COUNCIL REGULATION (EEC) No 3762/83

of 19 December 1983

amending Regulation (EEC) No 3589/82 on common rules for imports of certain textile products originating in third countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the Council, by Regulation (EEC) No 3589/82 ⁽¹⁾, makes imports of certain textile products originating in third countries subject to common rules until 1986;

Whereas certain adjustments have become necessary since the entry into force of that Regulation;

Whereas the Community should put these adjustments into effect; whereas it is necessary for this purpose to make certain amendments to Regulation (EEC) No 3589/82,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EEC) No 3589/82 is hereby amended as follows:

1. In Article 3, paragraph 2 is deleted and paragraphs 3, 4, 5, 6, 7 are accordingly renumbered 2, 3, 4, 5, 6 respectively.
2. The following paragraph 3 is added to Article 4:

'3. The provisions of Article 4 (1) and (2) shall apply only to the countries referred to in Annexes XI, XII and XII A.'

3. In Article 5 (2), the first two sentences are replaced by the following:

'2. Paragraph 1 shall not apply where the Community quantitative limit established under Article 3 for the products within the category in question originating in the supplier country concerned is less than 2,5 % of total Community imports in 1980 for that category. However, in the case of the countries referred to in Annexes XII, XII A and XII B, this level is 1 %.'

4. Article 8 is replaced by the following:

Article 8

1. Supplier countries other than the countries listed in Annexes XI, XII, XII A and XII B may, after notifying the Commission in advance, utilize the shares allocated to Member States in the following ways:

- (a) Advance utilization during any given year of a portion of a share established for the following year shall be authorized for each category of products up to 5 % of the share for the year of actual utilization.

Such advance imports shall be deducted from the corresponding shares established for the following year.

- (b) Carry-over of amounts not utilized during any given year to the corresponding share for the following year shall be authorized up to 5 % of the share for the year of actual utilization.

⁽¹⁾ OJ No L 374, 31. 12. 1982, p. 106.

(c) Except for the countries listed in Annex IX, where the relevant percentages in each case referred to below shall be 3,5 %, transfers of quantities in group I categories shall be made only as follows:

- transfers from category 1 to categories 2 and 3 shall be authorized up to 5 % of the share established for the category to which the transfer is made,
- transfers between categories 2 and 3 shall be authorized up to 5 % of the share established for the category to which the transfer is made,
- transfers between categories 4, 5, 6, 7 and 8 shall be authorized up to 5 % of the share established for the category to which the transfer is made.

Transfers of quantities into the different categories in groups II or III may be made from any category in groups I, II or III subject to a maximum of 5 % of the share established for the category to which the transfer is made.

The table of equivalence applicable to the abovementioned transfers is given in Annex I.

(d) The cumulative application of the provisions of points (a), (b) and (c) may not, in the course of any given year, cause a limit established for the category and for the year in question to be exceeded by more than 15 %; however, in the case of categories of products originating in the countries listed in Annex IX, such an excess may not be greater than 11 % for group I categories and 12,5 % for categories in groups II and III.

2. The country listed in Annex XI may utilize the shares in the ways provided in paragraph 1, except that:

- in the case of points (a) and (b), there shall be no authorization for category 1, and the authorization in respect of category 2 shall be limited to 2,5 %,
- in the case of point (c), transfers to category 2 shall be limited to 2,5 %.

3. The country listed in Annex XII may utilize the shares in the same way as provided in paragraph 1, except that:

- in the case of points (a) and (b), there shall be no authorization for categories 2 and 3 and authorization in respect of all other categories shall be limited to 1 %, except that further authorization to 5 % may be agreed following consultations in accordance with Article 14,

— in the case of point (c), there shall be no transfers to categories 2 and 3 and transfers between categories 4, 5, 6, 7 and 8 shall be limited to 3,5 %,

— in the case of point (d), such excess may not be greater than 10 % for group 1 categories and 11 % for categories in groups II and III.

The same provisions shall apply to the countries listed in Annexes XII A and XII B except that, in the case of points (a), (b) and (c), there shall be no authorization for categories 1, 2 and 3;

4. In the event of recourse by a supplier country to the provisions of paragraphs 1. to 3, the Commission shall notify the authorities of the Member State concerned, which shall authorize the imports in question in accordance with the double-checking system defined in Annex VI.

5. Where a Member State's share has been increased by the application of paragraphs 1 to 3 above or of Article 9, or where further possibilities for imports into that Member State have been created under Article 9, such increases or further import possibilities shall not be taken into account for the purposes of applying paragraph 1 in the current year or subsequent years.'

5. Article 11 is replaced by the following:

Article 11

1. The importation into the Community of textile products listed in Annex I, originating in the supplier countries listed in Annex II and not subject to the Community quantitative limits referred to in Article 3, shall be subject to a system of administrative control.

2. Should imports into the Community of products falling within any given category, referred to in paragraph 1 and originating in one of the supplier countries, exceed, in relation to the preceding calendar year's total imports into the Community of products in the same category, the percentages indicated in the table appearing in Annex XIV such imports may be made subject to quantitative limits under the conditions laid down in this Article. These arrangements may be limited to imports into specific regions of the Community.

3. Should the imports referred to in paragraph 2 into a given region of the Community exceed, in relation to the total quantities calculated for the whole Community according to the percentage specified in paragraph 2, the percentage set for that region in the table below, such imports may

be made subject to quantitative limits in the region in question:

Germany	28,5 %
Benelux	10,5 %
France	18,5 %
Italy	15 %
Denmark	3 %
Ireland	1 %
United Kingdom	23,5 %
Greece	2 %

4. Paragraphs 2 and 3 shall not apply where the percentages specified therein have been reached as a result of a fall in total imports into the Community, and not as a result of an increase in exports of products originating in the supplier country concerned.

5. Where the Commission finds, in accordance with the procedure laid down in Article 15, that the conditions set out in paragraphs 2 and 3 are fulfilled and considers that a given category of products should be made subject to a quantitative limit, with the concurring opinion of the Committee under the procedure in Article 15:

(a) it shall open consultations with the supplier country concerned in accordance with the procedure specified in Article 14 with a view to reaching an agreement or joint conclusions on a suitable level of limitation for the category of products in question;

(b) pending a mutually satisfactory solution, the Commission shall, as a general rule, request the supplier country concerned to limit exports of the products in the category concerned to the Community, or to the region or regions of the Community market specified by the Community for a provisional period of three months from the date on which the request for consultation is made. Such provisional limit shall be established at 25 % of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2 and gave rise to the request for consultation or 25 % of the level resulting from the application of the formula set out in paragraph 2, whichever is the higher.

Nevertheless, it may, in exceptionally grave circumstances, request the supplier countries listed in Annexes XII A and XII B to suspend, at the level indicated by the Commission, and with effect from the date of notification of the request for consultation, their exports of the category of products in question;

(c) it may request any of the supplier countries listed in Annexes IX and XII, with effect from the date of notification of the request for

consultations and pending a mutually satisfactory solution, to suspend or limit at the level indicated by the Commission its exports of the category of products in question to the Community or to one or more regions thereof;

(d) it may, pending the outcome of the requested consultations, apply to the imports of the category of products in question quantitative limits identical to those requested of the supplier country pursuant to points (b) and (c). These measures shall be without prejudice to the definitive arrangements to be made by the Community, taking into account the results of the consultations.

Measures taken pursuant to this paragraph shall be the subject of a Commission communication published without delay in the *Official Journal of the European Communities*.

6. The consultations with the supplier country concerned which are provided for in paragraph 5 (a) may lead to the conclusion of an arrangement between that country and the Community of the adoption of joint conclusions on the introduction and level of quantitative limits.

Such arrangements or joint conclusions shall stipulate that the quantitative limits agreed be administered in accordance with a double-checking system.

7. Should the parties be unable, in the course of consultations, to reach a satisfactory solution within one month following the opening of consultations and, at the latest, within two months following notification of the request for consultations, the Community shall have the right to introduce a definitive quantitative limit at an annual level not lower than the level resulting from the application of the formula set out in paragraph 2 or 106 % of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2 and gave rise to the request for consultations, whichever is the higher.

In the case of Hungary, the Community shall, however, have the right to introduce a quantitative limit at an annual level not lower than the level reached by imports of products falling within the category in question and referred to in the notification of the request for consultations.

In respect of the country listed in Annex XII, the time limits referred to above shall be reduced by half.

8. The arrangements provided for in paragraph 6 shall be concluded and the measures provided for either in paragraphs 5 and 7 or in the arrangements or joint conclusions referred to in paragraph 6 shall be decided in accordance with the procedure laid down in Article 15.

9. The annual level of the quantitative limits laid down in accordance with paragraphs 5 to 8 may not be less than the level of imports, into the Community or into the region or regions concerned in 1980, of products of the same category and originating in the same supplier country.

10. Where the development of total imports into the Community of a product which is subject to a quantitative limit fixed in accordance with paragraphs 5 to 8 renders it necessary, the annual level of that quantitative limit shall be increased, after consultation with the supplier country in accordance with the procedure laid down in Article 14 to ensure compliance with the conditions set out in paragraphs 2 and 3.

11. The quantitative limits fixed in accordance with paragraphs 6 and 8 shall provide for an annual growth rate determined by mutual agreement with the supplier country concerned in the context of the consultation procedure laid down in Article 14.

12. The quantitative limits established pursuant to paragraphs 5 to 8 shall not apply to products which have already been dispatched to the Community provided that they were shipped from the supplier country in which they originate for export to the Community before the date of notification of the request for consultations.

13. The quantitative limits established pursuant to paragraphs 5 to 8 shall be administered in accordance with Articles 3 and 4 and 6 to 10, save as otherwise provided in accordance with the procedure laid down in Article 15.'

6. Article 13 is replaced by the following:

'Article 13

1. Where, following the enquiries carried out in accordance with the procedures established under Annex V, the Commission notes that the information in its possession constitutes proof that products originating in a supplier country listed in Annex II and subject to the quantitative limits referred to in Article 3 or introduced under

Article 11 have been transhipped, re-routed or otherwise imported into the Community through circumvention of such quantitative limits and that there is need for the necessary adjustments to be made, it shall request that consultations be opened, in accordance with the procedure described in Article 14, so that agreement may be reached on an equivalent adjustment of the corresponding quantitative limits.

2. Pending the outcome of the consultations referred to in paragraph 1, the Commission may ask the supplier country concerned to take the necessary precautionary steps to ensure that adjustments to the quantitative limits agreed on following such consultations may be carried out for the year in which the request for consultations was lodged or for the following year, if the quantitative limit for the current year is exhausted, where there is clear evidence of circumvention.

3. If the Community and the supplier country fail to arrive at a satisfactory solution within the period stipulated in Article 14 and if the Commission notes that there is clear evidence of circumvention, it shall deduct from the quantitative limits an equivalent volume of products originating in the supplier country concerned, in accordance with the procedure laid down in Article 15.

4. In the case of the countries listed in Annexes XII, XII A and XII B this Article shall apply also to imports after 1 January 1982. This Article shall also apply to imports prior to that date where any consultations for the adjustment of quantitative limits which may have been opened with the supplier country concerned before the entry into force of this Regulation have not yet produced a mutually satisfactory solution.'

7. The annexes shall be replaced by the Annexes to this Regulation.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX V

referred to in Article 2

PART I

Origin

Article 1

1. Products listed in Annex I, originating in one of the supplying countries listed in Annex II, may be imported into the Community in accordance with the arrangements established by this Regulation on production of a certificate of origin conforming to the specimen attached to Annex VI.

Products listed in Annex I, originating in Hong Kong, shall be accompanied by a certificate of origin conforming to the special specimen marked 'Hong Kong', attached to Annex VI.

2. The certificates of origin shall be issued by the competent governmental authorities of the supplying country if the products in question can be considered products originating in that country within the meaning of the relevant rules in force in the Community.

3. However, products listed in Annex I other than those falling within groups I or II may be imported into the Community in accordance with the arrangements established by the Regulation on production of a declaration by the exporter or supplier on the invoice or, where there is no invoice, on another commercial document relating to the products in question, to the effect that the said products originate in the supplying country where the declaration is made within the meaning of the relevant rules in force within the Community.

4. Paragraph 3 shall not apply to products originating in Egypt, Hong Kong, Thailand or Singapore.

5. Where different criteria for determining origin are fixed in respect of products falling within a single category and a single tariff heading, the certificate or declaration must include a description of the goods which is sufficiently detailed to allow assessment of the criterion on the basis of which the certificate was issued or the declaration made.

Article 2

The discovery of slight discrepancies between the entries made in the certificate of origin and those made in the documents produced to the customs

office for the purpose of carrying out the formalities for importing the product shall not *ipso facto* cast doubt upon the statements in the certificate

Article 3

1. The movement certificates and forms EUR. 1 and EUR. 2 and the certificates of origin form A and forms APR presented at the time of importation into the Community in order to obtain a tariff preference shall be accepted in place of the proof of origin stipulated in Article 1.

2. The proof of origin referred to in Article 1 shall not be required where goods are accompanied by a certificate conforming to the specimen and complying with the conditions set out in Regulation (EEC) No 3058/82 or (EEC) No 3059/82 ⁽¹⁾ or in the corresponding provisions which are to replace the said Regulations.

3. Paragraph 2 shall also apply to goods accompanied by a certificate conforming to the specimen and complying with the conditions set out in Annex VII to this Regulation.

4. Non-commercial imports exempt from production of the documents referred to in paragraph 1 in accordance with the provisions of the preferential arrangements concerned shall not be subject to the provisions of this Annex.

5. The conditions upon which this Annex shall apply to non-commercial imports other than those covered by paragraph 4 shall be adopted in accordance with the procedure specified in Article 14 of Regulation (EEC) No 802/68 ⁽²⁾.

Pending the implementation of these rules, the Member States may continue to apply the national rules in force in this field.

PART II

Administrative cooperation

Article 4

The Commission shall supply the Member States' authorities with the names and addresses of the auth-

⁽¹⁾ OJ No L 328, 24. 11. 1982, pp. 1 and 26.

⁽²⁾ OJ No L 148, 26. 6. 1968, p. 1.

authorities in the supplying countries competent to issue certificates of origin and export licences together with specimens of stamps used by these authorities.

Article 5

1. Subsequent verification of certificates of origin or export licences shall be carried out at random, or whenever the competent Community authorities have reasonable doubt as to the authenticity of the certificate of origin or export licence or as to the accuracy of the information regarding the true origin of the products in question.

In such cases the competent authorities in the Community shall return the certificate of origin or the export licence or a copy thereof to the competent governmental authority in the supplying country concerned, giving, where appropriate, the reasons of form or substance for an enquiry. If the invoice has been submitted, such invoice or a copy thereof shall be attached to the certificate of origin or export licence or copy thereof. The competent authorities shall also forward any information that has been offered suggesting that the particulars given on the said certificate or the said licence are inaccurate.

2. The provisions of paragraph 1 above shall also be applicable to subsequent verifications of the declarations of origin referred to in Article 1 (3) of this Annex.

3. The results of the subsequent verifications carried out in accordance with paragraphs 1 and 2 shall be communicated to the competent authorities of the Community within three months at the latest.

The information communicated shall indicate whether the disputed certificate or licence or declaration applies to the goods actually exported and whether the goods are eligible for export to the Community under this Regulation. The competent authorities of the Community may also request copies of all documentation necessary to determine the facts fully and, in particular, the true origin of the goods ⁽¹⁾.

4. Should such verifications reveal abuse or major irregularities in the use of declarations of origin, the Member State concerned shall inform the Commission of this fact. The Commission shall pass the information on to the other Member States.

At the request of a Member State or at the initiative of the Commission, the Committee on Origin shall, as soon as possible and in accordance with the procedure specified in Article 13 of Regulation (EEC) No 802/68, examine whether it is desirable to require the production of a certificate of origin, in accordance with Article 1 (1) and (2), in respect of the products and the supplying country concerned.

The decision shall be taken in accordance with the procedure specified in Article 14 of Regulation (EEC) No 802/68.

5. Random recourse to the procedure specified in this Article shall not constitute an obstacle to the release for home use of the products in question.

Article 6

1. Where the verification procedure referred to in Article 5 or where information available to the competent authorities in the Community indicates that the provisions of this Regulation are being contravened, the said authorities shall request the supplier country or countries concerned to carry out appropriate enquiries or arrange for such enquiries to be carried out concerning operations which are or appear to be in contravention of the provisions of this Regulation. The results of these enquiries shall be communicated to the competent authorities of the Community together with any other pertinent information enabling the true origin of the goods to be determined.

2. In pursuance of the action taken under the terms of this Annex, the competent authorities of the Community may exchange any information with the competent governmental authorities of supplier countries which is considered of use in preventing the contravention of the provisions of this Regulation.

3. Where it is established that the provisions of this Regulation have been contravened, the Commission, acting according to the procedure laid down in Article 14 of this Regulation, may agree with the supplier country or countries concerned to take such measures as are necessary to prevent recurrence of such contravention.

⁽¹⁾ For the purpose of subsequent verification of certificates of origin, copies of the certificates as well as any export documents referring to them shall be kept for at least two years by the competent governmental authority in each supplying country.

On the initiative of the Commission or of a Member State, the Common Customs Tariff Nomenclature Committee, which was established by Council Regulation (EEC) No 97/69 ⁽³⁾, as subsequently amended, and the NIMEXE Committee, established by Council Regulation (EEC) No 1445/72, will examine urgently, in accordance with their respective jurisdiction and in conformity with the provisions of the aforementioned Regulations, all questions concerning the classification of products referred to in Article 1 (1) of this Regulation within the Common Customs Tariff and the NIMEXE in order to classify them in the appropriate categories.

Article 3

The Commission shall inform supplier countries of any changes in the Common Customs Tariff or NIMEXE on their adoption by the competent authorities of the Community.

Article 4

The Commission shall inform the competent authorities of supplier countries of any decisions adopted in accordance with the procedures in force in the Community relating to classification of products

subject to the present Regulation, within one month at the latest of their adoption. Such communication shall include:

- (a) a description of the products concerned;
- (b) the relevant category, tariff heading or sub-heading and the NIMEXE code;
- (c) the reasons which have led to the decision.

Article 5

1. Where a classification decision adopted in accordance with current Community procedures results in a change of classification practice or a change in category of any product subject to the present Regulation, the competent authorities of the Member States shall provide 30 days' notice, from the date of the Community's notification, before the decision is put into effect.

2. Products shipped before the date of the application of the decision shall remain subject to earlier classification practice, provided that the goods in question are entered for importation within 60 days of that date.

3. Paragraphs 1 and 2 above apply without prejudice to the preliminary provisions of the Annex 'Nomenclature of goods for the external trade statistics of the Community and statistics of trade between Member States (NIMEXE)' to Council Regulation (EEC) No 1445/72, as last amended by Commission Regulation (EEC) No 3589/83 ⁽⁴⁾.

Article 6

Where a classification decision adopted in accordance with the established Community procedures referred to in Article 5 of this Annex involves a category of products subject to a quantitative limit, the Commission shall, without delay, initiate consultations in accordance with Article 14 of this Regulation, in order to reach an agreement on the necessary adjustments to the relative quantitative limits provided for in Annex II to this Regulation.

Article 7

1. Without prejudice to any other provision on this subject, where the classification indicated in the documentation necessary for importation of the products covered by this Regulation differs from the

⁽¹⁾ OJ No L 172, 22. 7. 1968, p. 1.

classification determined by the competent authorities of the Member State into which they are to be imported, the goods in question shall be provisionally subject to the import regime which, in accordance with the provisions of the present Regulation, is applicable to them on the basis of the classification determined by the aforementioned authorities.

2. Member States shall inform the Commission without delay of the cases referred to in paragraph 1 and the Commission shall notify the competent authorities of the supplying countries of the details of the case in question.

3. Member States, at the time of the communication referred to in paragraph 2, shall specify if, following the application of the provisions of paragraph 1, the quantities of the products which are the subject of divergence have been provisionally debited against a quantitative limit laid down for a category of products other than that indicated in the export licence referred to in Article 11 of this Annex.

4. The Commission shall notify the competent authorities of the supplying countries concerned of the provisional debits referred to in paragraph 3, within 30 days of the date of such provisional debit.

Article 8

In the cases referred to in Article 7 of this Annex, as well as in those cases of a similar nature raised by the competent authorities of the supplying countries, the Commission, if necessary, and in accordance with the procedure provided for in Article 14 of this Regulation, shall enter into consultations with the supplier country or countries concerned, in order to reach agreement on the classification definitively applicable to the products causing the divergence.

Article 9

The Commission, in agreement with the competent authorities of the Member State or States of importation and of the supplier country or countries, may, in the cases referred to in Article 8 of this Annex, determine the classification definitively applicable to the products causing the divergence.

Article 10

When a case of divergence referred to in Article 7 cannot be resolved in accordance with Article 9 of this Annex, the Nomenclature Committee of the Common Customs Tariff and the NIMEXE Committee are required, in accordance with their respective competence and with the provisions of the Regulations setting up the aforesaid Committees, to establish definitively the classification of the goods concerned.

1. The exemption provided for in Article 4 in respect of cottage industry products shall apply only to the following types of product:

- (a) fabrics woven on looms operated solely by hand or foot, being fabrics of a kind traditionally made in the cottage industry of each supplier country;
- (b) garments or other textile articles of a kind traditionally made in the cottage industry of each supplier country, obtained manually from the fabrics referred to above and sewn exclusively by hand without the aid of any machine. In the case of India and Pakistan, the exemption shall apply to cottage industry products made by hand from the products described in paragraph (a);
- (c) traditional folklore products of each supplier country, made by hand, in a list annexed to the bilateral agreements concerned;
- (d) in the case of Bangladesh, Guatemala, Indonesia, Malaysia, Sri Lanka and Thailand, traditional handicraft batik fabrics and textile articles made from such batik fabrics whether sewn by hand or on a hand- or foot-operated sewing machine. Batik fabrics shall be defined as follows:

handicraft batik fabrics are made according to a traditional process whereby colours and shades are applied to white or unbleached fabric. This process is carried out by hand in three stages:

- (i) application of wax to the fabric by hand;
- (ii) dyeing or painting (colour is applied either by the traditional craft method of dyeing, or by hand painting);
- (iii) removal of wax by boiling the fabric.

These three treatments are carried out for each of the colours or shades applied to the fabrics.

2. Exemption shall be granted only in respect of products covered by a certificate conforming to the specimen attached to this Annex and issued by the competent authorities in the supplier country.

In the case of Bangladesh, Guatemala, Indonesia, Malaysia, Sri Lanka and Thailand, the following shall be entered in box 11 of the certificate:

In the case of India and Pakistan, the title of the certificate is as follows:

- '(b) hand-made cottage industry products made of the fabrics described under (a) ⁽²⁾',
- '(b) produits de fabrication artisanale faits à la main avec les tissus décrits sous (a) ⁽²⁾'.

The certificates shall specify the grounds on which exemption is granted.

3. Should imports of any product covered by this Annex reach proportions liable to cause problems within the Community, consultations with the supplying countries shall be initiated as soon as possible, with a view to resolving the situation by the adoption of a quantitative limit, in accordance with Article 11 of this Regulation ⁽¹⁾.

⁽¹⁾ This arrangement does not concern India.

referred to in Article 6 (5)

*Article 1***Romania**

1. Should a Member State find that one of the textile products in Annex I, originating in and coming from Romania, is imported into the Community at an abnormally low price, falling short of the normal competitive amount, so as to cause or threaten to cause serious harm to the Community producers of products which are similar or in direct competition, the Commission may request consultations with Romania.

2. Should agreement not be reached during the aforementioned consultations within a period of 30 days from the date on which consultations are requested, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question.

3. In quite exceptional and grave circumstances, when imports into the Community of a Romanian textile product at abnormally low prices would be likely to cause damage which it would be difficult to repair, the parties will embark on emergency consultations which must be held within a maximum period of five working days from the day on which the Commission gives notification of its request for consultation.

If within this period of five working days the parties should not reach a mutually acceptable agreement making it possible to deal with the situation, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned to suspend the issuing of documents permitting the import of the product in question.

4. In order to determine whether the price of a textile product is abnormally low, falling short of the normal competitive amount, the price will be compared:

- with the prices of similar national products at a comparable stage in the marketing process on the market of the importing country,
- with the prices which are general for similar products sold under normal conditions by other exporting countries on the market of the importing country, and

- with the lowest prices applied by a third country to the same product in the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Commission.

*Article 2***Hungary and Bulgaria**

1. Should a Member State note that one of the textile products in Annex I is imported from Hungary or Bulgaria into the Community at prices falling below the price range usual under conditions of normal competition, and therefore causes or threatens to cause serious harm to the Community producers of the same products, similar products or products in direct competition, the Commission may request consultations with Hungary or Bulgaria.

2. If during the aforementioned consultations agreement is not reached within a period of 30 days from the date of the Commission request, and if shipments of the product in question continue to be made at prices lower than the price range usual under conditions of normal competition and therefore cause or threaten to cause serious harm to the Community producers referred to in paragraph 1, the Commission may, while continuing consultations with a view to reaching a mutually acceptable solution, authorize, in accordance with the procedure provided for in Article 15, the Member State concerned to suspend imports of the shipments in question.

3. In critical situations, when imports of specific textile products at prices lower than the price range usual under conditions of normal competition threaten to cause damage which it would be difficult to repair, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question. In that case, consultations will be embarked on without delay, and in any case within a period of five days from the date of the Commission's request, with a view to reaching a mutually acceptable solution.

4. For the purposes of applying the provisions of this Article and determining whether the price of a

textile product is 'lower than the price range usual under conditions of normal competition', these prices may be compared:

- with the prices of similar products at a comparable stage in the marketing process on the market of the importing country,
- with the prices which are general for such products sold under normal commercial conditions by other exporting countries on the market of the importing country, and
- with the lowest prices applied for such products sold under normal commercial conditions by any other exporting country during the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Commission.

Article 3

Poland and Czechoslovakia

1. Should a Member State consider that one of the textile products listed in Annex I is being imported into the Community from Poland or Czechoslovakia at a price abnormally lower than the normal competitive amount, thus causing or threatening to cause serious harm to the Community producers of products which are similar or in direct competition, the Commission may request consultations with Poland or Czechoslovakia.

2. In order to determine whether the price of a textile product is abnormally lower than the normal competitive amount, the price may be compared:

- with the prices of similar national products at a comparable stage in the marketing process on the market of the importing country,

- with the prices which are general for similar products sold under normal conditions by other exporting countries on the market of the importing country, and

- with the lowest prices applied by a third country to the same product in the course of normal commercial transactions in the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Community.

3. Should agreement not be reached during the consultations referred to in paragraph 1 above within a period of 30 days from the date on which consultations are requested by the Commission and pending a mutually satisfactory outcome of the consultations, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the products in question.

4. In quite exceptional and grave circumstances, when deliveries of products imported from Poland or Czechoslovakia are being effected in the Community at prices abnormally lower than the normal competitive level and would be likely to cause damage which it would be difficult to repair, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question pending a solution to be agreed in the course of consultations. The said consultations will be embarked on without delay, and in any case within a period of five days from the date of the Commission's request.

Before suspension, Czechoslovakia is given 10 working days' notice in order to remedy the situation.

Article 3

1. Transfers between categories and advance use or carry-over of portions of specific quantitative limits from one year to another may be carried out in accordance with the procedure laid down in Article 15 of this Regulation.

2. Portions of any specific quantitative limits not used in one Member State may be reallocated to another Member State in accordance with the procedure laid down in Article 15 this Regulation.

3. Member States which record a need for additional imports or which consider that their share is unlikely to be used in full shall inform the Commission thereof. They may ask that the specific quantitative limits be adjusted in accordance with the procedure laid down in Article 15.

4. The Commission shall inform the third country or countries concerned of any measures taken pursuant to the preceding paragraphs.

Article 4

Debiting against a specific quantitative limit as laid down in Article 1 shall be carried out by the competent authorities of the Member States at the time of issue of the prior authorizations provided for by the Regulations on economic outward processing in force in the Community. A specific quantitative limit shall be debited for the year in which the prior authorization is issued.

Article 5

The certificate of origin provided for in Article 1 of Annex V to this Regulation shall be issued by the competent governmental authorities in the supplier country concerned, in accordance with the provisions of Annex V, for all products covered by this Annex. Certificates so issued shall bear a reference to the prior authorization referred to in Article 4 as evidence that the processing operation indicated in the prior authorization has been carried out in that supplier country.

Failure to comply with this provision shall not entail the *ipso facto* rejection of the prior authorization, except where there is grave suspicion of fraudulent practice or serious irregularity and subject to the appropriate precautionary measures to be taken before the products are given clearance.

Article 6

The competent authorities of the Member States shall provide the Commission with the names and addresses of the Community authorities competent to issue both the prior authorizations referred to in Article 4 and the specimens of stamp impressions used by them.
