COUNCIL DECISION

of 13 November 1998

adopted on the basis of Article J.4(2) of the Treaty on European Union, on the monitoring of the situation in Kosovo

(98/646/CFSP)

THE COUNCIL OF THE EUROPEAN UNION,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty on European Union, and in particular Article J.4(2) thereof,

Having regard to the Declaration (No 30) on Western European Union included in the Final Act signed upon the adoption of the Treaty,

Whereas the Council adopted a declaration on 26 October 1998 defining a comprehensive approach to Kosovo including full support by the European Union to the agreements signed in Belgrade on 16 October 1998 between the Federal Republic of Yugoslavia (FRY) and the OSCE and on 15 October 1998 between the FRY and NATO, full support for the OSCE and for the Kosovo Verification Mission, as well as the European Union's readiness to contribute to the assistance to refugees and displaced persons;

Whereas the European Union action as defined above requires a precise knowledge of the situation on the ground in Kosovo; whereas such knowledge would be facilitated by information resulting from the interpretation of space imagery;

Whereas the Western European Union (WEU) Satellite Center has, among its missions, the supply of 'information resulting from the interpretation of space imagery', *inter alia*, for general security surveillance, including general surveillance of areas of interest for the WEU on the basis of a mandate of the Council and support for treaty verification;

Whereas under these conditions the European Union should have recourse to the WEU,

Article 1

The European Union requests the WEU to provide relevant information made available by the WEU Satellite Center concerning:

- the state of the implementation of the agreements signed in Belgrade on 16 October 1998 between the FRY and the OSCE and on 15 October 1998 between the FRY and NATO,
 - and
 - the situation of refugees and displaced persons and of the infrastructure in this respect
- with a view for the European Union to contribute to the monitoring necessary for the overall success of the OSCE and NATO relevant missions.

Article 2

This Decision shall be notified to the WEU in accordance with the conclusions adopted by the Council on 14 May 1996 on the transmission to the WEU of documents of the European Union.

Article 3

This Decision shall enter into force on the date of its adoption.

Article 4

This Decision shall be published in the Official Journal.

AGREEMENT**between the European Community and the Gabonese Republic on fishing off the coast of Gabon**

THE EUROPEAN COMMUNITY, hereinafter referred to as 'the Community', and

THE GABONESE REPUBLIC,

CONSIDERING, on the one hand, the spirit of cooperation resulting from the Lomé convention and, on the other, the good cooperation relations between the Community and the Gabonese Republic;

CONSIDERING the wish of the Gabonese Republic to promote the rational exploitation of its fishery resources by means of intensified cooperation;

RECALLING that, in respect in particular of sea fishing, the Gabonese Republic exercises its sovereignty or jurisdiction over a zone extending up to 200 nautical miles from its coast;

TAKING INTO ACCOUNT the United Nations Convention on the Law of the Sea, signed by both Parties;

AFFIRMING THAT the exercise of sovereign rights by coastal states in waters under their jurisdiction for the purpose of exploiting, conserving and managing living resources must be conducted in accordance with principles of international law;

DETERMINED TO conduct their relations in a spirit of mutual trust and respect for each other's interests in the sphere of sea fishing as enshrined in the Lomé Convention;

DESIROUS OF establishing the terms and conditions governing fishing activities of common interest to both Parties,

HAVE AGREED AS FOLLOWS:

Article 1

The purpose of this Agreement is to establish the principles and rules which will in future govern, in all respects, the fishing activities of vessels flying the flags of Member States of the Community, hereinafter referred to as 'Community vessels', in the waters over which the Gabonese Republic has sovereignty or jurisdiction in respect of fisheries, hereinafter referred to as 'Gabon's fishing zone'.

Article 2

1. The Gabonese Republic hereby undertakes to authorise the pursuit of fishing activities by Community vessels in its fishing zone in accordance with this Agreement, particularly the Annex hereto.

2. The fishing activities governed by this Agreement shall be subject to the laws and regulations in force in the Gabonese Republic.

Article 3

1. The Community hereby undertakes to take all appropriate steps to ensure that its vessels observe the provisions of this Agreement and the rules and regulations governing fishing in Gabon's fishing zone.

2. The Gabonese authorities shall notify the European Commission of all amendments to the said rules and regulations before they are applied.

3. The steps taken by the Gabonese authorities to regulate fishing in the interests of the conservation of fishery resources shall be based on objective and scientific criteria. They shall apply without discrimination to Community vessels, without prejudice to agreements concluded between developing countries within a single geographical region, including reciprocal fisheries agreements.

Article 4

1. Fishing activities by Community vessels in Gabon's fishing zone under this Agreement shall be subject to possession of a fishing licence issued at the Community's request by the Gabonese authorities.

2. The Gabonese authorities shall issue fishing licences within the limits laid down by category of vessel in the Protocol attached to this Agreement.

3. The issue of licences shall be subject to payment of a fee by the shipowners concerned.

4. The procedure for licence applications, the fees payable and arrangements for payment shall be as set out in the Annex.

Article 5

The Contracting Parties undertake to coordinate either directly or within international organisations their efforts to ensure the management and conservation of living resources in the central east Atlantic, and to facilitate the relevant scientific research.

Article 6

The vessels authorised under the terms of this Agreement to fish in Gabon's fishing zone shall be obliged to send their statements of catch to the Gabonese authorities, in accordance with the provisions set out in the Annex.

Article 7

In return for the fishing opportunities granted under Article 2, the Community shall make a financial contribution to the Gabonese Republic in accordance with the conditions and procedure set out in the Protocol attached to this Agreement, without prejudice to financing accorded to the Gabonese Republic under the Lomé Convention.

Article 8

In the event of any dispute over the interpretation or application of this Agreement, consultations shall be held between the Parties.

Article 9

A Joint Committee shall be set up to ensure that this Agreement is applied correctly.

The Committee shall meet, alternately in the Gabonese Republic and the Community, at the request of either of the Contracting Parties.

Article 10

Should the Gabonese authorities decide, as result of developments in the state of stocks, to take measures to conserve fishery resources which affect the activities of Community vessels, consultations shall be held between the Parties in order to adapt the Annex and Protocol.

These consultations shall be based on the principle that any substantial reduction of the fishing opportunities laid down in the Protocol must entail a proportionate reduction in the financial compensation payable by the Community.

Article 11

Nothing in this Agreement shall affect or prejudice in any manner whatsoever the views of either Party with respect to any matter relating to the Law of the Sea.

Article 12

This Agreement shall apply, on the one hand, to the territories in which the Treaty establishing the European Community is applied and under the conditions laid down in that Treaty and, on the other hand, to the territory of the Gabonese Republic.

Article 13

The Protocol and the Annex constitute an integral part of this Agreement.

Article 14

This Agreement shall be concluded for an initial period of five years commencing from the date of its entry into force. Unless one of the Parties ends it by giving notice to that effect six months before the end of this five-year period, it shall be tacitly renewed for further periods of two years, unless denounced by notice given at least three months before the end of any such two-year period.

The Parties shall enter into negotiations in the event of either of them denouncing this Agreement.

Before the end of the period of validity of the current Protocol, the Parties shall hold negotiations to establish by agreement what amendments or additions to the Annex or Protocol are required.

Article 15

This Agreement, drawn up in duplicate in the Danish, German, Greek, English, Spanish, Finnish, French, Italian, Dutch, Portuguese and Swedish languages, each of these texts being equally authentic, shall enter into force on the date of its signature.

ANNEX

CONDITIONS GOVERNING FISHING ACTIVITIES BY COMMUNITY VESSELS IN GABON'S FISHING ZONE**1. Licence applications and issuing formalities**

The procedure for applications for, and the issue of, licences authorising Community vessels to fish in Gabon's fishing zone shall be as follows.

The relevant Community authorities shall present to the Gabonese Ministry responsible for fisheries, via the Delegation of the European Commission in the Gabonese Republic, an application for each vessel wishing to fish under the Agreement, at least 15 days before the beginning of the requested term of validity.

Applications shall be made on the form provided for that purpose by the Gabonese Ministry responsible for fisheries, in accordance with the specimen given in Appendix 1.

Licences shall be signed and issued by the Gabonese Ministry responsible for fisheries to shipowners or their representatives, via the Delegation of the European Commission in the Gabonese Republic, within 15 working days of application.

Licences shall be issued for a specific vessel and shall not be transferable. However, at the request of the European Commission, a vessel's licence shall, in cases of *force majeure*, be replaced by a new licence for another vessel with identical characteristics. The owner of the vessel being replaced shall return the cancelled licence to the Gabonese Ministry responsible for fisheries via the Delegation of the European Commission.

The new licence shall indicate:

- the date of issue,
- the fact that it cancels and replaces the licence of the previous vessel.

In such cases, no new advance shall be due. Licences must be held on board at all times. However, on receipt of notification of payment of the advance sent by the European Commission to the Gabonese Ministry responsible for fisheries, vessels shall be entered on a list of vessels authorised to fish, which shall be sent to the Gabonese authorities responsible for fisheries inspection. Pending arrival of the licence itself, a copy of the licence may be obtained by fax; that copy, which authorises the vessel to fish until arrival of the original document, must be kept on board.

Licences shall be valid for one year. They shall be renewable.

The fee shall be set at ECU 25 per tonne caught within Gabon's fishing zones. It shall include all local and national taxes with the exception of port taxes and charges for the provision of services.

The Gabonese Ministry responsible for fisheries shall communicate the arrangements for payment of the licence fees, in particular the details of the bank account and the currency to be used.

Licences shall be issued on advance payment of an annual sum of ECU 2 500 per tuna seiner, ECU 1 100 per surface longliner of more than 150 GRT and ECU 800 per surface longliner of 150 GRT or less.

2. Statement of catch and statement of fees due from shipowners

The captain shall complete a fishing form corresponding to the ICCAT specimen in Appendix 2 for each period spent fishing in Gabon's fishing zone.

The form, which must be legible and signed by the captain of the vessel, shall be sent as soon as possible to the Gabonese Ministry responsible for fisheries and, for processing, to the French Institute for Scientific Research for Development and Cooperation (Orstom: Office of Overseas Scientific and Technical Research) or the Spanish Oceanographic Institute (IEO).

If these provisions are not complied with, the Gabonese Ministry responsible for fisheries reserves the right to suspend the licence of the offending vessel until these formalities have been carried out and to apply the penalties provided for under national law.

Member States shall inform the European Commission before 15 April each year of the tonnages caught during the past year, as confirmed by the scientific institutes. On the basis of those figures the Commission shall establish a breakdown of the fees due in respect of the fishing year, which it shall then send to the Gabonese Ministry responsible for fisheries.

Shipowners shall be notified of this breakdown by the European Commission by the end of April at the latest and shall have 30 days in which to meet their financial obligations. Shipowners cannot recover the balance in cases where the amount payable in respect of actual fishing operations is less than the advance payment.

3. Inspection and monitoring

Community vessels fishing in Gabon's fishing zone shall permit and facilitate the boarding and fulfilment of the tasks of Gabonese officials responsible for the inspection and monitoring of fishing activities. These officials should not remain on board any longer than the time required to verify catches by sampling and carry out any other inspections relating to fishing activities.

4. Observers

At the request of the Gabonese authorities, tuna boats and surface longliners shall take an observer on board who shall be treated as an officer. The time spent on board by the observer shall be fixed by the Gabonese authorities but, as a general rule, it should not exceed the time required to carry out his duties. Once on board, the observer shall:

- observe the fishing activities of the vessels,
- verify the position of vessels engaged in fishing operations,
- perform biological sampling in the context of scientific programmes,
- note the fishing gear used,
- verify the catch data for Gabon's zone recorded in the logbook.

While on board, the observer:

- must take all appropriate steps to ensure that the conditions under which he is taken on board and his presence on board do not interrupt or hamper fishing activities,
- must respect the material and equipment on board and the confidentiality of all documents belonging to the vessel.

The conditions governing his embarkation shall be agreed between the shipowner or his representative and the Gabonese authorities. If the shipowner is unable to take the observer on board and put him off at a Gabonese port mutually agreed with the Gabonese authorities, the shipowner shall bear the cost of taking the observer aboard and putting him ashore.

If the observer is not present at the time and place agreed and during the twelve hours following the time agreed, the shipowner shall be absolved of his obligation to take the observer on board.

5. Fishing zones

The vessels referred to in Article 1 of the Protocol shall be authorised to engage in fishing activities in the waters beyond twelve nautical miles from the base lines.

6. Entering and leaving the zone

Vessels shall notify the Gabonese Ministry responsible for fisheries of their intention to enter or leave Gabon's fishing zone at least 24 hours in advance. When notifying their departure, all vessels shall also notify the estimated catches taken during the time they have spent in Gabon's fishing zone. This information should preferably be communicated by fax or, for vessels not equipped with a fax, by radio.

A vessel found to be fishing without having informed the Gabonese Ministry responsible for fisheries shall be regarded as a vessel without a licence.

Vessels shall be informed of the relevant fax number and radio frequency when the fishing licence is issued.

The Gabonese Ministry responsible for fisheries and the shipowners shall keep a copy of fax communications or a recording of radio communications until both parties have agreed to the final statement of fees due referred to in point 2.

7. Zones closed to shipping

The zones adjacent to oil extraction activities shall be closed to all shipping.

The Gabonese Ministry responsible for fisheries shall notify the coordinates of these zones to shipowners when the fishing licence is issued.

The zones closed to shipping shall also be notified for information purposes to the Delegation of the European Commission in the Gabonese Republic, as shall all changes to these zones, which must be announced at least two months before enforcement.

8. Use of services

Community vessels shall, wherever possible, transship and procure the supplies and services they require in Gabonese ports.

9. Boarding

- (1) The Delegation of the European Commission in the Gabonese Republic shall be informed within two working days of the boarding of any Community fishing vessel fishing under a Fisheries Agreement concluded between the Community and a third country in the exclusive economic zone of the Gabonese Republic. At the same time, it shall be given a brief report of the circumstances and reasons leading to such boarding.
 - (2) Before any measures regarding the master or the crew of the vessel or any action regarding the cargo and equipment of the vessel are considered, other than those to safeguard evidence relating to the presumed infringement, a consultation meeting shall be held, within one working day from the receipt of the above information, between the Delegation of the European Commission in the Gabonese Republic, the Ministry responsible for fisheries and the inspection authorities, possibly attended by a representative of the Member State concerned. At the meeting, the parties shall exchange any relevant documentation or information helping to clarify the circumstances of the facts established. The shipowner or his representative shall be informed of the outcome of the meeting and of any measures resulting from the boarding.
 - (3) Before any judicial proceedings, an attempt shall be made to resolve the presumed infringement through a compromise procedure. This procedure shall be completed no later than three working days after the boarding.
 - (4) Should the case not be settled by compromise, and the master is therefore brought before a competent Gabonese judicial body, a reasonable bank security shall be fixed by the competent authority within two working days, following the conclusion of the compromise procedure, pending the judicial decision. The bank security shall be released by the Ministry responsible for fisheries once the master of the vessel concerned has been acquitted by the judicial decision.
 - (5) The vessel and its crew shall be released:
 - at the end of the consultation meeting, if the established facts permit, or
 - on receipt of payment of a fine (compromise procedure), or
 - once a bank security is deposited (judicial proceedings).
 - (6) Should one of the parties consider that there is a problem in the application of the above procedure, it may request urgent consultations under Article 9 of the Agreement.

Having regard to the Treaty establishing the European Community,

Having regard to the Act of Accession of Greece, and in particular paragraphs 3 and 10 of Protocol 4 on cotton, as last amended by Council Regulation (EC) No 1553/95 ⁽¹⁾,

Having regard to Council Regulation (EC) No 1554/95 of 29 June 1995 ⁽²⁾ laying down general rules for the system of aid for cotton and repealing Regulation (EEC) No 2169/81, as last amended by Regulation (EC) No 1419/98 ⁽³⁾, and in particular Articles 3, 4 and 5 thereof,

Whereas Article 3 of Regulation (EC) No 1554/95 requires a world market price for unginned cotton to be periodically determined from the world market price determined for ginned cotton, using the historical relationship between the two prices as specified in Article 1 (2) of Commission Regulation (EEC) No 1201/89 of 3 May 1989 laying down rules for implementing the system of aid for cotton ⁽⁴⁾, as last amended by Regulation (EC) No 1664/98 ⁽⁵⁾; whereas if it cannot be determined in this way it is to be based on the last price determined;

Whereas Article 4 of Regulation (EC) No 1554/95 requires the world market price for ginned cotton to be determined for a product of specific characteristics using the most favourable offers and quotations on the world market of those considered representative of the real market trend; whereas to this end an average is to be calculated of offers and quotations on one or more European exchanges for a cif product to a North European port from the supplier countries considered most representative as regards international trade; whereas these rules for determination of the world market price for ginned cotton provide for adjustments to reflect differences in product quality and the nature of offers and quotations;

whereas these adjustments are specified in Article 2 of Regulation (EEC) No 1201/89;

Whereas application of the above rules gives the world market price for unginned cotton indicated hereunder;

Whereas Article 5 (3a), first sentence, of Regulation (EC) No 1554/95 stipulates that the advance payment rate for the aid is to be the guide price less the world market price and less a further amount calculated by the formula applicable when the guaranteed maximum quantity is overrun but with a 15 % increase in the estimate for unginned cotton production; whereas Commission Regulation (EC) No 1844/98 ⁽⁶⁾ determined estimated production for the 1998/99 marketing year; whereas application of these rules gives the advance payment rates for each Member State indicated hereunder,

HAS ADOPTED THIS REGULATION:

Article 1

1. The world market price for unginned cotton as indicated in Article 3 of Regulation (EC) No 1554/95 is set at ECU 21,635 per 100 kilograms.

2. Advance payment of the aid as indicated in Article 5 (3a), first sentence, of Regulation (EC) No 1554/95 shall be at the rate of:

- ECU 48,948 per 100 kilograms in Spain,
- ECU 47,885 per 100 kilograms in Greece,
- ECU 84,665 per 100 kilograms in other Member States.

EUROPEAN PARLIAMENT

DECISION OF THE EUROPEAN PARLIAMENT

of 7 October 1998

Decision giving discharge in respect of the implementation of the budget for the 1996 financial year — Section IV: Court of Justice, Section V: Court of Auditors, Section VI, Part B: Committee of the Regions

(98/647/EC)

THE EUROPEAN PARLIAMENT,

- having regard to Article 203(10) of the Treaty on European Union,
- having regard to Article 22(2) and (3) of the Financial Regulation,
- having regard to the revenue and expenditure account and balance sheet concerning the financial year 1996 (SEC(97)0402 — C4-0197/97),
- having regard to the report of the Court of Auditors concerning the financial year 1996 (C4-0599/97) ⁽¹⁾,
- having regard to the report of the Committee on Budgetary Control (A4-0289/98),

Court of Justice

1. points out that the estimates, in particular the funding of Article 270, were lacking in the desired reliability; calls accordingly on the Court of Justice to improve the quality of its preparatory work (particularly its financial forecasts) as regards the funding and the justifications provided for the various budget headings;

Court of Auditors

2. proposes to the Court of Auditors that it instruct its Member responsible for administrative matters systematically to include the Court of Auditors in all its horizontal audits, starting with the 1997 financial year;

Committee of the Regions

3. deplores the extremely incomplete nature of the information contained in the revenue and expenditure account and financial balance sheet of Section VI-B of the general budget; calls on the Committee of the Regions to make sure that the presentation of data on the implementation of the appropriations for which it is responsible is transparent, comprehensive and accurate;
4. expresses regret at the irregularities brought to light in the Court of Auditors annual report; notes the interim report forwarded by the Committee of the Regions to the discharge authority which relates to the recovery of amounts incorrectly paid and the administrative and regulatory provisions implemented or envisaged; calls on the Court of Auditors to check that the measures detailed above are appropriate and effective;

⁽¹⁾ OJ C 348, 18. 11. 1997.

5. expresses its concern at the absence of a consistent staff policy within the Committee of the Regions, something which has led to a number of appeals by members of its staff and judgments by the Court of First Instance; considers, therefore, that this matter needs to be considered in greater depth during the 1999 budget procedure ⁽¹⁾;
6. gives discharge to the Registrar of the Court of Justice and the Secretaries-General of the Court of Auditors and the Committee of the Regions in respect of the implementation of their budgets for the 1996 financial year;
7. instructs its President to forward this Decision to the institutions and the advisory body concerned and to have it published in the *Official Journal of the European Communities*, L series.

RESOLUTION

informing the Economic and Social Committee of the reasons for the postponement of the Decision concerning the discharge of the general budget of the European Union for the 1996 financial year — Section VI, Part A: Economic and Social Committee

THE EUROPEAN PARLIAMENT,

- having regard to Article 203(10) of the Treaty on European Union,
 - having regard to Article 22(2) and (3) of the Financial Regulation,
 - having regard to the revenue and expenditure account and the financial statement relating to the 1996 financial year (SEC(97)0402 — C4-0197/97),
 - having regard to the annual report by the Court of Auditors on the 1996 financial year (C4-0599/97) ⁽¹⁾,
 - having regard to the Council recommendation of 9 March 1998 (C4-0168/98),
 - having regard to the report of the Committee on Budgetary Control (A4-0289/98),
- A. having regard to the serious nature of the conclusions of the Court of Auditors annual report for 1996 on the management of the ESC's appropriations,
- B. whereas the irregularities detected tarnish the European Union's image in the eyes of the general public,
- C. recalling the position it expressed in paragraph 8 of its resolution of 31 March 1998 informing the Commission of the reasons for the postponement of the discharge in respect of the implementation of the general budget of the European Union for the 1996 financial year concerning the empowerment which all the European institutions should grant to UCLAF to enable it to carry out inquiries ⁽²⁾,
1. deplores the results which have emerged from two audits concerning the management of the ESC's appropriations, one carried out by the ESC's Financial Controller and the other by the Court of Auditors;
 2. considers that the emergence of this entire issue requires it to be referred to the Court of Auditors and to UCLAF for two reasons: to enable the extent of administrative involvement or responsibility to be fully determined as regards the entry into the accounts, the commitment, the authorisation and the payment of expenditure, and to enable the reliability of the new reimbursement system recommended by the Court of Auditors and the conditions for the recovery of incorrectly paid expenditure to be checked;
 3. expresses great regret over the way in which the ESC arranged for the post of Financial Controller to be filled, even though it was known in advance that the post would fall vacant and despite the fact that the budgetary authority had been informed of the vacancy pursuant to Article 55 of the Financial Regulation in the course of the 1998 budget procedure;
 4. asks that the ESC's Financial Controller be required to furnish an explanation of how, on an earlier occasion, he had found it possible to establish that the payments in question were in conformity with 'all acts made in implementation of the budget and the Regulations, and [with] all acts made in implementation of the Treaties and Regulations' and, furthermore, that they were in compliance with the principles of economy and sound financial management laid down in Article 2 of the Financial Regulation;
 5. deplores the extremely incomplete nature of the information contained in the revenue and expenditure account and the financial statement in Section VI-A of the general budget; calls on the ESC to ensure that the presentation of data on the implementation of the appropriations for which it is responsible is transparent, comprehensive and accurate; considers, therefore, that the information to be provided in connection with the 1996 financial year must be supplemented by information from the accounting officer relating in particular to the exercise of his powers of recovery or of payment made in connection with expenditure which has been the subject of comments by the Court of Auditors;
 6. informs the ESC that it cannot be given discharge until the above conditions and requests have been satisfied, including the giving of discharge to the accounting officer, as required under Article 77 of the Financial Regulation;
 7. instructs its President to forward this Resolution to the Commission, the Court of Auditors and the Economic and Social Committee and to have it published in the *Official Journal of the European Communities*, L series.

COMMISSION

COMMISSION DECISION

of 5 November 1998

amending Decision 97/217/EC establishing groups of third countries which are able to use the veterinary certification for imports of wild game meat, farmed game meat and rabbit meat from third countries

(notified under document number C(1998) 3332)

(Text with EEA relevance)

(98/648/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 92/45/EEC of 16 June 1992 on public health and animal health problems relating to the killing of wild game and the placing on the market of wild game meat⁽¹⁾, as last amended by Council Directive 97/79/EC⁽²⁾, and in particular Article 16(3) thereof,

Whereas Commission Decision 97/217/EC⁽³⁾ lays down groups of third countries, or parts thereof, which are able to use the veterinary certification for imports of wild game meat, farmed game meat and rabbit meat from third countries;

Whereas the animal health conditions and veterinary certification for imports of domestic animals of the bovine and porcine species from certain European countries, were established by Commission Decision 98/372/EC⁽⁴⁾, as last amended by Commission Decision 98/505/EC⁽⁵⁾;

Whereas due to classical swine fever persistence in the feral pig population some restrictions are established for imports of live pigs from some parts of the Czech Republic;

Whereas the same regionalisation should be applicable to imports of wild boar meat from the Czech Republic;

Whereas health restrictions were applied by the European Community to some zones of Croatia due to certain problems concerning the veterinary controls in those parts; whereas following a recent Community veterinary mission, it appears that the Croatian veterinary services control satisfactorily the whole country;

Whereas, as a result, it is appropriate to make possible the importation of game meat from the whole of Croatia;

Whereas the control of animal health diseases in some zones of Zimbabwe is satisfactory; whereas, therefore, it is appropriate to make possible the importation of cloven-hoofed and wild soliped game meat from these parts of Zimbabwe;

Whereas it is therefore necessary to amend Commission Decision 97/217/EC;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Decision 97/217/EC is replaced by the Annex to this Decision.
