(¹) If the goods contain butter reduced in price under the Regulation indicated in Table 7 of Chapter 4 of the additional codes, the amount indicated in additional code 7xxx shall be reduced, for formula A and formula C products, by the amount indicated in additional code 5xxx and, for formula B products, by that indicated in additional code 6xxx. The additional code to be declared will be 5xxx or 6xxx as appropriate (x representing any figure from 0 to 9).

(*) See the additional codes related to the contents of the goods by weight of, respective milkfat, milk proteins, starch/glucose, and sucrose/invert sugar/isoglucose. These codes are mentioned in the Annex I to the TARIC in the tables of Chapters 17, 18, 19 and 21. The numbers of the tables are mentioned above in the column 'Table'. The tables are reprinted (hereafter) (in OJ No L 167 of 1. 7. 1988, p. 47) without prejudice to any later modification of the TARIC.

N.B. For the application of the additional code:

Starch/Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9).

However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

Sucrose/Invert Sugar/Isoglucose

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods.

However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

Note: In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.

Milk proteins

Milk proteins, excluding those contained in the whey, casein and/or caseinates, added to the product.
