COUNCIL REGULATION (EEC) No 2975/83

of 17 October 1983

opening, allocating and providing for the administration of a Community tariff quota for certain hand-made products (1984)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, as regards certain hand-made products, the European Economic Community has declared its readiness to open an annual duty-free Community tariff quota of an overall amount of 5 000 000 units of account with a limit of 500 000 units of account for each tariff heading or subheading in question; whereas, in pursuance of the Declaration of Intent concerning trade relations with certain Asian countries, the total amount of the quota and the maximum for each tariff heading or subheading were raised to 10 000 000 and 1 200 000 units of account respectively; whereas the amount of 10 000 000 units of account has been increased by 2 % with effect from 1 January 1983, to take account of the accession of the Hellenic Republic; whereas products may, however, be admitted under the Community tariff quota only on the submission to the Community's customs authorities of a document issued by the recognized authorities of the country of manufacture certifying that the goods concerned are hand-made; whereas the specimen certificate of manufacture has been adapted to make it conform with the layout key recommended by the Economic Commission for Europe in Geneva for documents used in external trade; whereas it is accordingly appropriate to open the tariff quota in question with effect from

1 January 1984 up to the abovementioned amount and in accordance with Council Regulation (EEC) No 3308/80 of 16 December 1980 on the replacement of the European unit of account by the ECU in Community legal instruments ⁽¹⁾;

Whereas equal and continuous access to the quota should be ensured for all Community importers and the rate laid down for the tariff quota should be applied consistently to all imports until the quota is used up; whereas a system of utilization of the Community tariff quota based on an allocation between the Member States concerned would, in the light of the principles outlined above, appear consistent with the Community nature of the quota; whereas, to represent as closely as possible the actual development of the market in the said goods, the allocation should follow proportionately the requirements of the Member States calculated both from statistics of imports from third countries during a representative reference period and according to the economic outlook for the tariff year in question;

Whereas, however, there is no specific classification of the said goods in the statistical nomenclatures; whereas it has thus been impossible to collect sufficiently precise and representative statistics; whereas the extent to which the current Community tariff quota has been used is not such that the real requirements of each of the Member States can be firmly ascertained; whereas the only possibility is, therefore, to divide the tariff quota volume into nine parts, of which one each would be allocated to the Benelux countries, Denmark,

⁽¹⁾ OJ No L 345, 20. 12. 1980, p. 1.

the Federal Republic of Germany, Greece, France, Ireland, Italy and the United Kingdom, the last part being held in reserve to cover the later requirements of Member States which use up their initial shares;

Whereas the initial shares may be used up at different rates; whereas, therefore, to avoid disruption of supplies, any Member State which has almost used up its initial share should draw a supplementary share from the Community reserve; whereas this must be done by each Member State as each one of its supplementary shares is almost used up, and as many times as the reserve allows; whereas the initial and supplementary shares must be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the Commission must be in a position to follow the extent to which the tariff quota has been used up and inform the Member States accordingly; whereas this collaboration must be all the closer since it does not seem necessary, at present, to provide for special measures in this Regulation to avoid exceeding the maximum allocation of 1 200 000 ECU per tariff heading or subheading;

Whereas if, at a given date in the quota period, a Member State has a considerable quantity left over, it is

essential that it should return a significant percentage thereof to the reserve so as to avoid a part of the Community tariff quota remaining unused in one Member State when it could be used in others;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

3. The provisions of Regulation (EEC) No 3308/80, and in particular Article 2 thereof, shall apply for the purposes of determining the equivalent value in national currencies of amounts expressed in ECU.

Article 3

1. If 90 % or more of a Member State's initial share as specified in Article 2 (1), or of that share minus the portion returned to the reserve where Article 5 is applied, has been used up, that Member State shall

forthwith, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next whole number, to the extent permitted by the amount of the reserve.

2. If, after its initial share has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions set out in paragraph 1, draw a third share equal to 7,5 % of its initial share, rounded up where necessary to the next whole number.

3. If, after its second share has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw lower shares than those specified therein if there are grounds for believing that those specified may not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Supplementary shares drawn pursuant to Article 3 shall be valid until 31 December 1984.

Article 5

Member States shall return to the reserve, not later than 1 October 1984, the unused portion of their initial share which, on 15 September 1984, is in excess of 50 % of the initial amount. They may return a larger quantity if there are grounds for believing that such quantity might not be used.

Member States shall notify the Commission, not later than 1 October 1984, of the total quantities of the said goods imported up to and including 15 September 1984 and charged against the Community tariff quota and of any portion of their initial share returned to the reserve.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2

and 3 and shall, as soon as it has been notified, inform each State of the extent to which the reserve has been used up.

It shall inform the Member States, not later than 5 October 1984, of the amount still in reserve after amounts have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve is limited to the balance available and to this end shall specify the amount thereof to the Member State making the last drawing.

Article 7

1. Member States shall take all appropriate measures to ensure that supplementary shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their accumulated shares in the Community tariff quota.

2. Member States shall ensure that importers of the said goods have free access to the shares allocated to them.

3. Member States shall charge imports of the said goods against their shares as and when such goods are entered with the customs authorities for free circulation.

4. The extent to which a Member State has used up its share shall be determined on the basis of imports charged in accordance with paragraph 3.

Article 8

At the Commission's request, Member States shall inform it of imports of the products concerned actually charged against their shares.

Article 9

Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 January 1984.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Luxembourg, 17 October 1983.

COUNCIL REGULATION (EEC) No 2976/83

of 17 October 1983

opening, allocating and providing for the administration of a Community tariff quota for certain handwoven fabrics, pile and chenille, falling within heading Nos ex 50.09, ex 55.07, ex 55.09 and ex 58.04 of the Common Customs Tariff (1984)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, as regards handwoven fabrics of silk, waste silk other than noil and cotton, falling within heading Nos ex 50.09 and ex 55.09, the European Economic Community has declared its readiness to open annual duty-free Community tariff quotas up to the value (customs value) of 1 000 000 units of account for each; whereas, in pursuance meanwhile of the Declaration of Intent concerning commercial relations with certain Asiatic countries, the quota amounts have been raised to 2 200 000 units of account in respect of silk fabrics and to 2 000 000 units of account in respect of cotton fabrics, and the benefit of the tariff quotas in question has been extended to certain other textile products falling within heading Nos ex 55.07 and ex 58.04 of the Common Customs Tariff, in silk or cotton; whereas the abovementioned amounts of the quotas have been increased by 2 % with effect from 1 January 1983 to take account of the accession of the Hellenic Republic; whereas products may be admitted under the Community tariff quota only on production of a certificate of manufacture recognized by the competent authorities of the European Economic Community, such products being stamped in a manner approved by such authorities at the beginning and end of each item and carried direct from the country of manufacture to

the Community; whereas the specimen certificate of manufacture has been adapted to conform with the layout key recommended by the Economic Commission for Europe in Geneva for documents used in external trade; whereas it is, accordingly, appropriate to open the tariff quotas in question with effect from 1 January 1984 in accordance with Council Regulation (EEC) No 3308/80 of 16 December 1980 on the replacement of the European unit of account by the ECU in Community legal instruments ⁽¹⁾;

Whereas equal and continuous access to the quotas should be ensured for all Community importers and the rate of levy for the quotas should be applied consistently to all imports until the quotas are used up; whereas, in the light of the principles outlined above, a Community tariff quota arrangement based on an allocation between the Member States would seem to preserve the Community nature of the said quotas; whereas, to represent as closely as possible the actual development of the market in the said goods, the allocation should follow proportionately the requirements calculated both on the basis of statistics of imports from third countries during a representative reference period and on the basis of the economic prospects for the tariff year in question;

Whereas, however, in the statistical nomenclatures there is no specific classification for the handwoven fabrics concerned; whereas, in these circumstances, it has been impossible to collect sufficiently precise and representative statistics; whereas the quantities charged against the shares allocated to the Member States for the Community tariff quotas opened for certain of these fabrics for 1980, 1981 and 1982 were as follows:

⁽¹⁾ OJ No L 345, 20. 12. 1980, p. 1.

1. Woven fabrics of silk or of waste silk other than noil (heading No ex 50.09 of the Common Customs Tariff):

Member States	1980		1981		1982	
	EUA	%	ECU	%	ECU	%
Benelux	69 000	3,15	16 628	0,79	52 916	2,37

United Kingdom	103 730	4,73	117 260	5,55	90 200	4,05

2. Woven fabrics of cotton (heading Nos ex 55.07, ex 55.09 and ex 58.04 of the Common Customs Tariff):

Member States	1980		1981		1982	
	EUA	%	ECU	%	ECU	%
Benelux	69 000	3,50	54 000	2,82	82 320	4,16

Ireland	2 280	0,12	0	0	0	0
Italy	99 467	5,05	33 942	1,77	1 364	0,07
United Kingdom	470 600	23,90	579 460	30,29	470 600	23,78

Whereas, in view of the variations in these figures, the latter cannot lead to a firm conclusion on the real requirements of each Member State referred to above for the tariff period under consideration; whereas, so that the Community tariff quotas in question may be allocated fairly among the Member States, these factors make it possible to express the initial percentage shares in the quota volume roughly as follows:

Member States	Silk goods (heading No ex 50.09)	Cotton goods (heading Nos ex 55.07, ex 55.09 and ex 58.04)
Benelux	4,72	3,46
Denmark	4,72	8,85
Germany	43,18	13,24
Greece	3,27	0,83
France	23,60	37,69
Ireland	3,10	2,27
Italy	9,53	3,49
United Kingdom	7,88	30,17

Whereas, to take account of future import trends for the goods under consideration, each quota volume should be divided into two successive amounts, the first being allocated among the Member States and the second held as a reserve to cover at a later date the requirements of Member States who have used up their initial shares; whereas, to give importers some degree of certainty, the first successive amount of each Community tariff quota should be fixed at a relatively high level, at approximately 50 % for silk goods and at approximately 76 % for cotton goods;

Whereas the initial shares may be used up fairly quickly; whereas, therefore, to avoid disruption of supplies, any Member State which has almost used up one of its initial shares should draw a supplementary share from the corresponding reserve; whereas this must be done by each Member State as each one of its supplementary shares is almost used up, and as many times as the reserve allows; whereas each initial and supplementary share must be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States

and the Commission, and the Commission must be in a position to follow the extent to which the tariff quotas have been used up and inform the Member States thereof;

by the Benelux Economic Union, any operation relating to the administration of the quota shares allocated to that economic union may be carried out by any one of its members,

Whereas, if at a given date in the quota period a Member State has a considerable quantity of one of its initial shares left over, it is essential that it should return a significant proportion thereof to the reserve to prevent a part of one or other of the Community quotas from remaining unused in one Member State while it could be used in others;

HAS ADOPTED THIS REGULATION:

Article 1

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented

1. From 1 January to 31 December 1984, for each of the two categories of the following products, Community tariff quotas of a volume corresponding to the customs value indicated shall be opened:

(ECU)		
CCT heading No	Description	Quota volume
(a) ex 50.09	Handwoven fabrics of silk, of noil or other waste silk	2 244 000
(b) ex 55.07	Handwoven cotton gauze	} 2 040 000
ex 55.09	Other handwoven fabrics of cotton	
ex 58.04	Handwoven pile fabrics and chenille fabrics (other than terry products of cotton falling within heading No 55.08 and fabrics falling within heading No 58.05) of cotton, woven on hand looms	

2. Within these tariff quotas the Common Customs Tariff duties shall be totally suspended.

(a) accompanied by a certificate of manufacture recognized by the competent authorities of the European Economic Community and conforming to one of the examples in Annex I endorsed by one of the recognized authorities of the country of manufacture appearing in Annex II;

As regards these tariff quotas, Greece shall apply the duties calculated in accordance with the relevant provisions laid down in the 1979 Act of Accession.

(b) bearing, at the beginning and end of each item, a stamp approved by the said authorities ⁽¹⁾;

3. For the purposes of this Regulation:

- (a) 'handwoven fabrics' means fabrics woven on looms moved exclusively by hand or foot;
- (b) 'customs value' means the value as defined in the relevant Community rules.

(c) carried direct from the country of manufacture to the European Economic Community.

4. Admission under these quotas shall, however, be granted only for fabrics, pile and chenille:

⁽¹⁾ It is agreed that this subparagraph shall not prevent a lead seal approved by the authorities from constituting performance of the terms of this subparagraph.

5. In this respect, the following shall be considered to have been carried direct:

- (a) goods which, in carriage, do not cross the territory of a non-member country of the European Communities. Goods temporarily held in power of non-member countries shall not be excluded from the definition of direct carriage provided that they are not transhipped there;
- (b) goods which, in carriage, cross the territory of one or more non-member countries of the European Communities or are transhipped in such a country, provided that they cross such territory while covered by a single transport document drawn up in the country of manufacture.

Article 2

1. A first successive amount of a value corresponding to 1 144 000 ECU for the products falling within heading No ex 50.09, and to 1 560 000 ECU for the products falling within heading Nos ex 55.07, ex 55.09 and ex 58.04, shall be allocated among the Member States; the respective shares of the Member States, which subject to Article 5 shall be valid from 1 January to 31 December 1984, shall correspond to the following values:

- (a) for the products falling within heading No ex 50.09, referred to in Article 1 (1):

	(ECU)
Benelux	54 000
Denmark	54 000
Germany	494 000
Greece	37 400
France	270 000
Ireland	35 400
Italy	109 000
United Kingdom	90 200

- (b) for the products falling within heading Nos ex 55.07, ex 55.09 and ex 58.04, referred to in Article 1 (1):

	(ECU)
Benelux	54 000
Denmark	138 000
Germany	206 500
Greece	13 000
France	588 000
Ireland	35 400
Italy	54 500
United Kingdom	470 600

2. The second successive amount of each of the quotas referred to in Article 1 (1) and corresponding to 1 100 000 and 480 000 ECU, respectively, shall constitute the reserve.

3. The provisions of Regulation (EEC) No 3308/80, and in particular Article 2 thereof, shall apply for the purposes of determining the equivalent value in national currencies of amounts expressed in ECU.

Article 3

1. If 90 % or more of one of a Member State's initial shares as specified in Article 2 (1), or of that share minus the portion returned to the reserve where Article 5 is applied, has been used up, that Member State shall without delay, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next unit, to the extent permitted by the amount of the reserve.

2. If, after one or other of its initial shares has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions imposed by paragraph 1, draw a third share, equal to 7,5 % of its initial share, rounded up where necessary to the next unit.

3. If, after one or other of its second shares has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares lower than those fixed in those paragraphs if there are grounds for believing that those fixed may not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Supplementary shares drawn pursuant to Article 3 shall be valid until 31 December 1984.

Article 5

Member States shall return to the reserve, not later than 1 October 1984, the unused portion of their initial

share which, on 15 September 1984, is in excess of 20 % of the initial amount. They may return a larger quantity if there are reasons to believe that such quantity might not be used.

Each Member State shall, not later than 1 October 1984, notify the Commission of the total quantities of the said goods imported up to and including 15 September 1984 and charged against the appropriate Community tariff quota, and any quantities of the initial shares returned to the corresponding reserves.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as it has been notified, inform each State of the extent to which the reserves have been used up.

It shall inform the Member States, not later than 5 October 1984, of the amounts still in reserve after amounts have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which uses up a reserve is limited to the balance available and to this end shall specify the amount thereof to the Member State making the last drawing.

Article 7

1. The Member States shall take all measures necessary to ensure that supplementary shares drawn pursuant to

Article 3 are opened in such a way that imports may be charged without interruption against their accumulated shares in the Community tariff quotas.

2. The Member States shall ensure that importers of the products in question have free access to the shares allocated to them.

3. The Member States shall charge imports of the said goods against their shares as and when such goods are declared for customs purposes to be for free circulation.

4. The extent to which a Member State has used up its share shall be determined on the basis of imports charged in accordance with paragraph 3.

Article 8

At the request of the Commission, Member States shall inform it of imports of the products concerned actually charged against their shares.

Article 9

The Member States and the Commission shall cooperate closely in order to ensure that this Regulation is observed.

Article 10

This Regulation shall enter into force on 1 January 1984.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Luxembourg, 17 October 1983.

For the Council

The President

G. VARFIS
