EUROPEAN REGIONAL DEVELOPMENT FUND

Ninth Annual Report (1983)

The ERDF, one of the Community's structural funds, was set up in 1975 to correct the principal regional imbalances within the Community. ERDF aid is accordingly granted in areas and regions suffering from imbalances resulting in particular from the predominance of agriculture, industrial change and structural under-employment. Such regions, which are determined in agreement with the Member States, are generally the areas covered by national regional aid schemes, these areas being approved by the Commission in accordance with Articles 92 and 94 of the Treaty establishing the European Economic Community. The ERDF provides assistance by making grants which support and supplement national regional development efforts.

As well as reporting on the ERDF activities in 1983, this publication also provides a review of the nine years (1975 to 1983) that the ERDF has been in existence.
