ANNEX F

‘PROTOCOL 3

on trade between Romania and the Community in processed agricultural products

Article 1

1. The Community and Romania shall apply to processed agricultural products the duties listed in Annexes I and II respectively, in accordance with the conditions mentioned therein, whether limited by quota or not.

2. The Association Council shall decide on:

- extensions of the list of processed agricultural products under this Protocol,
- amendments to the duties referred to in the Annexes,
- increases in or the abolition of tariff quotas.

3. The Association Council may replace the duties established by this Protocol by a system of compensatory amounts established on the basis of the respective market prices of the Community and Romania of the agricultural products actually used in the manufacture of processed agricultural products covered by this Protocol. It shall draw up the list of products to which these amounts apply and the list of basic products; it shall adopt general implementing rules to that end.

Article 2

1. The duties applied pursuant to Article 1 may be reduced by decision of the Association Council:

— when in trade between the Community and Romania the duties applied to the basic products are reduced, or

— in response to reductions resulting from mutual concessions relating to processed agricultural products.

2. For the purpose of applying paragraph 1, first indent, the part of the agricultural component corresponding to the basic product which has been subject to a duty reduction shall be reduced, taking into account the extent of the duty reduction to which it will apply. The quantity of the basic product subject to tariff reduction shall also be taken into account either while determining the amount of quota for the reduction of agricultural component or while determining the extent of agricultural component reduction of the processed product in question.

Article 3

The Community and Romania shall inform each other of the administrative arrangements adopted for the products covered by this Protocol.

These arrangements should ensure equal treatment for all interested parties and should be as simple and flexible as possible.

2. The minimum import prices, as set out in point 1, will be respected on a consignment by consignment basis. In the case of a customs declaration value being lower than the minimum import price, a countervailing duty equal to the difference between the minimum import price and the customs declaration value will be charged.
3. If the import prices of a given product covered by this Appendix show a trend suggesting that the prices could go below the level of the minimum import prices in the immediate future, the European Commission will inform the Romanian authorities in order to enable them to correct the situation.
4. At the request of either the Community or Romania, the Association Committee shall examine the functioning of the system or the revision of the level of the minimum import prices. If appropriate, the Association Committee shall take the necessary decisions.
5. To encourage and promote the development of trade and for the mutual benefit of all parties concerned, a consultation meeting will be organised three months before the beginning of each marketing year in the Community. This consultation meeting will take place between the European Commission and the interested European producers' organisations for the products concerned, on the one part, and the authorities', producers' and exporters' organisations of all the associated exporting countries, on the other part.

During the consultation meeting, the market situation for soft fruit including, in particular, forecasts for production, stock situation, price evolution and possible market development, as well as possibilities to adapt supply to demand, will be discussed.'

Exchange of letters between the European Community and Romania regarding entry prices
applied to the import of fruit and vegetables into the Community

A. *Letter from the Community*

Sir,

The Agreement on the adaptation of the agricultural part of the Europe Agreement following the implementation of the Uruguay Round and the enlargement of the European Community signed today between the European Community and Romania does not contain any provisions regarding the entry price regime applied to the import of fruit and vegetables into the Community.

It has been agreed that the Parties will continue consultations on this sector in order to find a solution. Taking into account, *inter alia*, the experience of the last marketing years, the solution should allow the continuation of trade relations traditionally established between the Community and Romania for the products concerned. In the meantime, Romania will not be treated less favourably than other associated countries in this context.

In addition, both Parties will continue talks in the framework of the relevant procedures of the Europe Agreement on any other unresolved issues in order to find as soon as possible mutually acceptable solutions.

I should be obliged if you would confirm the agreement of the Government of Romania to the contents of this letter.

Please accept, Sir, the assurance of my highest consideration.

of the European Union*
