COUNCIL REGULATION (EC) No 2448/2000
of 7 November 2000
opening and providing for the administration of autonomous Community tariff quotas for certain
fishery products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 26 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Community supplies of certain fishery products currently depend on imports from third countries. It is in the Community's interest to suspend in part or in whole the customs duties for the products in question, within Community tariff quotas of an appropriate volume. In order not to jeopardise the development prospects of this production in the Community and to ensure an adequate supply to satisfy user industries, it is advisable to open those quotas, applying customs duties varied accordingly to sensitivity of the different products on the Community market.
- (2) It is necessary, in particular, to ensure for all Community importers equal and uninterrupted access to the said quotas and to ensure the uninterrupted application of the rates laid down for the quotas to all imports of the products concerned into all Member States until the quotas have been used up.
- (3) The decision for the opening of autonomous tariff quotas should be taken by the Community. To ensure the efficiency of a common administration of these quotas, there is no reasonable obstacle to authorising the Member States to draw from the quota-volumes the necessary quantities corresponding to actual imports. However, this method of administration requires close

cooperation between the Member States and the Commission and the latter must in particular be able to monitor the rate at which the quotas are used up and inform the Member States accordingly.

- (4) Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code ⁽¹⁾, has codified the management rules for tariff quotas designed to be used following the chronological order of dates of customs declarations.
- (5) Examination of the situation as regards supplies of tropical shrimps and prawns from South and Central America (shrimp and prawns of the genus *Penaeus*, except the species *Penaeus monodon* and *Penaeus japonicus*) to the Community market has shown that, mainly due to the 'white spot syndrome' affecting the species, the user industries are temporarily no longer receiving sufficient supplies. An autonomous tariff quota for a limited quantity and of limited duration should therefore be opened,

HAS ADOPTED THIS REGULATION:

Article 1

1. The import duties on the goods listed in the Annex shall be suspended at the indicated duty rate for the periods considered and in the amounts indicated therein.

2. Imports of the products in question shall not be covered by the quotas referred to in paragraph 1 unless the free-at-frontier price, which is determined by the Member States in accordance with Article 22 of Council Regulation (EEC) No 3759/92 of 17 December 1992 on the common organisation of the market in fishery and aquaculture products ⁽²⁾, is at least equal to the reference price fixed, or to be fixed, by the Community for the products under consideration of the categories of the products concerned.

⁽¹⁾ OJ L 253, 11.10.1993, p. 1. Regulation as last amended by Commission Regulation (EC) No 1602/2000 (OJ L 188, 26.7.2000, p. 25).

⁽²⁾ OJ L 388, 31.12.1992, p. 1. Regulation as last amended by Regulation (EC) No 3318/94 (OJ L 350, 31.12.1994, p. 15).

Article 2

The tariff quotas referred to in Article 1 shall be administered by the Commission in accordance with Articles 308a to 308c of Regulation (EEC) No 2454/93.

Article 3

The Member States and the Commission shall co-operate closely to ensure that this Regulation is complied with.

Article 4

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply from 1 November 2000.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 2450/2000**of 7 November 2000****establishing the allocation of export licences for cheeses to be exported in 2001 to the United States of America under certain quotas resulting from the GATT Agreements**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1255/1999 of 17 May 1999 on the common organisation of the market in milk and milk products ⁽¹⁾, as last amended by Regulation (EC) No 1670/2000 ⁽²⁾, and in particular Article 30 thereof,

Whereas:

(1) Commission Regulation (EC) No 1553/2000 ⁽³⁾, as amended by Regulation (EC) No 1795/2000 ⁽⁴⁾, opens the procedure for the allocation of export licences for cheese to be exported in 2001 to the United States of America under certain quotas resulting from the GATT Agreements.

(2) Commission Regulation (EC) No 174/1999 of 26 January 1999 laying down special detailed rules for the application of Council Regulation (EEC) No 804/68 as regards export licences and export refunds in the case of milk and milk products ⁽⁵⁾, as last amended by Regulation (EC) No 2357/2000 ⁽⁶⁾, provides in Article 20(3) that in the case of applications for provisional licences lodged pursuant to Regulation (EC) No 1553/2000 relating to quantities of products in any product group greater than those available, the allocation of licences may take into account the quantity of the same products exported to the United States of America by the applicant in the past and preference may be given to applicants whose designated importers are subsidiaries. Since for most product groups the quantity applied for is greater than that available, a preference should be accorded to those applicants whose designated importers are subsidiaries by fixing higher allocation coefficients for such applicants.

(3) The regime does not foresee the possibility for an operator to renounce the delivery of a certificate in cases where the quantity resulting from the application of the allocation coefficients is very small and experience has shown that there is a risk of an operator in such circumstances being unable to fulfil his obligation to export with the consequent loss of the security. It is therefore

appropriate to ensure the allocation of a minimum quantity.

(4) In the case of product groups for which the applications lodged are for quantities less than those available, it is appropriate, in accordance with Article 20(5) of Regulation (EC) No 174/1999, to provide for the allocation of the remaining quantities to the applicants in proportion to the quantities applied for. The allocation of such further quantities should be conditional upon the interested operator making a request and lodging a security.

(5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Milk and Milk Products,

HAS ADOPTED THIS REGULATION:

(a) for the quantity applied for per product code of the export refund nomenclature not exceeding 10 tonnes; and

(b) for the quantity applied for per product code of the export refund nomenclature exceeding 10 tonnes in so far as the allocation coefficients indicated in column 5 of the Annex allow,

amending Regulation (EC) No 1622/2000 laying down certain detailed rules for implementing Regulation (EC) No 1493/1999 on the common organisation of the market in wine and establishing a Community code of oenological practices and processes, as regards Annex XIV

Having regard to Council Regulation (EC) No 1493/1999 of 17 May 1999 on the common organisation of the market in wine ⁽¹⁾, as amended by Commission Regulation (EC) No 1622/2000 ⁽²⁾, and in particular Articles 43 and 46 thereof,

Whereas:

- (1) Annex V(C)(4) to Regulation (EC) No 1493/1999 provides that the limits on increases in the alcoholic strength of wine by volume may be raised by up to 1 % in years when weather conditions have been exceptionally unfavourable.
- (2) Article 23 of Regulation (EC) No 1622/2000 specifies that these unfavourable years and the wine-growing zones, geographical regions and varieties concerned are to be as set out in Annex XIV to that Regulation.
- (3) Because of the exceptionally adverse weather during 2000, the limits on increases in natural alcoholic strength laid down in Annex V(E) do not permit the production of wine in the wine-growing regions of the United Kingdom for which there would normally be market demand. The United Kingdom should therefore be authorised to augment natural alcoholic strength by up to 4,5 % vol and the year to which this derogation relates, together with the other relevant information, should be included in Annex XIV to Regulation (EC) No 1622/2000.
- (4) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,
