REGULATIONS

COUNCIL REGULATION (EC) No 1047/2009

of 19 October 2009

amending Regulation (EC) No 1234/2007 establishing a common organisation of agricultural markets as regards the marketing standards for poultrymeat

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 37 thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the European Parliament ⁽¹⁾,

Whereas:

(1) Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽²⁾ lays down certain marketing standards for poultrymeat.

(2) Article 116 of Regulation (EC) No 1234/2007 provides that products of the poultrymeat sector are to be marketed in accordance with the provisions of Annex XIV to that Regulation.

(3) The marketing standards were developed to contribute to an improvement in the quality of poultrymeat and information relating thereto and, consequently, facilitate the sale of such meat. In particular, a definition of fresh poultrymeat that is more precise than in the legislation on food safety was introduced, with effect as from 1 July 1991, by Council Regulation (EEC) No 1906/90 of 26 June 1990 on certain marketing standards for poultry ⁽³⁾. Experience shows that there is a need to confirm the strict principle behind this definition and to make it even more explicit.

(4) In view of the fact that poultrymeat is being consumed increasingly in the form of meat preparations and products, the scope of the marketing standards for poultrymeat should be extended to include poultrymeat preparations and products.

(5) Similarly, poultrymeat in brine falling within CN code 0210 99 39 should also be covered by the marketing standards.

(6) Experience shows that in certain cases fresh poultrymeat preparations can easily substitute for fresh poultrymeat when they are presented for sale to the consumer. In order to avoid any distortion of competition between fresh poultrymeat and fresh poultrymeat preparations, it is appropriate to extend the principle behind the definition of fresh poultrymeat to fresh poultrymeat preparations.

(7) Under Community legislation on the labelling of foodstuffs, the labelling and the methods used must not be such as to mislead the purchaser, in particular as to the characteristics of the foodstuff, and particularly as to the nature of the product, its identity, properties, composition, quantity, durability, origin or provenance, or method of production or manufacture.

(8) Poultrymeat which has been frozen or quick-frozen must be sold in that state or be used in preparations marketed as frozen or quick-frozen, or in meat products.

(9) Since the subdivision of Class A into A 1 and A 2 and the subdivision of frozen poultrymeat by weight categories provided for in Regulation (EC) No 1234/2007 are not widely used in practice and therefore superfluous, these provisions should be abolished for the sake of simplification.

(10) Regulation (EC) No 1234/2007 should therefore be amended accordingly,

ANNEX

Part B of Annex XIV to Regulation (EC) No 1234/2007 is amended as follows:

1. paragraph 1 of Part I is replaced by the following:

‘1. Without prejudice to Part C of this Annex concerning the provisions on the production and marketing of eggs for hatching and of farmyard poultry chicks, these provisions shall apply to the marketing, within the Community by way of business or trade, of certain types and presentations of poultrymeat, and poultrymeat or poultry offal preparations and products, of the following species as set out in Part XX of Annex I:

- *Gallus domesticus*,
- ducks,
- geese,
- turkeys,
- guinea fowls.

These provisions shall also apply to poultrymeat in brine falling within CN code 0210 99 39 as referred to in Part XXI of Annex I;

2. Part II is amended as follows:

(a) points 2 and 3 are replaced by the following:

- ‘2. “fresh poultrymeat” means poultrymeat which has not been stiffened at any time by the cooling process prior to being kept at a temperature not below -2°C and not higher than $+4^{\circ}\text{C}$. However, Member States may lay down slightly different temperature requirements for the minimum length of time necessary for the cutting and handling of fresh poultrymeat performed in retail shops or in premises adjacent to sales points, where the cutting and handling are performed solely for the purpose of supplying the consumer directly on the spot;
- 3. “frozen poultrymeat” means poultrymeat which must be frozen as soon as possible within the constraints of normal slaughtering procedures and is to be kept at a temperature no higher than -12°C at any time;’

(b) the following points are added:

- ‘5. “poultrymeat preparation” means poultrymeat including poultrymeat that has been reduced to fragments, which has had foodstuffs, seasonings or additives added to it or which has undergone processes insufficient to modify the internal muscle fibre structure of the meat;
- 6. “fresh poultrymeat preparation” means a poultrymeat preparation for which fresh poultrymeat has been used. However, Member States may lay down slightly different temperature requirements to be applied for the minimum length of time necessary and only to the extent necessary to facilitate the cutting and handling performed in the factory during the production of fresh poultrymeat preparations;
- 7. “poultrymeat product” means a meat product as defined in point 7.1 of Annex I to Regulation (EC) No 853/2004 for which poultrymeat has been used;’

3. Part III is amended as follows:

(a) the second subparagraph of paragraph 1 is deleted;

(b) the introductory phrase of paragraph 2 is replaced by the following:

‘Poultrymeat and poultrymeat preparations shall be marketed in one of the following conditions;’

(c) paragraph 3 is deleted.

COUNCIL REGULATION (EC) No 1048/2009**of 23 October 2009****amending Regulation (EC) No 733/2008 on the conditions governing imports of agricultural products originating in third countries following the accident at the Chernobyl nuclear power station**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 133 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) Regulation (EC) No 733/2008 of 15 July 2008 ⁽¹⁾, which is the codified version of repealed Regulation (EEC) No 737/90 of 22 March 1990 on the conditions governing imports of agricultural products originating in third countries following the accident at the Chernobyl nuclear power station ⁽²⁾, fixed maximum permitted levels of radioactivity for agricultural products originating in third countries and intended for human consumption, with which imports must comply and in connection with which checks are carried out by the Member States. However, Regulation (EC) No 733/2008 expires on 31 March 2010.
- (2) Radioactive caesium contamination of certain products originating in the third countries most affected by the Chernobyl accident still exceeds the maximum permitted levels of radioactivity laid down in Regulation (EC) No 733/2008.
- (3) There is scientific evidence that the duration of caesium-137 contamination following the Chernobyl accident, for a number of products originating from species living and

growing in forests and wooded areas, essentially relates to the physical half-life of that radionuclide, which is 30 years.

- (4) Regulation (EC) No 733/2008 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

Article 1

The second paragraph of Article 7 of Regulation (EC) No 733/2008 shall be replaced by the following:

‘It shall expire:

1. on 31 March 2020, unless the Council decides otherwise at an earlier date, in particular if the list of excluded products referred to in Article 4 covers all the products fit for human consumption to which this Regulation applies;
2. upon the entry into force of the Commission Regulation referred to in Article 2(1) of Regulation (Euratom) No 3954/87, if such entry into force takes place before 31 March 2020.’

Article 2

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Luxembourg, 23 October 2009.

COMMISSION REGULATION (EC) No 1050/2009

of 28 October 2009

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for azoxystrobin, acetamiprid, clomazone, cyflufenamid, emamectin benzoate, famoxadone, fenbutatin oxide, flufenoxuron, fluopicolide, indoxacarb, ioxynil, mepanipyrim, prothioconazole, pyridalyl, thiacloprid and trifloxystrobin in or on certain products

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1) thereof,

Whereas:

- (1) For azoxystrobin, acetamiprid, famoxadone, fenbutatin oxide, indoxacarb, ioxynil, mepanipyrim, thiacloprid and trifloxystrobin maximum residue levels (MRLs) were set in Annexes II and III to Regulation (EC) No 396/2005. For clomazone, cyflufenamid, flufenoxuron, fluopicolide and prothioconazole, MRLs were set in Annex III to Regulation (EC) No 396/2005. For emamectin benzoate and pyridalyl no specific MRLs were set nor were the substances included in Annex IV to Regulation (EC) No 396/2005.
- (2) In the context of a procedure, in accordance with Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market ⁽²⁾, for the authorisation of the use of a plant protection product containing the active substance azoxystrobin on beet leaves and broccoli an application was made under Article 6(1) of Regulation (EC) No 396/2005 for modifications of the existing MRLs.
- (3) As regards acetamiprid, such an application was made for the use on cress, spinach and herbs, except parsley. As regards clomazone, such an application was made for the use on herbs. As regards cyflufenamid, such an application was made for the use on oats. In view of that application, it is also necessary to modify the existing MRLs for animal products, since this cereal is used as feed. As regards emamectin benzoate, such an appli-

cation was made for the use on pome fruit, peaches and nectarines, table and wine grapes, strawberries, tomatoes, aubergines, pepper, cucurbits (edible and inedible peel), cauliflower, broccoli, head cabbage, lettuce and other salad plants, scarole, herbs, fresh beans (with and without pods), peas with pods and artichokes. As regards famoxadone, such an application was made for the use on flowers of herbal infusions. As regards fenbutatin oxide, such an application was made for the use on tomatoes. As regards indoxacarb, such an application was made for the use on small fruits and berries except gooseberries and currants. As regards ioxynil, such an application was made for the use on rye and triticale. In view of that application, it is also necessary to modify the existing MRLs for meat, liver, kidney and fat from bovines, sheep and goats, since those cereals are used in feed for these animals. As regards mepanipyrim, such an application was made for the use on courgette. As regards prothioconazole, such an application was made for the use on head cabbage and Brussels sprouts. As regards pyridalyl, such an application was made for the use on tomatoes, aubergines, peppers, cucurbits (inedible peel), lettuce and cotton seed. As regards thiacloprid, such an application was made for the use on leeks and spring onions. As regards trifloxystrobin, such an application was made for the use on head cabbage, celery, blue berries, lettuce, herbs, scarole and Brussels sprouts.

- (4) In accordance with Article 6(2) of Regulation (EC) No 396/2005 applications were made for flufenoxuron on tea, fluopicolide on peppers and for trifloxystrobin on passion fruit. The authorised use of flufenoxuron on tea shrubs in Japan leads to higher residues than the present MRL in Annex III. To avoid trade barriers for the importation of Japanese tea, a higher MRL is necessary. The authorised use of fluopicolide on pepper plants in the USA leads to higher residues than the present MRL in Annex III. To avoid trade barriers for the importation of American peppers, a higher MRL is necessary. The authorised use of trifloxystrobin on passion fruit in Kenya leads to higher residues than the present MRL in Annex III. To avoid trade barriers for the importation of Kenyan passion fruits, a higher MRL is necessary.
- (5) In accordance with Article 8 of Regulation (EC) No 396/2005, these applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission.

- (6) The European Food Safety Authority, hereinafter 'the Authority', assessed the applications and the evaluation reports, examining in particular the risks to the consumer and where relevant to animals and gave reasoned opinions on the proposed MRLs ⁽³⁾. It forwarded these opinions to the Commission and the Member States and made them available to the public.
- (7) The Authority concluded in its reasoned opinions that all requirements with respect to data were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. It took into account the most recent information on the toxicological properties of the substances. Neither the lifetime exposure to these substances via consumption of all food products that may contain these substances, nor the short term exposure due to extreme consumption of the relevant crops showed that there is a risk that the acceptable daily intake (ADI) or the acute reference dose (ARfD) is exceeded. Where the Authority recommended two MRL values for the same pesticide-product combination as two different 'risk management options', the Commission always opted for the lowest MRL in line with recital 5 of Regulation (EC) No 396/2005. In the case of flufenoxuron and tea, additional information provided by France about registered uses made it possible to conclude that the new MRL does not lead to a chronic health risk.
- (8) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the requested modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health and neither the European Parliament nor the Council has opposed them,
- HAS ADOPTED THIS REGULATION:
- Article 1*
- Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.
- Article 2*
- This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

1. A new four-wheeled vehicle (so-called 'All Terrain Vehicle') with a spark-ignition internal combustion piston engine with a power of approximately 15 kW, and a dry weight of approximately 310 kg. The vehicle has the following characteristics: — a single seat of a length of approximately 600 mm accommodating the driver only, — motorcar type steering system based on the Ackerman principle controlled by a handlebar, — brakes on the front and rear wheels, — an automatic clutch and reverse gear, — an engine specially designed for use in difficult terrain and capable in low ratio of delivering sufficient power, — a power transmission shaft drive to the rear wheels, — tyres with a deep tread design for off-road use, — a hole with fittings for attaching various coupling devices, — a towing capacity of approximately 1 170 kg (non-braked), and — a permanently attached winch suitable for hauling logs. The vehicle is constructed essentially for carrying out forestry work. The various coupling devices are presented together with the vehicle	8701 90 11	Classification is determined by General Rules 1 and 6 for the interpretation of the Combined Nomenclature, Note 2 to Chapter 87 and the wording of CN codes 8701, 8701 90 and 8701 90 11 As the vehicle is equipped with a hole with fittings for attaching various coupling devices and shaft drive to the wheels, its intended use is to carry out work in difficult terrain and to haul or push other vehicles, appliances or loads (Note 2 to Chapter 87) Classification under heading 8703 is excluded as the vehicle meets the definition of Note 2 to Chapter 87 and is able to haul or push at least twice its dry weight (non-braked) (see also the CN Explanatory Notes to subheadings 8701 90 11 to 8701 90 90) The winch gives the vehicle the character of a forestry tractor (see also the CN Explanatory Notes to subheadings 8701 90 11 to 8701 90 50) The vehicle is therefore to be classified under CN code 8701 90 11

COMMISSION REGULATION (EC) No 1055/2009**of 5 November 2009****amending Regulation (EC) No 951/2006 laying down detailed rules for the implementation of Council Regulation (EC) No 318/2006 as regards trade with third countries in the sugar sector**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾ and in particular Articles 85 and 161(3), in conjunction with Article 4 thereof,

Whereas:

- (1) Commission Regulation (EC) No 951/2006 ⁽²⁾, lays down detailed rules for out-of-quota exports in the sugar sector.
- (2) To ensure that Community operators can supply their export markets with out-of-quota sugar or isoglucose throughout the marketing year, it is necessary to clarify that sugar or isoglucose produced under quota may temporarily be sold, when market conditions so require, as out-of-quota production. This mechanism of equivalence should also apply when producers of quota and out-of-quota sugar or isoglucose are located in different Member States.
- (3) To ensure legal certainty and equal treatment of operators in each Member State it is appropriate to clarify that the out-of-quota sugar or isoglucose exported within the quantitative limit fixed for a given marketing year does not necessarily have to be produced during the same marketing year.
- (4) Article 7b(3) of Regulation (EC) No 951/2006 provides that applications for export licences shall be submitted each week, from Monday to Friday, starting on the date of entry into force of the Regulation fixing the quantitative limit pursuant to Article 12(d) of Council Regulation (EC) No 318/2006 ⁽³⁾ (replaced by Article 61, first paragraph, point (d) of Regulation (EC) No 1234/2007) and until the issue of licences is discounted in accordance with Article 7e of Regulation (EC) No 951/2006. It is appropriate to clarify that when the Regulation fixing the quantitative limit applies on a date other than the date of its entry into force, the applications for export licences can be submitted from the date that the said Regulation becomes applicable.

- (5) Article 7b(4) of Regulation (EC) No 951/2006 provides that applicants may submit one application for export licence per week. The quantities applied for in respect of each license may not exceed 20 000 tonnes for sugar and 5 000 tonnes for isoglucose. Experience shows that the weekly maximum limit fixed for sugar is not sufficient and it is therefore appropriate to increase this quantity.
- (6) According to Article 8a of Regulation (EC) No 951/2006, export licences issued for out-of-quota sugar or isoglucose are valid from the actual day of issue until 30 September of the marketing year in respect of which they were issued. Producers who apply for licences at the end of the marketing year should be given sufficient time to export their production. For this reason, the period of validity of export licences should be modified and established in the end of the fifth month following the date of their issue. Taking into account that these new provisions are published after the start of the 2009/2010 marketing year it is necessary to lay down specific rules in respect of the export licences issued during this marketing year.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for the Common Organisation of Agricultural Markets,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 951/2006 is amended as follows:

1. in Chapter IIa, the following Articles 4d and 4e are added:

*'Article 4d***Equivalence**

Sugar or isoglucose produced under quota can be used as an equivalent of out-of-quota production. If the under-the-quota production is used as an equivalent of an out-of-quota production, it can accordingly be exported pursuant to the rules laid down in Article 61, first paragraph, point (d) of Council Regulation (EC) No 1234/2007 ^(*). This mechanism of equivalence shall also apply if producers of quota and out-of-quota sugar or isoglucose are located in different Member States.

⁽²⁾ OJ L 178, 1.7.2006, p. 24.

⁽³⁾ OJ L 58, 28.2.2006, p. 1.

*Article 4e***Year of production**

Sugar or isoglucose exported under licences issued in respect of the quantitative limit referred to in Article 61(d) of Regulation (EC) No 1234/2007 may be produced in a marketing year which is different to the one to which the export licence applies.

(*) OJ L 299, 16.11.2007, p. 1.;

2. in Article 7b, paragraphs 3 and 4 are replaced by the following:

‘3. Applications for export licences shall be submitted each week, from Monday to Friday, starting on the date of application of the Regulation fixing the quantitative limit pursuant to Article 61, first paragraph, point (d) of Regulation (EC) No 1234/2007 and until the issue of licences is discounted in accordance with Article 7e of this Regulation.

4. Applicants may submit one application for export licence per week. The quantity applied for in respect of each export licence shall not exceed 50 000 tonnes in the case of sugar and 5 000 tonnes in the case of isoglucose.’

3. Article 8a is replaced by the following:

*‘Article 8a***Validity of export licences for out-of-quota exports**

By way of derogation from the provisions of Article 5 of this Regulation, export licences issued in respect of the quantitative limit fixed pursuant to Article 61, first paragraph, point (d) of Regulation (EC) No 1234/2007 shall be valid as follows:

- (a) licences issued between 1 October 2009 and 31 March 2010 shall be valid until 30 September 2010;
- (b) licences issued as from 1 April 2010 shall be valid as of their date of issue until the end of the fifth following month.’

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Union*.

Point 1 of Article 1 shall apply as from 1 October 2009.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 1056/2009
of 5 November 2009
fixing the export refunds on milk and milk products

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾, and in particular Article 164(2), in conjunction with Article 4, thereof,

Whereas:

- (1) Article 162(1) of Regulation (EC) No 1234/2007 provides that the difference between prices on the world market for the products listed in Part XVI of Annex I to that Regulation and prices for those products on the Community market may be covered by an export refund.
- (2) Given the present situation on the market in milk and milk products, export refunds should be fixed in accordance with the rules and certain criteria provided for in Articles 162, 163, 164, 167, 169 and 170 of Regulation (EC) No 1234/2007.
- (3) Article 164(1) of Regulation (EC) No 1234/2007 provides that export refunds may vary according to destination, especially where the world market situation, the

specific requirements of certain markets or obligations resulting from agreements concluded in accordance with Article 300 of the Treaty make this necessary.

- (4) Export refunds for the Dominican Republic have been differentiated to take into account the reduced custom duties applied on imports under the import tariff quota under the Memorandum of Understanding between the European Community and the Dominican Republic on import protection for milk powder in the Dominican Republic ⁽²⁾, approved by Council Decision 98/486/EC ⁽³⁾. Due to a changed market situation in the Dominican Republic, characterised by increased competition for milk powder, the quota is no longer fully used. In order to maximise the use of the quota, the differentiation of export refunds for the Dominican Republic should be abolished.
- (5) The Management Committee for the Common Organisation of Agricultural Markets has not delivered an opinion within the time limit set by its Chair,

HAS ADOPTED THIS REGULATION:

Article 1

Export refunds as provided for in Article 164 of Regulation (EC) No 1234/2007 shall be granted on the products and for the amounts set out in the Annex to this Regulation, subject to the conditions provided for in Article 3(2) of Commission Regulation (EC) No 1282/2006 ⁽⁴⁾.

Article 2

This Regulation shall enter into force on 6 November 2009.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 1059/2009**of 5 November 2009****fixing the rates of the refunds applicable to milk and milk products exported in the form of goods not covered by Annex I to the Treaty**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (single CMO Regulation) ⁽¹⁾, and in particular Article 164(2) thereof,

Whereas:

- (1) Article 162(1)b of Regulation (EC) No 1234/2007 provides that the difference between prices in international trade for the products referred to in Article 1(1)(p) and listed in Part XVI of Annex I to that Regulation and prices within the Community may be covered by an export refund where these goods are exported in the form of goods listed in Part IV of Annex XX to that Regulation.
- (2) Commission Regulation (EC) No 1043/2005 of 30 June 2005 implementing Council Regulation (EC) No 3448/93 as regards the system of granting export refunds on certain agricultural products exported in the form of goods not covered by Annex I to the Treaty, and the criteria for fixing the amount of such refunds ⁽²⁾, specifies the products for which a rate of refund is to be fixed, to be applied where these products are exported in the form of goods listed in Part IV of Annex XX to Regulation (EC) No 1234/2007.
- (3) In accordance with the second paragraph, subparagraph (a) of Article 14 of Regulation (EC) No 1043/2005, the rate of the refund per 100 kilograms for each of the basic products in question is to be fixed for a period of the same duration as that for which refunds are fixed for the same products exported unprocessed.
- (4) Article 162(2) of Regulation (EC) No 1234/2007 lays down that the export refund for a product contained in a good may not exceed the refund applicable to that product when exported without further processing.
- (5) In the case of certain milk products exported in the form of goods not covered by Annex I to the Treaty, there is a danger that, if high refund rates are fixed in advance, the commitments entered into in relation to those refunds may be jeopardised. In order to avert that danger, it is therefore necessary to take appropriate precautionary measures, but without precluding the conclusion of long-term contracts. The fixing of specific refund rates for the advance fixing of refunds in respect of those products should enable those two objectives to be met.
- (6) Article 15(2) of Regulation (EC) No 1043/2005 provides that, when the rate of the refund is being fixed, account is to be taken, where appropriate, of aids or other measures having equivalent effect applicable in all Member States in accordance with the Regulation on the common organisation of the agricultural markets to the basic products listed in Annex I to Regulation (EC) No 1043/2005 or to assimilated products.
- (7) Article 100(1) of Regulation (EC) No 1234/2007 provides for the payment of aid for Community-produced skimmed milk processed into casein if such milk and the casein manufactured from it fulfil certain conditions.
- (8) The Management Committee for the Common Organisation of Agricultural Markets has not delivered an opinion within the time limit set by its Chair,

HAS ADOPTED THIS REGULATION:

Article 1

The rates of the refunds applicable to the basic products listed in Annex I to Regulation (EC) No 1043/2005 and in Part XVI of Annex I to Regulation (EC) No 1234/2007, and exported in the form of goods listed in Part IV of Annex XX to Regulation (EC) No 1234/2007, shall be fixed as set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on 6 November 2009.

⁽¹⁾ OJ L 299, 16.11.2007, p. 1.

⁽²⁾ OJ L 172, 5.7.2005, p. 24.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
