(Acts whose publication is not obligatory)

COMMISSION

COMMUNICATION FROM THE COMMISSION

amending the basic prices for certain iron and steel products

In its communication of 31 December 1977 ⁽¹⁾, as last amended by the communication of 1 August 1981 ⁽²⁾, the Commission of the European Communities published basic prices for certain iron and steel products.

These basic prices have since been reviewed for bulk steel products on the basis of Article 2 (6) (b) of recommendation No 3018/79/ECSC of 21 December 1979 on protection against dumped or subsidized imports from countries which are not members of the European Coal and Steel Community ⁽³⁾. The review of the normal costs for steel products in the supplying country or countries where there are normal conditions of competition indicated that there had been an increase. Consequently the Commission has decided to amend the basic prices for bulk steel products published in the *Official Journal of the European Communities* ⁽²⁾.

To this end it has allowed for the exchange rate changes which have taken place since 4 July 1981 and has fixed the equivalent value of ECU for the basic prices.

The basic prices set out below are effective from 1 January 1982.

Equivalent of one ECU

Belgian or Luxembourg franc	40.8614
German mark	2.4587
Dutch guilder	2.7136
Pound sterling	0.582920
Danish krone	7.83892
French franc	6.07576
Italian lira	1 284.92
Irish pound	0.686372
Greek drachma	61.4913

In order to maintain a uniform price level, the Commission may adjust these prices in accordance with fluctuations in exchange rates.

The prices without extras stated above enable the prices without extras to be determined for the different specifications taking into account the following values: Ni: 93 ECU/tonne/1 % Mo: 245 ECU/tonne/1 % Cr: 15 ECU/tonne/1 % Va: 222 ECU/tonne/1 % Mn: 6 ECU/tonne/1 % For boron-treated steels, there will be a standard extra of 25 ECU/tonne applied to the prices of the specifications without boron. For lead-treated steels, there will be a standard extra of 37 ECU/tonne applied to the prices of the specifications without lead. Size and heat treatment extras With the exception of coiled bars less than 13 mm, the extras to be applied (size, annealing, treatment extras) are as follows: For coiled bars less than 13 mm, the basic price for wire rod plus the extras for heat treatment of wire rod will be applied.
