THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS REGULATION:

Having regard to the Treaty establishing the European Community,

Article 1

Having regard to Council Regulation (EC) No 1172/95 of 22 May 1995 on the statistics relating to the trading of goods by the Community and its Member States with non-member countries ⁽¹⁾, as last amended by Regulation (EC) No 374/98 ⁽²⁾, and in particular Article 21 thereof,

Article 3 of Commission Regulation (EC) No 1917/2000 ⁽³⁾ shall be replaced by the following:

Whereas:

'Article 3

- (1) The use of a threshold for each transaction for external trade statistics may allow appreciable savings in the costs for collecting the information, at the cost of a limited loss of accuracy.
- (2) Exhaustive coverage of external trade statistics must be assured, particularly in view of their use at macro economic level for drawing up the national accounts and the balances of payments. The use of a statistical threshold must therefore be compensated for by an estimate of the data below the threshold.
- (3) The amount of the statistical threshold was calculated in such a way as to meet fully the objective of savings in the collection costs, while taking account of price trends and respecting the relevance and accuracy of the statistics published in accordance with the Combined Nomenclature.
- (4) Other procedures may enable the burden of data collection to be simplified and limited without any effect on quality, for example by using electronic declarations. Application of the statistical threshold must therefore remain optional.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the Committee on External Trade Statistics,

1. The statistical threshold referred to in Article 12 of the Basic Regulation shall be fixed, for each type of goods, so that imports or exports exceeding EUR 1 000 in value or 1 000 kg in net mass shall be collected for the production of external trade statistics.

2. Application by the Member States of the threshold referred to in paragraph 1 shall remain optional.

3. The data transmitted periodically by the Member States applying a statistical threshold shall be adjusted so that the value of trade situated below the threshold is included in the external trade statistics, at least for total products.

In the absence of harmonised provisions adopted by the Commission in accordance with the procedure set out in Article 21 of the Basic Regulation, each Member State shall use the method of adjustment it considers most appropriate.

4. Member States applying a statistical threshold shall inform the Commission of the amount of that threshold and the method of adjustment used.'

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Communities*.

It shall apply from 1 January 2002.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 1670/2001**of 20 August 2001****providing for compensation to producer organisations for tuna delivered to the processing industry between 1 October and 31 December 2000**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 104/2000 of 17 December 1999 on the common organisation of the market in fishery and aquaculture products ⁽¹⁾, and in particular Article 27(6) thereof,

Whereas:

(1) Until 31 December 2000, Article 18 of Council Regulation (EEC) No 3759/92 of 17 December 1992 on the common organisation of the market in fishery and aquaculture products ⁽²⁾, which was repealed by Regulation (EC) No 104/2000, provided for a compensatory allowance to be granted under certain conditions to Community tuna producer organisations for quantities of tuna delivered to the processing industry during the calendar quarter for which prices had been recorded, where both the average quarterly selling price recorded on the Community market and the free-at-frontier price plus any applicable countervailing charge were lower than 91 % of the Community producer price for the product concerned.

(2) An examination of the situation on the Community market in the year 2000 has shown that between 1 October and 31 December of that year both the average quarterly selling price and the free-at-frontier price as referred to in Article 18 of Regulation (EEC) No 3759/92 for yellowfin tuna (*Thunnus albacares*) weighing not more than 10 kg each, bigeye tuna (*Thunnus obesus*) and skipjack or stripe-bellied bonito (*Euthynnus (Katsuwonus) pelamis*) were lower than 91 % of the Community producer price in force, as laid down in Council Regulation (EC) No 2748/1999 ⁽³⁾.

(3) The conditions laid down by Regulation (EEC) No 3759/92 should be retained in order to take a decision on granting the compensatory allowance on the products in question for the period from 1 October to 31 December 2000.

(4) Entitlement to the compensatory allowance should be determined on the basis of sales covered by invoices bearing a date falling within the quarter concerned and which have been used to calculate the average monthly selling price referred to in Article 7(1)(b) of Commission Regulation (EEC) No 2210/93 ⁽⁴⁾, which was repealed with effect from 1 January 2001 by Regulation (EC) No 80/2001 ⁽⁵⁾.

(5) The level of the compensation provided for in Article 18(2) of Regulation (EEC) No 3759/92 may not in any case exceed either the difference between the triggering threshold and the average selling price of the product in question on the Community market or a flat-rate amount equivalent to 12 % of that threshold.

(6) The quantities on which compensation as provided for in Article 18(1) of Regulation (EEC) No 3759/92 is payable may under no circumstances exceed the limits laid down in paragraph 3 of that Article for the quarter concerned.

(7) The quantities of bigeye tuna (*Thunnus obesus*) and skipjack or stripe-bellied bonito (*Euthynnus (Katsuwonus) pelamis*) sold and delivered to the processing industry established in the customs territory of the Community were higher during the quarter concerned than the quantities sold and delivered during the same quarter of the three previous fishing years. Since those quantities exceed the limit set in Article 27(3) of Regulation (EC) No 104/2000, the total quantities of those products on which compensation is payable should therefore be limited.

(8) In accordance with the ceilings laid down in Article 18(4) of Regulation (EEC) No 3759/92 for the purpose of calculating the allowance to be granted to each producer organisation, the quantities on which the allowance is payable should be allocated among the producer organisations concerned in proportion to the quantities produced by them in the same quarter of the 1997, 1998 and 1999 fishing years.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fishery Products,
