COUNCIL REGULATION (EEC) No 1753/84**of 19 June 1984****opening, allocating and providing for the administration of a Community tariff quota for ferro-phosphorus falling within subheading ex 28.55 A of the Common Customs Tariff**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 thereof,

Whereas the production of ferro-phosphorus containing 15 % or more by weight of phosphorus, is currently insufficient in the Community to meet the requirements of the user industries in the Community; whereas, consequently, Community supplies of products of this type currently depend to a considerable extent on imports from third countries; whereas it is in the Community's interest to suspend totally the Common Customs Tariff duty for the products in question, within the Community tariff quota, of an appropriate volume for a relatively limited period; whereas, in order not to call into question the development prospects of this production in the Community while ensuring an adequate supply to satisfy user industries, it is advisable to limit the benefits of the tariff quota to products used for the manufacture of refined phosphoric iron or steel, to open this quota free of duty for the period 1 July 1984 to 30 June 1985 and to fix the volume at 25 000 tonnes;

Whereas, in particular, equal and continuous access to the quota should be ensured for all Community importers and the rate of duty for the tariff quota should be applied consistently to all imports until the quota is exhausted; whereas, in the light of these principles, arrangements for the utilization of the tariff quota based on an allocation among Member States would seem to be consistent with the Community nature of the quota; whereas, to correspond as closely as possible to the actual trend in the market in the product in question, allocation of the quota should be in proportion to the requirements of the Member States as calculated by reference to statistics of imports from third countries during a representative reference period and to the economic outlook for the quota period in question;

Whereas, however, since the quota is an autonomous Community tariff quota intended to cover import needs arising in the Community, for experimental purposes, the quota volume may be allocated on the basis of the temporary import needs from third countries expressed by each of the Member States; whereas

these arrangements for allocation will equally ensure the uniform application of the Common Customs Tariff;

Whereas, to take account of possible import trends for the products concerned, the quota volume should be divided into two instalments, the first being allocated between the Member States and the second held as a reserve to meet subsequent requirements of Member States which have used up their initial shares;

Whereas, to give importers of the Member States some degree of certainty, the first instalment of the tariff quota should be fixed at a relatively high level, which in this case could be 22 500 tonnes;

Whereas initial shares may be used up at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that any Member State which has almost used up its initial share should draw an additional share from the reserve; whereas, each time its additional share is almost used up, a Member State should draw a further share, and so on as many times as the reserve allows; whereas the initial and additional shares should be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, which latter must be in a position to keep account of the extent to which the quotas have been used up and to inform the Member States accordingly;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 July 1984 to 30 June 1985, the Common Customs Tariff duty for ferro-phosphorus, containing 15 % or more by weight of phosphorus falling within subheading ex 28.55 A for use in the manufacture of refined phosphoric iron or steel shall be totally suspended within the limits of a Community tariff quota of 25 000 tonnes.

2. Within the limits of this tariff quota, the Hellenic Republic shall apply customs duties calculated in accordance with the relevant provisions in the 1979 Act of Accession.

3. Control of the use of the products for the particular purpose laid down shall be carried out by applying the relevant Community provisions.

Article 2

1. A first instalment of 22 500 tonnes of this Community tariff quota shall be allocated among the Member States; the shares, which shall be valid until 30 June 1985, shall be as follows:

	(tonnes)
Benelux	20 232
Denmark	2
Germany	2
Greece	68
France	2
Ireland	2
Italy	169
United Kingdom	2 023

2. The second instalment of 2 500 tonnes, shall constitute the reserve.

Article 3

1. If a Member State has used 90 % or more of its initial share as fixed in Article 2 (1), it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share rounded up as necessary to the next whole number.

2. If a Member State, after exhausting its initial share, has used 90 % or more of the second share drawn by it, that Member State shall forthwith, in the manner and to the extent provided in paragraph 1, draw a third share equal to 5 % of its initial share rounded up as necessary to the next whole number.

3. If a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, in the manner and to the extent provided in paragraph 1, draw a fourth share equal to the third.

This process shall apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2, and 3, a Member State may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used in full.

Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

Article 4

Additional shares drawn pursuant to Article 3 shall be valid until 30 June 1985.

Article 5

Member States shall, not later than 1 April 1985, return to the reserve the unused portion of their initial share which, on 15 March 1985, is in excess of 20 % of the initial volume. They may return a greater portion if there are grounds for believing that it may not be used in full.

Member States shall, not later than 1 April 1985, notify the Commission of the total quantities of the product in question imported up to and including 15 March 1985 and charged against the Community tariff quotas and of any portion of their initial shares returned to the reserve.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as the notifications reach it, inform each Member State of the extent to which the reserve has been used up.

It shall, not later than 5 April 1985, inform the Member States of the amount still in reserve, following any return of shares pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 7

1. Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their aggregate shares of the Community tariff quota.

2. Member States shall ensure that importers of the product in question have free access to the shares allotted to them.

3. Member States shall charge imports of the product in question against their shares as the product is entered with the customs authorities for free circulation.

4. The extent to which Member States have used up their shares shall be determined on the basis of imports charged against them under the conditions set out in paragraph 3.

Article 8

At the Commission's request the Member States shall inform it of imports actually charged against their shares.

Article 9

The Member States and the Commission shall co-operate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 July 1984.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

temporarily and totally suspending the Common Customs Tariff duty on a product falling within subheading ex 85.21 D II

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 thereof,

Whereas current Community production of the product referred to in this Regulation is inadequate and producers cannot therefore satisfy the needs of the Community's user industries;

Whereas it is in the Community's interest that it should totally suspend the autonomous Common Customs Tariff duty on this product;

Whereas, in view of the difficulties involved in making a rigorous assessment in the near future of developments in the economic situation of the sector in question, this suspension measure should be taken only temporarily by fixing its terms of validity on the basis of the interests of Community production,

HAS ADOPTED THIS REGULATION:

COUNCIL REGULATION (EEC) No 1755/84

of 19 June 1984

on the implementation in relation to food of alternative operations in place of food-aid deliveries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 235 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽¹⁾,

Whereas the Community, in parallel with other efforts aimed at food security, should endeavour to encourage developing countries to increase their degree of self-reliance with regard to food, for example by means of food strategies ;

Whereas it should provide substantial support for such efforts ;

Whereas such support can be stepped up by making food aid more flexible so that in particular, where the conditions permit, it is possible for some food-aid operations to be replaced by financial support for agricultural and food operations ;

Whereas the measures to be taken in order to implement these alternative operations should be defined ;

Whereas a procedure should be laid down for the management of this replacement aid ; whereas Article 8 of Regulation (EEC) No 3331/82 ⁽²⁾ contains a procedure that can be used for that purpose ;

Whereas the Treaty has not provided the necessary powers to that end,

HAS ADOPTED THIS REGULATION :

Article 1

The Community shall, where the conditions so justify, implement alternative operations in place of deliveries of food aid for developing countries.

These operations shall be aimed at supporting, by means of available funds, the preparation and imple-

mentation of a food strategy or other measures to strengthen these countries' food security and to encourage them to increase their degree of self-reliance with regard to food. They shall, as far as possible, help towards improving the living conditions of the poorest sections of the population in the countries in question.

The alternative operations shall be implemented in the form of financial and technical aid in accordance with the criteria and procedures laid down in this Regulation.

Article 2

Alternative operations may be implemented for the benefit and at the request of developing countries which are eligible for Community food-aid operations under Regulation (EEC) No 3331/82 in respect of part or all of the quantities of food aid which have been or which could be allocated to them within the framework of the quantities provided for in the annual Regulations implementing Regulation (EEC) No 3331/82, taking into account, in particular, developments in production, consumption and the level of stocks in the country in question, the food situation of the population and food aid granted by other donors.

The purpose of these operations shall be to support or stimulate the recipient countries' own efforts.

Article 3

The purpose of these alternative operations is to cover financial and technical aid operations aimed, in accordance with the objectives in Article 1, at improving self-reliance with regard to food by the development of agriculture and food production in the country concerned and at food security, and shall contribute to the financing of, for example :

- the supply of inputs essential to such food production,
- rural credit operations,
- storage by individual farmers, or at village, local, national or regional level,
- operations in the field of marketing, transport, distribution or processing of agricultural and food products,
- applied research and on-the-job training activities,
- projects to develop food production.

⁽²⁾ OJ No L 352, 14. 12. 1982, p. 1.

Article 4

Aid shall be granted by the Community either autonomously or by means of co-financing with Member States or with other donors.

Article 5

Community aid shall be in the form of grants.

Article 5

1. The aid may cover both external expenditure and the local expenditure necessary for implementation of the operations, including maintenance and operating expenses.

Taxes, duties and charges shall be excluded from the Community financing.

2. Any counterpart funds shall be used in accordance with the objectives laid down in this Regulation and in agreement with the Community.

Article 7

Participation in invitations to tender, contract awards and contracts in general shall be open on equal terms to all natural and legal persons of Member States and of the recipient country. Such participation may be extended to other developing countries receiving Community aid, particularly in cases of co-financing or in order to avoid an excessive increase in the cost of operations as a result of distance, transport difficulties or delivery times.

Such participation by other developing countries shall be of an exceptional nature and shall be authorized on

a case-by-case basis in accordance with the procedure laid down in Article 8.

Article 8

Decisions cancelling food aid and granting alternative aid, and also decisions on the conditions of supply of the latter, shall be taken by the Commission after consultation of the Committee provided for in Article 7 of Regulation (EEC) No 3331/82 and in accordance with the procedure laid down in Article 8 of that Regulation.

The Committee may examine any other matter relating to the implementation of the alternative operations raised by its chairman either on his own initiative or at the request of a representative of a Member State.

Article 9

The Commission shall report annually to the European Parliament and to the Council on the application of this Regulation.

Article 10

1. The Commission shall take all the necessary steps to ensure the proper execution of alternative operations.

2. For the purpose of paragraph 1 the Member States shall assist the Commission and shall provide it with all necessary information.

Article 11

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EEC) No 1760/84

of 22 June 1984

amending Regulation (EEC) No 2670/81 laying down detailed implementing rules in respect of sugar production in excess of the quota

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1785/81 of 30 June 1981 on the common organization of the markets in the sugar sector⁽¹⁾, as last amended by Regulation (EEC) No 606/82⁽²⁾, and in particular Article 26 (3) thereof,

Whereas Article 26 (1) of Regulation (EEC) No 1785/81 stipulates that sugar produced in excess of the quota must be exported in the natural state; whereas, until now, this sugar has been exported in the form of white sugar or raw sugar; whereas, of late, there has been increasing production of syrups obtained prior to the crystallizing stage and offered for sale as such; whereas such syrups, if they are to be exported as C sugar, must have gone through the crystallizing stage; whereas in these circumstances steps should be taken to adapt the corresponding provisions on the export of the aforesaid syrups produced in excess of the A and B quotas in Commission Regulation (EEC) No 2670/81⁽³⁾; whereas it is appropriate, with respect to the method for recording the quantities of sugar exported in the form of such syrups, to refer to the provisions of Commission Regulation (EEC) No 1443/82 of 8 June 1982 laying down detailed rules for the application of the quota system in the sugar sector⁽⁴⁾, as amended by Regulation (EEC) No 434/84⁽⁵⁾;

Whereas Regulation (EEC) No 1443/82 provides with regard to the production of A and B syrups for the possibility of applying two methods for the determination of the extractable sugar content; whereas, as regards C syrups, only one method is applicable; whereas provision should be made, to avoid administrative difficulties, that such syrups produced by another sugar undertaking should not be used for export substitution;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EEC) No 2670/81 is hereby amended as follows:

1. The first indent of the second subparagraph of Article 1 (1) is replaced by the following:

‘— as white sugar or raw sugar, non-denatured, or as syrups, obtained prior to the crystallizing stage, falling within subheading 17.02 D II of the Common Customs Tariff or as isoglucose in its natural state,’.

2. The following fourth subparagraph inserted in Article 1 (1):

‘The quantity of sugar exported in the form of syrups as referred to in the first indent of the second subparagraph shall be determined on the basis of their extractable sugar content as established in accordance with the second subparagraph of Article 1 (5) of Commission Regulation (EEC) No 1443/82⁽¹⁾.

(¹) OJ No L 158, 9. 6. 1982, p. 17.’

3. The second subparagraph of Article 2 (2) is replaced by the following:

‘However, the manufacturer in question may, on export, replace C sugar by another white or raw sugar in the natural state falling within heading No 17.01 of the Common Customs Tariff, or replace C isoglucose by another isoglucose, where these have been produced by another manufacturer established on the territory of the same Member State. In this event, the manufacturer making the substitution shall pay, in the case of sugar, an amount of 1,25 ECU per 100 kilograms expressed as white sugar, and in the case of isoglucose, an amount of 1,25 ECU per 100 kilograms of dry matter.’

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.
