COUNCIL REGULATION (EEC) No 3947/88

of 11 December 1988

fixing, for 1989, certain measures for the conservation and management of fishery resources, applicable to vessels flying the flag of a Member State, other than Spain and Portugal, in waters falling under the sovereignty or within the jurisdiction of Portugal

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 351 thereof,

Having regard to the proposal from the Commission,

Whereas, pursuant to Article 351 of the Act of Accession, it is for the Council to fix the fishing possibilities and the corresponding number of Community vessels which may fish in the waters referred to in that Article;

Whereas these possibilities are determined, with respect to pelagic species not subject to the system of total allowable catches (TACs) and quotas, other than highly migratory species, on the basis of the situation of the fishing activities of the Member States apart from Spain, in Portuguese waters for the period prior to accession; whereas there is a need to ensure stock conservation, taking account moreover of the limits placed on fishing by Portuguese vessels for similar species in waters of the Member States, apart from Spain;

Whereas, for 1989, no fishing possibilities for species not subject to TACs and quotas are granted to Portugal in the waters of the Member States apart from Spain;

Whereas the specific conditions governing the fishing activities of vessels exploiting stocks of highly migratory species, for which catch possibilities are granted, should be laid down, whereas the limits concerning the zones and the periods of fishing of these vessels are laid down by Article 351 (2), (3) and (4) of the Act of Accession;

Whereas the fishing activities covered by this Regulation are subject to the control measures provided for by Regulation (EEC) No 2241/87 ⁽¹⁾, as well as to the specific detailed rules drawn up in accordance with the second subparagraph of Article 351 (5) of the Act of Accession,

HAS ADOPTED THIS REGULATION:

Article 1

The number of vessels flying the flag of a Member State, other than Spain and Portugal, authorized to fish in waters falling under the sovereignty or within the jurisdiction of Portugal, as provided for in Article 351 of the Act of Accession and the procedures for access, shall be as set out in the Annex.

Article 2

This Regulation shall enter into force on 1 January 1989.

It shall be applicable until 31 December 1989.

COUNCIL REGULATION (EEC) No 3951/88

of 11 December 1988

fixing catch possibilities for 1989 for certain fish stocks and groups of fish stocks in the
Regulatory Area as defined in the NAFO Convention

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources ⁽¹⁾, as amended by the Act of Accession of Spain and Portugal, and in particular Article 11 thereof,

Having regard to the proposal from the Commission,

Whereas, pursuant to Article 2 of Regulation (EEC) No 170/83, it falls to the Council to prepare, in the light of the available scientific advice and, in particular, of the report drawn up by the Scientific and Technical Fisheries Committee, the conservation measures necessary to achieve the aims set out in Article 1 of the said Regulation;

Whereas the Community has signed the United Nations Convention on the Law of the Sea, which contains principles and rules relating to the conservation and management of the living resources of the sea;

Whereas the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries, hereinafter referred to as the NAFO Convention, was approved by the Council in its Regulation (EEC) No 3179/78 ⁽²⁾ and entered into force on 1 January 1979;

Whereas, in the framework of its wider international obligations, the Community participates in efforts to conserve fish stocks arising in international waters;

Whereas conservation efforts should be assessed on the basis of relevant scientific data so as to permit the implementation of conservation measures suited to the biological situation of stocks and their foreseeable development depending on the various options for exploiting them;

Whereas the present state of biological data as analysed by international scientific organizations and the conclusions which may be drawn therefrom should be taken as a basis for formulating choices regarding the management of stocks;

Whereas the extent to which such stocks are fished by the fleets of the Member States should be viewed in the light of overall fishing activity and the contribution made hitherto by the Community towards their conservation should be taken into account;

Whereas, in accordance with Article 3 of Regulation (EEC) No 179/83, it falls to the Council to establish the total allowable catches (TACs) by stock or group of stocks, the share available for the Community and also the specific conditions under which the catches must be made;

Whereas, in order to ensure effective management, the TACs available for the Community in 1989 should be fairly allocated among the Member States in accordance with Article 4 of the said Regulation;

Whereas the fishing activities covered by this Regulation are subject to the control measures provided for by Council Regulation (EEC) No 2241/87 of 23 July 1987 establishing certain control measures for fishing activities ⁽³⁾ and by Council Regulation (EEC) No 1956/88 of 9 June 1988 adopting provisions for the application of the scheme of joint international inspection adopted by the Northwest Atlantic Fisheries Organization ⁽⁴⁾,

⁽³⁾ OJ No L 207, 29. 7. 1987, p. 1.

⁽⁴⁾ OJ No L 175, 6. 7. 1988, p. 1.

HAS ADOPTED THIS REGULATION:

Article 1

1. Catches in 1989 of the species set out in Annex I by vessels flying the flag of a Member State in the Regulatory Area as defined in Article 1 (2) of the NAFO Convention shall be limited, within the parts of the Regulatory Area referred to in that Annex, to the quotas set out therein.

2. By-catches of the species set out in Annex I taken in areas in which no allocation for directed fishing is provided for by this Regulation shall not exceed, for each of the species on board set out in Annex I, 2 500 kilograms or 10 % by weight of the total catch, whichever is the greater.

Article 2

In addition to complying with Articles 5, 6, 7 and 8 of Regulation (EEC) No 2241/87, skippers shall enter in the logbook the information listed in Annex II.

In complying with Article 9 of that Regulation, Member States shall also inform the Commission of catches of species not subject to quota.

Article 3

Member States shall inform the Commission of all vessels flying their flag which intend to engage in fishing or in the

processing of sea-fish in the area referred to in Article 1 (1) at least 30 days before the intended commencement of such activity or, as the case may be, not later than the 20th day following its entry into force of this Regulation. This information shall include:

- (a) name of vessel;
- (b) official registration number of the vessel assigned by the competent national authorities;
- (c) home port of the vessel;
- (d) name of owner or charterer of the vessel;
- (e) a declaration that the master has been provided with a copy of the regulations in force in the Regulatory Area;
- (f) the principal target species of the vessel while fishing within the Regulatory Area;
- (g) the sub-areas where the vessel will be expected to fish.

Article 4

This Regulation shall enter into force on 1 January 1989.

It shall apply until 31 December 1989.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
