THE COUNCIL OF THE EUROPEAN UNION,

2. Expiry and interim reviews investigations

Having regard to the Treaty establishing the European Community,

Taiwan

Having regard to Council Regulation (EC) No 384/96 of 22 December 1995 on protection against dumped imports from countries not members of the European Community⁽¹⁾, hereinafter referred to as 'the basic Regulation', and in particular Article 9 thereof,

- (4) Following the publication of a notice of impending expiry⁽⁶⁾ of the anti-dumping measures in force on imports of PTY originating in Taiwan, the Commission received a request for a review pursuant to Article 11(2) of the basic Regulation.

Having regard to the proposal from the Commission, after consulting the Advisory Committee,

- (5) Having determined, after consulting the Advisory Committee, that sufficient evidence existed for the initiation of an expiry review, the Commission initiated an investigation⁽⁷⁾ pursuant to Article 11(2) of the basic Regulation.

Whereas:

A. PROCEDURE

1. Previous investigations and existing measures

- (1) Pursuant to Regulation (EEC) No 3905/88⁽²⁾, the Council imposed a definitive anti-dumping duty on imports into the Community of polyester textured filament yarn (hereinafter 'PTY') originating in Taiwan.
- (2) Pursuant to Regulation (EC) No 2160/96⁽³⁾, the Council imposed a definitive anti-dumping duty on imports into the Community of PTY originating in Indonesia and Thailand.
- (3) Pursuant to Regulation (EC) No 1001/97⁽⁴⁾, the Council imposed a definitive anti-dumping duty on imports of PTY originating in Malaysia. In September 2000, further to an interim review requested by the main exporting producer, the duty applicable to its imports was reduced to 3,2 % in accordance with Regulation (EC) No 1992/2000⁽⁵⁾.

Indonesia

- (7) Following the publication of a notice of impending expiry⁽⁹⁾ of the anti-dumping measures in force on imports of PTY originating in Indonesia, the Commission received a request for a review pursuant to Article 11(2) of the basic Regulation.
- (8) Having determined, after consulting the Advisory Committee, that sufficient evidence existed for the initiation of an expiry review, the Commission initiated an investigation⁽¹⁰⁾ pursuant to Article 11(2) of the basic Regulation.

⁽¹⁰⁾ OJ C 316, 10.11.2001, p. 9. (The notice of initiation of this expiry review also included imports of PTY from Thailand.)

- (9) The Commission simultaneously initiated on its own initiative an investigation ⁽¹⁾ pursuant to Article 11(3) of the basic Regulation, after having determined that sufficient evidence existed to justify the initiation of an interim review with regard to imports of PTY originating in Indonesia, and after consulting the Advisory Committee.

Thailand

- (10) Following the publication of a notice of impending expiry ⁽²⁾ of the anti-dumping measures in force on imports of PTY originating in Thailand, the Commission received a request for a review pursuant to Article 11(2) of the basic Regulation.
- (11) Having determined, after consulting the Advisory Committee, that sufficient evidence existed for the initiation of an expiry review, the Commission initiated an investigation ⁽³⁾ pursuant to Article 11(2) of the basic Regulation.

Malaysia

- (12) Following the publication of a notice of the impending expiry ⁽⁴⁾ of the anti-dumping measures in force on imports of PTY originating in Malaysia, the Commission received a request for an expiry review pursuant to Article 11(2) of the basic Regulation.
- (13) Having determined, after consulting the Advisory Committee, that sufficient evidence existed for the initiation of an expiry review, the Commission initiated an investigation ⁽⁵⁾ pursuant to Article 11(2) of the basic Regulation.

B. WITHDRAWAL OF THE COMPLAINT AND TERMINATION OF THE PROCEEDINGS

- (14) By a letter dated 2 May 2003 to the Commission, the International Rayon and Synthetic Fibres Committee (CIRFS) formally withdrew its requests for expiry reviews

pursuant to Article 11(2) of the basic Regulation on imports of PTY originating in Indonesia, Malaysia, Taiwan and Thailand.

- (15) In accordance with Article 9(1) of the basic Regulation, the proceedings may be terminated where the complaint is withdrawn unless such termination would not be in the Community interest.
- (16) On the basis of the above, it is considered that the expiry reviews should be terminated since the investigations have not brought to light any considerations showing that such terminations would not be in the Community interest. Moreover, it is no longer considered to be in the Community interest to continue the interim reviews concerning the anti-dumping measures in force against imports of PTY originating in Indonesia and Taiwan.
- (17) Interested parties were informed accordingly and were given the opportunity to comment. No comments indicating that such termination would not be in the Community interest were received.
- (18) It is therefore concluded that the anti-dumping proceedings concerning imports of PTY originating in Indonesia, Malaysia, Taiwan and Thailand should be terminated without imposition of measures,

HAS ADOPTED THIS REGULATION:

Article 1

The anti-dumping proceedings concerning imports of polyester textured filament yarn (PTY) currently classifiable within CN code 5402 33 00 and originating in Taiwan, Indonesia, Thailand and Malaysia are hereby terminated.

COMMISSION DECISION

of 12 September 2003

amending Decision 2003/56/EC on health certificates for the importation of live animals and animal products from New Zealand

(notified under document number C(2003) 3248)

(Text with EEA relevance)

(2003/669/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 97/132/EC of 17 December 1996 on the conclusion of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products⁽¹⁾, as last amended by Decision 2002/957/EC⁽²⁾, and in particular Article 4 thereof,

Whereas:

(1) Annex V to the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products ('the Agreement') recognises the sanitary measures for fresh meat, meat products and certain other animal products traded with New Zealand. Depending on the equivalence or non-equivalence of these measures with those required by the European Community, Annex VII of the Agreement provides that appropriate official health certificates should be used in the trade of these products with New Zealand.

(2) Commission Decision 2003/56/EC⁽³⁾, as last amended by Decision 2003/385/EC⁽⁴⁾, lays down the certification requirements and provides models for official health certificates to be used for the importation from New Zealand of live animals and animal products. In cases where full equivalence of sanitary measures has been determined, simplified certificates may be used, models for which are set out in Annexes II to V to that Decision.

(3) Regulation (EC) No 999/2001 of the European Parliament and of the Council of 22 May 2001 laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies⁽⁵⁾, as last amended by Commission Regulation (EC) No 650/2003⁽⁶⁾, provides for special certification requirements for animals and products of animal origin to prevent the spread of transmissible spongiform encephalopathies.

(4) Annex I to Decision 2003/56/EC should be amended to take into account recent amendments to Regulation (EC) No 650/2003 and to reflect recent further acknowledgements of equivalence of sanitary measures for fresh meat, meat products and certain other animal products traded with New Zealand.

(5) Decision 2003/56/EC should therefore be amended accordingly.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:
