THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Act of Accession of Spain and Portugal, and in particular Articles 53 and 213 thereof,

Having regard to Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products <sup>(1)</sup>, as amended by Regulation (EEC) No 3743/87 <sup>(2)</sup>, and in particular Articles 6 and 8 thereof,

Whereas, in accordance with the second indents of Articles 53 (1) and 213 (1) of the Act of Accession, the variable component applicable to imports of goods covered by Regulation (EEC) No 3033/80 into the two new Member States from third countries is to be increased or reduced, as the case may be, by an accession compensatory amount;

Whereas the average threshold prices to be taken into account for the months of February, March and April 1989 for the basic products specified in Article 2 of Regulation (EEC) No 3033/80 are as follows:

<sup>(1)</sup> Starch: Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9).

However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

<sup>(2)</sup> Sucrose/Invert sugar/Isoglucose:

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods.

However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal by weight, to that of fructose.

**Note:** In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.
