2. If one of the bodies mentioned in paragraph 1 has reason to suspect that:

- a wine or batch of wines as defined in Article 2, being or having been traded between Austria and the Community, does not comply with rules governing the wine sector in the Community and/or the Republic of Austria, and
- this non-compliance is of particular interest to the other Contracting Party and could result in administrative measures or legal proceedings being taken,

5. Paragraphs 3 and 4 shall also apply to translations of descriptions provided for by Austrian legislation or of a Member State of the Community where the translation into the language or languages of the other Contracting Party results in a word which is liable to be misleading as to the origin, nature or quality of the wine thus described.

Article 6

1. Article 5 shall also apply:

- where descriptions, trademarks, names, inscriptions or illustrations which directly or indirectly give false or misleading information as to the provenance, origin, nature, vine variety or material qualities of the wine appear on containers or packaging, in advertising, or in official or commercial documents relating to wines whose descriptions are protected under this Agreement,

- or
- (c) contain misleading information or information likely to be misleading concerning in particular the geographical origin, the vine variety, vintage year or superior quality.

Article 7

Article 8

1. Each of the Contracting Parties may, if necessary for attainment of the objectives of this Agreement, request of the other Contracting Party in the form of a note that authorization be given for import or temporary admission only if a document duly endorsed by the competent authorities accompanies the wine.

The said document must enable the wine to be identified and must certify, in accordance with conditions to be laid down by mutual agreement between the Contracting Parties in accordance with the procedure referred to in Article 13 (d) that the wine in question

— has been produced in accordance with current rules for wine growing and wine production in the territory of the Contracting Party,

— complies with the current rules on the composition, marketing and description and especially as regards the particulars referred to in Article 3 (1) in the territory of the Contracting Party in which the wine is offered for direct human consumption.

Article 11

The protection afforded by this Agreement to descriptions of wines shall be without effect on the provisions governing, now or in the future, the importation of these wines into the territory of each of the Contracting Parties.

Article 12

This Agreement shall not preclude any more extensive protection afforded, now or in the future, to descriptions protected by this Agreement, by the Contracting Parties under their internal legislation or other international agreements.

In particular, the competent bodies of the Republic of Austria and the Commission of the European Communities shall:

- (e) meet if necessary to discuss technical matters arising from application of this Agreement.

Article 14

The Contracting Parties shall take all general and specific measures likely to ensure that the obligations laid down by this Agreement are fulfilled. They shall ensure that the objectives set out in the Agreement are attained.

Article 15

If one of the Contracting Parties considers that the other has failed to fulfil an obligation under this Agreement, it may take appropriate precautionary measures to enable the Agreement to be applied.

Article 16

The Agreement shall apply, on the one hand, to the territories in which the Treaty establishing the European Economic Community applies and under the conditions laid down in that Treaty and, on the other hand, to the territory of the Republic of Austria.

Article 17

The Protocol and the Exchange of Letters annexed to this Agreement shall form an integral part thereof.

Article 18

This Agreement is drawn up in duplicate in the Danish, Dutch, English, French, German, Greek, Italian, Portuguese and Spanish languages, all these texts being equally authentic.
