COMMISSION REGULATION (EEC) No 1641/91

of 14 June 1991

fixing the monetary compensatory amounts applicable in the agricultural sector and certain coefficients required for their application

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 1677/85 of 11 June 1985 on monetary compensatory amounts in agriculture ⁽¹⁾, as last amended by Regulation (EEC) No 2205/90 ⁽²⁾, and in particular Article 9 thereof,

Having regard to Commission Regulation (EEC) No 3153/85 of 11 November 1985 laying down detailed rules for calculation of monetary compensatory amounts ⁽³⁾, as last amended by Regulation (EEC) No 3672/89 ⁽⁴⁾, and in particular Article 6 (3) thereof,

Having regard to Commission Regulation (EEC) No 3155/85 of 11 November 1985 providing for the advance fixing of monetary compensatory amounts ⁽⁵⁾, as last amended by Regulation (EEC) No 3247/89 ⁽⁶⁾, and in particular Article 6 (2) thereof,

Whereas, in accordance with Article 1 of Regulation (EEC) No 1677/85, if, for the currency of a Member State, there is a difference between the agricultural conversion rate and the central rate, or, where applicable, the market rate, that Member State must apply monetary compensatory amounts in intra-Community trade and in trade with third countries;

Whereas a Member State for which the central rate, or, where appropriate, the market rate indicates a value for the currency as expressed in ecus higher than the agricultural conversion rate charges monetary compensatory

amounts on imports and pays them on exports; whereas these amounts are called 'positive monetary compensatory amounts'; whereas a Member State for which the central rate, or, where appropriate, the market rate expresses a value for a Member State's currency as expressed in ecus lower than the agricultural conversion rate charges monetary compensatory amounts on exports and pays them on imports; whereas these amounts are called 'negative monetary compensatory amounts';

Whereas, however, the monetary compensatory amounts apply only where the differences between the agricultural conversion rate and the central rate, or, where appropriate, the market rate would cause disturbances in trade in agricultural products;

Whereas, pursuant to the second subparagraph of Article 5 (2) of Regulation (EEC) No 1677/85, the real monetary gap is equal:

(a) in respect of those Member States whose currencies are maintained as between themselves within a spread at any given time of a maximum of 2,25 %, to the percentage representing, for the currency of the Member State concerned, the difference between:

- the agricultural conversion rate,
- and
- the central rate;

(b) in respect of Member States other than those referred to in (a), to the percentage differences between:

- the agricultural conversion rate,
- and
- the average rate of the ecu as published in the C series of the *Official Journal of the European Communities*, recorded over a period to be determined; whereas that period, under Article 2 (1) of Commission Regulation (EEC) No 3153/85 runs from the Wednesday of one week to the Tuesday of the following week;

⁽¹⁾ OJ No L 164, 24. 6. 1985, p. 6.

⁽²⁾ OJ No L 201, 31. 7. 1990, p. 9.

⁽³⁾ OJ No L 310, 21. 11. 1985, p. 4.

⁽⁴⁾ OJ No L 358, 8. 12. 1989, p. 28.

⁽⁵⁾ OJ No L 310, 21. 11. 1985, p. 22.

⁽⁶⁾ OJ No L 314, 28. 10. 1989, p. 51.

Whereas, notwithstanding the aforementioned Article 5, the central rates to be referred to for the calculation of the compensatory amounts are to be multiplied by a correcting factor, pursuant to Article 6 (1) of Regulation (EEC) No 1677/85;

Whereas the monetary gap to be applied is equal to the real monetary gap minus a neutral margin of:

- 10 points in the olive oil sector,
- 5 points in the wine and poultry sector,
- 1,5 points in all other sectors, except for the Netherlands where the neutral margin is 1 point;

Whereas, however, a percentage of:

- 0 is applied for as long as, after deduction of the neutral margin, the result obtained is equal to or less than 0,50 but exceeds 0,
- 1 is applied for as long as, after deduction of the neutral margin, the result obtained is equal to or less than 1 but more than 0,50;

Whereas, pursuant to Article 8 of Regulation (EEC) No 3153/85, where there are real monetary gaps differentiated according to product for a Member State, all the monetary compensatory amounts are to be adjusted if the applied monetary gap is adjusted for any one of the products concerned following adjustments of the conversion rates used for calculation of the monetary gaps; whereas the adjustment of the conversion rate for pigmeat pursuant to Article 6a of Regulation (EEC) No 1677/85 is to be considered such an adjustment;

Whereas, pursuant to Council Regulation (EEC) No 1678/85 ⁽¹⁾, as last amended by Regulation (EEC) No 1640/91 ⁽²⁾, new agricultural conversion rates for the milk and milk products and beef and veal sectors take effect from 17 June 1991;

Whereas, in view of the foregoing, the monetary compensatory amount must be calculated by reference to a gap of zero for the Member States maintaining their currencies as between themselves within a maximum spread at any one time of 2,25 %;

Whereas under Article 2 (1) of Regulation (EEC) No 3153/85, read with Article 9 (2) of Regulation (EEC) No 1677/85, the monetary compensatory amounts are

calculated on the basis of the rates for the reference period from 5 to 11 June 1991; whereas this results in the following monetary gaps to be applied:

— *United Kingdom:*

cereals, sugar	— 1,1
other sectors	0

— *Greece:*

milk and milk products, beef and veal,	
olive oil	— 1,0
cereals, sugar	— 10,3
eggs, poultry and albumins, wine	— 6,8
pigmeat	— 3,1

— *Spain:*

milk and milk products, beef and veal	+ 3,9
cereals	+ 4,0
sugar	+ 3,5
other sectors	0

— *Portugal:*

all products	0;
--------------	----

Whereas for the basic products, the monetary compensatory amounts are equal to the amounts obtained by applying the monetary gap to the common prices;

Whereas for derived products, the monetary compensatory amounts are equal to the incidence, on the price of the product concerned, of the application of the monetary compensatory amount to the price of the basic product or products on which they depend;

Whereas poultry products are deemed to be derived for the calculation of monetary compensatory amounts from cereals;

Whereas, under Article 6a of Regulation (EEC) No 1677/85 the monetary compensatory amounts in the pigmeat sector are fixed on the basis of a price equal to 35 % of the basic price; whereas, however, the agricultural conversion rates of Member States are adjusted, so as to avoid the creation of new monetary gaps; whereas no adjustment may be made that would give a difference for a Member State of more than eight points between the monetary gap applicable in the pigmeat sector and that applicable in the cereals sector;

Whereas, under Article 4 (3) (a) of Regulation (EEC) No 3153/85, for sugar, the monetary compensatory

amount is calculated on the basis of the intervention price increased by the amount of the levy charged on sugar of Community origin under the storage cost offsetting scheme;

Whereas, under Article 4 (3) (b) of Regulation (EEC) No 3153/85, for beef and veal, the monetary compensatory amount is calculated on the basis of the intervention price for R3 carcasses of male animals in the Member State concerned, less 20 %;

Whereas, under Article 4 (3) (c) of Regulation (EEC) No 3153/85, for milk and milk products, the monetary compensatory amounts:

- are calculated on the basis of the intervention prices for butter and for skimmed-milk powder, less 5 %;
- for all products except skimmed-milk powder, butter and products falling within CN code 0405 00 90 are calculated without taking into account the processing costs included in the intervention prices for butter and for skimmed-milk powder;

Whereas, under Article 4 (3) (d) of Regulation (EEC) No 3153/85, for cereals, the monetary compensatory amounts are calculated on the basis of the intervention prices for the products concerned, less 7,5 %;

Whereas, under Article 4 (3) (e) of Regulation (EEC) No 3153/85, for wine, the monetary compensatory amount is calculated on the basis of the minimum guaranteed price;

Whereas, pursuant to Article 4 (3) (g) of Regulation (EEC) No 3153/85, as regards olive oil, the monetary compensatory amounts are calculated on the basis of the following prices:

CN code	Price used
1509 10 10	Intervention price for lampante olive oil with 5° acidity
1509 10 90	Intervention price for semi-fine olive oil
1509 90 00	Price used for CN code 1509 10 10, multiplied by a coefficient of 1,10
1510 00 10	Price used for CN code 1509 10 10, multiplied by a coefficient of 0,47 and reduced by ECU 9,1/100 kg
1510 00 90	Price used for CN code 1510 00 10, multiplied by a coefficient of 1,22

Whereas, for olive oils put up in a way meeting the requirements for the granting of the consumption aid and for the release to free circulation of olive oil from third countries, the monetary compensatory amount is to be calculated on the basis of the price as indicated above

minus the consumption aid, after deduction of the amount withheld pursuant to Article 11 (6) of Council Regulation (EEC) No 136/66/EEC⁽¹⁾, as last amended by Regulation (EEC) No 3577/90⁽²⁾, for information and promotion purposes;

Whereas, pursuant to Article 5 of Regulation (EEC) No 3153/85, monetary compensatory amounts are not applicable for:

- products falling within CN codes 2007 91 10, 2007 91 30, 2007 91 90, 2007 99 20 and 2007 99 57 and covered by Council Regulation (EEC) No 426/86⁽³⁾, as last amended by Regulation (EEC) No 2201/90⁽⁴⁾, with a sugar content of more than 50 % by weight,
- goods covered by Council Regulation (EEC) No 3033/80⁽⁵⁾, as last amended by Regulation (EEC) No 1436/90⁽⁶⁾,

where the monetary compensatory amount is less than the equivalent of ECU 3 per 100 kg of goods;

Whereas the specific characteristics of certain products warrant the non-application of monetary compensatory amounts;

Whereas the monetary compensatory amounts apply in trade between the Member States and with third countries; whereas, however:

- in trade with a new Member State, the accession compensatory amounts, the fixed components and other amounts provided for under accession measures, and
- in trade with third countries, import charges, or parts thereof, and import subsidies and export refunds and levies

fixed in ecus and applicable to products subject to monetary compensatory amounts are multiplied by the monetary coefficient;

Whereas, according to Article 6 (3) of Regulation (EEC) No 3153/85, the monetary coefficient is to be established by taking the abovementioned neutral margins into consideration;

⁽⁵⁾ OJ No L 323, 29. 11. 1980, p. 1.

⁽⁶⁾ OJ No L 138, 31. 5. 1990, p. 9.

Whereas, for goods coming under Regulation (EEC) No 3033/80, the import charges are fixed in a single amount; whereas, on the other hand, the refunds to be granted are those applicable for the basic products from which those goods are obtained; whereas this should therefore be taken into consideration, by taking account of the neutral margins to be applied for the basic products concerned, when the monetary coefficients to be applied for those goods are fixed;

Whereas Article 6 (1) of Regulation (EEC) No 3155/85 provides that the monetary compensatory amounts fixed in advance must be adjusted where a new agricultural conversion rate, which has been announced publicly before the application for advance fixing is lodged, takes effect; whereas that situation has arisen and whereas the adjustments in question should be fixed;

Whereas the new monetary compensatory amounts must be applied in compliance with the date on which the changes in the basic factors for calculating the monetary compensatory amounts take effect;

Whereas, it should be made clear that the codes used are those of the combined nomenclature as defined in Council Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff⁽¹⁾, as last amended by Regulation (EEC) No 1056/91⁽²⁾; whereas the additional codes are defined in the tables in the Appendix to Annex I to this Regulation and whereas the additional table numbers shown in the parts refer to the chapter indicated in the first two digits of the codes of the combined nomenclature; whereas, for the sake of clarity, certain tables should be provided with explanatory notes on the way they are to apply; whereas the versions of Tables 4.3, 4.5, 4.6 and 4.7 applicable on 16 June 1991 must be adapted to take account of market developments for milk and milk products;

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 14 June 1991.

Whereas monetary compensatory amounts now applying and certain coefficients and rates required for their application were fixed by Commission Regulation (EEC) No 1207/90⁽³⁾, as last amended by Regulation (EEC) No 1531/91⁽⁴⁾; whereas that Regulation may be repealed;

Whereas the measures provided for in this Regulation are in accordance with the opinions of the relevant management committees,

HAS ADOPTED THIS REGULATION:

(¹) If composite food preparations (including prepared dishes) containing sausages are classified within CN code 1601 because of their composition, the monetary compensatory amount is applied only on the net weight of the sausages, the meat and the offal, including fats of any kind or origin, which make part of these preparations.

(²) The monetary compensatory amounts applicable to sausages in containers which also contain preservative liquid are based on the net weight, i.e. after the deduction of the weight of the liquid.

- (¹) Where the yield of the raw sugar differs from that of the standard quality defined by Regulation (EEC) No 431/68 (OJ No L 89, 10. 4. 1968, p. 3) the monetary compensatory amount shall be adjusted in accordance with the provisions of Article 2 of Regulation (EEC) No 837/68 (OJ No L 151, 30. 6. 1968, p. 42).
- (²) For flavoured or coloured sugar the monetary compensatory amount per 100 kg of the product in question shall be equal to the amount indicated multiplied by the sucrose content expressed as a percentage.
- (³) The sucrose content, including other sugars expressed as sucrose, shall be determined in accordance with Article 7 (2) of Regulation (EEC) No 837/68 in the case of imports and in accordance with Article 13 of Regulation (EEC) No 394/70 (OJ No L 50, 4. 3. 1970, p. 1) in the case of exports.

(¹) If the goods contain butter reduced in price under the Regulation indicated in Table 7 of Chapter 4 of the additional codes, the amount indicated in additional code 7xxx shall be reduced, for formula A and formula C products, by the amount indicated in additional code 5xxx and, for formula B products, by that indicated in additional code 6xxx. The additional code to be declared will be 5xxx or 6xxx as appropriate (x representing any figure from 0 to 9).

(*) See the additional codes related to the contents of the goods by weight of, respective milkfat, milk proteins, starch/glucose, and sucrose/invert sugar/isoglucose. These codes are mentioned in Annex I to the TARIC in the tables of Chapters 17, 18, 19 and 21. The numbers of the tables are mentioned above in the column 'Table'. The tables are reprinted (See page 52 of this Official Journal) without prejudice to any later modification of the TARIC.

NB: For the application of the additional code:

Starch/Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9).

However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

Sucrose/Invert Sugar/Isoglucose

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods.

However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

Note: In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.

Milk proteins

Milk proteins, excluding those contained in the whey, casein and/or caseinates, added to the product.

(¹) Starch/Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9).

However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

(²) Sucrose/Invert sugar/Isoglucose

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods.

However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

N. B. In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.

(³) Milk proteins

Milk proteins, excluding those contained in the whey, casein and/or caseinates, added to the product.

(¹) Starch/Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9). However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

(²) Sucrose/Invert sugar/Isoglucose

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods. However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

N. B. In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.

(³) Milk proteins

(¹) Starch/Glucose

The content of the goods (as presented) in starch, its degradation products i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9).

However, where a mixture of glucose and fructose is declared (in whatever form) or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

(²) Sucrose/Invert sugar/Isoglucose

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) or found to be present in the goods.

However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

N.B. In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.

(³) Milk proteins

Milk proteins, excluding those contained in the whey, casein and/or caseinates, added to the product.

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1677/85 of 11 June 1985 on monetary compensatory amounts in agriculture ⁽¹⁾, as last amended by Regulation (EEC) No 2205/90 ⁽²⁾, and in particular Article 9 thereof,

Whereas the monetary compensatory amounts introduced by Regulation (EEC) No 1677/85 were fixed by Commission Regulation (EEC) No 1641/91 ⁽³⁾, on the basis of the central rates and, for certain Member States, on the basis of the exchange rates referred to in Article 3 of Commission Regulation (EEC) No 3153/85 of 11 November 1985 laying down detailed rules for the calculation of monetary compensatory amounts ⁽⁴⁾, as last amended by Regulation (EEC) No 3672/89 ⁽⁵⁾;

Whereas, in accordance with Article 3a of Commission Regulation (EEC) No 3152/85 of 11 November 1985 laying down detailed rules for the application of Regulation (EEC) No 1676/85 on the value of the unit of account and the conversion rates to be applied for the purposes of the common agricultural policy ⁽⁶⁾, as last amended by Regulation (EEC) No 3237/90 ⁽⁷⁾, the rates used to fix or, where appropriate, adjust the monetary

compensatory amounts, from this time forth defined as representative market rates, are to be used for the conversion into ecus of the amounts relating to world market data and expressed in the national currency of a Member State; whereas, pursuant to Article 2 (4) of Council Regulation (EEC) No 1676/85 ⁽⁸⁾, as last amended by Regulation (EEC) No 2205/90, those rates are also to be used for the conversion of certain other agricultural amounts; whereas the rates in question should be fixed to make it easier to use them;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the relevant management committees,

HAS ADOPTED THIS REGULATION:

Article 1

The representative market rates referred to in Article 3a of Regulation (EEC) No 3152/85, to be applied for certain amounts in the context of the common agricultural policy and used to fix or, where appropriate, to adjust the monetary compensatory amounts, are set out in the Annex hereto.

COMMISSION REGULATION (EEC) No 1643/91

of 14 June 1991

on the date of public announcement of new agricultural conversion rates

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Commission Regulation (EEC) No 3155/85 of 11 November 1985 providing for the advance fixing of monetary compensatory amounts ⁽¹⁾, as last amended by Regulation (EEC) No 3247/89 ⁽²⁾, and in particular the last subparagraph of Article 6 (3) thereof,

Whereas monetary compensatory amounts fixed in advance are adjusted if a new agricultural conversion rate comes into effect that was publicly announced before the application for advanced fixing was lodged; whereas it is necessary to fix the date of public announcement of the new agricultural conversion rates for the 1991/92 marketing year;

Whereas the relevant management committees have not delivered an opinion within the time limit set by their Chairmen,

HAS ADOPTED THIS REGULATION:

Article 1

In the case of the agricultural conversion rates set by the Council for the 1991/92 marketing year the date of public announcement referred to in Article 6 (1) of Regulation (EEC) No 3155/85 shall be 25 May 1991.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EEC) No 1644/91

of 14 June 1991

adjusting the agricultural conversion rates for the pigmeat sector in the United Kingdom, Spain and Portugal

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Commission Regulation (EEC) No 3578/88 of 17 November 1988 laying down detailed rules for the application of the system for the automatic dismantlement of negative monetary compensatory amounts ⁽¹⁾, as last amended by Regulation (EEC) No 287/91 ⁽²⁾, and in particular Article 7 (3) thereof,

Whereas Article 6a of Council Regulation (EEC) No 1677/85 of 11 June 1985 on monetary compensatory amounts in agriculture ⁽³⁾, as last amended by Regulation (EEC) No 2205/90 ⁽⁴⁾, lays down that the agricultural conversion rates of a Member State should be adjusted so as to avoid the application of monetary compensatory amounts in the pigmeat sector;

Whereas the movement of the market rate for the pound sterling, Spanish peseta and Portuguese escudo during the reference period 5 to 11 June 1991 should, given the adjustment of the agricultural conversion rate determined by Council Regulation (EEC) No 1678/85 ⁽⁵⁾, as last amended by Regulation (EEC) No 1640/91 ⁽⁶⁾, entail, in accordance with Article 2 of Commission Regulation (EEC) No 3153/85 ⁽⁷⁾, as last amended by Regulation (EEC) No 3672/89 ⁽⁸⁾, an increase in the monetary differences applicable in the pigmeat sector in the United Kingdom, Spain and Portugal effective from 17 June 1991; whereas in order to prevent the risk of frequent and economically unjustified adjustments in monetary compensatory amounts it is necessary to adjust the agricultural conversion rate so as to avoid the creation of new monetary differences having regard to the criteria in Article 7 of Regulation (EEC) No 3578/88,

HAS ADOPTED THIS REGULATION:

Article 1

In Annex XI to Regulation (EEC) No 1678/85, the line relating to pigmeat is hereby replaced by the following:

COMMISSION REGULATION (EEC) No 1645/91

of 14 June 1991

on transitional measures concerning the application of certain monetary compensatory amounts

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Commission Regulation (EEC) No 3156/85 of 11 November 1985 on transitional measures concerning the application of monetary compensatory amounts⁽¹⁾, as amended by Regulation (EEC) No 3521/88⁽²⁾, and in particular Article 11 thereof,

Whereas Regulation (EEC) No 3156/85 lays down a framework for measures intended to prevent artificial traffic at the time of changes in the monetary compensatory amounts;

Whereas Council Regulation (EEC) No 1640/91⁽³⁾ fixes the new agricultural conversion rates taking effect at the beginning of the 1991/92 marketing year for milk and milk products and for beef and veal;

Whereas those new rates have resulted in a considerable change in the scale of monetary compensatory amounts applicable in particular in Greece and the United Kingdom;

Whereas, in view of this situation, speculative movements are likely to occur and deflect trade;

Whereas, in order to prevent such deflections, for products likely to be subject to such speculation, provision should be made for the monetary compensatory amounts applicable to the products concerned before those new rates are fixed to remain

applicable for a limited period beyond that date; whereas the dates and the products in question must be determined in the light of the specific conditions governing the marketing in such products;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the relevant management committees,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EEC) No 3156/85 shall apply from 17 June 1991 under the following conditions:

- (a) the date of the changes shall be 17 June 1991;
- (b) the initial date shall be 1 March 1991;
- (c) the products and the periods indicated in Annex I to Regulation (EEC) No 3156/85 shall be those indicated in Annex I hereto;
- (d) application of Annex II to Regulation (EEC) No 3156/85 shall be extended to Part A thereof; the movements and the products affected shall be those indicated in Annex II hereto.

Article 2
