COUNCIL REGULATION (EC) No 2555/2001**of 18 December 2001**

fixing for 2002 the fishing opportunities and associated conditions for certain fish stocks and groups of fish stocks, applicable in Community waters and, for Community vessels, in waters where limitations in catch are required

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture ⁽¹⁾, and in particular Article 8(4) thereof,

Having regard to Council Regulation (EC) No 66/98 of 18 December 1997 laying down certain conservation and control measures applicable to fishing activities in the Antarctic and repealing Regulation (EC) No 2113/96 ⁽²⁾, and in particular Article 21 thereof,

Having regard to the 1994 Act of Accession, and in particular Articles 121 and 122 thereof,

Having regard to the proposal of the Commission,

Whereas:

- (1) Article 4 of Regulation (EEC) No 3760/92 requires the Council to adopt, in the light of the available scientific advice and, in particular, of the report prepared by the Scientific, Technical and Economic Committee for Fisheries, the measures necessary to ensure the rational and responsible exploitation of resources on a sustainable basis.
- (2) Under the terms of Article 8(4) of Regulation (EEC) No 3760/92, it is incumbent upon the Council, in accordance with Article 4 of that Regulation, to establish the total allowable catches (TAC) by fishery or group of fisheries. Fishing opportunities should be allocated to Member States and third countries in accordance with Article 8(4)(ii) and (vi) of that Regulation.

- (3) In order to ensure effective management of these TACs and quotas, the specific conditions under which fishing operations occur should be established.
- (4) It is necessary to establish the principles and certain procedures of fishery management at Community level, so that Member States can ensure the management of the vessels flying their flag.
- (5) In accordance with the provisions laid down in Article 2 of Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year to year management of TACs and quotas ⁽³⁾, it is necessary to indicate which stocks are subject to the various measures fixed therein.
- (6) In accordance with the procedure provided for in the agreements or protocols on fisheries relations, the Community has held consultations on fishing rights with the Kingdom of Norway ⁽⁴⁾, the Government of Denmark and the Home government of the Faroe Islands ⁽⁵⁾ and the Home Rule Government of Greenland ⁽⁶⁾, the Republic of Iceland ⁽⁷⁾, the Republic of Latvia ⁽⁸⁾ and the Republic of Lithuania ⁽⁹⁾.
- (7) Pursuant to Article 122 of the 1994 Act of Accession, the conditions under which allocations made within the framework of the Accession of Austria, Finland and Sweden can be fished will remain identical to those applicable immediately prior to the entry into force of the 1994 Accession Treaty.
- (8) Pursuant to Article 124 of the 1994 Act of Accession, fisheries agreements concluded by the Kingdom of Sweden and the Republic of Finland with third countries are managed by the Community. In accordance with these agreements, the Community has held consultations with the Republic of Poland and with the Russian Federation.

⁽⁶⁾ OJ L 29, 1.2.1985, p. 9.

⁽⁷⁾ OJ L 161, 2.7.1993, p. 1.

⁽⁸⁾ OJ L 332, 20.12.1996, p. 1.

⁽⁹⁾ OJ L 332, 20.12.1996, p. 6.

⁽¹⁾ OJ L 389, 31.12.1992, p. 1. Regulation as last amended by Regulation (EC) No 1181/98 (OJ L 164, 9.6.1998, p. 1).

⁽²⁾ OJ L 6, 10.1.1998, p. 1. Regulation as amended by Regulation (EC) No 2742/1999 (OJ L 341, 31.12.1999, p. 1).

- (9) The Community is a Contracting Party to several regional fisheries organisations. These fisheries organisations have recommended the setting of catch limitations and other conservation rules for certain species, these recommendations should therefore be implemented by the Community.
- (10) The execution of fishing opportunities should be in accordance with the Community legislation on the matter, and in particular with Council Regulation (EEC) No 2847/93 of 12 October 1993 establishing a control system applicable to the common fisheries policy⁽¹⁾, Council Regulation (EC) No 1626/94 of 27 June 1994 laying down certain technical measures for the conservation of fishery resources in the Mediterranean⁽²⁾, Council Regulation (EC) No 1627/94 of 27 June 1994 laying down general provisions concerning special fishing permits⁽³⁾, Regulation (EC) No 66/98, Council Regulation (EC) No 88/98 of 18 December 1997 laying down certain technical measures for the conservation of fishery resources in the waters of the Baltic Sea, the Belts and the Sound⁽⁴⁾ and Council Regulation (EC) No 850/98 of 30 March 1998 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms⁽⁵⁾.
- (11) The duration of the application of certain provisions is limited in order to enable the Commission to adopt detailed rules implementing Article 28c of Regulation (EEC) No 2847/93.
- (12) In 2001, the Commission has adopted measures for the recovery of the stocks of cod and northern hake, respectively in the Regulations (EC) No 2056/2001⁽⁶⁾ and No 1162/2001⁽⁷⁾, and has presented a proposal for a Regulation containing recovery plans for these stocks.
- It is therefore necessary to ensure that the TACs for 2002 on these stocks and associated ones are consistent with the recovery plans.
- (13) Other stocks have also been identified by ICES as necessitating recovery plans. For these stocks, TACs for 2002 should correspond to recovery strategies.
- (14) In order to contribute to the conservation of fish stocks, certain complementary measures on control and technical conditions of fishing should be implemented in 2002.
- (15) In order to comply with international obligations undertaken by the Community as a Contracting Party to the Convention for the Conservation of Antarctic Marine Living Resources (CCAMLR), and accordingly the obligation to apply the measures adopted by the CCAMLR Commission, the relevant dates of application are those corresponding to the beginning of the respective periods of application of the TACs as specified in Annex IG.
- (16) In order to ensure the livelihood of Community fishermen, it is important to open these fisheries on 1 January 2002. Given the urgency of the matter, it is imperative to grant an exception to the six-week period mentioned in paragraph I(3) of the Protocol on the role of national Parliaments in the European Union, annexed to the Treaty on European Union and to the Treaties establishing the European Communities,
- HAS ADOPTED THIS REGULATION:

CHAPTER I

SCOPE AND DEFINITIONS

Article 1

1. This Regulation fixes for 2002, for certain fish stocks and groups of fish stocks, fishing opportunities applicable to:

- (i) vessels flying the flag and registered in Member States, hereinafter 'Community vessels' or 'EC vessels' in zones where catch limitations are required; and
- (ii) vessels flying the flag and registered in third countries, hereinafter 'third country vessels' in waters falling within the sovereignty or jurisdiction of Member States, hereinafter 'Community waters' or 'EC waters';

and the specific conditions under which these fishing opportunities may be utilised.

However, for certain Antarctic stocks, fishing opportunities are fixed for the period specified in Annex IG.

⁽¹⁾ OJ L 261, 20.10.1993, p. 1. Regulation as last amended by Commission Regulation (EC) 1965/2001 (OJ L 268, 9.10.2001, p. 23).

⁽²⁾ OJ L 171, 6.7.1994, p. 1. Regulation as last amended by Regulation (EC) No 973/2001 (OJ L 137, 19.5.2001, p. 1).

⁽³⁾ OJ L 171, 6.7.1994, p. 7.

⁽⁴⁾ OJ L 9, 15.1.1998, p. 1. Regulation as last amended by Regulation (EC) No 1520/98 (OJ L 201, 17.7.1998, p. 1).

⁽⁵⁾ OJ L 125, 27.4.1998, p. 1. Regulation as last amended by Regulation (EC) No 973/2001 (OJ L 137, 19.5.2001, p. 1).

⁽⁶⁾ OJ L 277, 20.10.2001, p. 13.

⁽⁷⁾ OJ L 159, 15.6.2001, p. 4.

2. For the purposes of this Regulation, fishing opportunities shall take the form of:

- (a) TACs or the number of vessels authorised to fish and/or the duration of these authorisations;
- (b) shares of the TACs available to the Community;
- (c) quotas allocated to the Community in third countries' waters;
- (d) allocation of Community fishing opportunities under (b) and (c) to Member States in the form of quotas;
- (e) allocation to third countries of quotas to be fished in Community waters.

Article 2

1. The definitions of ICES⁽¹⁾, CECAF⁽²⁾ (Eastern Central Atlantic or FAO major fishing zone 34) NAFO⁽³⁾ and CCAMLR⁽⁴⁾ zones are those given, respectively, in Council Regulation (EEC) No 3880/91 of 17 December 1991 on the submission of nominal catch statistics by Member States fishing in the Northeast Atlantic⁽⁵⁾, Council Regulation (EC) No 2597/95 of 23 October 1995 on the submission of nominal catch statistics by Member States fishing in certain areas other than those of the North Atlantic⁽⁶⁾, Council

Regulation (EEC) No 2018/93 of 30 June 1993 on the submission of catch and activity statistics by Member States fishing in the Northwest Atlantic⁽⁷⁾ and Regulation (EC) No 66/98.

2. For the purposes of this Regulation, the following definitions shall apply:

- (a) International waters shall be those falling outside the sovereignty or jurisdiction of any State;
- (b) NAFO Regulatory Area shall be the part of the area of the NAFO Convention not falling under the sovereignty or within the jurisdiction of coastal States;
- (c) The Skagerrak shall be bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast;
- (d) The Kattegat shall be bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gribens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen;
- (e) The North Sea shall comprise ICES Sub-area IV and that part of ICES Division IIIa which is not covered by the definition of the Skagerrak given in point (c);
- (f) Management Unit 3 shall comprise ICES Sub-divisions 30 and 31 and the part of Sub-division 29 situated north of 59° 30' N.

CHAPTER II

FISHING OPPORTUNITIES AND ASSOCIATED CONDITIONS FOR COMMUNITY VESSELS

Article 3

1. Fishing opportunities for Community vessels in Community waters or in certain non-Community waters are hereby fixed as set out in Annexes I and II.

2. Community vessels are hereby authorised to make catches, within the quota limits set out in the Annex I, in waters falling within the fisheries jurisdiction of the Faroe Islands, Greenland, Iceland, Lithuania, Latvia, Norway and the

fishing zone around Jan Mayen, and the Russian Federation, subject to the conditions stipulated under Articles 7 and 12.

3. The amount to be paid in conformity with the Agreements on fisheries relations between the European Community and the Republics of Latvia and Lithuania for the year 2002 shall be set as follows:

Country	Financial contribution
Latvia	EUR 200 743
Lithuania	EUR 321 464

This contribution shall be payable to accounts designated by the authorities of the States concerned.

⁽¹⁾ International Council for the Exploration of the Sea.

⁽²⁾ Committee for Eastern Central Atlantic Fisheries.

⁽³⁾ Northwest Atlantic Fisheries Organisation.

⁽⁴⁾ Convention for the Conservation of Antarctic Marine Living Resources.

⁽⁵⁾ OJ L 365, 31.12.1991, p. 1. Regulation as amended by Commission Regulation (EC) No 1637/2001 (OJ L 222, 17.8.2001, p. 20).

⁽⁶⁾ OJ L 270, 13.11.1995, p. 1. Regulation as amended by Commission Regulation (EC) No 1638/2001 (OJ L 222, 17.8.2001, p. 29).

⁽⁷⁾ OJ L 186, 28.7.1993, p. 1. Regulation as last amended by Commission Regulation (EC) No 1636/2001 (OJ L 222, 17.8.2001, p. 1).

Article 4

The allocation of fishing opportunities among Member States shall be without prejudice to:

- (a) exchanges made pursuant to Article 9(1) of Regulation (EEC) No 3760/92;
- (b) reallocations made pursuant to Articles 21(4), 23(1) and 32(2) of Regulation (EEC) No 2847/93;
- (c) additional landings allowed under the stipulations of Article 3 of Regulation (EC) No 847/96;
- (d) quantities withheld in accordance with Article 4 of Regulation (EC) No 847/96;
- (e) deductions made pursuant to Article 5 of Regulation (EC) No 847/96.

*Article 5***Quota flexibility**

The stocks which are subject to a precautionary or to an analytical TAC, the stocks to which the year-to-year flexibility conditions stipulated in Articles 3 and 4 of Regulation (EC) No 847/96 shall not apply, and the stocks to which the penalty coefficients provided for in Article 5(2) of the same Regulation shall apply, are fixed for 2002 in Annex III.

*Article 6***Conditions for landing catch and by-catch**

1. Fish from stocks for which fishing opportunities are fixed shall not be retained on board or landed unless:

- (i) the catches have been taken by vessels of a Member State or a third country having a quota and that quota is not exhausted; or
- (ii) where the Community share of the TAC has not been allocated by quota among Member States, it has not been exhausted; or
- (iii) for all species other than herring and mackerel, where they are mixed with other species, the catches have been taken with nets whose mesh size is less than 32 millimetres in accordance with Article 4 of Regulation (EC) No 850/98, and are not sorted either on board or on landing; or

(iv) for herring, catches comply with the provisions set out in Article 2 of Council Regulation (EC) No 1434/98 of 29 June 1998 specifying conditions under which herring may be landed for purposes other than direct human consumption⁽¹⁾; or

(v) for mackerel, where they are mixed with horse mackerel or pilchard, the mackerel does not exceed 10 % of the total weight of mackerel, horse mackerel and pilchard on board, and the catches are not sorted; or

(vi) catches are taken during the course of scientific investigations carried out under Regulation (EC) No 850/98.

All landings shall count against the quota or, if the Community share has not been allocated between Member States by quotas, against the Community share, except for catches made under the provisions of (iii), (iv), (v) and (vi).

2. Notwithstanding paragraph 1, when any of the fishing opportunities indicated in Annex II are exhausted, it shall be prohibited for vessels operating within the fisheries to which the relevant catch limitations apply to land catches which are unsorted and which contain herring.

3. The determination of the percentage of by-catches and their disposal shall be made in accordance with Article 4 of Regulation (EC) No 850/98.

*Article 7***Access limits**

1. No fishing by Community vessels shall take place in the Skagerrak within 12 nautical miles from the baselines of Norway. However, vessels flying the flag of Denmark or Sweden shall be allowed to fish up to 4 miles from the baselines of Norway.

2. Fishing by Community vessels in waters under the jurisdiction of Iceland shall be limited to the area defined by straight lines sequentially connecting the following coordinates:

South Western Area

- 1. 63°12'N and 23°05'W through 62°00'N and 26°00'W
- 2. 62°58'N and 22°25'W
- 3. 63°06'N and 21°30'W
- 4. 63°03'N and 21°00'W from there 180°00'S;

⁽¹⁾ OJ L 191, 7.7.1998, p. 10.

South Eastern Area

Article 8

1. 63°14'N and 10°40'W

Special conditions for North Sea herring

2. 63°14'N and 11°23'W

The measures set out in Annex IV shall apply with regard to the capture, sorting and landing of herring taken from the North Sea, the Skagerrak and the Kattegat.

3. 63°35'N and 12°21'W

4. 64°00'N and 12°30'W

Article 9

5. 63°53'N and 13°30'W

Other technical and control measures

6. 63°36'N and 14°30'W

The technical measures set out in Annex V shall apply in 2002 in addition to those set out in Regulation (EC) No 850/98, Regulation (EC) No 88/98, Regulation (EC) No 1626/94 and Regulation (EC) No 973/2001.

7. 63°10'N and 17°00'W from there 180°00'S.

CHAPTER III

FISHING OPPORTUNITIES AND ASSOCIATED CONDITIONS FOR THIRD COUNTRY VESSELS*Article 10*

Vessels flying the flag of Barbados, Guyana, Japan, South Korea, Lithuania, Latvia, Norway, Poland, the Russian Federation, Suriname, Trinidad and Tobago and Venezuela and vessels registered in the Faroe Islands are hereby authorised to make catches, within the quota limits set out in Annex I, in Community waters, and subject to the conditions stipulated under Articles 11 and 13.

the flag of Norway shall be allowed seawards of four nautical miles from the baselines of Denmark and Sweden;

(ii) Latvia and Lithuania shall be limited to those parts of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of Member States in the Baltic Sea south of 59°30'N;

Article 11

Without prejudice to access restrictions stated in Community law, fishing by vessels flying the flag of:

(iii) Poland or the Russian Federation shall be limited to those parts of the Swedish part of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of Sweden in the Baltic Sea south of 59°30'N;

(i) Norway or registered in the Faroe Islands shall be limited to those parts of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of Member States in the North Sea, Kattegat, Baltic Sea and Atlantic Ocean north of 43°00'N; fishing in the Skagerrak by vessels flying

(iv) Barbados, Guyana, Japan, South Korea, Suriname, Trinidad and Tobago, and Venezuela shall be limited to those parts of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of the French Department of Guyana.

CHAPTER IV

LICENSING ARRANGEMENTS FOR COMMUNITY VESSELS*Article 12*

1. Notwithstanding the general rules on fishing licenses and special fishing permits provided for in Regulation (EC) No 1627/94, fishing in waters of third countries shall be subject to the holding of a licence issued by the authorities of the third country. However, these provisions shall not apply, when fishing in Norwegian waters of the North Sea, to:

- (a) vessels of a tonnage equal to or less than 200 GT;
- (b) vessels carrying out fisheries for human consumption for species other than mackerel;
- (c) Swedish vessels, in line with established practice.

2. The maximum number of licences and other associated conditions is hereby fixed as set out in Annex VI. Requests for licences shall indicate the types of fishing and the name and characteristics of the vessels for which licenses are to be issued and shall be addressed by the authorities of the Member States to the Commission. The Commission shall submit these requests to the authorities of the third country concerned.

3. Community vessels shall comply with the conservation and control measures and all other provisions governing the zone in which they operate.

4. Community vessels licensed to conduct a directed fishery for one species in waters of the Faroe Islands may conduct directed fishery for another species on condition of prior notification of the change to the Faroese authorities.

CHAPTER V

LICENSING ARRANGEMENTS FOR THIRD COUNTRY VESSELS*Article 13*

1. Notwithstanding Article 28b of Regulation (EC) No 2847/93 Norwegian vessels of less than 200 GT are exempted from the obligation to have a license and a fishing permit.

2. An application for a licence and special fishing permit from an authority of a third country to the Commission shall be accompanied by the following information:

- (a) name of the vessel;
- (b) registration number;
- (c) external identification letters and numbers;
- (d) port of registration;
- (e) name and address of the owner or charterer;
- (f) gross tonnage and overall length;
- (g) engine power;
- (h) call sign and radio frequency;
- (i) intended method of fishing;
- (j) intended area of fishing;

(k) species for which it is intended to fish;

(l) period for which a licence is required.

3. The licence and special fishing permit shall be kept on board. Vessels registered in the Faroe Islands or Norway shall be exempted from that obligation.

4. The granting of licences to fish in the waters of the French Department of Guyana shall be subject to the undertaking by the owner of the vessel concerned to permit an observer to come on board at the Commission's request.

5. The number of licences and special associated conditions is hereby fixed as set out in Annex VI, Part II.

6. Vessels from third countries authorised to fish on 31 December 2001 may continue to fish as from the beginning of the year 2002 until the list of vessels authorised to fish is submitted to and approved by the Commission.

7. Licences and special fishing permits may be cancelled with a view to the issue of new licences and special fishing permits. Such cancellations shall take effect on the day before the date of issue of the new licences and special fishing permits by the Commission. New licences and special fishing permits shall take effect from their date of issue.

8. Licences and special fishing permits shall be wholly or partially withdrawn before the date of expiry if the quota for the stock in question fixed in Annex I has been exhausted.

9. Licences and special fishing permits shall be withdrawn in the event of any failure to meet the obligations laid down in this Regulation.

10. For a period not exceeding 12 months, no licence and special fishing permit shall be issued for any vessel in respect of which the obligations laid down in this Regulation have not been met.

11. The Commission shall submit to the authorities of the third country concerned the names and characteristics of the vessels which shall not be authorised to fish in the Community fishing zone for the following month or months as a consequence of an infringement of the relevant rules.

Article 14

1. Third country vessels shall comply with the conservation and control measures and other provisions governing fishing of Community vessels in the zone in which they operate, in particular Regulations (EEC) No 2847/93, (EC) No 1627/94, No 88/98, No 850/98 and Commission Regulation (EEC) No 1381/87 of 20 May 1987 establishing detailed rules concerning the marking and documentation of fishing vessels⁽¹⁾.

2. The master of each vessel in possession of a licence for finfish or tuna fishing in the waters of the French Department of Guyana shall, on landing the catch after each trip, submit to the French authorities a declaration, for whose accuracy the

master alone is responsible, stating the quantities of shrimp caught and kept on board since the last declaration. This declaration shall be made using the form of which a model appears in Annex VI, Part III.

The French authorities shall take all appropriate measures to verify the accuracy of the declarations, by checking them in particular against the log-book referred to in paragraph 3. The declaration shall be signed by the competent official after it has been verified.

Before the end of each month, the French authorities shall send to the Commission all the declarations relating to the preceding month.

3. The vessels referred to in paragraph 1 shall keep a log-book in which the information set out in Annex VII, Part I shall be entered.

However, the vessels fishing in the waters of the French Department of Guyana, shall keep a log-book corresponding to the model appearing in Annex VII, Part II. A copy of this log-book shall be sent to the Commission within 30 days of the last day of each fishing trip via the French authorities.

4. Third country vessels, except Norwegian vessels fishing in ICES Division IIIa, shall transmit to the Commission, in accordance with the rules laid down in Annex VIII, the information set out in that Annex.

If, for a period of one month, the Commission receives no communication concerning a vessel in possession of a licence to fish in waters of the French Department of Guyana, the licence of that vessel shall be withdrawn.

CHAPTER VI

SPECIAL PROVISIONS FOR COMMUNITY VESSELS FISHING IN AREAS COVERED BY REGIONAL FISHERIES ORGANISATIONS

AREA OF NAFO

Article 15

Community participation

1. Member States shall forward to the Commission a list of all vessels flying their flag and registered in the Community which intend to take part in the fishing activities in the NAFO Regulatory Area not later than 20 January 2002 or, thereafter,

at least 30 days before the intended commencement of such activity. The information forwarded shall include:

- (a) name of vessel;
- (b) official registration number of the vessel assigned by the competent national authorities;
- (c) home port of the vessel;
- (d) name of owner or charterer of the vessel;

⁽¹⁾ OJ L 132, 21.5.1987, p. 9.

- (e) a declaration that the master has been provided with a copy of the regulations in force in the NAFO Regulatory Area;
 - (f) the principal species fished by the vessel in the NAFO Regulatory Area;
 - (g) the sub-areas where the vessel may be expected to fish.
2. For vessels temporarily flying the flag of a Member State (bare boat charter), the information forwarded shall include:
- (a) date as from which the vessel has been authorised to fly the flag of the Member State;
 - (b) date as from which the vessel has been authorised by the Member State to engage in fishing in the NAFO Regulatory Area;
 - (c) name of the State where the vessel is registered or has been previously registered and the date as from which it ceased flying the flag of that State;
 - (d) name of the vessel;
 - (e) official registration number of the vessel assigned by the competent national authorities;
 - (f) home port of the vessel after the transfer;
 - (g) name of owner or charterer of the vessel;
 - (h) a declaration that the master has been provided with a copy of the regulations in force in the NAFO Regulatory Area;
 - (i) the principal species fished by the vessel in the NAFO Regulatory Area;
 - (j) the sub-areas where the vessel may be expected to fish.

Article 16

Greenland halibut fishery

Member States shall transmit to the Commission the fishing plan for their vessels fishing for Greenland halibut in the NAFO Regulatory Area not later than 20 January 2002 or, thereafter, at least 30 days before the intended commencement of such activity. The fishing plan shall identify, *inter alia*, the vessel or vessels which will engage in this fishery. The fishing plan shall represent the total fishing effort to be deployed with respect to this fishery in relation to the extent of the fishing opportunities available to the Member State making the notification.

Member States shall, no later than 31 December 2002, report to the Commission on the implementation of their fishing plans, including the number of vessels actually engaged in this fishery and the total number of days fished.

Article 17

Technical measures

1. Mesh sizes

The use of trawl net having in any section thereof net meshes of dimensions less than 130 mm shall be prohibited for direct fishing of the species referred to in Annex IX. This mesh size shall be reduced to 60 mm for direct fishing of short-finned squid.

Vessels fishing for shrimp (*Pandalus borealis*) shall use nets with a minimum mesh size of 40 mm.

2. Attachments to nets

The use of any means or device other than those described in this paragraph which obstructs the meshes of a net or which diminishes their size shall be prohibited.

Canvas, netting or any other material may be attached to the underside of the cod-end in order to reduce or prevent damage.

Devices may be attached to the upper side of the cod-end provided that they do not obstruct the meshes of the cod-end. The use of top-side chafers shall be limited to those mentioned in Annex X.

Vessels fishing for shrimp (*Pandalus borealis*) shall use sorting grids or grates with a maximum spacing between bars of 22 mm.

3. By-catches

By-catches of the species listed in Annex IE for which no quotas have been fixed by the Community for a part of the NAFO Regulatory Area and taken in that part when fishing directly for any species may not exceed for each species on board 2 500 kg or 10 % by weight of all fish on board, whichever is the greater. However, in a part of the Regulatory Area where directed fishing of certain species is banned, by-catches of each of the species listed in Annex IE may not exceed 1 250 kg or 5 % respectively.

Whenever the total amounts of species subject to by-catch limits in any haul exceed the limits laid down above, whichever is applicable, vessels shall immediately change fishing area and move a minimum of five nautical miles away from the previous haul. Whenever the total amounts of species subject to by-catch limits in any future haul exceed the said

limits, vessels shall again immediately change fishing area and move a minimum of five nautical miles away from the previous hauls.

For vessels fishing for shrimp (*Pandalus borealis*), in the event that total by-catches of all species listed in Annex IE in any haul exceed 5 % by weight, vessels shall immediately change fishing area (minimum five nautical miles) in order to seek to avoid further by-catches of this species.

The percentages above are calculated as the percentage by weight, for each species, of the total catch excluding the catch of species subject to by-catch limits and are based on the catch taken by stock area.

Catches of shrimp shall not be used in the calculation of by-catch level of groundfish species.

4. Minimum size of fish

Fish from the NAFO Regulatory Area which do not have the size required as set out in Annex XI may not be processed, retained on board, transshipped, landed, transported, stored, sold, displayed or offered for sale, but shall be returned immediately to the sea. Where the quantity of caught fish not having the required size exceeds in certain fishing waters 10 % of the total quantity, the vessel must move away to a distance of at least five nautical miles before continuing fishing. Any processed fish of a species for which a minimum fish size is set out in Annex XI that is below the relevant size set out in Annex XII, shall be deemed to originate from fish that is below the minimum fish size.

Article 18

Control measures

1. In addition to complying with Articles 6, 8, 11 and 12 of Regulation (EEC) No 2847/93, masters of vessels shall enter in the log-book the information listed in Annex XIII.

2. When fishing directly for one or more of the species listed in Annex IX, vessels may not carry nets the mesh size of which is smaller than that laid down in Article 17(1). However, vessels fishing in the course of the same voyage in areas other than the NAFO Regulatory Area may keep such nets on board provided these nets are securely lashed and stowed and are not available for immediate use, that is to say:

- (a) nets shall be unshackled from their boards and their hauling or trawling cables and ropes; and
- (b) nets carried on or above the deck must be lashed securely to a part of the superstructure.

3. The masters of vessels flying the flag of a Member State and registered in the Community shall, in respect of catches of the species listed in Annex IE, keep:

- (a) a log-book stating, by species and by processed product, the aggregate output; or
- (b) a storage plan of products processed, indicating, by species, where they are located in the hold.

The masters shall provide the necessary assistance to enable the quantities declared in the log-book and the processed products stored on board to be verified.

4. Vessels flying the flag of a Member State and registered in the Community shall not engage in transshipment operations in the NAFO Regulatory Area unless they have received prior authorization to do so from the competent authorities of the Member States whose flag the vessel is flying or in which the vessel is registered.

Article 19

Redfish fishery

1. The masters of vessels flying the flag of a Member State and registered in the Community, fishing for redfish in zone 3M, shall notify every second Monday to the competent authorities of the Member State, whose flag the vessel is flying or in which the vessel is registered, the quantities of redfish caught in zone 3M in the two-week period ending at 12 midnight on the previous Sunday.

2. Member States shall report to the Commission every second Tuesday before 12 noon for the fortnight ending at 12 midnight on the previous Sunday the quantities of redfish caught in Division 3M of the NAFO Regulatory Area by vessels flying the flag of a Member State and registered in the Community.

Article 20

Statistical and scientific data

1. Member States shall provide, for vessels flying their flag and registered in the Community and fishing for yellowtail flounder in Division 3LNO of the NAFO Regulatory Area:

- (a) nominal catch and discard statistics, broken down by unit areas no larger than 1° latitude and 1° longitude, based upon the relevant entries in the log-book as provided for by Article 18(1), summarised on a monthly basis;

(b) length sampling for both nominal catches and discards, with a sampling intensity on the same scale as adopted in (a) and summarised on a monthly basis.

2. Member States shall supply, for vessels flying their flag and registered in the Community and conducting redfish and flatfish fisheries on the Flemish Cap:

(a) in addition to the normal reports, statistics on discards of cod, based upon the relevant entries in the log-book as provided for by Article 18(1), summarised on a monthly basis;

(b) length samples of cod for the two fisheries separately, with depth information accompanying each sample, summarised on a monthly basis.

3. Length samples shall be taken from all parts of the respective catch of each species concerned in such a manner that at least one statistically significant sample is taken from the first haul taken each day. The size of a fish shall be measured from the tip of the snout to the end of the tail fin.

Length samples taken as described in the first sub-paragraph shall be deemed to be representative of all catches of the species concerned.

Article 21

Area of CCAMLR

1. Direct fishing of the species set out in Annex XIV shall be prohibited in the zones and during the periods indicated therein.

2. The specific conditions under which the fishing opportunities in the area of CCAMLR may be utilised, are as follows:

(a) if, in the course of directed fishing for *Champsocephalus gunnari* in Statistical Subarea 48.3, the by-catch in any one haul of any of the species *Gobionotothen gibberifrons*, *Chaenocephalus aceratus*, *Pseudochaenichthys georgianus*, *Nototothenia rossii* or *Lepidonotothen squamifrons*:

(i) is greater than 100 kg and exceeds 5 % of the total catch of all fish by weight;

or

(ii) is equal to or greater than two tonnes;

then the fishing vessel shall move to another fishing location not closer than five nautical miles away. The fishing vessel shall not return to any point within five nautical miles of the location in which the by-catch exceeded 5 %, for a period of at least five days;

(b) if, in the course of directed fishing for *Champsocephalus gunnari* in Statistical Subarea 48.3 or Statistical Division 58.5.2, any haul contains more than 100 kg of *Champsocephalus gunnari*, and more than 10 % of the *Champsocephalus gunnari* by number are smaller than 24 cm in total length, the fishing vessel shall move to another fishing location not closer than five nautical miles away. It shall not return to any point within five nautical miles of the location in which the catch of *Champsocephalus gunnari* being smaller than 24 cm in total length exceeded 10 %, for a period of at least five days.

Each vessel operating this fishery during the period 1 March to 31 May 2002 shall conduct twenty research trawls in the manner described in Annex XV;

(c) the fishery for *Champsocephalus gunnari* in Statistical Subarea 48.3 shall be conducted by vessels with trawls only. The use of bottom trawls in the directed fishery for *Champsocephalus gunnari* in Statistical Subarea 48.3 is prohibited.

Fishing for *Champsocephalus gunnari* shall be prohibited within 12 nautical miles of the coast of South Georgia during the period 1 March to 31 May 2002;

(d) if, in the course of directed fishing for *Electrona carlsbergi*, the by-catch in any one haul of any species other than the target species:

(i) is greater than 100 kg and exceeds 5 % of the total catch of all fish by weight; or

(ii) is equal to or greater than two tonnes;

then the fishing vessel shall move to another fishing location not closer than five nautical miles away. It shall not return to any point within five nautical miles of the location in which the by-catch exceeded 5 %, for a period of at least five days;

(e) if in the course of directed fishing for *Dissostichus eleginoides* in Statistical Subarea 48.3, the by-catch of any one species is equal or greater than 1 tonne in any haul or set, then the fishing vessel shall move to another fishing location not closer than five nautical miles away. The fishing vessel shall not return to any point within five nautical miles of the location where the by-catch exceeded 1 tonne for a period of at least five days.

(f) if, in the course of directed fishing for *Dissostichus eleginoides* or *Champsocephalus gunnari* in Statistical Subarea 58.5.2, the by-catch in any haul of any of the species *Lepidonotothen squamifrons* or *Channichthys rhinoceratus*, is equal to or greater than two tonnes, then the fishing vessel shall not fish using the same method of fishing at any point within five nautical miles of the location where the by-catch exceeded two tonnes, for a period of at least five days;

(g) the total number and weight of *Dissostichus eleginoides* discarded, including those with the jellymeat condition, shall be reported. These fish will count against the total allowable catch;

of 94 mm and 90 mm, respectively, may be retained in the catch;

(h) the crab fishery shall be limited to sexually mature male crabs – all female and undersized male crabs shall be released unharmed. In case of *Paralomis spinosissima* and *Paralomis formosa*, males with a minimum carapace width

3. The location in which the by-catch – or the catch of small target species mentioned in subparagraph 2(b) – exceeds the rates referred to in paragraph 2 is defined as the course followed by the fishing vessel from the point where the gear was first deployed to the point where it was brought back on board.

CHAPTER VII

FINAL PROVISIONS

Article 22

Pursuant to Regulation (EEC) No 2847/93, data relating to landing of quantities of stocks caught shall be sent by Member States to the Commission on a computerised format by using stock codes set up in Annex XVI.

Where the TACs of the CCAMLR area are set for periods starting prior to 1 January 2002, Article 21 shall apply with effect from the beginning of the respective periods of application of the TACs.

Article 23

This Regulation shall enter into force on 1 January 2002.

Annex VIII shall remain in force only until the date of entry into force of the detailed implementing rules referred to in Article 28(h) of Regulation (EEC) No 2847/93.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 2001.

For the Council

The President

A. NEYTS-UYTTEBROECK

ANNEX I

FISHING OPPORTUNITIES APPLICABLE FOR COMMUNITY VESSELS IN AREAS WHERE CATCH LIMITATIONS EXIST AND FOR VESSELS FROM THIRD COUNTRIES IN COMMUNITY WATERS, BY SPECIES AND BY AREA (IN TONNES LIVE WEIGHT, EXCEPT WHERE OTHERWISE SPECIFIED).

All catch limitations set out in this Annex are considered as quotas for the purposes of Article 7, and shall, therefore, be subject to the rules set out in Regulation (EEC) No 2847/93, in particular Articles 14 and 15 thereof.

The 7 parts of this annex correspond to the major fishing areas as indicated below:

- Annex IA: Baltic Sea — Page 13
List of stocks — Page 96
- Annex IB: North Sea, Skagerrak and Kattegat — Page 18
List of stocks — Page 97
- Annex IC: North-east Atlantic, including Greenland waters (ICES areas I, II, IIIa, IV, V, XII, XIV and NAFO 0,1 (Greenland waters) — Page 28
List of stocks — Page 98
- Annex ID: Western Community waters (ICES areas Vb (EC waters), VI, VII, VIII, IX, X, area of CECAF (EC waters), and waters off French Guyana. — Page 35
List of stocks — Page 99
- Annex IE: North-west Atlantic (area of NAFO) — Page 51
List of stocks — Page 101
- Annex IF: Highly migratory fish (all areas) — Page 55
List of stocks — Page 102
- Annex IG: Antarctic (area of CCAMLR) — Page 57
List of stocks — Page 102

Within each area fish stocks are referred to following the alphabetical order of the Latin names of the species.

ANNEX IA

BALTIC SEA

All TACs in this area, except for plaice, are adopted in the framework of IBSFC.

Species: Herring <i>Clupea harengus</i>	Zone: Management Unit 3
Finland	49 192
Sweden	10 808
EC	60 000
TAC	60 000

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

	IIIbcd, except Management Unit 3
Sweden	8 000

Species: Herring <i>Clupea harengus</i>		Zone: IIIbcd (EC waters), except Management Unit 3
Denmark	11 478	⁽¹⁾ By-catches of herring in the sprat fishery in Latvian waters to be counted against this quota. ⁽²⁾ To be counted against the Estonian share of the IBSFC TAC. ⁽³⁾ To be counted against the Latvian share of the IBSFC TAC. ⁽⁴⁾ To be counted against the Lithuanian share of the IBSFC TAC. ⁽⁵⁾ To be fished in the Swedish zone of EC waters and by-catches of other species shall be counted against this quota.
Germany	34 808	
Finland	13 012	
Sweden	47 102	
EC	106 400 ⁽¹⁾	
Estonia	0 ⁽²⁾	
Latvia	0 ⁽³⁾	
Lithuania	500 ⁽⁴⁾	
Poland	3 500 ⁽⁵⁾	
Russian Federation	p.m.	
TAC	200 000	

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

	Estonian waters	Latvian waters	Lithuanian waters	Management Unit 3
EC	0	0	500	0

Species: Herring <i>Clupea harengus</i>	Zone: III d (Estonia waters)
EC 0 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for III bcd (EC waters) and to be counted against the Community share of the TAC for III bcd (EC waters).
TAC 200 000	

Species: Herring <i>Clupea harengus</i>		Zone: IIIId (Latvian waters)
EC	0 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIIbcd (EC waters) and to be counted against the Community share of the TAC for IIIbcd (EC waters).
TAC	200 000	
Species: Herring <i>Clupea harengus</i>		Zone: IIIId (Lithuanian waters)
Denmark	859	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIIbcd (EC waters).
Germany	644	
Sweden	297	⁽²⁾ Of which 500 tonnes are to be counted against the Community share of the TAC for IIIbcd (EC waters).
	500 ⁽¹⁾	
EC	2 300 ⁽²⁾	
TAC	200 000	
Species: Cod <i>Gadus morhua</i>		Zone: IIIbcd (Community waters)
Denmark	20 872	⁽¹⁾ To be counted against the Estonian share of the IBSFC TAC.
Germany	9 127	
Finland	1 083	⁽²⁾ To be counted against the Latvian share of the IBSFC TAC.
Sweden	15 203	
EC	46 284	⁽³⁾ To be counted against the Lithuanian share of the IBSFC TAC.
Estonia	0 ⁽¹⁾	
Latvia	1 450 ⁽²⁾	
Lithuania	950 ⁽³⁾	
TAC	76 000	

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

	Estonian waters	Latvian waters	Lithuanian waters
EC	0	950	950

Species: Cod <i>Gadus morhua</i>		Zone: IIIId (Estonian waters)
EC	0 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIIbcd (EC waters) and to be counted against the Community share of the TAC for IIIbcd (EC waters).
TAC	76 000	

Species: Cod <i>Gadus morhua</i>		Zone: IIIId (Latvian waters)
Denmark	130	(1) Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIIbcd (EC waters).
Germany	59	
Finland	56	(2) Of which 950 tonnes are to be counted against the Community share of the TAC for IIIbcd (EC waters).
Sweden	105	
	950 (1)	
EC	1 300 (2)	
TAC	76 000	
Species: Cod <i>Gadus morhua</i>		Zone: IIIId (Lithuanian waters)
Denmark	130	(1) Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIIbcd (EC waters).
Germany	59	
Finland	56	(2) Of which 950 tonnes are to be counted against the Community share of the TAC for IIIbcd (EC waters).
Sweden	105	
	950 (1)	
EC	1 300 (2)	
TAC	76 000	
Species: Plaice <i>Pleuronectes platessa</i>		Zone: IIIbcd (EC waters)
Denmark	2 700	
Germany	300	
Sweden	200	
EC	3 200	
Species: Atlantic salmon <i>Salmo salar</i>		Zone: IIIbcd (EC waters) (1)
Denmark	91 479 (2)	(1) Excluding subdivision 32 of IBSFC. (2) Expressed by number of individual fish. (3) To be counted against the Estonian share of the IBSFC TAC. (4) To be counted against the Latvian share of the IBSFC TAC. (5) To be counted against the Lithuanian share of the IBSFC TAC.
Germany	10 178 (2)	
Finland	114 068 (2)

TAC	380 000	

ANNEX IB

NORTH SEA, SKAGERRAK AND KATTEGAT

Species: Sandeel <i>Ammodytidae</i>		Zone: IV (Norwegian waters)
Denmark	142 500 ⁽¹⁾	⁽¹⁾ Within the quota for sandeel up to 38 000 tonnes may be taken as Norway pout. ⁽²⁾ Within the quota for sandeel up to 2 000 tonnes may be taken as Norway pout.
United Kingdom	7 500 ⁽²⁾	
EC	150 000	
TAC	Not relevant	
Species: Sandeel <i>Ammodytidae</i>		Zone: IIa ⁽¹⁾ , North Sea ⁽¹⁾
Denmark	814 067	⁽¹⁾ Community waters excluding waters within 6 miles of UK baselines at Shetland, Fair Isle and Foula. ⁽²⁾ Except Denmark, Finland, Spain, Portugal and the United Kingdom. ⁽³⁾ This quota consists of any mixture of sandeel and Norway pout. No more than 5 000 tonnes of Norway pout may be taken in VIa north of 56° 30' N. ⁽⁴⁾ This quota consists of sandeel, Norway pout, a maximum of 2 000 tonnes of sprat and unavoidable by-catches of blue whiting. Sprat and a maximum of 6 000 tonnes of Norway pout may be taken in VIa north of 56° 30' N. Such Norway pout catches shall be subject to the provision, on request by the Commission, of details on the quantity and composition of any by-catch taken.
United Kingdom	17 794	
All Member States	31 139 ⁽²⁾	
EC	863 000	
Norway	35 000 ⁽³⁾	
Faroe Islands	20 000 ⁽⁴⁾	
TAC	918 000	
Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: Skagerrak and Kattegat
Denmark	33 379	⁽¹⁾ Landed as the entire catch or sorted from the remainder of the catch. ⁽²⁾ To be taken in Skagerrak. ⁽³⁾ TAC agreed in the framework of Fisheries Consultations between the European Community and Norway on Fisheries in the Skagerrak and Kattegat for 2002. The parties' shares of the TAC, after swaps, are: EC: 69 330 tonnes, Norway: 10 670 tonnes.
Germany	534	
Sweden	34 917	
EC	68 830	
Faroe Islands	500 ⁽²⁾	
TAC	80 000 ⁽³⁾	

Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: North Sea north of 53°30' N
Denmark	37 711	⁽¹⁾ Landed as the entire catch or sorted from the remainder of the catch, Member States must inform the Commission of their landings of herring distinguishing between ICES Divisions IVa and IVb.
Germany	24 603	
France	11 982	
The Netherlands	30 315	
Sweden	3 546 ⁽²⁾ ⁽³⁾	
United Kingdom	38 169	⁽²⁾ When fishing in Norwegian waters, by-catches of cod, haddock, saithe, pollack and whiting shall be counted against the quota for these species.
EC	146 327 ⁽³⁾	
Norway	50 000 ⁽⁴⁾	⁽³⁾ Including 850 tonnes, to be taken in Norwegian waters, accruing from the Agreed Records of Consultations between the European Community, on behalf of Sweden, and Norway, for 2002.
TAC	265 000 ⁽⁵⁾	⁽⁴⁾ May be taken in EC waters. Catches taken within this quota are to be deducted from Norway's share of the TAC.
		⁽⁵⁾ TAC for the whole North Sea, agreed in the framework of Fisheries Consultations between the European Community and Norway for 2002. The parties' shares of the TAC, after swaps, are: EC: 188 150 tonnes, Norway: 76 850 tonnes.

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

Norwegian waters south of 62° N

EC 50 850

Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: IVc ⁽²⁾ , VIIId
Belgium	7 528 ⁽³⁾	⁽¹⁾ Landed as the entire catch or sorted from the remainder of the catch.
Denmark	745 ⁽³⁾	
Germany	486 ⁽³⁾	
France	11 279 ⁽³⁾	
The Netherlands	18 540 ⁽³⁾	
United Kingdom	4 094 ⁽³⁾	⁽²⁾ Except Blackwater stock: reference is to the herring stock in the maritime region of the Thames estuary within a zone delimited by a line running due south from Landguard Point (51° 56' N, 1°19.1' E) to latitude 51°33' N and hence due west to a point on the coast of the United Kingdom.
EC	42 673	
TAC	42 673 ⁽⁴⁾	⁽³⁾ Transfers of up to 50 % of this quota may be effected to ICES Division IVb. However, such transfers must be notified in advance to the Commission.
		⁽⁴⁾ TAC for the whole North Sea agreed in the framework of Fisheries Consultations between the European Community and Norway for 2002.
Species: Cod <i>Gadus morhua</i>		Zone: Skagerrak
Belgium	20	⁽¹⁾ TAC agreed in the framework of Fisheries Consultations between the European Community and Norway on Fisheries in the Skagerrak and Kattegat for 2002. The parties' shares of the TAC are: EC: 6 870 tonnes, Norway: 230 tonnes.
Denmark	5 680	
Germany	140	
The Netherlands	40	
Sweden	990

ANNEX ID

WESTERN COMMUNITY WATERS

ICES areas Vb (EC waters), VI, VII, VIII, IX, X, CECAF (EC waters), and French Guyana

Species: Basking shark <i>Cetorhinus maximus</i>		Zone: Community waters of zones IV, VI and VII
EC	0	
TAC	0	
Species: Herring <i>Clupea harengus</i>		Zone: Vb (EC waters), VIaN ⁽¹⁾ , VIb
Germany	3 991	⁽¹⁾ Reference is to the herring stock in ICES Division VIa, north of 56° 00' N and in that part of VIa which is situated east of 07° 00' W and north of 55° 00' N, excluding the Clyde. ⁽²⁾ This quota may only be taken in Division VIa north of 56° 30' N.
France	755	
Ireland	5 393	
The Netherlands	3 991	
United Kingdom	21 571	
EC	35 700	
Faroe Islands	660 ⁽²⁾	
TAC	36 360	
Species: Herring <i>Clupea harengus</i>		Zone: VIaS ⁽¹⁾ , VIIbc
Ireland	12 727	⁽¹⁾ Reference is to the herring stock in ICES Division VIa, south of 56° 00' N and west of 07° 00' W.
The Netherlands	1 273	
EC	14 000	
TAC	14 000	
Species: Herring <i>Clupea harengus</i>		Zone: VIa Clyde ⁽¹⁾
United Kingdom	1 000	⁽¹⁾ Clyde stock: reference is to the herring stock in the maritime area situated to the north east of a line drawn between the Mull of Kintyre and Corsewall Point.
EC	1 000	
TAC	1 000	
Species: Herring <i>Clupea harengus</i>		Zone: VIIa ⁽¹⁾
Ireland	1 250	⁽¹⁾ ICES division VIIa is reduced by the area added to the Celtic Sea bounded: — to the north by latitude 52° 30' N — to the south by latitude 52° 00' N — to the west by the coast of Ireland — to the east by the coast of the United Kingdom.
United Kingdom	3 550	
EC	4 800

ANNEX IE

NORTH WEST ATLANTIC

Area of NAFO

All TACs and associate conditions are adopted in the framework of NAFO.

Species: Cod <i>Gadus morhua</i>		Zone: NAFO 2J3KL
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Cod <i>Gadus morhua</i>		Zone: NAFO 3NO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Cod <i>Gadus morhua</i>		Zone: NAFO 3M
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Witch flounder <i>Glyptocephalus cynoglossus</i>		Zone: NAFO 2J3KL
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Witch flounder <i>Glyptocephalus cynoglossus</i>		Zone: NAFO 3NO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: American plaice <i>Hippoglossoides platessoides</i>		Zone: NAFO 3M
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: American plaice <i>Hippoglossoides platessoides</i>		Zone: NAFO 3LNO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Short fin squid <i>Illex illecebrosus</i>		Zone: NAFO subzones 3 and 4
EC	⁽¹⁾	⁽¹⁾ No specified Community share; an amount of 29 467 tonnes is available to Canada and the Community.
TAC	34 000	

Species: Yellowtail flounder <i>Limanda ferruginea</i>		Zone: NAFO 3LNO
EC	260	
TAC	13 000	
Species: Capelin <i>Mallotus villosus</i>		Zone: NAFO 3NO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Northern prawn <i>Pandalus borealis</i>		Zone: NAFO 3L
EC	0 ⁽¹⁾ ⁽²⁾	⁽¹⁾ Despite an allocation of 67 tonnes for the Community, it is decided to set this amount to 0. ⁽²⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	6 000	

Species: Northern prawn <i>Pandalus borealis</i>	Zone: NAFO 3M ⁽¹⁾
TAC ⁽²⁾	

Species: Redfish <i>Sebastes</i> spp.		Zone: NAFO 3LN
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Redfish <i>Sebastes</i> spp.		Zone: NAFO IF ⁽¹⁾
Germany	9 367	⁽¹⁾ Catches in this area shall be counted against the quota for redfish in V,XII,XIV.
Spain	1 645	
France	875	⁽²⁾ These quotas are set on the basis of the TAC of 95 000 tonnes established by NEAFC.
Ireland	3	
The Netherlands	4

TAC	95 000 ⁽²⁾	

ANNEX IF

HIGHLY MIGRATORY FISH

All areas

TACS in this area are adopted in the framework of international fisheries organisations on tuna fisheries, such as ICCAT and IATTC.

Species: Bluefin tuna <i>Thunnus thynnus</i>		Zone: Atlantic Ocean, east of longitude 45° W, and Mediterranean
Greece	329	⁽¹⁾ Except Greece, Spain, France, Italy and Portugal, and only as by-catch.
Spain	6 365	
France	6 279	
Italy	4 958	
Portugal	599	
All Member States	60 ⁽¹⁾	
EC	18 590	
TAC	29 500	
Species: Swordfish <i>Xiphias gladius</i>		Zone: Atlantic Ocean, north of latitude 5° N
Spain	4 198	⁽¹⁾ Except Spain and Portugal, and only as by-catch.
Portugal	763	
All Member States	112 ⁽¹⁾	
EC	5 073	
TAC	10 200	
Species: Swordfish <i>Xiphias gladius</i>		Zone: Atlantic Ocean, south of latitude 5° N
Spain	5 848	
Portugal	385	
EC	6 233	
TAC	14 620	
Species: Northern Albacore <i>Germo alalunga</i>		Zone: Atlantic Ocean, north of latitude 5° N
Ireland	3 158 ⁽¹⁾	⁽¹⁾ It is prohibited to use any gill net, bottom set gill net, trammel net and entangling net.
Spain	17 801 ⁽¹⁾	
France	5 599 ⁽¹⁾	
United Kingdom	201 ⁽¹⁾	
Portugal	1 953 ⁽¹⁾	
EC	28 712 ⁽¹⁾	
TAC	34 500	
Species: Southern Albacore <i>Germo alalunga</i>		Zone: Atlantic Ocean, south of latitude 5° N
Spain	1 692	
France	311	
Portugal	660	
EC	2 663	
TAC	29 200	

Species: Bigeye Tuna <i>Thunnus obesus</i>		Zone: Atlantic Ocean
Spain	14 681	
France	6 235	
Portugal	5 756	
EC	26 672	
TAC	Average catches of 1991-1992	

ANNEX IG

ANTARCTIC

Area of CCAMLR

These TACs, adopted by CCAMLR, are not allocated to the members of CCAMLR and hence the Community share is undetermined. Catches are monitored by the Secretariat of CCAMLR, who will communicate when fishing must cease due to TAC exhaustion.

Species: Blackfin icefish <i>Chaenocephalus aceratus</i>	Zone: FAO 48.3 Antarctic
TAC 2 200 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Unicorn icefish <i>Channichthys rhinoceros</i>	Zone: FAO 58.5.2 Antarctic
TAC 150 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champsocephalus gunnari</i> . Wherever this by-catch TAC is exhausted, the corresponding fisheries should be closed.
Species: Antarctic icefish <i>Champsocephalus gunnari</i>	Zone: FAO 48.3 Antarctic
TAC 5 557 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002. Fishing for this stock during the period 1 March to 31 May 2002 shall be limited to 1 389 tonnes.
Species: Antarctic icefish <i>Champsocephalus gunnari</i>	Zone: FAO 58.5.2 Antarctic
TAC 885 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.
Species: Antarctic toothfish <i>Dissostichus eleginoides</i>	Zone: FAO 48.3 Antarctic
TAC 5 820 ⁽¹⁾ ⁽²⁾	⁽¹⁾ This TAC is applicable for long-line fishery in the period 1 May to 31 August 2002 and for pot fishery 1 December 2001 to 30 November 2002. ⁽²⁾ Including 291 tonnes of skate and ray and 291 tonnes of <i>Macrurus</i> spp. As by-catch.
Species: Antarctic toothfish <i>Dissostichus eleginoides</i>	Zone: FAO 48.4 Antarctic
TAC 28 ⁽¹⁾ ⁽²⁾	⁽¹⁾ To be fished only with long-lines. ⁽²⁾ This TAC is applicable during a fishing season defined as that applied in sub-area 48.3, or until the catch limit for <i>Dissostichus eleginoides</i> in sub-area 48.4 is reached, or until the catch limit for <i>Dissostichus eleginoides</i> in sub-area 48.3, as specified above, is reached, whichever is sooner.
Species: Antarctic toothfish <i>Dissostichus eleginoides</i>	Zone: FAO 58.5.2 Antarctic
TAC 2 815 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.

Species: Lantern fish <i>Electrona carlsbergi</i>	Zone: FAO 48.3 Antarctic
TAC 109 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002. Of this TAC, no more than 14 500 tonnes may be taken in the area of Shag Rocks, defined as an area limited by the following coordinates: 52°30' S, 40°00' W; 52°30' S, 44°00' W; 54°30' S, 40°00' W; 54°30' S, 44°00' W.
Species: Krill <i>Euphausia superba</i>	Zone: FAO 48
TAC 4 000 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the subareas specified:

Subarea 48.1	1 008 000
Subarea 48.2	1 104 000
Subarea 48.3	1 056 000
Subarea 48.4	832 000

Species: Krill <i>Euphausia superba</i>	Zone: FAO 58.4.1 Antarctic
TAC 440 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the areas specified:

Division 58.4.1 west of 115° E	277 000
Division 58.4.1 east of 115° E	163 000

Species: Krill <i>Euphausia superba</i>	Zone: FAO 58.4.2 Antarctic
TAC 450 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.
Species: Humped rockcod <i>Gobionotothen gibberifrons</i>	Zone: FAO 48.3 Antarctic
TAC 1 470 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Grey rockcod <i>Lepidonotothen squamifrons</i>	Zone: FAO 48.3 Antarctic
TAC 300 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Grey rockcod <i>Lepidonotothen squamifrons</i>	Zone: FAO 58.5.2 Antarctic
TAC 80 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.

Species: Marbled rockcod <i>Notothenia rossii</i>	Zone: FAO 48.3 Antarctic
TAC 300 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Crab <i>Paralomis</i> spp.	Zone: FAO 48.3 Antarctic
TAC 1 600 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.
Species: South Georgia icefish <i>Pseudochaenichthus georgianus</i>	Zone: FAO 48.3 Antarctic
TAC 300 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Other species	Zone: FAO 58.5.2 Antarctic
TAC 50 ⁽¹⁾ ⁽²⁾	⁽¹⁾ TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champsocephalus gunnari</i> . Wherever this by-catch TAC is exhausted, the corresponding fisheries should be closed. ⁽²⁾ For the purposes of this TAC, 'Macrourus spp.' and 'skate and ray' shall be counted each as a single species.
Species: <i>Martalia hyadesi</i>	Zone: FAO 48.3 Antarctic
TAC 2 500 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2001 to 30 November 2002.

ANNEX II

FISHING OPPORTUNITIES APPLICABLE IN 2002 FOR HERRING TO BE LANDED UNSORTED FOR PURPOSES OTHER THAN HUMAN CONSUMPTION (IN TONNES, LIVE WEIGHT)

All catch limitations set out in this Annex are considered as quotas for the purposes of Article 7 and shall, therefore, be subject to the rules set out in Regulation (EEC) No 2847/93, in particular Articles 14 and 15 thereof.

Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: Skagerrak and Kattegat
Denmark	17 950	⁽¹⁾ By-catches of herring taken in fisheries for species other than herring and landed unsorted. ⁽²⁾ TAC agreed in the framework of fisheries consultations between the European Community and Norway on fisheries in the Skagerrak and Kattegat for 2002. The TAC is allocated entirely to the Community.
Germany	160	
Sweden	2 890	
EC	21 000	
TAC	21 000 ⁽²⁾	
Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: IIa (EC waters), North Sea, VIId
Belgium	180	⁽¹⁾ By-catches of herring taken in fisheries for species other than herring and landed unsorted. ⁽²⁾ TAC agreed in the framework of fisheries consultations between the European Community and Norway for 2002. The TAC is allocated entirely to the Community.
Denmark	34 450	
Germany	180	
France	180

ANNEX IV

SPECIAL MEASURES CONCERNING NORTH SEA HERRING

1. Member States shall adopt special measures concerning the capture, sorting or landing of herring taken from the North Sea or from the Skagerrak and Kattegat with a view to ensuring the observance of catch limitations, in particular those set in Annex II. These measures shall include, in particular:
 - special control and inspection programmes;
 - fishing effort plans, including lists of authorised vessels and, where deemed necessary on the basis of quota exhaustion beyond the level of 70 %, limitations on the activity of authorised vessels;
 - control of transhipment and of practices which incur discarding;
 - where possible, temporary prohibition of fishing in areas where high by-catch rates of herring, in particular juveniles, are known to occur.
 2. In case of landings of herring unsorted from the remainder of the catch, Member States shall ensure that adequate sampling programmes are in place in order to monitor effectively all landings of by catches of herring. It shall be prohibited to land catches of fish containing unsorted herring in harbours where these sampling programmes are not in place.
 3. Commission inspectors shall, in accordance with Article 29 of Regulation (EEC) No 2847/93 and whenever the Commission deems it necessary for the purposes of paragraphs 1 and 2, carry out independent inspections to verify the implementation by the competent authorities of the sampling programmes and of the detailed measures mentioned in paragraph 1.
 4. The Commission shall prohibit landings of herring if it is deemed that implementation of the measures mentioned in paragraphs 1 and 2 does not achieve a strict control of fishing mortality of herring in all fisheries.
 5. All landings of herring caught in ICES areas IIIa, IV and VIIId by vessels which carry on board only towed nets of mesh sizes equal to or greater than 32 mm, while taking these catches in these areas, will be counted against a relevant quota as defined in Annex I to this Regulation.
 6. All landings of herring caught in ICES areas IIIa, IV and VIIId by vessels which carry on board towed nets of mesh size less than 32 mm, while taking these catches in these areas, will be counted against a relevant quota as defined in Annex II to this Regulation. Herring landed by vessels operating within these conditions shall not be offered for sale for human consumption.
-

ANNEX V

TRANSITIONAL TECHNICAL MEASURES

1. Exit windows in the Baltic Sea

Notwithstanding the conditions set out in Annex V of Council Regulation (EC) No 88/98, and in order to guarantee the selectivity of the trawls, Danish seines and similar nets with special mesh openings as referred to in Annex IV of the same Regulation, the two gear models authorised in 2002 will be the 130mm and the model specified in the Appendix to this Annex. This provision will be fully enforced as of 1 April 2002.

2. Summer ban for Baltic cod

Fishing for cod shall be prohibited in the Baltic Sea, the Belts and the Sound from 1 June to 31 August inclusive.

3. Mesh size for fishing for cod with towed nets

Notwithstanding the provisions of Annex IV of Council Regulation (EC) No 88/98, the minimum mesh size for fishing for cod with trawls, Danish seines and similar nets shall be 130 mm. This mesh size shall apply to any cod-end or extension piece found on board a fishing vessel and attached to or suitable for attachment to any towed net.

4. Rules on the use of gillnets for fishing for cod in the Baltic Sea

Notwithstanding the provisions of Annex IV of Council Regulation (EC) No 88/98, the minimum mesh size for fishing for cod in the Baltic sea will be 110 mm. This rule shall be applicable as of 1 September 2002.

The nets shall not exceed a maximum length of 12 km for vessels with an overall length of up to and including 12 metres.

The nets shall not exceed a maximum length of 24 km for vessels with an overall length of more than 12 metres.

The soaking time of the nets shall not exceed 48 hours counting from the time the nets are first put in the water to the time when the nets are fully recovered on board the fishing vessel.

5. By-catch of cod in the Baltic Sea

Notwithstanding the provisions of Article 3(5) of Council Regulation (EC) No 88/98 the by-catch of cod taken when fishing for herring and sprat with mesh sizes of 32 mm or smaller shall not exceed 3 % by weight. Of this by-catch of cod, no more than 5 % of undersized cod shall be kept on board.

6. Closure of Bornholm Deep

All fishing shall be prohibited from 15 May to 31 August 2002 within the area bounded by the following coordinates:

- latitude 55° 30' N, longitude 15° 30' E
- latitude 55° 30' N, longitude 16° 10' E
- latitude 55° 15' N, longitude 16° 10' E
- latitude 55° 15' N, longitude 15° 30' E

7. Technical conservation measures in the Skagerrak and in the Kattegat

Notwithstanding the conditions set out in Annex IV of Council Regulation (EC) No 850/98, the following rules shall apply in 2002:

- (a) A mesh size of 35 mm shall apply when fishing for prawns (*Pandalus borealis*);
- (b) A mesh size of 30 mm shall be used when fishing for argentine (*Argentina spp.*);

- (c) When fishing for whiting with a mesh size of 70 to 89 mm, the by-catch shall not exceed 30 % for the following species: cod, haddock, hake, plaice, witch, lemon sole, turbot, brill, flounder, megrim, dab, saithe and lobster;
- (d) When fishing for Norway lobster with a mesh size of 70 to 89 mm, the by-catches should not exceed 60 % for the following species: hake, plaice, witch, lemon sole, turbot, brill, flounder, megrim, whiting, dab, saithe and lobster;
- (e) When fishing for prawns (*Pandalus borealis*) with a mesh size of 35 to 69 mm, the by-catches should not exceed 50 % for the following species: cod, haddock, hake, plaice, witch, lemon sole, turbot, brill, flounder, herring, mackerel, megrim, whiting, dab, saithe, Norway lobster and lobster;
- (f) In all fisheries other than those covered in (c), (d) and (e) above, using a mesh size below 90 mm, the by-catches should not exceed 10 % for the following species: cod, haddock, hake, plaice, witch, lemon sole, turbot, brill, flounder, mackerel, megrim, whiting, dab, saithe, Norway lobster and lobster.

8. Haddock box

All fishing, except with longlines, shall be prohibited in Community waters and in waters beyond the areas under national jurisdiction of Member States in the box bounded by the following coordinates:

Point No	Latitude	Longitude
1	57° 00' N	15° 00' W
2	57° 00' N	14° 00' W
3	56° 30' N	14° 00' W
4	56° 30' N	15° 00' W

9. Fishing for herring in area IIa (EC waters)

Fishing with towed gear of a mesh size less than 54 mm or with purse seines in area IIa (EC waters) is allowed only between 1 March and 30 June.

*Appendix to Annex V***Specifications of Top Window Codend 'BACOMA'**

Specification of 120 mm, measured as inner diameter opening, square mesh window in a codend with a 105 mm or larger mesh size in trawls, Danish seines or similar towed nets.

The window shall be a rectangular section of netting in the codend. There shall be only one window. The window shall not be obstructed in any way by either internal or external attachments.

Size of the codend, extension piece and the rear end of the trawl

The codend shall be constructed of two panels of equal size, joined together by selvages one on each side.

The carrying on board of a net having more than 100 open diamond meshes in any circumference of the codend, excluding the joining or the selvages shall be prohibited.

The number of open diamond meshes, excluding those in the selvages, at any point on any circumference of any extension or lengthening piece shall not be less or more than the maximum number of meshes on the circumference of the front end of the codend *stricto sensu* and the rear end of the tapered section of the trawl excluding meshes in the selvages (*Figure 1*).

Location of the window

The window shall be inserted into the top panel of the codend. The window shall terminate not more than 4 meshes from the codline, inclusive of the hand braided row of meshes through which the codline is passed (*Figure 2*).

Size of the window

The width of the window, expressed in number of mesh bars, shall be equal to the number of open diamond meshes in the top panel divided by two. If necessary, it will be allowed to maintain at the most 20 % of the number of open diamond meshes in the top panel divided evenly on the both sides of the window panel (*Figure 3*).

Length of the window shall be at least 3,5 meters.

The netting of the window

The meshes shall have a minimum mesh opening of 120 millimetres. The meshes shall be square meshes i.e. all four sides of the window netting will be cut all bars. The netting shall be mounted such that the bars run parallel and perpendicular to the length of the codend. The netting shall be knotless braided single twine or a netting with similar proven selective properties (stiffness, strengths and stability). The diameter of the single yarn shall be at least 4,9 millimetres.

Other specification

The mounting specifications are defined in *Figures 4a to c*. The length of the lifting strap shall not be less than 4 m.

Figure 1

A trawl gear can be divided into three different sections according to their shape and function. Trawl body is always a tapered section often between 10 and 40 m long. Extension piece is an untapered section normally manufactured of either one or two pieces of 49,5 mesh long nets giving a stretched length between 6 or 12 m. Codend is also an untapered section often made of double twine in order to have a better resistance against heavy wearing. The length of codend is often 49,5 meshes i.e. ca 6 meter although shorter codends (2 to 4) exists in smaller vessels. The part below the lifting strap is called lifting bag.

Figure 2

The distance of window panel from codline is 4 meshes. There are 3,5 diamond meshes in the upper panel and one 0,5 mesh deep hand-braided 'codline' row.

Figure 3

Twenty percent of diamond meshes in the upper panel along a perpendicular row running from one selvage to another may be maintained. For example (like in figure) if the upper panel would be 30 open meshes wide 20 % of that would be 6 meshes. Then three open meshes are divided on both sides of the window panel. Consequently the width of the window panel would then become 12 mesh bars ($30 - 6 = 24$ diamond meshes divided by two is 12 mesh bars).

Figure 4a

Showing the construction of lower panel made of 49,5 meshes deep netting

Figure 4b

Upper panel

(without diamond meshes between selvedge and square mesh panel)

The construction of upper panel, size and position of the window panel in case where the escape panel runs from selvedge to selvedge

Figure 4c

Upper panel

(with diamond meshes between selvedge and square mesh panel)

The construction of upper panel in case 20 % of diamond meshes in the upper panel are maintained and equally divided on both sides of the window

ANNEX VI

PART I

**QUANTITATIVE LIMITATIONS OF LICENCES AND FISHING PERMITS FOR COMMUNITY VESSELS
FISHING IN THIRD COUNTRY WATERS**

Area of fishing	Fishery	Number of licences	Maximum number of vessels present at any time
Norwegian waters and fishery zone around Jan Mayen	Herring, North of 62°00' N	40	30
Waters of the Faroe Islands	All trawl fisheries with vessels of not more than 180 feet in the zone between 12 and 21 miles from the Faroese baselines.	26	13
	Directed fishing for cod and haddock with a minimum mesh of 135 mm, restricted to the area south of 62°28' N and east of 6°30' W.	8	4
	Trawling outside 21 miles from the Faroese baselines. In the periods 1 March to 31 May and 1 October to 31 December, these vessels may operate in the area between 61°20' N and 62°00' N and between 12 and 21 miles from the baselines.	70	26
	Trawl fisheries for blue ling with a minimum mesh of 100 mm in the area south of 61°30' N and west of 9°00' W and in the area between 7°00' W and 9°00' W south of 60°30' N and in the area south-west of a line between 60°30' N, 7°00' W and 60°00' N, 6°00' W.	70	20
	Directed trawl fishery for saithe with a minimum mesh size of 120 mm and with the possibility to use round-straps around the codend.	70	22
	Fisheries for blue whiting. The total number of licences may be increased by 4 vessels to form pairs, should the Faroese authorities introduce special rules of access to an area called 'main fishing area of blue whiting'	34	20
	Line fishing	10	6
	Fishing for mackerel	12	12
	Herring fisheries north of 62° N	21	21
Iceland	All fisheries	18	5
Latvian waters	Fishing for cod, herring and sprat	130	38
	Fishing for salmon	40	15
Lithuanian waters	All fisheries	300	60
Polish waters	All fisheries. Only vessels with an engine power equal to or less than 750 kw are allowed.		
Waters of the Russian Federation	All fisheries	p.m.	p.m.
	Fisheries for cod	p.m.	p.m.
	Fisheries for sprat	p.m.	p.m.

PART II

**QUANTITATIVE LIMITATIONS OF LICENCES AND FISHING PERMITS FOR THIRD COUNTRIES VESSELS
IN COMMUNITY WATERS**

Flag State	Fishery	Number of licences	Maximum number of vessels present at any time
Norway	Herring, north of 62° 00' N	10	10
Faroe Islands	Mackerel, VIa (north of 56° 30' N), VIIe,f,h, horse mackerel, IV, VIa (north of 56° 30' N), VIIe,f,h; herring, VIa (north of 56° 30' N)	14	14
	Herring north of 62° 00' N	21	21
	Herring, IIIa	4	4
	Industrial fishing for Norway pout and sprat, IV, VIa (north of 56° 30' N); sandeel, IV (including unavoidable by-catches of blue whiting)	15	15
	Ling and tusk ⁽¹⁾	20	10
	Blue whiting, VIa (north of 56° 30' N), VIb, VII (west of 12° 00' W)	20	20
	Blue ling	16	16
	Porbeagle (all zones except NAFO 3PS)	3	3
Latvia	Cod, herring, sprat, IIIId	90	45 ⁽²⁾
	Salmon, IIIId	4	2
Lithuania	Cod, herring, sprat, salmon, IIIId	70	40 ⁽³⁾
	Herring, sprat, IIIId (transport and refrigerator vessels)	5	4
Poland	Herring fisheries. Only vessels with an engine power equal to or less than 750 kw are allowed.	60	25
Russian Federation	Herring, IIIId (Swedish waters)	p.m.	p.m.
	Herring, IIIId (Swedish waters, non-fishing mother ships)	p.m.	p.m.
Barbados	<i>Penaeus</i> shrimps ⁽⁴⁾ (French Guyana waters)	5	p.m. ⁽⁵⁾
	Snappers ⁽⁶⁾ (French Guyana waters)	5	p.m.
Guyana	<i>Penaeus</i> shrimps ⁽⁴⁾ (French Guyana waters)	p.m.	p.m. ⁽⁵⁾

Flag State	Fishery	Number of licences	Maximum number of vessels present at any time
Surinam	<i>Penaeus</i> shrimps ⁽⁴⁾ (French Guyana waters)	5	p.m. ⁽⁷⁾
Trinidad and Tobago	<i>Penaeus</i> shrimps ⁽⁴⁾ (French Guyana waters)	8	p.m. ⁽⁸⁾
Japan	Tuna ⁽⁹⁾ (French Guyana waters)	p.m.	
Korea	Tuna ⁽⁹⁾ (French Guyana waters)	p.m.	p.m. ⁽⁸⁾
Venezuela	Snappers ⁽⁶⁾ (French Guyana waters)	41	p.m.
	Sharks ⁽⁶⁾ (French Guyana waters)	4	p.m.

⁽¹⁾ The Faroese authorities will send the relevant list before the 25th day of each month.

⁽²⁾ Of which 32 vessels fishing with gill-nets at any given time.

⁽³⁾ Of which at any given time a maximum of 10 for vessels fishing cod with gillnets.

⁽⁴⁾ The licences concerning fishing for shrimp in the waters of the French Department of Guyana shall be issued on the basis of a fishing plan submitted by the authorities of the third country concerned, approved by the Commission. The period of validity of each of these licences shall be limited to the fishing period provided for in the fishing plan on the basis of which the licence was issued.

⁽⁵⁾ The annual number of days at sea is limited to 200.

⁽⁶⁾ To be fished exclusively with long lines or traps (snappers) or long lines or mesh nets having a minimum mesh of 100 mm, at depths greater than 30 m (sharks). To issue these licences, proof must be produced that a valid contract exists between the shipowner applying for the licence and a processing undertaking situated in the French Department of Guyana, and that it includes an obligation to land at least 75 % of all snapper catches, or 50 % of all shark catches from the vessel concerned in that department so that they may be processed in that undertaking's plant.

The contract referred to above must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing undertaking and with the objectives for the development of the Guyanese economy. A copy of the duly endorsed contract shall be appended to the licence application.

Where the endorsement referred to above is refused, the French authorities shall give notification of this refusal and state their reasons for it to the party concerned and to the Commission.

⁽⁷⁾ The annual number of days at sea is limited to pm.

⁽⁸⁾ The annual number of days at sea is limited to 350.

⁽⁹⁾ To be fished exclusively with longlines.

PART III

DECLARATION PURSUANT TO ARTICLE 14 (2)

LANDING DECLARATION ⁽¹⁾

Name of vessel:

--

Registration No:

--

Name of master:

--

Name of agent:

--

Master's signature:

--

Voyage made from the

to the

Port of landing:

--

Quantity of shrimps landed (in live-weight)			
'Head-off' shrimps:		kg	
or (× 1,6) =		kg (head-on shrimps)	
'Head-on' shrimps:		kg	
<i>Thunnidae</i> :	kg	Snapper (<i>Lutjanidae</i>):	kg
Shark:	kg	Other:	kg

⁽¹⁾ One copy is kept by the master, one copy is kept by the control officer, and one copy is to be sent to the Commission of the European Communities.

ANNEX VII

PART I

INFORMATION TO RECORD IN THE LOGBOOK

When fishing within the 200-nautical-mile zone off the coasts of the Member States of the Community which is covered by Community rules on fisheries, the following details are to be entered in the log-book immediately after the following events:

After each haul:

- 1.1. the quantity (in kilograms live-weight) of each species caught;
- 1.2. the date and the time of the haul;
- 1.3. the geographical position in which the catches were made;
- 1.4. the fishing method used.

After each transshipment to or from another vessel:

- 2.1. the indication 'received from' or 'transferred to';
- 2.2. the quantity (in kilograms live-weight) of each species transshipped;
- 2.3. the name, external identifications letters and numbers of the vessel to or from which the transshipment occurred.
- 2.4. transshipment of cod is not allowed.

After each landing in a port of the Community:

- 3.1. name of the port;
- 3.2. the quantity (in kilograms live-weight) of each species landed.

After each transmission of information to the Commission of the European Communities:

- 4.1. date and time of the transmission;
- 4.2. type of message: IN, OUT, ICES, WKL or 2 WKL;
- 4.3. in the case of radio transmission: name of the radio station.

ANNEX VIII

CONTENT AND MODALITIES OF THE TRANSMISSION OF INFORMATION TO THE COMMISSION

1. The information to be transmitted to the Commission of the European Communities and the timetable for its transmission are as follows:
 - 1.1. On each occasion the vessel enters the 200-nautical-mile zone off the coasts of the Member States of the Community which is covered by Community rules on fisheries:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms) of each species of fish in the hold;
 - (c) the date and ICES division within which the master intends to commence fishing.

Where the fishing operations necessitate more than one entry into the zones referred to under 1.1 on a given day, one communication shall suffice on first entry.

- 1.2. On each occasion the vessel leaves the zone referred to under 1.1:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms live-weight) of each species of fish in the hold;
 - (c) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
 - (d) the ICES division in which the catches were taken;
 - (e) the quantity (in kilograms live-weight) of each species transferred to and/or from other vessels since the vessel entered the zone and the identification of the vessel to which the transfer was made;
 - (f) the quantity (in kilograms live-weight) of each species landed in a port of the Community since the vessel entered the zone.

Where the fishing operations necessitate more than one entry into the zones referred to under 1.1 on a given day, one single communication on the last exit will be sufficient.

- 1.3. At three-day intervals, commencing on the third day after the vessel first enters the zones referred to under 1.1 when fishing for herring and mackerel, and at weekly intervals, commencing on the seventh day after the vessel first enters the zones referred to under 1.1 when fishing for all species other than herring and mackerel:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
 - (c) the ICES division in which the catches were made.
- 1.4. On each occasion the vessel moves from one ICES division to another:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
 - (c) the ICES division in which the catches have been taken.
- 1.5.
 - (a) The name, call sign, external identification letters and numbers of the vessel and the name of its master;
 - (b) the licence number if the vessel is under licence;
 - (c) the serial number of the message for the voyage concerned;
 - (d) identification of the type of message;
 - (e) the date, the time and the geographical position of the vessel.

- 2.1. The information specified under point 1 shall be transmitted to the Commission of the European Communities in Brussels (telex 24189 FISEU-B) via one of the radio stations listed under point 3 below and in the form specified under point 4.

- 2.2. If it is impossible for reasons of force majeure for the message to be transmitted by the vessel, it may be transmitted on the vessel's behalf by another vessel.

3. <i>Name of radio station</i>	<i>Call sign of radio station</i>
Lyngby	OXZ

4. *Form of the communications*

The information specified under point 1 shall contain the following particulars, which shall be given in the following order:

- name of vessel;
- call sign;
- external identification letters and numbers;
- serial number of the message for the voyage in question;
- indication of the type of message according to the following code:
 - message when entering one of the zones referred to under 1.1: 'IN',
 - message when leaving one of the zones referred to under 1.1: 'OUT',
 - message when moving from one ICES division to another: 'ICES',
 - weekly message: 'WKL',
 - three-day message: '2 WKL';
- the date, the time and the geographical position;

- the ICES divisions/sub-areas in which fishing is expected to commence;
- the date on which fishing is expected to commence;
- the quantity (in kilograms live-weight) of each species of fish in the hold using the code mentioned in point 5;
- the quantity (in kilograms live-weight) of each species of fish caught since the previous transmission using the code mentioned in point 5;
- the ICES divisions/sub-areas in which the catches were made;
- the quantity (in kilograms live-weight) of each species transferred to and/or from other vessels since the previous transmission;
- the name and call sign of the vessel to and/or from which the transfer was made;
- the quantity (in kilograms live-weight) of each species landed in a port of the Community since the previous transmission;
- the name of the master.

5. Code to be used to indicate the species on board as mentioned in 1.4 above:

Alfonsinos (<i>Beryx</i> spp.),	ALF
American plaice (<i>Hippoglossoides platessoides</i>),	PLA
Anchovy (<i>Engraulis encrasicolus</i>),	ANE
Angler/Monk (<i>Lophius</i> spp.),	MNZ
Argentine (<i>Argentina silus</i>),	ARG
Atlantic pomfret (<i>Brama brama</i>),	POA
Basking shark (<i>Cetorhinus maximus</i>),	BSK
Black scabbardfish (<i>Aphanopus carbo</i>),	BSF
Blue ling (<i>Molva dypterygia</i>),	BLI
Blue whiting (<i>Micromesistius poutassou</i>),	WHB
Bob shrimp (<i>Xyphoedus kroyeri</i>),	BOB
Cod (<i>Gadus morhua</i>),	COD
Common shrimp (<i>Crangon crangon</i>),	CSH
Common squid (<i>Loligo</i> spp.),	SQC
Dogfish (<i>Squalus acanthias</i>),	DGS
Forkbeards (<i>Physcis</i> spp.),	FOR
Greenland halibut (<i>Reinhardtius hippoglossoides</i>),	GHL
Haddock (<i>Melanogrammus aeglefinus</i>),	HAD
Hake (<i>Merluccius merluccius</i>),	HKE
Halibut (<i>Hippoglossus hippoglossus</i>),	HAL
Herring (<i>Clupea harengus</i>),	HER
Horse-mackerel (<i>Trachurus trachurus</i>),	HOM
Ling (<i>Molva molva</i>),	LIN

ANNEX IX

LIST OF SPECIES OF THE NAFO REGULATORY AREA

Common name	Scientific name
Principal groundfish (except flatfish)	
Atlantic cod	<i>Gadus morhua</i>
Haddock	<i>Melanogrammus aeglefinus</i>
Redfish	<i>Sebastes</i> spp.
Atlantic redfish	<i>Sebastes marinus</i>
Golden redfish	<i>Sebastes mentella</i>
Silver hake	<i>Merluccius bilinearis</i>
Red hake	<i>Urophycis chuss</i>
Pollock (= saithe)	<i>Pollachius virens</i>
Flatfish	
American plaice	<i>Hippoglossoides platessoides</i>
Witch flounder	<i>Glyptocephalus cynoglossus</i>
Yellowtail flounder	<i>Limanda ferruginea</i>
Greenland halibut	<i>Reinhardtius hippoglossoides</i>
Atlantic halibut	<i>Hippoglossus hippoglossus</i>
Winter flounder	<i>Pseudopleuronectes americanus</i>
Summer flounder	<i>Paralichthys dentatus</i>
Windowpane flounder	<i>Scophthalmus aquosus</i>
Flatfish (NS)	<i>Pleuronectiformes</i>
Other groundfish	
American angler (= goosefish)	<i>Lophius americanus</i>
Atlantic searobins	<i>Prionotus</i> spp.
Atlantic tomcod	<i>Microgadus tomcod</i>
Blue whiting	<i>Micromesistius poutassou</i>
Cunner	<i>Tautoglabrus adspersus</i>
Cusk (= tusk)	<i>Brosme brosme</i>
Greenland cod	<i>Gadus ogac</i>
Blue ling	<i>Molva dypterygia</i>
Ling	<i>Molva molva</i>
Lumpfish (= lumpsucker)	<i>Cyclopterus lumpus</i>
Northern kingfish	<i>Menticirrhus saxatilis</i>
Northern puffer	<i>Sphaeroides maculatus</i>
Eelpouts (NS)	<i>Lycodes</i> spp.
Ocean pout	<i>Macrozoarces americanus</i>
Polar cod	<i>Boreogadus saida</i>
Roundnose grenadier	<i>Coryphaenoides rupestris</i>
Roughhead grenadier	<i>Macrouris berglax</i>
Sand eel (= sand lance)	<i>Ammodytes</i> spp.
Sculpin	<i>Myoxocephalus</i> spp.
Scup	<i>Stenotomus chrysops</i>
Tautog	<i>Tautoga onitis</i>
Tilefish	<i>Lopholatilus chamaeleonticeps</i>
White hake	<i>Urophycis tenuis</i>
Wolffish (NS)	<i>Anarhichas</i> spp.
Atlantic wolffish	<i>Anarhichas lupus</i>
Spotted wolffish	<i>Anarhichas minor</i>
Groundfish (NS)	...

ANNEX X

AUTHORISED TOP-SIDE CHAFERS**ICNAF-type top-side chafer**

A rectangular piece of netting attached to the upper side of a cod-end to reduce or prevent damage and complying with the following requirements:

- (a) the netting shall not have a mesh size less than that specified for the net itself;
- (b) the netting may be fastened to the cod-end only along the forward and lateral edges of the netting and shall be fastened in such a manner that it extends forward of the splitting strap no more than four meshes and ends not less than four meshes in front of the codline mesh; where a splitting strap is not used, the netting shall not extend to more than one-third of the cod-end measured from not less than four meshes in front of the codline mesh;
- (c) the number of meshes in the width of the netting shall be at least one and a half times the number of meshes in the width of the part of the cod-end which is covered, both widths being taken at right angles to the longitudinal axis of the cod-end.

'Multiple flap' top-side chafer

Pieces of netting having in all their parts meshes the dimensions of which, whether the pieces of netting are wet or dry, are not less than those of the meshes of the net to which they are attached, provided that:

- (i) each piece of netting:
 - (a) is fastened only by its forward edge across the cod-end at right angles to its longitudinal axis;
 - (b) is at least equal in width to the width of the cod-end (such width being measured at right angles to the longitudinal axis of the cod-end at the point of attachment);
 - (c) is not more than 10 meshes long.
- (ii) the aggregate length of all the pieces of netting so attached does not exceed two-thirds of the length of the cod-end.

Large mesh (modified Polish-type) top-side chafer

A rectangular piece of netting made of the same twine material as the cod-end, or of a single, thick, knotless twine material, attached to the rear portion of the upper side of the cod-end and extending over all or any part of the upper side of the cod-end, having in all its parts a mesh size twice that of the cod-end when measured wet and fastened to the cod-end along the forward, lateral and rear edges only of the netting in such a way that each mesh of the netting exactly coincides with four meshes of the cod-end.

ANNEX XI

MINIMUM LANDING SIZES

Species	Minimum size	Definition
Atlantic cod	41 cm	Fork length
American plaice	25 cm	Total length
Yellowtail flounder	25 cm	Total length
Greenland halibut	30 cm	Total length

ANNEX XII

MINIMUM LANDING SIZES OF PROCESSED FISH

Species	Gilled and gutted fish whether or not skinned; fresh or chilled, frozen, or salted			
	Whole	Head off	Head and tail off	Head off and split
Atlantic cod	41 cm	27 cm	22 cm	27/25 ⁽¹⁾ cm
American plaice	25 cm	19 cm	15 cm	NA
Yellow tail flounder	25 cm	19 cm	15 cm	NA

⁽¹⁾ Lower size for green salted fish.

ANNEX XIII

PARTICULARS TO BE CONTAINED IN THE LOGBOOK

Particulars	Code
Name of vessel	01
Nationality of vessel	02
Registration number of vessel	03
Port of registration	04
Type of fishing gear used (daily)	10
Type of fishing gear	2 ⁽²⁾
Date:	
— day	20
— month	21
— year	22
Position:	
— latitude	31
— longitude	32
— statistical zone	33
Number of fishing operations per period of 24 hours ⁽¹⁾	40
Number of hours fishing with gear per period of 24 hours ⁽¹⁾	41
Name of species	2 ⁽²⁾
Daily catches by species (in tonnes live weight)	50
Daily catches, per species, for human consumption	61
Quantities discarded daily per species	63
Place of transshipment	70
Date(s) of transshipment	71
Master's signature	80

⁽¹⁾ Where two or more types of fishing gear are used in a given 24-hour period, separate records must be supplied for each type of gear.

⁽²⁾ To be indicated together with one of the abbreviations listed in the second part of this Annex.

STANDARD ABBREVIATIONS FOR THE PRINCIPAL SPECIES IN THE NAFO AREA

Abbreviations	Names of species of fish	
	English	Latin
ALE	Alewife	<i>Alosa pseudoharengus</i>

NK	Fishing gear not known

ANNEX XIV

PROHIBITION ON FISHING IN CCAMLR AREA

Target species	Zone	Period of prohibition
<i>Notothernia rossii</i>	FAO 48.1 Antarctic, in the Peninsula Area FAO 48.2 Antarctic, around the South Orkneys FAO 48.3 Antarctic, around South Georgia	All year
Finfish	FAO 48.1 Antarctic FAO 48.2 Antarctic	All year
<i>Gobionotothen gibberifrons</i> <i>Chaenocephalus aceratus</i> <i>Pseudochaenichthys georgianus</i> <i>Lepidonotothen squamifrons</i> <i>Patagonotothen guntheri</i>	FAO 48.3	All year
<i>Dissostichus</i> spp.	FAO 48.5 Antarctic FAO 88.3 Antarctic FAO 58.4.1 Antarctic FAO 58.4.2 Antarctic FAO 58.5.1 Antarctic ⁽¹⁾ FAO 58.5.2 Antarctic (by longlining) FAO 88.2 Antarctic (north of 65° S)	1.12.2001 to 30.11.2002
<i>Lepidonotothen squamifrons</i>	FAO 58.4.4 ⁽²⁾	All year
All species except <i>Champsocephalus gunnari</i> and <i>Dissostichus eleginoides</i>	FAO 58.5.2 Antarctic	1.12.2001 to 30.11.2002
<i>Dissostichus mawsoni</i>	FAO 48.4 Antarctic ⁽²⁾	All year
<i>Dissostichus eleginoides</i>	FAO 58.7 Antarctic ⁽²⁾	All year

⁽¹⁾ Excluding waters adjacent to Kerguelen Islands.

⁽²⁾ Except for scientific research purposes.

ANNEX XV

Compulsory research trawls in CCAMLR Sub-area 48.3 in directed fisheries for *Chamsocephalus gunnari* during the spawning season

1. All fishing vessels taking part in the fishery for *Chamsocephalus gunnari* in Sub-area 48.3 of CCAMLR between 1 March and 31 May 2002 shall be required to conduct a minimum of 20 research hauls during that period. Twelve research hauls shall be carried out in the Shag Rocks — Black Rocks area. These shall be distributed between the four sectors illustrated in Figure 1: four each in the NW and SE sectors, and two each in the NE and SW sectors. A further eight research hauls shall be conducted on the north-western shelf of South Georgia over water less than 300 m deep, as illustrated in Figure 1.
2. Each research haul must be at least 5 nautical miles distant from all others. The spacing of stations is intended to be such that both areas are adequately covered in order to provide information on the length, sex, maturity and weight composition of *Chamsocephalus gunnari*.
3. If concentrations of fish are located en route to South Georgia, they should be fished in addition to the research hauls.
4. The duration of research hauls must be a minimum of 30 minutes with the net at fishing depth. During the day, the net must be fished close to the bottom.
5. The catch of all research hauls shall be sampled by the international scientific observer on board. Samples should aim to comprise at least 100 fish, sampled using standard random sampling techniques. All fish in the sample should be at least examined for length, sex and maturity determination, and where possible, weight. More fish should be examined if the catch is large and time permits.

Figure 1

Distribution of 20 exploratory fishing hauls on *Chamsocephalus gunnari* at Shag Rocks (12) and South Georgia (8) from 1 March to 31 May 2002. Haul locations around South Georgia (stars) are illustrative.
