- within three years of receipt of the information referred to in Article 5(5), in the case of varieties accepted in the Community or Switzerland after the entry into force of this Annex.

7. Paragraph 6 shall apply by analogy to varieties of the species covered by provisions added, pursuant to Article 4, to the list in Section 1 of Appendix 1 after the entry into force of this Annex.

8. The Parties may hold technical consultations with a view to assessing the implications for this Annex of derogations as referred to in paragraphs 1 to 4.

9. Paragraph 8 shall not apply where the Member States of the Community are responsible for deciding on derogations pursuant to the legislation listed in Section 1 of Appendix 1. Paragraph 8 shall not apply to derogations adopted by Switzerland in similar cases.;

7) Article 2 of Annex 7 is replaced by the following:

'Article 2

This Annex shall apply to wine-sector products, as defined in the legislation mentioned in Appendix 4.;

8) Articles 5, 6 and 7 of Annex 7 are replaced by the following:

'Article 5

1. The Parties shall take all necessary steps in accordance with this Annex to ensure mutual protection of the names referred to in Article 6 and used for the description and presentation of wine-sector products within the meaning of Article 2 originating in the territory of the Parties. To that end, each Party shall introduce the appropriate legal means to ensure effective protection and prevent geographical indications and traditional expressions from being used to describe wine-sector products not covered by the indication or expression concerned.

2. Subject to paragraphs 3 to 8, the protected names of the Parties shall be reserved exclusively for the products originating in the Party to which they apply and may be used only under the conditions laid down in the laws and regulations of that Party.

3. The protection referred to in paragraphs 1 and 2 rules out in particular any use of a protected name for wine-sector products referred to in Article 2 other than that for which the name is reserved, even if:

- the actual origin of the product is shown;
- a geographical indication is used in translation;
- the name is accompanied by terms such as "kind", "type", "style", "imitation", "method" or other similar expressions.

4. In the case of homonymous geographical indications:

- (a) where two indications protected under this Annex are homonymous, protection shall be granted to both of them, provided the consumer is not misled as to the actual origin of the wine-sector products;
- (b) where an indication protected under this Annex is homonymous with the name of a geographical area outside the territory of the Parties, the latter name may be used to describe and present a wine-sector product in the geographical area to which the name refers, provided it is traditionally and consistently used, its use for that purpose is regulated by the country of origin and consumers are not misled into believing that the wine originates in the territory of the Party concerned.

5. The protection of a traditional expression shall apply only to the language(s) in which it appears in Appendix 2.

6. The protection of a traditional expression shall apply only to the use thereof for the category or categories of wine with which it is linked in Appendix 2.

7. In the case of homonymous traditional expressions:

- (a) where two expressions protected under this Annex are homonymous, protection shall be granted to both of them, provided the consumer is not misled as to the actual origin of the wine-sector products;
- (b) where an expression protected under this Annex is homonymous with the name used for a wine-sector product not originating in the territory of the Parties, the latter name may be used to describe and present a wine-sector product, provided it is traditionally and consistently used, its use for that purpose is regulated by the country of origin and consumers are not misled into believing that the wine originates in the territory of the Party concerned.

8. The Committee may, where necessary, lay down practical conditions for use to enable a distinction to be drawn between the homonymous indications or expressions referred to in paragraphs 4 and 7, bearing in mind the need to treat the producers concerned fairly and to ensure that consumers are not misled.

9. The Parties hereby waive their right to invoke Article 24(4), (6) and (7) of the TRIPS Agreement in order to refuse to grant protection to a name from the other Party.

10. The exclusive protection provided for in paragraphs 1, 2 and 3 of this Article shall apply to the name "Champagne" on the Community list in Appendix 2 hereto. However, for a transitional period of two years from the entry into force of the Agreement on first June 2002, such exclusive protection shall not prevent the word "Champagne" from being used to describe and present certain wines originating in the Swiss canton of Vaud, provided that such wines are not marketed in Community territory and that the consumer is not misled as to the real origin of the wine.

Article 6

The following names shall be protected:

(a) as regards wine-sector products originating in the Community:

- terms referring to the Member State in which the wine-sector product originates,
- the specific terms appearing in Appendix 2,
- the geographical indications appearing in Appendix 2,
- the traditional expressions appearing in Appendix 2;

(b) as regards wine-sector products originating in Switzerland:

- the terms "Suisse", "Schweiz", "Svizzera", "Svizra" and any other name designating that country,
- the specific terms appearing in Appendix 2,
- the geographical indications appearing in Appendix 2,
- the traditional expressions appearing in Appendix 2.

Article 7

1. Registration of a trademark for a wine-sector product within the meaning of Article 2 which contains or consists of a geographical indication or a traditional expression protected under this Annex shall be refused if the product in question does not originate in:

- the place to which the geographical indication refers, or

- the place where the traditional expression is legitimately used.

Trademarks registered in breach of the first subparagraph shall be invalidated on the request of an interested party.

2. Trademarks the use of which corresponds to one of the situations referred to in paragraph 1 which have been applied for, registered or established by use in good faith in a Party (including Member States of the Community) before the date of protection of the other Party's geographical indication or traditional expression under this Agreement, may continue to be used notwithstanding the protection granted to the geographical indication or traditional expression which may be used alongside the trademark concerned.;

9) in Article 16 of Annex 7 the following paragraph 7 is added:

'7. The information contained in the analytical data bank of each Party, comprising the data obtained by analysing their respective wine-sector products, shall be made available to the laboratories designated for this purpose by the Parties, where they so request.

Communication of information shall relate only to the relevant analytical data required to interpret an analysis carried out on a sample of comparable characteristics and origin.;

10) Appendix 1 to Annex 7 is replaced by the new Appendix 1 set out in Annex II to this Agreement;

11) in Appendix 2(A)I to Annex 7, references to Council Regulation (EEC) No 823/87 and Council Regulation (EEC) No 4252/88 are replaced by: Council Regulation (EC) No 1493/1999 of 17 May 1999 on the common organisation of the market in wine (OJ L 179, 14.7.1999, p. 1), as last amended by Regulation (EC) No 1791/2006 of 20 November 2006 (OJ L 363, 20.12.2006, p. 1);

JOINT DECLARATION ON THE UPDATING OF ANNEXES 7 AND 8 TO THE AGREEMENT BETWEEN THE EUROPEAN
COMMUNITY AND THE SWISS CONFEDERATION ON TRADE IN AGRICULTURAL PRODUCTS

In view of the changes that have taken place in the Parties' legislation since the preparation and the adoption of the Agreement between the European Community and the Swiss Confederation amending the Agreement between the European Community and the Swiss Confederation on trade in agricultural products, the Parties undertake, in accordance with the procedures laid down in the Agreement, to continue rapidly with the updating of Annex 7 on trade in wine-sector products, on the one hand, and of Annex 8 on the mutual recognition and protection of names of spirit drinks and aromatised-wine based drinks, on the other hand, to take account of the changes in the *acquis communautaire* following the adoption by the European Parliament and the Council of Regulation (EC) No 479/2008 of 29 April 2008 on the common organisation of the market in wine (OJ L 148, 6.6.2008, p. 1) and Regulation (EC) No 110/2008 of 15 January 2008 on the definition, description, presentation, labelling and the protection of geographical indications of spirit drinks (OJ L 39, 13.2.2008, p. 16).

DECLARATION BY THE COMMUNITY ON SWITZERLAND'S METHOD OF ADMINISTERING ITS TARIFF QUOTAS

The Agreement between the European Community and the Swiss Confederation on trade in agricultural products (hereinafter 'the Agreement'), which entered into force on 1 June 2002, opens, *inter alia*, tariff quotas to facilitate trade in agricultural products between the Parties.

In the 'Joint Declaration on Switzerland's method of administering its tariff quotas for meat' annexed to the Agreement, the Parties state their intention of reviewing together Switzerland's method of administering its tariff quotas for meat in order to find a method of administration that is less of an obstacle to trade. No such review has, however, been carried out since 2002. The question of the method of administration by invitation to tender used by Switzerland has been raised regularly at meetings of the Agreement's Joint Committee on Agriculture. In that context the Community has complained on a number of occasions that the use of invitations to tender causes a reduction in the bilateral tariff preference granted, which results in an obstacle to trade.

The Community welcomes the opening of bilateral negotiations on the total liberalisation of bilateral trade in the agri-food sector. The liberalisation of trade will, in the long term, solve this problem. In view, however, of the expected duration of these negotiations and their implementation, the Community asks that in the meantime Switzerland's methods of administering its tariff quotas be adapted so as to reduce the obstruction of trade.
