ANNEX II

Technical specifications for the transfer of computer files to the EAGGF from 16 October 2006

INTRODUCTION

These technical specifications apply in respect of the financial year 2006, which commenced on 16 October 2005.

1. Transfer medium

The coordinating body of the Member State must transfer the computer files and the relating documentation to the Commission through STATEL/STADIUM. The Commission will only support one installation of STATEL/STADIUM per Member State. The latest STADIUM client and more information on the use of STATEL/STADIUM shall be downloaded from the CIRCA web-site of the agricultural funds.

2. Computer file structure

- 2.1. The Member State must create a computer record for each individual component of the EAGGF payments and receipts. These components are the individual items of which the payment (receipt) to (from) the beneficiary consists.
- 2.2. The records must have a flat file structure. If fields have more than one value, separate records containing all data fields are required. Make sure that no double counting occurs ⁽¹⁾.
- 2.3. All information for the same category of payments or receipts must be contained in the same computer file. Separate files relating to the same payments (e.g. for traders or inspections, or for basic and measure data) are not allowed.
- 2.4. The computer files must have the following characteristics:
 - (1) The first record in the file (header row) contains the file description. The field names comprise an 'F' followed by the field number used in Annex I (the 'X-table'). Only field names existing in this Annex are allowed.
 - (2) The following records in the file are data (data rows), in the order indicated by the first record describing the file structure.
 - (3) The fields are separated by a semicolon (;). The header row and data rows shall all contain the same number of semicolons. In the data rows, empty fields appear as a double semicolon (;;) within the record, or as a single semicolon (;) at the end of the record.
 - (4) Records vary in length. Each record ends with a code 'CR LF' or 'Carriage Return – Line Feed' (in hexadecimal: '0D 0A'). The header row never ends on a ';'. Data rows only end on a ';' if the last field is empty.
 - (5) The file is in ASCII coding according to following table. Other codes (such as EBCDIC, TAR, ZIP, etc.) are not accepted:

code	Member State
ISO 8859-1	BE, DK, DE, ES, FR, IE, IT, LU, NL, AT, PT, FI, SE and GB
ISO 8859-2	CZ, HU, PL, SI and SK
ISO 8859-3	MT
ISO 8859-7	GR and CY
ISO 8859-13	EE, LV and LT

⁽¹⁾ Note: You should first read the preliminary remark concerning 'quantities' in Chapter 5 of Annex III.

- (6) Numeric fields:
- (a) Decimal separator: ‘.’
 - (b) The symbol (‘+’ or ‘-’) appears on the far left, followed immediately by the figures. For positive numbers, the ‘+’ sign is optional.
 - (c) Fixed number of decimals (the details are set out in the Annex III hereto).
 - (d) No spaces between digits. No spaces or other signs between thousands.
- (7) Date field: ‘YYYYMMDD’ (year in four digits, month in two digits, day in two digits).
- (8) Budget code (field F109) required format without spaces: ‘99999999999999’ (where ‘9’ stands for any figure between 0 and 9).
- (9) Quotation marks (‘ ’) are not allowed at the beginning or at the end of the records. The semicolon field separator ‘;’ must not be used in data in text format.
- (10) All fields: no spaces at the beginning or end of a field.
- (11) Files satisfying these rules will look like the following (example for financial year 2004):
- ```

F100;F101;F106;F107;F108;F109
BE01;154678;+152.50;EUR;20030715;050201011000001

etc.

(other data rows with the fields in the same order).
```

2.5. Data files with the characteristics as described under 2.4 shall be sent with consignment type ‘X-TABLE-DATA’ (see ‘STADIUM client’).

2.6. The computer program for checking the format of computer files before sending them to the Commission (‘WinCheckCsv’) is included in the data transfer program (‘STADIUM client’). The paying agencies are invited to download the check program from CIRCA separately for offline validation purposes.

### 3. Documentation

In the following cases only, the coordinating body of the Member State must transfer an explanatory note for each paying agency through STATEL/STADIUM:

- (1) In the case where there are differences between the annual declaration <sup>(1)</sup>, as part of the annual financial clearance procedure (not Table 104), and the sum of the records in the computer files (Σ F106), in order to explain them by budget sub-item. The STADIUM client includes a specific consignment type for this transfer i.e. ‘EXPLANATORY-NOTE’.

<sup>(1)</sup> Annual declaration: data sent through STATEL/STADIUM using consignment type ‘ANNUAL\_DECLARATION’.

- (2) In the case where there are codes used for fields, for which Annex III does not enforce standard codes, in order to explain all these used codes. The STADIUM client includes a specific consignment type for this kind of tabular transfer i.e. 'CODE-LIST'.

The explanatory note shall have the look and feel of an ordinary letter. In particular the identity of the sender or the identity of the paying agency and the name or administrative unit of the addressee shall be clearly marked.

#### **4. Data transfer**

The coordinating body must send the computer files completely and only once.

If the coordinating body notices that false data were transmitted or a problem occurred with the data transfer, the Commission has to be informed immediately. All files, which contain incorrect information, are to be indicated. Therefore, the Commission is to be asked to delete these files. Thereafter, in order to avoid an overlapping of computer records or data files, the coordinating body must send the corrected computer files to replace entirely the previous incorrect information.

Fields F602 to F602B need only be completed where an on-the-spot check ('F', 'C', or 'T') is indicated in field F600. In view of harmonisation, the Member States shall also use the miscellaneous category (codes Q\*) of the nomenclature of countries and territories for the external trade statistics. It is known that that nomenclature does not cover all special export refund cases but the Commission does not require that kind of detail. Member States shall therefore convert their special national codes to the broader categories of the nomenclature of countries and territories for the external trade statistics before sending their data to the Commission.

## ANNEX IV

**Structure of EAFRD budget codes (F109)**

## INTRODUCTION

For EAFRD, there is only one budget heading defined in the budget nomenclature: '05040501'.

As the budget codes can be up to 15 figures long, the remaining 7 figures can be used for identifying the programs and measures. This will allow reconciliation of the data from the different sources on financial year, paying agency, measure and program level.

## 1. BUDGET CODE STRUCTURE

The budget codes must have the following structure:

- The first 8 figures are constant: '05040501'.
- The following 3 figures indicate the measure, according to the attached list.
- The next 1 digit can have the following values (increasing with increasing co-financing rate:
  - 1 non-convergence region
  - 2 convergence region
  - 3 outermost region
  - 4 voluntary modulation
  - 5 additional contribution
- The last 3 figures indicate the program: figures between '000' and '099' are allowed.

## 2. EXAMPLE

F109 = '050405011132001' means: budget heading '05040501' (EAFRD), measure '113' (early retirement), convergence region (2), program '001'.

## COMMISSION REGULATION (EC) No 1482/2006

of 6 October 2006

**opening standing invitations to tender for the resale on the Community market of common wheat and rye held by the intervention agencies of the Member States for processing into flour in the Community**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals <sup>(1)</sup>, and in particular Article 6 and the second paragraph of Article 24 thereof,

Whereas:

- (1) Under Commission Regulation (EEC) No 2131/93 of 28 July 1993 laying down the procedure and conditions for the sale of cereals held by intervention agencies <sup>(2)</sup>, cereals held by intervention agencies are to be sold by tendering procedure at a selling price which is not below the price recorded on the market at the place of storage or, failing that, on the nearest market, account being taken of transport costs, for an equivalent quality and for a representative quantity preventing market disturbance.
- (2) The Member States have intervention stocks of common wheat and rye.
- (3) Due to adverse weather conditions at the time of the 2006 harvest, the quantity of breadmaking cereals is insufficient to meet the internal demand of some Member States. Sales on the Community market may therefore be organised by tendering procedure with a view to processing common wheat and rye into flour. Each sale should be considered to be a separate invitation to tender.
- (4) To take account of the situation on the Community market, provision should be made for the Commission to manage this invitation to tender. In addition, provision must be made for an award coefficient for tenders offering the minimum selling price.
- (5) To enable checks on the particular destination of the stocks covered by these tendering procedures, provision should be made for specific monitoring of the delivery of the common wheat and rye and its processing into flour. To permit this monitoring, application of the procedures laid down by Commission Regulation (EEC) No 3002/92 of 16 October 1992 laying down common detailed rules

for verifying the use and/or destination of products from intervention <sup>(3)</sup> should be made compulsory.

- (6) To guarantee proper performance, tenderers should be required to lodge a security which, in view of the nature of the operations concerned, should be fixed by derogation from Regulation (EEC) No 2131/93, in particular as regards its level, which must be sufficient to guarantee the proper use of the products, and the conditions for its release, which must include proof of processing of the products into flour.
- (7) With a view to the sound management of the system, provision should be made for the electronic transmission of the information required by the Commission. It is important for the notification by the intervention agencies to the Commission to maintain the anonymity of the tenderers.
- (8) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

*Article 1*

The intervention agencies of the Member States shown in Annex I shall open standing invitations to tender for the sale on the Community market of common wheat and rye held by them, for processing into flour. The maximum quantities of the two cereals covered by the invitations to tender shall be as shown in Annex I.

*Article 2*

The sales referred to in Article 1 shall be carried out under the terms laid down by Regulation (EEC) No 2131/93.

*Article 3*

Tenders shall be valid only if they are accompanied by:

- (a) proof that the tenderer has lodged a security which, notwithstanding the second subparagraph of Article 13(4) of Regulation (EEC) No 2131/93, is set at EUR 10 per tonne;

<sup>(1)</sup> OJ L 270, 21.10.2003, p. 78. Regulation as amended by Commission Regulation (EC) No 1154/2005 (OJ L 187, 19.7.2005, p. 11).

<sup>(2)</sup> OJ L 191, 31.7.1993, p. 76. Regulation as last amended by Regulation (EC) No 749/2005 (OJ L 126, 19.5.2005, p. 10).

<sup>(3)</sup> OJ L 301, 17.10.1992, p. 17. Regulation as last amended by Regulation (EC) No 770/96 (OJ L 104, 27.4.1996, p. 13).

- (b) the tenderer's written undertaking to use the common wheat or rye for processing within the Community into flour within 60 days of its release from intervention storage and in any event before 31 July 2007 and to lodge a security of EUR 40 per tonne within two working days of the day on which the notice of award of contract is received;
- (c) an undertaking to keep stock records so that checks may be carried out to ensure that the quantities of common wheat and rye awarded have been processed into flour on Community territory.

#### Article 4

1. The deadline for the submission of tenders for the first partial invitation to tender shall be 13.00 (Brussels time) on 11 October 2006.

The closing dates for the submission of tenders for subsequent partial invitations to tender shall be each Wednesday at 13.00 (Brussels time), with the exception of 27 December 2006, 4 April and 16 May 2007, i.e. weeks when no invitation to tender shall be made.

The deadline for the submission of tenders for the last partial invitation to tender shall be 27 June 2007 at 13.00 (Brussels time).

2. Tenders must be lodged with the intervention agencies concerned at the addresses shown in Annex I.

#### Article 5

Within four hours of the expiry of the deadline for the submission of tenders laid down in Article 4(1), the intervention agencies concerned shall notify the Commission of tenders received. If no tenders are received, the Member State shall notify the Commission within the same time limits. If the Member State does not send a communication to the Commission within the given deadline, the Commission shall consider that no tender has been submitted in the Member State concerned.

The notifications provided for in the first paragraph shall be sent electronically, in accordance with the model in Annex II. A separate form for each type of cereal shall be sent to the

Commission for each open invitation to tender. The tenderers shall not be identified.

#### Article 6

1. Under the procedure laid down in Article 25(2) of Regulation (EC) No 1784/2003, the Commission shall set the minimum selling price for the common wheat or rye or decide not to award any quantities.

2. If the fixing of a minimum price, in accordance with paragraph 1, would lead to an overrun on the maximum quantity available to a Member State, an award coefficient may be fixed at the same time for the quantities offered at the minimum price in order to comply with the maximum quantity available to that Member State.

#### Article 7

1. The security referred to in Article 3(a) shall be released in full in respect of quantities for which:

- (a) no award is made;
- (b) payment of the selling price is made within the period set and the security referred to in Article 3(b) has been lodged.

2. The security referred to in Article 3(b) shall be released in proportion to the quantities of common wheat or rye used for the production of flour in the Community.

#### Article 8

1. Proof that the undertakings referred to in Article 3(b) have been met shall be supplied in accordance with Regulation (EEC) No 3002/92.

2. In addition to the particulars provided for in Regulation (EEC) No 3002/92, box 104 of the control copy T5 shall refer to the undertaking provided for in Article 3(b) and (c) and contain one or more of the entries shown in Annex III.

#### Article 9

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 6 October 2006.

**COMMISSION REGULATION (EC) No 1483/2006****of 6 October 2006****opening standing invitations to tender for the resale on the Community market of cereals held by the intervention agencies of the Member States**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals <sup>(1)</sup>, and in particular Article 6 and the second paragraph of Article 24 thereof,

Whereas:

(1) Under Commission Regulation (EEC) No 2131/93 of 28 July 1993 laying down the procedures and conditions for the sale of cereals held by intervention agencies <sup>(2)</sup>, cereals held by intervention agencies are to be sold by tendering procedure at prices preventing market disturbance.

(2) The Member States have intervention stocks of maize, common wheat, barley and rye. To meet market needs, these stocks of cereals should be made available on the Community market. To this end, standing invitations to tender should be opened for the resale on the Community market of cereals held by the intervention agencies of the Member States. Each of them should be considered to be a separate invitation to tender.

(3) Derogations should be made from the terms laid down by Regulation (EEC) No 2131/93 as regards the level of the security required. This security should be set at a sufficiently high level.

(4) To take account of the situation on the Community market, provision should be made for the Commission to manage this invitation to tender. In addition, provision must be made for an award coefficient for tenders offering the minimum selling price.

(5) To permit the efficient administration of the system, the information required by the Commission should be sent by electronic mail. It is important for the notification by the intervention agencies to the Commission to maintain the anonymity of the tenderers.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

*Article 1*

The intervention agencies of the Member States listed in Annex I shall open standing invitations to tender for the sale on the Community market of cereals held by them. The maximum quantities of the different cereals covered by these invitations to tender are shown in Annex I.

*Article 2*

The sales referred to in Article 1 shall be carried out under the terms laid down by Regulation (EEC) No 2131/93. However, notwithstanding the second subparagraph of Article 13(4) of that Regulation, the tender security shall be set at EUR 10 per tonne.

*Article 3*

1. The closing date for the submission of tenders for the first partial invitation to tender shall be 13.00 (Brussels time) on 11 October 2006.

The closing dates for the submission of tenders for subsequent partial invitations to tender shall be each Wednesday at 13.00 (Brussels time), with the exception of 1 November 2006, 27 December 2006, 4 April 2007 and 16 May 2007, i.e. weeks when no invitation to tender shall be made.

<sup>(1)</sup> OJ L 270, 21.10.2003, p. 78. Regulation as amended by Commission Regulation (EC) No 1154/2005 (OJ L 187, 19.7.2005, p. 11).

<sup>(2)</sup> OJ L 191, 31.7.1993, p. 76. Regulation as last amended by Regulation (EC) No 749/2005 (OJ L 126, 19.5.2005, p. 10).

The closing date for the submission of tenders for the last partial invitation to tender shall be 27 June 2007 at 13.00 (Brussels time).

2. Tenders must be lodged with the intervention agencies concerned at the addresses shown in Annex I.

#### *Article 4*

Within four hours of the expiry of the deadline for the submission of tenders laid down in Article 4(1), the intervention agencies concerned shall notify the Commission of tenders received. If no tenders are received, the Member State shall notify the Commission within the same time limits. If the Member State does not send a communication to the Commission within the given deadlines, the Commission shall consider that no tender has been submitted in the Member State concerned.

The communications referred to in the first subparagraph shall be sent electronically, in accordance with the model in Annex II. A separate form for each type of cereal shall be sent to the

Commission for each invitation to tender. The tenderers shall not be identified.

#### *Article 5*

1. Under the procedure laid down in Article 25(2) of Regulation (EC) No 1784/2003, the Commission shall set the minimum selling price for each cereal or decide not to award any quantities.

2. If the fixing of a minimum price, in accordance with paragraph 1, would lead to an overrun on the maximum quantity available to a Member State, an award coefficient may be fixed at the same time for the quantities offered at the minimum price in order to comply with the maximum quantity available to that Member State.

#### *Article 6*

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 6 October 2006.

<sup>(1)</sup> Determined according to EN ISO 536 and with no more than 5 % organic additive content.

<sup>(2)</sup> Classes as provided for in Table 1 of the Annex to Commission Decision 2000/147/EC.

**Note: Mounting and fixing**

The gypsum plasterboards (hereinafter — “gypsum boards”) shall be mounted and fixed using one of the three following methods:

*Method 1 — Mechanically fixed to a supporting substructure*

The gypsum boards, or (in the case of multi-layer systems) at least the outermost layer of boards, shall be mechanically fixed to a metal substructure (made from components detailed in EN 14195) or to a timber substructure (in accordance with EN 336 and EN 1995-1-1).

When the substructure provides supporting members in one direction only, the maximum span between the supporting members shall not exceed a dimension equal to 50 times the thickness of the gypsum boards.

When the substructure includes supporting members in two directions the maximum span in either direction shall not exceed a dimension equal to 100 times the thickness of the gypsum boards.

The mechanical fixings shall be screws, staples or nails, which shall be fixed through the thickness of the gypsum boards into the substructure at centres not exceeding 300 mm measured along the length of each supporting member.

Behind the gypsum boards may be an air space, or an insulating product. The substrate may be:

- (a) any wood-based product with density ≥ 400 kg/m<sup>3</sup> or any product of at least class A2-s1, d0 in case of gypsum boards of ≥ 6,5 mm and < 9,5 mm nominal thickness and ≥ 800 kg/m<sup>3</sup> core density, or
- (b) any wood-based product with density ≥ 400 kg/m<sup>3</sup> or any product of at least class A2-s1, d0 in case of gypsum boards of ≥ 9,5 mm nominal thickness and ≥ 600 kg/m<sup>3</sup> core density, or
- (c) any insulating material of at least class E-d2 in case of gypsum boards of ≥ 9,5 mm nominal thickness and ≥ 600 kg/m<sup>3</sup> core density.

Each joint between adjoining gypsum boards shall have a gap width  $\leq 4$  mm. This provision applies for any joint regardless of that the joint is or is not supported directly by a substructure supporting member and regardless of that the joint is or is not filled with a jointing material.

In cases (a) and (b) each joint between adjoining gypsum boards, which is not supported directly by a substructure supporting member and which has a gap width  $> 1$  mm, shall be fully filled with a jointing material as specified in EN 13963 (the other joints may remain unfilled).

In case (c) all joints between adjoining gypsum boards shall be fully filled with a jointing material as specified in EN 13963.

*Method 2 — Mechanically fixed to a solid wood-based substrate*

The gypsum boards shall be mechanically fixed to a solid wood-based substrate with density  $\geq 400$  kg/m<sup>3</sup>.

There shall be no cavity between the gypsum boards and the substrate.

The mechanical fixings shall be screws, staples or nails. The distance between the mechanical fixings shall correspond to the rules given above for method 1.

Each joint between adjoining gypsum boards shall have a gap width  $\leq 4$  mm and may remain unfilled.

*Method 3 — Mechanically fixed or bonded to a solid substrate (dry lining system)*

The gypsum boards shall be fixed directly to a solid substrate with a reaction to fire classification of at least class A2-s1, d0.

The gypsum boards may be fixed using screws or nails fixed through the thickness of the gypsum boards into the solid substrate or may be bonded to the substrate using “dabs” of a gypsum based adhesive as specified in EN 14496.

In either case the screw or nail fixings or the adhesive “dabs” shall be positioned at maximum 600 mm vertical and horizontal centres.

All joints between adjoining gypsum boards may remain unfilled.’

## COMMISSION DECISION

of 6 October 2006

**amending Annexes I and II to Decision 2002/308/EC establishing lists of approved zones and approved farms with regard to one or more of the fish diseases viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN)**

*(notified under document number C(2006) 4362)***(Text with EEA relevance)**

(2006/674/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/67/EEC of 28 January 1991 concerning the animal health conditions governing the placing on the market of aquaculture animals and products <sup>(1)</sup>, and in particular Articles 5 and 6 thereof,

Whereas:

(1) Commission Decision 2002/308/EC <sup>(2)</sup> establishes the lists of approved zones and approved fish farms situated in non-approved zones with regard to certain fish diseases.

(2) Denmark, Germany and Italy have submitted the justifications for obtaining the status of approved farms in non-approved zones, with regard to viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN), for certain farms in their territory. The documentation provided shows that those farms meet the requirements of Article 6 of Directive 91/67/EEC. They therefore qualify for the status of approved farms in a non-approved zone and should be added to the list of approved farms.

(3) Italy and the United Kingdom have notified the presence of VHS in zones previously considered free of that disease. However, the zones remain free from IHN. Those zones should therefore no longer appear in Decision 2002/308/EC as zones free of VHS.

(4) Germany and Italy have notified the presence of VHS and IHN respectively, in farms previously considered free from those diseases. Those farms should therefore no longer appear in Decision 2002/308/EC as free of the disease in question.

(5) Germany has notified that one farm located in Schleswig-Holstein has ceased its activity. That farm should therefore no longer appear in Annex II to Decision 2002/308/EC.

(6) Commission Decision 2003/634/EC <sup>(3)</sup> approves and lists programmes submitted by the Member States for the purpose of obtaining the status of approved zones and of approved farms with regard to VHS and IHN.

(7) Cyprus and Italy have notified that certain programmes approved by Decision 2003/634/EC have been finalised. The documentation provided by Cyprus shows that all continental areas in its territory qualify for the status of approved zones and should therefore be added to the list of approved zones. The documentation provided by Italy shows that one farm in its territory qualifies for the status of approved farm in a non-approved zone and should be added to the list of approved farms in non-approved zones.

(8) Decision 2002/308/EC should therefore be amended accordingly.

(9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Decision 2002/308/EC is amended as follows:

1. Annex I is replaced by the text in Annex I to this Decision.

*A. Letter from the European Union to the Government of the Swiss Confederation*

Brussels, 10 August 2006

Dear Sir,

I would like to thank you for your country's offer for a contribution to the European Union military operation in support of the United Nations Organisation Mission in the Democratic Republic of the Congo (MONUC) during the election process (Operation EUFOR RD Congo). The offer shall constitute an important contribution to the Operation and I have the pleasure to inform you that the Council of the European Union has decided to accept Switzerland's offer for a contribution to Operation EUFOR RD Congo and to invite your country to be represented in the Committee of Contributors.

As already indicated in my letter of 28 July 2006, Switzerland should conclude an agreement with the European Union on its participation in Operation EUFOR RD Congo. Pending the conclusion of the Draft Agreement between the European Union and the Swiss Confederation establishing a framework for the participation of the Swiss Confederation in the European Union crisis management operations, I would propose that the participation of Switzerland in the operation be governed by the provisions set out in Annex I to this letter.

Should these provisions be agreeable to you, I would suggest that this letter, including Annex I to this letter, and your reply constitute the agreement between the European Union and Switzerland for Switzerland's participation in Operation EUFOR RD Congo, which shall enter into force on the date of signature of your reply.

Accordingly, I also attach in Annex II, on behalf of the European Union Member States, a declaration on the waiver of claims by the European Union Member States. I kindly request that Switzerland make a parallel declaration according to the model set out in that Annex.

Yours faithfully,

*For the European Union*
