COMMISSION REGULATION (EEC) No 1113/87
of 22 April 1987
fixing the import levy on molasses

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal,

Having regard to Council Regulation (EEC) No 1785/81 of 30 June 1981 on the common organization of the market in sugar ⁽¹⁾, as last amended by Regulation (EEC) No 229/87 ⁽²⁾, and in particular Article 16 (8) thereof,

Having regard to the opinion of the Monetary Committee,

Whereas Article 16 (1) of Regulation (EEC) No 1785/81 provides for charging a levy on imports of the products listed in Article 1 (1) (c) of that Regulation;

Whereas the import levy on molasses must be equal to the threshold price less the cif price; whereas the threshold price for molasses was fixed by Council Regulation (EEC) No 1453/86 of 13 May 1986 fixing, for the 1986/87 marketing year, the derived intervention prices for white sugar, the intervention price for raw sugar, the minimum prices for A and B beet, the threshold prices and the amount of compensation for storage costs ⁽³⁾, as amended by Regulation (EEC) No 1987/86 ⁽⁴⁾;

Whereas the cif price for molasses is calculated by the Commission for a Community frontier crossing point which was fixed at Rotterdam by Council Regulation (EEC) No 431/68 of 9 April 1968 determining the standard quality for raw sugar and fixing the Community frontier crossing point for calculating cif prices for sugar ⁽⁵⁾;

Whereas this price must be based on the most favourable purchasing opportunities on the world market established for each product on the basis of quotations or prices on that market adjusted for any deviation from the standard quality for which the threshold price is fixed; whereas the standard quality for molasses was defined by Commission Regulation (EEC) No 785/68 of 26 June 1968 determi-

ning the standard quality and laying down detailed rules for calculating the cif price for molasses ⁽⁶⁾;

Whereas, when the most favourable purchasing opportunities on the world market are being established, the Commission must take account of all available information on offers on the world market, on quotations on the exchanges which are important for world trade, on prices recorded on important third-country markets and on sales concluded in international trade of which it has knowledge, either directly or through the agency of the Member States; whereas, under the terms of Article 7 of Regulation (EEC) No 785/68, the Commission may for this purpose take an average of several prices as a basis, provided this average can be regarded as being representative of actual market trends;

Whereas the Commission must disregard information if the goods concerned are not of sound and fair marketable quality or if the price quoted in an offer relates to a small quantity and is not representative of the market; whereas offer prices which can be regarded as not representative of actual market trends must also be disregarded;

Whereas any prices or offer taken into consideration which are not for delivery cif Rotterdam must be adjusted, account being taken in particular of the differences in the cost of transporting the goods between the port of loading and the port of destination and between the port of loading and Rotterdam;

Whereas, if information on molasses of the standard quality is to be comparable, prices must, depending on the quality of the molasses offered, be increased or reduced in the light of the results obtained by applying Article 6 of Regulation (EEC) No 785/68;

Whereas the cif price may, by way of exception, be left unchanged for a limited period if the offer price which served as a basis for the previous calculation of the cif price is not available to the Commission and if the offer prices which are available and which appear not to be sufficiently representative of actual market trends would entail sudden and considerable changes in the cif price;

Whereas the levy must be fixed each week; whereas pursuant to Article 5 of Commission Regulation (EEC) No 837/68 of 28 June 1968 on detailed rules for the

COMMISSION OF THE EUROPEAN COMMUNITIES

EMPLOYMENT AND HOUSING RENOVATION IN EUROPE

The growing crisis in the construction industry affecting Europe since 1974/75 has, apart from brief upswings, worsened considerably since the early 1980s.

Employment levels have declined sharply in the construction industry: in the space of ten years it has lost about one quarter of its workforce.

The crisis can be largely attributed to the impact of the following constraints on construction and civil engineering industry which leave it little room for manoeuvre:

- close ties to the public authorities' budgetary and financial policy leave it little autonomy with respect to macro-economic factors (household incomes, interest rates, etc);
- the structural change in demand resulting in a slowdown, then fall-off, in major public and industrial infrastructure programmes accompanied by the growth of more fragmented work;
- a change in the pattern of investment, which is gradually becoming more 'abstract' — i.e., aimed at rationalization rather than an increase in capacity.
