of 7 January 1985

on the natural alcoholic strength by volume of Prosecco di Conegliano Valdobbiadene produced during the 1984/85 wine year and on the total alcoholic strength by volume of the cuvées used to produce it

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 338/79 of 5 February 1979 laying down special provisions relating to quality wines produced in specified regions⁽¹⁾, as last amended by Regulation (EEC) No 3687/84⁽²⁾, and in particular Article 7 (2) and the second subparagraph of Article 8 (6) thereof,

Whereas Article 7 (2) of Regulation (EEC) No 338/79 allows for derogations to be granted in regard to the minimum alcoholic strength fixed by the Member States for quality wines psr; whereas the second subparagraph of Article 8 (5) of the said Regulation specifies that cuvées intended for the preparation of certain quality sparkling wines psr, the designation of which refers to a variety of vine, may have a total alcoholic strength by volume below that stipulated;

Whereas the weather in the 1984/85 wine year has been particularly damaging to the Prosecco vine variety in wine-growing zone C II; whereas as a result the cuvées for the production of quality sparkling wines psr made from grapes of this variety do not reach the minimum total alcoholic strength by volume of 9 % specified in the first subparagraph of Article 8 (5) of Regulation (EEC) No 338/79; whereas in order to prevent serious losses to the producers in question a lower minimum total alcoholic strength by volume

should be fixed for cuvées for the wine year in question and the Member State concerned should be allowed to fix for the quality sparkling wines psr produced from them a minimum natural alcoholic strength by volume lower than that laid down in Article 7 (2) of Regulation (EEC) No 338/79;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:

Article 1

For production during the 1984/85 wine year:

- the minimum natural alcoholic strength by volume of the quality sparkling wine psr 'Prosecco di Conegliano Valdobbiadene', including wine of the sub-designation 'Prosecco di Cartizze', may, by way of derogation from Article 7 (2) of Regulation (EEC) No 338/79, be set by Italy at a level lower than 9,5 % vol but not lower than 8 % vol,
- the minimum total alcoholic strength by volume of the cuvées for the production of this quality sparkling wine psr is fixed at 8 % vol.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

SUB-CONTRACTING TERMINOLOGY

Metal sector — Second edition

The main objective of this terminology is to promote sub-contracting at both national and international level by offering industry in general, and small firms in particular, a harmonized nomenclature enabling them to describe their sub-contracting activities in nine different languages.

It includes definitions of the categories of product, production machinery and main-contractor's products with the equivalents in the other languages covered.

This terminology is a useful multilingual technical guide for sub-contractors and main-contractors who wish to establish contact. It can also serve as a basic classification for any organization interested in a systematic catalogue of the sub-contracting sector.

The terminology is sub-divided into four parts:

Part A: Nomenclature of sub-contract products

Part A is an eight-chapter catalogue of categories of product offered by sub-contractors which can be used to describe the products manufactured by a given sub-contractor and the degree of technical complexity which the sub-contractor can offer.

Part B: Nomenclature of operations and production machinery

This part, likewise divided into eight chapters, is a survey of operations and production machinery used in the sub-contracting sector. It gives some idea of the characteristics of the basic material used, the production methods available and the degree of precision which sub-contractors can offer.

Part C: Nomenclature of main contractor's products

This part is based on the Common Nomenclature of Industrial Products (NIPRO) published by the Statistical Office of the European Communities. It lists the products manufactured by main contractors and identifies the sectors in which a firm has carried out sub-contracting work in the past.

Part D: Company file card

The company file card sums up all the information given in Parts A, B and C in a readily-intelligible form designed to allow a choice to be made of the sub-contractors best equipped to carry out a given order. What is more, it gives an idea of the sub-contractor's capabilities, production machinery and experience.

Guide to the provisions applying to the international carriage of passengers by road by means of occasional coach and bus services

This practical guide for transport firms is intended to bring about an improvement in the understanding and application of the provisions governing most of the occasional international coach and bus services in Western Europe.

The guide — which contains practical examples — makes a comparative analysis of the rules to which these services are subject under Community rules and the rules established by the Agreement on the International Carriage of Passengers by Road by means of Occasional Coach and Bus Services (ASOR).
