COMMISSION REGULATION (EC) No 1357/2005

of 18 August 2005

supplementing the Annex to Regulation (EC) No 2400/96 as regards the entry of a name in the Register of protected designations of origin and protected geographical indications Chevrotin (PDO)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

(goat cheese) to denominate cheese made from goat's milk or, by the same token, use of the translation of these terms (in Italian, 'caprino' and 'formaggio di capra').

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2081/92 of 14 July 1992 on the protection of geographical indications and designations of origin for agricultural products and food-stuffs ⁽¹⁾, and in particular Article 7(5)(b), Article 6(3) and the first indent of Article 6(4) thereof,

(6) The term 'chevrotin' cannot be considered to be a translation of the term 'caprino' and, conversely, even if the term 'caprino' were generic as claimed by the Italian authorities, that does not imply that the term 'chevrotin' has become generic. Furthermore, Italy did not provide any evidence from which it may be concluded that the term 'chevrotin' itself is generic.

Whereas:

(7) Finally, Italy did not provide any evidence of non-compliance with the conditions laid down in Article 2 of Regulation (EEC) No 2081/92.

(1) In accordance with Article 6(2) of Regulation (EEC) No 2081/92, France's application to register 'Chevrotin' was published in the *Official Journal of the European Union* ⁽²⁾.

(8) In the light of the above, the name should thus be entered in the Register of protected designations of origin and protected geographical indications.

(2) Italy opposed the registration under Article 7 of Regulation (EEC) No 2081/92 on the grounds that the conditions laid down in Article 2 of Regulation (EEC) No 2081/92 were not complied with, that registration would be detrimental to other products on the market in Italy, in particular those called 'caprino', and that the translation in Italian of the name in question (caprino) was generic.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Regulatory Committee on the Protection of Geographical Indications and Designations of Origin for Agricultural Products and Food-stuffs,

(3) By letter of 7 December 2004 the Commission asked the Member States concerned to seek agreement among themselves in accordance with their internal procedures.

HAS ADOPTED THIS REGULATION:

(4) As no agreement was reached between France and Italy within three months, the Commission must adopt a decision in accordance with the procedure provided for in Article 15 of Regulation (EEC) No 2081/92.

Article 1

The name in the Annex to this Regulation is hereby added to the Annex to Commission Regulation (EC) No 2400/96 ⁽³⁾.

(5) However, France officially argued that registration of the name 'Chevrotin' would not lead to a ban on the use of the expression 'de chèvre' (goat) or 'fromage de chèvre'

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.⁽¹⁾ OJ L 208, 24.7.1992, p. 1. **TECHNICAL SPECIFICATIONS FOR THE TRANSFER OF COMPUTER FILES TO THE EAGGF FROM
16 OCTOBER 2005**

INTRODUCTION

These technical specifications apply in respect of the financial year 2005, which commenced on 16 October 2004.

1. Transfer medium

The coordinating body of the Member State must transfer the computer files and the relating documentation to the Commission through STATEL/STADIUM. The Commission will only support one installation of STATEL/STADIUM per Member State. The latest STADIUM client and more information on the use of STATEL/STADIUM shall be downloaded from the CIRCA web-site of the EAGGF.

2. Computer file structure

- 2.1. The Member State must create a computer record for each individual component of the EAGGF (Guarantee Section) payments and receipts. These components are the individual items of which the payment (receipt) to (from) the beneficiary consists.
- 2.2. The records must have a flat file structure. If fields have more than one value, separate records containing all data fields are required. Make sure that no double counting occurs ⁽¹⁾.
- 2.3. All information for the same category of payments or receipts must be contained in the same computer file. Separate files relating to the same payments (e.g. for traders or inspections, or for basic and measure data) are not allowed.
- 2.4. The computer files must have the following characteristics:

 2. The following records in the file are data (data rows), in the order indicated by the first record describing the file structure.
 3. The fields are separated by a semicolon (;). The header row and data rows shall all contain the same number of semicolons. In the data rows, empty fields appear as a double semicolon (;;) within the record, or as a single semicolon (;) at the end of the record.
 4. Records vary in length. Each record ends with a code 'CR LF' or 'Carriage Return — Line Feed' (in hexadecimal: '0D 0A'). The header row never ends on a ';'. Data rows only end on a ';' if the last field is empty.
 5. The file is in ASCII coding according to following table. Other codes (such as EBCDIC, TAR, ZIP, etc.) are not accepted:

code	Member State

2.5. Data files with the characteristics as described under 2.4 shall be sent with consignment type ‘X-TABLE-DATA’ (see ‘STADIUM client’).

2.6. The computer program for checking the format of computer files before sending them to the Commission (‘WinCheckCsv’) is included in the data transfer program (‘STADIUM client’). The paying agencies are invited to download the check program from CIRCA separately for offline validation purposes.

3. Documentation

In the following cases only, the coordinating body of the Member State must transfer an explanatory note for each paying agency through STATEL/STADIUM:

- 1. In the case where there are differences between the annual declaration ⁽¹⁾, as part of the annual financial clearance procedure (not table 104), and the sum of the records in the computer files (Σ F106), in order to explain them by budget sub item. The STADIUM client includes a specific consignment type for this transfer i.e. ‘EXPLANATORY-NOTE’.
- 2. In the case where there are codes used for fields, for which Annex III does not enforce standard codes, in order to explain all these used codes. The STADIUM client includes a specific consignment type for this kind of tabular transfer i.e. ‘CODE-LIST’.

The explanatory note shall have the look and feel of an ordinary letter. In particular the identity of the sender or the identity of the paying agency and the name or administrative unit of the addressee shall be clearly marked.

⁽¹⁾ Annual declaration: data sent through STATEL/STADIUM using consignment type ‘ANNUAL_DECLARATION’.

4. **Data transfer**

The coordinating body must send the computer files completely and only once.

If the coordinating body notices that false data were transmitted or a problem occurred with the data transfer, the Commission has to be informed immediately. All files, which contain incorrect information, are to be indicated. Therefore, the Commission is to be asked to delete these files. Thereafter, in order to avoid an overlapping of computer records or data files, the coordinating body must send the corrected computer files to replace entirely the previous incorrect information.

P	Piece (item)

F801: application number (export refunds: SAD)

F802: customs office of placing under customs supervision

The Member States must use the Transit Customs Office List (COL ⁽¹⁾). This is the list of authorised customs offices for Community/common transit operations. It may be that due to its objective of 'transit operations' some of the customs offices might be missing although this will be the exception. In that case the Member State shall provide the name of the customs office in full.

Required format: The format of the COL code consists of two positions to denote the country followed by a six-character code that define the customs office. For instance 'EE1000EE'.

F802B: customs office of exit

Indicate the customs office, which certifies that products covered by refund applications have left the customs territory of the Community. The Member States must use the Transit Customs Office List (COL ⁽²⁾). This is the list of authorised customs offices for Community/common transit operations. It may be that due to its objective of 'transit operations' some of the customs offices might be missing although this will be the exception. In that case the Member State shall provide the name of the customs office in full.

This information is vital for the auditors in connection with the application of Council Regulation (EEC) No 386/90 concerning substitution checks. The information is available in T5 or equivalent documents.

Required format: The format of the COL code consists of two positions to denote the country followed by a six-character code that define the customs office. For instance 'NL146123'.

F804: export refund code

In the case of non-processed agricultural products: The 12 digit product code, for which export refund is fixed.

In cases of processed products (non-annex I goods or processed agricultural products): the CN code(s) of the ingredient(s) for which export refund is fixed. In this case, F500 must be completed with the code of the final product. See also the explanatory note to F800 for the procedure to follow where more than one ingredient of a processed product is eligible for refund.

F805: code for destination

Required format: 'XX', where X stands for a letter between A and Z (codes of the nomenclature of countries and territories for the external trade statistics of the Community. See Commission Regulation (EC) No 2020/2001 of 15 October 2001 and subsequent updates).

In view of harmonisation, the Member States shall also use the miscellaneous category (codes Q*) of the nomenclature of countries and territories for the external trade statistics. It is known that that nomenclature does not cover all special export refund cases but the Commission does not require that kind of detail. Member States shall therefore convert their special national codes to the broader categories of the nomenclature of countries and territories for the external trade statistics before sending their data to the Commission.

F808: date of advance fixing

If fixed in advance, the date on which the rate of refund was set.

Required format: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).

COMMISSION REGULATION (EC) No 1360/2005**of 18 August 2005****amending Regulation (EC) No 817/2004 laying down detailed rules for the application of Council Regulation (EC) No 1257/1999 on support for rural development from the European Agricultural Guidance and Guarantee Fund (EAGGF)**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1257/1999 of 17 May 1999 on support for rural development from the European Agricultural Guidance and Guarantee Fund (EAGGF) and amending and repealing certain Regulations ⁽¹⁾, and in particular Article 34 thereof,

Whereas:

(1) Article 23 of Regulation (EC) No 1257/1999 provides that the Community may fund farmers who enter into agri-environmental commitments, but that these are to involve more than the application of usual good farming practice. Some of the agri-environmental commitments, given for a five-year period, expire before 31 December 2006. With the introduction of the principle of cross-compliance provided for in Chapter 1 of Title II of Council Regulation (EC) No 1782/2003, establishing common rules for direct support schemes under the common agricultural policy ⁽²⁾, the obligations which apply to farmers in the absence of agri-environmental commitments are different. New rules will apply to the agri-environmental measure for the next rural development programming period 2007 to 2013.

(2) Instead of signing new five-year-contracts under rules applicable to the current programming period, Member States may wish to extend agri-environment contracts with farmers currently in force so that the last year of the commitment does not start later than 31 December 2006.

(3) Greater flexibility should be provided in the framework of Commission Regulation (EC) No 817/2004 ⁽³⁾ in cases where farmers have transferred significant parts of the area for which the initial agri-environment commitment was given, while ensuring that the environmental benefits of the commitment are continued.

(4) Regulation (EC) No 817/2004 should therefore be amended accordingly. The amendments should apply as from 1 January 2005, when some of the initial contracts might have expired.

(5) The measures provided for in this Regulation are in accordance with the opinion of the Committee on Agricultural Structures and Rural Development,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 817/2004 is amended as follows:

1) In Article 21, the following paragraph is added:

‘3. Where agro-environmental commitments expire before the end of the programming period fixed in Article 42 of Regulation (EC) No 1257/1999, Member States may extend them provided that the last year of the commitment does not start later than 31 December 2006.

The Member States may authorise adaptations to the areas of the holding covered by the commitment to take into account a transfer of a part of the beneficiary's holding to another person during the extension period, provided that those adaptations do not reduce by more than 50 % the area covered by the commitment.’

2) The first and second paragraphs of Article 36 are replaced by the following:

‘Where all or part of a holding of the beneficiary is transferred to another person during the period for which a commitment given as a condition for the grant of assistance runs that other person may take over the commitment for the remainder of the period. If the commitment is not taken over, the beneficiary shall reimburse the assistance granted.

⁽¹⁾ OJ L 160, 26.6.1999, p. 80. Regulation as last amended by Regulation (EC) No 2223/2004 (OJ L 379, 24.12.2004, p. 1).

⁽²⁾ OJ L 270, 21.10.2003, p. 1. Regulation as last amended by Commission Regulation (EC) No 118/2005 (OJ L 24, 27.1.2005, p. 15).

⁽³⁾ OJ L 153, 30.4.2004, p. 30.

Member States, applying the principle of proportionality, may choose not to require such reimbursement in the following cases:

- (a) if a beneficiary who has already honoured a significant part of the commitment concerned definitively ceases agricultural activities and it is not feasible for a successor to take over the commitment;
- (b) if the transfer of a part of the holding of a beneficiary occurs during a period of extension of the commitment in accordance with Article 21(3) and if the transfer does

not exceed 50 % of the area covered by the commitment before the extension.'

Article 2

This Regulation shall enter into force on the seventh day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2005. However, the first subparagraph of paragraph 3 of Article 21 of Regulation (EC) No 817/2004, as added by Article 1(1) of this Regulation, shall not affect the validity of commitments extended before the date of entry into force of this Regulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION

COMMISSION DECISION

of 17 August 2005

temporarily recognising the systems for identification and registration of ovine and caprine animals in Great Britain and Northern Ireland, the United Kingdom, according to Article 4(2)(d) of Council Regulation (EC) No 21/2004

(notified under document number C(2005) 3122)

(Only the English text is authentic)

(2005/617/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 21/2004 of 17 December 2003 establishing a system for the identification and registration of ovine and caprine animals and amending Regulation (EC) No 1782/2003 and Directives 92/102/EEC and 64/432/EEC ⁽¹⁾, and in particular Article 4(2)(d) thereof,

Whereas:

(1) The competent authority of the United Kingdom has submitted two requests, accompanied by appropriate documentation, for the recognition of the system of identification and registration of ovine and caprine animals implemented in Great Britain and Northern Ireland respectively.

(2) Following a Commission veterinary inspection mission in the United Kingdom the Commission experts found that in Great Britain the systems of identification and registration of ovine and caprine animals in place and proposed are generally speaking capable of ensuring compliance with most of the objectives laid down in Regulation (EC) No 21/2004, but a number of weaknesses need to be addressed. In Northern Ireland the proposed system of identification and registration of

ovine animals could achieve compliance with most of the objectives laid down in Regulation (EC) No 21/2004, but its implementation would demand a high level of awareness and commitment from all parties involved.

(3) The competent authority of the United Kingdom has undertaken the commitment to address the concerns raised, and in particular to take the necessary measures to ensure compliance with Regulation (EC) No 21/2004 within 10 weeks of the requested approval being granted.

(4) The systems of identification and registration of ovine and caprine animals in Great Britain and Northern Ireland should therefore be given provisional approval for the interim period allowing the replacement of the second means of identification for ovine animals by that system, except in the case of animals involved in intra-Community trade.

(5) The competent authority should carry out appropriate checks in order to verify the proper implementation of the systems of identification and registration of ovine and caprine animals.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee of the Food Chain and Animal Health,

⁽¹⁾ OJ L 5, 9.1.2004, p. 8.

HAS ADOPTED THIS DECISION:

Article 1

The systems for the identification and registration of ovine and caprine animals provided for under Article 4(2)(c) of Regulation (EC) No 21/2004 implemented by the United Kingdom in Great Britain and Northern Ireland are hereby considered to be provisionally operational from 9 July 2005 until 30 April 2006 at the latest.

Article 2

The Commission shall in cooperation with the authorities of the United Kingdom make inspections on the spot to verify implementation of the action proposed by the United Kingdom.

The provisional approval of the system for identification and registration of ovine and caprine animals granted in Article 1 shall be reviewed in the light of the inspection findings by 31 January 2006.

Article 3

Without prejudice to provisions to be laid down according to Article 10(1)(a) of Regulation (EC) No 21/2004 the competent authority shall carry out the appropriate on-the-spot checks each year to verify compliance by keepers with the requirements on identification and registration of ovine and caprine animals.

Article 4

This Decision is addressed to the United Kingdom of Great Britain and Northern Ireland.

Done at Brussels, 17 August 2005.

of 18 August 2005

amending Directive 2002/95/EC of the European Parliament and of the Council for the purpose of establishing the maximum concentration values for certain hazardous substances in electrical and electronic equipment

*(notified under document number C(2005) 3143)**(2005/618/EC)*

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment ⁽¹⁾, and in particular Article 5(1)(a) thereof,

Whereas:

- (1) Since it is evident that a total avoidance of heavy metals and brominated flame retardants is in some instances impossible to achieve, certain concentration values for lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE) in materials should be tolerated.
- (2) The proposed maximum concentration values are based on existing Community chemicals legislation and are considered the most appropriate to ensure a high level of protection.
- (3) Pursuant to Article 5(2) the Commission has consulted producers of electric and electronic equipment, recyclers, treatment operators, environmental organisations and employee and consumer associations and forwarded the comments to the Committee established by Article 18 of Council Directive 75/442/EEC of 15 July 1975 on waste ⁽²⁾.
- (4) The Commission submitted the measures provided for in this Decision for vote in the Committee established under Article 18 of Directive 75/442/EEC on waste on 10 June 2004. There was no qualified majority in favour of these measures. Thus, in accordance with the procedure set out in Article 18 of Directive 75/442/EEC, a proposal for a

Council Decision was submitted to Council on 23 September 2004. Since on the expiry date of the period laid down in Article 7(2) of Directive 2002/95/EC the Council had neither adopted the proposed measures nor indicated its opposition to them in accordance with Article 5(6) of Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽³⁾ the measures should be adopted by the Commission,

HAS ADOPTED THIS DECISION:

Article 1

In the Annex to Directive 2002/95/EC the following note is added:

'For the purposes of Article 5(1)(a), a maximum concentration value of 0,1 % by weight in homogeneous materials for lead, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE) and of 0,01 % by weight in homogeneous materials for cadmium shall be tolerated.'

COMMISSION DECISION

of 18 August 2005

amending for the sixth time Decision 2004/122/EC concerning certain protection measures in relation to avian influenza in certain Asian countries

(notified under document number C(2005) 3183)

(Text with EEA relevance)

(2005/619/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organisation of veterinary checks on animals entering the Community from third countries and amending Directives 89/662/EEC, 90/425/EEC and 90/675/EEC ⁽¹⁾, and in particular Article 18 (1) and (6) thereof,

Having regard to Council Directive 97/78/EC of 18 December 1997 laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries ⁽²⁾, and in particular Article 22 (1) and (6) thereof,

Whereas:

- (1) Commission Decision 2004/122/EC of 6 February 2004 concerning certain protection measures in relation to avian influenza in several Asian countries ⁽³⁾ was adopted in response to outbreaks of avian influenza in several Asian countries.
- (2) Commission Decision 2000/666/EC of 16 October 2000 laying down the animal health requirements and the veterinary certification for the import of birds, other than poultry and the conditions for quarantine ⁽⁴⁾ provides that Member States are to authorise the import of birds from third countries listed as members of the World Organisation for Animal Health (OIE) and that those birds are to be subjected to quarantine and testing upon entry into the Community.
- (3) Russia has confirmed an outbreak of H5N1 avian influenza on their territory on 5 August 2005 to the Commission.

(4) Kazakhstan has confirmed an outbreak of H5 avian influenza to the OIE although the neuraminidase type is not yet known. However in view of the proximity with the outbreak in Russia it is probably the same strain.

(5) Kazakhstan and Russia are members of the OIE and accordingly Member States are to accept imports of birds, other than poultry, from these countries under Decision 2000/666/EC. Taking into account the potential serious consequences related to the specific avian influenza virus strain (H5N1) involved, which is the same as that confirmed in a number of Asian countries, the importation of these birds from Kazakhstan and Russia should be suspended as a precautionary measure.

(6) Under Regulation (EC) No 1774/2002 of the European Parliament and of the Council of 3 October 2002 laying down health rules concerning animal by-products not intended for human consumption ⁽⁵⁾, the importation of unprocessed feathers and parts of feathers originating in Kazakhstan and Russia is authorised. In view of the current disease situation in Kazakhstan and Russia those imports should also be suspended as a precautionary measure.

(7) Article 4 of Decision 2004/122/EC suspends the importation from certain third countries of unprocessed feathers and parts of feathers and live birds other than poultry, as defined in Decision 2000/666/EC. Therefore in the interests of animal and public health, Kazakhstan and Russia should be added to the third countries referred to in Article 4 of Decision 2004/122/EC.

(8) Decision 2004/122/EC should be amended accordingly.

(9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee of the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2004/122/EC is amended as follows:
