for sheep certified as eligible in the United Kingdom,
and the amounts to be charged on products leaving
Great Britain, during the period 30 August to 5
September 1982, shall be as set out in the Annexes
hereto;

lation (EEC) No 3191/80 of 9 December 1980⁽⁵⁾, as

COMMISSION DECISION

of 9 September 1982

authorizing the French Republic to apply intra-Community surveillance to imports of certain products, originating in third countries, which have been put into free circulation in the Community and which may be the subject of protective measures under Article 115 of the Treaty

(Only the French text is authentic)

(82/646/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

Having regard to Commission Decision 80/47/EEC of 20 December 1979 on surveillance and protective measures which Member States may be authorized to take in respect of imports of certain products originating in third countries and put into free circulation in another Member State⁽¹⁾, and in particular Articles 1 and 2 thereof,

Whereas Decision 80/47/EEC requires Member States to have prior authorization from the Commission before introducing intra-Community surveillance of the imports concerned;

Whereas the Commission, by Decision 82/205/EEC of 22 December 1981⁽²⁾ and other relevant Decisions, authorized certain Member States to introduce such surveillance for the import of certain products until 30 June 1983;

Whereas on 29 July 1982 further requests were made, under Article 2 of Decision 80/47/EEC, by the French Government to the Commission of the European Communities that is:

- (a) 27 requests concerning textile products of the categories 1, 5, 7, 8, 13, 14 B, 18, 20, 21, 24, 25, 26 and 27, 30 A, 31, 32, 36, 39, 61, 66, 67, 76, 77, 78 and 81, 91, 109 and 110, 117, 118 and 119, originating in Czechoslovakia;
- (b) 10 requests concerning the following textile products:

Category	Country of origin
4	Egypt
12	Thailand
13	South Korea
16	China
21	Sri Lanka
24	India
25	China
26	South Korea
72	Macao
83	Macao

Whereas information given by the French authorities in support of this application has been subjected to close examination by the Commission, in accordance with the criteria laid down by Decisions 80/47/EEC and 82/205/EEC;

Whereas the Commission examined, in particular, whether the imports could be made subject to intra-Community surveillance measures under Article 2 of Decision 80/47/EEC, whether information was given as regards the economic difficulties alleged, whether during the reference years set out in Decision 80/47/EEC there had been deflection of trade and whether intra-Community licence applications had been submitted;

Whereas, in cases where there is an import limitation at Community level for a specific product in relation to certain third countries, the risk that economic difficulties will become worse or be prolonged may generally be considered as negligible as regards all those third countries from which the total possible imports to the Community taken together are less than 1 % of the quantitative limit at Community level;

Whereas this examination has shown that there is a risk that the imports set out in the Annex hereto are worsening or prolonging the existing economic difficulties; whereas, therefore, France should be authorized to make these imports subject to intra-Community surveillance until 30 June 1983,

⁽¹⁾ OJ No L 16, 22. 1. 1980, p. 14.

Whereas, by letter dated 26 February 1982, the Federal Republic of Germany has requested the Commission to invoke the procedure provided for in Article 7 of Regulation (EEC) No 2784/79 in order to determine whether or not the apparatus described as 'Apollo — Tunable CO₂ Laser, model 560', ordered on 8 May 1979 and to be used for research in the field of atmospheric optics and optronics and in particular as transmitter in a heterodyne radar system, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community,

Whereas, in accordance with the provisions of Article 7 (5) of Regulation (EEC) No 2784/79, a group of experts composed of representatives of all the Member States met on 15 July 1982 within the framework of the Committee on Duty-Free Arrangements to examine the matter;

Whereas this examination showed that the apparatus in question is a laser;

Whereas its objective technical characteristics, such as the emission field, and the use to which it is put make it specially suited to scientific research; whereas, moreover, apparatus of the same kind are principally used for scientific activities; whereas it must therefore be considered to be a scientific apparatus;

Whereas, however, on the basis of information received from Member States, apparatus of scientific value equivalent to the said apparatus, capable of being used for the same purposes, are currently being manufactured in the Community; whereas this applies, in particular, to the apparatus 'Serie 6000' manufactured by Fairlight Technische en Wetenschappelijke Apparaten BV, Jan Luykenstraat 23, NL-1007 AA Amsterdam,
