COUNCIL REGULATION (EEC) No 2107/85**of 23 July 1985**

relating to the conclusion of the Protocol between the European Economic Community and the Portuguese Republic concerning the arrangements for the progressive liberalization of imports of motor vehicles into Portugal from the Community

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas approval shall be given to the Protocol between the European Economic Community and the Portuguese Republic concerning the arrangements for the progressive liberalization of imports of motor vehicles into Portugal from the Community, signed at Brussels on 5 June 1985,

HAS ADOPTED THIS REGULATION:

Article 1

The Protocol between the European Economic Community and the Portuguese Republic concerning

the arrangements for the progressive liberalization of imports of motor vehicles into Portugal from the Community is hereby approved on behalf of the Community.

The text of the Protocol is attached to this Regulation.

Article 2

The President of the Council shall give the notifications provided for in Article 7 of the Protocol ⁽¹⁾.

Article 3

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 July 1985.

For the Council

The President

J. POOS

⁽¹⁾ The date of entry into force of the Protocol will be published in the *Official Journal of the European Communities* by the General Secretariat of the Council.

PROTOCOL

between the European Economic Community and the Portuguese Republic concerning the arrangements for the progressive liberalization of imports of motor vehicles into Portugal from the Community

THE EUROPEAN ECONOMIC COMMUNITY

of the one part, and

THE PORTUGUESE REPUBLIC

of the other part,

TAKING INTO ACCOUNT the guidelines agreed in the Supplementary Protocol concerning the special treatment applicable to imports of motor vehicles into Portugal and to the Portuguese motor vehicle assembly industry,

HAVE DECIDED to conclude this Protocol concerning the arrangements for the progressive liberalization of imports of motor vehicles into Portugal from the Community:

Article 1

Portugal shall be authorized to retain until 31 December 1987 the arrangements set out in the following Articles applicable to the assembly and importation of motor vehicles for the transport of persons, goods or materials, falling within heading No 87.02 of the Brussels Nomenclature.

Article 2

1. From 1 January 1985, Portugal shall open the annual import quotas given in Annex I for motor vehicles (CBU) originating in the Community, having a kerb weight of less than 3 500 kilograms.
2. The Joint Committee may amend the list given in Annex I.
3. From 1 January 1985, Portugal shall open an annual quota for the import of motor vehicles (CBU) originating in the Community and having a kerb weight of less than 3 500 kilograms, other than those mentioned in the list given in Annex I, as hereinafter specified:

<i>Timetable</i>	<i>Annual quotas</i>
1 January 1985	340 units
1 January 1986	400 units
1 January 1987	500 units

No one make of vehicle may be granted more than one quarter of the volume of the quota.

However, each make of vehicle shall be entitled to a minimum quota of 20 units.

Article 3

Portugal shall open the following annual import quotas for motor vehicles (CBU) originating in the Community and having a kerb weight of more than 3 500 kilograms, as hereinafter specified:

Timetable

1 January 1985
1 January 1986
1 January 1987

Annual quotas

500 units
600 units
700 units

Article 4

1. For motor vehicles (CKD) of a kerb weight of less than 2 000 kilograms for the transport of persons (subheading 87.06 A), Portugal shall allocate quotas for the individual Community makes of vehicle at the beginning of each year. These shall be fixed by reference to the basic quotas granted in 1984 as set out in Annex II.

2. The quotas for Community makes of vehicle shall be updated each year through the application of a weighting to compensate for the increase in prices in Portugal and the trend of manufacturing costs for motor vehicles (CKD).

The sum of quotas for all makes of vehicle (Community and non-Community makes alike) shall be fixed at the equivalent in terms of constant escudo prices of 39 000 motor vehicles for 1985, 41 500 motor vehicles for 1986 and 44 000 motor vehicles for 1987.

3. Annual quotas by make of vehicle and all data relating thereto shall be communicated to the Community at the appropriate time.

4. The use of quotas by make of vehicle allocated by reference to basic quotas shall be free for up to 87% of the amount in 1985, 90% in 1986 and 93% in 1987. Use of the remaining quotas by make of vehicle shall be subject to exports of motor vehicles or components on the basis of the Portuguese value-added input in respect of those exports.

Article 5

1. Exporters having already used up the basic quotas granted to them pursuant to Article 4 shall be allocated

additional CKD quotas during the year on the basis of the Portuguese value-added input in respect of exported motor vehicles or components.

The additional quotas thus allocated shall be weighted by reference to the coefficients given in Annex III.

2. Portugal hereby states its readiness, should the need arise, to fix, at a later stage and by mutual agreement with the Community, a ceiling for each make of vehicle equal to a percentage of the total of the basic quotas allocated for all makes.

Article 6

The quotas fixed in Articles 4 and 5 may be used for the import of either CKD or CBU motor vehicles.

Article 7

1. This Protocol shall be subject to ratification, acceptance or approval in accordance with the Contracting Parties' own procedures and the Parties shall notify one another when the procedures necessary to this end have been completed.

2. This Protocol shall enter into force on the first day of the month following the date on which the Contracting Parties have notified each other in accordance with paragraph 1.

Article 8

This Protocol shall be drawn up in duplicate in the Danish, Dutch, English, French, German, Greek, Italian and Portuguese languages, each text being equally authentic.

COUNCIL REGULATION (EEC) No 2108/85**of 23 July 1985****concerning the conclusion of the Pre-Accession Protocol to the Agreement between the European Economic Community and the Portuguese Republic**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas approval should be given to the Pre-Accession Protocol to the Agreement between the European Economic Community and the Portuguese Republic, signed at Brussels on 5 June 1985,

HAS ADOPTED THIS REGULATION:

Article 1

The Pre-Accession Protocol to the Agreement between the European Economic Community and the Portu-

guese Republic and the attached exchanges of letters are hereby approved on behalf of the Community.

The text of the acts referred to in the first paragraph is attached to this Regulation.

Article 2

The President of the Council shall give the notifications provided for in Article 9 of the Protocol ⁽¹⁾.

Article 3

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 July 1985.

*For the Council**The President*

J. POOS

⁽¹⁾ The date of entry into force of the Protocol will be published in the *Official Journal of the European Communities* by the General Secretariat of the Council.

PRE-ACCESSION PROTOCOL**to the Agreement between the European Economic Community and the Portuguese Republic**

THE EUROPEAN ECONOMIC COMMUNITY,

of the one part, and

THE PORTUGUESE REPUBLIC,

of the other part,

TAKING INTO ACCOUNT the guidelines agreed on in the Transitional Protocol,

AWARE of the need to establish certain tariff figures before the accession of the Portuguese Republic to the Communities,

HAVE DECIDED to conclude this Pre-Accession Protocol:

Article 1

The Agreement between the European Economic Community and the Portuguese Republic signed on 22 July 1972, hereinafter called 'the Agreement', shall be supplemented by the following provisions.

Article 2

By way of derogation from the Agreement, Portugal may suspend until 31 December 1985 the dismantling of tariffs *vis-à-vis* the Community at the level reached on 31 December 1984 in respect of the products specified in lists I, II and III of this Protocol.

Article 3

1. By way of derogation from the Agreement, Portugal shall be authorized to introduce from 1 January 1985, for products originating in the Community, a 65% ad valorem customs duty for those specified in list IV of this Protocol and a 15% ad valorem customs duty for those specified in list V of this Protocol.

2. Portugal undertakes to abolish, when the customs duties referred to in paragraph 1 are introduced, in respect of the products specified in lists IV and V of this Protocol, the import surcharge arrangements, the fiscal component of the customs duties and specific residual customs duties.

Article 4

1. By way of derogation from Article 6 (1) of Protocol 1 to the Agreement, and in so far as Portugal's industrialization and development necessitate protective measures, the Joint Committee may authorize Portugal, until 31 December 1985 and subject to the exchange of letters concluded between the Community and Portugal on this matter, to introduce, increase or reintroduce ad valorem customs duties not exceeding 20%, account being taken of paragraphs 2 and 3 of the said Article 6.

Article 7 of the Supplementary Protocol to the Agreement is hereby extended until 31 December 1985.

2. By way of derogation from Article 6 (3) of Protocol 1 to the Agreement, Portugal shall be authorized to maintain, until 31 December 1985, the tariff arrangements for products in respect of which customs duties have been applied, increased or reintroduced under the new industries clause.

Article 5

For the products specified in lists I and III of this Protocol and those referred to in Articles 3 and 4, Portugal shall no longer apply the import surcharge and quota arrangements.

Article 6

This Protocol shall not affect the Protocol to the Agreement between the European Economic Community and the Portuguese Republic consequent upon the accession of the Hellenic Republic, and in particular Article 9 thereof.

Article 7

As from the entry into force of this Protocol, the trade arrangements applied by Portugal to the products covered by the Agreement, originating in the Community, may in no case be less favourable than those applied to products originating in the most-favoured third State, with the exception, however, of the products originating in the Community and referred to in Protocol 2 to the Agreement and not included in lists IV and V of this Protocol.

Article 8

During 1985 the Contracting Parties may examine, in accordance with the procedure adopted for negotiating the Agreement, the arrangements applicable to the imports into Portugal referred to in Articles 2, 3 and 4.

Article 9

1. This Protocol shall be subject to ratification, acceptance or approval in accordance with the Contracting Parties' own procedures and the Parties shall notify one another when the procedures necessary to this end have been completed.

2. This Protocol shall enter into force on the first day of the month following the date on which the

Contracting Parties have notified each other in accordance with paragraph 1.

3. This Protocol shall expire on 31 December 1985.

Article 10

This Protocol shall be drawn up in duplicate in the Danish, Dutch, English, French, German, Greek, Italian and Portuguese languages, each text being equally authentic.

LIST I

Portuguese Customs Tariff heading No	Description
29.44	Antibiotics: C. Other antibiotics: ex II. Tetracyclins: — Oxytetracyclin III. Other antibiotics: a) Erythromycin
39.01	Condensation, polycondensation and polyaddition products, whether or not modified or polymerized, and whether or not linear (for example phenoplasts, aminoplasts, alkyds, polyallyl esters and other unsaturated polyesters, silicones): C. Other: I. Phenoplasts: b) In other forms: ex 1. In one of the forms mentioned in note 3 (d) to this chapter: — Plates, sheets and strip, rigid, weighing more than 160 g/m ² , whether or not printed — Other plates, sheets and strip weighing more than 160 g/m ² , not printed II. Aminoplasts: b) In other forms: 1. In one of the forms mentioned in note 3 (d) to this chapter: aa) Laminated: ex 11. High pressure laminates with a decorative surface on one or both sides: — Plates, sheets and strip, rigid, weighing more than 160 g/m ² , whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m ² , not printed ex 22. Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m ² , whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m ² , not printed ex bb) Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m ² , whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m ² , not printed III. Alkyds and other polyesters: a) In one of the forms mentioned in note 3 (d) to this chapter: ex 1. Corrugated sheets and plates: — Rigid, weighing more than 160 g/m ² , whether or not printed — Other, weighing more than 160 g/m ² , not printed

Portuguese Customs Tariff heading No	Description
39.01 (continued)	ex 2. Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m², not printed IV. Polyamides: ex b) In one of the forms mentioned in note 3 (d) to this chapter: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m², not printed V. Polyurethanes: b) In other forms: ex 1. Expanded foam or sponge: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed — Plates, sheets and strip, not rigid nor spongy, weighing more than 160 g/m², not printed ex 2. Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m², not printed VI. Silicones: — Plates, sheets and strip, weighing more than 160 g/m², not printed VII. Other: a) Epoxide (ethoxyline) resins: ex 2. In other forms: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m², not printed b) Other: ex 2. In other forms: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed — Other plates, sheets and strip, weighing more than 160 g/m², not printed
39.02	Polymerization and copolymerization products (for example, polyethylene, polytetrahaloethylenes, polyisobutylene, polystyrene, polyvinyl chloride, polyvinyl acetate, polyvinyl chloroacetate and other polyvinyl derivatives, polyacrylic and polymethacrylic derivatives, coumarone-indene resins): C. Other: I. Polyethylene: b) In other forms: ex 2. In one of the forms mentioned in note 3 (d) to this chapter: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex II. Polytetrahaloethylenes: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed

Portuguese Customs Tariff heading No	Description
39.02 (continued)	ex III. Polysulphohaloethylenes: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed IV. Polypropylene: ex b) In one of the forms mentioned in note 3 (d) to this chapter: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex V. Polyisobutylene: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed VI. Polystyrene and copolymers of styrene: ex b) In other forms: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed VII. Polyvinyl chloride: ex a) In one of the forms mentioned in note 3 (a) and (b) to this chapter: — Moulding products ex b) In other forms: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex VIII. Polyvinylidene chloride, copolymers of vinylidene chloride with vinyl chloride: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex IX. Polyvinyl acetate: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex X. Copolymers of vinyl chloride with vinyl acetate: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex XI. Polyvinyl alcohols, acetals and ethers: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex XII. Acrylic polymers, methacrylic polymers and acrylomethacrylic polymers: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed XIV. Other polymerization or copolymerization products: ex b) In other forms: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed
39.03	Regenerated cellulose; cellulose nitrate, cellulose acetate and other cellulose esters, cellulose ethers and other chemical derivatives of cellulose, plasticized or not (for example, collodions, celluloid); vulcanized fibre: B. Other: I. Regenerated cellulose: b) Other: ex 1. Sheets, film or strip, coiled or not, of a thickness or less than 0,75 mm: — Sheets and strip, rigid, weighing more than 160 g/m², whether or not printed

Portuguese Customs Tariff heading No	Description
39.03 (continued)	ex 2. Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed II. Cellulose nitrates: b) Plasticized: 1. With camphor or otherwise (for example, celluloid): ex aa) Films in rolls or in strips, for cinematography or photography: — Of celluloid — Other, rigid, weighing more than 160 g/m², whether or not printed ex bb) Other: — Plates, sheets, strip and tubes of celluloid — Other plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed III. Cellulose acetates: b) Plasticized: ex 2. Film in rolls or in strips, for cinematography or photography: — Rigid, weighing more than 160 g/m², whether or not printed 4. Other: ex bb) Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed IV. Other cellulose esters: b) Plasticized: ex 2. Film in rolls or in strips for cinematography or photography: — Rigid, weighing more than 160 g/m², whether or not printed 4. Other: ex bb) Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed V. Cellulose ethers and other chemical derivatives of cellulose: b) Plasticized: 2. Other: ex aa) Ethylcellulose: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed ex bb) Other: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed VI. Vulcanized fibre: — Plates, sheets and strip, rigid, weighing more than 160 g/m², whether or not printed
40.10	Transmission, conveyor or elevator belts or belting, of vulcanized rubber: ex A. Conveyor or elevator belts or belting, excluding those of trapezoidal cross-section ex C. Other transmission belts or belting, excluding those of trapezoidal cross-section

Portuguese Customs Tariff heading No	Description
44.14	Wood sawn lengthwise, sliced or peeled but not further prepared, of a thickness not exceeding 5 mm; veneer sheets and sheets for plywood, of a thickness not exceeding 5 mm
55.06	Cotton yarn, put up for retail sale
56.01	Man-made fibres (discontinuous), not carded, combed or otherwise prepared for spinning: ex A. Synthetic textile fibres, excluding polyester
56.02	Continuous filament tow for the manufacture of man-made fibres (discontinuous): ex A. Of synthetic textile fibres, excluding polyester
56.03	Waste (including yarn waste and pulled or garnetted rags) of man-made fibres (continuous or discontinuous), not carded, combed or otherwise prepared for spinning: A. Of synthetic textile fibres
56.04	Man-made fibres (discontinuous or waste), carded, combed or otherwise prepared for spinning: ex A. Synthetic textile fibres, excluding polyester
68.06	Natural or artificial abrasive powder or grain, on a base of woven fabric, of paper, of paperboard or of other materials, whether or not cut to shape or sewn or otherwise made up
69.02	Refractory bricks, blocks, tiles and similar refractory constructional goods, other than goods falling within heading No 69.01
70.14	Illuminating glassware, signalling glassware and optical elements of glass, not optically worked nor of optical glass: A. Articles for electrical lighting fittings: ex I. Facetted glass, plates, balls, pear-shaped drops, flower-shaped pieces, pendants and similar articles for trimming chandeliers: — Of coloured, matt, engraved, irisated, cut, marbled, opaque, opaline or painted glass or of moulded glass with hollows or protruding parts ex II. Other (for example, diffusers, ceiling lights, bowls, cups, lampshades, globes, tulip-shaped pieces): — Lamp glasses — Other, of coloured, matt, engraved, irisated, cut, marbled, opaque, opaline or painted glass or of moulded glass with hollows or protruding parts ex B. Other: — Of coloured, matt, engraved, irisated, cut, marbled, opaque, opaline or painted glass or of moulded glass with hollows or protruding parts
73.25	Stranded wire, cables, cordage, ropes, plaited bands, slings, and the like, of iron or steel wire, but excluding insulated electric cables: A. With fittings attached, or made up into articles for use in civil aircraft ex B. Other, to the exclusion of track cables, of fully locked or half-locked construction, for telepherics and reinforcing cables for prestressed concrete
73.35	Springs and leaves for springs, of iron or steel: — Flat spiral springs of round wire or rod exceeding 8 mm in diameter, or of square or rectangular bar the smallest dimension of which exceeds 8 mm

Portuguese Customs Tariff heading No	Description
74.07	Tubes and pipes and blanks therefor, of copper; hollow bars of copper, excluding those unworked or painted, varnished, enamelled or otherwise treated (including Mannesmann tubes and tubes obtained by swaging), whether or not with sockets or flanges, but not otherwise worked, of a wall-thickness of more than 1 mm
74.19	Other articles of copper, excluding pins, scarf-rings and hairpins, other than ornamental, thimbles and fittings for belts, corsets and braces, chain and parts thereof, and reservoirs, tanks, vats and similar containers, for any material (other than compressed or liquefied gas), of copper, of a capacity exceeding 300 litres, whether or not lined or heat-insulated, but not fitted with mechanical or thermal equipment
76.04	Aluminium foil (whether or not embossed, cut to shape, perforated, coated, printed, or backed with paper or other reinforcing material), of a thickness (excluding any backing) not exceeding 0,20 mm
82.01	Hand tools, the following: spades, shovels, picks, hoes, forks and rakes; axes, bill hooks and similar hewing tools; scythes, sickles, hay knives, grass shears, timber wedges and other tools of a kind used in agriculture, horticulture or forestry — Spades, hoes, forks, rakes, scrapers, scythes and sickles
82.02	Saws (non-mechanical) and blades for hand or machine saws (including toothless saw blades): A. Saws (non-mechanical) B. Saw blades: I. Bandsaw blades ex III. Other: — Non-mechanical excluding circular saw blades (including slitting and slotting saw blades)
ex 82.04	Hand tools, including glaziers' diamonds, not falling within any other heading in this Chapter; blow lamps, anvils; vices and clamps, other than accessories for, and parts of, machine tools; portable forges; grinding wheels with frameworks (hand or pedal operated): — Hammers, mortice chisels, stone chisels, heading chisels, centre-punches and chasing chisels
82.05	Interchangeable tools for hand tools, for machine tools or for power-operated hand tools (for example, for pressing, stamping, drilling, tapping, threading, boring, broaching, milling, cutting, turning, dressing, morticing or screw driving), including dies for wire drawing, extrusion dies for metal, and rock drilling bits with a working part of: ex A. Base metal: — Chisels ex B. Metal carbides: — Chisels ex C. Diamond or agglomerated diamond: — Chisels ex D. Other materials: — Chisels
83.01	Locks and padlocks (key, combination or electrically operated), and parts thereof, of base metal; frames incorporating locks, for handbags, trunks or the like, and parts of such frames, of base metal; keys for any of the foregoing articles, of base metal

Portuguese Customs Tariff heading No	Description
83.02	Base metal fittings and mountings of a kind suitable for furniture, doors, staircases, windows, blinds, coachwork, saddlery; trunks, caskets and the like (including automatic door closers); base metal hat-racks, hat-pegs, brackets and the like
83.13	Stoppers, crown corks, bottle caps, capsules, bung covers, seals and plombs, case corner protectors and other packing accessories, of base metal
83.15	Wire, rods, tubes, plates, electrodes and similar products, of base metal or of metal carbides, coated or cored with flux material, of a kind used for soldering, brazing, welding or deposition of metal or of metal carbides; wire and rods, of agglomerated base metal powder, used for metal spraying
84.06	Internal combustion piston engines: C. Other engines: I. Spark ignition engines of a cylinder capacity of: a) 250 cm³ or less: ex 1. For use in civil aircraft — Of a power of 25 kW or less ex 2. Other, of a power of 25 kW or less, excluding motors for cycles of a cylinder capacity of not less than 50 cm³ b) More than 250 cm³: ex 1. For the industrial assembly of: agricultural walking tractors of subheading 87.01 A, motor vehicles for the transport of persons, including vehicles designed for the transport of both passengers and goods, with a seating capacity of less than 15, motor vehicles for the transport of goods or materials, with an engine of a cylinder capacity of less than 2 800 cm³, special purpose motor vehicles of heading No 87.03: — Of a power of 25 kW or less 2. Other: ex aa) For use in civil aircraft — Of a power of 25 kW or less ex bb) Other: — Of a power of 25 kW or less II. Compression ignition engines: ex a) Marine propulsion engines: — Of a power of 25 kW or less b) Other: ex 1. For the industrial assembly of: agricultural walking tractors of subheading 87.01 A, motor vehicles for the transport of persons, including vehicles designed for the transport of both passengers and goods, with a seating capacity of less than 15, motor vehicles for the transport of goods or materials, with an engine of a cylinder capacity of less than 2 500 cm³, special purpose motor vehicles of heading No 87.03: — Of a power of 25 kW or less ex 2. Other: — Of a power of 25 kW or less D. Parts ex I. Of engines for use in civil aircraft: — Wet and dry cylinder liners, gudgeon pins, pistons and piston rings

Portuguese Customs Tariff heading No	Description
84.06 (continued)	II. Of other engines: ex a) For aircraft: — Wet and dry cylinder liners, gudgeon pins, pistons and piston rings ex b) Other: — Wet and dry cylinder liners, gudgeon pins, pistons and piston rings
84.15	Refrigerators and refrigerating equipment (electrical or other): ex A. Refrigerators and refrigerating equipment (excluding parts thereof), for use in civil aircraft, excluding apparatus mounted on a common base or with interdependent elements, for refrigerating cabinets, cabinets and other furniture imported with their respective refrigerating units C. Other: ex II. Other, excluding apparatus mounted on a common base or with interdependent elements, for refrigerating cabinets, cabinets and other furniture imported with their respective refrigerating units, and also parts
ex 84.20	Weighing machinery (excluding balances of a sensitivity of 5 cg or better), including weight-operated counting and checking machines; weighing machine weights of all kinds: — Balances, including scales, automatic or semi-automatic, weighing not more than 250 kg each, excluding parts
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23: B. Other: ex I. Machinery and mechanical appliances specially designed for dealing with highly radioactive substances (<i>Euratom</i>): — Cranes, derricks, locomotive or wagon traversers and mobile lifting frames, excluding parts ex II. Self-propelled cranes on wheels, not capable of running on rails, excluding parts ex IV. Other: — Cranes, derricks, locomotive or wagon traversers, and mobile lifting frames, excluding parts
84.45	Machine-tools for working metal, or metal carbides, not being machines falling within heading No 84.49 or 84.50: C. Other machine-tools: I. Lathes: a) Automated by coded information: ex 1. Parallel lathes, multi-tool lathes, copying lathes: — Parallel lathes, weighing not more than 2 000 kg each

Portuguese Customs Tariff heading No	Description
84.45 (continued)	b) Other: ex 1. Parallel lathes, multi-tool lathes, copying lathes: — Parallel lathes weighing not more than 2 000 kg each III. Planing machines: ex a) Automated by coded information: — Weighing not more than 2 000 kg each ex b) Other: — Weighing not more than 2 000 kg each IV. Shaping machines, sawing machines and cutting-off machines, broaching machines and slotting machines: ex a) Automated by coded information: — Shaping machines and sawing machines weighing not more than 2 000 kg each b) Other: ex 1. Shaping machines and slotting machines: — Shaping machines weighing not more than 2 000 kg each ex 3. Sawing machines and cutting-off machines: — Sawing machines weighing not more than 2 000 kg each V. Milling machines and drilling machines: a) Automated by coded information: 2. Drilling machines: ex aa) Radial: — Weighing not more than 2 000 kg each ex bb) Other: — Weighing not more than 2 000 kg each b) Other: 2. Drilling machines: ex aa) Radial: — Weighing not more than 2 000 kg each ex bb) Other: — Weighing not more than 2 000 kg each VI. Sharpening, trimming, grinding, honing and lapping, polishing or finishing machines and similar machines operating by means of grinding wheels, abrasives or polishing products: a) Fitted with a micrometric adjusting system within the meaning of additional note 2 to this chapter: 1. Automated by coded information: ex bb) Other: — Saw-sharpening machines weighing not more than 2 000 kg each 2. Other: ex bb) Other: — Saw-sharpening machines weighing not more than 2 000 kg each b) Other: ex 1. Automated by coded information: — Saw-sharpening machines weighing not more than 2 000 kg each ex 2. Other: — Saw-sharpening machines weighing not more than 2 000 kg each

Portuguese Customs Tariff heading No	Description
ex 84.47	Machine-tools for working wood, cork, bone, ebonite (vulcanite), hard artificial plastic materials or other hard carving materials, other than machines falling within heading No 84.49, excluding hydraulic presses weighing not more than 5 000 kg each and mechanical presses weighing not more than 1 000 kg each
84.51	Typewriters, other than typewriters incorporating calculating mechanisms; cheque-writing machines: A. Typewriters
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of this chapter: ex A. For the manufacture of the products mentioned in subheading 28.51 A (<i>Euratom</i>): — Hydraulic presses weighing not more than 2 000 kg each ex C. Specially designed for the recycling of irradiated nuclear fuels (for example, sintering of radio-active metal oxides, sheathing) (<i>Euratom</i>): — Hydraulic presses, weighing not more than 2 000 kg each E. Other: ex II. Other machines and mechanical appliances: — Hydraulic presses, weighing not more than 2 000 kg each
84.60	Moulding boxes for metal foundry; moulds of a type used for metal (other than ingot moulds), for metal carbides, for glass, for mineral materials (for example, ceramic pastes, concrete or cement) or for rubber or artificial plastic materials: ex B. Moulds: — For mechanical processes
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves: ex A. Pressure reducing valves, excluding those of iron or steel ex B. Other, excluding those of iron or steel
84.62	Ball, roller or needle roller bearings: ex A. Bearings: — With a single row of balls, from which the balls cannot be removed manually, or in which the row of balls is not separable, or in which the faces of the rings are aligned in the same plane of an external diameter exceeding 36 mm but not exceeding 72 mm
85.13	Electrical line telephonic and telegraphic apparatus (including such apparatus for carrier-current line systems): ex A. Apparatus for carrier-current line systems: — Telephonic apparatus, excluding telephonic apparatus (telephone sets and receivers) and parts ex B. Other: — Telephonic apparatus, excluding telephonic apparatus (telephone sets and receivers) and parts

Portuguese Customs Tariff heading No	Description
90.16	Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, drawing-sets, slide rules, disc calculators and the like; measuring or checking instruments, appliances and machines, not falling within any other heading of this chapter (for example, micrometers, callipers, gauges, measuring rods, balancing machines); profile projectors: ex A. Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, slide rules, disc calculators and the like: — Drawing-sets, extension pieces for compasses, compasses, drawing pens and similar instruments
90.24	Instruments and apparatus for measuring, checking or automatically controlling the flow, depth, pressure or other variables of liquids or gases, or for automatically controlling temperature (for example, pressure gauges, thermostats, level gauges, flow meters, heat meters, automatic overdraught regulators), not being articles falling within heading No 90.14: ex A. For use in civil aircraft: — Pressure gauges B. Other: I. Pressure gauges
90.28	Electrical measuring, checking, analysing or automatically controlling instruments and apparatus: A. Electronic instruments and apparatus: ex I. For use in civil aircraft: — Ammeters, voltmeters and wattmeters II. Other: ex b) Other: — Ammeters, voltmeters and wattmeters B. Other: ex I. For use in civil aircraft: — Ammeters, voltmeters and wattmeters ex II. Other: — Ammeters, voltmeters and wattmeters
98.01	Buttons and button moulds, studs, cufflinks and press-fasteners, including snap-fasteners and press-studs; blanks and parts of such articles: ex A. Blanks and moulds, excluding cuff-links, collar studs and shirt studs and other such articles of faience, glass, silk or other textile fibres ex B. Buttons, studs, cuff-links and press-fasteners and parts thereof, excluding cuff-links, collar studs and shirt studs and other such articles of faience, glass, silk or other textile fibres

LIST II

Portuguese Customs Tariff heading No	Description
29.01	Hydrocarbons: A. Acyclic: ex I. For use as power or heating fuels, excluding acetylene ex II. For other purposes, excluding acetylene B. Cyclanes and cyclenes: I. Azulene and its alkyl derivatives II. Other: ex a) For use as power or heating fuels, excluding decahydronaphthalene ex b) For other purposes, excluding decahydronaphthalene C. Cycloterpenes: D. Aromatic: I. Benzene, toluene and xylenes II. Styrene III. Ethylbenzene IV. Cumene (isopropylbenzene) ex V. Naphthalene and anthracene: — Anthracene VI. Biphenyl and terphenyls ex VII. Other, excluding tetrahydronaphthalene
30.03	Medicaments (including veterinary medicaments): A. Not put up in forms or in packings of a kind sold by retail: II. Other: a) Containing penicillin, streptomycin or their derivatives b) Other: 1. Containing antibiotics or derivatives thereof, other than products falling within subheading A II a) 2. Other: ex aa) Containing hormones or products with a hormone function: — Insulin bb) Other: ex 22. Other: — Gold salts for the treatment of tuberculosis, organo-arsenic products for the treatment of syphilis and products for the treatment of leprosy B. Put up in forms or in packings of a kind sold by retail: II. Other: a) Containing penicillin, streptomycin or their derivatives b) Other: 1. Containing antibiotics or derivatives thereof, other than products falling within subheading B II a)

Portuguese Customs Tariff heading No	Description
30.03 (continued)	2. Other: aa) Containing hormones or products with a hormone function: 11. Insulin bb) Other: 22. Other: aaa) Gold salts for the treatment of tuberculosis, organo-arsenic products for the treatment of syphilis and products for the treatment of leprosy
31.02	Mineral or chemical fertilisers, nitrogenous: A. Natural sodium nitrate C. Other: VI. Calcium cyanamide with a nitrogen content not exceeding 25% by weight ex VIII. Other: — Sodium nitrate with a nitrogen content not exceeding 16,3%
32.09	Varnishes and lacquers; distempers; prepared water pigments of the kind used for finishing leather; paints and enamels; pigments dispersed in linseed oil; white spirit, spirits of turpentine, or other media of a kind used in the manufacture of paints or enamels; stamping foils; dyes or other colouring matter in forms or packings of a kind sold by retail; solutions as defined by note 4 to this chapter: A. Varnishes and lacquers; distempers; prepared water pigments of the kind used for finishing leather; paints and enamels; pigments dispersed in linseed oil, white spirit, spirits of turpentine, or other media of a kind used in the manufacture of paints and enamels; solutions as defined by note 4 to this chapter: I. Pearl essence ex II. Other, excluding base metals, in paste form, used in the manufacture of paints ex B. Stamping foils: — With a basis of base metals C. Dyes or other colouring matter in forms and packings of a kind sold by retail
32.12	Glaziers' putty; grafting putty; painters' fillings; non-refractory surfacing preparations; stopping, sealing and similar mastics, including resin mastics and cements
32.13	Writing ink, printing ink and other inks: B. Printing ink C. Other inks
35.06	Prepared glues not elsewhere specified or included; products suitable for use as glues put up for sale by retail as glues in packages not exceeding a net weight of 1 kg
ex 37.03	Sensitized plates and film, exposed but not developed, negative or positive: — Heliographic paper

Portuguese Customs Tariff heading No	Description
39.07	Articles of materials of the kinds described in heading Nos 39.01 to 39.06: A. Piping and tubing, with fittings attached, suitable for conducting gases or liquids, for use in civil aircraft B. Other: ex I. Of regenerated cellulose, excluding artificial sausage casings obtained by sealing the edges of strips, articles of clothing, floor coverings, fans and hand screens, non-mechanical, with strips of artificial plastic materials and mountings of any material other than precious metal, and corset busks and similar supports for articles of apparel or clothing accessories ex II. Of vulcanized fibre, excluding fans and hand screens, non-mechanical, with strips of artificial plastic materials and mountings of any material other than precious metal, and whalebone and similar supports for corsets and other articles of apparel or for clothing accessories ex III. Of hardened proteins; excluding artificial sausage casings obtained by sealing the edges of strips, and fans and hand screens, non-mechanical, with strips of artificial plastic materials and mountings of any material other than precious metal ex IV. Of chemical derivatives of rubber, excluding articles of clothing, floor-coverings, fans and hand screens, non-mechanical, with strips of artificial plastic materials and mountings of any material other than precious metal, and whalebone and similar supports for corsets and other articles of apparel or for clothing accessories V. Of other materials: a) Spools, reels and similar supports for photographic and cinematographic film or for tapes, films and the like falling within heading No 92.12 ex d) Other, excluding artificial sausage casings obtained by sealing the edges of strips, articles of clothing and floor-coverings
40.11	Rubber tyres, tyre cases, interchangeable tyre treads, inner tubes and tyre flaps, for wheels of all kinds: ex A. Solid or cushion tyres and interchangeable tyre treads: — Interchangeable tyre treads, each item weighing up to 20 kg B. Other: ex I. Pneumatic tyres for use on civil aircraft: — Each item weighing up to 20 kg ex II. Other: — Tyres, inner tubes and tyre flaps, each item weighing up to 20 kg
42.02	Travel goods (for example, trunks, suitcases, hat-boxes, travelling-bags, rucksacks), shopping-bags, handbags, satchels, brief-cases, wallets, purses, toilet-cases, tool-cases, tobacco-pouches, sheaths, cases, boxes (for example, for arms, musical instruments, binoculars, jewellery, bottles, collars, footwear, brushes) and similar containers, of leather or of composition leather, of vulcanized fibre, or artificial plastic sheeting, of paperboard or of textile fabric: ex A. Of artificial plastic sheeting: — Wallets; ladies' handbags ex B. Of other materials; — Wallets; ladies' handbags
48.11	Wallpaper and lincrusta; window transparencies of paper

Portuguese Customs Tariff heading No	Description
48.13	Carbon and other copying papers (including duplicator stencils) and transfer papers, cut to size, whether or not put up in boxes
48.15	Other paper and paperboard, cut to size or shape: B. Other: II. Toilet paper
ex 53.05	Sheep's or lambs' wool or other animal hair (fine or coarse), carded or combed — Sheep's or lambs' wool or fine animal hair, with the exception of combed hair of rabbit or hare, undyed, in rovings
53.11	Woven fabrics of sheep's or lambs' wool or of fine animal hair
56.02	Continuous filament tow for the manufacture of man-made fibres (discontinuous): ex A. Of synthetic textile fibres — Polyester
56.04	Man-made fibres (discontinuous or waste), carded, combed or otherwise prepared for spinning: ex A. Synthetic textile fibres — Polyester
ex 58.04	Woven pile fabrics and chenille fabrics (other than terry towelling or similar terry fabrics falling within heading No 55.08 and fabrics falling within heading No 58.05): — Fibres other than of silk, of man-made fibres, of wool or of animal hair, dyed
68.04	Hand polishing stones, whetstones, oilstones, hones and the like, and millstones, grindstones, grinding wheels and the like (including grinding, sharpening, polishing, trueing and cutting wheels, heads, discs and points), of natural stone (agglomerated or not), of agglomerated natural or artificial abrasives, or of pottery, with or without cores, shanks, sockets, axles and the like of other materials, but without frameworks; segments and other finished parts of such stones and wheels, of natural stone (agglomerated or not), of agglomerated natural or artificial abrasives, or of pottery: B. Other: I. Of agglomerated abrasives: ex a) Made of natural or synthetic diamonds: — Artificial, for uses other than grinding ex b) Other: — Artificial, for uses other than grinding ex II. Other: — Artificial, for uses other than grinding
70.04	Unworked cast or rolled glass (including flashed or wired glass), whether figured or not, in rectangles: ex B. Other: — Of a thickness of more than 5 mm but not more than 10 mm
70.08	Safety glass consisting of toughened or laminated glass, shaped or not

Portuguese Customs Tariff heading No	Description
ex 73.21	Structures and parts of structures (for example, hangars and other buildings, bridges and bridge-sections, lock gates, towers, lattice masts, roofs, roofing frameworks, door and window frames, shutters, balustrades, pillars and columns), of iron or steel; plates, strip, rods, angles, shapes, sections, tubes and the like, prepared for use in structures, of iron or steel, excluding lock gates for hydraulic installations and pylons for electric power lines, of expanded metal of iron or steel
ex 73.24	Containers, of iron or steel, for compressed or liquefied gas: — Welded of a capacity not exceeding 300 litres
ex 73.29	Chain and parts thereof, of iron or steel: — Articulated link chain, of the Galle, Renold or Morse type, of a pitch not exceeding 2 cm, excluding key chains
73.32	Bolts and nuts (including bolt ends and screw studs), whether or not threaded or tapped, screws (including screw hooks and screw rings), rivets, cotters, cotter-pins and similar articles of iron or steel; washers (including spring washers) of iron or steel: A. Not threaded or tapped: ex I. Screws, nuts, rivets and washers, turned from bars, rods, angles, shapes, sections or wire, of solid section, of a shank thickness or hole diameter not exceeding 6 mm: — Screws ex II. Other: — Screws B. Threaded or tapped: ex I. Screws and nuts, turned from bars, rods, angles, shapes, sections or wire, of solid section, of a shank thickness or hole diameter not exceeding 6 mm: — Bolts and screws, including washers and nuts when fitted therewith ex II. Other: — Bolts and screws, including washers and nuts when fitted therewith
ex 73.37	Boilers (excluding boilers of heading No 84.01) and radiators, for central heating, not electrically heated, and parts thereof, of iron or steel; air heaters and hot air distributors (including those which can also distribute cool or conditioned air), not electrically heated, incorporating a motor-driven fan or blower, and parts thereof, of iron or steel: — Of wrought, rolled or forged iron or steel
73.38	Articles of a kind commonly used for domestic purposes, sanitary ware for indoor use, and parts of such articles and ware, of iron or steel; iron or steel wool; pot scourers and scouring or polishing pads, gloves and the like, of iron or steel: A. Sanitary ware (excluding parts thereof) for use in civil aircraft B. Other: I. Sinks and wash basins and parts thereof, of stainless steel ex II. Other, excluding pressure cookers for cooking directly by steam, and iron or steel wool, pot scourers and scouring or polishing pads, gloves and the like
ex 74.07	Tubes and pipes and blanks therefor, of copper; hollow bars of copper: — Unworked or painted, varnished, enamelled or otherwise treated (including Mannesmann tubes and tubes obtained by swaging), whether or not with sockets or flanges, but not otherwise worked, the greatest dimension of the internal cross-section of which measures 80 mm, excluding those of a wall-thickness of not more than 1 mm

Portuguese Customs Tariff heading No	Description
76.06	Tubes and pipes and blanks therefor, of aluminium; hollow bars of aluminium
76.08	Structures and parts of structures, (for example, hangars and other buildings, bridges and bridge-sections, towers, lattice masts, roofs, roofing frameworks, door and window frames, balustrades, pillars and columns), of aluminium; plates, rods, angles, shapes, sections, tubes and the like, prepared for use in structures, of aluminium
76.12	Stranded wire, cables, cordage, ropes, plaited bands and the like, of aluminium wire, but excluding insulated electric wires and cables
76.15	Articles of a kind commonly used for domestic purposes, sanitary ware for indoor use, and parts of such articles and ware, of aluminium
82.09	Knives with cutting blades, serrated or not (including pruning knives), other than knives falling within heading No 82.06, and blades therefor: ex A. Knives: — Knives with cutting blades, serrated or not (including pruning knives), excluding knives for arts and crafts
82.14	Spoons, forks, fish-eaters, butter-knives, ladles, and similar kitchen or tableware: A. Of stainless steel ex B. Other: — Other than gilt or silvered
ex 82.15	Handles of base metal for articles falling within heading No 82.09, 82.13 or 82.14: — Gilt or silvered
83.06	Statuettes and other ornaments of a kind used indoors, of base metal; photograph, picture and similar frames, of base metal; mirrors of base metal: ex A. Statuettes and other ornaments of a kind used indoors — Other than gilt or silvered
ex 83.09	Clasps, frames with clasps for handbags and the like, buckles, buckleclasps, hooks, eyes, eyelets and the like, of base metal, and of a kind commonly used for clothing, travel goods, handbags and other textile or leather goods; tubular rivets and bifurcated rivets, of base metal; beads and spangles, of base metal, excluding tubular rivets and bifurcated rivets and beads and spangles
ex 84.01	Steam and other vapour generating boilers (excluding central heating hot water boilers capable also of producing low pressure steam); super-heated water boilers: — Generating boilers and super-heated water boilers, excluding spare parts
84.06	Internal combustion piston engines: C. Other engines: I. Spark ignition engines of a cylinder capacity of a) 250 cm ³ or less: ex 2. Other: — For cycles, with a cylinder capacity not exceeding 50 cm ³
84.07	Hydraulic engines and motors (including water wheels and water turbines): A. Hydraulic engines and motors, for use in civil aircraft B. Other hydraulic engines and motors

Portuguese Customs Tariff heading No	Description
84.10	Pumps (including motor pumps and turbo pumps) for liquids whether or not fitted with measuring devices; liquid elevators of bucket, chain, screw, band and similar kinds: A. Delivery pumps fitted or designed to be fitted, with a measuring device: III. Parts B. Other pumps I. Pumps, for use in civil aircraft ex II. Other pumps, excluding pumps, motor pumps and turbo pumps for irrigation sprinkler systems and submersible pumps fitted with a motor, not lined with ceramic materials or rubber, weighing up to 1 000 kg each III. Parts C. Liquid elevators of bucket, chain, screw, band and similar kinds
84.11	Air pumps, vacuum pumps and air or gas compressors (including motor and turbo pumps and compressors, and free-piston generators for gas turbines); fans, blowers and the like: C. Fans, blowers and the like: ex I. Fans, blowers and the like, for use in civil aircraft: — Weighing not more than 200 kg each ex II. Other fans, blowers and the like: — Weighing not more than 200 kg each
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling, not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: ex A. Machinery and equipment for the manufacture of the products mentioned in subheading 28.51 A (Euratom): — Parts ex B. Machinery and equipment specially designed for the separation of irradiated nuclear fuels, for the treatment of radioactive waste or for the recycling of irradiated nuclear fuels (Euratom): — Parts ex C. Heat exchange units: — Parts D. Percolators and other appliances for making coffee and other hot drinks: D. ex I. Electrically heated: — Parts ex II. Other: — Parts E. Medical and surgical sterilising apparatus: ex I. Electrically heated: — Parts ex II. Other: — Parts

Portuguese Customs Tariff heading No	Description
84.17 (continued)	F. Other: ex I. Water heaters, non-electric: — For domestic use ex II. Other: — Parts
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23: ex A. Machines and apparatus (excluding parts thereof), for use in civil aircraft; excluding winches, jacks and conveyors B. Other: ex I. Machinery and mechanical appliances specially designed for dealing with highly radioactive substances, excluding winches, jacks, pulley tackle, lifts, cranes, derricks, locomotive or wagon traversers, mobile lifting frames and parts ex III. Rolling-mill machinery; roller tables for feeding and removing products; tilters and manipulators for ingots, balls, bars and slabs, excluding parts ex IV. Other, excluding winches, jacks, pulley tackle, lifts, cranes, derricks, locomotive or wagon traversers, mobile lifting frames and parts
84.24	Agricultural and horticultural machinery for soil preparation or cultivation, including lawn and sports ground rollers: G. Parts: ex I. Ploughshares, excluding ploughshares of cast iron and cast steel ex II. Other: — Mouldboards and ploughshares other than those of cast iron or cast steel; soles, discs, cutters, coulters in the shape of knives or discs, for ploughs, teeth for cultivators and scarifiers, discs for disc harrows; hoeing, ridging and furrowing tools for weeders
84.31	Machinery for making or finishing cellulosic pulp, paper or paperboard: A. For making paper or paperboard ex B. Other, excluding ruling machines, weighing not more than 2 000 kg each
84.36	Machines for extruding man-made textiles; machines of a kind used for processing natural or man-made textile fibres; textile spinning and twisting machines; textile doubling, throwing and reeling (including weft-winding) machines
84.37	Weaving machines, knitting machines and machines for making gimped yarn, tulle, lace, embroidery, trimmings, braid or net; machines for preparing yarns for use on such machines, including warping and warp sizing machines:

Portuguese Customs Tariff heading No	Description
84.37 (continued)	ex A. Weaving machines: — Mechanical weaving machines weighing not more than 2 500 kg each, automatic (excluding cotton-weaving machines) and non-automatic ex B. Knitting machines: — Flat knitting machines ex C. Machines for making gimped yarn, tulle, lace, embroidery, trimmings, braid or net: — Mechanical weaving machines weighing not more than 2 500 kg each, automatic (excluding cotton-weaving machines) and non-automatic
ex 84.38	Auxiliary machinery for use with machines of heading No 84.37 (for example dobbies, Jacquards, automatic stop motions and shuttle changing mechanisms); parts and accessories suitable for use solely or principally with the machines of the present heading or with machines falling within heading No 84.36 or 84.37 (for example, spindles and spindle flyers, card clothing, combs, extruding nipples, shuttles, healds and heald-lifters and hosiery needles) excluding parts and accessories for continuous spinning frames: fluted rollers weighing up to 2,5 kg each; spindels, pressure rollers, and the respective shafts and tension rollers for the spindle driving bands, fitted with ball, roller or needle bearings; toothed iron or steel strips for card clothing and extruding nipples of precious metal
ex 84.47	Machine-tools for working wood, cork, bone, ebonite (vulcanite) hard artificial plastic materials or other hard carving materials, other than machines falling within heading No 84.49: — Mechanical presses weighing up to 1 000 kg each
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves: ex A. Pressure reducing valves: — Of iron or steel ex B. Other: — Of iron or steel
84.63	Transmission shafts, cranks, bearing housings, plain shaft bearings, gears and gearing (including friction gears and gear-boxes and other variable speed gears), flywheels, pulleys and pulley blocks, clutches and shaft couplings: ex B. Speed changers and gearboxes, chain sprockets, clutches and universal joints (excluding parts thereof), for use in civil aircraft: — Speed changers ex D. Other: — Gear-boxes and other variable speed gears
85.12	Electric instantaneous or storage water heaters and immersion heaters; electric soil heating apparatus and electric space heating apparatus; electric hair-dressing appliances (for example, hair dryers, hair curlers, curling-tong heaters) and electric smoothing irons; electro-thermic domestic appliances; electric heating resistors other than those of carbon: A. Electric instantaneous or storage water heaters and immersion heaters: I. For use in civil aircraft, excluding parts of such goods ex II. Other, excluding parts B. Electric soil heating apparatus and electric space heating apparatus: I. For use in civil aircraft, excluding parts of such goods ex II. Other, excluding parts D. Electric smoothing irons

Portuguese Customs Tariff heading No	Description
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lamp holders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels: ex A. Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits or for making connections to or in electrical circuits: — Non-automatic make-and-break and isolating switches, weighing not more than 2 kg each of materials other than ceramic or glass, excluding parts — Automatic make-and-break switches, circuit-breakers and contactors, weighing not more than 3 kg each ex B. Resistors, fixed or variable (including potentiometers), other than heating resistors: — Variable resistors, weighing not more than 2 kg each, of materials other than ceramic or glass, excluding parts ex D. Switchboards and control panels, excluding parts
ex 90.03	Frames and mountings, and parts thereof, for spectacles, pince-nez, lorgnettes, goggles and the like: — Of materials other than gold
ex 90.04	Spectacles, pince-nez, lorgnettes, goggles and the like, corrective, protective or other: — With frames and mountings of materials other than of gold, rolled gold or gilt, excluding protective goggles for use in arts and crafts
90.16	Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, drawing-sets, slide rules, disc calculators and the like; measuring or checking instruments, appliances and machines, not falling within any other heading of this Chapter (for example, micrometers, callipers, gauges, measuring rods, balancing machines); profile projectors: ex A. Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, slide rules, disc calculators and the like: — Set squares, rules, protractors and French curves
92.12	Gramophone records and other sound or similar recordings; matrices for the production of records, prepared record blanks, film for mechanical sound recording, prepared tapes, wires, strips and like articles of a kind commonly used for sound or similar recording: B. Recorded: I. Wax recordings, discs, matrices and other intermediate forms, excluding magnetically recorded tapes: b) Other: II. Other: a) Records: 2. Other b) Other recording media (tapes, wires, strips and like articles): 1. Magnetically recorded for the sound track of cinematographic films - ex 2. Other, excluding those for teaching languages

Portuguese Customs Tariff heading No	Description
94.01	Chairs and other seats (other than those falling within heading No 94.02) whether or not convertible into beds, and parts thereof: ex A. Chairs and other seats, not leather covered (excluding parts thereof), for use in civil aircraft: — Other than of wood, iron or steel B. Other: ex I. Specially designed for aircraft: — Other than of wood, iron or steel ex II. Other: — Other than of wood, iron, steel, osier or other vegetable materials
94.03	Other furniture and parts thereof: ex A. Furniture (excluding parts thereof), for use in civil aircraft: — Of wood: — Carved, veneered, waxed, polished or varnished, turned, with mouldings, painted and covered with any materials other than leather or imitations thereof or than fabrics containing silk and man-made textile fibres — Inlaid, lacquered, gilt, with appliqué work of fine wood, decorated with metal or other materials and covered with leather and imitations thereof or with fabrics containing silk and man-made textile fibres — Of materials other than of iron, steel, osier or other vegetable materials ex B. Other: — Of wood: — Carved, veneered, waxed, polished or varnished, turned, with mouldings, painted and covered with any materials other than leather or imitations thereof or than fabrics containing silk and man-made textile fibres — Inlaid, lacquered, gilt, with appliqué work of fine wood, decorated with metal or other materials and covered with leather and imitations thereof or with fabrics containing silk and man-made textile fibres — Of materials other than of iron, steel, osier or other vegetable materials
98.10	Mechanical lighters and similar lighters, including chemical and electrical lighters, and parts thereof, excluding flints and wicks: ex A. Parts of base metal, turned from bars, rods, angles, shapes, sections or wire, of solid section, the greatest diameter of which does not exceed 25 mm: — Other than gilt or silvered, or of rolled precious metals ex B. Other: — Other than of silver, of other precious metals, gilt or silvered, or of rolled precious metals

LIST III

Portuguese Customs Tariff heading No	Description
31.02	Mineral or chemical fertilizers, nitrogenous: C. Other: II. Mixture of ammonium nitrate and calcium carbonate III. Ammonium sulphate-nitrate IV. Ammonium sulphate ex VIII. Other, excluding sodium nitrate with a nitrogen content not exceeding 16,5%
39.01	Condensation, polycondensation and polyaddition products, whether or not modified or polymerized, and whether or not linear (for example, phenoplasts, aminoplasts, alkyds, polyallyl esters and other unsaturated polyesters, silicones): ex A. Ion exchangers: — Phenoplasts, excluding those of the Novolak type C. Other: I. Phenoplasts: a) In one of the forms mentioned in note 3 (a) and (b) to this chapter: 2. Other: bb) Other resins
68.02	Worked monumental or building stone, and articles thereof (including mosaic cubes), other than goods falling with heading No 68.01 or within Chapter 69
ex 70.05	Unworked drawn or blown glass (including flashed glass), in rectangles: — Up to 3 mm in thickness
ex 70.06	Cast, rolled, drawn or blown glass (including flashed or wired glass), in rectangles, surface ground or polished, but not further worked: — Other than wired, up to 5 mm in thickness
ex 70.21	Other articles of glass: — Of coloured, matt, engraved, irisated, cut, marbled, opaque, opaline or painted glass, or of moulded glass with hollows or protruding parts
ex 73.14	Iron or steel wire, whether or not coated, but not insulated: — Not covered with textile materials
73.15	Alloy steel and high carbon steel in the forms mentioned in heading Nos 73.06 to 73.14:

Portuguese Customs Tariff heading No	Description
73.15 (continued)	A. High carbon steel: ex VIII. Wire, whether or not coated, but not insulated: — Not covered with textile materials, not coated with other metals and not referred to in subdivision a) of the additional note to this chapter B. Alloy steel: ex VIII. Wire, whether or not coated, but not insulated: — Not covered with textile materials, not coated with other metals and not referred to in subdivision a) of the Additional Note to this Chapter
73.18	Tubes and pipes and blanks therefor, of iron (other than cast iron) or steel, excluding high-pressure hydro-electric conduits: B. Straight and of uniform wall-thickness, other than those falling in A above, of a maximum length of 4,50 m, of alloy steel containing by weight not less than 0,90% but not more than 1,15% of carbon, not less than 0,50% but not more than 2% of chromium and, possibly, not more than 0,50% of molybdenum ex C. Other: — Excluding unworked or painted, varnished, enamelled or otherwise treated (including Mannesmann tubes and tubes obtained by swaging), whether or not with sockets or flanges, but not otherwise worked, seamless
84.15	Refrigerators and refrigerating equipment (electrical or other): ex A. Refrigerators and refrigerating equipment (excluding parts thereof), for use in civil aircraft: — Cabinets and other furniture imported with their respective refrigerating units, weighing more than 200 kg each C. Other: ex I. Refrigerators of a capacity of more than 340 litres: — Weighing more than 200 kg each ex II. Other: — Cabinets and other furniture imported with their respective refrigerating units, weighing more than 200 kg each
84.40	Machinery for washing, cleaning, drying, bleaching, dyeing, dressing, finishing or coating textile yarns, fabrics or made-up textile articles (including laundry and dry-cleaning machinery); fabric folding, reeling or cutting machines; machines of a kind used in the manufacture of linoleum or other floor coverings for applying the paste to the base fabric or other support; machines of a type used for printing a repetitive design, repetitive words or overall colour on textiles, leather, wallpaper, wrapping paper, linoleum or other materials, and engraved or etched plates, blocks or rollers therefor:

Portuguese Customs Tariff heading No	Description
84.40 (continued)	B. Clothes-washing machines, each of a dry linen capacity not exceeding 6 kg; domestic wringers: ex I. Electrically operated: — Clothes-washing machines, excluding parts ex II. Other: — Clothes-washing machines, excluding parts C. Other: ex III. Washing, bleaching and dyeing machines: — Clothes-washing machines, excluding parts
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors: A. The following goods, for use in civil aircraft: Generators, converters, (rotary or static), rectifiers and rectifying apparatus, inductors; Electric motors of an output of not less than 0,75 kW but less than 150 kW; Transformers rated at 1 kVA or more: ex I. Motors of an output of not less than 0,75 kW but less than 150 kW: — Asynchronous three-phase motors — Monophase motors weighing up to 30 kg each — Other, weighing not more than 100 kg each ex II. Generators: — Weighing not more than 100 kg each ex III. Rotary converters — Weighing not more than 100 kg each ex IV. Static converters, rectifiers and rectifying apparatus: — Excluding converters, rectifiers and rectifying apparatus weighing more than 100 kg each ex V. Transformers: — Measuring transformers — Other, weighing not more than 500 kg each B. Other machines and apparatus: I. Generators, motors, (whether or not equipped with speed reducing, changing or step-up gear) and rotary converters: a) Synchronous motors of an output of not more than 18 watts b) Other: ex 1. Specially designed for welding, without welding equipment: — Weighing not more than 100 kg each ex 2. Motors and other generators, the performance of which is not expressed in kW or kVA (tachometer generators, rotary phase advancers, magnetic amplifiers, etc.): — Weighing not more than 100 kg each

Portuguese Customs Tariff heading No	Description
85.01 (continued)	3. Other: ex aa) Generating sets with compression ignition piston engines: — Weighing not more than 100 kg each ex bb) Generating sets with spark ignition piston engines: — Weighing not more than 100 kg each ex cc) Traction motors: — Weighing not more than 100 kg each ex dd) Other universal (AC/DC) motors: — Weighing not more than 100 kg each ex ee) Other AC motors: — Asynchronous three-phase motors — Single-phase motors, weighing not more than 30 kg each — Other, weighing not more than 100 kg each ex ff) AC generators: — Weighing not more than 100 kg each ex gg) DC motors and generators: — Asynchronous three-phase motors — Single-phase motors, weighing not more than 30 kg each — Other, weighing not more than 100 kg each ex hh) Rotary converters: — Weighing not more than 100 kg each II. Transformers, static converters, rectifiers and rectifying apparatus; inductors: a) Ballasts for discharge tubes b) Measuring transformers ex c) Transformers specially designed for arc-welding, without welding equipment: — Weighing not more than 500 kg each ex d) Other transformers: — Weighing not more than 500 kg each ex f) Static converters, rectifiers and rectifying apparatus: — Excluding converters, rectifiers and rectifying apparatus weighing more than 100 kg each
ex 85.03	Primary cells and primary batteries: — Dry
85.12	Electric instantaneous or storage water heaters and immersion heaters; electric soil heating apparatus and electric space heating apparatus; electric hair dressing appliances (for example, hair dryers, hair curlers, curling tong heaters) and electric smoothing irons; electro-thermic domestic appliances; electric heating resistors other than those of carbon: E. Electro-thermic domestic appliances: I. Electric cooking stoves, ranges, ovens and food warmers (excluding parts thereof), for use in civil aircraft ex II. Other: Stoves, cookers, ranges and similar cooking appliances, for domestic use

Portuguese Customs Tariff heading No	Description
85.13	Electrical line telephonic and telegraphic apparatus (including such apparatus for carrier-current line systems): ex A. Apparatus for carrier-current line systems: — Telephone sets, receivers and parts ex B. Other: — Telephone sets, receivers and parts
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels: ex A. Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits or for making connections to or in electrical circuits: — Automatic make-and-break switches; cut-outs and contactors, weighing more than 3 kg but not more than 500 kg each, excluding parts
85.20	Electric filament lamps and electric discharge lamps (including infra-red and ultra-violet lamps); arc-lamps: A. Filament lamps for lighting ex B. Other lamps: — For lighting ex C. Parts: — For electric lamps for lighting
85.23	Insulated (including enamelled or anodized) electric wire, cable, bars, strip and the like (including co-axial cable), whether or not fitted with connectors: ex A. Ignition wiring sets and wiring sets, for use in civil aircraft: — With metal armour or sheathing, whether or not covered with other materials, excluding co-axial cable ex B. Other: — With metal armour or sheathing, whether or not covered with other materials, excluding co-axial and submarine cables.

LIST IV

Products subject to an increase in duties to 65 %

Portuguese Customs Tariff heading No	Description
17.04	Sugar confectionery, not containing cocoa: B. Chewing gum C. White chocolate D. Other
19.03	Macaroni, spaghetti and similar products
19.05	Prepared foods obtained by the swelling or roasting of cereals or cereal products (puffed rice, corn flakes and similar products): A. Obtained from maize
19.07	Bread, ships' biscuits and other ordinary bakers' wares, not containing added sugar, honey, eggs, fats, cheese or fruit; communion wafers, cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products: D. Other, containing by weight of starch: ex I. Less than 50% — 'Bolacha capitão' (ships' biscuits)
19.08	Pastry, biscuits, cakes and other fine bakers' wares, whether or not containing cocoa in any proportion
21.07	Food preparations not elsewhere specified or included (a): B. Ravioli, macaroni, spaghetti and similar products, not stuffed, cooked; the foregoing preparations, stuffed, whether or not cooked G. Other
22.09	Spirits (other than those of heading No 22.08); liqueurs and other spirituous beverages; compound alcoholic preparations (known as 'concentrated extracts') for the manufacture of beverages: V. Other, in containers holding: a) 2 litres or less: 2. Liqueurs b) More than 2 litres: ex 2. Liqueurs and other spirituous beverages: — Liqueurs

(a) With the exception of mixtures of chemical products and foodstuffs, of a kind used in the preparation of foodstuffs intended for human consumption; and products of a kind used for infant food or for dietetic purposes, put up in hermetically sealed packages, weighing not more than 1 000 g.

LIST V

Products subject to an increase in duties to 15%

Portuguese Customs Tariff heading No	Description
19.02	Malt extract; preparations of flour, meal, starch or malt extract, of a kind used as infant food or for dietetic or culinary purposes, containing less than 50% by weight of cocoa: B. Other
35.05	Dextrins and dextrin glues; soluble or roasted starches; starch glues: ex B. Glues made from dextrin or from starch: — Starch glues

EXCHANGE OF LETTERS
concerning Article 3 (1) of the Pre-Accession Protocol
(Processed agricultural products)

Letter No 1

Sir,

Article 3 (1) of the Pre-Accession Protocol to the Agreement between the European Economic Community and the Portuguese Republic lays down that Portugal is authorized to introduce, from 1 January 1985, for products originating in the Community, a 65% ad valorem customs duty for those specified in list IV and a 15% ad valorem customs duty for those specified in list V.

During the negotiations, it was agreed that Portugal would introduce, from 1 January 1985, ad valorem customs duties of 90% for the products specified in list IV and 35% for the products specified in list V in respect of third countries, with the exception of the EFTA countries and Spain as regards the products covered by Annex P to the EFTA-Spain Agreement.

I should be obliged if you would confirm that your Government is in agreement with the above.

For the
European Economic Community

Letter No 2

Sir,

I have the honour to acknowledge receipt of your letter of today's date which reads as follows:

'Article 3 (1) of the Pre-Accession Protocol to the Agreement between the European Economic Community and the Portuguese Republic lays down that Portugal is authorized to introduce, from 1 January 1985, for products originating in the Community, a 65% ad valorem customs duty for those specified in list IV and a 15% ad valorem customs duty for those specified in list V.

During the negotiations, it was agreed that Portugal would introduce, from 1 January 1985, ad valorem customs duties of 90% for the products specified in list IV and 35% for the products specified in list V in respect of third countries, with the exception of the EFTA countries and Spain as regards the products covered by Annex P to the EFTA-Spain Agreement.

EXCHANGE OF LETTERS
concerning Article 4 of the Pre-Accession Protocol
(New industries falling under the EEC)

Letter No 1

Sir,

Article 4 of the Pre-Accession Protocol to the Agreement between the European Economic Community and the Portuguese Republic lays down that Portugal may have recourse to the new industries clause, on the terms laid down in that Article and in Article 6 of Protocol 1 to the Agreement, until 31 December 1985.

In view of the negotiations in progress concerning the accession of Portugal to the Communities, it has been agreed that by way of derogation from the provisions referred to in the first paragraph, Portugal may no longer have recourse to the new industries clause from the first day of the month preceding the signing of the instruments of accession to the Communities.

It has been agreed that this exchange of letters shall come into force on the day on which the Pre-Accession Protocol enters into force.

I should be obliged if you would confirm that your Government is in agreement with the above.

EXCHANGE OF LETTERS

**between the European Coal and Steel Community and the Portuguese Republic concerning
Article 4 of the Pre-Accession Protocol**

(New industries falling under the ECSC)

Letter No 1

Sir,

During the negotiations for the conclusion of a Pre-Accession Protocol to the Agreement between the European Economic Community and the Portuguese Republic, the Portuguese delegation asked for a derogation in respect of products of the European Coal and Steel Community to enable Portugal to introduce, raise or reintroduce beyond 31 December 1984 customs duties designed to assist new industries in the case of these products also.

I have the honour to inform you that the representatives of the Governments of the Member States meeting in the Council have decided that, by way of derogation from Article 2 of Protocol 1 to the Agreement between the Member States of the European Coal and Steel Community and the European Coal and Steel Community, on the one hand, and the Portuguese Republic on the other, Portugal may, until 31 December 1985, introduce, raise or reintroduce ad valorem customs duties within the limits laid down in the said Article 2, provided that its industrialization and development necessitate protective measures. The aforementioned representatives have instructed me to bring this decision to your notice.

It has been agreed that this exchange of letters shall come into force on the same day as the Pre-Accession Protocol.

I should be obliged if you would confirm that your Government is in agreement with the above.

COMMISSION OF THE EUROPEAN COMMUNITIES

REPORT ON SOCIAL DEVELOPMENTS

YEAR 1984

BRUSSELS — LUXEMBOURG / MARCH 1985

ADDENDUM TO THE 'EIGHTEENTH GENERAL REPORT ON THE ACTIVITIES OF THE EUROPEAN COMMUNITIES' IN ACCORDANCE WITH ARTICLE 122 OF THE EEC TREATY

Every year the Commission publishes its annual Social Report, which gives an outline of the main developments in the social field which have taken place in the countries of the European Community during the past year.

The introduction, which has a general and political character, provides a summary of the Community's main activities in the social field in 1984 and outlines the prospects for the near future.

In the contents:

- A. Introduction
- B. Social developments in the Community in 1984
- C. Statistical appendix

COMMISSION OF THE EUROPEAN COMMUNITIES

FOURTEENTH REPORT ON COMPETITION POLICY

The Report on Competition Policy is published annually by the Commission of the European Communities in response to the request of the European Parliament made by a Resolution of 7 June 1971. This Report, which is published in conjunction with the General Report on the Activities of the Communities, is designed to give a general view of the competition policy followed during the past year. Part One covers general competition policy. Part Two deals with competition policy towards enterprises. Part Three is concerned with competition policy and government assistance to enterprises and Part Four with the development of concentration, competition and competitiveness.
