Article 17 (SAA 30)

Notwithstanding other provisions of this Agreement, and in particular Article 24, given the particular sensitivity of the agricultural and fisheries markets, if imports of products originating in one of the two Parties, which are the subject of concessions granted pursuant to Articles 12, 14 and 15, cause serious disturbance to the markets or to their domestic regulatory mechanisms, in the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such solution, the Party concerned may take the appropriate measures it deems necessary.

3. Without prejudice to the concessions granted under Article 13, the provisions of paragraphs 1 and 2 of this Article shall not restrict in any way the pursuit of the respective agricultural policies of the former Yugoslav Republic of Macedonia and the Community nor the taking of any measures under those policies in so far as the import regime in the Annexes III, IV (a), (b), (c) and V (a), (b) is not affected.

*Article 20 (SAA 33)***Prohibition of fiscal discrimination**

The provisions concerning the abolition of customs duties on imports shall also apply to customs duties of a fiscal nature.

*Article 22 (SAA 35)***Customs unions, free trade areas, cross-border arrangements**

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade except in so far as they alter the trade arrangements provided for in this Agreement.

2. During the transitional periods specified in Articles 4 and 5, this Agreement shall not affect the implementation of the specific preferential arrangements governing the movement of goods either laid down in frontier agreements previously concluded between one or more Member States and the Socialist Federal Republic of Yugoslavia and succeeded to by the former Yugoslav Republic of Macedonia or resulting from the bilateral agreements concluded by the former Yugoslav Republic of Macedonia in order to promote regional trade.

3. Consultations between the Parties shall take place within the Cooperation Council concerning the agreements described in paragraphs 1 and 2 of this Article and, where requested, on

other major issues related to their respective trade policies towards third countries. In particular in the event of a third country acceding to the Community, such consultations shall take place so as to ensure that account is taken of the mutual interests of the Community and the former Yugoslav Republic of Macedonia stated in this Agreement.

*Article 23 (SAA 36)***Dumping**

1. If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI of the GATT 1994, it may take appropriate measures against this practice in accordance with the Agreement on implementation of Article VI of the GATT 1994 and its own related internal legislation.

2. As regards paragraph 1 of this Article, the Cooperation Council shall be informed of the dumping case as soon as the authorities of the importing Party have initiated an investigation. When no end has been put to the dumping within the meaning of Article VI of the GATT or no other satisfactory solution has been reached within 30 days of the matter being referred to the Cooperation Council, the importing Party may adopt the appropriate measures.

*Article 24 (SAA 37)***General safeguard clause**

1. Where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party; or
- serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. The Community and the former Yugoslav Republic of Macedonia shall only apply safeguard measures between themselves in accordance with the provisions of this Agreement. Such measures shall not exceed what is necessary to remedy the difficulties which have arisen, and should normally consist of the suspension of the further reduction of any applicable rate of duty provided for under this Agreement for the product concerned or the increase of the rate of duty for that product.

Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest. Measures shall not be taken for a period exceeding one year. In very exceptional circumstances, measures may be taken up to a total maximum period of three years. No safeguard measure shall be applied to the import of a product that has previously been subject to such a measure for a period of, at least, three years since the expiry of the measure.

3. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 4(b) of this Article applies, as soon as possible, the Community or the former Yugoslav Republic of Macedonia, as the case may be, shall supply the Cooperation Council with all relevant information, with a view to seeking a solution acceptable to the two Parties.

4. For the implementation of the above paragraphs the following provisions shall apply:

- (a) The difficulties arising from the situation referred to in this Article shall be referred for examination to the Cooperation Council, which may take any decisions needed to put an end to such difficulties. If the Cooperation Council or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within 30 days of the matter being referred to the Cooperation Council, the importing Party may adopt the appropriate measures to remedy the problem in accordance with this Article. In the selection of safeguard measures priority must be given to those which least disturb the functioning of the arrangements established in this Agreement.
- (b) Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. The safeguard measures shall be notified immediately to the Cooperation Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

6. In the event of the Community or the former Yugoslav Republic of Macedonia subjecting imports of products liable to give rise to the difficulties referred to in this Article to an administrative procedure having at its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

Article 25 (SAA 38)

Shortage clause

1. Where compliance with the provisions of this Title leads to:

- (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
- (b) re-export to a third country of a product against which the exporting Party maintains quantitative export restrictions, export duties or measures or charges having equivalent effect, and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance.

3. Before taking the measures provided for in paragraph 1 of this Article or, as soon as possible in cases to which paragraph 4 of this Article applies, the Community or the former Yugoslav Republic of Macedonia, as the case may be, shall supply the Cooperation Council with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Cooperation Council may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Cooperation Council, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or the former Yugoslav Republic of Macedonia, whichever is concerned, may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Cooperation Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

Article 26 (SAA 39)

State monopolies

The former Yugoslav Republic of Macedonia shall progressively adjust any State monopolies of a commercial character so as to ensure that, by the end of the fifth year following the entry

into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States and of the former Yugoslav Republic of Macedonia. The Cooperation Council shall be informed about the measures adopted to attain this objective.

Article 27 (SAA 40)

Protocol 4 lays down the rules of origin for the application of tariff preferences provided for in this Agreement.

Article 28 (SAA 41)

Restrictions authorised

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property, or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

Article 29 (SAA 42)

Both Parties agree to cooperate to reduce the potential for fraud in the application of the trade provisions of this Agreement.

Notwithstanding other provisions of this Agreement, and in particular Articles 17, 24 and 36 and Protocol 4, where one Party finds that there is sufficient evidence of fraud such as a significant increase in trade of products by one Party to the other Party, beyond the level reflecting economic conditions such as normal production and export capacities, or failure to provide administrative cooperation as required for the verification of evidence of origin by the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such solution, the Party concerned may take the appropriate measures it deems necessary. In the selection of the measure priority must be given to those which least disturb the functioning of the arrangements established in this Agreement.

Article 30 (SAA 43)

The application of this Agreement shall be without prejudice to the application of the provisions of Community law to the Canary Islands.

TITLE III

PAYMENTS, COMPETITION AND OTHER ECONOMIC PROVISIONS

Article 31 (SAA 58)

The Parties undertake to authorise, in freely convertible currency, in accordance with the provisions of Article VIII of the Articles of Agreement of the International Monetary Fund, any payments and transfers on the current account of balance of payments between the Community and the former Yugoslav Republic of Macedonia.

Article 32 (SAA 65)

1. The Parties shall endeavour wherever possible to avoid the imposition of restrictive measures, including measures relating to imports, for balance of payments purposes. A Party adopting such measures shall present as soon as possible to the other Party a timetable for their removal.

2. Where one or more Member States or the former Yugoslav Republic of Macedonia is in serious balance of payments difficulties, or under imminent threat thereof, the Community or the former Yugoslav Republic of Macedonia, as the case may be, may, in accordance with the conditions established under the WTO Agreement, adopt restrictive measures, including measures relating to imports, which shall be of limited duration and may not go beyond what is strictly necessary to remedy the balance of payments situation. The Community or the former Yugoslav Republic of Macedonia, as the case may be, shall inform the other Party forthwith.

3. Any restrictive measures shall not apply to transfers related to investment and in particular to the repatriation of amounts invested or reinvested or any kind of revenues stemming there from.

Article 33 (SAA 69)

Competition and other economic provisions

1. The following are incompatible with the proper functioning of the Agreement, in so far as they may affect trade between the Community and the former Yugoslav Republic of Macedonia:

- (ii) abuse by one or more undertakings of a dominant position in the territories of the Community or of the former Yugoslav Republic of Macedonia as a whole or in a substantial part thereof;

(iii) any public aid which distorts or threatens to distort competition by favouring certain undertakings or certain products.

2. Any practices contrary to this Article shall be assessed on the basis of criteria arising from the application of the rules of Articles 81, 82 and 87 of the Treaty establishing the European Community.

3. (a) For the purposes of applying the provisions of paragraph 1(iii), the Parties recognise that during the first four years after the entry into force of this Agreement, any public aid granted by the former Yugoslav Republic of Macedonia shall be assessed taking into account the fact that the former Yugoslav Republic of Macedonia shall be regarded as an area identical to those areas of the Community described in Article 87(3)(a) of the Treaty establishing the European Community.

(b) Each Party shall ensure transparency in the area of public aid, *inter alia* by reporting annually to the other Party on the total amount and the distribution of the aid given and by providing, upon request, information on aid schemes. Upon request by one Party, the other Party shall provide information on particular individual cases of public aid.

Each Party shall ensure that the provisions of this Article are applied within five years of the Agreement's entry into force.

4. With regard to products referred to in chapter II of Title II:

— paragraph 1(iii) shall not apply.

— any practices contrary to paragraph 1(i) shall be assessed according to the criteria established by the Community on the basis of Articles 36 and 37 of the Treaty establishing the European Community and specific Community instruments adopted on this basis.

5. If the Community or the former Yugoslav Republic of Macedonia considers that a particular practice is incompatible with the terms of paragraph 1, and:

— if such practice causes or threatens to cause serious injury to the interests of the other Party or material injury to its domestic industry, including its services industry, it may take appropriate measures after consultation within the Cooperation Council or after 30 working days following referral for such consultation.

In the case of practices incompatible with paragraph 1(iii), such appropriate measures may, where the WTO Agreement applies thereto, only be adopted in accordance with the procedures and under the conditions laid down thereby or the relevant Community internal legislation.

6. The Parties shall exchange information taking into account the limitations imposed by the requirements of professional and business confidentiality.

Article 34 (SAA 70)

With regard to public undertakings, and undertakings to which special or exclusive rights have been granted, each Party shall ensure that as from the third year following the date of entry into force of this Agreement, the principles of the Treaty establishing the European Community, in particular Article 86 thereof, are upheld.

Article 35 (SAA 71)

Intellectual, industrial and commercial property

1. Pursuant to the provisions of this Article and Annex VI, the Parties confirm the importance that they attach to ensure adequate and effective protection and enforcement of intellectual, industrial and commercial property rights.

2. The former Yugoslav Republic of Macedonia shall take the necessary measures in order to guarantee no later than five years after entry into force of this Agreement a level of protection of intellectual, industrial and commercial property rights similar to that existing in the Community, including effective means of enforcing such rights.

3. The former Yugoslav Republic of Macedonia undertakes to accede, within the period referred above, to the multilateral conventions on intellectual, industrial and commercial property rights referred to in Annex VI.

4. If problems in the area of intellectual, industrial and commercial property affecting trading conditions occur, they shall be referred urgently to the Cooperation Council, at the request of either Party, with a view to reaching mutually satisfactory solutions.

Customs

Mutual assistance between administrative authorities in customs matters of the Parties shall take place in accordance with the provisions of Protocol 5.

3. The Cooperation Council may be assisted in the performance of his duties by a Joint Committee composed by representatives of the Community, on the one hand, and of representatives of the Government of the former Yugoslav Republic of Macedonia, on the other, normally at senior civil servant level.

The duties of the Joint Committee should include the preparation of meetings of the Cooperation Council.

4. The Cooperation Council may delegate to the Joint Committee any of its powers. In that event the Joint Committee shall take decisions in accordance with the conditions laid down in paragraphs 1 and 2.

2. Quantitative restrictions on imports into the former Yugoslav Republic of Macedonia of steel products originating in the Community, as well as measures having equivalent effect, shall be abolished on the date of entry into force of the Agreement.

Article 5

1. In view of the disciplines stipulated by Article 33 of this Agreement, the Parties recognise the need and urgency that each Party addresses promptly any structural weaknesses of its steel sector to ensure the global competitiveness of its industry. The former Yugoslav Republic of Macedonia shall therefore establish within two years the necessary restructuring and conversion programme for its steel industry to achieve viability of this sector under normal market conditions. Upon request, the Community shall provide former Yugoslav Republic of Macedonia with the appropriate technical advice to achieve this objective.

2. Further to the disciplines stipulated by Article 33 of this Agreement, any practices contrary to this Article shall be assessed on the basis of specific criteria arising from the application of the State aid disciplines of the Community, including its secondary legislation, and including any specific rules on State aid control applicable to the steel sector after the expiry of the ECSC Treaty.

3. For the purposes of applying the provisions of Article 33(1)(iii) of this Agreement with regard to steel products, the Community recognises that during five years after the entry into force of this Agreement, the former Yugoslav Republic of Macedonia may exceptionally grant State aid for restructuring purposes provided that:

- it leads to the viability of the benefiting firms under normal market conditions at the end of the restructuring period, and
- the amount and intensity of such aid are strictly limited to what is absolutely necessary in order to restore such viability and are progressively reduced, and
- the restructuring programme is linked to a global rationalisation and reduction of capacity in the former Yugoslav Republic of Macedonia.

4. Each Party shall ensure full transparency with respect to the implementation of the necessary restructuring and conversion programme by a full and continuous exchange of information to the other Party, including details on the restructuring plan as well as amount, intensity and purpose for any State aid granted on the basis of paragraphs 2 and 3 of this Article.

5. The Cooperation Council shall monitor the implementation of the requirements set out at paragraphs (1) to (4) above.

6. If one of the Parties considers that a particular practice of the other Party is incompatible with the terms of this Article, and if that practice causes or threatens to cause prejudice to the interests of the first Party or material injury to its domestic industry, this Party may take appropriate measures after consultation within the Contact Group referred to in Article 8, or after 30 working days following referral for such consultation.

Article 6

The provisions of Articles 6, 7 and 21 of the Agreement shall apply to trade between the parties in steel products.

Article 7

1. The Contracting Parties recognise the need for an administrative procedure having as its purpose the rapid provision of information on the trend in trade flows in respect of the trade in steel products originating in the former Yugoslav Republic of Macedonia in order to increase transparency and to avoid possible diversions of trade.

2. The Contracting Parties therefore agree to establish a double-checking system, without quantitative limits, for the import into the Community of steel products originating in the former Yugoslav Republic of Macedonia; to exchange statistical information on export and surveillance documents

and to hold consultations promptly on any problems arising from the operation of such a system.

3. The details of the double-checking system are contained in Annex I to this Protocol. The continuing need for this system shall be regularly reviewed. The Annex may subsequently be amended or the double-checking system abolished by means of a Decision of the Cooperation Council.

Article 8

The Parties agree that the special body already established by the Cooperation Council, namely 'the Contact Group on Iron and Steel products' ⁽¹⁾, will discuss the implementation of this Protocol.

2. The Cooperation Council shall decide on:

- extensions of the list of processed agricultural products under this Protocol,
- amendments to the duties referred to in Annexes I and II,
- increases in or the abolition of tariff quotas.

3. The Cooperation Council may replace the duties established by this Protocol by a regime established on the basis of the respective market prices of the Community and the former Yugoslav Republic of Macedonia of agricultural products actually used in the manufacture of processed agricultural products subject to this Protocol. It will establish the list of goods subject to these amounts and as a consequence, the list of basic products; to this end, it will decide the general rules of application.

Article 2

The duties applied pursuant to Article 1 may be reduced by decision of the Cooperation Council:

- when in trade between the Community and the former Yugoslav Republic of Macedonia the duties applied to the basic products are reduced, or
- in response to reductions resulting from mutual concessions relating to processed agricultural products.

The reductions provided for under the first indent shall be calculated on the part of the duty designated as the agricultural component which shall correspond to the agricultural products actually used in the manufacture of the processed agricultural products in question and deducted from the duties applied to these basic agricultural products.

Article 3

The Community and the former Yugoslav Republic of Macedonia shall inform each other of the administrative arrangements adopted for the products covered by this Protocol. These arrangements should ensure equal treatment for all interested parties and should be as simple and flexible as possible.

The conditions referred to above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

Article 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 27

Supporting documents

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the Community or in the former Yugoslav Republic of Macedonia and fulfil the other requirements of this Protocol may consist inter alia of the following:

- 2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 30

Amounts expressed in euro

- 1. For the application of the provisions of Article 21(1)(b) and Article 26(3) in cases where products are invoiced in a currency other than euro, amounts in the national currency of the former Yugoslav Republic of Macedonia equivalent to the amounts expressed in euro shall be fixed annually.

- 3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify the former Yugoslav Republic of Macedonia of the relevant amount.
- 4. The Community or the former Yugoslav Republic of Macedonia may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. The former Yugoslav Republic of Macedonia may retain unchanged its national currency equivalent to an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Cooperation Council at the request of the Community or the former Yugoslav Republic of Macedonia. When carrying out this review, the Cooperation Council shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

Mutual assistance

1. The customs authorities of the EC Member States and of the former Yugoslav Republic of Macedonia shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.

2. In order to ensure the proper application of this Protocol, the Community and the former Yugoslav Republic of Macedonia shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 32

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community or the former Yugoslav Republic of Macedonia and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 33

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Cooperation Council.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

Article 35

Free zones

1. The Community and the former Yugoslav Republic of Macedonia shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in the Community or the former Yugoslav Republic of Macedonia are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new EUR.1 certificate at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VIII

FINAL PROVISIONS

Article 38

Amendments to the Protocol

The Cooperation Council may decide to amend the provisions of this Protocol.

ANNEX I

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

- 3.1. The provisions of Article 6, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the former Yugoslav Republic of Macedonia or in the Community.

Example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading No ex 7224.

If this forging has been forged in the former Yugoslav Republic of Macedonia from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the former Yugoslav Republic of Macedonia. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

- 3.3. Without prejudice to Note 3.2, where a rule states that 'materials of any heading' may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression 'manufacture from materials of any heading, including other materials of heading No ...' means that only materials classified in the same heading as the product and of a different description than that of the product as given in column 2 of the list may be used.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term 'natural fibres' includes horsehair of heading No 0503, silk of headings Nos 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings Nos 5101 to 5105, cotton fibres of headings Nos 5201 to 5203 and other vegetable fibres of headings Nos 5301 to 5305.
- 4.3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials, not classified in chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings Nos 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,

- products of heading No 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading No 5605.

Example:

A yarn, of heading No 5205, made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 % of the yarn.

Example:

A woollen fabric, of heading No 5112, made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used provided their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading No 5802, made from cotton yarn of heading No 5205, and cotton fabric of heading No 5210 is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407 then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped', this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film', this tolerance is 30 % in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403 the 'specific processes' are the following:
- (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process ⁽¹⁾;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation.
- 7.2. For the purposes of headings Nos 2710, 2711 and 2712, the 'specific processes' are the following:
- (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process ⁽¹⁾;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (ij) isomerisation;
 - (k) in respect of heavy oils of heading No ex 2710: only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur-content of the products processed (ASTM D 1266-59 T method);
 - (l) in respect of products of heading No 2710 only, deparaffining by a process other than filtering;
 - (m) in respect of heavy oils of heading No ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading No ex 2710 (for example hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
 - (n) in respect of fuel oils of heading No ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
 - (o) in respect of heavy oils other than gas oils and fuel oils of heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.
- 7.3. For the purposes of headings Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

- (a) the applicant authority;
- (b) the measure requested;
- (c) the object of and the reason for the request;

Article 7

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Contracting Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Contracting Party.

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:
 - (a) be likely to prejudice the sovereignty of former Yugoslav Republic of Macedonia or that of a Member State which has been requested to provide assistance under this Protocol; or
 - (b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or
 - (c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the applicant authority without delay.

Article 10

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Contracting Parties. To that end, Contracting Parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the Community.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Contracting Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Contracting Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. 2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral agreement on mutual assistance which has been or may be concluded between individual Member States and former Yugoslav Republic of Macedonia in so far as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the applicability of this Protocol, the Contracting Parties shall consult each other to resolve the matter in the framework of the Cooperation Council set up by the Cooperation Agreement signed on 29 April 1997 by way of an Exchange of Letters.
