COUNCIL REGULATION (EEC) No 3569/83**of 16 December 1983****applying generalized tariff preferences for 1984 in respect of certain industrial products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the Euro-
pean Economic Community,

Having regard to the proposal from the Commis-
sion ⁽¹⁾,

Having regard to the opinion of the European
Parliament ⁽²⁾,

Having regard to the opinion of the Economic and
Social Committee ⁽³⁾,

Whereas, in accordance with its offer made within
the context of the United Nations Conference on
Trade and Development (UNCTAD), the European
Economic Community opened generalized tariff
preferences commencing in 1971, notably in respect
of finished and semi-finished industrial products
from developing countries; whereas the initial
10-year period of application of this system of
preferences expired on 31 December 1980;

Whereas, however, the positive role played by this
system in improving access for developing countries
to the markets of the preference-giving countries
was recognized at the ninth session of the
UNCTAD Special Committee on Preferences;
whereas it was there agreed that the objectives of the
generalized preference scheme would not be fully
achieved by the end of 1980, that consequently it
should be prolonged beyond the initial period and
that an overall review of the system should take
place in 1990;

Whereas, therefore, the Community has decided to
apply generalized tariff preferences, in the context

of the conclusions agreed in UNCTAD in accord-
ance with the intention expressed in the said Com-
mittee, in particular by all the preference-giving
countries;

Whereas the temporary and non-binding nature of
the system means that the offer can be withdrawn
wholly or in part at a later date, thus maintaining
the possibility of remedying any unfavourable situa-
tions which might arise following implementation of
the system, including such situations in the African,
Caribbean and Pacific States (ACP States);

Whereas experience in the initial period has shown
that the Community scheme has to a large extent
achieved its intended objectives; whereas its funda-
mental features, in particular the total suspension of
customs duties, within certain limits, should there-
fore be maintained; whereas any adjustments
should essentially meet the joint requirements of
simplification and differential application of
preferential advantages, as these are likely to
improve the transparency of the system and to ease
its administration;

Whereas use of the preferential advantages in the
1970s was concentrated on a limited number of
products and beneficiary countries; whereas it is
therefore necessary to ensure a better distribution of
the preferential advantages in order to provide prac-
tical assistance for the industrial development of a
greater number of developing countries, especially
the least developed; whereas, at the same time, to
take account of the limits to the Community mar-
ket's absorption capacity and the existence of Com-
munity production, the widest possible preferential
access should be accorded to the less competitive
developing countries and the preferential advan-
tages enjoyed by the more competitive beneficiary
countries accordingly limited in the case of specific
products;

Whereas, therefore, provision is made under the new
scheme for a differential application of preferential

⁽²⁾ OJ No C 342, 19. 12. 1983, p. 168.

treatment; whereas the products and countries to be treated selectively are determined overall on the basis of criteria relating to the degree and level of those countries' development and industrialization, their competitiveness and the sensitivity of the Community industries and markets for the products in question;

Whereas, accordingly, each beneficiary treatment appropriate to its situation allows for more equitable access to the preference system; whereas a simplified and more transparent system involves the application of separate tariff ceiling arrangements for each beneficiary except for the least-developed developing countries;

Whereas tariff preferences have been applied on this new basis since 1 January 1981; whereas it is the intention to continue to apply them during the years 1984 to 1985;

Whereas the tariff ceiling arrangements mentioned above should differentiate between the products in Annex A by means of Community tariff quotas for products originating in the most competitive countries and by means of ceilings for products in Annex A originating in other less competitive countries;

Whereas the products in Annex B should be made subject to surveillance for essentially statistical purposes;

Whereas, however, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, charges on products originating in the least developed of the developing countries listed in Annex D to this Regulation should not be subject to the Community quota or ceiling;

Whereas the reference base to be considered when examining the situation resulting from an increase of imports of products listed in Annex B should, as a general rule, be 150 % of the highest maximum amount valid for 1980 under each of the preferential ceilings opened that year;

Whereas the rates of conversion into national currency of the preferential amounts expressed in ECU

are the rates provided for in the Common Customs Tariff; whereas, however, in the case of products falling within subheadings 41.02 ex C, 42.03 A, B II and III and C, 85.15 A III b) and C II c), 85.21 D and E, 94.01 B II and 94.03 B and heading Nos 42.02, 64.01 and 64.02, provision should be made for a rate of conversion into national currencies of the preferential amounts expressed in ECU which will gradually be aligned on the normal rate provided for in the Common Customs Tariff;

Whereas such tariff exemptions should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods ⁽¹⁾;

Whereas the Community preference arrangements applicable to Yugoslavia result exclusively from the Agreement between the Community and the Socialist Federal Republic of Yugoslavia ⁽²⁾; whereas, therefore, for products originating in Yugoslavia, which are submitted to Community tariff ceilings or to a progressive abolition of customs duties within the framework of the Agreement between the Community and Yugoslavia, the movement certificate EUR. 1 shall be deemed the only documentary evidence for the granting of tariff preferences.

Whereas, since 1 January 1981, the Hellenic Republic has applied the Community system of generalized preferences in accordance with Article 117 of the 1979 Act of Accession;

Whereas, in respect of the Community tariff quotas specified in Annex A, it is necessary in particular to ensure equal and continuous access for all Community importers to the abovementioned quotas, and to ensure uninterrupted application of the rate laid down for those quotas to all imports of the products concerned into all the Member States until the quotas are used up; whereas, having regard to the principles set out above, an arrangement whereby the quotas are apportioned among the Member States would best respect their Community nature; whereas, moreover, to this end and in the context of

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

⁽²⁾ OJ No L 147, 4. 6. 1981, p. 6 and OJ No L 41, 14. 2. 1983, p. 1.

such an arrangement, the actual charges against the quotas could relate only to products entered for free circulation and accompanied by a certificate of origin;

Whereas the application of the generally accepted principles in respect of the apportionment of the Community tariff quotas which have been opened hitherto cannot be reconciled with the continuity necessary for the application of the tariff preferences concerned; whereas it would accordingly be advisable to adopt a fixed scale for apportioning the Community tariff quotas concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade, gross national product and population, the percentages for the initial shares of the Member States in the quota amounts are as follows for the quota year under consideration:

Benelux	10,5 %
Denmark	5 %
Germany	27,5 %
Greece	2 %
France	19 %
Ireland	0,5 %
Italy	14,5 %
United Kingdom	21 %

Whereas, however, taking into account the more precise information already available concerning trade in plywood, blockboard, laminboard, battenboard and similar laminated products, falling within heading No 44.15 of the Common Customs Tariff, the abovementioned percentages should be replaced by: 4,44, 5,99, 7,76, 0,19, 0,29, 1,94, 0,87 and 78,52 % respectively;

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas given in Annex A and to mitigate any inadequacy in the initial allocation, the quotas should, as a general rule, be divided into two tranches, the first being apportioned among Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve thus constituted tends to avoid making the system of utilization of the quota excessively rigid, to the detriment of each of the developing countries concerned, and contributes to achieving the aim already mentioned of improving the generalized preferences system; whereas, to this end and to accord importers in each Member State some degree of security, the first tranche of the Community quota should be fixed at about 80 % of the quota volumes;

Whereas Member States may exhaust their initial shares for the tariff quotas given in Annex A at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that each Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period; whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 40 % of their initial share;

Whereas, if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas, in the case of the Community tariff ceilings listed in Annex A, the desired objectives may be attained by applying a method of administration based on the charging at Community level, against the abovementioned ceilings, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the re-introduction of the levying of customs duties, in accordance with the appropriate procedures, as soon as the said ceilings are reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas, in the case of the products listed in Annex B, provision should be made for the possibility of reintroducing the levying of customs duties in exceptional cases and in accordance with appropriate procedures and rules;

Whereas such methods of administration call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the quotas and ceilings

⁽¹⁾ OJ No L 175, 12. 7. 1979, p. 1.

⁽²⁾ OJ No L 297, 29. 10. 1983, p. 13.

and inform the Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties when any of the ceilings is reached;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of the present Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽¹⁾, (EEC) No 3065/75 ⁽²⁾ and (EEC) No 1736/75 ⁽³⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning, in particular, the administration of quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1984, the Common Customs Tariff duties on the products listed in Annexes A and B shall be totally suspended. In the case of the products listed in Annex A, this tariff suspension shall be accorded within the framework of tariff quotas and ceilings. The products listed in Annex B shall, as a general rule, be subject to statistical surveillance every three months on the reference base referred to in Article 11.

Imports into Greece of the products referred to above shall be subject to the customs duties established in accordance with Article 117 of the 1979 Act of Accession.

For the purposes of the application of this Regulation the value of the ECU, in which the preferential amounts are expressed, and the rate of conversion into national currencies shall be that provided for in the Common Customs Tariff.

subject to observance of the concept of originating products.

3. Imports already enjoying exemption from customs duties under other preferential tariff arrangements granted by the Community shall not be charged against these tariff quotas or ceilings. Admission to the preferential arrangements set up by this Regulation shall be subject to conformity with the concept of 'originating products' determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

For products originating in Yugoslavia, which are submitted to Community tariff ceilings or to a progressive abolition of customs duties within the framework of the Agreement between the Community and Yugoslavia, the movement certificate EUR. 1 shall be deemed the only documentary evidence for the granting of tariff preferences;

SECTION I

**Provisions concerning the administration of the
Community tariff quotas relating to the products
listed in Annex A***Article 2*

The total suspension of customs duties within the framework of the Community tariff quotas referred to in Article 1 (1) shall be accorded to each country or territory listed in column 4 of Annex A, for the products specified in columns 2 and 3 against the name of the country or territory concerned, together with details in column 5 of the amount of the individual quota.

Article 3

1. A first tranche of 80 % of each of the Community tariff quotas listed in Annex A, the amount of which is shown in column 6 of Annex A, shall be apportioned among the Member States; the shares for each Member State shall, subject to Article 6, be valid until 31 December 1984 and shall be those indicated in column 7 of Annex A against each of the categories of products subject to quota listed therein.

In the case of products falling within heading No 44.15, however, the first tranche shall amount to 98 % of the quota amount.

2. The second tranche of each of the tariff quotas shall constitute the reserve specified in each case in column 8 of Annex A.

Article 4

1. Where a Member State has used 90 % or more of one of its initial shares as fixed in Annex A, or of that share minus any portion returned to the reserve pursuant to Article 6, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share, rounded up, should the occasion arise, to the nearest unit.

2. Where a Member State, after exhausting one of its initial shares, has used 90 % or more of the second share drawn by it, that Member State shall draw a third share, under the conditions laid down in paragraph 1, equal to 5 % of its initial share.

3. Where a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve has been exhausted.

4. By way of derogation from paragraphs 1, 2 and 3, Member States may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used up. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

5. Any Member State may, whilst informing the Commission, limit the aggregate total of its additional shares to 40 % or to a higher proportion of its initial share.

Article 5

Without prejudice to the provisions of Article 6, additional shares drawn pursuant to Article 4 shall be valid until 31 December 1984.

Article 6

The Member States shall return to the reserve, not later than 1 October 1984, the unused portion of their initial share which on 15 September 1984, exceeds 20 % of the initial amount. They may return a larger portion if there are grounds for believing that such portion may not be used. At the request of the Commission they may also make anticipatory returns.

The Member States shall, not later than 1 October 1984, notify the Commission of the total quantities of the products in question imported up to 15 September 1984 and charged against the Community quotas, and of any portion of their initial shares returned to the reserve.

Article 7

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 3 and 4 and shall, as soon as the information reaches it, inform each Member State of the extent to which the reserve has been used up.

It shall, not later than 15 October 1984, inform the Member States of the amount still in reserve following any return of shares pursuant to Article 6.

It shall ensure that, when an amount exhausting the reserve is drawn, the amount so drawn does not exceed the balance available and to this end shall notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 4 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community tariff quotas.

Article 8

The Member States shall take all appropriate measures to ensure free access to the shares which have been allocated to them for importers of the products in question who are established in their territory.

Article 9

By 28 February 1985 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1984. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to products listed in Annex A and the reference base relating to products listed in Annex B

Article 10

Subject to Articles 11 and 12, the preferential tariff ceiling arrangements shall be accorded for products in Annex A, to each of the countries or territories listed in Annex C, other than those listed in column 4 of Annex A, within the limits of the amounts specified in column 9 against each category of products.

Article 11

As soon as the individual ceilings as fixed in accordance with Article 10 and which are laid down

for imports into the Community of products originating in any of the countries or territories referred to in Article 1 (2) are reached at Community level, the levying of customs duties on imports of the products in question originating in each of the countries and territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 12

Where the increase of preferential imports of products listed in Annex B, originating in one or more beneficiary countries, causes or threatens to cause economic difficulties in the Community, or in a region of the Community, the levying of customs duties may be reintroduced, once the Commission has had an appropriate exchange of information with the Member States. The reference base to be considered when examining the situation resulting from an increase of imports shall be, as a general rule, 150 % of the highest maximum amount valid for 1980 under each preferential ceiling opened that year.

Article 13

The Commission shall reintroduce the levying of customs duties in respect of any of the countries or territories referred to in Article 1 (2), under the conditions laid down in Articles 11 and 12, by means of a Regulation.

By means of a Regulation, the Commission may, even after 31 December 1984, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these limits are exceeded.

Article 14

Articles 11, 12 and 13 shall not apply to the imports in question originating in the countries set out in Annex D.

SECTION III

General provisions

Article 15

1. The extent to which the quotas of the Member States are used up shall be determined on the basis of imports of the products in question entered for free circulation on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

2. Imports of the products in question shall be charged against import ceilings as and when the products are entered for free circulation, on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

3. Goods may be charged against a ceiling or admitted under a quota share only if the certificate of origin referred to in paragraphs 1 and 2 is submitted before the date on which the levying of duties is reintroduced.

4. The extent to which the Community tariff quotas and ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

5. Any amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to the Community tariff quotas or ceilings.

Article 16

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance

with the provisions of the present Regulation. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products in Annex A subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products in Annex A subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

Article 17

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 18

This Regulation shall enter into force on 1 January 1984.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 December 1983.

COUNCIL REGULATION (EEC) No 3570/83**of 16 December 1983****applying generalized tariff preferences for 1984 to textile products originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences, commencing in 1971, with particular reference to finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences: whereas it was there agreed that the objectives of the generalized preferences system would not be fully attained by the end of 1980, that it should consequently be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas the Community has therefore decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn

wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise in the African, Caribbean and Pacific States (ACP States) as a result of the system's implementation;

Whereas, however, most of the preference-giving countries exclude textile products from preferential treatment; whereas, under the Community scheme of generalized preferences, these products have always been covered by special arrangements pursuant to which, for cotton textile and similar products, the preferences were originally granted in the form of duty-free ceilings only to those beneficiaries under the generalized preferences scheme which were signatories to the Long-Term Arrangement regarding International Trade in Cotton Textiles (LTA) or which undertook *vis-à-vis* the Community commitments similar to those existing under that Arrangement:

Whereas the Long-Term Arrangement has been replaced from 1980 onwards by the Arrangement regarding International Trade in Textiles (MFA), and the Community has therefore, in the case of products covered by the MFA, reserved preferences in the form of duty-free ceilings, for products originating in those countries or territories which signed Bilateral Agreements, in the framework of the MFA, providing for quantitative limitation of their exports of certain textile products to the Community, or in those countries which undertook similar commitments *vis-à-vis* the Community; whereas, such commitments have been undertaken by Bolivia, Honduras and Ecuador; whereas, for these products, it is therefore desirable that the Community should continue to apply the generalized tariff preferences on the basis of the same principles until the expiry of the MFA and the Bilateral Agreements concluded with certain supplier countries; whereas, in view of the special nature which trade in the products concerned may have, it would appear that the volumes of preferential imports should be determined in terms of tonnes, pieces, or pairs, as appropriate, by reference to the categories into which products are divided and to a uniform percentage, for each of the categories, of total imports into the Community in 1981;

⁽¹⁾ OJ No C 263, 3. 10. 1983, p. 90.

⁽²⁾ OJ No C 342, 19. 12. 1983, p. 168.

⁽³⁾ Opinion delivered on 26 and 27 October 1983 (not yet published in the Official Journal).

whereas, in order to ensure that each of the countries or territories referred to above has access to the preferential volumes, separate tariff ceilings for each beneficiary, whether or not allocated among the Member States, should be specified for each category of products;

Whereas for products not covered by the MFA it would appear possible to grant the preferences to the countries or territories which are normally beneficiaries in the other industrial sectors;

Whereas, for jute and coir products, it was understood that the preferences would be granted only where special arrangements had been made with the exporting developing countries; whereas these arrangements have hitherto concerned India and Sri Lanka for coir products, and India and Thailand for jute products; whereas, it would appear desirable to maintain them and to extend the preferential advantage to the least-developed countries in respect of jute and coir;

Whereas, in respect of textile products, taking account of the renewal of the MFA and the conclusion of Bilateral Agreements with certain supplier countries or territories, a substantial improvement in the arrangements was noted in 1980; whereas such substantial improvement was only made possible by ensuring that the improvement continued to be compatible with the situation in the Community sector concerned and by ensuring that a better balance was achieved in the distribution of the advantages granted to the beneficiary countries or territories; whereas, whilst taking account of the same preoccupations and on the basis of the same principles, a new improvement was made possible for the 1983 preferential exercise in relation both to the volumes opened and to the simplification of the management; whereas for the 1984 preferential exercise a further improvement can be achieved by taking 1981 instead of 1977 as the basis for determining the duty-free preferential volume available to beneficiaries; whereas this arrangement implies, for each of the categories concerned, the maintenance of the 1983 offer for those beneficiaries whose exports to the Community have stagnated or fallen and for those considered as dominant, while it entails for the other beneficiaries some increase proportional to their respective individual ceilings;

Whereas, for the products not covered by the MFA, the objectives referred to above may be achieved by providing, in respect of each category of products, for tariff ceilings, whether or not allocated among the Member States (but with individual ceilings for

each beneficiary), set at a level corresponding in general to 28 % of the total volume of imports into the Community in 1980 of the category of products in question from all beneficiaries;

Whereas, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least-developed developing countries appearing on the list in Annex E;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of origin of goods ⁽¹⁾;

Whereas the Community preference arrangements applicable to Yugoslavia for textile products result exclusively from the provisions of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia ⁽²⁾;

Whereas, from 1 January 1981, the Hellenic Republic has applied the Community scheme of generalized preferences, in accordance with Article 117 of the 1979 Act of Accession;

Whereas, consequently, for 1984 the Community should open:

- in respect of each of the categories of products covered by the MFA which are listed in Annex A, separate Community tariff ceilings for each beneficiary, whether or not allocated among the Member States, at a zero rate of duty within the limits of the quantities specified for each of the countries or territories of origin in column 6 or 7 of the said Annex,
- in respect of each of the categories of products not covered by the MFA, originating in the countries and territories listed in Annex D, Community tariff ceilings at a zero rate of duty, whether or not allocated among the Member States, but with separate ceilings for each beneficiary, within the limits of the quantities specified in column 6 or 7 of Annex B,

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

⁽²⁾ OJ No L 147, 4. 6. 1981, p. 6 and OJ No L 41, 14. 2. 1983, p. 1.

- in respect of the manufactured jute and coir products listed in Annex C, a total suspension of customs duties for the beneficiary countries specified in column 3 against each of the categories of products shown in column 2;

Whereas, as regards the Community tariff ceilings allocated among the Member States:

- it is necessary to guarantee to all importers equal and continuous access to the abovementioned ceilings and uninterrupted application of the rates laid down for those ceilings to all imports of the products concerned into all Member States until the ceilings have been used up,
- having regard to the abovementioned principles, it would appear that the Community nature of the ceilings can be respected by allocating them among the Member States,
- the actual charges against the ceilings may relate only to goods which are entered for free circulation and are accompanied by a certificate of origin,
- it would be advisable at this stage to adopt a fixed scale for allocating the ceilings concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade in textiles, and in particular to the trend of textile imports into the Community in recent years, the percentages for the Member States' initial shares of the Community ceilings are as follows for the year under consideration:

Benelux	10 %
Denmark	3 %
Germany	28 %
Greece	2 %
France	18 %
Ireland	1 %
Italy	15 %
United Kingdom	23 %

- without affecting the Community nature of the ceilings, it appears possible to provide at this stage for a utilization scheme based on a single allocation among the Member States; whereas, at the present juncture, it appears feasible that such allocation could, in general, be made according to the percentages set out in the table above; whereas, within the framework of the national shares, the levying of normal customs duties is reintroduced as soon as possible when the level of each share is reached,
- the method of administration of the ceilings must make provision for the immediate rein-

roduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas, as regards the Community tariff ceilings which are not allocated among the Member States the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, of imports of the products in question against the ceilings as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas the methods of administration for the products listed in Annexes A and B call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation the extent to which charges are made against the ceilings, whether or not allocated, and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce customs duties either generally or in a particular case when any of the ceilings is reached;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽³⁾, (EEC) No 3065/75 ⁽⁴⁾ and (EEC) No 1736/75 ⁽⁵⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1984, the Common Customs Tariff duties shall be:

- totally suspended in respect of the jute and coir products listed in Annex C,
- totally suspended within the framework of Community tariff ceilings, whether or not allocated among the Member States, in respect of the products listed in Annexes A and B.

Imports into Greece of the products referred to above shall be subject to the customs duties established in accordance with Article 117 of the 1979 Act of Accession.

2. The arrangements laid down in paragraph 1 shall apply only in respect of products originating in the countries and territories:

- specified individually in column 5 of Annex A or listed in Annex E,
- listed in Annex D, as regards the products listed in Annex B,
- listed in column 3 of Annex C against each of the categories of products specified in column 2.

3. Those imports already enjoying exemption from customs duties under other preferential tariff arrangements granted by the Community shall not be charged against the tariff ceilings referred to in paragraph 1. Preferential entry as provided for in this Regulation shall be subject to conformity with the concept of 'originating products', as determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68. However, the Community preference arrangements applicable in respect of Yugoslavia shall derive exclusively from the provisions of the Agreement between the Community and Yugoslavia.

4. With regard to carpets, carpeting and rugs of wool or fine animal hair falling within subheading 58.01 A II of the Common Customs Tariff, the certificates of origin for these products shall state the number of knots per metre of warp.

5. The ceilings shall be administered in accordance with the following provisions.

SECTION I

Provisions concerning the administration of the Community tariff ceilings not allocated among Member States

Article 2

Subject to Articles 3 and 4, preferential tariff treatment shall be accorded, for each category of products subjected in Annexes A and B to individual ceilings not allocated among the Member States and within the limits of the quantities specified in column 7 of Annexes A and B respectively, to certain or each of the countries or territories of origin listed in column 5 of those Annexes.

Article 3

As soon as the individual ceilings determined in accordance with Article 2 are reached at the Community level, the levying of customs duties on imports of the products in question originating in each of the countries or territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 4

The Commission shall reintroduce, by means of a Regulation, the levying of customs duties in respect of any one of the countries and territories referred to in Article 1 (2), under the conditions laid down in Article 3.

By means of a Regulation, the Commission may, even after 31 December 1984, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these limits are exceeded.

SECTION II

Provisions concerning the administration of the Community tariff ceilings allocated among Member States

Article 5

The total suspension of customs duties within the framework of the Community tariff ceilings allocated among the Member States, referred to in Article 1 (1), concerns the categories of products in Annexes A and B, for each of which the volume of the ceiling is specified individually in column 6 of those Annexes with regard to certain beneficiary countries or territories of origin listed in column 5 of the same Annexes.

Article 6

1. The individual Community tariff ceilings referred to in Article 5 shall be allocated in accordance with the following scale:

Benelux	10 %
Denmark	3 %
Germany	28 %
Greece	2 %
France	18 %
Ireland	1 %
Italy	15 %
United Kingdom	23 %

2. Each Member State shall determine its own share by applying the appropriate percentage to the volumes indicated in column 6 of Annexes A and B, rounding up the result to the next higher unit (kilogram, piece or pair) if necessary.

3. Without prejudice to the provisions of Article 8, within the framework of the national shares, the levying of normal customs duties shall be reintroduced as soon as possible when the level of each share is reached.

Article 7

Member States shall take all measures necessary to ensure that importers of the products concerned have free access to the shares allocated to them.

Article 8

The Commission shall take all necessary measures to ensure that the Community tariff ceilings allocated among the Member States are observed. When the charges, at Community level, of products originating in each of the countries or territories listed in column 5 of Annex A or B against any of these ceilings reach the corresponding amount specified in column 6 of the abovementioned Annexes, the Commission shall immediately notify the Member States of the date on which, as a result of this fact, the normal tariff is to be reintroduced in respect of the country or territory or the countries or territories in question. This notification shall be published in the *Official Journal of the European Communities*.

Article 9

By 28 February 1985 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1984. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION III

General provisions*Article 10*

The provisions concerning reintroduction of the levying of normal customs duties shall not apply to the countries listed in Annex E.

Article 11

1. Imports of the products in question shall be charged against the national shares and the Community ceilings as and when the products are entered for free circulation and are accompanied by a certificate of origin pursuant to the rules referred to in Article 1 (3).

2. Goods may be charged against a ceiling or admitted under a national share only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. The extent to which the ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

4. Any amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to the volume of the Community ceilings.

Article 12

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products subject to allocated ceilings, the Member States shall, by the 11th day of each month at the latest, forward to the Commission the list of charges effected during the

previous month. In the case of products subject to non-allocated ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the non-allocated ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

Article 13

The Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 14

COUNCIL REGULATION (EEC) No 3571/83**of 16 December 1983****applying generalized tariff preferences for 1984 in respect of certain agricultural products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products ⁽¹⁾, and in particular Article 12 thereof,

Having regard to the proposal from the Commission ⁽²⁾,

Having regard to the opinion of the European Parliament ⁽³⁾,

Having regard to the opinion of the Economic and Social Committee ⁽⁴⁾,

Whereas, within the context of UNCTAD, the European Economic Community offered to grant tariff preferences on certain processed agricultural products of Chapters 1 to 24 of the Common Customs Tariff which originate in developing countries; whereas the preferential treatment proposed in that offer consists, in respect of certain goods which are subject to the trade arrangements laid down in Regulation (EEC) No 3033/80, of a reduction in the fixed component of the charge applicable to such goods by virtue of that Regulation, and, in respect of products which are subject to the single customs duty, of a reduction in such duty; whereas preferential imports of the products concerned should be effected without quantitative restrictions;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preferences scheme would not be fully achieved by

the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas it is desirable therefore that the Community continue to apply generalized tariff preferences, in the context of the conclusions reached in UNCTAD and in accordance with the intentions expressed in the said Committee in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer may be withdrawn wholly or in part at a later stage, thus maintaining the possibility of remedying any unfavourable situations which might arise, including in the African, Caribbean and Pacific States (ACP States) following the implementation of the system;

Whereas experience in the initial period shows that the Community scheme has to an appreciable extent achieved its intended objectives; whereas it is therefore appropriate to maintain its fundamental features, namely a reduction in customs duties without any restriction in the quantities imported for certain agricultural products listed in Annex A, and a reduction in customs duties within the limits of a Community ceiling or tariff quotas for tobacco, cocoa butter, soluble coffee and preserved pineapples;

Whereas, subject to the above conditions, each of these Community tariff quotas or ceilings generally corresponds to the amount applicable in 1982;

Whereas, from 1 January 1981, the Hellenic Republic has applied the Community generalized preferences system in accordance with Article 117 of the 1979 Act of Accession;

Whereas the rates of conversion into national currency of the preferential amounts expressed in ECU are the rates provided for in the Common Customs Tariff;

Whereas in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries;

⁽¹⁾ OJ No L 323, 29. 11. 1980, p. 1.

⁽²⁾ OJ No C 263, 3. 10. 1983, p. 171.

⁽³⁾ OJ No C 342, 19. 12. 1983, p. 168.

⁽⁴⁾ Opinion delivered on 26 and 27 October 1983 (not yet published in the Official Journal).

whereas, therefore, the agricultural products listed in Annex C, originating in the least-developed developing countries which appear in the list in Annex D to this Regulation, should be totally exempt from customs duties;

Whereas it is necessary to ensure equal and continuous access for all Community importers to the Community tariff quotas and the uninterrupted application of the rate laid down for such quotas to all imports of the products concerned into all Member States until the quotas are used up; whereas the Community nature of the quotas can be respected by apportioning the Community tariff quotas among the Member States; whereas, moreover, to this end and in the context of the utilization system, the actual charges against the quotas may relate only to products which have been entered for free circulation and which are accompanied by a certificate of origin;

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas and to mitigate any inadequacy in the fixed-scale apportionment, the quotas should be divided into two tranches, the first being apportioned among the Member States and the second held as a reserve to cover subsequently the requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve constituted as described tends to avoid making the system of utilization of the quotas excessively rigid, to the detriment of each of the developing countries concerned, and will contribute to achieving the aim already mentioned of improving the generalized preferences system;

Whereas Member States may exhaust their initial shares of the tariff quotas at different rates; whereas to avoid disruption of supplies on this account it should be provided that any Member States which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period;

Whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 40 % of their initial share;

Whereas if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the

corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas in the case of the Community tariff ceiling for tobacco, other than Virginia type, the objective pursued may be attained by applying a method of administration based on the charging, at Community level, against the abovementioned ceiling, of imports of the product concerned as and when that product is entered for free circulation and is accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties in their entirety as soon as the said ceiling is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas such methods of administration call for close and particularly rapid cooperation between the Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the tariff quotas and ceiling and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties in their entirety when the ceiling is reached;

Whereas it is expedient that the Community should authorize the importation of the products referred to in Annex A originating in the countries and territories listed in Annex B, subject to the customs duties given in respect of each of them, without quantitative limitations; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods ⁽³⁾;

⁽¹⁾ OJ No L 175, 12. 7. 1979, p. 1.

⁽²⁾ OJ No L 297, 29. 10. 1983, p. 13.

⁽³⁾ OJ No L 148, 28. 6. 1968, p. 1.

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽¹⁾, (EEC) No 3065/75 ⁽²⁾ and (EEC) No 1736/75 ⁽³⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

SECTION I

Within this tariff quota, the customs duty shall be suspended at 15 %, increased by the levy on sugar where the sugar content exceeds 17 % by weight in the case of products falling within subheading ex 20.06 B II a) 5 aa), and 19 % by weight in the case of products falling within subheading ex 20.06 B II b) 5 aa).

Imports into Greece of the products referred to above shall be subject to the customs duties established in accordance with Article 117 of the 1979 Act of Accession.

2. This tariff quota shall apply solely to products originating in the countries and territories listed in Annex B. However, those imports already enjoying exemption from customs duties under other preferential tariff arrangements granted by the Community may not be charged against this quota.

For the purposes of the application of this section, the concept of 'originating products' shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

Article 24

1. A first tranche of 26 660 tonnes shall be apportioned among the Member States. The shares for each Member State which, subject to Article 27, shall be valid until 31 December 1984, shall be as follows:

Benelux	3 700 tonnes
Denmark	800 tonnes
Germany	10 900 tonnes
Greece	260 tonnes
France	250 tonnes
Ireland	250 tonnes
Italy	1 000 tonnes
United Kingdom	9 500 tonnes

2. The second tranche of 1 900 tonnes shall constitute the reserve.

Article 25

1. Where a Member State has used 90 % or more of its initial share as fixed in Article 24 (1), or of that share minus any portion returned to the reserve pursuant to Article 27, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its ini-

tial share rounded up, should the occasion arise, to the nearest unit.

2. Where a Member State, after exhausting its initial share, has used 90 % or more of the second share drawn by it, that Member State shall, forthwith under the conditions laid down in paragraph 1, draw a third share, equal to 5 % of its initial share rounded up, should the occasion arise, to the nearest unit.

3. Where a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third. This process shall continue until the reserve has been exhausted.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares lower than those specified therein if there are grounds for believing that the latter may not be used in full. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

5. Any Member State may, whilst informing the Commission, limit the aggregate total of its additional shares to 40 % or to a higher proportion of its original share.

Article 26

Without prejudice to the provisions of Article 27, additional shares drawn pursuant to Article 25 shall be valid until 31 December 1984.

Article 27

A Member State which, on 15 September 1984, has not exhausted its initial share shall, not later than 1 October 1984, return to the reserve any unused portion in excess of 20 % of the initial amount. It may return a greater portion if there are grounds for believing that such a portion may not be used. At the request of the Commission, it may also make anticipatory returns.

Member States shall, not later than 1 October 1984, notify the Commission of the total quantities of the products in question imported up to 15 September 1984 and charged against the Community quota and of any portion of their initial share returned to the reserve.

SECTION IV

GENERAL PROVISIONS

Article 28

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 9, 10, 14, 15, 19, 20, 24 and 25 and shall, as soon as the information reaches it, inform each State of the extent to which the reserves have been used up.

It shall inform the Member States not later than:

- 21 November 1984, of the amount still in the reserve following any return of shares pursuant to Article 12,
- 15 October 1984, of the amount still in the reserves following any return of shares pursuant to Articles 17 and 27,
- 15 September 1984, of the amount still in the reserve following any return of shares pursuant to Article 22.

It shall ensure that, when an amount exhausting a reserve is drawn, the amount so drawn does not exceed the balance available and shall to this end notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Articles 10, 15, 20 and 25 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community quotas.

Article 29

By 28 February 1985 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1984. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the Member States thereof.

Article 30

1. The Member States shall ensure free access to the shares allocated to them for importers of the said goods, who are established in their territory.

2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the said goods which have been entered for free circulation and which are accompanied by a certificate of origin in accordance with the rules referred to in Articles 8, 13, 18 and 23.

3. Goods shall qualify for a tariff quota only if the certificate of origin referred to in paragraph 2 is submitted before the date on which the levying of duties is reintroduced.

Article 31

Where the Commission so requests, and in any case at least monthly, the Member States shall inform it of imports of the products in question charged against their shares. This information shall show both the value expressed in ECU and the quantity expressed in tonnes.

Article 32

Where the Community finds that imports of products benefiting from the treatment provided for in Articles 1, 3, 8, 13, 18 and 23 are imported into the Community in quantities or at prices which place or are likely to place Community producers of similar or directly competitive products at a serious disadvantage or create an unfavourable situation in the ACP States, the levying of customs duties applied within the Community may be reintroduced in whole or in part on imports of the products in question from the country or countries or territory or territories which are the cause of such disadvantage. Such measures may also be taken in the event of actual or potential serious disadvantage which is confined to a single region of the Community.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 December 1983.

Article 33

1. The Commission may decide, by means of a Regulation, to reintroduce the levying of customs duties for a specified period, in order to ensure that Article 32 is applied.

2. Where action on the part of the Commission is requested by a Member State, the former shall give its decision within a period of not more than 10 working days from the date of receipt of the request and shall inform the Member State of this decision.

3. Each Member State may refer the measure taken by the Commission to the Council within a period of 10 working days following the date on which it was notified. The fact that the matter is referred to the Council shall not cause the measure to be suspended. The Council shall meet immediately. It may, acting on a qualified majority, amend or rescind the measure in question.

Article 34

Articles 32 and 33 shall prejudice neither the application of the safeguard clauses adopted under the common agricultural policy pursuant to Article 43 of the Treaty nor those adopted under the common commercial policy pursuant to Article 113 of the Treaty.

Article 35

Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 36

This Regulation shall enter into force on 1 January 1984.

For the Council
The President
A. TRITSIS

**DECISION OF THE REPRESENTATIVES OF THE GOVERNMENTS OF
THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL
COMMUNITY, MEETING WITHIN THE COUNCIL,**

of 16 December 1983

**applying for 1984 the generalized tariff preferences for certain steel products originating
in developing countries**

(83/645/ECSC)

THE REPRESENTATIVES OF THE
GOVERNMENTS OF THE MEMBER STATES OF
THE EUROPEAN COAL AND STEEL
COMMUNITY, MEETING WITHIN THE COUNCIL,

— in the Community, to each of the countries or
territories listed in Annex C for the other cate-
gories of products in Annex B,

In agreement with the Commission,

subject to observance of the concept of originating
products.

HAVE DECIDED AS FOLLOWS:

Article 1

1. From 1 January to 31 December 1984, the cus-
toms duties applicable to the products listed in
Annexes A and B shall be totally suspended within
the framework of tariff quotas and ceilings.

Imports into Greece of the products referred to
above shall be subject to the customs duties estab-
lished in accordance with Article 117 of the Act of
Accession of 1979.

2. The arrangements provided for in paragraph 1
shall apply solely:

— in all customs areas of the Community, to each
of the countries or territories listed in column 4
of Annex A against each category of products
listed in columns 2 and 3,

— in the Community, to each of the other coun-
tries or territories listed in Annex C, with the
exception of Yugoslavia, for the same categories
of products,

3. Imports exempt from customs duties under
other preferential tariff arrangements granted by the
Community may not be charged against these tariff
quotas or ceilings. Preferential entry as provided for
in this Decision shall be subject to conformity with
the concept of 'originating products' as determined
in accordance with the procedure laid down in
Article 14 of Regulation (EEC) No 802/68 ⁽¹⁾. How-
ever, the Community preference arrangements
applicable to Yugoslavia shall result exclusively
from the provisions contained in the Agreement
with that country concerning ECSC products ⁽²⁾;
consequently, for products submitted under the said
Agreement to Community tariff ceilings or listed in
Annex A to this Decision, the movement certificate
EUR 1 shall be deemed the only documentary evi-
dence for the granting of tariff preferences.

4. The Community tariff quotas and ceilings shall
be administered in accordance with the provisions
set out below.

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

⁽²⁾ OJ No L 41, 14. 2. 1983, p. 113 and OJ No L 237,
27. 8. 1983, p. 1.

SECTION I

Provisions concerning the administration of the Community tariff quotas relating to products listed in Annex A*Article 2*

The total suspension of customs duties within the limits of the Community tariff quotas referred to in Article 1 (1) shall be accorded to each country or territory listed in column 4 of Annex A in respect of the products indicated against its name in columns 2 and 3 together with details in column 5 of the amount of the individual quotas.

Article 3

1. The Member States shall administer their tariff quotas in accordance with their own provisions.
2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the goods in question which have been entered for free circulation, on the basis of the customs value of the said goods, and which are accompanied by a certificate of origin in accordance with the rules referred to in Article 1 (2).

Article 4

Each Member State shall reintroduce the levying of duties which have been suspended in respect of a country or territory listed in column 4 of Annex A as soon as it finds that the charges against its national quota of the products concerned originating in that country or territory have reached the amount laid down in column 6 of Annex A.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to the products listed in Annexes A and B*Article 5*

Subject to Articles 6 and 7, the preferential tariff ceiling arrangements shall be accorded:

- for products in Annex A, to each of the countries or territories listed in Annex C, other than those which may be listed in column 4 of Annex A, within the limits of the amounts

specified in column 7 of Annex A, against each category of products,

- for products in Annex B, to the countries or territories listed in Annex C, considered individually, within the limits of a Community ceiling equal to the highest maximum amount valid for 1980 under each of the preferential ceilings opened for that year. The individual ceiling thus established shall be increased by 2 % to take account of the application by Greece of Community tariff preferences.

Article 6

1. As soon as the individual ceilings fixed or calculated in accordance with the provisions of Article 5, which are laid down for imports into the Community, under the conditions which it shall determine, of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the Member States may at any time, at the request of any one of them or of the Commission and in respect of the whole of the Community, reintroduce the levying of the corresponding duties on imports of the products in question from each of the countries or territories concerned until the end of the period referred to in Article 1 (1).

2. Within the framework of the foregoing provisions, the Commission shall coordinate the procedures for reintroducing normal customs duties, in particular by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be published in the *Official Journal of the European Communities*.

3. However, paragraphs 1 and 2 shall not apply to the countries listed in Annex D.

Article 7

The extent to which ceilings have been used up shall be determined at Community level on the basis of imports charged in the manner laid down in Article 8 (1) and (2).

SECTION III

General provisions*Article 8*

1. Imports of the products in question shall be charged against the quota shares and Community

ceilings as and when the products are entered for free circulation, on the basis of the customs value of the said products, and are accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (2).

2. Goods may be charged against a ceiling or admitted under a tariff quota only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. For the purposes of the application of this Decision, the value of the ECU, in which the preferential amounts are expressed, and the rate of conversion into national currencies shall be that provided for in the Common Customs Tariff.

However, for products listed in Annex A under order Nos 2, 3 and 5, conversion into national currencies of the preferential amounts expressed in ECU shall be carried out in accordance with the following rates:

	£	0,545891
	Dr	69,67736

4. An amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to Community tariff quotas or ceilings.

Article 9

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance

with the provisions of the present Decision. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Council Regulation (EEC) No 1736/75 ⁽¹⁾.

2. However, in the case of products in Annex A subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products of Annex A subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward the lists of charges to the Commission every 10 days; these lists shall be forwarded within five days of the end of each 10-day period.
