COUNCIL REGULATION (EEC) No 3782/87**of 3 December 1987****applying generalized tariff preferences for 1988 to textile products originating in developing countries**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽¹⁾,

Having regard to the opinion of the Economic and Social Committee ⁽²⁾,

Whereas in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences, commencing in 1971, with particular reference to finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preferences system would not be fully attained by the end of 1980, that it should consequently be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas the Community has therefore decided to apply generalized tariff preferences, in the context of

the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise in the African, Caribbean and Pacific States (ACP States) as a result of the system's implementation;

Whereas, however, most of the preference-giving countries exclude textile products from preferential treatment; whereas, under the Community scheme of generalized preferences, these products have always been covered by special arrangements pursuant to which, for cotton textile and similar products, the preferences were originally granted in the form of duty-free ceilings, only to those beneficiaries under the generalized preferences scheme which were signatories to the Long-Term Arrangement regarding International Trade in Cotton Textiles (LTA) or which undertook, *vis-à-vis* the Community, commitments similar to those existing under that Arrangement;

Whereas the Long-Term Arrangement has been replaced from 1980 onwards by the Arrangement regarding International Trade in Textiles (MFA), and the Community has therefore, in the case of products covered by the MFA, reserved preferences in the form of duty-free ceilings, for products originating in those countries or territories which signed Bilateral Agreements, in the framework of the MFA, providing for quantitative limitation of the exports of certain textile products to the Community, or in those countries which undertook similar commitments *vis-à-vis* the Community; whereas, such commitments have been undertaken by Bolivia, Chile, Costa Rica, Ecuador, Honduras, Iran, Nicaragua and Venezuela; whereas for these products, it is therefore desirable that the

Community should continue to apply the generalized tariff preferences on the basis of the same principles until the expiry of the MFA and the Bilateral Agreements concluded with certain supplier countries; whereas it should be provided that countries and territories accepting the renewal of such agreements or giving such commitments after the date of adoption of this Regulation and before 1 January 1987 will be accorded preferential treatment as from 1 February 1988 in respect of the entire volume provided for in this Regulation; whereas countries and territories which accept the renewal of the said agreements or enter into similar commitments after 1 January 1988 will be accorded preferential treatment from the first day of the second month following the date of commitment, in respect of a volume calculated in proportion to the period of the year from the first day of the month following the date of the commitment until 31 December 1988; whereas, in view of the special nature which trade in the products concerned may have, it would appear that the volumes of preferential imports should be determined in terms of tonnes, pieces, or pairs, as appropriate;

Whereas for other textile products and apparel listed in Annex II it would appear possible to grant the preferences to the countries or territories which are normally beneficiaries in the other industrial sectors;

Whereas, for jute and coir products, it was understood that the preferences would be granted only where special arrangements had been made with the exporting developing countries; whereas these arrangements have hitherto concerned India and Sri Lanka for coir products, and India and Thailand for jute products; whereas, it would appear desirable to maintain also the preferential advantage to the least-developed countries in respect of jute and coir;

Whereas, during the five yearly review of the GSP for the years 1986 to 1990, the Community decided to postpone a revision of the textile scheme until a new MFA agreement is negotiated; whereas this Agreement was renewed for a further period of five years from 1 August 1986 and an improvement of the textile scheme is possible;

Whereas this improvement must aim towards better distribution of the offer, on the one hand, and its simplified administration on the other hand;

Whereas the preferential advantages are not used equally by beneficiary countries and it is necessary to ensure a more balanced usage of these advantages, particularly for the less competitive countries, in order to improve preferential access for these latter countries, it is necessary to institute a new phase of differentiation between beneficiary countries of the preferential benefits; this differentiation comprises withdrawal of the abovementioned advantages for certain product categories

originating in the most competitive countries, the criteria adopted being based on the competitive capacity of the beneficiary country concerned, this capacity being expressed, for individual product categories, by that country's participation in total Community imports; whereas for the application of this criteria a 10 % share of the total extra-EEC imports averaged over three years (1983, 1984, 1985) is taken; whereas it is necessary to make adjustments to this criteria when:

- the gross national product per head of the country concerned is low and the country does not provide more than 5 % of total Community imports of textile products and apparel,
- the total exports of textile products of the country concerned comprise almost exclusively a single product;

Whereas particular measures are applicable, according to the sensitivity of products, to countries with a low gross national product *per capita* whose share in the total Community imports of textile products exceeds 5 %;

Whereas the level of economic development of the country concerned has also been taken into account for these products;

Whereas the revisions of the preferential quantities made for 1984, 1985 and 1986 did not permit substantial improvements in the offer which does not currently reflect the reality of commercial trends nor respond to the needs of the less-developed producer countries to permit real growth in the textile scheme; since there is therefore a need to update the volumes opened and revise the calculation method for these quantities; whereas it seems appropriate to take into account a fixed percentage of total Community imports for each category of products; whereas, according to this new method of calculation, for each beneficiary country, the quantity opened corresponds in general to 1 % of total Community importations of the category of products in question, excepting the most competitive countries for which the quantities opened are 0,2 % of these importations;

Whereas for the other textile products and apparel listed in Annex II the abovementioned targets can be attained by providing for each category of product individual tariff limits per beneficiary, corresponding in general to 5 % of total Community importations of the product categories in question;

Whereas in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least-developed developing countries appearing on the list in Annex V;

Whereas the Community has adopted with effect from 1 January 1988 a combined nomenclature for goods which meets the requirements of the Common Customs Tariff and the nomenclature of goods for the external trade statistics of the Community and statistics of trade between Member States; whereas this nomenclature has, for the purposes of encompassing other Community measures, been expanded into an integrated tariff of the European Communities (Taric); whereas since the nomenclature used for the scheme of generalized tariff preferences is based on the Common Customs Tariff, it is therefore necessary to identify goods covered by this Regulation by means of the Combined Goods Nomenclature and, where applicable, by the relevant Taric code numbers;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 ⁽¹⁾;

Whereas the Community preference arrangements applicable to Yugoslavia for textile products result exclusively from the provisions of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia ⁽²⁾;

Whereas from 1 March 1986, the Kingdom of Spain and the Portuguese Republic shall apply the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession;

Whereas, consequently, for 1988 the Community should open:

- for each of the categories of products covered by Annex I, the tariff quota allocated amongst the Member States for each of the countries and territories specified in column 5 of that Annex, and Community tariff ceilings at a zero rate of duty for each of the other countries and territories listed in Annex IV; the limits of the quantities opened are indicated in columns 6 and 10 of Annex I,
- for each category of products shown in Annex II and for each of the countries and territories specified in Annex IV excluding Yugoslavia, quotas and Community tariff ceilings at a zero rate of duty, the limits of the quantities opened are specified in columns 6 and 7 of the said Annex II,
- in respect of the manufactured jute and coir products listed in Annex III, a total suspension of cus-

toms duties for the beneficiary countries specified in column 3 against each of the categories of products shown in column 2,

HAS ADOPTED THIS REGULATION:

COUNCIL REGULATION (EEC) No 3783/87

of 3 December 1987

concerning the administration of the generalized tariff preferences applicable for 1988 to textile products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3782/87, of 3 December 1987, applying the generalized tariff preferences for 1988 to textile products originating in developing countries⁽¹⁾, and in particular Article 2 thereof,

Having regard to the proposal from the Commission,

Whereas the Council has adopted generalized tariff preferences for 1988 applicable to textile products originating in developing countries;

Whereas it is therefore appropriate to specify the relevant management provisions;

Whereas, in order to ensure that each of the countries or territories referred to in Annex I to Regulation (EEC) No 3782/87 has access to the preferential volumes, quotas and separate tariff ceilings for each beneficiary should be specified for each category of products and in view of the links which continue to exist with international control of trade in textiles, it is appropriate to allocate the quotas listed in the Annexes to Regulation (EEC) No 3782/87 between the Member States according to the scale contained within the MFA framework, establishing for each of the Member States participation percentages as follows:

Benelux	9,5 %
Denmark	2,7 %
Germany	25,5 %
Greece	1,5 %
Spain	7,5 %
France	16,5 %
Ireland	0,8 %
Italy	13,5 %
Portugal	1,5 %
United Kingdom	21,0 %

Whereas for the quotas for textile products and apparel listed in Annex II to Regulation (EEC) No 3782/87 allocation amongst Member States is appropriate according to the percentages set out above;

Whereas, as regards the Community tariff quotas allocated among the Member States:

- it is necessary to guarantee to all importers equal and continuous access to the abovementioned quotas and uninterrupted application of the rates laid down for them to all imports of the products concerned into all Member States until they have been used up,
- having regard to the abovementioned principles, it would appear that the Community nature of the quotas can be respected by allocating them among the Member States,
- drawings against the quotas can only be made for goods entered for free circulation accompanied by a certificate of origin;

Whereas, as regards the Community tariff ceilings the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, of imports of the products in question against the ceilings as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas the methods of administration for the products listed in Annexes I and II to Regulation (EEC) No 3782/87 call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation the extent to which charges are made against the quotas and the ceilings and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for Commission to be able to take appropriate measures to reintroduce customs duties, when any of the ceilings is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Regulation (EEC) No 1430/79⁽²⁾ and Regulation (EEC) No 3040/83⁽³⁾, a procedure should be laid down to regularize imports actually made within the preferential tariff limits opened under Regulation (EEC) No 3782/87 and thus provision should be made for the Commission to be able to take appropriate measures; whereas in order to avoid such regu-

larization causing excessive tariff ceiling overruns, provision should at the same time be made for the Commission to be able to terminate set-offs,

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of Regulation (EEC) No 3782/87 and to apply to the collection, preparation and transmission of these statistics Regulations (EEC) No 1736/75 ⁽¹⁾ and No 3367/87 ⁽²⁾;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

The quotas and ceilings established by Regulation (EEC) No 3782/87 shall be administered according to the provisions of Sections I and II.

SECTION I

Article 3

As soon as the individual ceilings determined in accordance with Article 2 are reached at the Community level, the levying of customs duties on imports of the products in question originating in each of the countries or territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 of Regulation (EEC) No 3782/87.

Article 4

one of the countries and territories referred to in Article of Regulation (EEC) No 3782/87, under the conditions laid down in Article 3 of this Regulation.

In the case of such a reintroduction, Spain and Portugal shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

By means of a regulation, the Commission may, even after 31 December 1988, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 of Regulation (EEC) No 3782/87, these limits are exceeded.

The Member State which initiates such regularizations shall communicate to the Commission as and when the figures of import charges relating thereto. The Commission, on receiving these communications, shall inform the other Member States thereof.
