COUNCIL

COUNCIL DECISION

of 17 May 1982

adopting a research and development programme (1982 to 1985) in the raw materials sector

(82/402/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 235 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (⁽¹⁾),

Having regard to the opinion of the Economic and Social Committee (⁽²⁾),

Whereas Article 2 of the Treaty assigns to the Community the task *inter alia* of promoting throughout the Community a harmonious development of economic activities, a continuous and balanced expansion and an accelerated raising of the standard of living;

Whereas the Council resolution of 14 January 1974 on an initial outline programme of the European Communities in the field of science and technology (⁽³⁾) stressed that the whole range of available means of action should be used as appropriate, including indirect action;

Whereas the Community depends to a great extent on third countries for its supply of raw materials, and it is thus in the Community's interest to increase its self-supply potential, and in particular to develop new technologies for its indigenous resources;

Whereas Community research action in the raw materials sector will contribute effectively to the achievement of the abovementioned objectives, particularly through the discovery and economic exploitation of internal resources, the improvement of

waste recovery, recycling and re-use and the development of material substitution for a more efficient use of materials, as well as through the development of exportable techniques and technologies;

Whereas by Decision 79/968/EEC (⁽⁴⁾) the Council adopted a multiannual research and development programme for the European Communities in the field of the recycling of urban and industrial waste;

Whereas by Decision 78/264/Euratom (⁽⁵⁾), as amended by Decision 81/364/Euratom (⁽⁶⁾), the Council adopted, for a period of five years with effect from 1 January 1978, a programme of research and development for the European Atomic Energy Community on uranium exploration and extraction;

Whereas on 19 April 1977 the European Parliament adopted a resolution on the Community's raw materials supply;

Whereas in its deliberations of 20 December 1979 the Council invited the Commission to concentrate Community research programmes on sectors of priority interest, including energy and raw materials, and to rationalize the structures for the preparation, adoption and implementation of these programmes; whereas a grouping of indirect actions in the raw materials sector would constitute a contribution towards meeting these objectives;

Whereas the Treaty does not provide the specific powers necessary for this purpose;

Whereas the Scientific and Technical Research Committee (CREST) has given its opinion on the Commission proposal,

(⁽¹⁾) OJ No C 11, 18. 1. 1982, p. 215.

(⁽²⁾) OJ No C 64, 15. 3. 1982, p. 6.

(⁽³⁾) OJ No C 7, 29. 1. 1974, p. 6.

(⁽⁴⁾) OJ No L 293, 20. 11. 1979, p. 19.

(⁽⁵⁾) OJ No L 72, 14. 3. 1978, p. 12.

(⁽⁶⁾) OJ No L 137, 23. 5. 1981, p. 44.

HAS DECIDED AS FOLLOWS:

Article 1

1. A programme of research and development for the European Economic Community in the raw materials sector is hereby adopted in the form set out in the Annex, for a four-year period starting on 1 January 1982.
2. The programme will be implemented by means of indirect actions and coordination actions.

Article 2

1. The appropriations needed to implement the programme, including expenditure relating to a staff of 19 employees, the amount of which is fixed at 54 million ECU, shall be entered in the general budget of the European Communities.

The distribution of this amount by sub-programme is shown in Section A of the Annex.

2. In the light of experience gained in the course of the execution of this programme and after having consulted the Scientific and Technical Research Committee (CREST) and the competent Advisory Committee on Programme Management, the Commission shall be authorized to transfer appropriations between the sub-programmes defined in Section A of the Annex, provided that such transfers do not result in an increase or a reduction of more than 10 % in the original allocation to each sub-programme.

Article 3

The Commission shall be responsible for the implementation of the programme and shall be assisted by advisory committees on programme management in the following fields, such committees being set up for this purpose and governed by the rules laid down in the Council resolution of 18 July 1977 on advisory committees on research programme management ⁽¹⁾:

- (a) metals and mineral substances, recycling of non-ferrous metals;
- (b) wood as a renewable raw material;
- (c) substitution and ceramics (clay-based materials and technical ceramics).

Article 4

In the second year the Commission shall draw up an interim report on the results of the programme. A final review of the programme shall be made in the third year. In the light of this review the Commission may, through the appropriate procedures, present to the Council a proposal for a new four-year

programme which would supersede the current programme at the end of the third year. A report on this review and on the possible revisions shall be drawn up for the European Parliament and the Council.

Article 5

The information resulting from the implementation of the indirect action programme defined in the Annex, in so far as it concerns raw materials covered by the Treaty, shall be disseminated in accordance with Council Regulation (EEC) No 2380/74 of 17 September 1974 adopting provisions for the dissemination of information relating to research programmes for the European Economic Community ⁽²⁾.

Article 6

1. In accordance with a procedure to be laid down by the Commission after having consulted the committee referred to in Article 3, the Member States taking part in coordination activities and the Commission shall regularly exchange all useful information concerning the execution of the research covered by such activities. The Member States shall provide the Commission with all information relevant for coordination purposes.

2. The Commission shall prepare annual progress reports on the basis of the information supplied, and shall forward them to the Member States and the European Parliament.

3. At the end of the coordination period the Commission, after having consulted the Committees referred to in Article 3, shall forward to the Member States and the European Parliament a comprehensive report on the execution and results of the coordination activities.

Article 7

1. In accordance with Article 228 of the Treaty, the Community may conclude agreements with third countries, in particular those involved in European collaboration in the field in Scientific and Technical Research (COST) with a view to associating them wholly or partly with this programme.

2. The Commission is hereby authorized to negotiate the agreements referred to in paragraph 1.

Article 2

The maximum financial contribution by the Contracting Parties to the implementation of the European programme shall be 9 285 000 ECU to be divided as follows:

— 9 million ECU

from the Community for a four-year period beginning on 1 November 1979;

— 285 000 ECU

from Sweden for the period referred to in Article 1. This amount is calculated by applying to the Community contribution the ratio between the gross domestic product of Sweden and the gross domestic product of the Community and of Sweden for 1979, and by taking into account the ratio between the duration of this Agreement and that of the Community programme.

The ECU is that defined in the Financial Regulation applicable to the general budget of the European Communities and in the financial provisions adopted pursuant to that Regulation.

The rules governing the financing of this Agreement are set out in Annex C.

Article 3

For Swedish persons and undertakings, the terms and conditions for the submission and evaluation of

proposals, as well as for the granting and conclusion of shared-cost contracts, shall be the same as those applied for Community persons and undertakings.

Article 4

The Commission of the European Communities, hereinafter referred to as 'the Commission', shall ensure the implementation of the indirect actions listed in Annex A and be responsible for the coordination of the activities listed in Annex B.

The Advisory Committee of the Community Programme, hereinafter referred to as 'the Committee', shall be enlarged to include representatives appointed by Sweden not exceeding three in number.

The terms of reference and the composition of the Committee are defined in accordance with the Council resolution of 18 July 1977 on advisory committees on research programme management, appearing in Annex D.

Article 5

The European programme shall be reviewed at the end of 1982; this review may result in a revision of the programme in accordance with the appropriate procedures after the Committee has been consulted.

Article 6

Information resulting from the execution of the indirect actions listed in Annex A shall be disseminated in accordance with the Council Regulation of 17 September 1974 adopting provisions for the dissemination of information relating to research programmes for the European Economic Community. The rights and obligations of Sweden and Swedish persons and undertakings shall be the same as those laid down by the above Regulation for Member States and persons and undertakings which pursue a research or production activity on the territory of a Member State.

Article 7

1. In accordance with a procedure laid down by the Commission after having consulted the Committee, Sweden and the Member States of the Community taking part in the activities listed in Annex B (hereinafter referred to as 'the participating States') and the Community shall regularly exchange all useful information resulting from the execution of the research covered by such activities. The participating States shall provide the Commission with all information relevant for coordination purposes. They shall also endeavour to provide the Commission with information on similar research planned or carried

out by other bodies. Any information shall be treated as confidential if so requested by the participating State which provides it.

2. The Commission shall prepare annual progress reports on the basis of the information supplied and forward them to the participating States.

3. At the end of the coordination period the Commission, after having consulted the Committee, shall forward to the participating States a comprehensive report on the execution and results of the coordinated activities. The Commission shall publish this report within six months after it has been sent to the participating States, unless one of them objects. In that case, the report shall be treated as confidential and shall be forwarded, after consultation with the Committee, solely to the institutions and undertakings whose research or production activities justify access to knowledge resulting from the performance of the research covered by the coordinated activities.

Article 8

The Contracting Parties shall consult with each other, if one of them so requests, on any problem arising out of the application of this Agreement.

Article 9

This Agreement shall apply, on the one hand, to the territories in which the Treaty establishing the European Economic Community is applied, under the conditions laid down in that Treaty, and, on the other hand, to the territory of the Kingdom of Sweden.

Article 10

1. As soon as possible after signing this Agreement, each of the Contracting Parties shall notify the Secretary-General of the Council of the European Communities of the completion of the procedures necessary under its internal provisions for the implementation of this Agreement.

2. This Agreement shall enter into force on the first day of the month following that in which the second of the Contracting Parties forwards the notification referred to in paragraph 1.

Prior to the entry into force of this Agreement, Sweden may take part in the work of the Committee.

3. For a period of six months following its entry into force, this Agreement shall be open for accession by other European States which took part in the Ministerial Conference held in Brussels on 22 and 23 November 1971. The instruments of accession shall be deposited with the General Secretariat of the Council of the European Communities.

A State which accedes to this Agreement shall become a Contracting Party within the meaning of Article 1 on the date on which the instrument of accession is deposited and references to 'Sweden' and 'Swedish' in Articles 3, 4, 6, 7 and 9 shall be construed as references to that acceding State also.

Each acceding State shall contribute to the implementation of the programme under the same conditions laid down in Article 2 concerning Sweden.

4. The Secretary-General of the Council of the European Communities shall notify each of the Contracting Parties of the lodging of the notifications

referred to in paragraph 1, of the date of entry into force of this Agreement and of the deposit of the instruments of accession referred to in paragraph 3.

Article 11

This Agreement, drawn up in a single original in the Danish, Dutch, English, French, German, Greek and Italian languages, each text being equally authentic, shall be deposited in the archives of the General Secretariat of the Council of the European Communities, which shall transmit a certified copy to each of the Contracting Parties.

*ANNEX C***FINANCING RULES***Article 1*

These provisions lay down the financial rules referred to in Article 2 of the Agreement.

Article 2

At the beginning of each financial year, the Commission shall send to Sweden a call for funds corresponding to its share of the annual costs under the Agreement, calculated in proportion to the maximum amounts laid down in Article 2 of the Agreement.

This contribution shall be expressed both in ECU and in the currency of the State concerned, the value of the ECU being that defined in the Financial Regulation applicable to the general budget of the European Communities and determined on the date of the call for funds.

The total contributions shall cover the travel and subsistence costs of the delegates to the Committee, in addition to the implementation costs proper.

Sweden shall pay its annual contribution to the costs under the Agreement at the beginning of each year, and by 31 March at the latest. Any delay in payment shall give rise to the payment of interest by Sweden — at a rate equal to the highest discount rate obtaining in the participating States on the due date. The rate shall be increased by 0.25 of a percentage point for each month of delay. The increased rate shall be applied to the entire period of delay. However, such interest shall be chargeable only if payment is made more than three months after the issue of a call for funds by the Commission.

Article 3

The funds paid by Sweden shall be credited to the relevant programme as budget receipts allocated to a heading in the statement of revenue of the budget of the Commission.

Article 4

The provisional timetable for the implementation costs referred to in Article 2 of the Agreement is appended hereto.

Article 5

The Financial Regulation applicable to the general budget of the European Communities shall apply to the management of the appropriations.

Article 6

At the end of each financial year, a statement of appropriations for the European programme shall be prepared and transmitted to Sweden for information.

ANNEX D

THE COUNCIL OF THE EUROPEAN COMMUNITIES HEREBY ADOPTS THIS RESOLUTION:

1. Advisory committees on programme management shall be set up or, where appropriate, retained in the following areas:

A. DIRECT ACTION ⁽¹⁾:

- reactor safety,
- plutonium fuels and actinide research,
- measurements, standards and reference techniques (METRE) — nuclear,
- operation and utilization of the HFR reactor,
- high-temperature materials,
- informatics,
- fissile material control.

B. INDIRECT ACTION ⁽¹⁾:

- plutonium recycling in light-water reactors,
- energy conservation,
- geothermal energy,
- systems analysis: development of models,
- biology: health protection (radiation protection).

C. DIRECT ⁽¹⁾ AND INDIRECT ⁽¹⁾ ACTION:

- solar energy,
- production and utilization of hydrogen,
- environment and resources,
- reference materials and methods,
- management and storage of radioactive waste,
- fusion and plasma physics.

The non-nuclear part of the (direct action) programme 'Measurements, standards and reference techniques (METRE)' has been entrusted to the Advisory Committee on Programme Management for Reference Materials and Methods (indirect action).

The programme for the management of nuclear materials and radioactive waste (direct action) has been entrusted to the Advisory Committee on Programme Management for the Management and Storage of Radioactive Waste (indirect action).

⁽¹⁾ Programme adopted by Decision 77/488/EEC, Euratom (OJ No L 200, 8. 8. 1977, p. 4).

⁽²⁾ Programmes adopted by Decisions:

- 74/642/Euratom (OJ No L 349, 28. 12. 1974, p. 61),
- 75/406/Euratom (OJ No L 178, 9. 7. 1975, p. 28),
- 75/510/EEC (OJ No L 231, 2. 9. 1975, p. 1),

- 77/54/EEC (OJ No L 10, 13. 1. 1977, p. 28).

The programme on thermonuclear fusion technology (direct action) has been entrusted to the Liaison Group for indirect action on fusion and plasma physics. The Joint Research Centre is a member of this group which, while continuing to carry out the tasks entrusted to it by other means, is subject to the provisions of this resolution.

The part of the programme on environment and resources (direct action) concerning renewable resources has been entrusted to the Standing Committee on Agricultural Research (SCAR) ⁽¹⁾.

2. Without prejudice to the Commission's responsibility in the implementation of these programmes, it shall be the task of each committee to contribute, in its advisory capacity, to the best possible implementation of the programme for which it is responsible (in particular the detailed definition of projects) and to assess the results and ensure better liaison ⁽²⁾ between the implementation of the programmes at Community level and the corresponding research and development work being carried out in the Member States.
3. The direct action committees may be consulted by the General Advisory Committee (GAC), established by Commission Decision 71/57/Euratom ⁽³⁾, on draft proposals for reviewing programmes in progress and on draft proposals for future research programmes.
4. The indirect action committees shall be consulted on draft proposals for reviewing programmes in progress and on draft proposals for future research programmes as well as on the choice of 'project leaders' and the selection of the laboratories to which the work is to be entrusted.
5. Committees in fields where direct action and indirect action co-exist shall ensure that both actions form a coherent whole.
6. Each committee shall deliver opinions prepared by the secretariat and submitted for the committee's approval. Any member of a committee may request that his views be recorded in these opinions. Opinions shall be forwarded to the Commission, a copy being sent to the Council.
7. Each committee shall consist of not more than:
 - (a) three officials appointed by the Commission (Commission delegation);
 - (b) three experts appointed, by applying whatever criteria it deems appropriate, by each of the Governments of the Member States taking part in the programme under consideration (Member States' delegations); the absence of any Government's experts shall not deprive a committee meeting of its validity.In exceptional circumstances derogations may be made from these provisions following agreement among the delegations.
8. Each committee shall appoint its chairman for a period of one year on a proposal from the Commission delegation.
9. Secretariat services for the committees shall be provided by Commission officials placed for this purpose at the disposal of the committee under the authority of the chairman of each committee.

⁽¹⁾ OJ No L 200, 8. 8. 1977, p. 4.

⁽²⁾ The concept of 'liaison' refers solely to implementation of Community programmes and not to the coordination of national programmes.

⁽³⁾ OJ No L 16, 20. 1. 1971, p. 14.

-
10. Each committee shall meet in principle three times a year.
 11. This resolution cancels and replaces the Council resolutions of 30 June 1969, 22 July 1972, 19 November 1973, 10 December 1973, 17 December 1974, 26 June 1975 and 22 August 1975 respectively establishing advisory committees on programme management.
