(*) See the additional code corresponding to the composition of the merchandise.

(**) If the goods contain butter reduced in price under the Regulation indicated in Table 6 of Chapter 4 of the additional codes, the amount indicated in additional code 7xxx shall be reduced, for formula A and formula C products, by the amount indicated in additional code 5xxx and, for formula B products, by that indicated in additional code 6xxx. The additional code to be declared will be 5xxx or 6xxx as appropriate.

(**) For products falling within CN code 2106 90 99, the amounts indicated for additional codes 7001, 7002, 7003 and 7004 are applicable only to liquid preparations which after diluting or other treatment are intended for the manufacture of beverages for consumption.

N.B. For the application of the additional code:

Starch/Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9).

However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

Sucrose/Invert Sugar/Isoglucose

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods.

However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

Note: In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.

Milk proteins

Milk proteins, excluding those contained in the whey, casein and/or caseinates, added to the product.
