**COUNCIL REGULATION (EC) No 6/2000
of 17 December 1999**

concerning the arrangements applicable to imports into the Community of products originating in the Republics of Bosnia and Herzegovina and Croatia and to imports of wine originating in the Former Yugoslav Republic of Macedonia and the Republic of Slovenia

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 133 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Council Regulation (EC) No 70/97 of 20 December 1996 concerning the arrangements applicable to imports into the Community of products originating in the Republics of Bosnia and Herzegovina and Croatia and to imports of wine originating in the Former Yugoslav Republic of Macedonia and the Republic of Slovenia ⁽¹⁾ expires on 31 December 1999;
- (2) These arrangements will eventually have to be replaced by provisions contained in future bilateral agreements and specific wine agreements to be negotiated with the countries in question; in the meantime the arrangements granted by Regulation (EC) No 70/97 should be maintained; the amounts of the tariff ceilings for industrial products should be increased annually by 5 % as provided for in Article 4(1) of Regulation (EC) No 70/97; Regulation (EC) No 70/97 has been amended several times and taking into account the modifications to the Combined Nomenclature and to the Taric subdivisions and other technical adjustments, it seems appropriate to renew the autonomous trade preferences within a completely new Regulation; it is unnecessary to include in the coverage of this Regulation products for which the Common Customs Tariff duty is free;
- (3) In accordance with the European Union's Regional Approach, based on the conclusions of the Council of 29 April 1997, the development of bilateral relations between the European Union and the successor republics of the former Yugoslavia, other than Slovenia, is subject to certain conditions; the renewal of autonomous trade preferences is linked to respect for fundamental principles of democracy and human rights and

to the readiness of the countries concerned to allow the development of economic relations between themselves; it is, therefore, appropriate to monitor the compliance by Bosnia and Herzegovina, Croatia and the Federal Republic of Yugoslavia with these conditions;

- (4) Bosnia and Herzegovina and Croatia continue to fulfil the relevant conditions; it is therefore appropriate to continue the inclusion of these countries in the regime of autonomous trade preferences;
- (5) At the time of the extension of the autonomous trade preferences to the Federal Republic of Yugoslavia on 29 April 1997, the Council issued a Declaration setting out its expectations in terms of democratisation, in particular the full and speedy implementation of the 'Gonzalez' recommendations; it also noted that in the absence of progress towards meeting these criteria, the decision granting autonomous trade preferences would be reviewed; no significant progress has been made with regard to the relevant conditions and in the light of events in Kosovo and in the region, it is still not appropriate to include the Federal Republic of Yugoslavia in the autonomous trade regime, without prejudice to the possibility of including the Federal Republic of Yugoslavia at a later stage should conditions so permit;
- (6) These preferential concessions comprise exemption from customs duties and the abolition of quantitative restrictions for industrial products, except for certain products subject to tariff ceilings, and special concessions for various agricultural products;
- (7) The arrangements applicable to imports of textile products originating in Bosnia and Herzegovina and Croatia are governed by the provisions of Council Regulation (EC) No 517/94 of 7 March 1994 on common rules for imports of textile products from certain third countries not covered by bilateral agreements, protocols or other arrangements, or by other specific Community import rules ⁽²⁾;

⁽¹⁾ OJ L 16, 18.1.1997. Regulation as last amended by Regulation (EC) No 2863/98 (OJ L 358, 31.12.1998, p. 85).

⁽²⁾ OJ L 67, 10.3.1994, p. 1. Regulation as last amended by Commission Regulation (EC) No 1457/97 (OJ L 199, 26.7.1997, p. 6).

- (8) For the purposes of certification of origin and administrative cooperation procedures, the relevant provisions of Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code ⁽¹⁾ should be applied;
- (9) Community monitoring may be achieved by means of an administrative procedure based on charging imports of the products in question against the tariff ceilings at Community level as and when those products are entered with the customs authorities for free circulation; this administrative procedure must make provision for the possibility of reintroducing customs duties as soon as the ceilings are reached at Community level;
- (10) This administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission, which must in particular be able to follow the progress of quantities charged against the ceilings;
- (11) The decision for the opening of tariff quotas should be taken by the Community in the execution of its international obligations; to ensure the efficiency of a common administration of these quotas, there is no obstacle to authorising the Member States to draw from the quota-volumes the necessary quantities corresponding to actual imports; however, this method of administration requires close cooperation between the Member States and the Commission and the latter must in particular be able to monitor the rate at which the quotas are used up and inform the Member States;
- (12) It is necessary, in particular, to ensure for all Community importers equal and uninterrupted access to the said tariff quotas and to ensure uninterrupted application of the rates laid down for the quotas to all imports of the products concerned into all Member States until the quotas have been used up;
- (13) In order to improve the efficiency and the rapidity of the management of tariff quotas and ceilings, communication between the Member States and the Commission should, as far as possible, pass by telematic link;
- (14) For the sake of rationalisation and simplification, it is appropriate to provide that the Commission may, having consulted the Customs Code Committee, and without prejudice to the specific procedures provided for in this Regulation, make any necessary changes and technical amendments necessary to this Regulation;
- (15) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽²⁾;
- (16) The Community must be able to act swiftly against the countries benefitting from this Regulation when its financial interests are damaged as a result of fraud, serious and repeated irregularities or a manifest lack of administrative cooperation in countries covered by this Regulation; having notified the Member States and the operators concerned of its reasonable doubts concerning the origin of the goods, the Commission should be able to suspend certain preferences provisionally on the basis of sufficient evidence;
- (17) It is appropriate to split the existing system of global trade preferences into separate trade preferences for each of the countries concerned in accordance with existing trade flows in order to ensure a transparent and equitable share of these preferences between these countries, and to prepare possible future negotiations for an agreement; the part of the former global trade preferences corresponding to the share of imports originating in the Federal Republic of Yugoslavia will remain earmarked for potential future use by this country once the conditions are met for eligibility for the regime of autonomous trade preferences under this Regulation; as regards wine, the global preferences will be maintained in order to avoid interference in negotiations for a separate wine agreement which have already started with Slovenia and are envisaged with the Former Yugoslav Republic of Macedonia;
- (18) In accordance with Council conclusions of 13 September 1999, the regime of autonomous trade preferences has been improved, namely through simplification and the reduction of tariff ceilings applicable for industrial products; an additional increase of the volumes is offered for 16 of the remaining 32 tariff ceilings for industrial products;
- (19) The import arrangements are to be renewed on the basis of the conditions established by the Council in relation to the development of the relations between the Community and the countries concerned, including the European Union's Regional Approach and the Stabilisation and Association Process for the countries of South-Eastern Europe, endorsed by the conclusions of the Council of 21 and 22 July 1999; withdrawal of countries from or (re)inclusion of countries for these trade arrangements can be decided at any time, including on the basis of relevant reports on compliance with the policy on conditionality of 29 April 1997; it is, therefore, appropriate, to extend the duration of these arrangements until 31 December 2001;
- (20) The existing trade measures will expire at the end of 1999; the new measures should apply as of 1 January 2000, in order to avoid any obstacles to trade between the countries concerned and the Community; in view of the urgency of the situation, it is therefore necessary to allow for an exception to the period of six weeks provided for under Part I, paragraph 3 of the Protocol to the Treaty of Amsterdam on the role of national parliaments in the European Union,

⁽¹⁾ OJ L 253, 11.10.1993, p. 1. Regulation as last amended by Commission Regulation (EC) No 1662/99 (OJ L 197, 29.7.1999, p. 25).

Each Member State shall ensure that importers of the products in question have equal and uninterrupted access to the tariff quotas for as long as the balance of the relevant quota volume so permits.

3. The customs duties applicable to imports into the Community of 'baby-beef' products defined in Annex F and originating in the countries referred to in Article 1(1), shall be 20 % of the *ad valorem* duty and 20 % of the specific duty as laid down in the Common Customs Tariff, within the limit of an annual tariff quota of 10 900 tonnes expressed in carcass weight.

Any request for import within these quotas has to be accompanied by an authenticity certificate issued by the competent authorities of the exporting country and attesting that the goods originate in the country concerned and correspond to the definition in Annex F. This certificate shall be drawn up by the Commission according to the procedure provided for in Article 6.

- informed the Committee referred to in Article 8(1);
- called on the Member States to take such precautionary measures as are necessary in order to safeguard the Community's financial interests;
- published a notice in the *Official Journal of the European Communities* stating that there are grounds for reasonable doubts about the application of the preferential arrangements by the beneficiary country concerned which may call into question its right to continue enjoying the benefits granted by this Regulation.

2. A Member State may refer the Commission's decision to the Council within ten days. The Council, acting by a qualified majority, may take a different decision within thirty days.

3. On conclusion of the period of suspension, the Commission shall decide either to:

- terminate the provisional suspension measure following consultation of the Committee referred to in paragraph 1; or
- extend the suspension measure in accordance with the procedure provided for in paragraph 1.

Article 11

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Communities*.

**COUNCIL REGULATION (EC) No 7/2000
of 21 December 1999**

**amending Council Regulation (EC) No 517/94 on common rules for imports of textile products
from certain third countries not covered by bilateral agreements, protocols or other arrangements,
or by other specific Community import rules**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 133 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Regulation (EC) No 517/94⁽¹⁾, and in particular its Annexes IIIB and VI, establishes the annual quantitative limits for certain products originating in Bosnia-Herzegovina and Croatia;
- (2) Council Regulation (EC) No 6/2000 of 17 December 1999 concerning the arrangements applicable to imports into the Community of products originating in the Republics of Bosnia and Herzegovina and Croatia and to imports of wine originating in the Former Yugoslav Republic of Macedonia and the Republic of Slovenia⁽²⁾ introduces the splitting of the existing global concessions into country specific ones for Bosnia-Herzegovina and Croatia;
- (3) It is appropriate to also follow this approach for textiles products, and thus to split the existing common quantitative restrictions into country specific ones for Bosnia-Herzegovina (30 %) and Croatia (70 %) according to the trade patterns and actual utilisation of quantitative limits for the last three years (1996-1998), and therefore to amend Annexes IIIB and VI to Regulation (EC) No 517/94;
- (4) The General Affairs Council of 13 September 1999 invited the Commission to examine possible improvements to the current measures;
- (5) It is therefore appropriate to increase the quota levels for Bosnia-Herzegovina and Croatia, taking as a basis the quota growth rate per category which was foreseen in a Supplementary Protocol to the Cooperation Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia on trade in textile products, concluded by Decision 90/649/EEC⁽³⁾;
- (6) It is appropriate to allow, in certain cases, import authorisations to be issued by electronic means;

- (7) The quota levels for Category 6 for the year 1999 for Bosnia-Herzegovina and Croatia should be increased in order to absorb certain pending import requests,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes IIIB and VI to Regulation (EC) No 517/94 shall be replaced by those appearing in Annexes I and II respectively to this Regulation.

Article 2

The following paragraph shall be added to Article 21

‘4. Import authorisations may be issued by electronic means at the request of the importer concerned. At the duly motivated request of that importer, and provided that paragraph 3 of this Article has been complied with, an import authorisation issued by electronic means may be replaced by an import authorisation in paper form by the competent authority of the same Member State which issued the original import authorisation. However, that authority shall only issue an import authorisation in written form after having ensured that the authorisation by electronic means has been cancelled.

The Commission may, in accordance with the procedure provided for in Article 25(1), (2) and (3), take any measure necessary to implement this paragraph.’

Article 3

In order to accommodate certain additional requests for import authorisations made in 1999, in Annex IIIB under ‘Republics of Bosnia-Herzegovina and Croatia’, under Category 6 ‘Quantity’ ‘1 415’ shall be replaced by ‘1 465’.

Article 4

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

However, Article 1 shall apply with effect from 1 January 2000, and Article 2 shall apply with effect from 20 December 1999.

Having regard to Council Regulation (EC) No 6/2000 of 17 December 1999 concerning the arrangements applicable to imports into the Community of products originating in the Republics of Bosnia and Herzegovina and Croatia and to imports of wine originating in the former Yugoslav Republic of Macedonia and the Republic of Slovenia ⁽¹⁾, and in particular Article 6 thereof,

Having regard to Council Regulation (EC) No 1254/1999 of 17 May 1999 on the common organisation of the market in beef and veal ⁽²⁾, and in particular Article 32(1) thereof,

Whereas:

- (1) Article 5(3) of Regulation (EC) No 6/2000 opens for the year 2000 a tariff quota in the beef sector of 10 900 tonnes expressed in carcase weight. Detailed rules for the application of that quota must be laid down.
- (2) Pursuant to Article 5(3) of Regulation (EC) No 6/2000, imports under that quota are subject to the presentation of an authenticity certificate attesting that the goods are originating goods from the issuing country and that they correspond exactly to the definition in Annex F to the aforementioned Regulation. It is necessary to establish a model for those certificates and lay down detailed rules for their use.
- (3) The arrangements should be managed through the use of import licences. To this end rules should be laid down on submission of applications and the information to be given on applications and licences, in accordance with the provisions of Commission Regulation (EEC) No 3719/88 of 16 November 1988 laying down common detailed rules for the application of the system of import and export licences and advance-fixing certificates for agricultural products ⁽³⁾, as last amended by Regulation (EC) No 1127/1999 ⁽⁴⁾, and of Commission Regulation (EC) No 1445/95 of 26 June 1995 on rules of application for import and export licences in the beef and veal sector and repealing Regulation (EEC) No 2377/80 ⁽⁵⁾, as last amended by Regulation (EC) No 2648/98 ⁽⁶⁾.
- (4) In order to ensure proper management of the imports of the products in question, provision should be made for

import licences to be issued subject to verification, in particular of entries on certificates of authenticity.

- (5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Beef and Veal,

Having regard to Commission Regulation (EC) No 2190/96 of 14 November 1996 on detailed rules for implementing Council Regulation (EC) No 2200/96 as regards export refunds on fruit and vegetables ⁽¹⁾, as last amended by Regulation (EC) No 1303/1999 ⁽²⁾, and in particular Article 5(5) thereof,

- (1) Whereas Commission Regulation (EC) No 2331/1999 ⁽³⁾, fixes the indicative quantities for system B export licences other than those sought in the context of food aid;
- (2) Whereas, in the light of the information available to the Commission today, there is a risk that the indicative quantities laid down for the current export period for shelled almonds will shortly be exceeded; whereas this

overrun will prejudice the proper working of the export refund scheme in the fruit and vegetables sector;

- (3) Whereas, to avoid this situation, applications for system B licences for shelled almonds exported after 4 January 2000 should be rejected until the end of the current export period,

HAS ADOPTED THIS REGULATION:

Article 1

Applications for system B export licences for shelled almonds submitted pursuant to Article 1 of Regulation (EC) No 2331/1999, export declarations for which are accepted after 4 January 2000 and before 24 January 2000, are hereby rejected.

HAS ADOPTED THIS DECISION:

The Memorandum of Understanding between the European Community and the Arab Republic of Egypt on trade in textile products shall be applied on a provisional basis from 1 January 2000 pending the completion of the procedures for its conclusions, subject to reciprocal provisional application by the Arab Republic of Egypt ⁽¹⁾.

The text of the initialled Memorandum of Understanding is attached to this Decision.

MEMORANDUM OF UNDERSTANDING
between the European Community and the Arab Republic of Egypt on trade in textile products

The European Community (hereinafter the 'Community') and the Arab Republic of Egypt on... December 1999 agreed that there is a need to renew for two years the existing system of administrative cooperation on textile products, done and initialled as a Memorandum of Understanding in Geneva on 26 November 1993 as last amended by Exchange of Letters initialled on 13 October 1995 and by a Memorandum of Understanding on 6 November 1997.

Both Parties confirm their readiness to seek acceptable solutions to any problems which might arise and hence to avoid recourse to measures which might be prejudicial to the interest of both Parties.

In this spirit of cooperation, both Parties agree that the trade in textile products between the Community and the Arab Republic of Egypt shall be based on the following provisions:

1. The Community will undertake not to apply safeguard measures provided for by Article 34 of the Cooperation Agreement between the Community and the Arab Republic of Egypt, as long as the imports of products listed in the Annex I are not higher than the levels indicated in the said Annex.
2. The administrative cooperation system agreed during the discussions and set out in Annex II will apply to the products covered by this Memorandum of Understanding.
3. The Community undertakes not to charge to the agreed levels imports intended for inward processing or re-export.
4. The Egyptian authorities undertake to organise their exports of the products listed in Annex I so that the agreed levels laid down therein are not exceeded.
5. The Parties shall cooperate in order to prevent sudden and prejudicial changes in traditional trade flows resulting in regional concentration of direct imports into the Community.
6. Egypt shall endeavour not to deprive certain regions of the Community which have traditionally had relatively small shares of Community quotas of imports serving as inputs for their processing industry.
7. The Egyptian authorities may, in their management of export, make use of the flexibility provisions laid down in Annex III.
8. The Parties shall cooperate fully in order to prevent, to investigate and to take any appropriate legal and/or administrative action against circumvention of the provisions of this Memorandum of Understanding.
9. At the request of either Party, consultations may be held to examine specific problems in the field of this Memorandum of Understanding. Such consultations shall be held within a maximum of 10 working days following a request by either Party.
10. The present regime will enter into force on 1st January 2000 and will last until 31 December 2001.

ANNEX II

ADMINISTRATIVE COOPERATION

The system of administrative cooperation to be applied by the Community and the Arab Republic of Egypt in their trade in textile products will be as follows:

1. The Egyptian authorities (Cotton Textile Consolidation Fund) shall issue an export document for every consignment of products listed in Annex I of the Memorandum of Understanding. The export document shall correspond to the specimen as shown in Annex IV hereto.
 - (a) for products for which levels have been agreed and which are intended to enter into free circulation within the Community, export licences shall only be issued up to the agreed Community levels. Each licence must, in particular, certify that the amount in question has been charged against the level for the product category concerned. For such products for which no level has been agreed, export licences are issued without restriction but account is kept of the quantities issued.

Where export documents are cancelled the Egyptian authorities shall inform the Commission of the European Communities immediately, providing all the necessary information to prevent the relevant quantity from being set off against the limit concerned.
 - (b) The actual date of shipment shall determine the quota year against which goods are to be charged. To this end, the date shown on the bills of lading or airway bills or any other equivalent document shall be regarded as constituting proof.
2. The authorities of the Member States shall issue import documents or authorisations automatically within five working days on receipt of the request, provided that it is accompanied by the export document referred to under paragraph 1.
3. In order to facilitate this cooperation system:
 - the Parties will exchange statistics about actual imports and exports as well as import and export documents issued during each calendar year,
 - in addition, the Parties will exchange cumulative statistics on a quarterly basis. These data will be communicated to the other Party before the end of the third month following every quarter.
4. The classification of the products referred to in Annex I shall be based on the tariff and statistical nomenclature of the Community (hereinafter called the 'Combined Nomenclature' or in abbreviated form 'CN') and any amendments thereof.

No decision relating to the classification of goods or amendment to the Combined Nomenclature (CN) concerning the category of products in question, shall have the effect of reducing the agreed levels.

*ANNEX III***FLEXIBILITIES**

The flexibility shall be as follows:

1. The Egyptian authorities may carry over unused levels from the preceding year up to a maximum of 10 % of the levels for the year in progress.
2. Advance use of agreed levels for the next year may be made up to a maximum of 10 % of the levels for the year in progress.
3. The transfer between category 1 and category 2 is authorised within the limit of 7.5 % of the figure initially agreed for the category to which the transfer is made.

Agreed minute

With regard to the question of management of the levels below which the Community undertakes not to apply safeguards measures provided for by Article 34 of the Cooperation Agreement, the Arab Republic of Egypt makes clear its intention to take the necessary measures to ensure that Egyptian exports of products listed in Annex I do not exceed the Community agreed levels as provided for under the flexibility provisions in the Memorandum of Understanding itself.

The government of Egypt also takes note of the Community's desire to resume normal regime of trade as soon as possible. It recalls in this connection that the system governing access to the Community for cotton products originating in Egypt is one of free entry without quantitative restrictions or equivalent measures.
