COMMISSION REGULATION (EC) No 312/2001

of 15 February 2001

laying down detailed rules of application for the importation of olive oil originating in Tunisia and derogating from certain provisions of Regulations (EC) No 1476/95 and (EC) No 1291/2000

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 2000/822/EC of 22 December 2000 on the conclusion of an Agreement in the form of an Exchange of Letters between the European Community and the Republic of Tunisia concerning reciprocal liberalisation measures and amendment of the Agricultural Protocols to the EC/Tunisia Association Agreement ⁽¹⁾,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organisation of the market in oils and fats ⁽²⁾, as last amended by Regulation (EC) No 2826/2000 ⁽³⁾,

Whereas:

- (1) Decision 2000/822/EC introduces a special scheme under Article 3 of Protocol 1 of the Agreement for the import into the Community, at a zero rate of duty, of a quota of olive oil falling within CN codes 1509 and 1510, wholly obtained in Tunisia and transported direct from there to the Community.
- (2) The supply of olive oil to the Community market allows the proposed quantity to be disposed of in principle without disturbing the market, provided that the imports are not concentrated in a short period of the marketing year but are instead staggered between January and October. Provision should be made for import licences to be issued in the period in question according to a monthly schedule.
- (3) For the sound management of the quantity in question, a mechanism must be created that encourages the operators to return immediately to the issuing agency licences that they will not use. It is also necessary to create a mechanism encouraging the operators to return the licences to the issuing agency after their date of expiry so that the unused quantities can be re-used.
- (4) Oil imported from Tunisia under the special scheme may not exceed a given quantity. Therefore, the tolerance laid down in Article 8 of Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products ⁽⁴⁾ should not be applied.
- (5) Special detailed rules relating to the imports should be laid down. It is necessary in particular to fix the term of validity of the licences and the amount of the applicable

security, notwithstanding Article 3 of Commission Regulation (EC) No 1476/95 ⁽⁵⁾.

- (6) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Oil and Fats,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January each year, the quota of untreated olive oil falling within CN codes 1509 10 10 and 1509 10 90 wholly obtained in Tunisia and transported direct from that country to the Community, which is provided for in Article 3 of Protocol 1 to the Euro-Mediterranean Agreement establishing an association between the European Communities and their Member States, of the one part, and the Republic of Tunisia, of the other part, may be imported at a zero rate of duty. The import licences shall be issued up to the quota limit laid down for each year.

2. For each year and without prejudice to the limit laid down for the tariff quota bearing the serial No 09.4032, licences may be issued in accordance with the conditions laid down in the first paragraph, up to a limit of:

- 1 000 tonnes for each month of January and February,
- 4 000 tonnes for the month of March,
- 8 000 tonnes for the month of April,
- 10 000 tonnes for each month from May to October.

If one of the monthly quantities referred to in the preceding paragraph is not used entirely in the month in question, what remains of this quantity can be used the following month, once the quantity for that month has been exhausted, but may not be carried over thereafter.

3. For the purposes of calculating the quantity authorised each month, where a week begins in one month and finishes in the following month, it must be considered part of the month in which the Thursday falls.

Article 2

1. With a view to applying the exemption from customs duty referred to in Article 1, importers must submit an import licence application to the competent authorities of the Member States. Such applications must be accompanied by a copy of the purchase contract concluded with the Tunisian exporter.

Where there is a risk of the monthly quota being exhausted, the Commission shall limit the issue of licences in proportion to the quantity available and, if appropriate, shall inform the Member States that the maximum quantity laid down for the year has been reached.

4. The licences shall be issued on the third working day following that of the notification referred to in paragraph 2, provided that the Commission has not taken any measures within that period.

COMMISSION REGULATION (EC) No 313/2001
of 15 February 2001
fixing the export refunds on milk and milk products

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1255/1999 of 17 May 1999 on the common organisation of the market in milk and milk products ⁽¹⁾, as last amended by Regulation (EC) No 1670/2000 ⁽²⁾, and in particular Article 31(3) thereof,

Whereas:

(1) Article 31 of Regulation (EC) No 1255/1999 provides that the difference between prices in international trade for the products listed in Article 1 of that Regulation and prices for those products within the Community may be covered by an export refund within the limits resulting from agreements concluded in accordance with Article 300 of the Treaty.

(2) Regulation (EC) No 1255/1999 provides that when the refunds on the products listed in Article 1 of the above-mentioned Regulation, exported in the natural state, are being fixed, account must be taken of:

- the existing situation and the future trend with regard to prices and availabilities of milk and milk products on the Community market and prices for milk and milk products in international trade,
- marketing costs and the most favourable transport charges from Community markets to ports or other points of export in the Community, as well as costs incurred in placing the goods on the market of the country of destination,
- the aims of the common organisation of the market in milk and milk products which are to ensure equilibrium and the natural development of prices and trade on this market,
- the limits resulting from agreements concluded in accordance with Article 300 of the Treaty, and
- the need to avoid disturbances on the Community market, and
- the economic aspect of the proposed exports.

(3) Article 31(5) of Regulation (EC) No 1255/1999 provides that when prices within the Community are being determined account should be taken of the ruling prices which are most favourable for exportation, and that

when prices in international trade are being determined particular account should be taken of:

- (a) prices ruling on third country markets;
- (b) the most favourable prices in third countries of destination for third country imports;
- (c) producer prices recorded in exporting third countries, account being taken, where appropriate, of subsidies granted by those countries; and
- (d) free-at-Community-frontier offer prices.

(4) Article 31(3) of Regulation (EC) No 1255/1999 provides that the world market situation or the specific requirements of certain markets may make it necessary to vary the refund on the products listed in Article 1 of the abovementioned Regulation according to destination.

(5) Article 31(3) of Regulation (EC) No 1255/1999 provides that the list of products on which export refunds are granted and the amount of such refunds should be fixed at least once every four weeks; the amount of the refund may, however, remain at the same level for more than four weeks.

(6) In accordance with Article 16 of Commission Regulation (EC) No 174/1999 of 26 January 1999 on specific detailed rules for the application of Council Regulation (EC) No 804/68 as regards export licences and export refunds on milk and milk products ⁽³⁾, as last amended by Regulation (EC) No 2884/2000 ⁽⁴⁾; the refund granted for milk products containing added sugar is equal to the sum of the two components; one is intended to take account of the quantity of milk products and is calculated by multiplying the basic amount by the milk products content in the product concerned; the other is intended to take account of the quantity of added sucrose and is calculated by multiplying the sucrose content of the entire product by the basic amount of the refund valid on the day of exportation for the products listed in Article 1(1)(d) of Council Regulation (EC) No 2038/1999 of 13 September 1999 on the common organisation of the markets in the sugar sector ⁽⁵⁾, however, this second component is applied only if the added sucrose has been produced using sugar beet or cane harvested in the Community.

- (8) For the calculation of the refund for processed cheese provision must be made where casein or caseinates are added for that quantity not to be taken into account.
- (9) It follows from applying the rules set out above to the present situation on the market in milk and in particular to quotations or prices for milk products within the Community and on the world market that the refund should be as set out in the Annex to this Regulation.

Having regard to Commission Regulation (EC) No 1249/96 of 28 June 1996 laying down detailed rules for the application of Council Regulation (EEC) No 1766/92 as regards import duties in the cereals sector ⁽³⁾, as last amended by Regulation (EC) No 2235/2000 ⁽⁴⁾, and in particular Article 2 (1) thereof,

Whereas:

However, in the case of the products referred to in paragraph 2 of that Article, the import duty is to be equal to the intervention price valid for such products on importation and increased by 55 %, minus the cif import price applicable to the consignment in question. However, that duty may not exceed the rate of duty in the Common Customs Tariff.
- (2) Pursuant to Article 10 (3) of Regulation (EEC) No 1766/92, the cif import prices are calculated on the basis of the representative prices for the product in question on the world market.

- (3) Regulation (EC) No 1249/96 lays down detailed rules for the application of Council Regulation (EEC) No 1766/92 as regards import duties in the cereals sector.
- (4) The import duties are applicable until new duties are fixed and enter into force. They also remain in force in cases where no quotation is available for the reference exchange referred to in Annex II to Regulation (EC) No 1249/96 during the two weeks preceding the next periodical fixing.
- (5) In order to allow the import duty system to function normally, the representative market rates recorded during a reference period should be used for calculating the duties.
- (6) Application of Regulation (EC) No 1249/96 results in import duties being fixed as set out in the Annex to this Regulation,

HAS ADOPTED THIS REGULATION:

Article 1

The import duties in the cereals sector referred to in Article 10 (2) of Regulation (EEC) No 1766/92 shall be those fixed in Annex I to this Regulation on the basis of the information given in Annex II.
