COUNCIL REGULATION (EEC) No 3562/84**of 18 December 1984****applying generalized tariff preferences for 1985 in respect of certain industrial products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the Euro-
pean Economic Community,

Having regard to the proposal from the Commis-
sion ⁽¹⁾,

Having regard to the opinion of the European Par-
liament ⁽²⁾,

Having regard to the opinion of the Economic and
Social Committee ⁽³⁾,

Whereas, in accordance with its offer made within
the context of the United Nations Conference on
Trade and Development (UNCTAD), the European
Economic Community opened generalized tariff
preferences commencing in 1971, notably in respect
of finished and semi-finished industrial products
from developing countries; whereas the initial
10-year period of application of this system of
preferences expired on 31 December 1980;

Whereas, however, the positive role played by this
system in improving access for developing countries
to the markets of the preference-giving countries
was recognized at the ninth session of the
UNCTAD Special Committee on Preferences;
whereas it was there agreed that the objectives of the
generalized preference scheme would not be fully
achieved by the end of 1980, that consequently it
should be prolonged beyond the initial period and
that an overall review of the system should take
place in 1990;

Whereas, therefore, the Community has decided to
apply generalized tariff preferences, in the context
of the conclusions agreed in UNCTAD in accord-
ance with the intention expressed in the said Com-
mittee, in particular by all the preference-giving
countries;

Whereas the temporary and non-binding nature of
the system means that the offer can be withdrawn
wholly or in part at a later date, thus maintaining
the possibility of remedying any unfavourable situa-
tions which might arise following implementation of
the system, including such situations in the African,
Caribbean and Pacific States (ACP States);

Whereas experience in the initial period has shown
that the Community scheme has to a large extent
achieved its intended objectives; whereas its funda-
mental features, in particular the total suspension of
customs duties, within certain limits, should there-
fore be maintained; whereas any adjustments
should essentially meet the joint requirements of
simplification and differential application of
preferential advantages, as these are likely to
improve the transparency of the system and to ease
its administration;

Whereas use of the preferential advantages in the
1970s was concentrated on a limited number of
products and beneficiary countries; whereas it is
therefore necessary to ensure a better distribution of
the preferential advantages in order to provide prac-
tical assistance for the industrial development of a
greater number of developing countries, especially
the least developed; whereas, at the same time, to
take account of the limits to the Community mar-
ket's absorption capacity and the existence of Com-
munity production, the widest possible preferential
access should be accorded to the less competitive
developing countries and the preferential advan-
tages enjoyed by the more competitive beneficiary
countries accordingly varied in the case of specific
products;

Whereas, therefore, provision is made under the
present scheme for a differential application of pre-
ferential treatment; whereas the products and coun-
tries to be treated selectively are determined overall
on the basis of criteria relating to the degree and
level of those countries' development and indus-
trialization, their competitiveness and the sensitivity

of the Community industries and markets for the products in question;

Whereas, accordingly, each beneficiary treatment appropriate to its situation allows for more equitable access to the preference system; whereas a simplified and more transparent system involves the application of separate tariff ceiling arrangements for each beneficiary except for the least-developed developing countries;

Whereas tariff preferences have been applied on this new basis since 1 January 1981; whereas it is the intention to continue to apply them during the year 1985; whereas the tariff ceiling arrangements mentioned above should differentiate between the products in Annex I by means of Community tariff quotas for products originating in the most competitive countries and by means of ceilings for products in Annex I originating in other less competitive countries;

Whereas the products in Annex II should be made subject to surveillance for essentially statistical purposes;

Whereas, however, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, charges on products originating in the least developed of the developing countries listed in Annex IV to this Regulation should not be subject to the Community quota or ceiling;

Whereas the reference base to be considered when examining the situation resulting from an increase of imports of products listed in Annex II should, as a general rule, be 165 % of the highest maximum amount valid for 1980 under each of the preferential ceilings opened that year; which corresponds to 110 % of the reference base provided for 1984; whereas the rules for calculating the ceilings and maximum amounts are laid down in the Council Regulations (EEC) No 2787/79, (EEC) No 2788/79 and (EEC) No 2789/79 ⁽¹⁾;

⁽¹⁾ OJ No L 328, 24. 12. 1979.

Whereas the rates of conversion into national currency of the preferential amounts expressed in ECU are the rates provided for in the Common Customs Tariff;

Whereas such tariff exemptions should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods ⁽²⁾;

Whereas the Community preference arrangements applicable to Yugoslavia result exclusively from the Agreement between the Community and the Socialist Federal Republic of Yugoslavia ⁽³⁾; whereas, therefore, for products which are submitted to Community tariff ceilings within the framework of the Agreement between the Community and Yugoslavia, the movement certificate EUR.1 shall be deemed the only documentary evidence for the granting of tariff preferences;

Whereas, since 1 January 1981, the Hellenic Republic has applied the Community system of generalized preferences in accordance with Article 117 of the Act of Accession of 1979;

Whereas, in respect of the Community tariff quotas specified in Annex I, it is necessary in particular to ensure equal and continuous access for all Community importers to the abovementioned quotas, and to ensure uninterrupted application of the rate laid down for those quotas to all imports of the products concerned into all the Member States until the quotas are used up; whereas, having regard to the principles set out above, an arrangement whereby the quotas are apportioned among the Member States would best respect their Community nature; whereas, moreover, to this end and in the context of such an arrangement, the actual charges against the quotas could relate only to products entered for free circulation and accompanied by a certificate of origin;

Whereas the percentages for the initial shares of Member States in the Community tariff quotas within the framework of generalized tariff preferences have been fixed, up to the present, by refer-

ence to a flat-rate system of allocation founded on economic criteria relating to external trade, gross national product and population;

Whereas the application of the generally accepted principles in respect of the apportionment of the Community tariff quotas which have been opened hitherto cannot be reconciled with the continuity necessary for the application of the tariff preferences concerned; whereas it would accordingly be advisable to adopt a fixed scale for apportioning the Community tariff quotas concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade, gross national product and population, the percentages for the initial shares of the Member States in the quota amounts are as follows for the quota year under consideration:

Benelux	10,5 %
Denmark	5 %
Germany	27,5 %
Greece	2 %
France	19 %
Ireland	0,5 %
Italy	14,5 %
United Kingdom	21 %;

Whereas, however, taking into account the more precise information already available concerning trade in plywood, blockboard, laminboard, battenboard and similar laminated products, falling within heading No 44.15 of the Common Customs Tariff, the abovementioned percentages should be replaced by: 4,44, 5,99, 7,76, 0,19, 0,29, 1,94, 0,87 and 78,52 % respectively;

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas given in Annex I and to mitigate any inadequacy in the initial allocation, the quotas should, as a general rule, be divided into two tranches, the first being apportioned among Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve thus constituted tends to avoid making the system of utilization of the quota excessively rigid, to the detriment of each of the developing countries concerned, and contributes to achieving the aim already mentioned of improving the generalized preferences system; whereas, to this end and to accord importers in each Member State some degree of security, the first tranche of the Community quota should be fixed at about 80 % of the quota volumes;

Whereas Member States may exhaust their initial shares for the tariff quotas given in Annex I at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that each Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and

repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period; whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 50 % of their initial share;

Whereas, if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas, in the case of the Community tariff ceilings listed in Annex I, the desired objectives may be attained by applying a method of administration based on the charging at Community level, against the abovementioned ceilings, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties, in accordance with the appropriate procedures, as soon as the said ceilings are reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas, in the case of the products listed in Annex II, provision should be made for the possibility of reintroducing the levying of customs duties in exceptional cases and in accordance with appropriate procedures and rules;

Whereas such methods of administration call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the quotas, ceilings and other preferential tariff limits, and inform the Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties when any of the ceilings is reached;

⁽²⁾ OJ No L 297, 29. 10. 1983, p. 13.

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of the present Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽¹⁾, (EEC) No 3065/75 ⁽²⁾ and (EEC) No 1736/75 ⁽³⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning, in particular, the administration of quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1985, the Common Customs Tariff duties on the products listed in Annexes I and II shall be totally suspended. In the case of the products listed in Annex I, this tariff suspension shall be accorded within the framework of tariff quotas and ceilings. The products listed in Annex II shall, as a general rule, be subject to statistical surveillance every three months on the reference base referred to in Article 12.

Imports into Greece of the products referred to above shall be subject to the customs duties established in accordance with Article 117 of the 1979 Act of Accession.

For the purposes of the application of this Regulation the value of the ECU, in which the preferential amounts are expressed, and the rate of conversion into national currencies shall be that provided for in the Common Customs Tariff.

2. The arrangements provided for in paragraph 1 shall apply solely:

- to each country or territory listed in column 4 of Annex I, for each category of products listed in columns 2 and 3,
- for the same categories of products listed in Annex I to every other country or territory listed in Annex III, excepting Yugoslavia,

— to each of the countries or territories listed in Annex III, for the categories of products listed in Annex II.

3. Admission to the preferential arrangements set up by this Regulation shall be subject to conformity with the definition of the origin of products determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68. For products originating in Yugoslavia, which are submitted to Community tariff ceilings within the framework of the Agreement between the Community and Yugoslavia, the movement certificate EUR.1 shall be deemed the only documentary evidence for the granting of tariff preferences.

4. The Community tariff quotas and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

Provisions concerning the administration of the Community tariff quotas relating to the products listed in Annex I

Article 2

The total suspension of customs duties within the framework of the Community tariff quotas referred to in Article 1 (1) shall be accorded to each country or territory listed in column 4 of Annex I, for the products specified in columns 2 and 3 against the name of the country or territory concerned, together with details in column 5 of the amount of the individual quota.

Article 3

1. A first tranche of 80 % of each of the Community tariff quotas listed in Annex I, the amount of which is shown in column 6 of Annex I, shall be apportioned among the Member States; the shares for each Member State shall, subject to Article 6, be valid until 31 December 1985 and shall be those indicated in column 7 of Annex I against each of the categories of products subject to quota listed therein.

In the case of products falling within heading No 44.15, however, the first tranche shall amount to 98 % of the quota amount.

2. The second tranche of each of the tariff quotas shall constitute the reserve specified in each case in column 8 of Annex I.

⁽²⁾ OJ No L 307, 27. 11. 1975, p. 1.
⁽³⁾ OJ No L 183, 14. 7. 1975, p. 3.

Article 4

1. Where a Member State has used 90 % or more of one of its initial shares as fixed in Annex I, or of that share minus any portion returned to the reserve pursuant to Article 6, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share, rounded up, should the occasion arise, to the nearest unit.

2. Where a Member State, after exhausting one of its initial shares, has used 90 % or more of the second share drawn by it, that Member State shall draw a third share, under the conditions laid down in paragraph 1, equal to 5 % of its initial share.

3. Where a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve has been exhausted.

4. By way of derogation from paragraphs 1, 2 and 3, Member States may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used up. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

5. Any Member State may, whilst informing the Commission, limit the aggregate total of its additional shares to 50 % or to a higher proportion of its initial share.

Article 5

Without prejudice to the provisions of Article 6, additional shares drawn pursuant to Article 4 shall be valid until 31 December 1985.

Article 6

The Member States shall return to the reserve, not later than 1 October 1985, the unused portion of their initial share which on 15 September 1985 exceeds 20 % of the initial amount. They may return a larger portion if there are grounds for believing that such portion may not be used. At the request of the Commission they may also make anticipatory returns.

The Member States shall, not later than 1 October 1985, notify the Commission of the total quantities of the products in question imported up to 15 September 1985 and charged against the Community quotas, and of any portion of their initial shares returned to the reserve.

Article 7

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 3 and 4 and shall, as soon as the information reaches it, inform each Member State of the extent to which the reserve has been used up.

It shall, not later than 15 October 1985, inform the Member States of the amount still in reserve following any return of shares pursuant to Article 6.

It shall ensure that, when an amount exhausting the reserve is drawn, the amount so drawn does not exceed the balance available and to this end shall notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 4 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community tariff quotas.

Article 8

The Member States shall take all appropriate measures to ensure free access to the shares which have been allocated to them for importers of the products in question.

Article 9

By 28 February 1986 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1985. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to products listed in Annex I and the reference base relating to products listed in Annex II*Article 10*

Subject to Articles 11 and 12, the preferential tariff ceiling arrangements shall be accorded for products in Annex I, to each of the countries or territories listed in Annex III, other than those listed in column 4 of Annex I, within the limits of the amounts specified in column 9 against each category of products.

Article 11

As soon as the individual ceilings as fixed in accordance with Article 10 and which are laid down for imports into the Community of products originating in any of the countries or territories referred to in Article 1 (2) are reached at Community level, the levying of customs duties on imports of the products in question originating in each of the countries and territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 12

Where the increase of preferential imports of products listed in Annex II, originating in one or more beneficiary countries, causes or threatens to cause economic difficulties in the Community, or in a region of the Community, the levying of customs duties may be reintroduced, once the Commission has had an appropriate exchange of information with the Member States. The reference base to be considered when examining the situation resulting from an increase of imports shall be, as a general rule, 165 % of the highest maximum amount valid for 1980 under each preferential ceiling opened that year, which corresponds to 110 % of the reference base provided for 1984.

Article 13

The Commission shall reintroduce the levying of customs duties in respect of any of the countries or territories referred to in Article 1 (2), under the conditions laid down in Articles 11 and 12, by means of a Regulation.

By means of a Regulation, the Commission may, even after 31 December 1985, take measures to stop

quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these limits are exceeded.

Article 14

Articles 11, 12 and 13 shall not apply to the imports in question originating in the countries set out in Annex IV.

SECTION III

General provisions*Article 15*

1. The extent to which the quotas of the Member States are used up shall be determined on the basis of imports of the products in question entered for free circulation on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

2. Imports of the products in question shall be charged against import ceilings or other preferential tariff limits as and when the products are entered for free circulation, on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

3. Goods may be charged against a ceiling or other preferential tariff limit or admitted under a quota share only if the certificate of origin referred to in paragraphs 1 and 2 is submitted before the date on which the levying of duties is reintroduced.

4. The extent to which the Community tariff quotas and ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

5. Any amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to the Community tariff quotas or ceilings.

Article 16

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the

Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products in Annex I subject to ceilings,

the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

Article 17

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 18

This Regulation shall enter into force on 1 January 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1984.

COUNCIL REGULATION (EEC) No 3563/84**of 18 December 1984****applying generalized tariff preferences for 1985 to textile products originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences, commencing in 1971, with particular reference to finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences: whereas it was there agreed that the objectives of the generalized preferences system would not be fully attained by the end of 1980, that it should consequently be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas the Community has therefore decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn

wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise in the African, Caribbean and Pacific States (ACP States) as a result of the system's implementation;

Whereas, however, most of the preference-giving countries exclude textile products from preferential treatment; whereas, under the Community scheme of generalized preferences, these products have always been covered by special arrangements pursuant to which, for cotton textile and similar products, the preferences were originally granted in the form of duty-free ceilings only to those beneficiaries under the generalized preferences scheme which were signatories to the Long-Term Arrangement regarding International Trade in Cotton Textiles (LTA) or which undertook *vis-à-vis* the Community commitments similar to those existing under that Arrangement:

Whereas the Long-Term Arrangement has been replaced from 1980 onwards by the Arrangement regarding International Trade in Textiles (MFA), and the Community has therefore, in the case of products covered by the MFA, reserved preferences in the form of duty-free ceilings, for products originating in those countries or territories which signed Bilateral Agreements, in the framework of the MFA, providing for quantitative limitation of their exports of certain textile products to the Community, or in those countries which undertook similar commitments *vis-à-vis* the Community; whereas, such commitments have been undertaken by Bolivia, Honduras and Ecuador; whereas, for these products, it is therefore desirable that the Community should continue to apply the generalized tariff preferences on the basis of the same principles until the expiry of the MFA and the Bilateral Agreements concluded with certain supplier countries; whereas, in view of the special nature which trade in the products concerned may have, it would appear that the volumes of preferential imports should be determined in terms of tonnes, pieces, or pairs, as appropriate, by reference to the categories into which products are divided and to a uniform percentage, for each of the categories, of total imports into the Community in 1981; whereas, in order to ensure that each of the countries or territories referred to above has access

(1) OJ No C 294, 5. 11. 1984, p. 97.

(2) OJ No C 337, 17. 12. 1984.

(3) OJ No C 343, 27. 12. 1984.

to the preferential volumes, separate tariff ceilings for each beneficiary, whether or not allocated among the Member States, should be specified for each category of products;

Whereas for products not covered by the MFA it would appear possible to grant the preferences to the countries or territories which are normally beneficiaries in the other industrial sectors;

Whereas, for jute and coir products, it was understood that the preferences would be granted only where special arrangements had been made with the exporting developing countries; whereas these arrangements have hitherto concerned India and Sri Lanka for coir products, and India and Thailand for jute products; whereas, it would appear desirable to maintain also the preferential advantage to the least-developed countries in respect of jute and coir;

Whereas, in respect of textile products, taking account of the renewal of the MFA and the conclusion of Bilateral Agreements with certain supplier countries or territories, a substantial improvement in the arrangements was noted in 1980; whereas such substantial improvement was only made possible by ensuring that the improvement continued to be compatible with the situation in the Community sector concerned and by ensuring that a better balance was achieved in the distribution of the advantages granted to the beneficiary countries or territories; whereas, whilst taking account of the same preoccupations and on the basis of the same principles, a new improvement was made possible for the 1983 preferential exercise in relation to the volumes opened; whereas an increase in the volumes of certain preferential arrangements was made possible in 1984 by taking the year 1981 as reference year for their calculation; whereas, for 1985 an increase of the same level may be possible in the volumes of the same preferential arrangements;

Whereas, for the products not covered by the MFA, the objectives referred to above may be achieved by providing, in respect of each category of products, for tariff ceilings, whether or not allocated among the Member States (but with individual ceilings for each beneficiary), set at a level corresponding in general to 28 % of the total volume of imports into the Community in 1980 of the category of products in question from all beneficiaries;

Whereas, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declara-

tion, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least-developed developing countries appearing on the list in Annex V;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of origin of goods ⁽¹⁾;

Whereas the Community preference arrangements applicable to Yugoslavia for textile products result exclusively from the provisions of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia ⁽²⁾;

Whereas, from 1 January 1981, the Hellenic Republic has applied the Community scheme of generalized preferences, in accordance with Article 117 of the 1979 Act of Accession ;

Whereas, consequently, for 1985 the Community should open:

- in respect of each of the categories of products covered by the MFA which are listed in Annex I, separate Community tariff ceilings for each beneficiary, whether or not allocated among the Member States, at a zero rate of duty within the limits of the quantities specified for each of the countries or territories of origin in column 6 or 7 of the said Annex,
- in respect of each of the categories of products not covered by the MFA, originating in the countries and territories listed in Annex IV, Community tariff ceilings at a zero rate of duty, whether or not allocated among the Member States, but with separate ceilings for each beneficiary, within the limits of the quantities specified in column 6 or 7 of Annex II,
- in respect of the manufactured jute and coir products listed in Annex III, a total suspension of customs duties for the beneficiary countries specified in column 3 against each of the categories of products shown in column 2;

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

⁽²⁾ OJ No L 147, 4. 6. 1981, p. 6 and OJ No L 41, 14. 2. 1983, p. 1.

Whereas, as regards the Community tariff ceilings allocated among the Member States:

- it is necessary to guarantee to all importers equal and continuous access to the abovementioned ceilings and uninterrupted application of the rates laid down for those ceilings to all imports of the products concerned into all Member States until the ceilings have been used up,
- having regard to the abovementioned principles, it would appear that the Community nature of the ceilings can be respected by allocating them among the Member States,
- the actual charges against the ceilings may relate only to goods which are entered for free circulation and are accompanied by a certificate of origin,
- it would be advisable at this stage to adopt a fixed scale for allocating the ceilings concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade in textiles, and in particular to the trend of textile imports into the Community, the percentages for the Member States' initial shares of the Community ceilings are as follows for the year under consideration:

Benelux	10 %
Denmark	3 %
Germany	28 %
Greece	2 %
France	18 %
Ireland	1 %
Italy	15 %
United Kingdom	23 %

- without affecting the Community nature of the ceilings, it appears possible to provide at this stage for a utilization scheme based on a single allocation among the Member States; whereas, at the present juncture, it appears feasible that such allocation could, in general, be made according to the percentages set out in the table above; whereas, within the framework of the national shares, the levying of normal customs duties is reintroduced as soon as possible when the level of each share is reached,
- the method of administration of the ceilings must make provision for the immediate reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas, as regards the Community tariff ceilings which are not allocated among the Member States

the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, of imports of the products in question against the ceilings as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas the methods of administration for the products listed in Annexes I and II call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation the extent to which charges are made against the ceilings, whether or not allocated, and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce customs duties, when any of the ceilings is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽³⁾, (EEC) No 3065/75 ⁽⁴⁾ and (EEC) No 1736/75 ⁽⁵⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

3. Preferential entry as provided for in this Regulation shall be subject to conformity with the definition of the origin of products determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68. However, the Community preference arrangements applicable in respect of Yugoslavia shall derive exclusively from the provisions of the Agreement between the Community and Yugoslavia.

4. With regard to carpets, carpeting and rugs of wool or fine animal hair falling within subheading 58.01 A II of the Common Customs Tariff, the certificates of origin for these products shall state the number of knots per metre of warp.

5. The ceilings shall be administered in accordance with the following provisions.

SECTION I

Provisions concerning the administration of the Community tariff ceilings not allocated among Member States

Article 2

Subject to Articles 3 and 4, preferential tariff treatment shall be accorded, for each category of products subjected in Annexes I and II to individual ceilings not allocated among the Member States and within the limits of the quantities specified in column 7 of Annexes I and II respectively, to certain or each of the countries or territories of origin listed in column 5 of those Annexes.

Article 3

As soon as the individual ceilings determined in accordance with Article 2 are reached at the Community level, the levying of customs duties on imports of the products in question originating in each of the countries or territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 4

The Commission shall reintroduce, by means of a Regulation, the levying of customs duties in respect of any one of the countries and territories referred to in Article 1 (2), under the conditions laid down in Article 3.

By means of a Regulation, the Commission may, even after 31 December 1985, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these limits are exceeded.

SECTION II

Provisions concerning the administration of the Community tariff ceilings allocated among Member States

Article 5

The total suspension of customs duties within the framework of the Community tariff ceilings allocated among the Member States, referred to in Article 1 (1), concerns the categories of products in Annexes I and II, for each of which the volume of the ceiling is specified individually in column 6 of those Annexes with regard to certain beneficiary countries or territories of origin listed in column 5 of the same Annexes.

Article 6

1. The individual Community tariff ceilings referred to in Article 5 shall be allocated in accordance with the following scale:

Benelux	10 %
Denmark	3 %
Germany	28 %
Greece	2 %
France	18 %
Ireland	1 %
Italy	15 %
United Kingdom	23 %

2. Each Member State shall determine its own share by applying the appropriate percentage to the volumes indicated in column 6 of Annexes I and II, rounding up the result to the next higher unit (kilogram, piece or pair) if necessary.

3. Without prejudice to the provisions of Article 8, within the framework of the national shares, the levying of normal customs duties shall be reintroduced as soon as possible when the level of each share is reached.

Article 7

Member States shall take all measures necessary to ensure that importers of the products concerned have free access to the shares allocated to them.

Article 8

The Commission shall take all necessary measures to ensure that the Community tariff ceilings allocated among the Member States are observed. When the charges, at Community level, of products originating in each of the countries or territories listed in column 5 of Annex I or II against any of these ceilings reach the corresponding amount specified in column 6 of the abovementioned Annexes, the Commission shall immediately notify the Member States of the date on which, as a result of this fact, the normal tariff is to be reintroduced in respect of the country or territory or the countries or territories in question. This notification shall be published in the *Official Journal of the European Communities*.

Article 9

By 28 February 1986 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of shares still unused at 31 December 1985. Up to the limit of the balance remaining, and at the request of the Mem-

ber States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION III

General provisions

Article 10

The provisions concerning reintroduction of the levying of normal customs duties shall not apply to the countries listed in Annex V.

Article 11

1. Imports of the products in question shall be charged against the national shares and the Community ceilings as and when the products are entered for free circulation and are accompanied by a certificate of origin pursuant to the rules referred to in Article 1 (3).

2. Goods may be charged against a ceiling or admitted under a national share only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. The extent to which the ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

4. Any amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to the volume of the Community ceilings.

Article 12

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between

Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products subject to allocated ceilings, the Member States shall, by the 11th day of each month at the latest, forward to the Commission the list of charges effected during the previous month. In the case of products subject to non-allocated ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the non-allocated ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

Article 13

The Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 14

This Regulation shall enter into force on 1 January 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1984.

For the Council

The President

P. BARRY

COUNCIL REGULATION (EEC) No 3564/84**of 18 December 1984****applying generalized tariff preferences for 1985 in respect of certain agricultural products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products ⁽¹⁾, and in particular Article 12 thereof,

Having regard to the proposal from the Commission ⁽²⁾,

Having regard to the opinion of the European Parliament ⁽³⁾,

Having regard to the opinion of the Economic and Social Committee ⁽⁴⁾,

Whereas, within the context of UNCTAD, the European Economic Community offered to grant tariff preferences on certain processed agricultural products of Chapters 1 to 24 of the Common Customs Tariff which originate in developing countries; whereas the preferential treatment proposed in that offer consists, in respect of certain goods which are subject to the trade arrangements laid down in Regulation (EEC) No 3033/80, of a reduction in the fixed component of the charge applicable to such goods by virtue of that Regulation, and, in respect of products which are subject to the single customs duty, of a reduction in such duty; whereas preferential imports of the products concerned should be effected without quantitative restrictions;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preferences scheme would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas it is desirable therefore that the Community continue to apply generalized tariff preferences, in the context of the conclusions reached in UNCTAD and in accordance with the intentions expressed in the said Committee in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer may be withdrawn wholly or in part at a later stage, thus maintaining the possibility of remedying any unfavourable situations which might arise, including in the African, Caribbean and Pacific States (ACP States) following the implementation of the system;

Whereas experience in the initial period shows that the Community scheme has to an appreciable extent achieved its intended objectives; whereas it is therefore appropriate to maintain its fundamental features, namely a reduction in customs duties without any restriction in the quantities imported for certain agricultural products listed in Annex II, and a reduction in customs duties within the limits of a Community ceiling or tariff quotas for tobacco, cocoa butter, soluble coffee and preserved pineapples;

Whereas, subject to the above conditions, each of these Community tariff quotas or ceilings generally corresponds to the amount applicable in 1982;

Whereas, from 1 January 1981, the Hellenic Republic has applied the Community generalized preferences system in accordance with Article 117 of the 1979 Act of Accession;

Whereas the rates of conversion into national currency of the preferential amounts expressed in ECU are the rates provided for in the Common Customs Tariff;

Whereas in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, the agricultural products listed in Annex IV, originating in the least-developed developing countries which appear in the list in Annex V to this Regulation, should be totally exempt from customs duties;

⁽¹⁾ OJ No L 323, 29. 11. 1980, p. 1.

⁽²⁾ OJ No C 294, 5. 11. 1984, p. 178.

⁽³⁾ OJ No C 337, 17. 12. 1984.

⁽⁴⁾ OJ No C 343, 27. 12. 1984.

Whereas it is necessary to ensure equal and continuous access for all Community importers to the Community tariff quotas and the uninterrupted application of the rate laid down for such quotas to all imports of the products concerned into all Member States until the quotas are used up; whereas the Community nature of the quotas can be respected by apportioning the Community tariff quotas among the Member States; whereas, moreover, to this end and in the context of the utilization system, the actual charges against the quotas may relate only to products which have been entered for free circulation and which are accompanied by a certificate of origin;

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas and to mitigate any inadequacy in the fixed-scale apportionment, the quotas should be divided into two tranches, the first being apportioned among the Member States and the second held as a reserve to cover subsequently the requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve constituted as described tends to avoid making the system of utilization of the quotas excessively rigid, to the detriment of each of the developing countries concerned, and will contribute to achieving the aim already mentioned of improving the generalized preferences system;

Whereas Member States may exhaust their initial shares of the tariff quotas at different rates; whereas to avoid disruption of supplies on this account it should be provided that any Member States which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period;

Whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 50 % of their initial share;

Whereas if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas in the case of the Community tariff ceiling for tobacco, other than Virginia flue-cured type, the objective pursued may be attained by applying a method of administration based on the charging, at Community level, against the abovementioned ceiling, of imports of the product concerned as and when that product is entered for free circulation and is accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties in their entirety as soon as the said ceiling is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas such methods of administration call for close and particularly rapid cooperation between the Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the tariff quotas and ceiling and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties in their entirety when the ceiling is reached;

Whereas it is expedient that the Community should authorize the importation of the products referred to in Annex II, originating in the countries and territories listed in Annex III, subject to the customs duties given in respect of each of them, without quantitative limitations; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods ⁽³⁾;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽⁴⁾, (EEC) No 3065/75 ⁽⁵⁾ and (EEC) No 1736/75 ⁽⁶⁾;

Whereas fisheries products originating in Greenland will, subject to ratification procedures in course, benefit from a free access regime under certain conditions included in a specific EEC-Greenland Fisheries Agreement and connected dispositions, and alternatively, in the event that these conditions are no longer met, will be subject to appropriate measures as concerns their import regime;

Whereas in these conditions it does not appear necessary to include these products in the present Regulation,

HAS ADOPTED THIS REGULATION:

SECTION I

PRODUCTS OF CHAPTERS 1 TO 24 OF THE COMMON CUSTOMS TARIFF IMPORTED WITHOUT QUANTITATIVE LIMITATIONS

Article 1

1. From 1 January to 31 December 1985, Community imports of the products listed in Annex II shall benefit from the customs duties specified for each product.

Imports into Greece of the products referred to above shall be subject to the customs duties established in accordance with Article 117 of the 1979 Act of Accession.

2. The treatment provided for in paragraph 1 shall be enjoyed solely by products originating in the countries and territories listed in Annex III.

For the purposes of the application of this section, the concept of originating products shall be deter-

mined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

3. The products listed in Annex IV originating in the countries listed in Annex V shall be imported into the Community free of customs duties without prejudice to the levying of additional duties which may be applicable in the Common Customs Tariff, indicated by the symbols 'vc', 'ads' or 'adf'.

4. Tequila, Pisco and Singani falling within sub-heading 22.09 C V ex a) of the Common Customs Tariff shall qualify for the preferential system subject to the production of a certificate of authenticity appearing in the certificate of origin and drawn up according to the procedure referred to in the second subparagraph of paragraph 2.

Article 2

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the statistical results for the products entered for free circulation in the reference quarter under a generalized preferential treatment in accordance with the provisions of the present Regulation. These results, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products in Section III subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward the lists of charges to the Commission every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

SECTION II

CEILING FOR UNMANUFACTURED TOBACCOS, OTHER THAN VIRGINIA 'FLUE-CURED' TYPE

Article 3

1. Without prejudice to the provisions of indent 3, from 1 January to 31 December 1985, Common Cus-

toms Tariff duties relating to unmanufactured tobacco, other, falling within subheading 24.01 B of the Common Customs Tariff shall be suspended at 14 % with a minimum charge of 28 ECU per 100 kilograms net weight and a maximum charge of 33 ECU per 100 kilograms net weight.

Imports into Greece of the products referred to above shall be subject to the customs duty established in accordance with Article 117 of the Act of Accession of 1979.

Within the Community ceiling referred to in paragraph 4, Common Customs Tariff duties on imports of raw or unmanufactured tobacco, other than Virginia 'flue-cured' type, falling within subheadings 24.01 ex A and B of the Common Customs Tariff, originating in the countries listed in Annex V shall be totally suspended.

2. This tariff suspension shall apply solely to products originating in the countries and territories listed in Annex III, with the exception of China.

3. Those imports which enjoy exemption from customs duties under other preferential tariff arrangements granted by the Community may not be charged against the ceiling referred to in paragraph 4.

For the purposes of the application of this section, the concept of 'originating products' shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

4. Subject to Articles 4 and 5, this suspension shall be granted for the tobaccos in question up to a Community ceiling of 2 550 tonnes.

Article 4

As soon as the ceiling laid down in Article 3 (4) for Community imports of products originating in all of the countries and territories referred to in Article 3 (2) is reached at Community level, the levying of customs duties on imports of the tobaccos in question from all the countries and territories listed in Annexes III and IV may be reintroduced until the end of the period referred to in Article 3 (1)

By means of a Regulation, the Commission may, even after 31 December 1985, take measures to stop quantities being charged against the ceiling referred to in Article 3 (4), if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), this ceiling is exceeded.

Article 5

1. Imports of the products in question shall be charged against the Community ceiling as and when the tobaccos in question are entered for free circulation and are accompanied by a certificate of origin pursuant to the rules laid down in Article 3 (3).

2. Goods may be charged against the ceiling only if the certificate of origin referred to in paragraph 1 is submitted before the date on which the levying of duties is reintroduced.

3. The extent to which the ceiling has been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

Article 6

SECTION IV

GENERAL PROVISIONS

Article 28

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 9,

10, 14, 15, 19, 20, 24 and 25 and shall, as soon as the information reaches it, inform each State of the extent to which the reserves have been used up.

It shall inform the Member States not later than:

- 21 November 1985, of the amount still in the reserve following any return of shares pursuant to Article 12,
- 15 October 1985, of the amount still in the reserves following any return of shares pursuant to Articles 17 and 27,
- 15 September 1985, of the amount still in the reserve following any return of shares pursuant to Article 22.

It shall ensure that, when an amount exhausting a reserve is drawn, the amount so drawn does not exceed the balance available and shall to this end notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Articles 10, 15, 20 and 25 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community quotas.

Article 29

By 28 February 1986 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1985. Up to the limit of the balances remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the Member States thereof.

Article 30

1. The Member States shall ensure free access to the shares allocated to them for importers of the said goods.
2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the said goods which have been entered for free circulation and which are accompanied by a certificate of origin in accordance with the rules referred to in Articles 8, 13, 18 and 23.

3. Goods shall qualify for a tariff quota only if the certificate of origin referred to in paragraph 2 is submitted before the date on which the levying of duties is reintroduced.

Article 31

Where the Commission so requests, and in any case at least monthly, the Member States shall inform it of imports of the products in question charged against their shares. This information shall show both the value expressed in ECU and the quantity expressed in tonnes.

Article 32

Where the Commission finds that imports of products benefiting from the treatment provided for in Articles 1, 3, 8, 13, 18 and 23 are imported into the Community in quantities or at prices which place or are likely to place Community producers of similar or directly competitive products at a serious disadvantage or create an unfavourable situation in the ACP States, the levying of customs duties applied within the Community may be reintroduced in whole or in part on imports of the products in question from the country or countries or territory or territories which are the cause of such disadvantage. Such measures may also be taken in the event of actual or potential serious disadvantage which is confined to a single region of the Community.

Article 33

1. The Commission may decide, by means of a Regulation, to reintroduce the levying of customs duties for a specified period, in order to ensure that Article 32 is applied.
2. Where action on the part of the Commission is requested by a Member State, the former shall give its decision within a period of not more than 10 working days from the date of receipt of the request and shall inform the Member State of this decision.
3. Each Member State may refer the measure taken by the Commission to the Council within a period of 10 working days following the date on which it was notified. The fact that the matter is referred to the Council shall not cause the measure to be suspended. The Council shall meet immediately. It may, acting on a qualified majority, amend or rescind the measure in question.

Article 34

Articles 32 and 33 shall prejudice neither the application of the safeguard clauses adopted under the common agricultural policy pursuant to Article 43 of the Treaty nor those adopted under the common commercial policy pursuant to Article 113 of the Treaty.

Article 35

Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 36

This Regulation shall enter into force on 1 January 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1984.

THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COM-
MUNITY, MEETING WITHIN THE COUNCIL,**

of 18 December 1984

**applying for 1985 the generalized tariff preferences for certain steel products originating
in developing countries**

(84/637/ECSC)

THE REPRESENTATIVES OF THE
GOVERNMENTS OF THE MEMBER STATES OF
THE EUROPEAN COAL AND STEEL
COMMUNITY, MEETING WITHIN THE COUNCIL,

In agreement with the Commission,

HAVE DECIDED AS FOLLOWS:

Article 1

1. From 1 January to 31 December 1985, the customs duties applicable to the products listed in Annexes I and II shall be totally suspended within the framework of tariff quotas and ceilings.

Imports into Greece of the products referred to above shall be subject to the customs duties established in accordance with Article 117 of the Act of Accession of 1979.

2. The arrangements provided for in paragraph 1 shall apply solely:

- in all customs areas of the Community, to each of the countries or territories listed in column 4 of Annex I against each category of products listed in columns 2 and 3,
- in the Community, to each of the other countries or territories listed in Annex III, with the exception of Yugoslavia, for the same categories of products,
- in the Community, to each of the countries or territories listed in Annex III for the other categories of products in Annex II.

3. Preferential entry as provided for in this Decision shall be subject to conformity with the definition of the origin of products determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68⁽¹⁾. However, the Community preference arrangements applicable to Yugoslavia shall result exclusively from the provi-

sions contained in the Agreement with that country concerning ECSC products⁽²⁾; consequently, for products submitted under the said Agreement to Community tariff ceilings or listed in Annex I to this Decision, the movement certificate EUR.1 shall be deemed the only documentary evidence for the granting of tariff preferences.

4. The Community tariff quotas and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

**Provisions concerning the administration of the
Community tariff quotas relating to products listed in
Annex A**

Article 2

The total suspension of customs duties within the limits of the Community tariff quotas referred to in Article 1 (1) shall be accorded to each country or territory listed in column 4 of Annex I in respect of the products indicated against its name in columns 2 and 3 together with details in column 5 of the amount of the individual quotas.

Article 3

1. The Member States shall administer their tariff quotas in accordance with their own provisions.

2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the goods in question which have been entered for free circulation, on the basis of the customs value of the said goods, and which are accom-

panied by a certificate of origin in accordance with the rules referred to in Article 1 (2).

Article 4

Each Member State shall reintroduce the levying of duties which have been suspended in respect of a country or territory listed in column 4 of Annex I as soon as it finds that the charges against its national quota of the products concerned originating in that country or territory have reached the amount laid down in column 6 of Annex A.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to the products listed in Annexes A and B

Article 5

Subject to Articles 6 and 7, the preferential tariff ceiling arrangements shall be accorded:

- for products in Annex I, to each of the countries or territories listed in Annex III, other than those which may be listed in column 4 of Annex I, within the limits of the amounts specified in column 7 of Annex I, against each category of products,
- for products in Annex II, to the countries or territories listed in Annex III, considered individually, within the limits of a Community ceiling equal to the highest maximum amount valid for 1980 under each of the preferential ceilings opened for that year. The individual ceiling thus established shall be increased by 2 % to take account of the application by Greece of Community tariff preferences.

Article 6

1. As soon as the individual ceilings fixed or calculated in accordance with the provisions of Article 5, which are laid down for imports into the Community, under the conditions which it shall determine, of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the Member States may at any time, at the request of any one of them or of the Commission and in respect of the whole of the Community, reintroduce the levying of the corresponding duties on imports of the products in question from each of the countries or territories concerned until the end of the period referred to in Article 1 (1).

2. Within the framework of the foregoing provisions, the Commission shall coordinate the procedures for reintroducing normal customs duties, in particular by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be pub-

lished in the *Official Journal of the European Communities*.

3. However, paragraphs 1 and 2 shall not apply to the countries listed in Annex IV.

Article 7

The extent to which ceilings have been used up shall be determined at Community level on the basis of imports charged in the manner laid down in Article 8 (1) and (2).

SECTION III

General provisions

Article 8

1. Imports of the products in question shall be charged against the quota shares and Community ceilings as and when the products are entered for free circulation, on the basis of the customs value of the said products, and are accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (2).

2. Goods may be charged against a ceiling or admitted under a tariff quota only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. For the purposes of the application of this Decision, the value of the ECU, in which the preferential amounts are expressed, and the rate of conversion into national currencies shall be that provided for in the Common Customs Tariff.

4. An amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to Community tariff quotas or ceilings.

Article 9

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Decision. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Council Regulation (EEC) No 1736/75 ⁽¹⁾.

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the

⁽¹⁾ Entry under this subheading is subject to the conditions to be determined by the competent authorities.

In the case of products of Annex A subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward the lists of charges to the Commission every 10 days; these lists shall be forwarded within five days of the end of each 10-day period.

Article 10

The Member States shall, in close cooperation with the Commission, take all necessary measures to ensure that this Decision is applied.

Article 11

The Member States shall take all measures necessary for the implementation of this Decision.

Article 12

This Decision shall enter into force on 1 January 1985.
