1. The financial provisions referred to in Article 9 of Regulation (EEC) No 792/93 shall be implemented as follows:

Community assistance

2. Community assistance shall be expressed as a percentage of eligible expenditure. If the actual expenditure incurred differs from the expenditure initially planned, the Community assistance granted shall be varied to take account of this but may not exceed the maximum amount stated in the Decision. A change of the rate of Community assistance or of the maximum amount of the grant will require a modification of decision according to the procedures described in point 12.

Commitments and payments

3. The Member State shall undertake to ensure that, for the project to which this Decision relates, all public or private bodies involved in the management and implementation of these operations maintain either a separate accounting system or an adequate accounting codification of all transactions concerned which will facilitate the verification of expenditure by the Community and national control authorities.
4. Budgetary commitments and payments shall be made in accordance with Article 9 (4), (5) and (6) of Regulation (EEC) No 792/93.
5. All payments of aid granted by the Commission under this Decision shall be made to the authority designated by the Member State, which shall also be responsible for refunding any overpaid amounts to the Commission. Payments shall be made to a single bank account designated by the Member State. As a general rule, the Commission shall make payments no later than two months after receipt of a valid application.
6. The Member State shall ensure that applications for payment and statements of expenditure actually incurred comply with the financing plan, including the schedule of expenditure, annexed to this Decision, as amended where appropriate, following the procedures laid down in points 12 and 13.
7. In accordance with Article 22 of Council Regulation (EEC) No 4253/88, all commitments and payments shall be in ecus.
8. Statements of expenditure in support of applications for payment shall be denominated in ecus or in national currency.
9. Member States which submit statements of expenditure in ecus shall convert the amounts of expenditure incurred in national currency into ecus using the rate for the month during which the expenditure was booked in the accounts of the authorities responsible for the financial management of projects. Each month the Commission shall inform the Member States of the rate to be used for that purpose.
10. Statements of expenditure in national currency shall be converted into ecus at the rate for the month when they were received by the Commission.

Recovery of undue payments

11. Any sum wrongly paid shall be repaid to the Commission by the authority designated in point 5. Interest on account of late payments shall be charged on sums not repaid in accordance with Article 24 (3) of Council Regulation (EEC) No 4253/88. Procedure for amending the project decision

12. Any amendments to the Decision shall be made in accordance with the following procedures:
- (a) amendments which entail a substantial change in the objectives or characteristics of the project, an increase or reduction in the rate of financing applied or the maximum amount of assistance or a substantial change in the financing plan or schedule of expenditure shall be made by means of a Commission decision taken in response to a request by the Member State or on the initiative of the Commission, after consultation with the Member State;
 - (b) in the case of other amendments, the Member State shall send the Commission a proposal for amendment. The Commission shall make its comments or signify its agreement within 20 working days of receipt of the proposal. The amendments shall be adopted when the Commission has given its agreement.
13. Any change in annual expenditure of less than 10 % of the total expenditure planned for the project shall not be regarded as a substantial change.

14. The time limits for complying with the legal obligations contracted under this Decision shall be complied with and payments made in accordance with Article 4 of the Decision. These may be amended before they expire in accordance with the procedure in point 12 (b) provided that the extension does not exceed one year. For that purpose, the Member State shall send the Commission a proposal for amendment together with information justifying the amendment. Where the extension exceeds one year, the procedure in point 12 (a) shall apply.
15. If the time limit is not extended, any expenditure incurred after the dates indicated in Article 4 of the Decision shall not be eligible for assistance from the financial instrument.

A change of the rate of Community assistance or of the maximum amount of the grant will require a modification of decision according to the procedures described in point 12.

Commitments and payments

3. The Member State shall undertake to ensure that, for the project to which this Decision relates, all public or private bodies involved in the management and implementation of these operations maintain either a separate accounting system or an adequate accounting codification of all transactions concerned which will facilitate the verification of expenditure by the Community and national control authorities.

5. All payments of aid granted by the Commission under this Decision shall be made to the authority designated by the Member State, which shall also be responsible for refunding any overpaid amounts to the Commission. Payments shall be made to a single bank account designated by the Member State. As a general rule, the Commission shall make payments no later than two months after receipt of a valid application.
6. The Member State shall ensure that applications for payment and statements of expenditure actually incurred comply with the financing plan, including the schedule of expenditure, annexed to this Decision, as amended where appropriate, following the procedures laid down in points 12 and 13.
7. In accordance with Article 22 of Council Regulation (EEC) No 4253/88, all commitments and payments shall be in ecus.
8. Statements of expenditure in support of applications for payment shall be denominated in ecus or in national currency.
9. Member States which submit statements of expenditure in ecus shall convert the amounts of expenditure incurred in national currency into ecus using the rate for the month during which the expenditure was booked in the accounts of the authorities responsible for the financial management of projects. Each month the Commission shall inform the Member States of the rate to be used for that purpose.
10. Statements of expenditure in national currency shall be converted into ecus at the rate for the month when they were received by the Commission.

Procedure for amending the project decision

12. Any amendments to the Decision shall be made in accordance with the following procedures:
- (a) amendments which entail a substantial change in the objectives or characteristics of the project, an increase or reduction in the rate of financing applied or the maximum amount of assistance or a substantial change in the financing plan or schedule of expenditure shall be made by means of a Commission decision taken in response to a request by the Member State or on the initiative of the Commission, after consultation with the Member State;
 - (b) in the case of other amendments, the Member State shall send the Commission a proposal for amendment. The Commission shall make its comments or signify its agreement within 20 working days of receipt of the proposal. The amendments shall be adopted when the Commission has given its agreement.

14. The time limits for complying with the legal obligations contracted under this Decision shall be complied with and payments made in accordance with Article 4 of the Decision. These may be amended before they expire in accordance with the procedure in point 12 (b) provided that the extension does not exceed one year. For that purpose, the Member State shall send the Commission a proposal for amendment together with information justifying the amendment. Where the extension exceeds one year, the procedure in point 12 (a) shall apply.
15. If the time limit is not extended, any expenditure incurred after the dates indicated in Article 4 of the Decision shall not be eligible for assistance from the financial instrument.

Procedure for closing a project

14. The time limits for complying with the legal obligations contracted under this Decision shall be complied with and payments made in accordance with Article 4 of the Decision. These may be amended before they expire in accordance with the procedure in point 12 (b) provided that the extension does not exceed one year. For that purpose, the Member State shall send the Commission a proposal for amendment together with information justifying the amendment. Where the extension exceeds one year, the procedure in point 12 (a) shall apply.

9. Member States which submit statements of expenditure in ecus shall convert the amounts of expenditure incurred in national currency into ecus using the rate for the month during which the expenditure was booked in the accounts of the authorities responsible for the financial management of projects. Each month the Commission shall inform the Member States of the rate to be used for that purpose.
10. Statements of expenditure in national currency shall be converted into ecus at the rate for the month when they were received by the Commission.

8. Cost-benefit analysis

A cost-benefit analysis of the proposal shows an internal rate of return of 8%.

9. Environmental impact assessment

In accordance with the provisions of the European Communities (Environmental Impact Assessment) Regulations 1989, which transpose Council Directive 85/337/EEC⁽¹⁾ into Irish law for road projects other than motorways, an environmental impact assessment was not required for this project.

⁽¹⁾ OJ No L 175, 5. 7. 1985, p. 40.

However, the project proposal states that the road will be located in open country remote from most dwellings and therefore the impact of increased levels of noise, severance and pollution on surrounding areas will be small and will be more than offset by a reduction in the noise, severance and pollution levels affecting people living and working along the existing port access roads. A landscape and planting programme will be undertaken along the route. The impact on flora and fauna will be minimal. A number of archaeological sites have been identified in the vicinity of the road connection; any sites affected will be examined beforehand.

Commitments and payments

3. The Member State shall undertake to ensure that, for the project to which this Decision relates, all public or private bodies involved in the management and implementation of these operations maintain either a separate accounting system or an adequate accounting codification of all transactions concerned which will facilitate the verification of expenditure by the Community and national control authorities.

7. In accordance with Article 22 of Council Regulation (EEC) No 4253/88, all commitments and payments shall be in ecus.
8. Statements of expenditure in support of applications for payment shall be denominated in ecus or in national currency.
9. Member States which submit statements of expenditure in ecus shall convert the amounts of expenditure incurred in national currency into ecus using the rate for the month during which the expenditure was booked in the accounts of the authorities responsible for the financial management of projects. Each month the Commission shall inform the Member States of the rate to be used for that purpose.
10. Statements of expenditure in national currency shall be converted into ecus at the rate for the month when they were received by the Commission.

12. Any amendments to the Decision shall be made in accordance with the following procedures:
 - (a) amendments which entail a substantial change in the objectives or characteristics of the project, an increase or reduction in the rate of financing applied or the maximum amount of assistance or a substantial change in the financing plan or schedule of expenditure shall be made by means of a Commission decision taken in response to a request by the Member State or on the initiative of the Commission, after consultation with the Member State;
 - (b) in the case of other amendments, the Member State shall send the Commission a proposal for amendment. The Commission shall make its comments or signify its agreement within 20 working days of receipt of the proposal. The amendments shall be adopted when the Commission has given its agreement.
13. Any change in annual expenditure of less than 10 % of the total expenditure planned for the project shall not be regarded as a substantial change.

Procedure for closing a project

14. The time limits for complying with the legal obligations contracted under this Decision shall be complied with and payments made in accordance with Article 4 of the Decision. These may be amended before they expire in accordance with the procedure in point 12 (b) provided that the extension does not exceed one year. For that purpose, the Member State shall send the Commission a proposal for amendment together with information justifying the amendment. Where the extension exceeds one year, the procedure in point 12 (a) shall apply.
15. If the time limit is not extended, any expenditure incurred after the dates indicated in Article 4 of the Decision shall not be eligible for assistance from the financial instrument.

The bridge will be located at the downstream end of the portal development presently under construction. Access to the bridge from the landside will be via proposed industrial estate roads.

6. Objectives

The project will provide better access to Belview Harbour. These two alternative accesses to the port are essential for the safe and efficient operation of the port.
