COUNCIL REGULATION (EEC) No 3924/86**of 16 December 1986****applying generalized tariff preferences for 1987 in respect of certain industrial products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas, in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences commencing in 1971, notably in respect of finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences expired on 31 December 1980;

Whereas, however, the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preference scheme would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas, therefore, the Community has decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise following implementation of the system,

including such situations in the African, Caribbean and Pacific States (ACP States);

Whereas, since the extension of its generalized tariff preferences scheme for a second 10-year period (1981 to 1990), the Community has decided to modify one of the fundamental characteristics of it to give the beneficiary countries a more equitable access to the preferential advantages. In order to attain this the Community had decided to apply a preferential treatment which takes account of the particular situation of each of the beneficiaries and to proceed to a system of individual tariff ceilings for certain sensitive products; the least-developed countries are not subject to ceilings; ever since then, the annual adaptations of the community scheme responds, for the most part, to the double imperative of the differentiation of the preferential advantages and of simplifications; the identification of the products and the countries to treat selectively takes place with regard to the sensitivity of the sectors and to the community market situation of the products in question as well as consideration of the degree of industrial development and the competitiveness of these countries;

Whereas the tariff ceiling arrangements mentioned above must be applied in such a way as to differentiate between the products in Annex I by means, on one hand, of Community tariff quotas and fixed duty free amounts for products originating in the most competitive countries and, on the other hand, by means of ceilings for products in Annex I originating in other less competitive countries:

Whereas the products in Annex II should be made subject to surveillance for essentially statistical purposes;

Whereas, since the intermediate revision of the scheme for the years 1986 to 1990, the Community has established that:

— the latter responds satisfactorily to the fixed objectives,

— the beneficiary countries continue, however, to use the preferential advantages in an unequal manner,

⁽¹⁾ OJ No C 289, 17. 11. 1986, p. 1.

⁽²⁾ OJ No C 322, 15. 12. 1986.

⁽³⁾ OJ No C 333, 29. 12. 1986.

- the objectives of the scheme have been reached in certain cases by the most competitive beneficiary countries;

that on the basis of the considerations, the Community has decided:

- to maintain for the second half of the decade the fundamental characteristics of the scheme, notably the grant, within certain limits, of the total suspension of custom duties,
- to accentuate the differentiation of the preferential advantages from which the most competitive countries benefit and to enlarge at the same time the preferential access to the least competitive countries;

Whereas provision should be made in 1987 for the pursuit of more accentuated differentiation in the grant of advantages under the scheme to the more competitive countries — both in terms of market share and export capacity — and whereas it is therefore appropriate to reduce the preferential amounts by 50 % for certain products originating in those countries, marked with three asterisks in Annex I to this Regulation, subject to the tariff quota arrangement; whereas the criteria to be adopted for such a reduction are based on the competitive capacity of the beneficiary country concerned, this capacity being expressed in the case of a specific product either by this country's participation in the Community's total imports or by the ratio of the preferential volume amount opened for this country to the total Community imports from the same country; whereas, in addition, the level of economic development of the country concerned has also been taken into account; whereas, with regard to the application of the first criterion, a share has been set at 20 % of the 1983 total extra-EEC imports of the product being referred to, while recourse to the second criterion is made where the total imports of the product in question have, in accordance with the mean of the two preceding years, exceeded by at least 10 times the tariff quota amount;

Whereas the abovementioned reasons that have justified the criteria of competitiveness remain valid and whereas the maintenance of preferential benefit for the most competitive countries is not justified and a redistribution and a re-evaluation of the supply are necessary; it is appropriate to pursue the differentiation and to initiate the suppression of the preferential benefit for certain countries mentioned in 1986 for the eleven products per country, designated by a footnote, for 1986 meeting the abovementioned criteria, based on the ability of each country concerned to compete, that being established by a 20 % share of the total extra-EEC imports in the course of 1983 for a specified product where that product per country was subject to a tariff quota in 1985; whereas, the level of economic development of the country concerned has also been taken into account for these products;

Whereas, however, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo

Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, charges on products originating in the least developed of the developing countries listed in Annex IV to this Regulation should not be subject to the Community quota or ceiling;

Whereas to reflect better in the preferential amounts the development of commercial exchange flows of the Community it is appropriate, with a view to the overall improvement of the system, to pursue the process of bringing up to date these amounts already broached by the Community in 1986 and which concern the products in Annex I;

Whereas, for the same reasons, it is essential to update the reference bases to take into consideration for the examination of the situation resulting from preferential importations of the products in Annex II; however, it is right to initiate the revision of the method of calculating the abovementioned reference bases; to this effect, the taking into account of a percentage of total importations for each of these products into the Community seems to answer these objectives; according to the new method of calculation, the reference bases for 1987 correspond in general to 5 % of the total importations into the Community in 1984 of each of the products concerned originating in a third country; the products of Annex II affected by footnote (e) are subject to reference bases corresponding to 5 % only of the said importations; the new method of calculation brings, at one and the same time, increases and decreases in reference bases but leads to an improvement of the global offer for the products of Annex II;

Whereas for the purposes of applying this Regulation, the rates of conversion into national currencies of the value in ECU in which the preferential amounts are expressed shall be those fixed on the first working day of October 1986 and they shall remain in force from 1 January to 31 December 1987 (1);

Whereas, in respect of the Community tariff quotas specified in Annex I, it is necessary in particular to ensure equal and continuous access for all Community importers to the abovementioned quotas, and to ensure uninterrupted application of the rate laid down for those quotas to all imports of the products concerned into all the Member States until the quotas are used up;

(1) OJ N° C 246, 2. 10. 1986, p. 1

whereas, having regard to the principles set out above, an arrangement whereby the quotas are apportioned among the Member States would best respect their Community nature; whereas, moreover, to this end and in the context of such an arrangement, the actual charges against the quotas could relate only to products entered for free circulation and accompanied by a certificate of origin;

Whereas the application of the generally accepted principles in respect of the apportionment of the Community tariff quotas which have been opened hitherto cannot be reconciled with the continuity necessary for the application of the tariff preferences concerned; whereas it would accordingly be advisable to adopt a fixed scale for apportioning the Community tariff quotas concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade, gross national product and population, the percentages for the initial shares of the Member States in the quota amounts are as follows for the quota year under consideration:

Benelux	10,0 %
Denmark	4,6 %
Germany	24,3 %
Greece	1,9 %
Spain	5,9 %
France	17,8 %
Ireland	0,9 %
Italy	15,0 %
Portugal	1,5 %
United Kingdom	18,1 %

Whereas, however, taking into account the more precise information already available concerning trade in plywood, blockboard, laminboard, battenboard and similar laminated products, falling within heading No 44.15 of the Common Customs Tariff, the above-mentioned percentages should be adjusted as follows

Benelux	4,40 %
Denmark	5,90 %
Germany	7,69 %
Greece	0,19 %
Spain	2,09 %
France	0,30 %
Ireland	2,02 %
Italy	0,86 %
Portugal	0,16 %
United Kingdom	76,40 %

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas given in Annex I and to mitigate any inadequacy in the initial allocation, the quotas should, as a general rule, be divided into two tranches, the first being apportioned among Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares;

whereas, moreover, the reserve thus constituted tends to avoid making the system of utilization of the quota excessively rigid, to the detriment of each of the developing countries concerned, and contributes to achieving the aim already mentioned of improving the generalized preferences system; whereas, to this end and to accord importers in each Member State some degree of security, the first tranche of the Community quota should be fixed at about 80 % of the quota volumes;

Whereas Member States may exhaust their initial shares for the tariff quotas given in Annex I at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that each Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period; whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 60 % of their initial share;

Whereas, if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas such tariff exemptions should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 ⁽¹⁾;

Whereas the Community preference arrangements applicable to Yugoslavia result exclusively from the Agreement between the Community and the Socialist Federal Republic of Yugoslavia ⁽²⁾ whereas, therefore, for products which are submitted to Community tariff ceilings within the framework of the Agreement between the Community and this country on the one hand, and for the products listed in Annex I of the present Regulation on the other hand, the movement certificate EUR 1 shall be deemed the only documentary evidence for the granting of tariff preferences provided for by the said Agreement;

Whereas from 1 March 1986, the Kingdom of Spain and the Portuguese Republic shall apply the Com-

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

⁽²⁾ OJ No L 147, 4. 6. 1981, p. 6 and OJ No L 41, 14. 2. 1983.

munity system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession; whereas, therefore, the envisaged volumes of the preferential imports must be increased; the amounts foreseen by the preferential importations in 1986 have been increased taking account of this Accession;

Whereas special provisions shall be laid down for certain chemical products; whereas equal access for all importers to the entire Community market should be ensured and at the same time greater security in the use of preferential amounts; whereas fixed duty free amounts without allocation amongst the Member States should therefore be opened for those products; whereas the preferential benefit must cease when those amounts are reached;

Whereas, in the case of the Community tariff ceilings listed in Annex I, the desired objectives may be attained by applying a method of administration based on the charging at Community level, against the above-mentioned ceilings, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties, in accordance with the appropriate procedures, as soon as the said ceilings are reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79⁽¹⁾ and Commission Regulation (EEC) No 3040/83⁽²⁾ a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures; to avoid these regularizations leading to excessive tariff ceiling overruns, it is appropriate to provide at the same time that the Commission may take measures to stop the charges;

Whereas such methods of administration call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the quotas, ceilings and other preferential tariff limits, and inform the Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties when any of the ceilings are reached;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions

of the present Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72⁽³⁾, (EEC) No 3065/75⁽⁴⁾ and (EEC) No 1736/75⁽⁵⁾;

Whereas, in order to ensure a better transparency of the system, it is necessary to publish both the annual charges recorded against the tariff measures and the tariff ceilings which have reached the 100 % level;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning, in particular, the administration of quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1.

1. From 1 January to 31 December 1987, the Common Customs Tariff duties on the products listed in Annexes I and II shall be totally suspended. In the case of the products listed in Annex I, this tariff suspension shall be accorded within the framework of tariff quotas, fixed duty free amounts.

The products listed in Annex II shall, as a general rule, be subject to statistical surveillance every three months on the reference base referred to in Article 14.

Spain and Portugal shall apply to the importation of the aforementioned products the customs duties established according to Articles 178 and 365 of the Act of Accession of 1985.

For the purposes of the application of this Regulation, the rates of conversion into national currencies of the value in ECU in which the preferential amounts are expressed shall be those fixed on 1 October 1986 and they shall remain in force from 1 January to 31 December 1987⁽⁶⁾.

2. The arrangements provided for in paragraph 1 shall apply solely:

- to each country or territory listed in column 4 of Annex I, for each of the products or groups of products listed in columns 2 and 3,
- for the same products or groups of products listed in Annex I to every other country or territory listed in Annex III, excepting Yugoslavia,

— to each of the countries or territories listed in Annex III, for the products listed in Annex II.

3. The preferential benefit foreseen in paragraph 1 is not applicable to countries listed in footnote (d) to Annexes I and II.

4. The admittance to the preferential benefit system established by this Regulation is subordinated to the definition of origin of the products which is adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

For products originating in Yugoslavia, which are submitted to Community tariff ceilings within the framework of the agreement between the Community and Yugoslavia, the movement certificate EUR 1 shall be deemed the only documentary evidence for the granting of tariff preferences as provided for by the said Agreement.

5. The Community tariff quotas, fixed duty free amounts and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

Provisions concerning the administration of the Community tariff quota relating to products listed in Annex I

Article 2

The total suspension of customs duties within the framework of the Community tariff quotas referred to in Article 1 (1) tariff duties shall be granted to each country or territory listed in column 4 of Annex I, for the products specified in columns 2 and 3 against the name of the country or territory concerned, together with details in column 5 of the amount of the individual quota.

Article 3

1. A first tranche of 80 % of each of the Community tariff quotas listed in Annex I, the amount of which is shown in column 6 of Annex I, shall be apportioned among the Member States; the shares for each Member State shall, subject to Article 6, be valid until 31 December 1987 and shall be those indicated in column 7 of Annex I against each product or group of products subject to quotas listed therein.

In the case of products falling within heading No 44.15, however, the first tranche shall amount to 98,5 % of the quota amount.

2. The second tranche of each of the tariff quotas shall constitute the reserve specified in each case in column 8 of Annex I.

Article 4

1. Where a Member State has used 90 % or more of one of its initial shares as fixed in Annex I, or of that share minus any portion returned to the reserve pursuant to Article 6, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share, rounded up, should the occasion arise, to the nearest unit.

2. Where a Member State, after exhausting one of its initial shares, has used 90 % or more of the second share drawn by it, that Member State shall draw a third share, under the conditions laid down in paragraph 1, equal to 5 % of its initial share.

3. Where a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve has been exhausted.

4. By way of derogation from paragraphs 1, 2 and 3, Member States may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used up. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

5. Any Member State may, whilst informing the Commission, limit the aggregate total of its additional shares to 60 % or to a higher proportion of its initial share.

Article 5

Without prejudice to the provisions of Article 6, additional shares drawn pursuant to Article 4 shall be valid until 31 December 1987.

Article 6

The Member States shall return to the reserve, not later than 1 October 1987 the unused portion of their initial share which on 15 September 1987 exceeds 15 % of the initial amount. They may return a larger portion if there are grounds for believing that such portion may not be used. At the request of the Commission they may also make anticipatory returns.

The Member States shall, not later than 1 October 1987 notify the Commission of the total quantities of the

products in question imported up to 15 September 1987 and charged against the Community quotas, and of any portion of their initial shares returned to the reserve.

Article 7

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 3 and 4 and shall, as soon as the information reaches it, inform each Member State of the extent to which the reserve has been used up.

It shall, not later than 15 October 1987 inform the Member States of the amount still in reserve following any return of shares pursuant to Article 6.

It shall ensure that, when an amount exhausting the reserve is drawn, the amount so drawn does not exceed the balance available and to this end shall notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 4 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community tariff quotas.

Article 8

The Member States shall take all appropriate measures to ensure free access to the shares which have been allocated to them for importers of the products in question who are established in their territory.

Article 9

By 29 February 1988 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1987. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION II

Provisions concerning the administration of fixed duty free amounts

Article 10

The fixed duty free amounts, relating to products shown in column 10 of Annex I and opened in respect

of countries indicated in the footnote (e), shall be administered by the Commission.

If an importer presents in a Member State a certificate of entry into free circulation, including a request for preferential benefit for a product subject to a fixed duty free amount and if this request is accepted by the Customs authorities the Member State concerned shall draw, by means of notification to the Commission, a quantity corresponding to its needs.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission following the date of acceptance of the certificate of entry into free circulation by the Customs authorities of the Member State concerned, to the extent that the balance of the said amount permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding amount.

If the quantities requested are greater than the available balance of the fixed duty free amount, allocation shall be made on a *pro rata* basis with respect to the requests. Member States shall be informed by the Commission in accordance with the same procedures.

Article 11

1. The Commission shall keep account of the quantities drawn by the Member States according to Article 10 and shall inform each of them as soon as it receives notification of the amounts in question having been used up. It shall ensure that the drawings are limited to the quantities available.

The fact that the fixed amounts have been used shall forthwith be brought to the notice of Member States. This communication shall be the subject of a publication in the *Official Journal of the European Communities*, C Series.

2. Each Member State shall guarantee to importers of the products mentioned above free access to the fixed duty free amounts. It shall take all the measures necessary to ensure that the drawings which are carried out under Article 10 make it possible to charge, without interruption, against these amounts.

SECTION III

Provisions concerning the administration of the Community tariff ceilings relating to products listed in Annex I and the reference base relating to products listed in Annex II

Article 12

Subject to Articles 13 and 14, the preferential tariff ceiling arrangements shall be accorded for products in Annex I, to each of the countries or territories listed in

Annex III, other than those listed in column 4 of Annex I and those shown by the footnote (e) within the limits of the amounts specified in column 10 against each product or group of products.

Article 13

As soon as the individual ceilings, as fixed in accordance with Article 12 and which are laid down for imports into the Community of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the levying of customs duties on imports of the products in question originating in each of the countries and territories concerned may be reintroduced until the end of the period referred to in Article 1 (1).

Article 14

Where the preferential imports of products listed in Annex II, originating in one or more beneficiary countries, causes or threatens to cause economic difficulties in the Community, or in a region of the Community, the levying of customs duties may be reintroduced, once the Commission has had an appropriate exchange of information with the Member States.

The reference base to be considered when examining the situation underlying the damage shall be, as a general rule, equal to 5 % of the total importations into the Community, originating from third countries in 1984.

Article 15

1. The Commission shall reintroduce the levying of customs duties in respect of any of the countries or territories referred to in Article 1 (2), under the conditions laid down in Articles 13 and 14, by means of a Regulation.

In the case of such reintroductions Spain and Portugal, shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

2. By means of a Regulation, the Commission may, even after 31 December 1987, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports, actually made during the period referred to in Article 1 (1), these limits are exceeded.

The Member State which makes such regularization shall communicate the figures of import charges relating to this as and when it occurs to the Commission.

The Commission, on receiving these communications, shall inform the other Member States thereof.

Article 16

Articles 13, 14 and 15 shall not apply to the imports in question originating in the countries set out in Annex IV.

SECTION IV

General provisions

Article 17

1. The extent to which the quotas of the Member States are used up shall be determined on the basis of imports of the products in question entered for free circulation on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

2. Imports of the products in question shall be charged against import ceilings or other preferential tariff limits as and when the products are entered for free circulation, on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

3. Goods may be charged against a ceiling or other preferential tariff limit or admitted under a quota share only if the certificate of origin referred to in paragraphs 1 and 2 is submitted before the date on which the levying of duties is reintroduced.

4. The extent to which the Community tariff quotas and ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

Article 18

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any

supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products in Annex I subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

The Commission can at any moment ask the Member States for import charge figures on the measures

opened as well as other information relating to the management of these measures.

3. The Commission shall ensure the publication in the *Official Journal of the European Communities* (C Series) of the tariff ceilings as and when they reach 100 % utilization.

It shall see that the Statistical Office of the European Communities ensures the publication of the annual state of import charges.

Article 19

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 20

This Regulation shall enter into force on 1 January 1987.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COUNCIL REGULATION (EEC) No 3925/86**of 16 December 1986****applying generalized tariff preferences for 1987 to textile products originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences, commencing in 1971, with particular reference to finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences: whereas it was there agreed that the objectives of the generalized preferences system would not be fully attained by the end of 1980, that it should consequently be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas the Community has therefore decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly

or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise in the African, Caribbean and Pacific States (ACP States) as a result of the system's implementation;

Whereas, however, most of the preference-giving countries exclude textile products from preferential treatment; whereas, under the Community scheme of generalized preferences, these products have always been covered by special arrangements pursuant to which, for cotton textile and similar products, the preferences were originally granted in the form of duty-free ceilings only to those beneficiaries under the generalized preferences scheme which were signatories to the Long-Term Arrangement regarding International Trade in Cotton Textiles (LTA) or which undertook, *vis-à-vis* the Community, commitments similar to those existing under that Arrangement;

Whereas the Long-Term Arrangement has been replaced from 1980 onwards by the Arrangement regarding International Trade in Textiles (MFA), and the Community has therefore, in the case of products covered by the MFA, reserved preferences in the form of duty-free ceilings, for products originating in those countries or territories which signed Bilateral Agreements, in the framework of the MFA, providing for quantitative limitation of their exports of certain textile products to the Community, or in those countries which undertook similar commitments *vis-à-vis* the Community; whereas, such commitments have been undertaken by Argentina, Bolivia, Chile, Costa Rica, Ecuador, Honduras and Nicaragua; whereas, for these products, it is therefore desirable that the Community should continue to apply the generalized tariff preferences on the basis of the same principles until the expiry of the MFA and the Bilateral Agreements concluded with certain supplier countries; whereas it should be provided that countries and territories accepting the renewal of such agreements or giving such commitments after the date of adoption of this Regulation and before 1 January 1987 will be accorded preferential treatment as from 1 February 1987 in respect of the entire volume provided for in this Regulation; whereas countries and territories which accept the renewal of the said agreements or enter into similar commitments after 1 January 1987 will be accorded preferential treatment from the first day of the second month following the date of commitment, in respect of a volume calculated in proportion to the period of the year from the first day of the month following the date of the commitment until 31 December 1987; whereas, in view of the special nature which trade in the prod-

ucts concerned may have, it would appear that the volumes of preferential imports should be determined in terms of tonnes, pieces, or pairs, as appropriate, by reference to the categories into which products are divided and to a uniform percentage, for each of the categories, of total imports into the Community in 1981; whereas, in order to ensure that each of the countries or territories referred to above has access to the preferential volumes, quotas and separate tariff ceilings for each beneficiary, whether or not allocated among the Member States, should be specified for each category of products;

Whereas for products not covered by the MFA it would appear possible to grant the preferences to the countries or territories which are normally beneficiaries in the other industrial sectors;

Whereas, for jute and coir products, it was understood that the preferences would be granted only where special arrangements had been made with the exporting developing countries; whereas these arrangements have hitherto concerned India and Sri Lanka for coir products, and India and Thailand for jute products; whereas, it would appear desirable to maintain also the preferential advantage to the least-developed countries in respect of jute and coir;

Whereas, in respect of textile products, taking account of the renewal of the MFA and the conclusion of Bilateral Agreements with certain supplier countries or territories, a substantial improvement in the arrangements was noted in 1980; whereas such substantial improvement was only made possible by ensuring that the improvement continued to be compatible with the situation in the Community sector concerned and by ensuring that a better balance was achieved in the distribution of the advantages granted to the beneficiary countries or territories; whereas, whilst taking account of the same preoccupations and on the basis of the same principles, a new improvement was made possible for the 1983 preferential exercise in relation to the volumes opened; whereas an increase in the volumes of certain preferential arrangements was made possible in 1984, 1985 and 1986 by taking the year 1981 as reference year for their calculation;

Whereas, for the products not covered by the MFA, the objectives referred to above may be achieved by providing, in respect of each category of products for tariff quotas and for tariff ceilings (individual for each beneficiary) a level corresponding in general to 28 % of the total volume of imports into the Community in 1980 of the category of products in question from all beneficiaries;

Whereas, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least-developed developing countries appearing on the list in Annex V;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 ⁽¹⁾;

Whereas the Community preference arrangements applicable to Yugoslavia for textile products result exclusively from the provisions of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia ⁽²⁾;

Whereas from 1 March 1986, the Kingdom of Spain and the Portuguese Republic shall apply the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession; consequently, the volumes foreseen for the preferential importations have been increased in 1986; whereas the calculation of these increases have been based on past statistics regarding imports into the enlarged Community going back to 1983; whereas the increases thus calculated from the preferential volumes have been differentiated into products covered and not covered by the MFA;

Whereas, consequently, for 1987 the Community should open:

- for each of the categories of products covered by the MFA which are listed in Annex I and for each of the countries and territories specified in column 5 of that Annex, tariff quotas allocated among the Member States and Community tariff ceilings at a zero rate of duty; the limits of the quantities opened are indicated in columns 6 and 7 of the same Annex,
- for each category of products not covered by the MFA shown in Annex II and for each of the countries and territories specified in Annex IV, tariff quotas allocated among the Member States and Community tariff ceilings at a zero rate of duty; the limits of the quantities opened are specified in columns 6 and 7 of the said Annex II,

⁽²⁾ OJ No L 147, 4. 6. 1981, p. 6; OJ No L 41, 14. 2. 1983.

- in respect of the manufactured jute and coir products-listed in Annex III, a total suspension of customs duties for the beneficiary countries specified in column 3 against each of the categories of products shown in column 2;

France	17,5
Ireland	0,9
Italy	14,5
Portugal	0,9
United Kingdom	22,3

Whereas, as regards the Community tariff quotas allocated among the Member States:

- it is necessary to guarantee to all importers equal and continuous access to the abovementioned quotas and uninterrupted application of the rates laid down for those quotas to all imports of the products concerned into all Member States until the quotas have been used up,
- having regard to the abovementioned principles, it would appear that the Community nature of the quotas can be respected by allocating them among the Member States,
- the actual charges against the quotas may relate only to goods which are entered for free circulation and are accompanied by a certificate of origin,
- in order to take into account the differentiated increases in the preferential volumes, two fixed scales should be adopted for allocating the quotas concerned, one for products covered by the MFA and the other for the products not covered by the MFA; whereas the calculation of Member States' shares are based on general economic criteria, relating to external trade in textiles; whereas, however, Spain's and Portugal's calculation of shares, in taking into account the low level of imports into these two Member States of textile products and the imminent expiry of the multifibre agreement, is based on past trade regarding the products concerned; whereas on the basis of the two criteria mentioned above, the percentages for the Member States' initial shares are as follows for the year under consideration:

- products covered by the MFA:

Benelux	9,9
Denmark	2,9
Germany (FR)	27,7
Greece	1,9
Spain	1,3
France	17,8
Ireland	0,9
Italy	14,8
Portugal	0,1
United Kingdom	22,7

- products not covered by the MFA:

Benelux	9,7
Denmark	2,9
Germany (FR)	27,2
Greece	1,9
Spain	2,2

- without affecting the Community nature of the ceilings, it appears possible to provide at this stage for a utilization scheme based on a single allocation among the Member States; whereas, at the present juncture, it appears feasible that such allocation could, in general, be made according to the percentages set out in the table above;

Whereas, as regards the Community tariff ceilings the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, of imports of the products in question against the ceilings as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas the methods of administration for the products listed in Annexes I and II call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation the extent to which charges are made against the quotas and the ceilings and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce customs duties, when any of the ceilings is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures; whereas in order to avoid such regularization causing excessive tariff ceiling overruns, provision should at the same time be made for the Commission to be able to terminate set-offs;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council

Regulations (EEC) No 1445/72 ⁽¹⁾, (EEC) No 3065/75 ⁽²⁾ and (EEC) No 1736/75 ⁽³⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1987, the Common Customs Tariff duties shall be:

- totally suspended in respect of the jute and coir products listed in Annex III,
- totally suspended within the framework of tariff quotas and Community tariff ceilings in respect of the products listed in Annexes I and II.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements laid down in paragraph 1 shall apply only in respect of products originating in the countries and territories:

3. Preferential entry as provided for in this Regulation shall be subject to conformity with the definition of the origin of products determined under the procedure laid down in Article 14 of Regulation (EEC) No 802/68. However, the Community preference arrangements applicable in respect of Yugoslavia shall derive exclusively from the provisions of the Agreement between the Community and Yugoslavia.

4. With regard to carpets, carpeting and rugs of wool or fine animal hair falling within subheading 58.01 A II of the Common Customs Tariff, the certificates of origin for these products shall state the number of knots per metre of warp.

SECTION I

Provisions concerning the administration of the Community tariff ceilings

Article 2

Subject to Articles 3 and 4, preferential tariff treatment shall be accorded for each category of products subjected in Annexes I and II to individual ceilings within the limits of the quantities specified in column 7 of Annexes I and II respectively, to certain or each of the countries or territories of origin listed in column 5 of those Annexes.

Article 3

As soon as the individual ceilings determined in accordance with Article 2 are reached at the Community level, the levying of customs duties on imports of the products in question originating in each of the countries or territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 4

The Commission shall reintroduce, by means of a Regulation, the levying of customs duties in respect of any one of the countries and territories referred to in Article 1 (2), under the conditions laid down in Article 3.

In the case of such a reintroduction, Spain and Portugal shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

By means of a Regulation, the Commission may, even after 31 December 1987, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these limits are exceeded.

The Member State which initiates such regularizations shall communicate to the Commission as and when the figures of import charges relating thereto. The Commission, on receiving these communications, shall inform the other Member States thereof.

COUNCIL REGULATION (EEC) No 3926/86**of 16 December 1986****applying generalized tariff preferences for 1987 in respect of certain agricultural products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products ⁽¹⁾, and in particular Article 12 thereof,

Having regard to the proposal from the Commission ⁽²⁾,

Having regard to the opinion of the European Parliament ⁽³⁾,

Having regard to the opinion of the Economic and Social Committee ⁽⁴⁾,

Whereas, within the context of UNCTAD, the European Economic Community offered to grant tariff preferences on certain processed agricultural products of Chapters 1 to 24 of the Common Customs Tariff which originate in developing countries; whereas the preferential treatment proposed in that offer consists, in respect of certain goods which are subject to the trade arrangements laid down in Regulation (EEC) No 3033/80, of a reduction in the fixed component of the charge applicable to such goods by virtue of that Regulation, and, in respect of products which are subject to the single customs duty, of a reduction in such duty; whereas preferential imports of the products concerned should be effected in general without quantitative restrictions;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preferences scheme would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas it is desirable therefore that the Community continue to apply generalized tariff preferences, in the context of the conclusions reached in UNCTAD and in accordance with the intentions expressed in the said Committee in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer may be withdrawn wholly or in part at a later stage, thus maintaining the possibility of remedying any unfavourable situations which might arise, including in the African, Caribbean and Pacific States (ACP States) following the implementation of the system;

Whereas, when the Community proposed its generalized tariff preferences scheme for the second 10-year period, it envisaged to analyse in 1985 the functioning of the scheme and introduce measures of adjustment that would prove necessary;

Whereas experience from the application of the Community scheme in the first 15 years has shown that the scheme has to an appreciable extent achieved its intended objectives; whereas it is therefore appropriate to maintain its fundamental features, namely a reduction in customs duties without any restriction in the quantities imported for certain agricultural products listed in Annex II, and a reduction in customs duties within the limits of Community tariff quotas for tobacco, soluble coffee and preserved pineapples;

Whereas from 1 March 1986 the Kingdom of Spain and the Portuguese Republic shall apply the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession; whereas the volumes foreseen for the preferential imports in 1986 have been increased to take account of this accession; whereas, in this context, it is appropriate to increase the volumes opened in 1987;

Whereas the rates of conversion into national currency of the preferential amounts expressed in ECU are the rates provided for in the Common Customs Tariff.

Whereas in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, the agricultural products listed in Annex IV, originating in the least-developed developing countries which appear in the list in Annex V to this Regulation, should be totally exempt from customs duties;

Whereas it is necessary to ensure equal and continuous access for all Community importers to the Community

⁽²⁾ OJ No C 289, 17. 11. 1986, p. 109.

tariff quotas and the uninterrupted application of the rate laid down for such quotas to all imports of the products concerned into all Member States until the quotas are used up; whereas the Community nature of the quotas can be respected by apportioning the Community tariff quotas among the Member States; whereas, moreover, to this end and in the context of the utilization system, the actual charges against the quotas may relate only to products which have been entered for free circulation and which are accompanied by a certificate of origin;

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas and to mitigate any inadequacy in the fixed-scale apportionment, the quotas should be divided into two tranches, the first being apportioned among the Member States and the second held as a reserve to cover subsequently the requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve constituted as described tends to avoid making the system of utilization of the quotas excessively rigid, to the detriment of each of the developing countries concerned, and will contribute to achieving the aim already mentioned of improving the generalized preferences scheme;

Whereas Member States may exhaust their initial shares of the tariff quotas at different rates; whereas to avoid disruption of supplies on this account it should be provided that any Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period;

Whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 60 % of their initial share;

Whereas if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79⁽¹⁾ and Commission Regulation (EEC) No 3040/83⁽²⁾, a procedure should be laid down to regularize imports actually made within the quotas and/or other

preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas such methods of administration call for close and particularly rapid cooperation between the Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the tariff quotas and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties in their entirety when the ceiling is reached;

Whereas it is expedient that the Community should authorize the importation of the products referred to in Annex II, originating in the countries and territories listed in Annex III, subject to the customs duties given in respect of each of them, without quantitative limitations; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68⁽³⁾;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72⁽⁴⁾, (EEC) No 3065/75⁽⁵⁾ and (EEC) No 1736/75⁽⁶⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members;

Whereas fisheries products originating in Greenland will benefit from a free access regime under certain conditions included in a specific EEC-Greenland Fisheries Agreement and connected dispositions, and alternatively, in the event that these conditions are no longer met, will be subject to appropriate measures as concerns their import regime;

Whereas in these conditions it does not appear necessary to include these products in the present Regulation,

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Articles 5, 10, 15, 20 and 25, are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community quotas.

Article 29

By 29 February 1988, at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1987. Such measures may also be taken in the event of actual or potential serious disadvantage which is confined to a single region of the Community.

Article 33

3. Each Member State may refer the measure taken by the Commission to the Council within a period of 10 working days following the date on which it was notified. The fact that the matter is referred to the Council shall not cause the measure to be suspended. The Council shall meet immediately. It may, acting on a qualified majority, amend or rescind the measure in question.

Article 34

Articles 32 and 33 shall prejudice neither the application of the safeguard clauses adopted under the common agricultural policy pursuant to Article 43 of the Treaty nor those adopted under the common commercial policy pursuant to Article 113 of the Treaty.

THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL
COMMUNITY, MEETING WITHIN THE COUNCIL,**

of 16 December 1986

**applying for 1987 the generalized tariff preferences for certain steel products originating
in developing countries**

(86/638/ECSC)

THE REPRESENTATIVES OF THE GOVERNMENTS
OF THE MEMBER STATES OF THE EUROPEAN
COAL AND STEEL COMMUNITY, MEETING
WITHIN THE COUNCIL,

In agreement with the Commission,

HAVE DECIDED AS FOLLOWS:

Article 1

1. From 1 January to 31 December 1987, the customs duties applicable to the products listed in Annexes I and II shall be totally suspended within the framework of tariff quotas and ceilings.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements provided for in paragraph 1 shall apply solely:

- in all customs areas of the Community, to each of the countries or territories listed in column 4 of Annex I against each category of products listed in columns 2 and 3,
- in the Community, to each of the other countries or territories listed in Annex III, with the exception of Yugoslavia, for the same categories of products,
- in the Community, to each of the countries or territories listed in Annex III for the other categories of products in Annex II,

subject to observance of the concept of originating products.

3. Preferential entry as provided for in this Decision shall be subject to conformity with the definition of the

origin of products adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 (1).

However, the Community preference arrangements applicable to Yugoslavia shall result exclusively from the provisions contained in the Agreement with that country concerning ECSC products (2); consequently, for products submitted under the said Agreement to Community tariff ceilings or listed in Annex I to this Decision, the movement certificate EUR 1 shall be deemed the only documentary evidence for the granting of tariff preferences.

4. The Community tariff quotas and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

**Provisions concerning the administration of the
Community tariff quotas relating to products listed in
Annex I**

Article 2

The total suspension of customs duties within the limits of the Community tariff quotas referred to in Article 1 (1) shall be accorded to each country or territory listed in column 4 of Annex I in respect of the products indicated against its name in columns 2 and 3 together with details in column 5 of the amount of the individual quotas.

(1) OJ No L 148, 28. 6. 1968, p. 1.

(2) OJ No L 41, 14. 2. 1983, p. 113; OJ No L 237, 27. 8. 1983, p. 1.

Article 3

1. The Member States shall administer their tariff quotas in accordance with their own provisions.

2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the goods in question which have been entered for free circulation, on the basis of the customs value of the said goods, and which are accompanied by a certificate of origin in accordance with the rules referred to in Article 1 (2).

Article 4

Each Member State shall reintroduce the levying of duties which have been suspended in respect of a country or territory listed in column 4 of Annex I as soon as it finds that the charges against its national quota of the products concerned originating in that country or territory have reached the amount laid down in column 6 of Annex I.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to the products listed in Annexes I and II

Article 5

Subject to Articles 6 and 7, the preferential tariff ceiling arrangements shall be accorded:

- for products in Annex I, to each of the countries or territories listed in Annex III, other than those which may be listed in column 4 of Annex I, within the limits of the amounts specified in column 7 of Annex I, against each category of products,
- for products in Annex II, to the countries or territories listed in Annex III, considered individually, within the limits of a Community ceiling corresponding to 102 % of the highest maximum amount valid for 1980 under each of the preferential ceilings opened for that year.

Article 6

1. As soon as the individual ceilings fixed or calculated in accordance with the provisions of Article 5, which are laid down for imports into the Community, under the conditions which it shall determine, of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the Member States may at any time, at the request of any one of them or of the Commission and in respect of the whole of the Community, reintroduce

the levying of the corresponding duties on imports of the products in question from each of the countries or territories concerned until the end of the period referred to in Article 1 (1).

2. Within the framework of the foregoing provisions, the Commission shall coordinate the procedures for reintroducing normal customs duties, in particular by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be published in the *Official Journal of the European Communities*.

3. However, paragraphs 1 and 2 shall not apply to the countries listed in Annex IV.

Article 7

The extent to which ceilings have been used up shall be determined at Community level on the basis of imports charged in the manner laid down in Article 8 (1) and (2).

SECTION III

General provisions

Article 8

1. Imports of the products in question shall be charged against the quota shares and Community ceilings as and when the products are entered for free circulation, on the basis of the customs value of the said products, and are accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (2).

2. Goods may be charged against a ceiling or admitted under a tariff quota only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. For the purposes of the application of this Decision, the value of the ECU, in which the preferential amounts are expressed, and the rate of conversion into national currencies shall be that provided for in the Common Customs Tariff.

4. An amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to Community tariff quotas or ceilings.

Article 9

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statisti-

cal Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Decision. This data, transmitted according to the headings of the nomenclature of goods for external trade statistics of the Community and statistics of trade between Member States (NIMEXE), shall show the country of origin, value, quantity and any supplementary units as defined by Council Regulation (EEC) No 1736/75 ⁽¹⁾.

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products of Annex I subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward the lists of charges to the Commission every 10 days;

these lists shall be forwarded within five days of the end of each 10-day period.

Article 10

The Member States shall, in close cooperation with the Commission, take all necessary measures to ensure that this Decision is applied.

Article 11

The Member States shall take all measures necessary for the implementation of this Decision.

Article 12

This Decision shall enter into force on 1 January 1987.

Done at Brussels, 16 December 1986.
