COMMISSION REGULATION (EEC) No 2852/83

of 12 October 1983

fixing the export refunds on white sugar and raw sugar exported in the natural state

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1785/81 of 30 June 1981 on the common organization of the markets in the sugar sector⁽¹⁾, as last amended by Regulation (EEC) No 606/82⁽²⁾, and in particular point (a) of the first subparagraph of Article 19 (4) thereof,

Having regard to the opinion of the Monetary Committee,

Whereas Article 19 of Regulation (EEC) No 1785/81 provides that the difference between quotations or prices on the world market for the products listed in Article 1 (1) (a) of that Regulation and prices for those products within the Community may be covered by an export refund;

Whereas Council Regulation (EEC) No 766/68 of 18 June 1968 laying down general rules for granting export refunds on sugar⁽³⁾, as last amended by Regulation (EEC) No 1489/76⁽⁴⁾, provides that when refunds on white and raw sugar, undenatured and exported in the natural state, are being fixed account must be taken of the situation on the Community and world markets in sugar and in particular of the price and cost factors set out in Article 3 of that Regulation; whereas the same Article provides that the economic aspect of the proposed exports should also be taken into account;

Whereas the refund on raw sugar must be fixed in respect of the standard quality; whereas the latter is defined in Article 1 of Council Regulation (EEC) No 431/68 of 9 April 1968 determining the standard quality for raw sugar and fixing the Community frontier crossing point for calculating cif prices for sugar⁽⁵⁾; whereas, furthermore, this refund should be fixed in accordance with Article 5 (2) of Regulation (EEC) No 766/68; whereas candy sugar is defined in Commission Regulation (EEC) No 394/70 of 2 March 1970 on detailed rules for granting export refunds on

sugar⁽⁶⁾, as amended by Regulation (EEC) No 1467/77⁽⁷⁾; whereas the refund thus calculated for aromatized sugars or for sugars with colouring added must apply to their sucrose content and, accordingly, be fixed per 1 % of the said content;

Whereas the world market situation or the specific requirements of certain markets may make it necessary to vary the refund for sugar according to destination;

Whereas, in special cases, the amount of the refund may be fixed by other legal instruments;

Whereas, if the refund system is to operate normally, refunds should be calculated on the following basis:

- in the case of currencies which are maintained in relation to each other at any given moment within a band of 2,25 %, a rate of exchange based on their central rate,
- for other currencies, an exchange rate based on the arithmetic mean of the spot market rates of each of these currencies recorded for a given period in relation to the Community currencies referred to in the previous indent;

Whereas the refund must be fixed every two weeks; whereas it may be altered in the intervening period;

Whereas it follows from applying the rules set out above to the present situation on the market in sugar and in particular to quotations or prices for sugar within the Community and on the world market that the refund should be as set out in the Annex hereto;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,

HAS ADOPTED THIS REGULATION:

Article 1

The export refunds on the products listed in Article 1 (1) (a) of Regulation (EEC) No 1785/81 undenatured and exported in the natural state, shall be as set out in the Annex hereto.

Article 2

This Regulation shall enter into force on 13 October 1983.

COMMISSION REGULATION (EEC) No 2853/83
of 11 October 1983

**fixing for Great Britain the level of the variable slaughter premium for sheep
and the amounts to be charged on products leaving that region**

THE COMMISSION OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
1837/80 of 27 June 1980 on the common organization
of the market in sheepmeat and goatmeat⁽¹⁾, as last
amended by Regulation (EEC) No 1195/82⁽²⁾,

Having regard to Commission Regulation (EEC) No
2661/80 of 17 October 1980 laying down detailed
rules for applying the variable slaughter premium for
sheep⁽³⁾, as last amended by Regulation (EEC) No
1689/83⁽⁴⁾, and in particular Articles 3 (1) and 4 (1)
thereof,

Whereas the United Kingdom is the only country
paying the variable slaughter premium; whereas the
United Kingdom has decided to pay it only in Region
5 (Great Britain), within the meaning of Article 3 (1) of
Regulation (EEC) No 1837/80; whereas it is necessary
therefore for the Commission to fix, for the period 19
to 25 September 1983, the level of the premium and
the amount to be charged on products leaving that
region;

Whereas Article 3 (1) of Regulation (EEC) No 2661/80
stipulates that the level of the variable slaughter
premium is to be fixed each week by the Commission
for each Member State concerned or, in the case of the
United Kingdom, for Great Britain;

Whereas Article 4 (1) of Regulation (EEC) No 2661/80
lays down that the amount to be charged on products
leaving the Member States concerned or, in the case of
the United Kingdom, Great Britain shall be fixed
weekly by the Commission for each Member State
concerned and in the case of the United Kingdom for
Great Britain;

Whereas it follows from the application of the rules
laid down in Article 9 (1) of Regulation (EEC) No

1837/80 and in Article 4 (1) and (3) of Regulation
(EEC) No 2661/80 that the variable slaughter premium
for sheep certified as eligible in the United Kingdom,
and the amounts to be charged on products leaving
Great Britain during the period 19 to 25 September
1983, shall be as set out in the Annexes hereto;

Whereas it should be recalled that Commission Regu-
lation (EEC) No 3191/80 of 9 December 1980⁽⁵⁾, as
last amended by Regulation (EEC) No 1267/83⁽⁶⁾,
fixed transitional measures concerning non-recovery of
the variable slaughter premium for sheepmeat and
goatmeat products exported from the Community,

HAS ADOPTED THIS REGULATION:

Article 1

For sheep or sheepmeat certified in Great Britain as
eligible for the variable slaughter premium during the
period 19 to 25 September 1983, the level of the
premium shall be as set out in Annex I hereto.

Article 2

Without prejudice to the provisions of Regulation
(EEC) No 3191/80, for products referred to in Article 1
(a) of Regulation (EEC) No 1837/80 which left Great
Britain during the period 19 to 25 September 1983,
the amounts to be charged shall be as set out in
Annex II hereto.

This Regulation shall enter into force on the day of its
publication in the *Official Journal of the European
Communities*.

COMMISSION

COMMISSION DECISION

of 10 October 1983

accepting the offer of an undertaking of a Czechoslovakian exporter of copper sulphate

(83/502/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3017/79 of 20 December 1979 on protection against dumped or subsidized imports from countries not members of the European Community ⁽¹⁾, as amended by Regulation (EEC) No 1580/82 ⁽²⁾, and in particular Article 10 thereof,

After consultation within the Advisory Committee as provided for under the above Regulation,

Whereas :

A. Provisional action

- (1) The Commission, by Regulation (EEC) No 1479/83 ⁽³⁾, imposed a provisional anti-dumping duty on imports of copper sulphate originating in Czechoslovakia and the USSR.

B. Subsequent procedure

- (2) Following the imposition of the provisional anti-dumping duty a Czech exporter and certain importers requested, and were granted, an opportunity to be heard by the Commission.

The Czech exporter and certain importers also requested to be informed of certain facts and

essential considerations on the basis of which it was intended to recommend definitive action and these requests were granted.

C. Dumping

- (3) The Commission had, for the imposition of the provisional duty, established normal value on the basis of figures obtained in Yugoslavia, which was considered the most appropriate market economy country producing copper sulphate.

The Czech exporter, however, requested that Austria be considered as an appropriate market for establishing normal value. On the basis of the facts available to the Commission, however, the normal value established during the preliminary investigation was more favourable to the exporters than the equivalent Austrian figure and, consequently, the preliminary determinations regarding normal value and dumping are confirmed. The exporters concerned accepted these findings.

D. Injury

- (4) No fresh evidence regarding injury to the Community industry has been submitted.

The Commission has therefore confirmed the conclusions on injury reached in Regulation (EEC) No 1479/83.

In the Commission's view, therefore, the facts as finally determined show that the injury being caused by dumped imports of copper sulphate originating in Czechoslovakia and the USSR, taken in isolation from that caused by other factors, has to be considered as material.

⁽¹⁾ OJ No L 339, 31. 12. 1979, p. 1.

⁽²⁾ OJ No L 178, 22. 6. 1982, p. 9.

⁽³⁾ OJ No L 151, 9. 6. 1983, p. 24.

E. Community interest

- (5) No new evidence from Community processing industries or other interested parties in the Community has been submitted since the imposition of the provisional duty and the Commission, therefore, considers its findings on Community interest as set out in Regulation (EEC) No 1479/83 confirmed.

In these circumstances, the interests of the Community call for protection against the dumped imports of copper sulphate originating in Czechoslovakia and the USSR.

F. Undertaking

- (6) The exporters concerned were informed of the main findings of the subsequent investigation. A price undertaking was subsequently offered by the Czech exporter Chemapol concerning its exports of copper sulphate to the Community.

The effect of the said undertaking will be to increase import prices to the Community to the level which the Commission, having taken into account, on the one hand, the prices necessary to provide an adequate return to Community producers and, on the other hand, the price paid by the first purchasers in the Community of the dumped product, considered necessary to eliminate injury.

In these circumstances, the undertaking offered is considered acceptable and the imposition of the definitive anti-dumping duty should not apply to

exports of copper sulphate by Chemapol to the Community.

No objection to this was raised in the Advisory Committee,

HAS DECIDED AS FOLLOWS:

Article 1

The Commission hereby accepts the undertaking offered by Chemapol Foreign Trade Company Limited, Prague, in connection with the anti-dumping proceeding concerning copper sulphate, falling within subheading ex 28.38 A II of the Common Customs Tariff and corresponding to NIMEXE code 28.38-27, originating in Czechoslovakia.

Article 2

The anti-dumping proceeding concerning imports of copper sulphate originating in Czechoslovakia is hereby terminated.

THE OLD WORLD AND THE NEW TECHNOLOGIES

Michel GODET

Olivier RUYSEN

Preface by Guido BRUNNER

Looking to tomorrow for the action needed today — that is the approach followed by the report *The Old World and the new technologies* in reviewing the crises and issues facing Europe in the economic, energy, industrial and socio-political arenas.

The growing differences between European countries and mounting international uncertainty could in time shake the foundations of the Community. Will Europe's strengths triumph over its weaknesses? On this will depend the decline or resurgence of the old world.

The technological revolutions now under way (in microelectronics, biology and other fields) herald a new era of increasing efficiency and are bound to disrupt completely existing production structures (through automation, decentralization, etc.) and consumption patterns (e.g. new products).

As a result, the appropriate development of technology will be one of the main ways of meeting the challenges of the future. Technological development will be a crucial comparative advantage that Europe must have if it is to determine its own future and pave the way for the necessary changes in our way of life and socio-economic order.

The Old World and the new technologies is one of the first products of an EEC Commission think tank known as FAST (Forecasting and Assessment in the field of Science and Technology). The main task of the FAST programme (run by the Directorate-General for Research, Science and Education) is to identify future problems in the Community in order to guide spending on research and technological development.

The FAST team was set up in 1979 and consists of six research scientists, including the authors of this report, Dr Michel Godet and Dr Olivier Ruyssen.

Michel Godet, Doctor in Economics and in Science is the author of *The crisis in Forecasting and the Emergence of the Prospective Approach* Pergamon 1979, and of *Creative crises*, Hachette 1980.

Olivier Ruyssen, a qualified engineer and a Doctor in Economics, is co-author with Michel Godet of *Les échanges internationaux*, PUF 1978.

THE CUSTOMS UNION OF THE EUROPEAN ECONOMIC COMMUNITY

Nikolaus VAULONT

Preface by Étienne DAVIGNON

In today's troubled economic climate, with all its implications for trade, the European Economic Community continues to make its presence felt by implementing major policies. Some of the most important — the common commercial and agricultural policies, development policy and the efforts to create a genuine internal market — are fundamentally dependent on the Customs Union.

This account of the workings of the Customs Union, elucidating its structure and the political dimension usually obscured by a mass of technical rules and regulations, should make one of the cornerstones of the common market more widely known.

This book, traces the development of the Customs Union from 1958 onwards and indicates the scope for further improvements in the future, particularly as regards progress towards a more clearly perceived freedom of movement of goods within the Community.

Nikolaus VAULONT. Born in 1937. Doctor of law (University of Bonn). Joined the Federal Republic of Germany's federal finance administration in 1967. Since 1971 has been an official at the Commission of the European Communities, where he is currently Assistant to the Director-General of the Customs Union Service.

THE COMMUNITY SCALE FOR THE CLASSIFICATION OF CARCASSES OF ADULT BOVINE ANIMALS

Illustrated leaflet

The leaflet 'The Community scale for the classification of carcasses of adult bovine animals' was prepared to illustrate the various conformation classes and fat-cover classes defined in the Annexes to Regulations (EEC) No 1208/81 and (EEC) No 2930/81.

The leaflet contains 20 photographs illustrating on the front the five conformation classes (photographs of the external surface and in profile) and on the back the five classes of fat cover (photographs of the internal and external surfaces), accompanied by the technical descriptions given in the Regulations referred to above. Except for conformation class E, where the photograph represents the lower range of the class, the illustrations correspond to the middle range of the conformation and fat-cover classes. The photographs have been chosen by a group of international experts particularly well qualified in the classification of carcasses of adult bovine animals.

This leaflet is above all a practical instrument for use mainly in the classification of carcasses in slaughterhouses. It is also an illustrated manual for those working in the meat trade. Finally, it can usefully be employed in technical colleges both in the training of meat technicians and for all those who might be concerned with some aspect of meat production or marketing in their future careers.
