**COMMISSION REGULATION (EC) No 748/2000
of 11 April 2000
on the issue of system B export licences in the fruit and vegetables sector**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Commission Regulation (EC) No 2190/96 of 14 November 1996 on detailed rules for implementing Council Regulation (EC) No 2200/96 as regards export refunds on fruit and vegetables ⁽¹⁾, as last amended by Regulation (EC) No 298/2000 ⁽²⁾, and in particular Article 5(5) thereof,

Whereas:

- (1) Commission Regulation (EC) No 470/2000 ⁽³⁾ fixes the indicative quantities for system B export licences other than those sought in the context of food aid.
- (2) In the light of the information available to the Commission today, there is a risk that the indicative quantities laid down for the current export period for citrons will shortly be exceeded. This overrun will prejudice the

proper working of the export refund scheme in the fruit and vegetables sector.

- (3) To avoid this situation, applications for system B licences for citrons exported after 11 April 2000 should be rejected until the end of the current export period,

HAS ADOPTED THIS REGULATION:

Article 1

Applications for system B export licences for citrons submitted pursuant to Article 1 of Regulation (EC) No 470/2000, export declarations for which are accepted after 11 April 2000 and before 17 May 2000, are hereby rejected.

Article 2

This Regulation shall enter into force on 12 April 2000.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 749/2000**of 11 April 2000****adapting the total quantities referred to in Article 3 of Council Regulation (EEC) No 3950/92
establishing an additional levy in the milk and milk products sector**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3950/92 of 28 December 1992 establishing an additional levy in the milk and milk products sector ⁽¹⁾, as last amended by Regulation (EC) No 1256/1999 ⁽²⁾, and in particular Articles 3(2) and 4(2) thereof,

Whereas:

- (1) Article 3(2) of Regulation (EEC) No 3950/92 lays down that the guaranteed total quantities for Finland may be increased to compensate 'SLOM' producers, up to a maximum of 200 000 tonnes. In accordance with Article 6 of Commission Regulation (EC) No 671/95 ⁽³⁾, as amended by Regulation (EC) No 1390/95 ⁽⁴⁾, Finland has notified the quantities concerned for the 1999/2000 marketing year.
- (2) Article 4(2) of Regulation (EEC) No 3950/92 lays down that the individual reference quantities are increased or established at the duly justified request of producers to take account of changes affecting their deliveries and/or direct sales and that the increase or establishment of such a reference quantity is subject to a corresponding reduction or cancellation of the other reference quantity the producer owns.
- (3) Such adjustments may not lead to an increase, for the Member State concerned, in the sum of the deliveries and direct sales referred to in Article 3 of Regulation (EEC) No 3950/92. Where the individual reference quantities undergo a definitive change, the quantities referred to in Article 3 are adjusted accordingly.

- (4) In accordance with the third indent of Article 8 of Commission Regulation (EEC) No 536/93 ⁽⁵⁾, as last amended by Regulation (EC) No 1255/98 ⁽⁶⁾, Belgium, Denmark, Germany, Spain, France, Ireland, Italy, the Netherlands, Austria, Portugal, Finland and the United Kingdom have notified quantities which have undergone a definitive change in accordance with the second subparagraph of Article 4(2) of Regulation (EEC) No 3950/92.
- (5) The total quantities applicable for the period from 1 April 1999 to 31 March 2000 laid down in the table given in Article 3(2) of Regulation (EEC) No 3950/92 and consequently those applicable for subsequent periods laid down in the Annex to that Regulation should therefore be adjusted.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Milk and Milk Products,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EEC) No 3950/92 is amended as follows:

1. The table in Article 3(2) is replaced by that given in Annex I hereto.
2. The Annex is replaced by Annex II hereto.

Article 2

This Regulation shall enter into force on the seventh day following its publication in the *Official Journal of the European Communities*.

COMMISSION REGULATION (EC) No 751/2000
of 11 April 2000
fixing the export refunds on pigmeat

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2759/75 of 29 October 1975 on the common organisation of the market in pigmeat ⁽¹⁾, as last amended by the Act of Accession of Austria, Finland and Sweden and by Regulation (EC) No 3290/94 ⁽²⁾, and in particular the second paragraph of Article 13 (3) thereof,

Whereas

- (1) Article 13 of Regulation (EEC) No 2759/75 provides that the difference between prices on the world market for the products listed in Article 1(1) of that Regulation and prices for these products within the Community may be covered by an export refund.
- (2) It follows from applying these rules and criteria to the present situation on the market in pigmeat that the refund should be fixed as set out below;
- (3) In the case of products falling within CN code 0210 19 81, the refund should be limited to an amount which takes account of the qualitative characteristics of each of the products falling within these codes and of the foreseeable trend of production costs on the world market. It is important that the Community should continue to take part in international trade in the case of certain typical Italian products falling within CN code 0210 19 81.
- (4) Because of the conditions of competition in certain third countries, which are traditionally importers of products falling within CN codes 1601 00 and 1602, the refund

for these products should be fixed so as to take this situation into account. Steps should be taken to ensure that the refund is granted only for the net weight of the edible substances, to the exclusion of the net weight of the bones possibly contained in the said preparations.

- (5) Article 13 of Regulation (EEC) No 2759/75 provides that the world market situation or the specific requirements of certain markets may make it necessary to vary the refund on the products listed in Article 1(1) of Regulation (EEC) No 2759/75 according to destination.
- (6) The refunds should be fixed taking account of the amendments to the refund nomenclature established by Commission Regulation (EEC) No 3846/87 ⁽³⁾, as last amended by Regulation (EC) No 2765/1999 ⁽⁴⁾.
- (7) The Management Committee for Pigmeat has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

The list of products on which the export refund specified in Article 13 of Regulation (EEC) No 2759/75 is granted and the amount of the refund shall be as set out in the Annex hereto.

Article 2

This Regulation shall enter into force on 12 April 2000.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

(*) Includes estimated GT values in accordance with Article 4 of the present Decision. The objectives will be revised as real GT values become available.

The revised situation for the Italian fleet at 1 January 1992 and 31 December 1996 has been established on the basis of the results of the joint Commission/Italian working group during the period January 1998 to February 1999. The revised situation affects the calculation of the start and end objectives of MAGP III. The global end objectives of MAGP III represent the global starting objectives for the MAGP IV. The segment objectives are based on the allocation of vessels between segments according to the situation at 1 January 1997.

The figures as regards the situation and the MAGP IV objectives are subject to verification before 30 June 2000 and may therefore be corrected in a future MAGP decision for Italy. In particular:

- the capacity of segments 4H, 4H8 and 4H9 includes vessels from other segments that have been misallocated. A total of 3 633 GT and 14 177 kW must be removed from these segments and reallocated to the other segments of the fleet,
- eleven vessels have not been allocated to any segment. Their capacity (587 GT and 2 341 kW) will be added to the situation at 1 January 1997 and the objectives will be adjusted accordingly,
- vessels in segment 4HA that are obliged to change from driftnet fishing to other fishing activities will be moved to other fleet segments and the objectives will be adjusted accordingly.
