REGULATIONS

COMMISSION REGULATION (EC) No 547/2007**of 21 May 2007****establishing the standard import values for determining the entry price of certain fruit and vegetables**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Commission Regulation (EC) No 3223/94 of 21 December 1994 on detailed rules for the application of the import arrangements for fruit and vegetables ⁽¹⁾, and in particular Article 4(1) thereof,

Whereas:

- (1) Regulation (EC) No 3223/94 lays down, pursuant to the outcome of the Uruguay Round multilateral trade negotiations, the criteria whereby the Commission fixes the

standard values for imports from third countries, in respect of the products and periods stipulated in the Annex thereto.

- (2) In compliance with the above criteria, the standard import values must be fixed at the levels set out in the Annex to this Regulation,

HAS ADOPTED THIS REGULATION:

Article 1

The standard import values referred to in Article 4 of Regulation (EC) No 3223/94 shall be fixed as indicated in the Annex hereto.

Article 2

This Regulation shall enter into force on 22 May 2007.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 May 2007.

DECISIONS

COMMISSION

COMMISSION DECISION

of 10 May 2007

amending Annexes I and II to Decision 2002/308/EC establishing lists of approved zones and approved farms with regard to one or more of the fish diseases viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN)

(notified under document number C(2007) 1989)

(Text with EEA relevance)

(2007/345/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/67/EEC of 28 January 1991 concerning the animal health conditions governing the placing on the market of aquaculture animals and products ⁽¹⁾, and in particular Articles 5 and 6 thereof,

Whereas:

- (1) Commission Decision 2002/308/EC ⁽²⁾ establishes the lists of approved zones and approved fish farms situated in non-approved zones with regard to certain fish diseases.
- (2) Germany, France and Italy have submitted the justifications for obtaining the status of approved farms in non-approved zones, with regard to viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN), for certain farms in their territory. The documentation provided shows that those farms meet the requirements of Article 6 of Directive 91/67/EEC. They therefore qualify for the status of approved farms in a non-approved zone and should be added to the list of approved farms.

- (3) Germany, France and Italy have submitted the justifications for obtaining the status of approved zones, with regard to VHS and IHN, for certain zones in their territory. The documentation provided shows that those zones meet the requirements of Article 5 of Directive 91/67/EEC. They therefore qualify for the status of approved zones and should be added to the list of approved zones.

- (4) Sweden has submitted the justifications for obtaining the status of approved zones with regard to VHS, for certain coastal areas in its territory. The documentation provided shows that those areas meet the requirements of Article 5 of Directive 91/67/EEC. The whole territory of Sweden should therefore be approved with regard to VHS and IHN.

- (5) Germany has notified the presence of IHN in a zone previously considered free of that disease. The zone should therefore no longer appear in Decision 2002/308/EC as IHN-free. However, after the reorganisation of this zone, some of its parts remain free from VHS and IHN while the other parts should only be considered free of VHS. The list of approved zones should therefore be amended accordingly.

- (6) Denmark has informed that an approved farm with regard to VHS and IHN does not comply with the maintenance requirements to be considered as free from VHS. The farm should therefore no longer appear as free of VHS.

⁽¹⁾ OJ L 46, 19.2.1991, p. 1. Directive as last amended by Regulation (EC) No 806/2003 (OJ L 122, 16.5.2003, p. 1).

⁽²⁾ OJ L 106, 23.4.2002, p. 28. Decision as last amended by Decision 2006/674/EC (OJ L 276, 7.10.2006, p. 80).

- (7) Finland has given notification that its programme for VHS freedom approved by Commission Decision 2003/634/EC of 28 August 2003 approving programmes for the purpose of obtaining the status of approved zones and of approved farms in non-approved zones with regard to viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN) in fish ⁽¹⁾ has been finalised. The documentation provided by Finland shows that all coastal areas in its territory except the areas covered by the special eradication measures qualify for the status of approved zones and should therefore be added to the list of approved zones in Decision 2002/308/EC.
- (8) Italy has given notification that a programme for VHS and IHN freedom approved by Decision 2003/634/EC has been finalised. This zone qualify for the status of approved zones and should be added to the list of approved zones.
- (9) The approved zones and approved farms in non-approved zones in France should be reorganised to reflect better the geography and the administrative situation in that Member State.
- (10) Decision 2002/308/EC should therefore be amended accordingly.

- (11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2002/308/EC is amended as follows:

1. Annex I is replaced by the text in Annex I to this Decision.
2. Annex II is replaced by the text in Annex II to this Decision.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 10 May 2007.

COMMISSION DECISION

of 16 May 2007

granting a derogation requested by France pursuant to Decision 2006/804/EC on harmonisation of the radio spectrum for radio frequency identification (RFID) devices operating in the ultra high frequency (UHF) band

*(notified under document number C(2007) 2084)***(Only the French text is authentic)**

(2007/346/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Decision No 676/2002/EC of the European Parliament and of the Council of 7 March 2002 on a regulatory framework for radio spectrum policy in the European Community (Radio Spectrum Decision) ⁽¹⁾, and in particular Article 4(5) thereof,

Having regard to Commission Decision 2006/804/EC of 23 November 2006 on harmonisation of the radio spectrum for radio frequency identification (RFID) devices operating in the ultra high frequency (UHF) band ⁽²⁾, and in particular Article 3(2) thereof,

Whereas:

(1) Considering that Decision 2006/804/EC would affect the 865,6-867,6 MHz frequency band, France has introduced a request for a transitional derogation to this Decision on the ground that this band is currently used exclusively and directly for equipment dedicated to public security and defence purposes which does not tolerate high levels of emissions within a certain geographical range.

(2) France has therefore requested the possibility to limit the emission levels in that band in certain zones below the levels defined by Decision 2006/804/EC.

(3) France has provided sufficient technical justification to its request, based in particular on compatibility studies from the *Agence Nationale des Fréquences* and of CEPT and taking into account factors of harmful interference between RFID and military equipment such as emission power, density and duty cycles.

(4) While the request seeks a minimum of protection for military equipment, it does not impose unnecessary restraints in terms of frequency band or geographical coverage. Only a very limited part of the territory of France would be concerned; it does not unduly prevent activities around urban areas and the areas involved would be rural and would not overlap with major towns. RFID would still be permitted in the designated areas, albeit with a reduced power level. Overall, the derogation would in effect not significantly impact on the deployment of RFID technology in France.

(5) The limitation should remain exceptional and be allowed for a limited period of time. France would report on the evolution of technology and usage by its military forces and on the implementation of the limitation after three years. The report would include any fact or measurement during the three year period.

(6) France has indicated that it would adopt new military equipment which would be compatible with the emission levels of Commission Decision 2006/804/EC as soon as new technology would be available; considering the time necessary for technology development, France has indicated that it may wish to apply for three year-renewals of this derogation, until 2020 at the latest. However, it remains that such derogation is exceptional and any extension thereof should be properly justified and necessary.

(7) The members of the Radio Spectrum Committee have indicated at the meeting of the Committee on 4 and 5 December 2006 that they do not object to this transitional derogation.

(8) The requested limitation would not unduly defer implementation of Decision 2006/804/EC or create undue differences in the competitive or regulatory situations between Member States. The request is justified and a transitional derogation would be appropriate to facilitate the full implementation of Decision 2006/804/EC,

⁽¹⁾ OJ L 108, 24.4.2002, p. 1.

⁽²⁾ OJ L 329, 25.11.2006, p. 64.

HAS ADOPTED THIS DECISION:

Article 1

The request by France by letter of 23 February 2007 (SG/CDC/2007/A/1821) to further limit the emission powers for the use of the 865,6-867,6 MHz frequency band for radio frequency identification devices (RFID) operating on the territory of France, as a derogation to Decision 2006/804/EC, is hereby approved, subject to the conditions laid down in this Decision.

Article 2

In the 865,6-867,6 MHz frequency band, the maximum power/field strength shall not be higher than 500 mW effective radiated power (e.r.p.) in the zones as defined in the Annex.

Article 3

France shall submit by 30 June 2010 a report on the implementation of this Decision.

Article 4

This Decision shall expire on 31 December 2010.

Article 5

This Decision is addressed to the French Republic.

Done at Brussels, 16 May 2007.

For the Commission

Viviane REDING

Member of the Commission

COMMISSION DECISION

of 16 May 2007

amending Decision 2004/416/EC on temporary emergency measures in respect of certain citrus fruits originating in Argentina or Brazil

(notified under document number C(2007) 2089)

(2007/347/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

temporary emergency measures should no longer apply to citrus fruits originating in Argentina, but should, however, remain in force in respect of those citrus fruits originating in Brazil.

Having regard to the Treaty establishing the European Community,

(4) Decision 2004/416/EC should, therefore, be amended accordingly.

Having regard to Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community ⁽¹⁾, and in particular Article 16(3) thereof,

(5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plant Health,

Whereas:

HAS ADOPTED THIS DECISION:

Article 1

Decision 2004/416/EC is amended as follows:

(1) Commission Decision 2004/416/EC ⁽²⁾ laid down temporary emergency measures aimed at providing strengthened prevention of the entry of harmful organisms, and in particular of *Guignardia citricarpa* Kiely and *Xanthomonas campestris* in respect of fruits of *Citrus* L., *Fortunella* Swingle, *Poncirus* Raf., and their hybrids, originating in Argentina or Brazil.

1. in the title, the words 'Argentina or' are deleted;

(2) On the basis of the assessment by the Food and Veterinary Office in 2004 and 2005 in Argentina and Brazil, information from detailed technical reports on the results of plant health checks carried out in 2004, 2005 and 2006 by Member States on those citrus fruits imported from Argentina and Brazil and additional information provided by Argentina in 2006 and 2007 on the traceability system and the official operators' register established in Argentina in the citrus fruits exporting sector, it has become apparent that the temporary emergency measures are no longer necessary in respect of Argentina.

2. in Article 1, the words 'Argentina or' are deleted.

3. Article 2 is replaced by the following:

'Without prejudice to the provisions of Commission Directive 94/3/EC (*), each Member State importing citrus fruits originating in Brazil shall provide the Commission and the other Member States, by 31 December 2007 at the latest, with a detailed technical report on the results of plant health checks carried out on those fruits in accordance with Article 13(1) of Directive 2000/29/EC between 1 May and 30 November 2007.

(3) The effect of the temporary emergency measures concerned was evaluated by the Standing Committee on Plant Health on several occasions during 2005, 2006 and 2007. It was recommended that the
