ANNEX II

Technical specifications for the transfer of computer files to the EAGF and EAFRD from 16 October 2008

INTRODUCTION

These technical specifications apply in respect of the financial year 2008, which commenced on 16 October 2007.

1. Transfer medium

The coordinating body of the Member State must transfer the computer files and the relating documentation to the Commission through STATEL/eDAMIS. The Commission will only support one installation of STATEL/eDAMIS per Member State. The latest eDAMIS client and more information on the use of STATEL/eDAMIS shall be downloaded from the CIRCA web-site of the agricultural funds.

2. Computer file structure

2.1. The Member State must create a computer record for each individual component of the EAGF/EAFRD payments and receipts. These components are the individual items of which the payment (receipt) to (from) the beneficiary consists.

2.2. The records must have a flat file structure. If fields have more than one value, separate records containing all data fields are required. Make sure that no double counting occurs ⁽¹⁾.

2.3. All information for the same category of payments or receipts must be contained in the same computer file. Separate files relating to the same payments (e.g. for traders or inspections, or for basic and measure data) are not allowed.

2.4. The computer files must have the following characteristics:

- (1) The first record in the file (header row) contains the file description. The field names comprise an 'F' followed by the field number used in Annex I (the X-table). Only field names existing in this Annex are allowed.
- (2) The following records in the file are data (data rows), in the order indicated by the first record describing the file structure.
- (3) The fields are separated by a semicolon (;). The header row and data rows shall all contain the same number of semicolons. In the data rows, empty fields appear as a double semicolon (;;) within the record, or as a single semicolon (;) at the end of the record.
- (4) Records vary in length. Each record ends with a code 'CR LF' or 'Carriage Return — Line Feed' (in hexadecimal: 0D 0A). The header row never ends on a ';'. Data rows only end on a ';' if the last field is empty.
- (5) The file is in ASCII coding according to following table. Other codes (such as EBCDIC, TAR, ZIP, etc.) are not accepted:

Code	Member State
ISO 8859-1	BE, DK, DE, ES, FR, IE, IT, LU, NL, AT, PT, FI, SE and GB
ISO 8859-2	CZ, HU, PL, RO, SI and SK
ISO 8859-3	MT
ISO 8859-5	BG
ISO 8859-7	GR and CY
ISO 8859-13	EE, LV and LT

⁽¹⁾ Note: You should first read the preliminary remark concerning 'quantities' in Chapter 5 of Annex III.

(6) Numeric fields:

(a) Decimal separator: ‘.’

(b) The symbol (+ or –) appears on the far left, followed immediately by the figures. For positive numbers, the + sign is optional.

(c) Fixed number of decimals (the details are set out in the Annex III hereto).

(d) No spaces between digits. No spaces or other signs between thousands.

(7) Date field: ‘YYYYMMDD’ (year in four digits, month in two digits, day in two digits).

(8) Budget code (field F109) required format without spaces: ‘99999999999999’ (where ‘9’ stands for any figure between 0 and 9).

(9) Quotation marks (‘ ’) are not allowed at the beginning or at the end of the records. The semicolon field separator ‘;’ must not be used in data in text format.

(10) All fields: no spaces at the beginning or end of a field.

(11) Files satisfying these rules will look like the following (example for financial year 2004):

```
F100:F101:F106:F107:F108:F109
BE01;154678;+152,50;EUR;20030715;050201011000001

etc.
(other data rows with the fields in the same order).
```

2.5. Data files with the characteristics as described under 2.4 shall be sent with consignment type ‘X-TABLE-DATA’ (see ‘eDAMIS client’).

2.6. The computer program for checking the format of computer files before sending them to the Commission (Win-CheckCsv) is included in the data transfer program (eDAMIS client). The paying agencies are invited to download the check program from CIRCA separately for offline validation purposes.

3. Annual declaration

3.1. The coordinating body of the Member State must send either one annual declaration file for all paying agencies or separate annual declaration files for each paying agency. An annual declaration file should contain the total amounts by paying agency together with the budget and currency codes, for both EAGF and EAFRD measures ⁽¹⁾.

3.2. The files should have the characteristics as described under 2.4. Each line should contain the following fields (in this order):

(a) F100 paying agency code

(b) F109 budget code

(c) F106 amount expressed in the currency code F107

(d) F107 currency code

⁽¹⁾ See Article 6(b) and (c) of Regulation (EC) No 885/2006.

3.3. Files satisfying the rules will look like the following (example for financial year 2007):

F100;F109;F106;F107
BE01;050205011100014;218483644,90;EUR
BE01;050212012003012;29721588,82;EUR

BE01;050405011132001;8123456,45;EUR
etc.

3.4. Annual declaration files shall be sent through STATEL/eDAMIS with consignment type 'ANNUAL_DECLARATION'.

4. Documentation

In the following cases only, the coordinating body of the Member State must transfer an explanatory note for each paying agency through STATEL/eDAMIS:

- (1) In the case where there are differences between the annual declaration and the sum of the records in the computer files (Σ F106), in order to explain them by budget sub-item. The eDAMIS client includes a specific consignment type for this transfer i.e. 'EXPLANATORY-NOTE'.
- (2) In the case where there are codes used for fields, for which Annex III does not enforce standard codes, in order to explain all these used codes. The eDAMIS client includes a specific consignment type for this kind of tabular transfer i.e. 'CODE-LIST'.

The explanatory note shall have the look and feel of an ordinary letter. In particular the identity of the sender or the identity of the paying agency and the name or administrative unit of the addressee shall be clearly marked.

5. Data transfer

The coordinating body must send the computer files completely and only once.

If the coordinating body notices that false data were transmitted or a problem occurred with the data transfer, the Commission has to be informed immediately. All files, which contain incorrect information, are to be indicated. Therefore, the Commission is to be asked to delete these files. Thereafter, in order to avoid an overlapping of computer records or data files, the coordinating body must send the corrected computer files to replace entirely the previous incorrect information.

8. ADDITIONAL DATA RELATING TO EXPORT REFUNDS

8.1. **F800: net weight/quantity**

See preliminary remark in heading 5 (data relating to products).

The weight or the quantity shall be expressed in the unit of measurement.

In the case of processed products (non-Annex I goods or processed agricultural products): the quantity of the ingredient eligible for funding. If the code of the goods (F500) contains more than one ingredient eligible for funding (F804), then multiple records with corresponding amounts (F106) and quantities (F800) must be created.

Required format: +99 ... 99.99 or -99 ... 99.99, where 9 stands for a digit from 0 to 9. With a possibility to increase the number of decimals if significant (max 6).

8.2. **F800B: unit of measurement for field F800**

Required format: to be expressed by a one-character code corresponding to the following table:

Code	Meaning
K	Kilogram
L	Litre
P	Piece (item)

8.3. **F801: application number (export refunds: SAD)**

The more detailed the application number is given, the more important this information becomes. For instance, an extension to the application number such as the indication of the ingredient number will allow more precise identification of export refund data.

8.4. **F802: customs office of placing under customs supervision**

The Member States must use the Transit Customs Office List (COL ⁽¹⁾). This is the list of authorised customs offices for Community/common transit operations. It may be that due to its objective of 'transit operations' some of the customs offices might be missing although this will be the exception. In that case the Member State shall provide the name of the customs office in full.

Required format: the format of the COL code consists of two positions to denote the country (ISO code of a Member State) followed by a six-character code that define the customs office. For instance 'EE1000EE'.

8.5. **F802B: customs office of exit**

Indicate the customs office, which certifies that products covered by refund applications have left the customs territory of the Community. The Member States must use the Transit Customs Office List (COL ⁽¹⁾). This is the list of authorised customs offices for Community/common transit operations. It may be that due to its objective of 'transit operations' some of the customs offices might be missing although this will be the exception. In that case the Member State shall provide the name of the customs office in full.

This information is vital for the auditors in connection with the application of Council Regulation (EEC) No 386/90 concerning substitution checks. The information is available in T5 or equivalent documents.

Required format: the format of the COL code consists of two positions to denote the country (ISO code of a Member State) followed by a six-character code that define the customs office. For instance 'GB000392'.

8.6. **F804: export refund code**

In the case of non-processed agricultural products: the 12 digit product code, for which export refund is fixed.

In cases of processed products (non-Annex I goods or processed agricultural products): the CN code(s) of the ingredient(s) for which export refund is fixed. In this case, F500 must be completed with the code of the final product. See also the explanatory note to F800 for the procedure to follow where more than one ingredient of a processed product is eligible for refund.

8.7. **F805: code for destination**

Required format: 'XX', where X stands for a letter between A and Z (codes of the nomenclature of countries and territories for the external trade statistics of the Community. See Commission Regulation (EC) No 2020/2001 ⁽²⁾ of 15 October 2001 and subsequent updates).

In view of harmonisation, the Member States shall also use the miscellaneous category (codes Q*) of the nomenclature of countries and territories for the external trade statistics. It is known that that nomenclature does not cover all special export refund cases but the Commission does not require that kind of detail. Member States shall therefore convert their special national codes to the broader categories of the nomenclature of countries and territories for the external trade statistics before sending their data to the Commission.

8.8. **F808: date of advance fixing**

If fixed in advance, the date on which the rate of refund was set.

Required format: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).

8.9. **F809: last day of validity (advance fixing)**

Required format: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).

8.10. **F812: reference of the invitation to tender if applicable (advance fixing)**

The procedure stipulated in Article 5 of Commission Regulation (EC) No 1501/95 ⁽³⁾ or similar procedure for other sectors. The Commission needs the reference of the invitation to tender.

8.11. F814: day of acceptance of payment declaration (COM-7)

For the beef sector: in the case of pre-financing, complete field F814 only (disregarding fields F816 and F816B); if pre-financing is not involved, complete fields F816 and F816B (disregarding field F814).

Required format: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).

8.12. F816: date of acceptance of export declaration

Date within the meaning of Article 5 point 1 of Commission Regulation (EC) No 800/1999 ⁽¹⁾.

Required format: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).

8.13. F816B: date of export from the EU territory

Date of export as indicated on the export declaration or on the T5. See also Article 7 point 1 of Commission Regulation (EC) No 800/1999.

Required format: 'YYYYMMDD' (year in four digits, month in two digits, day in two digits).

ANNEX IV

Structure of EAFRD budget codes (F109)

INTRODUCTION

For EAFRD, there is only one budget heading defined in the budget nomenclature: '05040501'.

As the budget codes can be up to 15 figures long, the remaining seven figures can be used for identifying the programmes and measures. This will allow reconciliation of the data from the different sources on financial year, paying agency, measure and program level.

1. BUDGET CODE STRUCTURE

The budget codes must have the following structure:

- the first eight figures are constant: '05040501',
- the following three figures indicate the measure, according to the attached list,
- the next one digit can have the following values (increasing with increasing co-financing rate):
 1. non-convergence region
 2. convergence region
 3. outermost region
 4. voluntary modulation
 5. additional contribution for Portugal,
- the next digit indicates 0 = Operational Program or 1 = Network Program,
- the last two figures indicate the program: figures between '01' and '99' are allowed.

2. EXAMPLE

F109='050405011132001' means: budget heading '05040501' (EAFRD), measure '113' (early retirement), convergence region ('2'), Operational program ('0') and program '01'.

COMMISSION REGULATION (EC) No 950/2008**of 25 September 2008****on the issue of licences for importing rice under the tariff quotas opened for the September 2008 subperiod by Regulation (EC) No 327/98**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾,

Having regard to Commission Regulation (EC) No 1301/2006 of 31 August 2006 laying down common rules for the administration of import tariff quotas for agricultural products managed by a system of import licences ⁽²⁾, and in particular Article 7(2) thereof,

Having regard to Commission Regulation (EC) No 327/98 of 10 February 1998 opening and providing for the administration of certain tariff quotas for imports of rice and broken rice ⁽³⁾, and in particular the first paragraph of Article 5 thereof,

Whereas:

(1) Regulation (EC) No 327/98 opened and provided for the administration of certain import tariff quotas for rice and broken rice, broken down by country of origin and split into several subperiods in accordance with Annex IX to that Regulation and with Commission Regulation (EC) No 60/2008 ⁽⁴⁾ (Regulation (EC) No 60/2008 opened a specific subperiod in February 2008 for the import tariff quota for wholly milled and semi-milled rice originating in the United States of America).

(2) The September subperiod is the third subperiod for the rice quotas laid down in Article 1(1)(d) of Regulation (EC) No 327/98, the fourth subperiod for the quotas of rice originating in Thailand, Australia and origins other

than Thailand, Australia and the United States laid down in Article 1(1)(a) and the fifth subperiod for the quota of rice originating in the United States laid down in Article 1(1)(a).

The extent to which import licences may be issued should therefore be determined by establishing the allocation coefficient to be applied to the quantities requested.

(4) It is also clear from the notifications that, for the quotas with order numbers 09.4127 — 09.4128 — 09.4129 — 09.4112, the applications lodged in the first 10 working days of September 2008 under Article 4(1) of the Regulation cover a quantity less than or equal to that available.

(5) The quantities not used for the September subperiod of the quotas with order numbers 09.4127 — 09.4129 — 09.4130 are transferred to the quota bearing the order number 09.4138 for the following subperiod under Article 2 of Regulation (EC) No 327/98.

(6) The total quantities available for the following subperiod should therefore be fixed for the quotas with order numbers 09.4138 and 09.4168, in accordance with the first paragraph of Article 5 of Regulation (EC) No 327/98,

DECISIONS

COMMISSION

COMMISSION DECISION

of 18 September 2008

concerning the non-inclusion of methyl bromide in Annex I to Council Directive 91/414/EEC and the withdrawal of authorisations for plant protection products containing that substance

(notified under document number C(2008) 5076)

(Text with EEA relevance)

(2008/753/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market ⁽¹⁾, and in particular the fourth subparagraph of Article 8(2) thereof,

Whereas:

(1) Article 8(2) of Directive 91/414/EEC provides that a Member State may, during a period of 12 years following the notification of that Directive, authorise the placing on the market of plant protection products containing active substances not listed in Annex I to that Directive that are already on the market two years after the date of notification, while those substances are gradually being examined within the framework of a programme of work.

(2) Commission Regulations (EC) No 451/2000 ⁽²⁾ and (EC) No 1490/2002 ⁽³⁾ lay down the detailed rules for the implementation of the third stage of the programme of work referred to in Article 8(2) of Directive 91/414/EEC and establish a list of active substances to be assessed with a view to their possible inclusion in Annex I to Directive 91/414/EEC. That list includes methyl bromide.

(3) For methyl bromide the effects on human health and the environment have been assessed in accordance with the provisions laid down in Regulations (EC) No 451/2000 and (EC) No 1490/2002 for a range of uses proposed by the notifier. Moreover, those Regulations designate the *rapporteur* Member States which have to submit the relevant assessment reports and recommendations to the European Food Safety Authority (EFSA) in accordance with Article 8(1) of Regulation (EC) No 451/2000. For methyl bromide the *rapporteur* Member State was the United Kingdom and all relevant information was submitted on 17 October 2005.

(4) The Commission examined methyl bromide in accordance with Article 11a of Regulation (EC) No 1490/2002. A draft review report for that substance was reviewed by the Member States and the Commission within the Standing Committee on the Food Chain and Animal Health and finalised on 20 May 2008 in the format of the Commission review report.

(5) During the examination of this active substance by the Committee, taking into account comments from Member States, it was concluded that there are clear indications that it may be expected that it has harmful effects on human health and in particular on bystanders, because the exposure is greater than 100 % of the AOEL and consumers, because the exposure is greater than 100 % of the ADI and the ARfD. Moreover, other concerns which were identified by the *rapporteur* Member State in its assessment report are included in the review report for the substance.

⁽¹⁾ OJ L 230, 19.8.1991, p. 1.

⁽²⁾ OJ L 55, 29.2.2000, p. 25.

⁽³⁾ OJ L 224, 21.8.2002, p. 23.

- (6) The Commission invited the notifier to submit its comments on the results of the examination of methyl bromide and on its intention or not to further support the substance. The notifier submitted its comments which have been carefully examined. However, despite the arguments put forwards by the notifier, the concerns identified could not be eliminated, and assessments made on the basis of the information submitted have not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing methyl bromide satisfy in general the requirements laid down in Article 5(1)(a) and (b) of Directive 91/414/EEC.
- (7) Methyl bromide should therefore not be included in Annex I to Directive 91/414/EEC.
- (8) Measures should be taken to ensure that authorisations granted for plant protection products containing methyl bromide are withdrawn within a fixed period of time and are not renewed and that no new authorisations for such products are granted.
- (9) Any period of grace granted by a Member State for the disposal, storage, placing on the market and use of existing stocks of plant protection products containing methyl bromide should be limited to 12 months in order to allow existing stocks to be used in one further growing season, which ensures that plant protection products containing methyl bromide remain available for 18 months from the adoption of this Decision.

COMMISSION DECISION

of 18 September 2008

concerning the non-inclusion of dichlobenil in Annex I to Council Directive 91/414/EEC and the withdrawal of authorisations for plant protection products containing that substance

(notified under document number C(2008) 5077)

(Text with EEA relevance)

(2008/754/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

erlands and all relevant information was submitted on 7 May 2007.

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market ⁽¹⁾, and in particular the fourth subparagraph of Article 8(2) thereof,

Whereas:

- (1) Article 8(2) of Directive 91/414/EEC provides that a Member State may, during a period of 12 years following the notification of that Directive, authorise the placing on the market of plant protection products containing active substances not listed in Annex I to that Directive that are already on the market two years after the date of notification, while those substances are gradually being examined within the framework of a programme of work.
- (2) Commission Regulations (EC) No 451/2000 ⁽²⁾ and (EC) No 1490/2002 ⁽³⁾ lay down the detailed rules for the implementation of the third stage of the programme of work referred to in Article 8(2) of Directive 91/414/EEC and establish a list of active substances to be assessed with a view to their possible inclusion in Annex I to Directive 91/414/EEC. That list includes dichlobenil.
- (3) For dichlobenil the effects on human health and the environment have been assessed in accordance with the provisions laid down in Regulations (EC) No 451/2000 and (EC) No 1490/2002 for a range of uses proposed by the notifier. Moreover, those Regulations designate the *rapporteur* Member States which have to submit the relevant assessment reports and recommendations to the European Food Safety Authority (EFSA) in accordance with Article 8(1) of Regulation (EC) No 451/2000. For dichlobenil the *rapporteur* Member State was the Neth-

- (4) The Commission examined dichlobenil in accordance with Article 11a of Regulation (EC) No 1490/2002. A draft review report for that substance was reviewed by the Member States and the Commission within the Standing Committee on the Food Chain and Animal Health and finalised on 20 May 2008 in the format of the Commission review report.
- (5) During the examination of this active substance by the Committee, taking into account comments from Member States, it was concluded that there are clear indications that it may be expected that it has harmful effects on human health and in particular consumer exposure from drinking water, because the exposure is greater than 100 % of the ADI of a relevant metabolite and the leaching to groundwater is above 0,1 µg/l in all modeled scenarios for this relevant metabolite. Moreover, other concerns which were identified by the *rapporteur* Member State in its assessment report are included in the review report for the substance.
- (6) The Commission invited the notifier to submit its comments on the results of the examination of dichlobenil and on its intention or not to further support the substance. The notifier submitted its comments which have been carefully examined. However, despite the arguments put forwards by the notifier, the concerns identified could not be eliminated, and assessments made on the basis of the information submitted have not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing dichlobenil satisfy in general the requirements laid down in Article 5(1)(a) and (b) of Directive 91/414/EEC.
- (7) Dichlobenil should therefore not be included in Annex I to Directive 91/414/EEC.
- (8) Measures should be taken to ensure that authorisations granted for plant protection products containing dichlobenil are withdrawn within a fixed period of time and are not renewed and that no new authorisations for such products are granted.

(9) Any period of grace granted by a Member State for the disposal, storage, placing on the market and use of existing stocks of plant protection products containing dichlobenil should be limited to 12 months in order to allow existing stocks to be used in one further growing season, which ensures that plant protection products containing dichlobenil remain available for 18 months from the adoption of this Decision.

(10) This Decision does not prejudice the submission of an application for dichlobenil in accordance with Article 6(2) of Directive 91/414/EEC and Commission Regulation (EC) No 33/2008 of 17 January 2008 laying down detailed rules for the application of Council Directive 91/414/EEC as regards a regular and an accelerated procedure for the assessment of active substances which were part of the programme of work referred to in Article 8(2) of that Directive but have not been included into its Annex I ⁽¹⁾, in view of a possible inclusion in its Annex I.

(11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Dichlobenil shall not be included as an active substance in Annex I to Directive 91/414/EEC.

COMMISSION DECISION

of 24 September 2008

amending Decision 2005/176/EC laying down the codified form and the codes for the notification of animal diseases pursuant to Council Directive 82/894/EEC

(notified under document number C(2008) 5175)

(Text with EEA relevance)

(2008/755/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 82/894/EEC of 21 December 1982 on the notification of animal diseases within the Community ⁽¹⁾, and in particular Article 5(1) thereof,

Whereas:

(1) Directive 82/894/EEC concerns notifications of outbreaks of the animal diseases listed in Annex I thereto.

(2) Commission Decision 2005/176/EC ⁽²⁾ lays down the codified form and the codes for the notification of animal diseases pursuant to Directive 82/894/EEC. Annex V to that Decision lists the codes for the diseases, while Annexes X/01, X/03, X/09, X/11, X/12 and X/16 list the codes for the veterinary regions in Germany, Italy, Denmark, Spain, Portugal, and Sweden respectively.

(3) The list in Annex I to Directive 82/894/EEC, as amended by Commission Decision 2008/650/EC ⁽³⁾, was recently updated whereby certain diseases affecting fish listed in Part II of Annex IV to Council Directive 2006/88/EC ⁽⁴⁾ were included in that list and Teschen disease (porcine enterovirus encephalomyelitis), which is no longer a compulsorily notifiable disease pursuant to Council Directive 92/119/EEC ⁽⁵⁾, was deleted from that list.

(4) In order to make it possible to distinguish between notifications of outbreaks of African swine fever in wild boar and of outbreaks of that disease in domestic pigs, different codes should be given for the notification of those two types of outbreaks.

(5) It is therefore necessary to amend the list of disease codes set out in Annex V to Decision 2005/176/EC.

(6) Germany, Italy, Denmark, Spain, Portugal and Sweden have adjusted the names and boundaries of their veterinary regions. The adjustment of those regions affects the Animal Disease Notification System. The new regions should therefore replace those currently listed in that system. It is therefore appropriate to amend Annexes X/01, X/03, X/09, X/11, X/12 and X/16 to Decision 2005/176/EC accordingly.

(7) Decision 2005/176/EC should therefore be amended accordingly.

(8) In order to protect confidentiality of the transmitted information, the Annexes to this Decision should not be published in the *Official Journal of the European Union*.

(9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2005/176/EC is amended as follows:

1. Annex V is replaced by the text in Annex I to this Decision.

2. Annex X/01 is replaced by the text in Annex II to this Decision.
