

1. Asks the Commission, the Council and the Management Board of the European Centre for the Development of Vocational Training to take the necessary measures to comply with the following comments and calls on the Commission to submit a written report by 1 December 1981 on the follow-up to these comments:

Grant of discharge

2. Reiterates its belief that the principle reflected in Article 206b of the EEC Treaty, as amended by the Treaty of 22 July 1975, which confers on the European Parliament responsibility for the final grant of discharge in respect of the general budget of the European Communities, applies also to those appropriations entered in the budget at Item 3 0 1 0, and, therefore, asks that the financial provisions of the European Centre for the Development of Vocational Training, in so far as they relate to the arrangements for the grant of discharge, be brought into line with the provisions set out at Article 85 of the Financial Regulation applying to the general budget of the European Communities without further delay:

Role of the Centre in the formulation of Community policy

3. Considers that, until the Commission of the European Communities has developed procedures that would enable it to use to the full the capacity of the Centre in the context of policy formulation, optimum utilization of the services of the Centre will not be possible and, therefore, the Commission is invited to ensure that the Centre is more fully

involved in the process of preparing programmes in the relative sectors;

Closer involvement of the Centre with the specialized Committees of Parliament

4. Asks that improved liaison be effected between the Centre and the Committees of Parliament since, because of its well-informed sources, the Centre is in a position to assist Parliament's specialized committees — particularly the Committee on Social Affairs and Employment and the Committee on Youth, Culture, Education, Information and Sport — in their work;

Social security provisions

5. Calls on the Council to expedite its work on the modification of the social security system applicable to the staff of the Centre and asks that consideration be given to the possibility of retrospective application;

Economy measures

6. Approves of the economy measures in the sphere of energy that have been effected by the Centre and invites the other European Communities institutions to follow this example;

Need to avail of the findings of the Centre

7. Insists on the need for all European Communities institutions and bodies to make use, to the fullest extent possible, of the findings of the Centre, in view of (a) the present urgency of securing an effective vocational training policy and (b) the importance of making the best possible use of overall Community resources.

DECISION OF THE EUROPEAN PARLIAMENT

- Having regard to the report of the Court of Auditors on the 1979 accounts (Doc. 1-837/80),
- Having regard to the report of the Committee on Budgetary Control (Doc. 1-251/81),
- Recalling that the Treaty of 22 July 1975, duly ratified by all the Member States, conferred on the European Parliament final responsibility in relation to the grant of discharge in respect of the general budget of the European Communities;
- Considering that this responsibility extends also to the satellites and subsidiary bodies of the European Communities;

RESOLUTION

embodying the comments accompanying the Decision granting a discharge to the Administrative Board of the European Foundation for the Improvement of Living and Working Conditions in respect of its revenue and expenditure accounts for the financial year 1979

THE EUROPEAN PARLIAMENT

1. Asks the Council and the Commission of the European Communities and the Administrative Board of the European Foundation for the Improvement of Living and Working Conditions to take the necessary measures to comply with the following comments and calls on the Commission and the Administrative Board of the European Foundation for the Improvement of Living and Working Conditions to submit a written report by 1 October 1981 on the follow-up to these comments;

Closer involvement of the Foundation in the formulation of Community policy

2. Notes that the Regulation which established the Foundation effectively envisaged the involvement of this body in the formulation of Community policy in the social sphere, observes that such active participation does not appear to take place and calls on the Council and the Commission of the European Communities to ensure that, in future, the Foundation is more closely involved in the formulation of Community social and environmental policy;

Closer involvement of the Foundation with the specialized Committees of the European Parliament

3. Aware of the well-informed position of the Foundation in regard to social and environmental matters, considers that it is in a position to assist Parliament's specialized Committees, especially the Committee on Social Affairs and Employment and the Committee on the Environment, Public Health and Consumer Protection in their work, and asks that the necessary improved liaison be effected;

Social security provisions

4. Deplores the delays that have occurred in the matter of the modification of the social welfare

system applicable to the staff of the Foundation, urges a speedy resolution of this issue and asks that consideration be given to the possibility of retrospective application;

Translation and publication

5. Approves of the economic manner in which translation and publication aspects of the work of the Foundation are handled and suggests that the administrations of the other institutions consult the Foundation in regard to the possibilities for effecting similar economies;

Construction costs and fees

6. Notes the observations of the Court of Auditors in relation to construction costs and fees and insists that, in future, detailed memorandum accounts for any construction projects should be kept;

Conference centre

7. Recalls its earlier comments in regard to the Foundation's conference centre and notes that income from letting is apparently equivalent to current running costs;

Role of the Commission

8. Observes a reluctance on the part of the Commission to concern itself actively with the Foundation; believes that it behoves the Commission, in the context of better utilization of overall Community resources, to use to the fullest the possibilities presented by the capacities of the Foundation and urges the Commission to adopt a positive attitude in this context.

COMMISSION

COMMISSION DIRECTIVE

of 5 October 1981

adapting to technical progress Council Directive 77/728/EEC on the approximation of the laws, regulations and administrative provisions of the Member States relating to the classification, packaging and labelling of paints, varnishes, printing inks, adhesives and similar products

(81/916/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 77/728/EEC of 7 November 1977 on the approximation of the laws, regulations and administrative provisions of the Member States relating to the classification, packaging and labelling of paints, varnishes, printing inks, adhesives and similar products ⁽¹⁾, and in particular Article 11 thereof,

Whereas Annex I to Directive 77/728/EEC contains a list of dangerous substances giving for each of these substances concentration limits which govern the classification of the preparations concerned;

Whereas examination of the list of dangerous substances has shown that this list needs to be adapted in the light of the latest scientific and technical knowledge or, more precisely, that it is necessary to change the concentration limits for some substances and to include other substances on the list;

Whereas Annex II to Directive 77/728/EEC contains special provisions concerning the labelling of certain preparations; whereas some risks have now been more precisely specified; whereas some of the safety advice phrases should be more clearly expressed; whereas, in the circumstances, Annex II should be amended:

Whereas the measures provided for in this Directive are in accordance with the opinion of the Committee for the Adaptation to Technical Progress of the Directives on the Removal of Technical Barriers to Trade in Dangerous Substances and Preparations,

HAS ADOPTED THIS DIRECTIVE,

Article 1

Annexes I and II to Directive 77/728/EEC are hereby replaced by the Annexes to this Directive.

Article 2

The Member States shall adopt and publish before 1 July 1983 the provisions necessary to comply with this Directive and shall forthwith inform the Commission thereof. They shall apply such provisions with effect from 1 July 1983 at the latest.

Article 3

This Directive is addressed to the Member States.

Done at Brussels, 5 October 1981.

ANNEX I

CLASSIFICATION OF DANGEROUS SUBSTANCES

Explanatory notes

- (¹) The concentrations stated are percentages by weight calculated with reference to the total weight of the preparation.
- (²) The concentrations stated are percentages by weight of the metallic element calculated with reference to the total weight of the preparation.
- (³) The given concentrations of isocyanates are percentages by weight of free monomer calculated with reference to the total weight of the preparation.
- (⁴) The concentrations stated are percentages by weight of chromate ions dissolved in water calculated with reference to the total weight of the preparation.
- (⁵) For the substances identified in this way, the reference to Directive 67/548/EEC relates to aqueous solutions. However, for the purposes of this Annex, the concentration stated refers to the weight of the substance in question calculated as a percentage of the total weight of the preparation.
- (⁶) The control of the concentration defined in this way is based on the ISO norm 6713/1980. This concentration limit may be reviewed in the light of any eventual modification of this norm.
