COUNCIL REGULATION (EEC) No 3635/87**of 17 November 1987****applying generalized tariff preferences for 1988 in respect of certain industrial products
originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽¹⁾,

Having regard to the opinion of the Economic and Social Committee ⁽²⁾,

Whereas, in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences commencing in 1971, notably in respect of finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences expired on 31 December 1980;

Whereas, however, the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preference scheme would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas, therefore, the Community has decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise following implementation of the system,

including such situations in the African, Caribbean and Pacific States (ACP States);

Whereas, since the extension of its generalized tariff preferences scheme for a second 10-year period (1981 to 1990), the Community has decided to modify one of the fundamental characteristics of it to give the beneficiary countries a more equitable access to the preferential advantages. In order to attain this the Community had decided to apply a preferential treatment which takes account of the particular situation of each of the beneficiaries and to proceed to a system of individual tariff ceilings for certain sensitive products; the least-developed countries are not subject to ceilings; ever since then, the annual adaptations of the community scheme responds, for the most part, to the double imperative of the differentiation of the preferential advantages and of simplifications; the identification of the products and the countries to treat selectively takes place with regard to the sensitivity of the sectors and to the Community market situation of the products in question as well as consideration of the degree of industrial development and the competitiveness of these countries;

Whereas preferential tariff treatment is applicable to industrial products of Chapters 25 to 49 and 64 to 97 of the Common Customs Tariff, with the exception of products:

— covered by the ECSC Treaty, which are subject to a separate system,

— contained in the list of products in Part I of Annex II to this Regulation;

Whereas the tariff ceiling arrangements mentioned above must be applied in such a way as to differentiate between the products in Annex I by means, on one hand, of Community tariff quotas and fixed duty free amounts for products originating in the most competitive countries and, on the other hand, by means of ceilings for products in Annex I originating in other less competitive countries:

Whereas the products in Annex II should be made subject to surveillance for essentially statistical purposes;

⁽¹⁾ OJ No C 305, 16. 11. 1987.

⁽²⁾ OJ No C 319, 30. 11. 1987.

Whereas, since the intermediate revision of the scheme for the years 1986 to 1990, the Community has established that:

- the latter responds satisfactorily to the fixed objectives,
- the beneficiary countries continue, however, to use the preferential advantages in an unequal manner,
- the objectives of the scheme have been reached in certain cases by the most competitive beneficiary countries;

that on the basis of the considerations, the Community has decided:

- to maintain for the second half of the decade the fundamental characteristics of the scheme, notably the grant, within certain limits, of the total suspension of custom duties,
- to accentuate the differentiation of the preferential advantages from which the most competitive countries benefit and to enlarge at the same time the preferential access to the least competitive countries;

Whereas provision should be made to continue in 1988 the process of differentiation begun in 1986 concerning the grant of advantages under the scheme to the more competitive countries — both in terms of market share and export capacity — and whereas it is therefore appropriate to reduce the preferential amounts by 50 % for six additional products originating in those countries, marked with three asterisks in Annex I to this Regulation, subject to the tariff quota arrangement; whereas the criteria to be adopted for such a reduction are based on the competitive capacity of the beneficiary country concerned, this capacity being expressed in the case of a specific product either by this country's participation in the Community's total imports or by the ratio of the preferential volume amount opened for this country to the total Community imports from the same country; whereas, in addition, the level of economic development of the country concerned has also been taken into account; whereas, with regard to the application of the first criterion, a share has been set at 20 % of the 1986 total extra-EEC imports of the product being referred to, while recourse to the second criterion is made where the total imports of the product in question have, in accordance with the mean of the years 1985 and 1986, exceeded by at least 10 times the tariff quota amount;

Whereas the first criterion applies to five of the six products mentioned above, while the second criterion applies to one product only;

Whereas the abovementioned reasons that have justified the criteria of competitiveness remain valid and whereas the maintenance of preferential benefit for the most competitive countries is not justified and a redis-

tribution of the supply are necessary; it is appropriate to pursue the differentiation and to initiate the suppression of the preferential benefit for certain countries for three additional products per country, designated by a footnote, meeting the first criterion and which have previously been reduced by 50 %;

Whereas, however, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, charges on products originating in the least developed of the developing countries listed in Annex IV to this Regulation should not be subject to the Community quota, fixed duty free amount or ceiling;

Whereas to reflect better in the preferential amounts the development of commercial exchange flows of the Community these amounts were revised in 1986 and 1987 with regard to the products of Annex I, with a view to the overall improvement of the system;

Whereas, for the same reasons, the process of revision was extended to the reference bases, taking into consideration the examination of the situation resulting from preferential importations of other products covered by this Regulation; whereas at the same time the method of calculation of the abovementioned reference bases has been revised and for this purpose a percentage of total importations for each of these products into the Community has been taken into account; according to the new method of calculation, the reference bases for 1988 correspond in general to 5 % of the total importations into the Community in 1986 of each of the products concerned originating in a third country: Whereas products subject to reference bases corresponding to 1 % only of the said importations are indicated in Annex II;

Whereas the Community has adopted with effect from 1 January 1988 a combined nomenclature for goods which meets the requirements of the Common Customs Tariff and the nomenclature of goods for the external trade statistics of the Community and statistics of trade between Member States; whereas this nomenclature has, for the purposes of encompassing other Community measures, been expanded into an integrated tariff of the European Communities (Taric); whereas since the nomenclature used for the scheme of generalized tariff preferences is based on the Common Customs Tariff, it is therefore necessary to identify goods covered by this Regulation by means of the combined goods nomenclature and, where applicable, by the relevant Taric code numbers;

Whereas for the purposes of applying this Regulation, the rates of conversion into national currencies of the

value in ECU in which the preferential amounts are expressed shall be those fixed on the first working day of October 1987 and they shall remain in force from 1 January to 31 December 1988 ⁽¹⁾;

Whereas, in respect of the Community tariff quotas specified in Annex I, it is necessary in particular to ensure equal and continuous access for all Community importers to the abovementioned quotas, and to ensure uninterrupted application of the rate laid down for those quotas to all imports of the products concerned into all the Member States until the quotas are used up; whereas, having regard to the principles set out above, an arrangement whereby the quotas are apportioned among the Member States would best respect their Community nature; whereas, moreover, to this end and in the context of such an arrangement, the actual charges against the quotas could relate only to products entered for free circulation and accompanied by a certificate of origin;

Whereas the application of the generally accepted principles in respect of the apportionment of the Community tariff quotas which have been opened hitherto cannot be reconciled with the continuity necessary for the application of the tariff preferences concerned; whereas it would accordingly be advisable to adopt a fixed scale for apportioning the Community tariff quotas concerned among the Member States; whereas, using as a basis general economic criteria relating to external trade, gross national product and population, the percentages for the initial shares of the Member States in the quota amounts are as follows for the quota year under consideration:

Benelux	10,0 %
Denmark	4,6 %
Germany	24,3 %
Greece	1,9 %
Spain	5,9 %
France	17,8 %
Ireland	0,9 %
Italy	15,0 %
Portugal	1,5 %
United Kingdom	18,1 %

Whereas, however, taking into account the more precise information already available concerning trade in certain types of plywood, blockboard, laminboard, bat-board and similar laminated products the abovementioned percentages should be adjusted as follows:

Benelux	4,40 %
Denmark	5,90 %

Germany	7,69 %
Greece	0,19 %
Spain	2,09 %
France	0,30 %
Ireland	2,02 %
Italy	0,86 %
Portugal	0,16 %
United Kingdom	76,40 %

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas given in Annex I and to mitigate any inadequacy in the initial allocation, the quotas should, as a general rule, be divided into two tranches, the first being apportioned among Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve thus constituted tends to avoid making the system of utilization of the quota excessively rigid, to the detriment of each of the developing countries concerned, and contributes to achieving the aim already mentioned of improving the generalized preferences system; whereas, to this end and to accord importers in each Member State some degree of security, the first tranche of the Community quota should be fixed at about 80 % of the quota volumes;

Whereas Member States may exhaust their initial shares for the tariff quotas given in Annex I at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that each Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period; whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 70 % of their initial share;

Whereas, if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas such tariff exemptions should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 ⁽²⁾;

⁽¹⁾ OJ No C 263, 2. 10. 1987, p. 1.

⁽²⁾ OJ No L 148, 28. 6. 1968, p. 1

Whereas the Community preference arrangements applicable to Yugoslavia result exclusively from the Agreement between the Community and the Socialist Federal Republic of Yugoslavia ⁽¹⁾ whereas, therefore, for products which are submitted to Community tariff ceilings within the framework of the Agreement between the Community and this country on the one hand, and for the products listed in Annex I of the present Regulation on the other hand, the movement certificate EUR 1 shall be deemed the only documentary evidence for the granting of tariff preferences provided for by the said Agreement;

Whereas from 1 March 1986, the Kingdom of Spain and the Portuguese Republic shall apply the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession; whereas, therefore, the envisaged volumes of the preferential imports must be increased;

Whereas special provisions shall be laid down for certain chemical products; whereas equal access for all importers to the entire Community market should be ensured and at the same time greater security in the use of preferential amounts; whereas fixed duty free amounts without allocation amongst the Member States should therefore be opened for those products; whereas the preferential benefit must cease when those amounts are reached;

Whereas, in respect of these fixed duty free amounts, it is necessary in particular to ensure equal and continuous access for all Community importers and to ensure uninterrupted application of the rate laid down for those quotas to all imports of the products concerned into all the Member States until the amounts are used up; whereas, to this end and in the context of such an arrangement, the actual charges against the amounts could relate only to products entered for free circulation and accompanied by a certificate of origin;

Whereas, if a considerable balance remains in one of the fixed duty free amount shares of one or other Member State, it is essential that that Member State returns it in order to prevent a part of the Community amount from remaining unused in one Member State when it could be used in others;

Whereas, in the case of the Community tariff ceilings listed in Annex I, the desired objectives may be attained by applying a method of administration based on the charging at Community level, against the above-mentioned ceilings, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make

provision for the reintroduction of the levying of customs duties, in accordance with the appropriate procedures, as soon as the said ceilings are reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties; and in particular to Council Regulation (EEC) No 1430/79 ⁽²⁾ and Commission Regulation (EEC) No 3040/83 ⁽³⁾ a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures; to avoid these regularizations leading to excessive tariff ceiling overruns, it is appropriate to provide at the same time that the Commission may take measures to stop the charges;

Whereas such methods of administration call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the quotas, ceilings and other preferential tariff limits, and inform the Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties when any of the ceilings are reached;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of the present Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1445/72 ⁽⁴⁾, (EEC) No 3065/75 ⁽⁵⁾ and (EEC) No 1736/75 ⁽⁶⁾;

Whereas, in order to ensure a better transparency of the system, it is necessary to publish both the annual charges recorded against the tariff measures and the tariff ceilings which have reached the 100 % level;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning, in particular, the administration of quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

- covered by the Treaty establishing the European Coal and Steel Community,
- contained in the list of basic products in Part I of Annex II,
- entitled to exemption from customs duties in the Common Customs Tariff.

For the products of Annex I this tariff suspension shall be accorded within the framework of tariff quotas, fixed duty free amounts and ceilings. The other products covered by this Regulation shall, as a general rule, be subject to statistical surveillance every three months on the reference base referred to in Article 15.

Spain and Portugal shall apply to the importation of the aforementioned products the customs duties established according to Articles 178 and 365 of the Act of Accession of 1985.

For the purposes of the application of this Regulation, the rates of conversion into national currencies of the value in ECU in which the preferential amounts are expressed shall be those fixed on 1 October 1987 and they shall remain in force from 1 January to 31 December 1988 ⁽¹⁾.

2. The arrangements provided for in paragraph 1 shall apply solely:

- to each country or territory listed in column 4 of Annex I, for each of the products or groups of products listed in columns 2 and 3,
- for the same products or groups of products listed in Annex I to every other country or territory listed in Annex III, except Yugoslavia,
- to each of the countries or territories listed in Annex III, for other products.

3. The preferential benefit foreseen in paragraph 1 is not applicable to countries listed in footnote (d) to Annex I nor to countries listed in Part 2 of Annex II.

4. The admittance to the preferential benefit system established by this Regulation is subordinated to the definition of origin of the products which is adopted in

accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

For products originating in Yugoslavia, which are submitted to Community tariff ceilings within the framework of the agreement between the Community and Yugoslavia, the movement certificate EUR 1 shall be deemed the only documentary evidence for the granting of tariff preferences as provided for by the said Agreement.

5. The Community tariff quotas, fixed duty free amounts and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

Provisions concerning the administration of the Community tariff quota relating to products listed in Annex I

Article 2

The total suspension of customs duties within the framework of the Community tariff quotas referred to in Article 1 (1) tariff duties shall be granted to each country or territory listed in column 4 of Annex I, for the products specified in columns 2 and 3 against the name of the country or territory concerned, together with details in column 5 of the amount of the individual quota.

Article 3

1. A first tranche of 80 % of each of the Community tariff quotas listed in Annex I, the amount of which is shown in column 6 of Annex I, shall be apportioned among the Member States; the shares for each Member State shall, subject to Article 6, be valid until 31 December 1988 and shall be those indicated in column 7 of Annex I against each product or group of products subject to quotas listed therein.

In the case of products of Order No 10.0630, however, the first tranche shall amount to 98,5 % of the quota amount.

2. The second tranche of each of the tariff quotas shall constitute the reserve specified in each case in column 8 of Annex I.

Article 4

1. Where a Member State has used 90 % or more of one of its initial shares as fixed in Annex I, or of that share minus any portion returned to the reserve pursuant to Article 6, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share,

⁽¹⁾ OJ No C 263, 2. 10. 1987, p. 1.

rounded up, should the occasion arise, to the nearest unit.

2. Where a Member State, after exhausting one of its initial shares, has used 90 % or more of the second share drawn by it, that Member State shall draw a third share, under the conditions laid down in paragraph 1, equal to 5 % of its initial share.

3. Where a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve has been exhausted.

4. By way of derogation from paragraphs 1, 2 and 3, Member States may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used up. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

5. Any Member State may, whilst informing the Commission, limit the aggregate total of its additional shares to 70 % or to a higher proportion of its initial share.

Article 5

Without prejudice to the provisions of Article 6, additional shares drawn pursuant to Article 4 shall be valid until 31 December 1988.

Article 6

The Member States shall return to the reserve, not later than 1 October 1988 the unused portion of their initial share which on 15 September 1988 exceeds 15 % of the initial amount. They may return a larger portion if there are grounds for believing that such portion may not be used. At the request of the Commission they may also make anticipatory returns.

The Member States shall, not later than 1 October 1988 notify the Commission of the total quantities of the products in question imported up to 15 September 1988 and charged against the Community quotas, and of any portion of their initial shares returned to the reserve.

Article 7

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 3

and 4 and shall, as soon as the information reaches it, inform each Member State of the extent to which the reserve has been used up.

It shall, not later than 15 October 1988 inform the Member States of the amount still in reserve following any return of shares pursuant to Article 6.

It shall ensure that, when an amount exhausting the reserve is drawn, the amount so drawn does not exceed the balance available and to this end shall notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 4 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community tariff quotas.

Article 8

The Member States shall take all appropriate measures to ensure free access to the shares which have been allocated to them for importers of the products in question who are established in their territory.

Article 9

By 28 February 1989 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1988. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION II

Provisions concerning the administration of fixed duty free amounts

Article 10

The fixed duty free amounts, shown in column 10 of Annex I and opened in respect of countries indicated in the footnote (e), shall be administered by the Commission.

If an importer presents in a Member State a certificate of entry into free circulation, including a request for preferential benefit for a product subject to a fixed duty free amount and if this request is accepted by the Customs authorities the Member State concerned shall draw, by means of notification to the Commission, a quantity corresponding to its needs.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission following the date of acceptance of the certificate of entry into free circulation by the Customs authorities of the Member State concerned, to the extent that the balance of the said amount permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding amount.

If the quantities requested are greater than the available balance of the fixed duty free amount, allocation shall be made on a *pro rata* basis with respect to the requests, pursuant to the fourth subparagraph. Member States shall be informed by the Commission in accordance with the same procedures.

Article 11

1. The Commission shall keep account of the quantities drawn by the Member States conforming to Article 10 and shall inform each of them as soon as it receives notification of the exhausting of the volumes opened. It shall ensure that the drawing which uses up any of these amounts is limited to the balance available and, to this end, specify the amount to the Member State which proceeds to the last drawing.

The fact that the fixed amounts have been used shall forthwith be brought to the notice of Member States. This communication shall be the subject of a publication in the *Official Journal of the European Communities*, C Series.

2. The Member States shall take all the appropriate measures to ensure that the drawings that they effect pursuant to Article 10 may be charged without interruption against the fixed duty free amounts.

Each Member State shall guarantee free access to these amounts to the importers of the products in question as far as the balance of the volumes opened permits.

Article 12

By 28 February 1989 at the latest, Member States shall notify the Commission of the final total of the quantities charged at 31 December 1988. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION III

Provisions concerning the administration of the Community tariff ceilings relating to products listed in Annex I and the reference base relating to products other than those listed in Annex I

Article 13

Subject to Articles 14 and 15 the preferential tariff ceiling arrangements shall be accorded for products in Annex I, to each of the countries or territories listed in Annex III, with the exception of Yugoslavia, other than those listed in column 4 of Annex I and those shown by the footnote (e) within the limits of the amounts specified in column 10 against each product or group of products.

Article 14

As soon as the individual ceilings, as fixed in accordance with Article 13 and which are laid down for imports into the Community of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the levying of customs duties on imports of the products in question originating in each of the countries and territories concerned may be reintroduced until the end of the period referred to in Article 1 (1).

Article 15

Where the preferential imports of products listed in Annex II, originating in one or more beneficiary countries, causes or threatens to cause economic difficulties in the Community, or in a region of the Community, the levying of customs duties may be reintroduced, once the Commission has had an appropriate exchange of information with the Member States.

The reference base to be considered when examining the situation underlying the damage shall be, as a general rule, equal to 5 % of the total importations into the Community, originating from third countries in 1984.

Article 16

1. The Commission shall reintroduce the levying of customs duties in respect of any of the countries or territories referred to in Article 1 (2), under the conditions laid down in Articles 14 and 15, by means of a Regulation.

In the case of such reintroductions, Spain and Portugal shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

2. By means of a Regulation, the Commission may, even after 31 December 1988, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports, actually made during the period referred to in Article 1 (1), these limits are exceeded.

The Member State which makes such regularization shall communicate the figures of import charges relating to this as and when it occurs to the Commission. The Commission, on receiving these communications, shall inform the other Member States thereof.

Article 17

Articles 14, 15 and 16 shall not apply to the imports in question originating in the countries set out in Annex IV.

SECTION IV

General provisions

Article 18

1. The extent to which the quotas of the Member States are used up shall be determined on the basis of imports of the products in question entered for free circulation on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (4).

2. Imports of the products in question shall be charged against import ceilings or other preferential tariff limits as and when the products are entered for free circulation, on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (4).

3. Goods may be charged against a ceiling or other preferential tariff limit or admitted under a quota share only if the certificate of origin referred to in paragraphs 1 and 2 is submitted before the date on which the levying of duties is reintroduced.

4. The extent to which the Community tariff quotas and ceilings have been used up shall be determined at

Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

Article 19

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the codes of the Combined Nomenclature and, where applicable, of the Taric, shall show the country of origin, value, quantity and any supplementary units as defined by Regulation (EEC) No 1736/75.

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products in Annex I subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

The Commission can at any moment ask the Member States for import charge figures on the measures opened as well as other information relating to the management of these measures.

3. The Commission shall ensure the publication in the *Official Journal of the European Communities* (C Series) of the tariff ceilings as and when they reach 100 % utilization.

It shall see that the Statistical Office of the European Communities ensures the publication of the annual state of import charges.

Article 20

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 21

This Regulation shall enter into force on 1 January 1988.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COUNCIL REGULATION (EEC) No 3636/87**of 17 November 1987****applying generalized tariff preferences for 1988 in respect of certain agricultural products originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽¹⁾,

Having regard to the opinion of the Economic and Social Committee ⁽²⁾,

Whereas, within the context of UNCTAD, the European Economic Community offered to grant tariff preferences on certain processed agricultural products of Chapters I to 24 of the Common Customs Tariff which originate in developing countries; whereas the preferential treatment proposed in that offer consists, in respect of certain goods which are subject to the trade arrangements laid down in Regulation (EEC) No 3033/80 ⁽³⁾, of a reduction in the fixed component of the charge applicable to such goods by virtue of that Regulation, and, in respect of products which are subject to the single customs duty, of a reduction in such duty; whereas preferential imports of the products concerned should be effected in general without quantitative restrictions;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preferences scheme would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas it is desirable therefore that the Community continue to apply generalized tariff preferences, in the context of the conclusions reached in UNCTAD and in accordance with the intentions expressed in the said Committee in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer may be withdrawn wholly or in part at a later stage, thus maintaining the possibility of remedying any unfavourable situations which might arise, including in the African, Caribbean and Pacific States (ACP States) following the implementation of the system;

Whereas experience from the application of the Community scheme in the first 15 years has shown that the scheme has to an appreciable extent achieved its intended objectives; whereas it is therefore appropriate to maintain its fundamental features, namely a reduction in customs duties without any restriction in the quantities imported for certain agricultural products listed in Annex II, and a reduction in customs duties within the limits of Community tariff quotas for tobacco, soluble coffee and preserved pineapples;

Whereas from 1 March 1986 the Kingdom of Spain and the Portuguese Republic shall apply the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession;

Whereas the Community has adopted with effect from 1 January 1988 a combined nomenclature for goods which meets the requirements of the Common Customs Tariff and the nomenclature of goods for the external trade statistics of the Community and statistics of trade between Member States; whereas this nomenclature has, for the purposes of encompassing other Community measures, been expanded into an integrated tariff of the European Communities (Taric); whereas since the nomenclature used for the scheme of generalized tariff preferences is based on the Common Customs Tariff, it is therefore necessary to identify goods covered by this Regulation by means of the combined goods nomenclature and, where applicable, by the relevant Taric code numbers;

Whereas for the purposes of applying this Regulation, the rates of conversion into national currencies of the value of the ECU in which the preferential amounts are expressed shall be those fixed on the first working day of October 1987 and they shall remain in force from 1 January to 31 December 1988 ⁽⁴⁾;

Whereas in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, the agricultural products listed in Annex IV, originating in the least-developed developing countries which appear in the list in Annex V to this Regulation, should be totally exempt from customs duties;

⁽²⁾ OJ No C 319, 30. 11. 1987.

⁽³⁾ OJ No L 323, 29. 11. 1980, p. 1.

⁽⁴⁾ OJ No C 263, 2. 10. 1987, p. 1.

Whereas it is necessary to ensure equal and continuous access for all Community importers to the Community tariff quotas and the uninterrupted application of the rate laid down for such quotas to all imports of the products concerned into all Member States until the quotas are used up; whereas the Community nature of the quotas can be respected by apportioning the Community tariff quotas among the Member States; whereas, moreover, to this end and in the context of the utilization system, the actual charges against the quotas may relate only to products which have been entered for free circulation and which are accompanied by a certificate of origin;

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas and to mitigate any inadequacy in the fixed-scale apportionment, the quotas should be divided into two tranches, the first being apportioned among the Member States and the second held as a reserve to cover subsequently the requirements of Member States which have exhausted their initial shares; whereas, moreover, the reserve constituted as described tends to avoid making the system of utilization of the quotas excessively rigid, to the detriment of each of the developing countries concerned, and will contribute to achieving the aim already mentioned of improving the generalized preferences scheme;

Whereas Member States may exhaust their initial shares of the tariff quotas at different rates; whereas to avoid disruption of supplies on this account it should be provided that any Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period; whereas, however, it seems advisable to permit the Member States to limit the exercise of their total obligation to draw on the reserve amount to at least 60 % of their initial share;

Whereas if, at a specified date in the quota period, a considerable balance remains in one of the initial shares of one or other Member State, it is essential that that Member State return a portion of it to the corresponding reserve in order to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and

in particular to Council Regulation (EEC) No 1430/79 ⁽¹⁾ and Commission Regulation (EEC) No 3040/83 ⁽²⁾, a procedure should be laid down to regularize imports actually made within the quotas and/or other preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas such methods of administration call for close and particularly rapid cooperation between the Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the tariff quotas and inform Member States thereof;

Whereas it is expedient that the Community should authorize the importation of the products referred to in Annex II, originating in the countries and territories listed in Annex III, subject to the customs duties given in respect of each of them, without quantitative limitations; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 ⁽³⁾;

Whereas the Community intends by means of a Regulation to fix a nil rate of duty under the Common Customs Tariff for traditional imports of sweet potatoes not for human consumption following the agreements entered into with the beneficiary exporting countries; whereas pending the introduction of this regime, the 1987 generalized preferences rate of duty for sweet potatoes for animal feed shall continue in 1988 to apply in accordance with the provisions of Regulation (EEC) No 474/87 ⁽⁴⁾, the generalized preference for sweet potatoes for human consumption falling within combined nomenclature code ex 0714 20 00 being maintained;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics, Regulations (EEC) No 1736/75 ⁽⁵⁾ and (EEC) No 3367/87 ⁽⁶⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members;

Whereas fisheries products originating in Greenland will benefit from a free access regime under certain conditions included in a specific EEC-Greenland Fisheries Agreement and connected dispositions, and alternatively, in the event that these conditions are no longer met, will be subject to appropriate measures as concerns their import regime;

Whereas in these conditions it does not appear necessary to include these products in the present Regulation,

HAS ADOPTED THIS REGULATION:

SECTION III

GENERAL PROVISIONS

Article 28

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 4, 5,

9, 10, 14, 15, 19, 20, 24 and 25 and shall, as soon as the information reaches it, inform each State of the extent to which the reserves have been used up.

It shall inform the Member States not later than:

- 21 November 1988, of the amount still in the reserve following any return of shares pursuant to Articles 7 and 12,
- 15 October 1988, of the amount still in the reserve following any return of shares pursuant to Articles 17 and 27,
- 15 September 1988, of the amount still in the reserves following any return of shares pursuant to Article 22.

It shall ensure that, when an amount exhausting a reserve is drawn, the amount so drawn does not exceed the balance available and shall to this end notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Articles 5, 10, 15, 20 and 25, are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community quotas.

Article 29

By 28 February 1989, at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1988.

Up to the limit of the balances remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the Member States thereof.

Article 30

1. The Member States shall ensure free access to the shares allocated, or those that have been drawn to them, for importers of the said goods.

2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the said goods which have been entered for free circulation and which are accompanied by a certificate of origin in accordance with the rules referred to in Articles 3, 8, 13, 18 and 23.

3. Goods shall qualify for a tariff quota only if the certificate of origin referred to in paragraph 2 is submitted before the date on which the levying of duties is reintroduced.

Article 31

Where the Commission so requests, and in any case at least monthly, the Member States shall inform it of imports of the products in question charged against their shares. This information shall show both the value expressed in ECU and the quantity expressed in tonnes.

Article 32

Where the Commission finds that imports of products benefiting from the treatment provided for in Articles 1, 3, 8, 13, 18 and 23 are imported into the Community in quantities or at prices which place or are likely to place Community producers of similar or directly competitive products at a serious disadvantage or create an unfavourable situation in the ACP States, the levying of customs duties applied within the Community may be reintroduced in whole or in part on imports of the products in question from the country or countries or territory or territories which are the cause of such disadvantage. Such measures may also be taken in the event of actual or potential serious disadvantage which is confined to a single region of the Community.

Article 33

1. The Commission may decide, by means of a Regulation, to reintroduce the levying of customs duties for a specified period, in order to ensure that Article 32 is applied.

2. Where action on the part of the Commission is requested by a Member State, the former shall give its decision within a period of not more than 10 working days from the date of receipt of the request and shall inform the Member State of this decision.

3. Each Member State may refer the measure taken by the Commission to the Council within a period of 10 working days following the date on which it was notified. The fact that the matter is referred to the Council shall not cause the measure to be suspended. The Council shall meet immediately. It may, acting on a qualified majority, amend or rescind the measure in question.

Article 34

Articles 32 and 33 shall prejudice neither the application of the safeguard clauses adopted under the common agricultural policy pursuant to Article 43 of the Treaty nor those adopted under the common commercial policy pursuant to Article 113 of the Treaty.

Article 35

The Commission shall see that the Statistical Office of the European Communities ensures the publication of the annual statements of set-off.

Article 36

Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 37

This Regulation shall enter into force on 1 January 1988.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 November 1987.

in developing countries**

(87/564/ECSC)

THE REPRESENTATIVES OF THE GOVERNMENTS
OF THE MEMBER STATES OF THE EUROPEAN
COAL AND STEEL COMMUNITY, MEETING
WITHIN THE COUNCIL,

In agreement with the Commission,

HAVE DECIDED AS FOLLOWS:

Article 1

1. From 1 January to 31 December 1988, the customs duties applicable to the products listed in Annexes I and II shall be totally suspended within the framework of tariff quotas and ceilings.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements provided for in paragraph 1 shall apply solely:

- in all customs areas of the Community, to each of the countries or territories listed in column 4 of Annex I against each category of products listed in columns 2 and 3,
- in the Community, to each of the other countries or territories listed in Annex III, with the exception of Yugoslavia, for the same categories of products,
- in the Community, to each of the countries or territories listed in Annex III for the other categories of products in Annex II,

subject to observance of the concept of originating products.

3. Preferential entry as provided for in this Decision shall be subject to conformity with the definition of the

origin of products adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 ⁽¹⁾.

However, the Community preference arrangements applicable to Yugoslavia shall result exclusively from the provisions contained in the Agreement with that country concerning ECSC products ⁽²⁾; consequently, for products submitted under the said Agreement to Community tariff ceilings or listed in Annex I to this Decision, the movement certificate EUR 1 shall be deemed the only documentary evidence for the granting of tariff preferences.

4. The Community tariff quotas and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

**Provisions concerning the administration of the
Community tariff quotas relating to products listed in
Annex I**

Article 2

The total suspension of customs duties within the limits of the Community tariff quotas referred to in Article 1 (1) shall be accorded to each country or territory listed in column 4 of Annex I in respect of the products indicated against its name in columns 2 and 3 together with details in column 5 of the amount of the individual quotas.

⁽¹⁾ OJ No L 148, 28. 6. 1968, p. 1.

⁽²⁾ OJ No L 41, 14. 2. 1983, p. 113; OJ No L 237, 27. 8. 1983, p. 1.

Article 3

1. The Member States shall administer their tariff quotas in accordance with their own provisions.
2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the goods in question which have been entered for free circulation, on the basis of the customs value of the said goods, and which are accompanied by a certificate of origin in accordance with the rules referred to in Article 1 (3).

Article 4

Each Member State shall reintroduce the levying of duties which have been suspended in respect of a country or territory listed in column 4 of Annex I as soon as it finds that the charges against its national quota of the products concerned originating in that country or territory have reached the amount laid down in column 6 of Annex I.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to the products listed in Annexes I and II

Article 5

Subject to Articles 6 and 7, the preferential tariff ceiling arrangements shall be accorded:

- for products in Annex I, to each of the countries or territories listed in Annex III, other than those which may be listed in column 4 of Annex I, within the limits of the amounts specified in column 7 of Annex I, against each category of products,
- for products in Annex II, to the countries or territories listed in Annex III, considered individually, within the limits of a Community ceiling corresponding to 102 % of the highest maximum amount valid for 1980 under each of the preferential ceilings opened for that year.

Article 6

1. As soon as the individual ceilings fixed or calculated in accordance with the provisions of Article 5, which are laid down for imports into the Community, under the conditions which it shall determine, of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the Member States may at any time, at the request of any one of them or of the Commission and in respect of the whole of the Community, reintroduce the levying of the corresponding duties on imports of the products in question from each of the countries or

territories concerned until the end of the period referred to in Article 1 (1).

2. Within the framework of the foregoing provisions, the Commission shall coordinate the procedures for reintroducing normal customs duties, in particular by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be published in the *Official Journal of the European Communities*.

3. However, paragraphs 1 and 2 shall not apply to the countries listed in Annex IV.

Article 7

The extent to which ceilings have been used up shall be determined at Community level on the basis of imports charged in the manner laid down in Article 8 (1) and (2).

SECTION III

General provisions*Article 8*

1. Imports of the products in question shall be charged against the quota shares and Community ceilings as and when the products are entered for free circulation, on the basis of the customs value of the said products, and are accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (3).

2. Goods may be charged against a ceiling or admitted under a tariff quota only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. For the purposes of the application of this Decision, the rates of conversion into national currencies of the value in ECU in which the preferential amounts are expressed shall be those fixed on 1 October 1987 and they shall remain in force from 1 January to 31 December 1988 (1).

4. An amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to Community tariff quotas or ceilings.

Article 9

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant

(1) OJ No C 263, 2. 10. 1987, p. 1.

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward the list of charges effected during the previous month. In the case of products of Annex I subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward the lists of charges to the Commission every 10 days;

these lists shall be forwarded within five days of the end of each 10-day period.

Article 10

The Member States shall, in close cooperation with the Commission, take all necessary measures to ensure that this Decision is applied.

Article 11

The Member States shall take all measures necessary for the implementation of this Decision.

Article 12

This Decision shall enter into force on 1 January 1988.
